Row Indians Climbs Trees.

In South America even the weakest woman may be, not uncommonly, seen plucking the fruit at the tree-tops. If the bark is so smooth and slippery that they cannot go climbing, they use other means. They make a hoop of wild vines, and putting their feet inside, they use it as a support in climbing. The negro of the west coast of Africa The negro of the west coast of Africa makes a larger hoop, round the tree, and gets inside of it and jerks it up the trunk with his hands, a little at a time, drawing up his legs after it. The Tibitian boys tie their feet together, four or five inches apart, with a piece of paim bark, and with the aid of this fetter go up the cocoa palms to gather nuts. The native women in Australia climb the gum trees after opossoms. Where the bark is rough they chop holes with a hatchet; then one throws about the tree a rope twice as long as will go around it, puts her hatchet on her cropped head, and, placing her feet against the tree and grasping the rope with her hands, she hitches it up by jerks, and pulls herself up the enormens trunk almost as fast as a man will climb a ladder. climb a ladder.

HEART DISEASE, -Many persons suffer with heart disease without knowing it—
suddenly they drop off, and their friends
are astonished, on a post mortem examination, to learn that they died of heart
disease. The heart, like the brain, is
the seat of life—its diseases are of seyeral characters. The most convent are the seat of life—its diseases are of sev-eral characters. The most common are valvular disease, faity degeneration, and functional derangement. If the liver becomes deranged and digestion is im-paired, the heart, through sympathy and juxtaposition, becomes abnormal. The following symptoms indicate ap-proaching disease: pulpitation, giddi-ness, faintness, nervous prostration, de-ranged digestion, vertigo, cold extreminess, faintness, nervous prostration, de-ranged digestion, vertigo, cold extremi-ties, etc., etc., for which the old school will administer iron, opium, antimony, mercury, and many other mineral pois-ons. Orstens when in perfection are from five to seven years old. An oysterman can tell the age of a bivalve by counting the successive layers or plates overlapping each other, each of which is a shoot, and indicates a year's growth. Judging from the size and thickness which some shells attain, an oyster may be capable of arriving at the respectable age of three score, and not be the Me-thusaleh of his tribe then.

SYMPTOMS OF CATARBH.—Obstruction

Symptoms of Catambi.—Obstruction of masal passages, discharge falling into throat, sometimes profuse, water, acrid, or thick and tenscione, mueous, pur alent, bloody, putrid, offensive, etc. In others a dryneas, weak or inflamed eyes, ringing in ears, deafness, discrations, scales from ulcers, voice altered, masal twang, offensive breath, impured smell and taste, etc. Few only of above symptoms likely to be present in any case at one time.

To cure—take Dr. Pierce's Golden Medical Discovery carnestly, to correct the blood and system, which are always at fault, also to act specifically, as it does, upon the diseased glands and lining membrane of the nose and its communicating eliambers. The more I see of this odious disease, the more positive is my belief that if we would make treatment perfectly successful in exciting H, we must use constitutional treatment to act through the blood, as well as a soothing and healing local application. Dr. Sage's Catarth Remedy, when used warm and applied with Dr. Pierce's Nasal Bouche, effects cures upon "common reuse," rational and retentile principles, by its mild, soothing and healing properties, to which the disease actually yields, when the system has been put in perfect order by the use of the Golden Medical Discovery. The Science of Health.

The December number of this useful magarine is, as usual, filled with many excellent and timely hints upon the all-important subject of health, and the many elements which enter into its consideration. Among the contents of the present number are "The Potential Set," "The Model School-Giri;" "What We Want for Health, Comfort, and Improvement at This Season of the Year." L. E. L. considers "Woman's Dress;" and the remaining articles are "Disease and Its Treatment;" "Cenceits of Convalescence;" "Walking as a Medicine, and How to Take It;" "Occupation as Affecting Longevity;" "Seasonable Dishes," on Hygleine P. inciples; "How to Go to Bed;" "California Fruits; "Yellow Fever;" "Cold Feet, and How to Keep Them Warm." All these subjects are of interest to old and young, and cannot fail to insure for the Science of Health a continued success.

A True Friend of Reform.

The Chicago Tribune was about the first newspaper of prominence in the United States to cut loose from the leadership of a corrupt body of men who had obtained control of the Republican party, and were dragging it down to the lowest depths of degradation, and destroying the most vital interests of the people. No doubt it cost the Tribune a pang to thus virtually cut loose from a party which it had been one of the boldest and ablest champions. But it chose to cling to the principles of the party, rather than to the party man existent its embance. A terrible outery was raised at the time that the Tribune had apostacized, and dire vengeance was visited upon it by many Republicans who have since pot their oyes open, and now realize that it was only timely leading, where they have since hastened to follow. The Tribune was then, and is now, the fast friend of the producing classes of this country, and the foe of corrupt and designing men. Hence it is with pleasure we call attention to its promposition in another column, and commend it to all who wish to subscribe for an able, honest and fearless fournal that is fully up to the requirements of the time.—Waukeyan (Ill.) Pairiot. A True Friend of Reform

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the na-tive herbs found on the lower ranges of the Sierra Nevada mountains of Califorthe Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Vinegar Bitters;" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Vinegar Bitters in healing the sick of every disease man is held to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Billous Diseases.

The properties of Dr. Walker's Vinegar Bitters are Aperient, Disphoretic, Carminative, Nutritions, Laxative, Dinretic, Sedative, Counter-Irritant, Sudorific, Altera-tive, and Anti-Bilions.

In their and other abdominal viscera. In their reatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Head-ache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Month, Bilious Attacks, Palpita-tation of the Heart, Inflammation of the Lungs, Pain in the region of the Kid-neys, and a hundred other painful symp-toms, are the offsprings of Dyspepsia.
