To-night!  
"Muldoon's Picnic"  
At the Town Hall!

Now's the time to repair your sidewalk  
for winter travel.

You certainly can get us one new sub-  
scriber if you try.

There's fun ahead! Muldoon's Picnic  
at the Town hall to-night!

We will furnish sample copies to those  
who wish to canvass for the HERALD.

The HERALD, to new subscribers, from  
now until January 1, '85, for only \$1.40,  
the regular yearly subscription price.

In his ad. H. S. Holmes-today says he  
will tell you why he can sell goods so  
cheap if you will call at his emporium.  
See also his new locals.

Turn out to-night and have a good  
laugh! That renowned specialty company,  
Newell & Scott's "Muldoon's Picnic" will  
give an entertainment at the Town hall to-  
night.

A singular turnip has been left at the  
Bank Drug Store by Jas. T. Little. It has  
five perfect tops but but one single root.  
It is about seven inches in diameter and  
nearly square.

Poultry raisers! scan A. Steger's new  
"ad." then box up your poultry and fetch  
it to him. Just now he wants thanksgiv-  
ing turkeys for which he will pay the  
highest price possible.

On Wednesday of last week Mr. C. T.  
Conklin, of Sylvan, paid \$100 in settle-  
ment of a suit growing out of a runaway  
accident his son Charley met with at Jack-  
son when Barnum showed there.

The editor of the Dexter Leader speaks  
of Chelsea as a "one-horse town." We've  
nothing to say, as that editor will "fetch  
up" in the future where water is said to  
be at a premium (unless he mends o' his  
ways).

In another column will be found the ad-  
vertisements of R. Webb, of this place, and  
John W. Knight, of Grass Lake, both of  
whom offer their well improved farms for  
sale. Mr. Knight refers to Lewis Rank or  
Michael Schenk as to the merits of his  
farm.

Several days ago we were shown the  
oldest relics we have seen. They are the  
property of Mr. & Mrs. Leander Tichenor,  
the most striking of the two is a cow that  
gives milk, and is 91 years old,—it is a  
small cream-pitcher in the form of a cow.  
The other is a teapot whose age is estimat-  
ed at 150 years.

Boys! Girls! To the boy or girl who  
will get us the largest list of paid subscrib-  
ers by January 1st, we will give a \$5 gold  
piece. To the boy or girl getting us the  
second largest list we will give three gold  
dollars. To the boy or girl getting us the  
third largest list we will give two one  
dollar gold pieces. The boy or girl must  
be under fifteen years of age, but may get  
as many to help as they like. The subscrib-  
er must be one who does not take the  
HERALD now, and we will on the receipt  
of \$1.40 send it to January 1, '85. Now  
let us see what family has a wide-awake  
boy or girl!

The HERALD free! to January 1, '84, to  
new subscribers. Do us the favor to tell  
your neighbor.

Liebig's German remedies are what the  
Bank Drug store proprietors call your at-  
tention to in their ad. this week.

Parker & Babcock this week again use  
a column of the HERALD to let our read-  
ers know of the destruction going on in  
their store.

During the month ending Oct. 31, there  
were issued from the post office at this  
place, 76 money orders calling for \$978.71,  
and 224 postal notes calling for \$172.17.  
There were also 5,480 two-cent stamps  
sold (showing an increase of value of over  
\$10 since the reduction of postage), and  
stamped envelopes and stamps of other  
denominations amounting to \$99.47, and  
2,250 postal cards. In a ratio with other  
offices in the county, we believe this office  
takes the "cake!"

Numbers of our readers probably have  
received circulars showing the disburse-  
ments of the Washtenaw Mutual Fire In-  
surance Co., and noticed that Chas. Kel-  
logg, of Sylvan, was charged with \$799.06,  
when in fact he had only received \$583.56.  
The following will explain how the error  
occurred:

Office of the W. M. F. In. Co.,  
Ann Arbor, Oct. 11, '83.

Chas. Kellogg, Dear Sir:— We had  
an item of interest on borrowed money  
of \$215.50 on our books right above the  
amount allowed you for your loss which  
was \$583.56. In making up our circular  
the two got added together, some way,  
which was an error.

Respy Yours,  
Stephen Fairchild,  
Secretary.

## LITERARY NOTES.

In illustrations, important articles and  
American fiction, the November CENTURY  
attempts to raise its own standard of excel-  
lence—a significant way of beginning the  
new magazine year. Among the engrav-  
ers of the number, five are women, who  
contribute seven engravings. In techni-  
cal skill, Mr. Cole has hardly surpassed  
the full page engraving of Wyatt Eaton's  
portrait of Modjeska, accompanying a  
study of Modjeska's Shaksperian charac-  
ters, by J. Ranken Towse.

An important contribution to the history  
of the war, and a most entertaining an-  
ecdotal paper withal, is the account of  
"The Capture of Jefferson Davis." It is by  
Barton N. Harrison Esq., of the New  
York bar, who was the Confederate Presi-  
dent's private secretary, and accompanied  
Mr. Davis and his family, with the leading  
members of the Confederate Government,  
in their flight from Richmond.

A matter of greater moment, however,  
than the scenes of Cable's romances is the  
opening chapters of Cable's new romance,  
"Dr. Sevier." Judging from the beginning  
in the November number, it promises to  
be his most humorous and artistic novel.  
Reality and idealty appear in it blended  
with poetic art.

## The Funniest of Shows.

The Newell & Scott Specialty Company  
gave Muldoon's Picnic to a \$300 house  
last night, the opera house being better filled  
than at any previous entertainment  
(outside of the lecture course) given in Au-  
rora for a year past. The audience were  
kept in a constant roar of laughter from  
the time the curtain went up in the first  
act in the olio part until it was rung down  
on the closing scene of the picnic.

To say that the large number in atten-  
dance were delighted hardly expresses the  
real fact, for we have never seen an audi-  
ence that appeared so universally amused.

We heard such remarks and comments  
as "It is the best show I ever attended,"  
"Aint that immense," "Aurora has never  
had a finer entertainment," etc.

All conceded that the olio part was the  
best. Thorne & Reed were excellent in  
best. Thorne & Reed were excellent in  
their songs and dances. Tommy Adams is  
A No. 1 as a character artist, and Miss  
Clara Franklin and little Della Fox (only  
nine years old) are vocalists of the first  
rank and "caught on" to the crowd in a  
great shape. They received several encores.

Messrs. Newell & Scott can depend on  
packed houses whenever they visit Au-  
ra. —Aurora (Ill.) Post, March 27.

## In Memoriam.

Mr. S. D. Whitaker, whose death was  
mentioned last week, was born in the town  
of Benton, Yates county, N. Y., Dec. 12th  
1820, and consequently lacked 46 days of  
being 63 years of age at the time of his de-  
mise. In 1837, his father, Isaac Whitaker,  
with a family of six children, of whom de-  
ceased was one, removed to the then un-  
developed wilds of Michigan, settling in  
the spring following upon the "Whitaker  
Farm," now owned by I. M. Whitaker, of  
Lima.

Mr. Whitaker resided with his parents  
until 1845, when he married Miss Caroline  
Kellogg, of Sharon, and in the following  
spring the couple commenced life together  
upon the farm now owned by Peter Fletch-  
er, in Lima, which farm and that of Wm.  
Wood and part of that owned by D. A.  
Spaulding, Mr. W. principally cleared.

On Oct. 5th, 1863, while he himself was  
dangerously and unconsciously ill, the be-  
loved wife, with whom he had most hap-  
pily dwelt for twenty years, was summon-  
ed from earth, leaving behind to feel keen-  
ly an irreparable loss, Addie M., George  
and Hettie who survive their father; a  
younger sister having died a few years pre-  
vious to their mother.

In 1866, deceased a second time married,  
a Miss Sarah Nutt, of Penn Yan, N. Y.,  
who also survives her husband.

Mr. Whitaker, familiarly called "Dem,"  
was widely known as a man of generous  
heart and affectionate impulses, whose  
open-handed liberality to all the calls of  
charity is worthy of emulation. That he  
may have erred is but evidence of a nature  
common to us all; but as his errors were  
mainly those of judgement rather than of  
intention to do wrong, the consequences  
of which rested most heavily upon him-  
self, let us cover as with a mantle of chari-  
ty, these trivial mistakes, and remember  
him in death as we knew him in life, a  
consistent christian, an affectionate son,  
brother, husband and father, and a friend  
in many a time of need, whose last and  
great afflictions have amply atoned for all  
unintentional errors.

It may be well to repeat, what is gener-  
ally known, namely, that Mr. Whitaker  
died of the effects of paralysis, having had  
three strokes respectively on Oct. 4, '81,  
May 28, '82 and another a few days before  
his death; and that during all the time  
since his first stroke he had been nearly  
helpless and speechless. W. B. G.

## Sylvan Echoes.

Merritt Boyd and family of Read-  
ing, were the guests of H. C. Boyd,  
and the Glovers last Sunday.

Ira Glover, who has been so low  
for the last few weeks, we are glad  
to learn is considered out of danger  
and is slowly recovering.

Corn all husked—school begun—  
lyceums every Tuesday night—socials  
every alternate Wednesday night—  
law suits all settled—peace and pros-  
perity reigns.

The extensive improvements O.  
A. Boyd has been making on his  
mill is now completed, and it is now  
one of the best custom mills in the  
state, everyone says that he makes  
better flour than any patent roller  
process in the county.

The social at Jas. Rowe's was well  
attended, the receipts for the even-  
ing being \$5.80. Your reporter  
drove in in the afternoon, being the  
first there, was seated in a corner  
and proceeded to take observations.  
Soon they began pouring in; old  
and young, rich and poor, grave and  
gay, grass widows and widows that  
were almost grass, fathers and moth-  
ers bringing their infant children  
and their grand-mothers to take care  
of them, soon joining the ring whirl-  
ing with the boys and girls just as  
young as they used to be. And so  
passed the evening, with "leap-frog,"  
"sliding down the banisters," "kiss  
them in the corner," &c. &c., closing  
with the tearing of a good \$3.00 hat  
to pieces belonging to one of the  
guests, thus ending a very funny  
time.

## PERSONAL.

Myron Webb, of Saline, was in town  
yesterday.

Perry Cook and family, of Grand Ledge,  
visited friends in this vicinity a few days  
of the past week.

A pleasant tea party was given last Fri-  
day evening by Mrs. L. C. Loomis, in hon-  
or of a niece, Miss Florence Kingsley.

Mrs. McCarter has our thanks for a bas-  
ket of nice Bell Flower apples, one of  
which measures eleven inches in circum-  
ference.

Mrs. S. J., and Miss Lela Chase are still  
visiting friends in Brooklyn, N. Y. Mrs.  
Chase, on her return, will also visit an el-  
der sister at Newark, N. Y.

## A Free Bottle

Of the Liebig German Cough Syrup to  
be obtained at Glazier DePuy & Co's.  
contains more medicine than any trial  
bottle ever given away, and is sufficient to  
prove that it is the best remedy for Coughs  
Colds, Consumption, and all other Throat  
and Lung diseases ever sold. Regular  
sizes 40 and 75 cents.

There are many Michigan people who  
contemplate investing in orange lands of  
groves at Altamont this fall when the  
Florida excursion reaches there. The Al-  
tamont Real Estate Agency (all well-  
known Michigan men), will have for sale,  
not only their own lands, but desirable  
property of all kinds at owner's prices.  
Messrs. E. H. Glover, of Jackson, and L.  
D. Whitney, of Chelsea, are in Altamont  
now to prepare for the excursion. Mr.  
B. S. Ashley, of Jackson, will take charge  
of the excursion. These gentlemen will  
be ready to show our folks anything they  
may wish in the real estate line. All prop-  
erty at or near Altamont has advanced  
100 per cent. in the last year; and com-  
petent judges say the rise has but fairly be-  
gun. As a safe and profitable investment  
good orange property can not be equalled  
in this country. Mr. Ashley will give all  
information desired in regard to the ex-  
cursion if parties interested will write him.

Notices in this space will be inser-  
ted at ten cents per line.

## Beware!

\$50, for one year, by Pat. Maloney in fa-  
vor of Michael Fallon, has been lost and  
all persons are warned not to purchase the  
same as payment has been stopped.  
Chelsea, Nov. 5, '83. M. Fallon.

Notice! All persons are hereby notifi-  
ed that my wife, Mary Burchard, has left  
my bed and board without cause and with-  
out my consent, and I hereby forbid any  
person trusting her on my account and  
warn all parties that I will pay no debts of  
her contracting after this date.  
Nov. 2, '83. D. Burchard.

Wanted! Parties to cut 150 cords of  
wood.  
M. J. Noyes.

For Sale! My place, one mile south  
and west of Chelsea consisting of 13 acres  
of land with house, barn, well, cistern, 125  
apple and 40 pear and peach trees. Land  
under good cultivation. Will sell my  
milk business with it! G. V. Clark. 9th.

For Sale! My place two miles south  
of Sylvan Centre, consisting of four acres  
of land, house and barn, good well and  
cistern, and a good orchard of apple and  
peach trees in bearing. Inquire of Wm.  
Riemenschneider, Francisco, Mich.  
11\* Vernon Colliers.

Canfield delivers meats, vegetables etc.,  
free to any part of the village. Give him  
a call and judge of his merits.

For Sale! Two desirable houses and  
lots at from \$300 to \$300 each, on easy  
terms. Enquire of U. H. Townsend, or  
at the office of R. Kempf & Bro. 2st

## Durno's Catarrh Snuff.

This well known remedy for Catarrh  
still maintains its well earned reputation.  
E. A. Savage, of Geneva, Kansas, writes  
March 4, 1880. "I have used Durno's Ca-  
tarrh Snuff, and it is the only thing that  
does me any good. It always effects a cure.  
Sold by all druggists.  
Townly's toothache Anodyne cures in-  
stantly.

Having sold a half interest in the found-  
ry, business hereafter will be conducted  
at the old stand, under the firm name of  
Miller, Kercher & Co. Thinking all my  
former patrons for their custom they are  
all also invited to continue with the new  
firm.

Notice is also hereby given that I re-  
quire all accounts owing to me to be set-  
tled either by cash or note between this date  
and Dec. 1, '83, after which time the unset-  
tled accounts will be placed in the hands of  
an attorney for collection. L. Miller.

## TOPICS OF THE TIMES.

A LARGE whale lately left landlocked in shallow water by the retreating tide and afterwards driven ashore on Burnett's Island, Accomac county, Va., has naturally attracted great numbers of visitors from the mainland. Among them was one brute, if Purser Joynes of the steamer Helen is to be believed when he says that "a man was on top of the whale chopping a hole in him while the monster was still alive," the whale writhing at every blow of the axe.

THE postoffice department is bothered by the possession of a very large quantity—70,000,000 it is said—of three cent letter envelopes which remained unsold in the various postoffices when the two cent postage law went into effect. There was also a large lot of three-cent stamps; but these stamps can easily be worked off. The envelopes, however, will be a dead loss unless some way to utilize them can be devised. It is suggested that a two cent stamp may possibly be printed over the three cent one, or some other device of the sort, and then the envelopes be sold and used under the two cent rate.—Ex.

WASHINGTON has one of the largest colored populations of any American city, and it is the center of political activity in that race. The action of Mr. Douglass at Louisville a few weeks ago now seems hardly to have been premature. Several lawyers, of Republican antecedents, express the belief that the action of the Supreme Court will not do the colored race any harm, but would, on the contrary, throw them more upon their good behavior and responsibility, and really hasten the time when civil rights would be acknowledged in fact, instead of being a mere dead letter in most of the old states.

A CORRESPONDENT of the Springfield Republican says that in the matter of education many improvements have been made in Mexico within the last few years. Attendance upon the public schools is compulsory, and the "no royal" road to learning is entirely free. Facilities are also given to young men who show an aptitude for higher education in the collegio-civil or state college of Monterey, where they are graduated in the various professions. The college is domiciled in a fine edifice fronting the Cinco de Mayo Plaza. Degrees are there conferred in law, medicine, pharmacy, civil engineering and commercial studies.

THE modern prejudice against corporal punishment does not seem to have penetrated to India. A magistrate of the cantonment of Secunderabad recently received the following petition from a parent: "I most humbly and respectfully beg to bring to your Honor's kind notice that my son, aged about fifteen years, instead of going to school join bad company, go to tank to catch fish, and loses his time vainly wandering here and there. The schoolmaster warned him and flogged him several times; he never cares to. I request your Honor to permit me to have a chain for one of his legs, with a log of wood attached to the same, in order that he may feel ashamed, and leave his bad actions, for which act of grace he shall ever pray."

EDWARD H. LITCHFIELD, the son of the millionaire president of the Brooklyn Improvement Company is a mighty hunter. Recently he has been shooting bears in the wild country of the Little Medicine River, near Fort Fetterman. The Des Moines Register speaks of him as "bagging" thirteen bears on a twelve days' hunt this month—nine grizzlies and four black bears, three of them in one morning jaunt before breakfast. The bears are caught in steel traps weighted with logs that make a broad trail across the country and enable the hunter to come up with and fight the wounded and enraged beasts. The sport which is said to be full of peril, has nevertheless become tame to Mr. Litchfield, who is represented as coveting next an encounter with panthers.

THE people of New Orleans have begun to discuss from a sanitary point of view, the existing mode of disposing of their dead with a degree of earnestness which warrants the hope that it will

lead to a reform. The location of New Orleans and the nature of the soil originally forbade interment within the city limits, and the use of vaults wholly above ground has been retained to the present day and even allowed in the heart of the city. The unhealthfulness of this system, especially in such a climate, is apparent, but hitherto the natural aversion to innovations involving the last offices for the dead has prevented an agitation of the subject. It is suggested that suitable burial-places might be prepared on the Metairie Ridge by thorough drainage. It will be strange if the advocates of cremation do not contribute many arguments to this discussion.

"OWING to the peculiarity of the Chinese character, each of which represents a word, not a letter, as in our Western tongues," says the English journal Engineering, "the Danish Telegraph Company (the Great Northern) working the new Chinese lines has adopted the following device: There are from five to six thousand characters or words in ordinary Chinese language and the company has provided a wooden block or type for each of these. On one end of this block the character is cut or stamped out, and on the other end is a number representing the character. The clerk receives a message in numbers and takes the block of each number transmitted and stamps with the opposite end the proper Chinese character on the message form. Thus a Chinese message sent in figures is translated into Chinese characters again and forwarded to its destination. The sending clerk, of course, requires to know the numerical equivalent to the characters or have them found for him."

### Glycerine.

The name is derived from a Greek word signifying "sweet," and has reference to taste. As oil consists of acids and glycerine, the latter is obtained by separating the oil—the same is true of fat—into its component parts.

The uses of glycerine are becoming more and more extended and valuable. There is no application that is better than a few drops rubbed daily over the hands, to keep them moist and smooth. The hands should be first moistened with water, as the glycerine otherwise absorbs moisture from the skin.

Glycerine and carbolic acid—three ounces of the former to fifteen grains of the latter—are among the most effective applications for chapped hands, and equally for a scurfy skin. It may be used two or three times a day.

Glycerine is also said to be exceedingly effective in some cases of piles. A gentleman who had suffered from them for years, and whose case appeared to defy medical treatment, was cured by taking it daily with his food. A dose would be from a half to a whole tablespoonful.

Writers in the London Lancet strongly recommend it for acidity of stomach. Its use for this trouble was first discovered by a private gentleman, who had long been a sufferer from it. Having read in the paper that glycerine kept milk from souring, he said to himself, "Why won't it keep me?"

He tried it with complete success, and was able thenceforth to take food from which he had been forced to abstain. It was subsequently employed by physicians with like results.

It does not remove acidity; it only prevents its occurrence. Take from a teaspoonful to a tablespoonful immediately after eating; or take it in the tea in place of sugar.

### Russian History in Brief.

The area of the Russian Empire is 8,531,004 square miles. The population, including Poles, Finns, Caucasians and Asiatics, is 85,685,945. The area of Russia proper is 1,890,216 miles, and its population 65,704,559. No other country in Europe has as large territory or as many inhabitants. The late Czar ascended the throne March 2, 1855, after the battle of Balaklava and Inkerman, and in the midst of the siege of Sebastopol. His reign was exactly twenty-six years and eleven days in duration. His father, Nicholas, reigned thirty years (1825-1855), and his great-uncle, Alexander I., twenty-four years (1801-1825). There have been but three Czar of Russia in this century. Alexander III. was born, 1845. The last Czar of Russia who met his death at the hands of an assassin previous to the late Emperor, was Paul, the son of the famous Catharine (1796-1801). Spite of the repeated attempts upon the lives of the rulers of Russia, the average length of reigns in that Kingdom has been greater than in most other countries of Europe.

That the Mississippi may deservedly be called the "Father of Waters" the following data will show: The quantity of water discharged by the river annually, 14,880,360,636,880 cubic feet; quantity of sediment discharged annually, 28,188,083,892 cubic feet; area of the delta of the river, according to Lyell's estimate, 13,000 square miles, and depth of the same, as calculated by Prof. Riddell, 1,056 feet. The delta, consequently, as appears from these figures, contains 400,378,429,440,000 cubic feet, or 2,720 cubic miles; and it would require for the formation, therefore, of one cubic mile of delta five years and eighty-one days—for the formation of one square mile, of the depth of 1,056 feet, one year sixteen and one-fifth days, and for the formation of the whole 14,208,045 years.

The common council of Hillsdale have elected F. M. Stewart mayor of that city, vice Hon. E. L. Koon, resigned. Practically the city has been without a mayor since the charter election in April last. At that election, Rev. Dr. Waldron was elected mayor, but declined to accept the office. Hon. E. L. Koon being the mayor Mr. Waldron was chosen to succeed, Mr. Koon held the office only by reason of the refusal of his successor to qualify. The council made several attempts to elect a mayor without finding any one who would accept, when it dawned upon them that Mr. Koon might still be the legal mayor, and a great pressure was brought to bear upon him to induce him to retain the office. He soon tendered his resignation, which the council have held until recently when they accepted it. Owosso Press: A week ago last Sunday, in the town of Brady, a boy by the name of Wheaton, about 10 years of age, went out into the woods with an ax to cut hoop poles; he was heard screaming, and the people went out in search of him. They found the ax but failed to find the boy until the next day, when they came upon his body torn to pieces, supposed to have been done by a bear. Blood and brown hair were found on the ax, and we understand the tracks of the bear were also seen; therefore it is supposed the boy attacked the bear and the animal gave fight, with a terribly fatal result to the boy.

Mrs. Kaland, nee Jennie Burdick, is visiting friends at Arthur, in this state. She is a daughter of Jesse Burdick, formerly a gunsmith at East Saginaw. The family moved to California, where her father secured a position as superintendent of a dockyard. One day a Russian war corvette put in for repairs, and while the ship was in the dock one of its officers, Lieut. Kaland, made love to the superintendent's charming daughter, and a romantic marriage followed, the particulars of which were spread all over the world by the press. Lieut. and Mrs. Kaland returned to Russia, and after various and strange vicissitudes in life, which in her case prove that truth is stranger than fiction, the heroine of the romantic California marriage is now back among her old friends in this state. Her father has been dead several years, and she was present at her mother's remarriage at Arthur a few days ago.—Ex.

A sad case of attempted suicide and child murder occurred at Mt. Clemens a few days ago. Mrs. Eliza Lungershausen, arrived in that place with her child—a baby 15 months old—and registered at the Clifton House. The next morning, just after breakfast, it was discovered that she had poisoned herself and the child with morphine. A physician was summoned and every effort made to save their lives. The child lingered until evening, when it died. The mother is considered out of danger but is almost crazed with grief at the result of her mad act. Her story is an affecting one. She was deserted some time ago by her husband in St. Joseph Mo, where they lived. A short time ago she received a letter from him asking her to meet him in Saginaw, Mich. She gathered money enough to get there, only to find him gone no one knew where. She then came on to Mt. Clemens where her husband's relatives live. Finding herself in a strange place with no money, in a delicate condition, and with a young child on her hands, she became desperate and intimated to several persons her intentions to seek relief in death.

### WOMEN WORKERS.

Tenth Annual Convention of the N. W. C. T. U.

#### FIRST DAY.

The tenth annual convention of the National Woman's Christian Temperance Union began in the Central M. E. church, Detroit, Wednesday morning, Oct. 31. The church was beautifully decorated with flowers, palms and tropical plants. Directly over the pulpit were two white doves, emblematic of peace. The stars and stripes encircled the speakers' stand, and from the galleries the national colors were conspicuously displayed. In honor of the Canadian delegates present, the Union Jack occupied a prominent place.

The session was opened with devotional exercises, conducted by Mrs. E. J. Thompson of Hillsboro, Ohio. This aged lady was the leader of the crusade movement in Ohio 10 years ago, and to her work and zeal in the temperance cause, the present strong organization of the W. C. T. U. is undoubtedly due. The roll call was answered by all of the officers, and delegates from nearly every state and territory in the Union.

After the appointment of the different committees, and the transaction of routine convention work, the president, Miss Frances E. Willard, delivered her annual address. Miss Willard contrasted the strength of the organization now, with the weakness of its earlier years. In clear, forcible and eloquent language, she reviewed the work of the society, and spoke hopefully of the future. The influence of the work is extending, and the speaker said that from Paris came a plea for the organization of the W. C. T. U. She gave all credit to the good results accomplished by the license system, and announced the watchword of the Union as "Prohibition immediate and unconditional."

THE EVENING SESSION. The address of welcome on behalf of the Detroit W. C. T. U. was delivered by Mrs. A. M. Fancher. Mrs. Mary L. Lathrop, of Jackson, in a charming, witty vein, delivered the address of welcome in behalf of the W. C. T. U. of the state. Mrs. Sallie F. Chapin of South Carolina, Mrs. J. Aldrich, of Iowa, Mrs. Emily L. McLaughlin of Massachusetts, and others responded to the address in a pleasing, happy manner.

THE SECOND DAY. Was devoted largely to reports of officers and members of committees to whom had been assigned the prosecution of different branches of the work. The secretary's report showed that more progress had been made in the work during the past year than ever before in the history of the society. The membership had increased surprisingly, both in point of numbers and influence. Another hopeful feature of the work is the thoroughness with which temperance education has been agitated during the past year, and particularly that work among children. In the direction of social work and the cultivation of public sentiment much has been done, and the Union enters upon the second decade

of its history with increased hopefulness and grander possibilities.

Among the speakers of the day, Mrs. J. Foster of Iowa, was listened to with great interest. To this lady is entrusted the statutory and constitutional aspects of the temperance work. She is a lady of indomitable will, of strong earnest convictions, and the cause of reform, a pronounced woman suffragist. Reports from Miss Jennie E. Emery of Maryland on railroad work, Mrs. J. K. B. Mrs. McLean on statistics, and other reports occupied the remainder of the day. An interesting feature of the day's work was the extension of the delegates from Her Majesty's Dominion. To the welcome address of Miss Willard, Mrs. Youmans responded in a happy vein. The Canadian ladies who had loved the stars and stripes ever since the stain of human slavery had been washed out, and that she would love it still more when the blot of the legalized liquor traffic was forever obliterated from its sacred folds.

THE EVENING SESSION. Was presided over by Mrs. Wallace, widow of Ex Gov. Wallace of Indiana, and mother of Gen. Lew Wallace, our minister to Turkey. After devotional exercises conducted by Mrs. H. B. Pennsylvania was introduced. Miss White spoke of the stone, iron and brass age of material things, but declared that this age of philanthropic and humane work for the fallen and unfortunate was far superior to any age the world had ever known. The temperance question was not new, but coexistent with the introduction of sin, had commenced this struggle for right, for God and Home and Native Land. Miss White showed the fallacy of moderation, and after reviewing the history of the license system in her state of Pennsylvania, declared for total abstinence. Total abstinence by itself may save those who were not victims of the accursed traffic, but total abstinence, supported by the strong arm of the law, was the only hope. She closed with a strong appeal for woman's rights, saying that if fathers and brothers would not drive the enemy from the field, they should put in woman's hand the weapon with which to do it, and that weapon is the ballot.

Mrs. Woodbridge of Ohio was the next speaker, who after paying a glowing tribute to the president, Miss Willard, and referring tenderly to Mrs. Eliza J. Thompson of Ohio, the "white crusader," spoke, in forcible terms of the noble campaign in her state, and of the noble work done by the women. She spoke of the license system in vogue in Michigan, expressing the wish that it were blotted out of existence.

While a collection was being taken, Mrs. Wallace of Indiana, made a strong plea for the ballot for women, not alone as woman's right, but as woman's duty and God-given privilege.

Mrs. Youmans of Canada, was the last speaker of the evening. She spoke of the temperance work in England and Canada, declaring that Canada is all that it ever will be until it has a prohibitory law upon its statute books. She argued for law upon woman as a solution of the problem, and said that if the ballot box does not settle it the cartridge box must.

#### THE THREE SESSIONS.

of the third day of the N. W. C. T. U. convention was devoted entirely to the regular convention work, viz., the reading and adopting of reports, and the discussion of plans for future work. Representatives from the south, as well as from the great northwest were present, and the great zeal displayed by these worthy women, indicated plainly, that though separated by the length of a great continent, their hearts were closely bound together in the great work to which they have devoted their lives. To Mrs. Sallie F. Chapin of South Carolina, is entrusted the work in the south, not only among the whites, but with the freedmen as well. Mrs. Chapin has also visited Texas, and did effective work among the Indians in that state. In her estimation the temperance work in the south has reached its height, and great results may be expected in the near future.

W. F. Davis of East Saginaw, a missionary worker in the lumber woods, was present, and gave some interesting facts regarding the work among the lumbermen. About 40,000 men are employed in the lumber camps, and their spiritual and moral condition is truly deplorable. A great work is to be done among this class of people, and the laborers are very few.

The woman suffrage question came up at the evening session and provoked a long discussion. It transpired that almost every woman in the convention was in favor of woman suffrage, but the expression was almost equally general that the W. C. T. U. ought not to commit itself to this matter at present. Several amendments were offered, but the trouble was finally obviated by laying the resolution regarding a 16th amendment on the table.

THE LAST DAY. Of the convention of the N. W. C. T. U. was devoted entirely to business, the most important of which was the adoption of a platform, the election of officers, and deciding upon a place for holding the next convention. The platform declares for prohibition; condemns the levying of internal revenue taxes and the license system, urges the importance of circulating temperance literature, and advocating and pledging the support of the union to various reform movements.

The election of officers resulted in the unanimous re-election of Miss Frances E. Willard, as president. Mrs. Mary Woodbridge was chosen recording secretary, and Miss Esther Pugh was re-elected treasurer.

The convention was invited to hold the next annual meeting in Cleveland, Ohio. St. Louis, Mo., Lincoln, Neb., Minneapolis, Minn., Ft. Wayne, Ind., Philadelphia, Pa., Baltimore, Md., and Newark, N. J. After some discussion a decision was rendered in favor of St. Louis Mo.

THE CONVENTION PROFER. closed Saturday evening, Nov. 3. On Sabbath morning and evening, many pulpits in the city were occupied by members of the convention. In the evening Miss Willard delivered an address to young men, to the largest audience ever assembled in the Central M. E. church. The address is one that will never be forgotten by those who were fortunate enough to hear it. It was a grand appeal to young men to be true to "God and home and native land," Miss Willard's arguments are forcible and convincing and her illustrations very apt and timely. Her manner upon the platform is exceedingly pleasant and winning, and her voice is tenderly pathetic in its tone, yet rich and full in volume.

A meeting of different committees was held on the Monday following, after which the convention adjourned, thus closing one of the most remarkable assemblies held in Michigan, My Michigan," during the year.

#### A New Method of Drainage.

A piece of marshy ground on Tunis Labreux's farm, just west of Marshall has been occupying the attention of the owner for several weeks back. He has attempted to drain it by a rather novel method. Two wells were driven near the center of the marsh, and a running stream was struck, and beneath the surface of the water, and left below the water has been running through these pipes to the stream below and been carried off. The water has lowered a foot since last Friday, and the owner considers his experiment a success. This opens up a vast field for owners of marshy land which lies in such a position that ordinary methods are of no avail. Mr. Labreux is confident the system will work on any piece of marsh in Michigan.—Marshall Statesman.

#### How Watch Cases are Made.

A plate of SOLID GOLD 14-20 karats fine is soldered on each side of a plate of hard nickel composition metal, and the three are then passed between polished and rollers. From this plate the various parts of the cases—backs, centers, bezels, etc. are cut and shaped by dies and formers. The gold is thick enough to admit of all kinds of chasing, engraving, and engineering. The composition metal gives it needed strength, stiffness and solidity, while the written guarantee of the manufacturers warranting each case to wear twenty years proves that it contains all the gold that can possibly be needed. This guarantee is given from actual results, as many of these cases have been worn perfectly smooth by years of use without wearing through the gold.

I must cheerfully recommend your cases to be all they are represented to be, and more.

#### COUNTY OF WASHTENAW, ) ss.

At a session of the Probate Court for the  
County of Washtenaw, holden at the Pro-  
bate Office in the city of Ann Arbor, on  
Wednesday, the 31st day of October in the  
year one thousand eight hundred and  
eighty-three.

Present William D. Harriman Judge of  
Probate.

In the matter of the estate of Fredrika  
Roedel, deceased.

On reading and filing the petition, duly  
verified, of Adolph Roedel, praying that  
administration of said estate may be grant-  
ed to himself or some other suitable per-  
son.

Thereupon it is ordered, that Monday,  
the 3d day of December next, at ten o'clock  
in the forenoon, be assigned for the hear-  
ing of said petition, and that the heirs at  
law of said deceased, and all other persons  
interested in said estate, are required to  
appear at a session of said Court, then to  
be holden at the Probate Office, in the city  
of Ann Arbor, and show cause, if any  
there be, why the prayer of the petitioner  
should not be granted: And it is further  
ordered, that said petitioner give notice to  
the persons interested in said estate, of the  
pendency of such petition, and the hear-  
ing thereof, by causing a copy of this order  
to be published in the CHELSEA HERALD,  
a newspaper printed and circulated in said  
County, three successive weeks previous  
to said day of hearing.

# NEWS OF THE WEEK.

## WASHINGTON.

**BURRILL'S BUDGET.**  
Capt Burrill, Chief of the Bureau of Engraving and Printing, in his annual report says that as a result of the year's work there were completed and delivered 9,322,505 sheets, notes and securities with a face value of \$995,717,480; 23,357,651 sheets of internal revenue and customs stamps containing \$95,909,654 stamps; 734,466 sheets of checks, drafts, etc., and a large amount of miscellaneous work besides imprinting the act of March 3, 1883, upon 1,883,833 sheets of tobacco, snuff, cigar and cigarette stamps, containing 38,214,744 stamps, furnished by the Commissioner of Internal Revenue for that purpose. This is a large increase over last year's work, and the rapidly increasing business of the bureau leads Capt. Burrill to recommend the enlargement of the building at an early day.

**THE NEW ARCHITECT.**  
Miffitt Elmer Bell, of Des Moines, Iowa, is appointed supervising architect of the treasury vice J. G. Hill, resigned.

**NEW WILL REMAIN.**  
Hon. John C. New, assistant secretary of the treasury, has reconsidered his determination to resign and will retain his position.

**THOMPSON'S REPORT.**  
Supt. Thompson, of the Railway Mail Service, has submitted his annual report. The number of railway postoffice lines in 1883 was 993, an increase of twenty-four over 1882. The number of miles of route for which the railroads were paid was 109,827, an increase of 9,264 over 1882. The number of miles of railroads traveled by clerks was 86,180,439, an increase of 10,438,992; number of pieces of mail matter handled, 3,981,516,280, an increase of 1,439,923 over the preceding year. The superintendent asks an increase of \$319,000 in the appropriation for railway postal clerks, and a \$50,000 increase for postal cars. He recommends that the Postmaster-General be authorized to pay the widow or guardian of minor children of railway postal clerks killed in the service a sum equal to one year's salary of the grade held at the time of death, and to grant leave of absence, with pay, to clerks injured in railroad accidents until recovery, not exceeding one year. In conclusion the report says: As the Northern Pacific Railroad is now completed, some changes may be made in the system of forwarding Pacific Coast mails.

**GRESHAM'S OPINIONS.**  
In a recent interview Postmaster-General Gresham expressed his opinions regarding two important postal questions. First, he does not approve of the suggestion that the postage on what are called drop letters should be reduced to one cent. He thinks there are strong reasons why letter postage should be uniform. An argument in favor of reducing postage within the limits of a large city to one cent would be a strong one, if used, in favor of discriminating between postage on letters transmitted fifty miles and those transmitted 1,000 miles. Second, he thinks it would be wise to raise the limit of transient newspaper postage from two ounces to three ounces for one cent. Many newspapers weigh but a fraction below two ounces without wrappers. Gen. Gresham thinks that three ounces should be substituted for two ounces in the law regulating transient newspaper postage.

**SHERMAN STEPS OUT AND SHERIDAN IN.**  
The transfer of the command of the United States army from Gen. Sherman to Lieut.-Gen. Sheridan took place in Washington at noon on November 1st. The transfer was quietly accomplished, and without any ceremony whatever beyond the issuing of the necessary orders.

**HOW THE UNITED STATES RANKS.**  
The statistics of the Universal Postal Union for 1881 shows that the United States ranks first in the number of postoffices. In the number of letters carried by mail, Great Britain ranks first and the United States next. In the number of newspapers conveyed the United States ranks first, with Germany second.

**WHAT ORDWAY WANTS.**  
Gov. Ordway, of Dakota, in a report to the Secretary of the Interior, recommends that Congress provide for holding a legitimate constitutional convention to prepare one or two Constitutions or else pass an enabling act to be submitted to the people for ratification.

**"NO FOOL LIKE AN OLD FOOL."**  
In 1865 Miss Mary Harris, a woman about 27 years old, and fairly good-looking, went to Washington from Chicago. She made a great sensation soon after her arrival by shooting and killing Adoniram Burroughs, a clerk in the Treasury Department. The shooting took place in one of the corridors of the department, near the secretary's office. Miss Harris claimed that Burroughs had jilted her. She was defended by Senator Dan Voorhees and Joseph H. Bradley, one of the oldest attorneys in Washington, on the ground of insanity, and acquitted. The fair defendant, in her delight, kissed Bradley. This she did with such fervor that the gallant old gentleman was amply rewarded for his work in the case. Miss Harris was soon after sent to the insane asylum. After spending some time in confinement she was finally discharged as cured. A few days ago her marriage with Bradley was announced, making a great sensation, as Bradley is a wealthy member of the bar, fully 80 years of age. Miss Harris is fully 45, but is a well-preserved woman.

## NEWS NOTES.

**OPPOSED TO HOWARD.**  
A report from the East having reached Salt Lake City that Sumner Howard, Speaker of the last Michigan House, was to be appointed Chief Justice of Utah, the members of the Salt Lake bar, numbering thirty, held a meeting and passed resolutions opposing the nomination. Howard was formerly United States District Attorney of Utah. He occupied that position when John D. Lee was convicted and executed. One of the chief movers was a Mormon church attorney.

**THROUGH A BRIDGE.**  
A train due at Glens Falls, N. Y., from Albany, went through the bridge over Glens Falls, a feeder to Champlain Canal, eighty rods north of Fort Edward. The engine crossed the bridge, but the baggage and passenger cars went down into the water, and are a total wreck. About twenty passengers were aboard. Three passengers were instantly killed, and the others seriously injured.

**IN THE BANK'S FAVOR.**  
In the suit of the Muskegon, Mich., National bank against the Northwestern mutual life insurance company of Milwaukee for the recovery of \$20,000 insurance on the life of Erwin G. Comstock, formerly cashier of the bank, the jury rendered a verdict of \$22,505 for the bank. The insurance company sought to prove that Comstock was an habitual drunkard and that his death was caused by his own act.

**A "SQUID" EXPLOSION.**  
The people of Kingston, Pa., were startled the other afternoon by a loud explosion. The Excelsior gun factory had been torn to pieces and the flying timbers in every direction. No one appears to know the exact cause of the explosion, but it is believed that there had been burning wood in the store, and a spark blown out of the stove fired a keg of powder. Five of the injured ones died within a few hours after the explosion.

**RAILROADS AND CIVIL RIGHTS.**  
A Galveston, Texas, dispatch says: Vice-President Hoxie of the International Railroad has written to Gov. Ireland that business will not justify the running of separate coaches to accommodate Negroes in accordance with recent civil rights decision. He says: "We can

now make colored men take the seats we desire." The Governor replied that the difficulty involves the peace of society. There is but one remedy, that is, to provide coaches for each color. He sincerely regrets that the road will not do what seems reasonable, and what other trunk lines in Texas have done.

**A BOILER EXPLODES.**  
A boiler exploded at the pump factory at Belpre, Ohio, and nine persons were injured, four of whom will probably die. O. Lagrange died in an hour. Chas. Cranston, James Hutchinson, Geo. Gurlish, Frank Brookhart and Will Howell were severely burned. Geo. Miller had a leg broken in two places.

**GLIDDEN GOES UNDER.**  
Business circles of Cleveland, O., are greatly excited over the failure of John N. Glidden, Secretary of the Republic Iron Company. The company has filed in court a claim against him for upwards of \$111,000, on which he confessed judgment. As security the company holds his stock, the market value of which is about \$250,000, but it is understood that considerable of this is pledged for other debts, and questions of priority of claims are likely to arise. Mr. Glidden stated to an Associated Press reporter that his failure is solely attributable to shrinkage of values in legitimate iron business. His indebtedness to the company is for ore purchased on his own account and sold to other parties, and for transportation. He says that in a year and a half he lost over \$300,000 from this cause. He will call a meeting of creditors and ask an extension of time. Glidden's embarrassment will not effect the Republic Iron Company, whose capital stock is \$2,500,000, and which owns perhaps the most valuable mining property in America, nor will it affect the firm of Glidden & Manning, which does a strictly commission business and has no debts.

**CHARLIE ROSS HEARD FROM.**  
A young man at Portland, Maine, claims to be the missing Charlie Ross. He says he was kept in a dark room four years and subsequently taken to Brazil.

**WHAT KILLED THE SHEEP.**  
For the past few weeks sheep in large numbers have been dying in a mysterious manner in the vicinity of Dayton, O. H. C. Kiebafer, an extensive wool grower of that city has made a thorough investigation of the affair. He found the cause of death to be a worm about an inch long and one-third of an inch thick, with two horns similar to a tobacco worm. The insect inserts itself at the base of the sheep's nose and works its way to a vital point in the head. One of them was soaked twenty-four hours in coal oil, and when taken out was as lively as ever.

**A DETROITER IN TROUBLE.**  
The trial in Toronto, Ont., of Charles Andrews alias Charles Morgan, the Detroit (Mich.) gambler, for the shooting of Maroney on the 7th of August last, during a quarrel about a drink, resulted in a verdict of wilful murder, with a recommendation to mercy. Judge Galt asked them to retire to reconsider their verdict, because there was nothing to show that the act was premeditated. The jury said the difficulty had been with them as to the malice aforethought, but thought from the evidence they were justified in bringing in their verdict. The jury then again retired, and returned in half an hour with a verdict of "manslaughter." Andrews was at once placed on trial for shooting with intent to kill Constable Cuddy, while the latter was arresting him a few minutes after the shooting of Maroney.

**THE FAT WOMAN'S DEATH.**  
It is stated that Mrs. Moses, of Detroit, the fat woman who was found dead in bed in Baltimore was in an advanced stage of pregnancy, having been en route for at least five months back. The announcement of this fact has given rise to the utterance of not a few suspicious as to the indirect cause of the woman's death. Mrs. Moses was buried in Mount Olive cemetery in Baltimore. The corpse was carried down stairs in a piece of canvas and placed in a coffin in the lower hall and thence carried to the undertaker's wagon by 12 pallbearers attached to the museum. The coffin of black walnut, was six feet four inches long, three feet two inches deep, and three feet wide.

**ROSSA'S RANTINGS.**  
O'Donovan Rossa's gang of blood-thirsty devils were in session in New York the morning following the recent explosion in London. Speeches expressing the sentiments of the gang were made. Rossa but mouthed the sentiments of them all when he said: The explosion yesterday in the underground railway, London, were the work of the Fenian brotherhood, of whose movements he is apprised. London would be in ashes, he said before long, unless England gave up Ireland. New developments might be expected at any moment, for it was now the purpose of the brotherhood to reduce England to submission.

**A POWDER EXPLOSION.**  
The town of Garfield, Col., was totally destroyed by fire the other morning. The fire spread so rapidly that before it could be gotten under control it had reached a building in which was stored over 500 pounds of giant powder, which exploded with fearful force, hurling buildings, timber and fire in every direction. The entire business portion of the town is in ruins. A majority of the people are homeless, and without clothing or food for the winter. The loss is about \$60,000 with only a very light insurance.

**BROTHER AND SISTER DROWNED.**  
Geo. C. Ruggles, wife, son and daughter attempted to cross a bridge over the Wabash and Erie Canal twelve miles below Terra Haute, Ind. The water covered the bridge, which was partially washed away. The wagon with its occupants plunged into the water. The father swam to the bank with his wife. The son swam ashore, but seeing his sister struggling in the water went to her aid. Both were drowned.

**DESTRUCTIVE BLAZES.**  
A fire broke out in a large warehouse in Atlanta, Ga., the other day, and before it was subdued, \$1,000,000 worth of property was destroyed. Eight persons lost their lives, and their bodies were burned almost beyond recognition.

**A SCOUNDREL CAGED.**  
Edward B. Connell, a brakeman on the Lake Shore railway, is in jail in Cleveland, Ohio, to await trial in the United States Court on a charge of sending obscene matter through the mails. He confesses that he sent incredibly lewd letters to divers ladies of eminent respectability living in Cleveland and in neighboring towns. Some of these letters were given to the postal authorities. With much difficulty the detectives traced their authorship to him. He was arrested in Toledo, examined before Commissioner White and committed in default of bail. He claims he was not in his right mind when he sent the letters, which contained unnaturally foul propositions, and represented that he was the retained sensualist of various women of high social rank. Before going to prison he wrote apologetic letters to the ladies he thus grossly offended. He is middle-aged and has a wife and children in Lorain.

**"THE WAY OF THE TRANSGRESSOR IS HARD."**  
Nathan S. Haines, the city Market Master of Dayton Ohio, who two months ago deserted his wife and ran away with a frail, but pretty woman, named Clara Fredricka, and \$15,000 of the city's money, was brought back to Dayton from Montreal, Canada, where Detective Kirby found him. He and Miss Fredricka had spent all the money traveling in Europe, where Haines broke down with remorse and took to a sick bed. When brought home he was in a serious condition, unconscious and unable to rest. He was put in jail, where he grew worse and worse, and shortly after died in jail in presence of his wife and aged mother. The physician who attended him attributes his death to acute mania, brought on by remorse and trouble. His death was terrible, the great

strain on his mind actually burning and growing into his very vitals, and thus consuming his life. Miss Clara Fredricka, the woman who was with him and helped spend the city's money, is also at home, but not under arrest.

**BLACKS VS. WHITES.**  
In a conflict between a crowd of whites and colored at Danville, Va., Walter Holland, son of C. G. Holland, was shot in the head and, it is supposed, mortally wounded. Thomas Seward was shot through the body. Five negroes were killed and it is supposed many were wounded. The beginning of the conflict was the beating by one of the citizens of a Negro who abused another Negro for apologetizing for apparent rudeness and spoke roughly about the citizen. Some of both colors interfered and a pistol was knocked out of the hands of the white men and exploded.

**DEATH IN A WELL.**  
Three Men Suffocated in a Well in Allegheny City.

Three men, named Gustave Dickson, Chris. Schultz and Ferdinand Schraider, employed at Kiefer & Stifel's tannery, Allegheny City, were overcome by foul gas while working in a new well at that place, and all met their death. Schultz had gone down to see how much water was in, and was seen to fall, when Schraider followed to rescue him, but also succumbed. Dickson then came to their assistance with a like result. J. S. Balmerger next volunteered and a rope was tied around him and he was lowered, but by degrees the three unfortunates were brought to the surface, but life was extinct. Schultz and Schraider each leave a wife and one child. An inquest was held and a verdict of accidental death rendered.

**DYNAMITE'S DOINGS.**  
Workmen Blown to Atoms—The Force of the Explosion Felt 15 Miles.

Twelve hundred pounds of dynamite near Confluence, Pa., on the Baltimore & Ohio railroad, exploded the other morning with terrific force. Houses for fifteen miles around were shaken to the foundation, and windows a distance of seven miles were shattered. Horror-stricken the people ran from the houses and upon investigation it was found that the dynamite had exploded with fearful effect. Everything in the vicinity gave evidence of the terrific force of the explosion. Trees were uprooted, huge rocks torn assunder, and telegraph poles for half a mile were prostrated. Nothing remained of the magazine, while the five men who were present were missing. A search revealed portions of bodies scattered all along for a half mile, but all were so badly disfigured as to bear no resemblance to anything human. The cause of the explosion is enshrouded in mystery, and as the five men who might have thrown some light on the affair are dead, it is quite probable that it will never be known. Not far from the accident a gun was found, and it is supposed one of the victims discharged it, the concussion causing the dynamite to explode. An inquest was held by the coroner and a verdict of accidental death rendered. The names of the unfortunate men are as follows: Geo. Reynolds, engineer, Confluence, Pa.; Chas. Tice, flagman, Confluence, Pa.; Robert Hammond, watchman, Cum. berland, Md.; W. A. Dean, tunnel blacksmith, and H. R. Burchfield, helper, both of Cornwalls, Pa.

**CRIME.**  
WAUSEON'S TRAGEDY.

It is now regarded as almost a certainty that Wesley Johnson is the murderer of Mr. and Mrs. Geo. W. Williams, butchered a few nights ago near Wauseon, O. A suit of clothes has been found badly stained with blood, and they show very plainly that an effort has been made to wash out the blood stains. The clothing has been identified as that worn by Johnson on the night of the murder, and was thrown out of a car window by him on the night he went to Kendallville. The coils seem closing around the accused, and belief in his guilt is so strong at the present writing that lynching is freely and openly advocated. The little babe, only 6 weeks of age, of the murdered man and woman, which lay for two days and nights without food, and sucked its little fingers until blood oozed out of them, was reported dead, but is said to be still alive, and may recover. Johnson claims that he can prove an alibi, and on that will endeavor to make a stubborn defense, having engaged Ex-Prosecuting Attorney Trassler, of Henry County, as counsel.

**NAUGHTY NELLIE.**

Nellie C. Bailey, the woman charged with the murder of Clement Bothemly in Indian Territory on the 7th of October has been held by United States Commissioner Sherman for appearance at the next term of the United States Circuit Court at Wichita, Kan. Nellie C. Bailey is 21 years old, a handsome brunette, well educated, and moved in the best society of New York City and New Jersey. She met Bothemly, a rich Englishman and member of the B. I. S. Association, and through the arrangement with him to go to Texas and start a sheep ranch. Before they started she got a deed for his lands in Kansas, valued at \$20,000, and while passing through the Territory en route to Texas, shot Bothemly through the head, took possession of his trunk, containing diamonds and jewelry worth \$7,000, together with his outfit, consisting of sheep and stock worth \$10,000. She buried the body at Skeletown and started south, but was arrested about nine miles from where the murder was committed. The case was worked up by United States Marshall Hollister and Assistant United States Attorney Hutton.

**A MAD MURDERER.**

Charles Schraeder and Frank Toomey of Chicago, were on their way to the Raymond school the other morning, and were met by a man named Peterson in a vacant lot. Without saying a word Peterson picked up a limb of a tree and dealt the Schraeder boy a heavy blow on the head. Stopping only long enough to see that he had killed his victim, he strode away, thumping his chest and shouting, "I am happy! I am happy now!" The police were informed of the occurrence, and a few hours after saw a crowd gathered around a man who was standing near the Alexian Brothers' hospital. The man talked incoherently and appeared to be insane. The officer called the patrol wagon and had him taken to the Larabee Street Station. Peterson is a German laborer and was born in the province of Holstein, and came to this country two years ago. He appeared dull and is evidently of unsound mind. Of the killing he would say but little and apparently had forgotten all about the occurrence. His appearance is that of a mild, offensive laborer. He has blue eyes, light stub beard and was dressed in the garb of an outdoor workman. For three months past he has been in the Alexian Brothers' hospital. He was troubled with rheumatism and spinal disease, the latter being liable to affect his mind. The universal verdict of all who have seen him is that he is insane. He left the hospital on the 27th of October.

**THE WILLIAMS MURDER.**  
At Napoleon, Ohio, Wesley Johnson, in the Williams murder case, was indicted in each case making two separate indictments for murder in the first degree. Forty-eight hours were consumed in taking the testimony.

**SUICIDE AND SCANDAL.**  
Arthur B. Johnson, a lawyer and well-known politician, of New York state, was found dead in his office in Utica, with a pistol ball in his breast. He was an uncle of Johnson L. Lynch, who was shot by Rowell in Batavia a few days previous by a wronged husband. They occupied the same office. Johnson probably committed suicide under depression caused by the shooting of Lynch. Johnson's body was discovered by his private

secretary Lena Bender. This suicide, following so close on the preceding horror, has created the greatest excitement in the city. Johnson, although in early life a Democrat, was a well-known Republican politician, who had always been an intimate friend and staunch supporter of Roscoe Conkling. He was many years a member of the State Central Committee and noted for undeviating allegiance to the stalwart cause. He was a recognized exponent of this faction in Central New York. He was a son of the late A. B. Johnson, a celebrated banker fifty years ago, and a brother of the late Judge A. S. Johnson, of the New York Court of appeals and United States District Court. Johnson was a son-in-law of Justice Ward Hunt, lately retired from the bench of the United States Supreme Court.

**FOREIGN AFFAIRS.**  
HORRIBLE BARBARITIES.

Horrible barbarities are reported by the French in the recent engagements in Tonquin. The attacking party would give no quarter, and men, women and children were butchered like hogs. Four hundred and fifty Anamites were slaughtered, nearly all of them being unarmed.

**CHARGE IT TO THE FENIANS.**  
A terrific explosion occurred in the Praed street underground railway station, London, Eng., a few days ago. A passenger train filled with country visitors returning from the Fisheries exhibition, received the full force of the concussion. Six carriages were completely shattered, and more than forty passengers injured, some of them terribly burned. Almost the same moment an explosion occurred between Charing Cross and Westminster Stations, doing great damage and injuring a number of persons. Four infernal machines were found near the Praed street station, while explosives of the most powerful nature were found near Charing Cross. It is very evident that the explosions were not accidental, and suspicion points in one direction only—to the Fenians.

**COLLISION AT SEA.**  
The steamer Holyhead came in collision with the German ship Alambra, bound from Liverpool to New York, when twenty-five miles off Holyhead. Both vessels sank. Thirteen of the Alambra's crew and two of the Holyhead's were drowned. The remainder were picked up and landed at Holyhead. Much relief was felt in Dublin when the news of the safety of the Holyhead's passengers was received. The drowned from the Alambra included the captain, mate and captain's daughter. Twelve were saved.

**A "Chew" Saved His Life.**  
Dr. J. M. Williams, an old army surgeon who came to Salt Lake with Gen. Connor's command, died in that city recently of apoplexy. He passed through some trying ordeals in endeavoring to exercise the rights of an American citizen in Utah. For daring to claim land in the neighborhood of Salt Lake, as a pre-emptor under the United States law, he was tied in a sack and was about to be thrown into Jordan river when he told them he would like to have a chew of tobacco before being drowned like a cat. His cool manner dashed them for a moment. They parleyed with him. He told them he would fight them single handed with any weapon they might choose, but they declined, telling him he was too good a man to be thrown into the river in a sack, and let him go on condition of leaving Utah.

*Rheumatic Syrup.* Co.

I have been a great sufferer from Rheumatism for sixteen years. A part of the time I could not leave the house and many weeks I was confined to my chair, being unable to leave it without help, and for three long years I was compelled to use crutches and the pain I suffered, no one can realize—except those who have been similarly afflicted. I called different physicians and tried many different kinds of liniments, but obtained no relief. My limbs were daily being drawn more and more out of shape, and I had become completely discouraged, and supposed that I was doomed to suffer on until death put an end to my pain, when I heard of your Rheumatic Syrup, and immediately commenced its use, and in less than one week I could see that it was helping me and after using it two months I was completely cured and to-day I am as well as ever. Rheumatic Syrup is truly a wonderful medicine for cleaning the blood and is certainly a positive cure for rheumatism, and cannot fail to meet with great success.

**WORKING MAN.**

and, for a good many years he had ought to work constitution, and that he could starve on the waste of the system is repair of it is less, d, nervous, and despondent. He regret he had worked himself into an untimely cemetery at all. Instead of that, a of his Iron Bitters.

th. That was what he wanted. Bro blood and put new life into him. It this food began to nourish him and commend Brown's Iron Bitters.

Answer This.

Is there a person living who ever saw a case of ague, biliousness, nervousness or neuralgia, or any disease of the stomach, liver or kidneys that Hop Bitters will not cure?

My mother says Hop Bitters is the only thing that will keep her from severe attacks of paralysis and headache. Ed. Oswego Sun.

My little sickly, puny baby, was changed into a great bouncing boy and I was raised from a sick bed by using Hop Bitters a short time.

A YOUNG MOTHER.

No use to worry about any Liver, Kidney or Urinary Trouble especially Bright's Disease or Diabetes as Hop Bitters never fails if a cure is possible.

I had severe attacks of gravel and Kidney trouble; was unable to get any medicine doctor to cure me until I used Hop Bitters. They cured me in a short time.

T. K. ATT.

Unhealthy or inactive kidneys caused gravel, Bright's disease rheumatism, and a horde of other serious and fatal diseases, which can be prevented with Hop Bitters if taken in time.

Ludington, Mich., Feb. 2, 1879. I have sold Hop Bitters for four years, and there is no medicine that surpasses them for bilious attacks, kidney complaints and all diseases incident to this malarial climate.

H. T. ALEXANDER.

Monroe, Mich., Sept. 25, 1875. SIRS—I have been taking Hop Bitters for inflammation of kidneys and bladder, it has done for me what four doctors failed to do—cured me. The effect of the Bitters seemed like magic to me.

W. L. CARTER.

GENTS—Your Hop Bitters have been of great value to me. I was laid up with typhoid for over two months, and could get no relief until I tried your Hop Bitters. To those suffering from debility or any one in feeble health, cordially recommend them. J. C. STOEZEL 638 Fulton st., Chicago, Ill.

There is a Justice of the Peace in Bank County, Georgia, who has held his office for eight years and has never tried a case, always getting the litigants to compromise.

An enricher of the blood and purifier of the system: cures lassitude and lack of energy such is Brown's Iron Bitters.

When a menagerie train had a collision, near Binghamton, the elephant hastily packed his trunk with his pet dog, broke out and made for the woods.
