**Legal Printing.**—Persons having legal advertising to do, should remember that it is not necessary that it should be published at the county seat—any paper published in the county will answer. In all matters transpiring in this vicinity, the interest of the advertisers will be better served, by having the notices published in their home paper, than to take them to a paper that is not as generally read in their vicinity, besides it is the duty of every one to support home institutions as much as possible.

**CHELSEA HERALD.**

CHELSEA, NOVEMBER 20, 1879.

From the "Cricket on the Hearth."  
**The Sweet Sunny Smile of My Darling.**

Is the rarest of treasures to me;  
'Tis my fondest delight, by day and by night,  
This dear little dew-drop to see.  
Her voice is as soft as a zephyr,  
The sun's golden rays tinge her hair,  
The tint of the skies is seen in her eyes,  
Oh, she is an angel fair.

The sweet, sunny smile of my darling  
Is my beacon by day and by night;  
And when she is near, I see in my dear,  
A glance that is charming and bright.  
Her heart is as pure as a lily,  
It's beating with fond love for me,  
Her face is as light as moonbeams at night,  
That peep through the linden tree.

The sweet, sunny smile of my darling  
Is the brightest I ever have seen;  
And when we're apart, it shines thro' my heart,  
And cheers the lone moments between.  
Her step is as light as a fairy's,  
Her hands are as white as the snow,  
The smile of my pet I ne'er can forget,  
'Tis near me where'er I go.

**An Instrument by which the Deaf can Hear.**

The invention was suggested by some of Edison's experiments with the telephone. The inventor is himself a deaf man. The andiphone "is in shape like a square Japanese fan, and is made of a composition, the major portion of which is vulcanite. At the back there is a cord stretching from the upper edge to the handle. By means of this cord the instrument is covered, and tuned like a violin, and the tension is regulated according to the distance the sound has to travel. The upper edge of the andiphone is placed against the two upper teeth, and the vibrations received on its surface are conveyed by the medium of the teeth to the acoustic nerves, and produce upon them an action similar to the action produced by sound upon the drum of the ear." A person using the andiphone seems to be simply pressing to a curve the top of a fan against the upper teeth. Experiments were made with it by deaf persons and deaf mutes, in the presence of Dr. Gray, of the Interior; Dr. Talladay, of the Medical Times; Professor Swing, Rev. L. M. Stone, and others, with entire success. The totally deaf made signs that they could hear, and the partially deaf declared that they could hear perfectly ordinary conversation. Professor Embury, a deaf mute, "was so astounded to hear, for the first time in his life the sound of his own voice that he had to leave the room to hide his emotion." The Rev. Mr. Gilbert, of the Advance, says, "We saw persons hear sounds thus who never before knew what sound was." The editor of the North-Western Christian Advocate says, "The andiphone enables those who are partially deaf to hear with nearly or quite the perfection of those who are in complete possession of the sense of hearing." The Hon. Joseph Medill, of the Tribune, who has been quite deaf for a number of years, says the andiphone restores to him the sense of hearing, and that "not merely does it answer when engaged in conversation with a person who is a foot or a few feet from him, but it answers perfectly at a concert. Each note of the musician and each tone of the singer come as clearly and distinctly as they did before the sense of hearing was impaired."

**THE SUN FOR 1880.**

The Sun will deal with the events of the year 1880 in its own fashion, now pretty well understood by everybody. From January 1st until December 31st it will be conducted as a newspaper written in the English language, and printed for the whole people.

As a newspaper, THE SUN believes in getting the news of the world promptly, and presenting it in the most intelligible shade—the shape that will enable its readers to keep well abreast of the age with the least unproductive expenditure of time. It is the law controlling its daily make-up. It now has a circulation very much larger than that of any other American newspaper, and enjoys an income which it is at all times prepared to spend liberally for the benefit of its readers. People of all conditions of life and all ways of thinking buy and read THE SUN; and they all derive satisfaction of some sort from its columns, for they keep on buying and reading it.

In its comments on men and affairs, THE SUN believes that the only guide of policy should be common sense, inspired by genuine American principles and backed by honesty of purpose. For this reason it is, and will continue to be, absolutely independent of party, class, clique, organization, or interest. It is for all, but of none. It will continue to praise what is good, and reprobate what is evil, taking care that its language is to the point and plain, beyond the possibility of being misunderstood. It is unimpaired by motives that do not appear on the surface; it has no opinions to sell, save those which may be had by any purchaser with two cents. It hates injustice and rascality even more than it hates unnecessary words. It abhors frauds, plies fools, and deplores nincompoops of every species. It will continue throughout the year 1880 to chase the first-class, instruct the second, and chastise the third. All honest men with honest convictions, whether sound or mistaken, are its friends. And THE SUN makes no bones of telling the truth to its friends and about its friends whenever occasion arises for plain speaking.

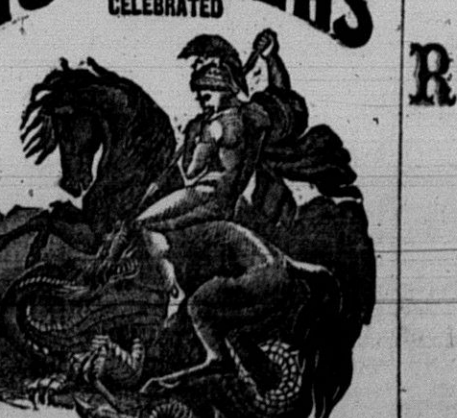

These are the principles upon which THE SUN will be conducted during the year to come.  
The year 1880 will be one in which no patriotic American can afford to close his eyes to public affairs. It is impossible to exaggerate the importance of the political events which it has in store, or the necessity of resolute vigilance on the part of every citizen who desires to preserve the Government that the founders gave us. The debates and acts of Congress, the utterances of the press, the exciting contests of the Republican and Democratic parties, now nearly equal in strength throughout the country, the varying drift of public sentiment, will all bear directly and effectively upon the twenty-fourth Presidential election, to be held in November. Four years ago next November, the will of the nation, as expressed at the polls, was thwarted by an abominable conspiracy, the promoters and beneficiaries of which still hold the offices they stole. Will the crime of 1876 be repeated in 1880? The past decade of years opened with a corrupt, extravagant, and insolent Administration, trampled at Washington. THE SUN did something toward dislodging the gang and breaking its power. The same men are now intruding to restore their leader and themselves to places from which they were driven by the indignation of the people. Will they succeed? The coming year will bring the answers to these momentous questions. THE SUN will be on hand to chronicle the facts as they are developed, and to exhibit them clearly and fearlessly in their relations to expediency and right. Thus, with a habit of philosophical good humor in looking at the minor affairs of life, and in great things a steadfast purpose to maintain the rights of the people and the principles of the Constitution against all aggressors, THE SUN is prepared to write a truthful, instructive, and entertaining history of 1880.

Our rates of subscription remain unchanged. For the DAILY SUN, a four-page sheet of twenty-eight columns, the price by mail, post paid, is 55 cents a month, or \$6.50 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents a month, or \$7.70 a year, postage paid.

The Sunday edition of THE SUN is also furnished separately at \$1.20 a year, postage paid.

The price of the WEEKLY SUN, eight pages, fifty-six columns, is \$1 a year, postage paid. For clubs of ten sending \$10 we will send an extra copy free.

**Cathartic Pills**

Combine the choicest cathartic principles in medicine, in proportions accurately adjusted to secure activity, certainty, and uniformity of effect. They are the result of years of careful study and practical experience, and are the most effective remedy yet discovered for diseases, caused by derangement of the stomach, liver, and bowels, which require prompt and effectual treatment. AYER'S PILLS are especially applicable to this class of diseases. They act directly on the digestive and assimilative processes, and restore regular healthy action. Their extensive use by physicians in their practice, and by all civilized nations, is one of the many proofs of their value as a safe, sure, and perfectly reliable purgative medicine. Being compounded of the concentrated virtues of purely vegetable substances, they are positively free from calomel, or any injurious properties, and can be administered to children with perfect safety.

As a Dinner Pill they have no equal. While gentle in their action, these PILLS are the most thorough and searching cathartic that can be employed, and never give pain unless the bowels are inflamed, and then their influence is healing. They stimulate the appetite and digestive organs; they operate to purify the blood, and impart renewed health and vigor to the whole system.
