Correspondents will please write on one side of the paper only. No communication will be published unless accompanied with the real name and address of the author, which we require, not for publication, but as an evidence of good faith.

All communications should be addressed to "THE HERALD," Chelsea, Washenaw Co., Mich.

Legal Printing.—Persons having legal advertising to do, should remember that it is not necessary that it should be published at the county seat—any paper published in the county will answer. In all matters transpiring in this vicinity, the interest of the advertisers will be better served, by having the notices published in their home paper, than to take them to a paper that is not as generally read in their vicinity, besides it is the duty of every one to support home institutions as much as possible.

CHELSEA HERALD.
CHELSEA, NOVEMBER 27, 1879.

A Plea for the "Higher Education" of Cooks.

WHAT are some of the things that every cook, who prepares the food for any family, ought to know? Unless the whole routine of her work be haphazard and unreliable, she should have intelligent and well-defined opinions concerning the relations of food to physical growth, so she can furnish that which is best adapted to the whole household, fit to build up symmetrical and healthful bodies for the children, as well as to give to the mature workers in the family the necessary nutriment to keep good the balance between supply and demand. The children should not fail to develop properly because of her ignorance of their needs. The father should never give out more strength and vitality in his struggle with the world than she can make good to him as she prepares his daily food. All this implies a practical application of the principles taught in physiology and chemistry, as well as a knowledge of the kind and quality of nourishment stored in plants, fish, and fowl. Earth, air and sea furnish her with materials which she must understand how to prepare, so that it can be easily transformed into bone, blood and muscle in such proportions that each shall have its proper development. She must be both too wise and too humane to concoct any dish, or brew any drink, that will induce dyspepsia, headache, or dullness. Never until cooks give more time to the mastery of such studies will cookery take its proper place among sciences. These bodies of ours are exceedingly complicated and delicate machines, not to be safely tampered with by bunglers. A blacksmith can undertake with greater impunity to make a watch, than an ignorant and untrained housewife to build up without knowledge and without skill a symmetrical and perfectly developed human body.

And when the value of these bodies, not only as physical organisms but as related to mental growth, is fully appreciated, the work of the skilled cook will rank with that of other great scientists, and more than this, with that of other great philanthropists. It is not extravagant to say that the progress of humanity toward true perfection depends largely on this branch of domestic economy. How much thought, time and study are given now to the proper food for fine stock? Here in our own laboratory extensive analyses of grasses, grains, etc., have been made in order to determine which will most rapidly and healthfully stimulate the growth of cattle and swine. Surely we owe as much care to our children as to our herds. It is certainly true that just in proportion to the advance of any people in civilization, will be the advance of care and skill in the preparation of food. It is therefore worthy of absorbing study. Health, mental vigor, virtue and happiness depend more closely than we are apt to imagine on the cook, who reigns in our kitchen.

THE SUN FOR 1880.

THE SUN will deal with the events of the year 1880 in its own fashion, now pretty well understood by everybody. From January 1st until December 31st it will be conducted as a newspaper written in the English language, and printed for the whole people.

As a newspaper, THE SUN believes in getting all the news of the world promptly, and presenting it in the most intelligible shape—the shape that will enable its readers to keep well abreast of the age with the least unproductive expenditure of time. The greatest interest to the greatest number—that is the law controlling its daily make-up. It now has a circulation very much larger than that of any other American newspaper, and enjoys an income which it is at all times prepared to spend liberally for the benefit of its readers. People of all conditions of life and all ways of thinking buy and read THE SUN, and they all derive satisfaction of some sort from its columns, for they keep on buying and reading it.

In its comments on men and affairs, THE SUN believes that the only guide of policy should be common sense, inspired by genuine American principles and backed by honesty of purpose. For this reason it is, and will continue to be, absolutely independent of party, class, clique, organization, or interest. It is for all, but of none. It will continue to praise what is good, and reprobate what is evil, taking care that its language is to the point and plain, beyond the possibility of being misunderstood. It is uninfluenced by motives that do not appear on the surface; it has no opinions to sell, save those which may be had by any purchaser with two cents. It hates injustice and rascality even more than it hates unnecessary words. It abhors frauds, pities fools, and deprecates nincompoops of every species. It will continue throughout the year 1880 to chastise the first class, instruct the second, and discountenance the third. All honest men, with honest convictions, whether sound or mistaken, are its friends. And THE SUN makes no bones of telling the truth to its friends and about its friends whenever occasion arises for plain speaking.

These are the principles upon which THE SUN will be conducted during the year to come.

The year 1880 will be one in which no patriotic American can afford to close his eyes to public affairs. It is impossible to exaggerate the importance of the political events which it has in store, or the necessity of resolute vigilance on the part of every citizen who desires to preserve the Government that the founders gave us. The debates and acts of Congress, the utterances of the press, the exciting contests of the Republican and Democratic parties, now nearly equal in strength throughout the country, the varying drift of public sentiment, will all bear directly and effectively upon the twenty-fourth Presidential election to be held in November. Four years ago next November, the will of the nation, as expressed at the polls, was thwarted by an abominable conspiracy, the promoters and beneficiaries of which still hold the offices they stole. Will the crime of 1876 be repeated in 1880? The past decade of years opened with a corrupt, extravagant and inefficient Administration entrenched at Washington. THE SUN did something toward dislodging the gang and breaking its power. The same men are now intriguing to restore their leader and themselves to places from which they were driven, by the indignation of the people. Will they succeed? The coming year will bring the answers to these momentous questions. THE SUN will be on hand to chronicle the facts as they are developed, and to exhibit them clearly and fearlessly in their relations to expediency and right.

Thus, with a habit of philosophical good humor in looking at the minor affairs of life, and in great things a steadfast purpose to maintain the rights of the people and the principles of the Constitution against all aggressors, THE SUN is prepared to write a truthful, instructive, and entertaining history of 1880.

Our rates of subscription remain unchanged. For the DAILY SUN, a four-page sheet of twenty-eight columns, the price by mail, post paid, is 55 cents a month, or \$6.50 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents a month, or \$7.70 a year, postage paid.

The Sunday edition of THE SUN is also furnished separately at \$1.30 a year, postage paid.

The price of the WEEKLY SUN, eight pages, fifty-six columns, is \$1 a year, postage paid. For clubs of ten sending \$10 we will send an extra copy free.

Ayer's

Hair Vigor,

FOR RESTORING GRAY HAIR TO ITS NATURAL VITALITY AND COLOR.

It is a most agreeable dressing, which is at once harmless and effectual, for preserving the hair. It restores, with the gloss and freshness of youth, faded or gray, light, and red hair, to a rich brown, or deep black, as may be desired. By its use thin hair is thickened, and baldness often though not always cured. It checks falling of the hair immediately, and causes a new growth in all cases where the glands are not decayed; while to brassy, weak, or otherwise diseased hair, it imparts vitality and strength, and renders it pliable.

The Vigor cleans the scalp, cures and prevents the formation of dandruff; and, by its cooling, stimulating, and soothing properties, it heals most if not all of the humors and diseases peculiar to the scalp, keeping it cool, clean, and soft, under which conditions diseases of the scalp and hair are impossible.

As a Dressing for Ladies' Hair, The Vigor is incomparable. It is colorless, contains neither oil nor dye, and will not soil white cambric. It imparts an agreeable and lasting perfume, and as an article for the toilet it is economical and unsurpassed in its excellence.

OUR TELEPHONE. THE weather is cold, clear and dry. OUR merchants ought to have a few more hitching posts for teams in front of their stores. Much needed.

LAST Wednesday, the day before Thanksgiving, was a memorial day in Chelsea for murder and bloodshed. Thousands lay dead on the field—turkeys.

MARRIED.—In Chelsea, on Thursday, Nov. 20th, 1879, by the Rev. E. A. Gay, Mr. Welcom B. Sumner to Miss Maggie J. Stoddard, both of Sylvan, Mich. No cake.

LAST Monday, Tuesday and Wednesday Chelsea presented a beautiful appearance, being full of teams loaded with turkeys, chickens, etc., for Thanksgiving.

THERE is quite a public nuisance in this town, especially in a dark night, that of leaving gates open as a trap to pedestrians, who come along unaware of the danger and slam up against them. Will those families or owners of dwellings attend to this matter at once?

TO FARMERS AND POULTRY RAISERS.—A. Steger will be ready to receive, at his place of business on South Main street, about the 10th of December, (two weeks before Christmas,) and pay the highest market price in cash for live poultry. Remember the time—bring on your poultry.

My attention was attracted lately by looking in the show case of D. Pratt, the watchmaker. He has got on hand a fine assortment of coin silver thimbles, ladies necklaces and chains, and the finest assortment of solid gold amethyst, topaz, agate, cameo, onix, garnet, pearl, scale and band rings, that has ever been in Chelsea, and a fine assortment of all kinds of jewelry; he also keeps on hand a fine assortment of clocks. Don't forget the "Bee-hive."

A. STEGER, our enterprising dealer in poultry, is one of the most enterprising men that we have in Chelsea. He has employed about ten hands for the past two weeks, at his place of business on South Main street; and keeps them all busy in killing, plucking and dressing fowls for shipment. He intends to employ about fifteen more during his Christmas campaign. Mr. S. has shipped by the Michigan Central Railroad, from this place, within the past week, 3,000 dressed turkeys and 5,000 chickens. How is that for business?

DIED.

Of dropsy, at the residence of J. Bacon, in Chelsea, Mich., on the 19th day of Nov. 1879, ELIZABETH A. HAMMOND, of Lincolnshire, England, aged 18 years and 8 months. Miss Hammond left her home, and crossed the sea, last June, hoping to find health, long life, and prosperity, in this land of hope and promise. How vain, sometimes, are the fondest hopes of mortals! Her earthly expectations have been blasted, but as we fondly believe, only to give place to higher hopes of a better life. Though in a foreign land, and surrounded by strangers, kind and Christian hands and hearts ministered to both her temporal and spiritual wants, during her illness, in response to which she expressed most earnest gratitude, and gave gratifying evidence that her preparation for a glorious future was complete. Her trust in the pardoning mercy of Christ. Her end was quietness and peace. The best citizens of Chelsea honored themselves, and the Christianity they profess, by their attentions during her illness, their attendance at her funeral, and the heartfelt tears they shed over the remains of one whose far off relations were not here to weep. May the consolations of a Christian hope comfort the hearts of the bereaved ones, on the other side of the sea.

DETROIT IN BRIEF

An old man named Fortier fell out of a second story window on Atwater street Tuesday evening and received fatal injuries. He was interred.

The Congregational Commission to consider the feasibility of bridging the Detroit River resumed their session Tuesday and listened to numerous arguments for and against the proposed bridge.

The United States treasurer on Saturday transferred \$10,000,000 in gold to the assay office at New York, to be used in paying for foreign gold deposited for conversion into American coin.

The United States investigating commission assembled at Los Pinos, Saturday, to hear the testimony of John J. Sweeney, an Uncompahgre Ute, testified, establishing the fact that Jack made the attack on Thornburg.

The chief political topic here is the contest in Virginia between the debt payers and the readjusters. It transpires that each class of Democrats has elected an equal number of members of the legislature.

The health of the author, Dr. Holland, is very precarious. The Hon. Eugene Hale is steadily gaining strength, and is likely to retire on pleasant days.

Despatches from Los Pinos, dated November 17, indicate that the peace commission is making rather slow progress. A short session was held on Monday, Uruguay failing to come until 12 o'clock.

THE FARM

Curing Corn Cods

A correspondent of the Germantown Telegraph advocates a more general use of cornstalks for cattle feed.

I commence to feed my hogs the first of September, giving them the greenest corn, cutting the dried in small parcels, the stalks if the weather is good.

When I am ready to rick my stalks I make a foundation by taking some sticks of wood or pieces of old posts, laying upon them some rails or poles of some kind to the width of three or four feet, then I place the sheaves so that they will lie flat.

Preparing Poultry for Market. The importance of this subject just at this season of the year is our excuse for referring to it so soon again.

Before being killed, all fowls should be fasted for at least fourteen hours. Among the methods of killing usually had recourse to, M. Sayer recommends breaking the neck with the right hand.
