We haven't either. Our citizens seem too bashful to let us know when something of this kind takes place.

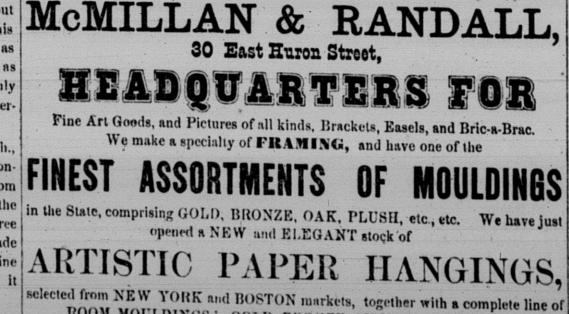

It is expected that there will be but about one half as many peaches in this county as in the last year, but nearly as many apples. Wheat is nearly as good as last, and according to the crop report, only about 13 per cent. of that sown is winterkilled.

NEWS OF THE WEEK.

WASHINGTON. A SOUND JUDGE.

Judge Van Wagoner, of the criminal court of St. Louis, Mo., in charging a jury in a duel case, said: "The day has gone by when this semibarbarous custom can be either tolerated or vitalized into respectability, and the offen-der deserves no more mercy than any other estimated." oriminal."

WHISKEY'S WORK.

John Callahan, of Winchester, Mass., went to Woburn a few nights ago, bought a gallon of liquor and went on a spree. He brought a 3-year old child with him, forced him to drink all he could, and then threw liquor in his face. The child went into convulsions and died the next morning.

GONE TO MEET "LITTLE EVA."

Rev. Josiah Henson, Mrs. Stowe's original "Uncle Tom," died at Dresden, Ont., Saturday, May 5, aged 94. Personally he was one of the finest specimens of his race; a shiny black skin, keen, restless eyes, an intelligent face framed by a full silver-gray beard, a head bald only a little way back from the forehead and covered for the most part with a wealth of snowy wool.

A CRANK'S WORK.

Wm. Wade, chief of police of Boston, was shot while in the performance of his duty, by Richard Rosenman, a crank recently discharged from a correctional institute.

KEIM CAN'T.

Keim's name as chief examiner of the civil service commission is to be withdrawn, and the name of Charles Tyman, chief clerk of the treasury, will be substituted.

THEY ARE APPROVED.

The President has approved the rules of the cival service, and the commissioners will soon leave Washington for the purpose of establishing examining boards in other cities.

MOSES IN THE WILDERNESS.

Secretaries Lincoln and Teller have been considering the case of Chief Moses, of the Nez Perces Indian tribe, who has been disposed to be troublesome because of the executive order issued some time since cutting off a portion of the Nez Perces' reservation in Idaho. Moses laid his complaint before the War Department, positively refusing to enter into nego-tiations with agents of the Interior Department. He desired to come to Washington to talk the matter over, and it is very probable that his wish will be granted.

President Arthur has issued an order pro tecting the water supply of the Zunis reserva-tion in New Mexico, and extending the boundaries of the reservation.

A LAND DECISION.

The case of Plummer vs. Jackman, involving the title to 160 acres of valuable and near Bismarck, D. T., has been decided by the Secretary of the Interior in favor of Jackman for the whole quarter section. Jackman's claim to the land was contested upon the ground that he had not settled upon it in good faith, but to sell on speculation in violation of section 2269 of the revised statutes. He took the land at the particular point in 1872 with other parties in anticipation that the Southern Pacific Road would cross the Missouri river there, and a town was built. The secretary in his decision says the statute referred to cannot be conmean that persons going to the frontiers or along lines of projected railways and anticipating centers of population shall not enjoy the benefits of their enterprise and foresight, though they believe their claims would become of great value on account of the proximity to villages or cities, or that villages or cities would ever be built upon such claims, and thereby enable them ultimately to realize large prices on such lands. That is not the speculation the statute intends to prohibit.

sold at auction for less than \$1,800, and the transaction generally looks like a swindle. The bout it in this connection is that while it is all set forth as a vilisiny in Mullett's charges, it was done by Mullett himself more than three years before Hill came into office. Mr. Mullett's attention was called to this comewhat remarkable state of facts, and he cxplained by saying that he tried to stop the sale and sent a dispatch to that effect, and it reach-ed its destination five minutes too late In reference to this matter, it is said at the department that instead of being five minutes too late the dispatch is dated on the day after the sale was advertised and actually occurred.

A DECREASE IN IMMIGRATION.

Notwithstanding the reports received daily of the arrival of Irish immigrants, the Bureau of Statistics of the Treasury Department reports that during the month of April there arrived in the Customs Districts of Baltimore, Boston, Detroit, Huron, Minnesota, New Or-leans, New York, Passamaquoddy, Philadelphia and San Francisco, 78,475 immigrants. The arrivals of immigrants in the same districts during the corresponding month last year numbered 103,274, a decrease of 25,709. Arrivals injthese districts for the ten months ending April 30 417,689; for the same period last year, 544,601, a decrease of 126,912.

NEWS NOTES.

HOWGATE'S CLAIMS.

The court on bane, through Chief Justice Carter, has delivered a decision in two of the Howgate cases. In the first case, where property had been attached by the government which it was alleged had been sold by Howgate to other parties, although a deed was not re-corded, the court decided adversely to the government and dismissed the attachment. Scheller is innocent. The second case was an appeal from an adverse decision of the lower court, where the defendant had resisted the attachment of his property by the government because action had been brought by special counsel instead of the United States District Attorney. The appeal was dismissed and the decision holds that the United States has a legal right to employ such professional aid as it may deem necessary.

HGES' INTENTION.

Liuet.Col. Guido liges, of the 18th Infantry, has tendered his resignation, to take effect in January next. Thereby hangs a tale. Secre-tary Lincoln had decided that if his resignation is to take effect immediately it will be accepted, but otherwise the Colonel will have to explain before a court martial why he duplicated his pay accounts.

A MAYOR IN TROUBLE.

A suit for \$10,000 damages has been brought against Greene Kendrick, Mayor of Waterbury, Conn., by William Clark, a mechanic, for alleged criminal intimacy with the latter's wife. Plaintiff alleges that Kendrick seduced his wife October 13, 1882, and since then he has lost her affection and has been deprived of her society and assistance, which he other-wise would have had, and has suffered great distress of body and mind.

STONE'S SUICIDE.

Amsea Stone, of Cleveland, O., committed suicide a few days ago. Mr. Stone was the founder of Adelbert College, and extensively interested in the railway and iron interests throughout the country. He has been in ill health' for a long time and of late has met with heavy pecuniary losses, which have produced mental derangement, and led to this unhappy result.

DEATH OF MRS. GRANT.

Mrs. Hannah S. Grant, mother of ex-Presi-dent Grant, died at the residence of her daughter, Mrs. Corbin, on Pavonia avenue, Jersey City Heights, on the 11th inst. Mrs. Grant rose in the morning apparently in good health, but was seized with severe pain in the region

but was seized with severe pain in the region of the heart shortly before noon. A physician was at once summoned, but she expired before his arrival. Mrs. Grant was born in Berks County, Pa., November 23, 1789, and was mar-ried to Jesse R. Grant at Claremont, O. She was the mother of six children, three of whom are now living—Mrs. Corbin, U. S. Grant, and Mrs. Kramer, wife of the present United States Minister to Switzerland.

A POINT IN SCHELLER'S FAVOR.

Billiard balls belonging to George Scheller, who was tried for setting fire to the Newhall House and acquitted, have been found in the ruins of the hotel, which are being carried away preparatory to building a new hotel. They are eight or nine in number, some

being well preserved, but several are burned to the size of a walnut. They were of ivory, and when not found immediately after the fire the question was raised as to whether or not Scheller had taken them from the saloon in prepara-tion of the fire. The finding them in the ruins adds to the already strong public opinion that

NO TASTE FOR ART.

Mr. Metcalf, who offered to build a \$50,000 art museum for the benefit of Milwaukee, has withdrawn his pledge, owing to lack of interest on the part of the people and because of un-charitable remarks. His plain and honest purpose was to construct a" valuable building pro-vided other of the citizens contributed a lot for the building. Interest was entirely lacking on the part of the public and a monument to the city's culture is lost for the present.

CRIME.

CANDIDATES FOR THE HANGMAN'S ROPE.

Hartford, Conn., is in a high state of excitement over a heinous outrage committed there. The residence of Mrs. Moore was entered by two burglars. After ransacking the house, one of the ruffians with a pistol stood on the stairs and kept Mrs. Moore and her crippled grand-daughter on the second floor while the other committed an assault upon another grand-daughter on the lower floor. The girl was then assaulted by the burglar who had kept guard, his companion taking his place on the stairs.

LIGHTNING'S WORK.

The Standard Oil company's work at Com-munipaw, N. J., were struck by lightning on the 10th inst. and twelve tanks of oil exploded, besides burning store-houses containing over 200 000 hereals of refined oil. The hereing cil 300,000 barrels of refined oil. The burning oil oured out like an angry river and flowed down the avenues between rows of enormous tanks toward the river. In a short time the flames communicated with three huge tanks, and they exploded simultaneously with terrific force. Fragments of iron were hurled a distance of half a mile, and the burning oil was scattered in all directions. The entire fire department was summoned, but their services were almost useless, as the burning streams of oil poured through the yard, firing tank after tank on the cast side, and licking up buildings. The en-gine house went next, and the oil and water-pump houses. The sunken tanks and machine-shop followed, and the whole eastern machine-shop followed, and the whole eastern side of the works was a seething mass of flame. The firemen worked bravely in their efforts to stay the progress of the flames. They were successful for several hours, when another tank exploded with a terrific report and the flames spread with lightning rapidity. Chief Farrier and a number of men were within ten vards of this tank when it exploded, and were saved almost by a miracle. Dropping the hose, which soon burned to ashes, they fled for their lives. When they mustered together at a safe lives. When they mustered together at a safe distance six of their number were found to be missing. Selecting Mourning Goods for a Mother-in-Law.

As he sauntered into a dry goods emporium he had a sad look on his countenance, a look that filled all hearts with pity, for one could see some terrible affliction had been visited upon his family.

He walked up to one of the clerks, and said:

"Show me some goods suitable to dress a dead lady in."

Quickly the clerk threw down some handsome white satins, cashmeres, and silks.

"All most too high," he continued. "Have you nothing that has been a little damaged; a piece of goods that is sorter rotten. We could put the bad part in the back, you know, and nobody'd see it," and the clerk saw a mother-in-law's dead look in his sorrowful eyes.

A craving for fellow sympathy what a poor mean, paltry, miserable and pity crept into Frances Somerville's heart as she took it.

"Won't you come and sit by me?" she whispered in the tone so few people could resist. The little one certainly could not, for she nestled down comfortably by the lady as she joined in the second verse with her clear little trill:

"We may not know, we cannot tell, What pains He had to bear, But we believe it was for us He hung and suffered there.

A correspondent asked a Zuni Chief who came East last fall:

"What of all you saw in your journey impressed you most with the superiorty of the white men over the Indians?" The father of the Zunis turned his

eyes toward me, and answer slowly:

"The ease with which they can get water. The white man takes the river into the walls of his house. By turning a little iron stick he can get that which we pray for all our lives!"

This was the mind of the Zuni, the inhabitant of the barren, rainless land, the triumph of civilization.

I asked him if he wanted to go back to the States, and he said:

"Yes, I grow strong with anxiety that that I may grow again."

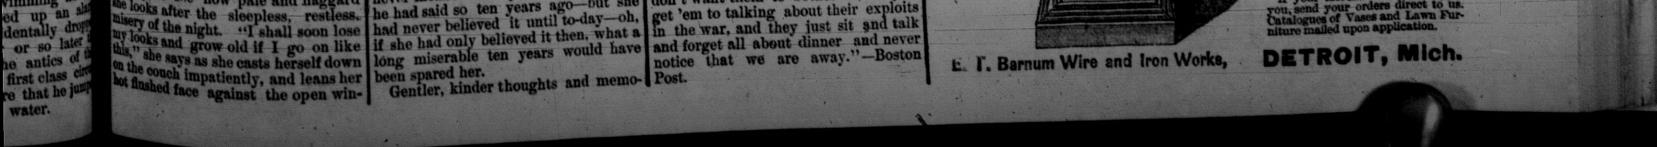

THE PROOF .- Colonel Hardley was telling a fish story in the presence of some friends and his little boy, Sammy.

"Yes," continued Hardley, "it took me half a day to land that catfish I caught him in the Colorado River in the spring of the year before the war. He weighed, after he had been cleaned, just 135 pounds."

"You can prove it by me, pa. Don't you remember pa, how I slung him on a stick, and carried him home," remarked the little Sammy.

"O, you little liar! I am ashamed of you," exclaimed Colonel Hardley. As Sammy is only six years old now

In a SOLID GOLD WATCH, aside from the necessary thickness for engraving and polishing, a large propertien of metal is needed only to stiffen and hold the engraved portions in place, and supply strength The surplus gold is actually needless. In James Boss' Patent Gold Watch Cases this WASTE is saved, and SOLIDITY and STRENGTH increased by a simple process, at one-half the cost. A plate of solid GOLD is soldered on each side of a plate of hard nickel composition metal, and the three are then passed between polished steel rollers. From this the cases, backs centers, bezels, etc., are cut and shaped by dies and formers. The gold is thick enough to admit of all kinds of chasing, engraving and engine turning. These cases have been worn perfectly smooth by use without removing the gold. This is the only case made under this process. Each case is accompanied with a valid guarantee signed by the manufacturers warranting it to wear 20 years. 150,000 of these Cases now carried in the United States and Canada. The above cut illustrates the Crown Jewel Vapor Stove. It is complete and perfect n every detail; occupies but little space; and for general hoase-keeping, will serve every purpose, and give entire satisfaction. By the use of the auxiliary flame (broadly covered by letters patent), the burners may be kept heated, raady for instant use, and is a valuable and indispensable attachment in the use of vapor burners. All Crown Jewel Vapor Stoves are supplied with our Patent Safety Tank,

which automatically extinguishes the flames of the burners when the cover is removed for the purpose of filling, thus obviating all danger from that source. The frames are of handsome design, nicely japanned and or namented; are mounted on rollers, and are supplied with side and end shelves, on all sizes. All stoves and carefully tested before being sent out, and we fully warrant every part.

Sold only by J. Bacon & Co. We are now prepared to give our Customers some special bargains in STOVES, TINWARE, FENCE WIRE, SCALES, PUMPS, DOORS, SASH,

HARMON, APRIL 23d. 1883. Editor Chelsea Herald-DEAR SIR :-I will endeaver to drop you a line for the nefit of my friends (if I have any, and I elieve I have). We started from Chelses Thursday, Apr. 12th, on the 5:50 A. M. train, arriving at East Saginaw, at 11 A. M, where we stopped at the Land-office nd transacted our business with Mr. Charles Doughty, (who by the way is as pleasant a man as we ever dealt with). lewing East Saginaw at 8:38 P. M., passing on to Bay City. The country between Saginaw and Bay City, was nearly coveral with water. Changing cars at Bay City, we left for the north woods, at 10, P.M., arriving at Grayling at 2 A. M. of the 13th, where we found our son George, he having arrived early Thursday morning with the goods and team (which . we had sent on before), all in good shape. We unloaded the car on Friday, and not finding my brother there as expected, we loaded our own wagon, staying in Grayling over night, starting for Forest Grove (our own place thirty miles distant) on the morning of the 14th. We got caught in a min storm, and stopped three miles west d North Branch, and stayed over night. Started again Sunday morning and got to North Branch, where we found the only had roads the whole distance, we got stuck in the mud and had to get another team to help us out. Nothing further occurred of any account until we got within six miles of our destination. It being about noon we got off of our road and wandered around in the woods until night before we got to where we wanted to, with team tired out, and Mrs V. nearly the same. But we are here all safe and sound, with the exception of bad colds. Everything here looks bright and pleasant, the snow is all gone, and the flowers are budded to bloom. Mrs. W. says this is the most pleasant place she was ever in. Hoping to hear from our friends direct, or through the HERALD, we remain,

The Cooper and Whitaker neighborhood, was aroused to life Thursday even ing, by about fifteen young couple who hung May-baskets at the following places: Stephen's, Whitaker's, and Wood's. The rain poured in torrents; but what did the young company care? The chase was a hot one. Fred and Johnie had a tumble, a stranger (?) lost one of his rubbers, and had no girl to console him: Fred lost his watch: The stranger and Fred finally recovered their property, and Frank had a jewel of a young lady, so had others, but all looked like the blackness of the night. They then met at Mr. Cooper's, and after a social chat, went to dreamland, wishing for more such May-day scenes. DIXIE.

A few days ago a freight car, loaded with farming materials and household goods belonging to a Montcalm county man who was mov-ing to Minnesota, caught, fire at Potterville, Eaton county, on the C. & G. T. R. R. and was entirely consumed with the contents. Loss, about \$1,400.

Albert F. Lathrop, a blacksmith employed at Bement's plow works in Lansing, has been arraigned on complaint of Mrs. Lucinda Lathrop, charged with bigamy. Her story is that they were married at Indianapolis March 4, 1879. After residing in Pentwater, Mich., for six months they removed to Bowling Green, O. He left the latter place about a year and a half ago and she has not heard from him in a year. It appears that while they resided at Pentwater, they formed the acquaintance of Miss Viletta Ripley, daughter of John Ripley, a highly respected resident of that section. On leaving Ohio Lathrop made his way back to Pentwater, renewed his acquaintance with Miss Ripley and represented to her that his first wife had died represented to her that his first whe had did in Ohio over a year previous. Matters proceed-ed until they were married at Grand Rapids July 19 last. They have resided in Lansing since last November, during nearly all of which time wife No. 2 has been ver, ill and dependent upon her good neighbors for care. Not a shadow of suspicion is attached to her by those acquainted with the circumstances. Lathrop claims that the marriage with the first wife is illegal and that her story is but partly true. He waived examination and in default of bail was committed for trial at the circuit court.

The effort to reach the bodies of the sever men recently buried by the caving in of the Keel Ridge mine, upper peninsula, has been abandoned as dangerous.

Gov. Begole has sighed the bill to hold the ngham county circuit court in Lansing. The people of that city are very much pleased over the matter.

t Gov. Begole has received a badly spelled, ill-written letter from "Convict 105, W. L. Smith" of the Jackson State Prison, setting forth that in 1872 the aforesaid prisoner voluntarily went to Sheriff Codd, of Wayne county, declared that he had obstructed a railroad track with timber pleaded mility to such a charge and that he had obstructed a rairoad track with timber, pleaded guilty to such a charge, and was sentenced by Jadge Patchin to twenty-five years in prison. "Convict 105" says his mis-deeds were purely hypothetical, that there was no proof of them nor could there be, his motive in confessing being a wish to get to prison where he could avail himself of books and in the seclusion of his cell study and become the seclusion of his cell study and become great. This singular epistle prompted Maj. Rev. Josiah Henson, as the original "Uncle Tom," has for many years been known, was born at Port Tobacco, Charles county, Md., on the 15th of June, 1789, of a slave woman, the property of Josiah Mcage of seven wars he was sold to Adam Robb, a planter. Under this master he lived only two years, and was then bought by Isaac Riley, un der whom he grew up to be a man and commenced preaching. "In slave days," said he to the reporter, "the negroes had a horror of being sold by the sheriff. Well, Massah Riley had a big law suit at Annapolis, and one night he came to my cabin-we lived some miles below Montgomery court house-and said 'Si, it's gone agin' me; I am ruined, and you will all have to be sold by the sheriff." And then he told me that he wanted me to run away clai to Kentucky. So I took my wife and children and 18 good slaves and went to Kentucky, to Mr. Amos Riley, a brother of my master.

But we did, the more that both o us were anxious to know what part Uncle John played in the piece. This we could not even surmise. But we soon had other things to think of. Lottie's visit to the home of the Lucases grew more and more frequent, and on one occasion, she went without me and stayed late.

Uncle John remonstrated, and Lottie was rebellious. She could see no harm in what she was doing. Earn her living she must at some future day, and where could she practice music and singing, but at the house of her friend?

"You don't expect me to buy you a piano and find-you masters?" said Uncle John, with a conical glance at his poor belongings.

"Certainly not," replied Lottie, with a very haughty toss of the head and a hard look, which surprised me, as she left the room. It made her look so like Uncle John.

From that day out there was less sympathy between the two. He was civil and polite; she respectful, as behooved her dependent position : but they drifted asunder.

As the days passed the coldness increased rather than lessened, and I found myself hardening toward the man who had done so much for me.

I spoke to my mother, but she listened with horror and astonishment.

"What do you not owe your uncle?" she cried; "remember that this girl has no claim on him, and that her gratitude should be unbounded."

"Time will show !" I said, and dropped the subject, but still watch ed and saw the breach widening.

The natures of the two appeared antagonistic, and every effort of my gentle mother to make things pleasant between them failed.

My consolation was that her birthday was fast approaching, and my chances of an advance in my income increasing every week.

Still I was sad. Loving Lottie a I did, I could not be tolerant to Un cle John, who was hard upon her, made satirical remarks on the frivolity of women, their love of dress, music and pleasure.

My darling did dress very neatly. Her box contained many little articles of finery; she had been nearly year in mourning when she came to us. When she went to the Lucas' she was very careful of her toilet.

I saw no harm in it, but my uncle did, and one evening he let us know.

Lottie had gone early to the Lucas and I was going to join her in th evening, later.

My uncle sat reading and looking occasionally in my direction. He was smoking a pipe. At last he put down his book-some grave work

"You are young," he began, "and very impressionable. What I am about to tell you is a solemn warning. Never marry a frivolous woman. Nay! hear me out !!"

My mother punched my arm, and by a great effort of control I was silent.

Story of a Composer.

A father and son, while traveling, stopped one night at a monastery - where hospitality is always extended. The father took the boy into the chapel to see the organ. It the was first large organ the little fellow had ever seen. His face lit up with satisfaction, and every motion and attitude of the little figure expressed wonder. "Father," said the boy, "explain to me those pedals at the organ's foot. and let me play?" Well pleased, the father complied. Then the little boy pushed aside the stool, and when his

father had filled the bellows, the little organist stood upon the pedals, and trod them as though he had never needed to have their management ex-plained. How the deep tones woke the somber stillness of the old church! at the caresses of the marvellous child.

The monks, eating their supper in the refectory, heard it and dropped knife and fork in astonishment. The organist of the brotherhood was among them, but never had he played with so much power and freedom. They listened; some grew pale; others blessed themselves; till the prior rose up, and hastened into the chapel The others followed, and when they looked up into the organ loft, lo! there was no form of any organist to be seen, though the deep tones still massed themselves in new harmonwith their power. "It is a spirit!" cried the last one of the monks,drawing closer to one of his companians, and giving a frightened look over his shoulder to the darkness of the aisle.

TWENTY-FIVE YEARS

IN CINCINNATI

Treating Consumption, Asthma, Bronchitis, Nasal Catarrh, Sore Throat, Loss of Voice, and other Maladies of the Nose, Throat and Lungs.

R. WOLFE treats the above-named diseases by Medicated Inhalations. When thus administered, remedies are brought "face to face" in contact with the disease; whereas, if they are swallowed. they mix with the contents of the stomach and never reach the organs of respiration.

DR. WOLFE has, by the judicious employment of Medicated Inhalations, assisted thousands to regain their health, many of whom had been pronounced incurable, and given up to die by their family physicians and friends.

DR. WOLFE has prepared a list of questions for sick people to answer by mail. They are in character the same he would ask were he by the bedside of the invalid. By writing answers to these questions apy one can send an accurate statement of his disease, and receive and use inhaling remedies at home, in any part of the United States or Canada, without incurring the expense and discomfort of making a visit to Cincinnati. Any one sending his name and postoffice address with a three-cent postage stamp, will receive a copy of the "Circular of questions" by return mail.

DR. WOLFE has published a medical book called "Common Sense, Cause and Cure of Consumption, Asthma, etc.," a copy of which he will send to any body who orders it, by mail, and incloses 9 cents in postage stamps, with his name and postoffice ad dress. The book is of great value to any one afflicted with any disease of the Nose, Throat or

DR. WOLFE has also published another book of 64 pages entitled "Light about the House We Live in," which every healthy person as well as sick ought to read. This book has a special interest to
