Russia Rejects England's Proposals.

General Foreign News.

A dispatch from St. Petersburg states that Russia has entirely rejected the British proposals. The same dispatch also states that Russia will demand the right to have an acknowledged Russian representative at Cabul, the capital of Afghanistan. French diplomats think this latter demand, if made, will prove more serious than any frontier question.

Gen. Lew Wallace, ex-United States Minister to Turkey, has officially tendered his farewell to the Sultan and left Constantinople. The American residents in the Turkish capital presented Gen. Wallace with an eulogistic address.

A Suakim dispatch says: One thousand natives, who had been hostile, have submitted to British authority and have been armed. It is feared, however, that the news that the British forces are to be withdrawn will deter further submission, as the majority of the natives consider that to every Arab who manifests friendliness towards the English occupation, death is inevitable at the hands of Osman Digna as soon as the British have retired.

Negotiations are proceeding with Turkey for the latter's occupation of Suakim and the Soudan on the following basis: The Porte engages to assist in suppressing the slave trade and in developing external commercial relations. Besides the former proposals made through Fehmi Pasha, if the Porte accepts, an English company will obtain the option of securing a concession to construct a railway to Berber and will receive other trading rights.

In the house of commons on the 11th inst., Lord Harrington, minister for war, stated that the government had definitely decided to abandon the plan of advance on Khartoum. The British troops would be concentrated at Wady Halfa and Assouan. Suakim could not be evacuated until an arrangement could be made to garrison the place by the troops of some civilized power. These changes in the original plan of operations in the Soudan would make it unnecessary to push forward the railway from Suakim toward Berber.

GEO. A. BEGOLE, Clerk.

Chelsea, May 15, 1885.

Present, President Shaw, Trustees Holmes, Loomis, Schumacher, Wood, Palmer, and Cushman.
Reports of street committee read.

To the President and Trustees of the Village of Chelsea:

Your committee to whom was referred the petition of H. L. Wood and others in regard to draining the water-hole near Milo Baldwin's premises on the east side of East-st., respectfully report that they have had the matter under consideration, that they have caused surveys thereof to be made in several directions for such drain. One along East-st. and others in an easterly direction across private property. And recommend that the new drain be laid on or near the line of the old drain along East-st. especially when it is already ordered that a new drain be laid from the outlet south to Vankiper's.

Your committee in connection with such recommendation say that from VanRiper's south to the waterhole the distance is sixty rods with an average cut of six and one-half feet, the least cut being five feet and the deepest cut eight feet. That they submit the following estimate of expense to make such drain:

Excavating and filling 60 rods at \$1.50.....\$ 90.00
If laid with common tile 1,000 6 inch..... 46.00
If laid with 6 inch sewer pipe extra cost over common tile..... 150.00
Total cost all sewer pipe.....\$286.00

Your committee are of the opinion however that it is not necessary to lay sewer pipe except through the quicksand, which from the best information they have been able to obtain by inquiry from those who laid the old drain the quicksand does not exceed one-third the distance so that an estimate based on such a drain, one-third sewer pipe and two-thirds common tile would be as follows:

Excavations etc.....\$ 90.00
40 rods common tile 6 in 31.25
20 rods sewer pipe 6 in. 66.00

Total cost.....\$197.25
Then recapitulation:
All sewer pipe.....\$286.00
½ sewer pipe 2-3 common tile..... 187.25
All common tile..... 136.00

Your committee is confident in which ever direction such drain may be laid, the same quantity of quicksand will be met and that sewer pipe should for the same be added to any estimate upon other route.

The advantages of laying the drain in the street are manifold, some of which are that it would be a permanent and lasting benefit to the highway, keeping the heart of the street thoroughly underdrained thereby making the street more firm. That the drain would always be accessible for repairs without having to go upon private property to attend to it. That it could not be interfered with by building over it or planting privies over or near it, both of which could not be prevented on private property. That it could not be tapped to accommodate private owners except by consent of the board.

All of which is respectfully submitted.
L. D. LOOMIS,
JACOB SCHUMACHER,
W. CUSHMAN.

MINORITY REPORT.

Chelsea, Mich., May 13, '85.
To the Board of Trustees of the Village of Chelsea.

GENTLEMEN:—Your committee to whom was referred the subject of certain drainage within the village, having investigated the same beg leave to report as follows:
First, The pool of water known as the "Freer cat hole," can be most successfully drained by a line running thro' premises of

A. Morton, street, A. Allison, B. Wight, Jas. Geddes, street, Geo. Taylor, and U. H. Townsend to an outlet south of Negus' mill, making in the aggregate a distance of 72 rods. We have had an offer to do the work of said drain for \$100. The expense for tile will be, 1152 tile at \$36 per M 5 in., \$41.50, 6 in. at \$46 per M, \$53, one load of marsh hay, \$5.00. And inasmuch as the property of each individual through which the drain passes as well as that of the persons comprising and adjoining said cat hole, will be directly benefited, we think that the drain should not be placed wholly at public expense. Therefore we recommend that the parties directly interested be called upon to contribute one-third (⅓) of the entire cost of said drain, and that this amount be levied by us as in our judgement is proper for the benefit received. And furthermore that the parties through whose premises said drain passes give us a permanent lease of a sufficient width of land in the line of said drain as is necessary for the construction and repair of said drain, and we recommend that if your petitioners comply with these provisions, that we proceed to construct the drain, and agree to do the same and keep it in repair as a successful drain at public expense.

In regard to the drain from M. C. R. R. to Hammond's barn, we recommend that it be made at once of 6 in. sewer pipe, and be placed at a depth of two (2) feet below the lowest point in said hole or basin, with sufficient fall to the outlet.
THOMAS SHAW, Chairman.

Moved and supported that the majority report be accepted.—Carried.

Moved and supported that we give street committee (Loomis, Schumacher and Cushman) full control of drain, letting contracts etc. for same according to Yocum survey, with 18 inches added to depth of same.—Carried.

Moved and supported that we excuse President from acting as chairman of drain committee, by his request.—Carried.

Following petition read:
To the President and Board of Trustees of the Village of Chelsea:

The undersigned residents and freeholders of the village of Chelsea would respectfully petition your honorable body to take the necessary steps and the proper action to prevent parties living in Chelsea and vicinity from delivering debris and refuse matter of all kinds, in the road leading to Oak Grove Cemetery and the road running north and south on the township line between the townships of Sylvan and Lima. Dated Chelsea April 30, 1885.
Signed by U. H. Townsend and 43 others.

Moved and supported that the petition of U. H. Townsend and 43 others, be referred to street committee.

Yeas, Trustees Wood, Palmer and Holmes and president. Nays, Loomis, Schumacher and Cushman.

Moved and supported that we allow highway commissioner of Sylvan \$35 and use of road scraper to finish road west of village near Guthrie's.—Carried.

Moved and supported that we allow \$200 to township of Sylvan to be used with like appropriation by them in repairing road north of village near Sawyer's.—Carried.

Moved and supported that we levy a tax of \$800 on village for 1885.—Carried.

The following bills were presented and orders ordered drawn on highway fund:

T. McNamara \$11 10 H. McKune \$14 10
C. Smith 11 10 M. Lowry 11 10

—Carried.

No remedy has yet been discovered that is so effective in all KIDNEY AND LIVER COMPLAINTS, MALARIA, DYSPEPSIA, etc., and yet it is simple and harmless. Science and medical skill have combined with wonderful success those herbs which nature has provided for the cure of disease. It strengthens and invigorates the whole system.

Hon. Thaddeus Stevens, the distinguished Congressman, once wrote to a fellow member who was suffering from indigestion and kidney disease: "Try Mishler's Herb Bitters, I believe it will cure you. I have used it for both indigestion and affection of the kidneys, and it is the most wonderful combination of medicinal herbs I ever saw."

National Encampment, G. A. R.

An elegant and very tasteful circular, bearing on the corner the time-honored badge of the G. A. R. in bronze and colors, come to us from the Michigan Central, "The Niagara Falls Route." It presents to the veterans all necessary information about the various attractive routes it offers to the National Encampment at Portland, June 24th, and is of unusual public interest. The inducements to an eastern trip, combining a visit to old friends, and attendance upon the largest and most notable military reunion since the war, are irresistible.

Members of the G. A. R. and W. R. C., their families, and such bands and other organizations as may accompany them, can purchase of the Michigan Central, at the lowest rates, round trip tickets to Portland and return, good for thirty days, and with privilege of stopping over on the return trip. The first route takes them right through in about forty-one hours via Niagara Falls, Buffalo, Albany and Boston, and will be taken by the Commander-in-Chief and staff, whose special train will leave Chicago, Toledo and Detroit on the 20th. This route has the advantage of the finest views of Niagara from the train, the grand scenery of the Berkshire mountains, and the historic city of Boston.

The second route takes them through the wild, wonderful scenery of Canada by the new line of the Canadian Pacific, via Ottawa, to Montreal, thence past Memphis, and other lovely New England lakes, by the only line running through the heart of the White Mountains to Portland.

The third route described takes them by the brink of Niagara Falls and over the great cantilever bridge through the rich fields of Western New York by the bewildering beauties of the Thousand Islands down the rapids of the St. Lawrence to Montreal, and then through the White Mountains by Fabyan's and the Notch, past the very feet of Washington, Adams and the other giant peaks of the Presidential range. A special train will run by this route and a special steamer chartered.

The Michigan Central justly claims that no other line offers comparable attractions, comforts or lower rates. It is first and foremost "The Niagara Falls Route." From the cars of no other road is a good view of the Falls obtainable; while the Portland & Ogdensburg is the only line passing through the heart of the White Mountain region, no other running within sixteen miles of Mt. Washington.

A beautiful engraving of Niagara Falls, with the Michigan Central train stopping at Falls View, and a clear, well executed map showing in color the different routes accompany the circular. We presume that any Michigan Central agent can supply a copy, but a postal card to O. W. Ruggles at Chicago will undoubtedly procure one.

To secure 100,000 new subscribers during next sixty days, we will actually send the best farmers magazine in the U. Over one million of Acker's dyspepsia tablets sold in the past twelve months, purely upon their merits. Why suffer with chronic constipation, dyspepsia, sour stomach, sick headache, heartburn, and female troubles when R. S. Armstrong offers you relief and positive cure in the dyspepsia tablets. He sells them on guarantee.

There are scores of persons who are suffering from some form of blood disorder or skin disease, such as scrofula, boils, etc. After a practical test, R. S. Armstrong asserts that Acker's Blood Elixir will certainly cure all such diseases, including syphilis and rheumatism. It is not a patent nostrum, but a scientific preparation. He guarantees it.

One of the greatest of Pennsylvania's products is petroleum. Millions have been made in the greasy fluid. Benj. Crump, living at Oil City, right in the heart of the petroleum country, was prostrated by sick headache and general exhaustion, by working continuously in the sun. By the doctor's advice he used Mishler's herb bitters as a preventative, and thereafter did not suffer.

Practical test. Those housekeepers who wish to detect the presence of ammonia in their baking powder, can do so by boiling a small quantity in water, when the odor produced by ammonia is quickly detected. It will also leave a presence of starch, flour or filling of any kind, as nothing but cream tartar and soda will disappear. DeLand's chemical baking powder has none of the ingredients except cream tartar and soda, which contains all the leavening power necessary to use in the manufacture of baking powder. Never sold in bulk.

CONTENTMENT is one of the least cultivated virtues. We Americans are especially a restless, ambitious people. At no period of the world's history has there been a more general race for wealth, or more aspirants for political power and social status. It is one great strife to rise above our fellows and assume cares we know not the burden of. Perhaps, as the country becomes older, certainly as we become a more religious nation, we shall become wiser, and quiet contentment will be more cultivated. Wealth will come by years of honest and prudent accumulation, and not dishonestly, at the expense of our neighbors. Public position will seek the men, instead of the scramble for place that now prevails. People will move more in ruts, but they will be assured of better tried and safer paths. It will be called a revival of the old fogylism but what matters it if the people are better and happier!

House.—The committee on municipal corporations reported favorably on the Detroit annexation bill passed by the Senate, Mr. Walworth dissenting. The governor noted his approval of the following acts: Amending Sec. 4373, Howell, relative to inquests; providing opening and improving streets and alleys Detroit; requiring bills of particulars of demands of parties to city suits; making it a misdemeanor to unhitch or drive away horses; Amending Sec. 4373, Howell, relative to appointment of visitors to state institutions; Amending Secs. 442-43, C. L. 1871, relative to common jurisdiction of counties; providing for collection of alms for paupers; Amending Sec. 5078, Howell, relative to township boards school inspectors. The special committee on proposed sites for a state soldiers' home reported that a large number of cities had been selected, and at nearly every place propositions had been submitted. The committee was of the opinion that the necessity for the same was great. The Dearborn arsenal was at present available. A bill was passed establishing school district boundaries in Richfield township. Mr. Holman offered a concurrent resolution for final adjournment on Monday, June 6, no business except the signing of bills to be transacted after May 23. Laid over one day. Adjourned till 9 p. m. Monday.

Rather off in Her Remark.

A young lady of shoddy attainments, whose father had just struck a bonanza, was visiting some friends in the city last week. During her visit he with others visited the Shot Tower, and was invited to view the city from the top of the structure. She seemed very much relieved after descending, and remarked, "I am so glad to reach terra cotta once more."

President Arthur's Law Office.
Half a dozen men have been busily completing the interior finish of an elegant office in the new Mutual Life Insurance building which is to be occupied by Chester A. Arthur as a law office. The wood-work and furniture are mahogany, with cherry trimmings, and the men at work in the room say that it will be one of the most richly furnished offices in the building. The office is in the north end of the building, with windows looking out upon Nassau and Liberty streets. It is on the fourth floor, adjoining the Chamber of Commerce rooms, and a few feet away is the new York office, of Gen. B. F. Butler. It is believed that Mr. Arthur intends to resume his relations with his former attorneys, Messrs. Kneyals and Ransom, to whom the new office is leased from May 1.—*New York Times*.

A SURPRISING CHANGE.

With its broad streets and majestic avenues adorned with stately buildings, Detroit is one of the most magnificent cities on this continent. Its new system of electric lighting throws into obscurity all the old methods, and leaves ordinary street lamps where dingy yellow "dips" used to be. The new lights are on light lattice work towers, 125 to 150 feet high, shedding a radiance which is like intensified moonlight. The effect of this when the city is covered with its white robe of snow, is strangely beautiful.

A gentleman recently spent a day or two in Detroit, pushing his researches to some extent in the direction of finding out as to the new method of curing rheumatism by means of Athlophoros, the remedy which in the last year or two has attained such favor as a victor over this old enemy of the human race. Calling on Mr. R. B. Watson, the well-known superintendent of the American District Telegraph Company, he found that gentleman cheerfully ready to say all the pleasant things he could about Athlophoros.

"My wife," said Mr. Watson, "was suffering terribly from rheumatism; her pains were both in joints and muscles. So excruciating were her agonies when she moved, that sometimes on assuming one position in the morning she would remain in that position all day rather than endure the torment of being moved. I procured a bottle of Athlophoros, and the effect on my wife was as surprising as it was gratifying. We had no idea that any medicine could so speedily remove such an obstinate disease. She was soon cured, and the cure was complete. Since that she has had no return of the disorder. We speak freely among our friends of the good work of Athlophoros, and have no hesitation in saying how highly we esteem it."

Visiting nearly all the leading drug stores in the city, it was found that all who had kept Athlophoros had received from their customers marked commendation of its efficacy. One lady had taken six bottles of it with the result of a complete cure. At Friselle's, on Michigan Avenue, one of the clerks had taken it with excellent effect. This young man, Mr. Cohen, had suffered greatly with rheumatism. Though surrounded by medicines of every description, they did not reach his case. Mr. Cohen tried Athlophoros, and found that it did for him what nothing else had been able to do.

From Detroit to Chicago is but a day's ride, and in the latter city Athlophoros has also accomplished some wonderful results. In Chicago, at 905 West Twelfth street, lives Mr. William W. Summers, of the well-known firm of Summers, Morrison & Co., commission merchants, 174 South Water street. Mr. and Mrs. Summers gave substantially the following facts:

"When Robbie was taken sick some weeks ago we thought at first that it was only an ordinary cold, but it proved to be something much more severe. The pains were evidently those of rheumatism. We wrapped the boy in cotton and gave him a number of the remedies such as are generally given. His agony was dreadful. We had to hold him in the bed, his agony was so great. We had two physicians, who did not succeed in making him any better. The poor child's torture was so intense that he asked for a pistol, so that he might put himself out of the way and thus end his sufferings. When he was at his worst we thought of Katie Gill, who was well known to us, and the medicine that had cured her. We sent to Mr. Gill's to know the name of the medicine and where to get it. They happened to have some left in a bottle—Athlophoros the name is—and they kindly sent it to us. It is surely a very strange and powerful medicine, for it stopped the boy's pain very soon and very effectually. He took but a little of it, for there was only enough for about three doses in the bottle Mr. Gill sent us. This was only a few weeks ago. The boy has had no return of rheumatism. You see him now as hearty and as happy as any other boy."

If you cannot get Athlophoros of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We prefer that you buy it from your druggist, but if he has it, do not be persuaded to try something else, but order it from us, as directed.

Some valuable hints to those who contemplate a tour south, and who want to duly impress the natives of that part of the country, are given by *The Lincoln (Neb.) Journal*: All persons going south this winter should learn to pronounce r-o-u-t-e "route." The southern people, in making up their estimate of their visitors, are said to draw their line at route. If you wish to be taken for a Kentuckian or a Virginian, always take occasion to say Arkansas in a broad tone.

While the ice carnival may bring fish to the net of Montreal, it is not popular with the other cities in Canada. *The Sun* in Canada declares that Americans in general, through hearing of nothing save snow-shoes, toboggans, and ice palaces, get the idea that Ontario is a "frozen up country," with nine months of winter. "Not one out of a hundred of the people of Ontario," says *The Canadian*, "knows what a toboggan is like, and not one out of a thousand uses snow-shoes."

Hash has saved the lives of a great many people—by their not eating it. Hash is a noun, common—in boarding houses—often parsed and frequently declined, neuter gender, singular case. Shakespeare had it in mind when he wrote of "mincing matters." Hash is like a good many other things—it has to be taken largely on faith. Many people object to it, when they are not in reality accustomed to anything better. Those who are continually clamoring for better fare should eat sawdust, which is really fine board.

"Love Sees No Faults." It has been said; but, when a woman is dragged down, emaciated, wan, and a shadow of her former self, with never a cheerful word, she can be no longer beautiful or lovable. Nature may have been generous in her gifts, and endowed her with all the charms of her sex, but disease has crept in unawares and stolen the roses from her cheeks, the lustre from her eye, and the sunshine from her heart. But to be well again lies in your own power. Take Dr. Pierce's "Favorite Prescription," it will cure you; thousands have been cured by it. The Care of Children. BOSTON, MASS.—A leading medical journal thinks it is about time mothers should know how seriously the health of children is imperilled by the use of preparations containing morphia and opium, and given for the cure of colds and coughs. The chemist of the Brooklyn Board of Health, Otto Grothe, Ph.D., a graduate of the University of Kiel, Germany, certifies officially that recently a harmless and yet effective article for such complaints has come to his notice. Scrofula

Lurks in the blood of nearly every one, in many cases inherited. Its avowed form is that of running sores on the arms, legs, or feet. Bunches in the glands of the neck, pimples, cancerous growths, swollen joints, and thickening of the upper lip, are other symptoms. Hood's Sarsaparilla has had wonderful success in curing scrofula. It thoroughly eradicates the humor from the blood, and gives it new vitality and richness.

Albert Estes, 23 East Pine Street, Lowell, Mass., had been troubled with scrofulous humor from boyhood, and in the summer of 1884 had a large running sore on his leg. On taking Hood's Sarsaparilla the sore gradually disappeared, and he has had no indication of the humor since.

Mrs. Wm. McDonald, Wooster, O., for 18 months suffered with scrofulous swelling of the glands in the neck. Hood's Sarsaparilla gave immediate relief, the swellings being largely reduced. She thinks there is nothing equal to it.
