NOTICE.—All communications, local notices, and advertisements must be handed in on Monday of each week, to insure that week's publication. The above rules will be strictly adhered to.

Legal Printing.—Persons having legal advertising to do, should remember that it is not necessary that it should be published at the county seat—any paper published in the county will answer. In all matters transpiring in this vicinity, the interest of the advertisers will be better served, by having the notices published in their home paper, than to take them to a paper that is not as generally read in their vicinity, besides it is the duty of every one to support home institutions as much as possible.

To Correspondents.—Correspondents will please write on one side of the paper only. No communication will be published unless accompanied with the real name and address of the author, which we require, not for publication, but as an evidence of good faith.

All communications should be addressed to "THE HERALD," Chelsea, Washtenaw Co., Mich.

First of the course, Monday evening. "Robly Burns" in costume, Oct. 23d. Remember Prof. Dickey's lecture, at the M. E. Church next Monday eve, at 8 o'clock. At the state prison there are now daily turned out 216 of the celebrated Jackson wagons.

The 20th Michigan Regiment originally numbered 1011 members, out of these 118 attended its reunion last week. About 8000 barrels of apples will be marketed here this season. In good seasons, as high as 25,000 barrels have been marketed.

The first district convention re-nominated the Hon. Edward D. Kinney for representative. Out of curiosity, we decided a week ago to count the number of loads of wheat that came to town each day for a week, and find:

Total for the week, . . . 331 " Averaging it at 45 bushels to the load, will make 10,395 bushels, or nearly 26 car loads of 400 bushels, each.

Now, contemporaries, where are you?

A WONDERFUL FACT.—The earth is one of the smaller planets in our system, and seems of little account compared with such giant masses as Jupiter and Saturn. It lost a huge slice of territory when it parted with the moon, faring better, however, than the unknown planet between Mars and Jupiter, which was broken up by some great convulsion into many parts, 120 of which our busy astronomers have already discovered.

But the earth may some day make up for this great loss, for it has not reached its full growth. It is gaining in mass slowly and by small accretions, but, as the old proverb says, "every little helps." The astronomers have discovered that the earth is gaining weight at the rate of one ounce every year.

Installation Services.

Perhaps never since the dedication of the German Lutheran Church of this place, has it been filled to such an extent as was last Sabbath afternoon, the occasion being the installation of its present pastor, Rev. G. Robertus.

The church was opened at 2 p. m., and at 2.30 was filled so that many could not find sitting room. The services were opened by a song in which the whole congregation joined, followed by a short sermon by Rev. Mr. Neumann of Ann Arbor, who in a few well-words words, taking as his text 1 Tim. IV, 6, directed his words principally to the new pastor, advising him to not only preach good and strong on Sunday, but during the week LIVE and ACT so that he could be pointed to as an example of a good christian. Then taking the 12th and 13th verses of the fifth chapter of the first epistle of St. Paul to the Thessalonians, he asked the congregation to live in peace—not to be bickering, quarrelling and finding fault,—but to be guided by, and be cordial to their pastor,—not cold, haughty or disdainful,—but make him feel very much at home among them. The new pastor then took the oath required of ministers after which teacher Fichter and his choir of Ann Arbor, rendered a nice piece of music, entitled "With the Lord begin your work" which was very appropriate to the occasion. Rev. Robertus then took the pulpit and in a few words spoke of the fear and hope a minister was beset with,—fear, that he might leave undone some things necessary for the good of the church—and hope, that when the day came for accounting of all his words and deeds he could say, "here are all thou hast given me," or as many as could be saved, and with the benediction the congregation was dismissed.

Mr. Neumann, and Mr. Robertus are both able and conscientious men, and under the guidance of the latter the church will no doubt prosper.

We would do injustice to the young ladies did we not mention that the church was nicely decorated with plants, flowers, wreaths and other ornaments, and presented a very tasty appearance.

Attention, Voters!

[Communicated.]

TO THE ELECTORS OF THE TOWNSHIP OF SYLVAN.

Permit me through the HERALD to call your attention to the matter of the town hall.

Last spring an appropriation of \$2500 was made, to which the village has added \$500, which sum of three thousand dollars has been expended in purchase of lot, and in the erection of the building, when it was ready for the roof boards.

Now, to complete it in accordance with the plans and specifications, I have consulted Negus Staffan and other mechanics and business men, and find that the material needed, the cost of the same, and the work and labor, will be substantially, as follows:

Table with 2 columns: Item, Price. For 4500 Roof Boards, \$80.00. Tin Roof, etc., 250.00. Belfry, Balcony & Cornice, 100.00. 6000 feet Flooring, 120.00. 3500 " Wainscoting, 70.00. 4000 " Finishing Lumber, 140.00. 6000 " Joist & Scaffolding, 90.00. 10 M. Lath, 32.50. 73 Doors, 36.00. 21 Windows, Glass & Sash, 125.00. Locks, Hinges, etc., 25.00. Mouldings, 50.00. Chimneys, 75.00. Lathing & Plastering, 210.00. For Carpenters Work, 250.00. Painting, etc., 150.00. Nails, 35.00. Sundries not entered, 100.00. Making, \$19.98.00.

It is therefore evident, that an appropriation of \$3000 would complete the building ready for use with the gallery seated. This would be all the appropriation the township would seem to be called upon to make, as the building itself, with the aid of the young people of the village, would purchase all the chairs, etc., needed.

Now, the question is, shall the building remain unfinished another year, or shall a special township meeting be called, and an appropriation to be levied next year for the amount required, be voted, and the hall be completed at once?

The following table will show to every person the cost of the building to him:

Table with 2 columns: Valuation, Tax. Total valuation of township, \$1,350,000. To raise \$2500 this year: On each \$100 valuation tax, 20 cts. " 500 " 1.00 " 1000 " 2.00 " 5000 " 10.00. To raise \$3000 next year, of same valuation: On each \$100 valuation tax, 10 cents. " 500 " .80 " 1000 " 1.60 " 5000 " 8.00.

For one, I am in favor of the meeting and appropriation, that the building may be pushed at once, and put to its legitimate use; what say all of you?

Yours, &c. G. W. TURNBULL.

A two-year-old son of George W. Crosey met with a distressing accident Friday. In sliding down a board, losing his balance, he fell and drove a putty blow-pipe into the roof of his mouth to the depth of one inch. At a birthday party given Mrs. S. Robinson, of Battle Creek, but at present writing, her daughter, Mrs. A. H. Howard, at Saline, there were present twenty ladies whose aggregate ages in years amounted to 1441, or 72 years on an average, the oldest being Mrs. Ruby Burlingame, of Saline, aged 93; and the youngest, Mrs. G. Sherman, aged 61. Nearly all of the ladies were pioneers of Michigan, Mrs. Robinson being a resident of Saline 45 years ago.

A sad accident occurred on the south Ypsilanti road (about one mile out) on Friday evening last. A son of Mr. Morton shot himself accidentally. About five o'clock he came into the house from the orchard where he and his brother were gathering fruit. His mother spoke to him and he replied, after which she heard him go out. A few moments after she remembers hearing the report of a gun. About fifteen minutes afterward she heard another report, but did not connect these reports in any way with her son, until about half past five, when he was wanted and could not be found. Then they discovered the gun was missing, and putting this and that together became alarmed, instituted a search with neighbors, which resulted in finding, by the aid of lanterns, his dead body about eight o'clock cold and stiff in death, lying on his broken gun as he fell upon it in getting over the fence. The supposition is that he saw something running across the orchard, went for his gun, and in getting over the fence, accidentally discharged it, killing himself instantly. He was buried from his late residence on Tuesday, at 2 p. m.—Argus.

James Geddes left last Monday for Wayne, Mich., where he will be engaged for some time to come, packing apples for Kempf Brothers of this place.

Messrs. H. M. Woods, J. A. Palmer, F. B. Whitaker, R. S. Armstrong and G. T. Conklin, attended a meeting of the K. T.'s, at Ann Arbor, on Tuesday evening last.

Wm. Cushman, of Lansing, formerly of this place, is visiting friends here this week. Ira Cushman, father of William, had a paralytic stroke last Wednesday, which left him speechless.

Jacob Schlimmer, of Chelsea, was in town on Saturday. His daughter, Mrs. Brenner, returned home with him to remain this week, while Mrs. Schlimmer is visiting in Detroit.—Enterprise.

Mr. Randolph Davis, of Olivet, Mich., is visiting his brother, Chas. M., and other friends in this vicinity. He was one of the members of the 20th Michigan, and attended its 17th re-union, held at Ann Arbor last week.

Mr. and Mrs. W. B. Haynes, of Dundee, Mich., were the guests, during the past week, of Mr. W. M. Martin, Mr. H.'s uncle. Mr. and Mrs. H. are on their wedding tour, and the HERALD hereby wishes them a real pleasant future.

Mr. Alva Freer, of this place, and well known to most of our citizens, took a trip last week, which many a man of younger years would not fancy. On Monday last he started in company with his daughter, Mrs. H. Kempf, with a horse and buggy—the horse being a colt—for a trip to Mason, Ingham county, taking a road he had not traveled for 40 years. He is enthusiastic over the improvements which have been made in that time along the road, and his eyes feasted on some very nice farms. After visiting friends and relatives in and near Mason, he left that place on Saturday after dinner, reaching this place early the same evening. Considering that the distance is about 30 miles, we think this "fast driving" for a person of his age. His wife went on the train, and returned last Monday.

The universal popularity among horsemen, of Cole's Veterinary Carbolic Salve, and the rapidly increasing demand for it is the best possible evidence of its superiority. For the cure of cuts, galls, sores and diseases of the feet of horses and cattle, it has no equal, and is of inestimable value to horsemen, stockmen and farmers. D. Hammel & Co., extensive stock dealers, of Appleton Wis., say: "We have used Cole's Veterinary Carbolic Salve on bad cuts and bruises on horses, caused by shipping over the different railroads; also, for scratches and old sores, and find it by far the best thing that we ever used." Pound cans \$1.00; small cans, 50 cents.

How Lost, How Restored!

Just published, a new edition of Dr. Culverwell's Celebrated Essay on the radical cure of SPERMATORRHOEA or Spermatic Weakness, Involuntary Seminal Losses, Impotency, Menstrual and Physical Debility, Impediments to Marriage, etc.; also, CONSUMPTION, EPILEPSY and FITS, induced by self-indulgence or sexual extravagance, &c.

The celebrated author, in this admirable Essay, clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically.

CHIEF JUSTICE MARSHALL'S EULOGY UPON HIS WIFE.

Recently, while in attendance at a Sunday-school convention at Washington, Mason County, in this State, I was invited, with several others, to dine with the family of the Hon. Martin P. Marshall, a resident of the village.

Mr. Marshall is one of the most gifted and cultivated men of the State. He was at one time somewhat prominent in public affairs. He is now advanced in years, however, and is living the life of a retired private citizen.

He is a nephew of the Hon. John Marshall, deceased, formerly Chief Justice of the United States, and was in the early years of his life a member of the Chief Justice's family.

In conversation in regard to his uncle he spoke in terms of the warmest admiration of his character. Daily intercourse with him had taught him to revere and love him. He dwelt particularly upon the simplicity and beauty of his private life. He was his model of what a husband should be to the wife of his bosom in respect to the love, which he should cherish for her, the tenderness with which he should watch over her, and nurse her in falling health, and the fondness with which he should think of her when death had taken her from his arms.

Rising in the midst of his remarks, our host invited another gentleman and myself, who were listening to him, into his private apartment, and there opening a drawer, he took out and read to us a paper written by the Chief Justice, on the first anniversary of his wife's death, in memory of his love for her, and of the excellences of her life and character.

I asked him if the paper had ever been published. He said that it had not; that he had kept it sacred as a private legacy, and had never obtained his own consent to let it be given to the public. He said that I thought that it ought to be published, as I believed that it would be read with interest and profit by all into whose hands it would come. Just then we were called to dinner.

Afterward the conversation in regard to the paper was renewed, and before I left the house Mr. Marshall yielded his consent to have it published, and handed it to me for that purpose.

A copy of it is herewith inclosed, with the belief that its publication will increase the respect which the people of this country already feel for the memory of its author, and at the same time enhance their appreciation of the domestic virtues which were so beautifully and admirably illustrated in the life of the great Chief Justice.

D. S. KENTUCKY, August 20, 1851.

"This day of joy and activity to the whole Christian world is to my sad heart the anniversary of the keenest affliction which humanity can sustain. While all around is gladness, my mind dwells on the silent tomb, and cherishes the remembrance of the beloved object it contains."

"On the 25th of December it was the will of Heaven to take to itself the companion who had sweetened the choicest part of my life, had rendered to me a pleasure, had partaken of all my feelings, and was enthroned in the inmost recess of my heart."

"Never can I cease to feel the loss, and to deplore it. God, for her loss, has not over to be profaned on this day, which shall be during my existence devoted to her memory."

"On the 3d of January, 1783, I was united by the holiest bonds to the woman I adored. From the hour of our union to that of our separation I never ceased to thank Heaven for this its best gift. Not a moment passed in which I did not consider her as a blessing from which the chief happiness of my life was derived."

"This never-dying sentiment, originating in love, was cherished by a long and close observation of as amiable and estimable qualities as ever adorned the female bosom."

"To a person which in youth was very attractive, to manners uncommonly pleasing, she added a fine understanding, and the sweetest temper which can accompany a just and modest sense of what was due to herself."

"I saw her first the week she attained the age of fourteen, and was greatly pleased with her. She was more beautiful earlier than at present. As my attentions, though without any avowed purpose, soon open and direct as to alarm, soon became ardent and assiduous, her heart received an impression which could never be effaced. Having felt no prior attachment, she became at sixteen a most devoted wife. All her faults, and they were too many—could never weaken her sentiment. It formed a part of her existence. Her judgment was so sound and so safe that I have often relied upon it in situations of some perplexity. I do not remember ever to have regretted the adoption of her opinion. I have sometimes regretted her rejection."

"From native timidity she was opposed to everything adventurous, yet few females possessed more real firmness."

"That timidity so influenced her manners that I could rarely prevail on her to display in company the talents I knew her to possess. They were reserved for her husband and her select friends. Though serious as well as gentle in her deportment, she possessed a good deal of chaste, delicate and playful wit, and if she permitted herself to indulge this talent, told her little story with grace, and could mimic very successfully the peculiarities of the person who was the subject."

"She had a fine taste for belle-lettre reading, which was judiciously applied in the selection of passages she admired."

"This quality, by improving her talents for conversation, contributed not inconsiderably to make her a most desirable and agreeable companion. It beguiled many of those winter evenings during which her protracted illness and her feeble nervous system confined her entirely to each other. I can never cease to look back on them with deep regret."

and regret. Time has not diminished, and will not diminish, this interest and this regret.

"In all the relations of life she was a model which those to whom it was given cannot imitate too closely. As the wife, the mother, the mistress of a family, and the friend, her life furnished an example to those who could observe intimately, which will not be forgotten. She felt, deeply the distress of others, and indulged the feeling liberally on objects she believed to be meritorious."

"She was educated with a profound reverence for religion, which she preserved to her last moment. This sentiment among her earliest and deepest impressions gave character to her whole life. Hers was the religion taught by the Savior of man. She was cheerful, mild, benevolent, serious, humane, intent on self-improvement and the improvement of those who looked to her for counsel and example. She was a firm believer in the faith inculcated by the Church in which she was bred, but her soft and gentle temper was incapable of adopting the gloomy and austere dogmas which some of its professors have sought to ingraft on it."

"I have lost her, and with her I have lost the solace of my life. Yet she remains still the companion of my retired hours, still occupies my inner bosom. When alone and unemployed, my mind unceasingly recurs to her."

"More than a thousand times since the 25th of December, 1831, have I repeated to myself the beautiful lines written by Burgoyne under a similar affliction, substituting Mary for Anna:—  
"An angel's virtues lay,  
How soon did Heaven assert its claim,  
And snatch her from my arms!  
"My Mary's worth, my Mary's charms,  
Can never more return,  
What now shall all these widowed arms,  
Alone! ah me! my Mary's urn."  
—Hypner's Magazine.

Lodgers in the Park.

Under the trees in Madison Square at eleven and one-half o'clock last night there were at least three hundred lodgers. Only half a dozen of them were awake. The others were sleeping in the most awkward and uncomfortable positions. A few who had early in the evening secured shares of the curved bench around the fountain were the only ones able to stretch out at full length, and these rested their heads on their crossed arms, or leaned upon an elbow, or were flat on their backs. The flood of electric light from the high center pole bathed in a blaze of light the tree tops, that were like so many mounds of verdure. It tipped the edges of the layers of leaves as with shining silver, and left the park beneath half in twilight and half in dark. Waving lace-work patterns were seen wherever the shadows of the trees met. The effect produced by the electric light was such that every lodger seemed well dressed. There was not light enough to show a rent, a stain, or wrinkle in any of their garments. Even their shirts shone with white.

But the lodgers looked uncomfortable. The high backs of the settees and the iron arm-rests separating the seats gave each man but eighteen square inches of bedstead. One young man who was occupying part of the settee close to Twenty-sixth street and near Madison avenue, where George Francis Train is to be found in the day-time, was doubled up like a half-dressed cocked-hat. A lodger exactly across the way from the main entrance to the Fifth Avenue Hotel kept almost dropping his head on the grass behind him and catching it in the nick of time. The exertion made him spore like the snarling of a tiger. Every here and there a groaning brought two neighbors together who were one's head on the other's breast and his head on his companion's shoulder.

"They are not all tramps," said the policeman on Twenty-sixth street. "Some of them have homes, but prefer to sleep out in the air. One young man that I happen to know has a nice home, but he has some ailment of the lungs or chest, that he never recovers, and he sleeps out of doors. Others would be less comfortable in the hot and crowded quarters where they live than they are here. We find out about them when we make raids and bundle them all off to the station. We cannot hold those who have homes to go to. The others, forming the great majority, are simply vagrants, who live by begging and stealing, though some of them tell me they work one in a while, long enough to get clothes and money for a spree, and then they tramp again. On some nights every seat in every park is occupied. The park police do not stay on duty at night, but we are supposed to keep the tramps away. We let 'em alone though, unless they get noisy. They fight one in a while, but most of the trouble is made by bands of young rascals who roam through the parks from dark till midnight."

"If a decent man should fall asleep in one of these parks would he be safe?" "Well, he would, but his valuables wouldn't. Some of the gentlemen come crawling through the park at night full of wine after a dinner or a party, and drops on a bench and falls asleep. Then they go through him. I have known a man to be robbed of his watch, money, rings, coat, vest, hat and shoes, and have to make his way home in that condition in the morning. Generally, though, the tramps are not so cruel. They often take a gentleman's silk hat and leave him their own in exchange."

"But," said the policeman, "must you drive those fellows away from Delmonico's? The tramps go to Delmonico's when they get chilly, because there's a grating there and the heat of the kitchen comes up through it. There was a nice young fellow there last night. He had no coat, but his father turned him out of doors because he played pool, and he pawned his coat for the price of a meal."

There were about 500 lodgers in Union Square, and the plashing fountain, the embowered paths, and the sleepers, under the shadow of the trees, with light, made the scene a strange one. The Prince who broke the spell in the City Hall Park half an hour later was a policeman with a club two feet long. The reporter had been walking on the plaza between the grass and the City Hall, and had not noticed a lodger. The park was as quiet as a grave-yard. But when the policeman's voice was like the roar of a fire-engine, he banged his club and said: "Out with you, or I'll bag the lot of you," with the path suddenly swarmed with shambling, stretching, yawning figures, some at a dog trot, some limping like rheumatics.—N. Y. Sun.

"The second annual report of the California Board of Viticultural Commissioners shows that 40,000 acres have been turned into vineyards in the past two years. It is said that these 40,000 acres of vines will be worth \$10,000,000 four years hence, while the accessory improvements resulting therefrom will be worth \$5,000,000 more."

Mr. and Mrs. Snob and little Snob must have fresh air and recreation out of town. Their fine clothes and diamonds at a costly hotel. But there are times when Mr. Snob wants to economize. He reflects that if he goes with his family to a lesser boarding house there is no law preventing them from sitting on the portico of the big hotel, airing their style and picking their teeth as if they regarded their bill to the diamond-mounted hotel clerk. To pick their teeth in public is an uncounted and ungentlemanly trick, but Snob does it in sight of all men, and is deeply conscious of its importance while he does so. As he walks the halls of the popular hotel or lounges in its office or bar room, he congratulates himself that he is putting on considerable style at small expense.

Suddenly Weakened.

"I suffered with rheumatism of the back and hip for a number of years," said Mr. Thomas Morgan, Superintendent of Streets. "I was worried on by physicians, but they gave no permanent relief, and I resolved to try St. Jacobs Oil. My rheumatism weakened after the first attack of the great cure, St. Jacobs Oil, and soon I was well.—Cincinnati Times-Star.

HOW THE DOCTOR LAD FOR HIM.—The late Dr. Charles A. Johnson, used in the early days to take long rides through the wilds of Ohio. One day he stopped at an old-fashioned tavern and called for dinner. Among the waiters was a little fellow who had been with him since he was a boy, which he did not trouble. After dinner, when paying his bill, the landlord said: "I'll give you a glass of whiskey, which I did not touch, and never do." The doctor said: "Well, it was there, and you could have had it for nothing. I have had no more, paid his bill and left. Calling again not long after, it was noticed that the doctor, upon sitting down to dine, placed his hands on the table. The waiter said: "Nothing was said at the time. When he went to pay his bill he brought in one dollar for medicine and advice. But I have had no more medicine," said mine host. "Very well," replied the doctor. "It was on the table, and you could have had it, and I also gave you good Spanish data for the whiskey." The doctor said no more, paid his bill and left.
