Why not Chelsea have an open air concert once a week? We have a fine band and it would cost our citizens but a very little money. We propose that the band should go once a week to Recreation Park, and let our storekeepers and the working class enjoy the music, either in the afternoon or evening. Who will start the ball rolling?

The first printing press in Michigan was brought from Baltimore by Rev. Gabriel Richards; a printing office was fitted up at Detroit, and a weekly newspaper, called the Michigan Essay or Imperial Observer was started in 1809. The price of the paper was \$5 a year. So far as can be ascertained it perished after an existence of one week.

Every man should subscribe and pay for his local paper. A man in Dakota neglected this and now his wife is a widow. He went to a neighbor's other day to borrow a paper, and while returning was struck by lightning and instantly killed. A report on the condition of the farming class in the United States is to the effect that there are 7,500,000 adults engaged in agricultural, of which number more than two-thirds are not property owners and of the owners nearly one-half are paying a high interest on mortgages.

John James, who promised to invest \$10,000 in improving the island at Grass Lake provided the citizens purchased it, backed down when he found the citizens had the necessary money promised. He then wanted to invest only a small portion of the \$10,000 now and the balance when he thought it would pay. The Grass Lake citizens were not fools and so the island resort scheme fell through.—A. A. Argue.

An editor recently got himself into trouble by mixing up the report of a cattle sale and concert in the following style: "The concert given last night by sixteen of Storm Lake's most beautiful and interesting young ladies was highly appreciated. They were elegantly dressed and sung in the most charming manner, winning the plaudits of the entire audience, who pronounce them the finest breed of short horns in the country. A few of them are of a rich brown color, but the majority are spotted brown and white.

Several of the heifers were fine bodied, tight-limbed animals and promise to make good property."

It is quite evident from the reports of sales at the principal interior markets in this state that wool-growers have cut down their flocks very materially. It was unfortunate that they did this, both for themselves and the state. There is nothing on the farm paying better than sheep—good sheep we mean—whether fine wools, middle wools or long wools. Want them all, because we think the United States can grow all the wool wanted by manufacturers, and of as good quality as can be grown in any part of the world. We have a range of climate so extensive that all breeds can be suited and every requirement of the woolen manufacturer met. Michigan wool-growers should increase their flocks at once. Wool is going to pay well for the next few years, and every farm in the state suitable for sheep should have a flock commensurate with its size.

Base Ball.

Last Thursday's game between Chelsea and Dexter was the finest ever seen on the grounds here. Girardin and Seery were both on their mettle, and though both held the opposing batters at bay, the home team were more fortunate in bunching their hits, and winning a most creditable victory. The game was stubbornly contested throughout, and was replete with brilliant fielding, and a number of fine individual plays were made. Laird caught a beautiful game although his hand was in bad shape. Score:

Ann Arbor.....1 8 2 0 0 6
Chelsea.....3 1 4 1 0 1-10

They might sell in the next few weeks and they might not. We want no uncertainty. The time to hustle them out is when you are asked for them. Early fall arrivals will soon be pushing and crowding to get in. The Summer Stuff must go. You'll find a few styles in the window this week. Have been \$1.00 and \$1.25. This week 55 cents.

Women's White Embroidered Muslin dresses very cheap, to close them out. No refuse or rubbish! Fresh, perfect and handsome. Have been \$4.50 to \$12. They're now 3.00 to 8.00.

SEERSUCKERS. There are dozens of styles in which beauty seems to have been the last thing thought of. You'll think so when you see them in the piece; but who ever saw an ugly Seersucker when made up? The 9 cent Crinkles have been 12 1/2 and this week the 12 1/2 were 15 cents last week. Plenty of Creams at 5 cents. Plenty more at 6 cents. Rattling good quantity; either of them, for much more than the price.

CORDED GINGHAMS. Among the newest, naggiest, neatest of the Cotton novelties. You'll likely think they're from Paris. The idea is; there's French fancy in every pretty thread, but the word is Yankee. Price 12 1/2 cents from 20.

PERCALE. The tough, yard wide "shirting" so many ladies are buying. Forty to fifty styles. 12 1/2 cents from 1 1/2.

There is pushing and crowding every day about the 17 cent Sateen counter. They're worth an effort to get. Light or dark colors. Every one has been 25 cents.

Do you suppose we would sell such heaps and heaps of Muslin and Cambric Underwear if you could make it at home for anything like the money? You can't.

PARASOL ITEMS. All of our \$4.00 Satin and Lace trimmed Parasols now \$2.00. If the worth of these goods were fully known we wouldn't have one left by Saturday night.

Mr. and Mrs. George Barber, of Grass Lake, were the guests of Mr. and Mrs. Samuel Tucker last Saturday.

Miss Olga Laubengayer, of Ann Arbor, has been spending a few days with her cousins, the Misses Amanda and Bertha Lewick.

We understand that there is a game to come off next Saturday between the Athletics of Chelsea and our Lima Wind-pipers.

Clarence Dixon who is in the employ of the Chelsea Creamery has moved from Dexter, and now resides in the house lately occupied by Henry Lewick.

Theo. T. Covert, while driving a young horse last Thursday, met with a mishap which might have proved serious. The horse became frightened at a dog and ran away throwing out Mr. Covert with such violence as to render him unconscious for a time. The horse was stopped before much damage was done to cart or harness.

The dry weather is unprecedented in the memory of the oldest inhabitant, and farmers are beginning to get anxious in regard to plowing for wheat. The creek is nearly dry, and taking it all around, it is nearly as bad as if the amendment had passed. A farmer here says if it keeps so much longer, that he will have to soak his hogs to make them hold still.

OY SHIRE.

Better Pay Up. A poetical newspaper man puts it this way: "Tell me, ye angelic hosts, ye messengers of love, Shall swindlers printers here below, have no redress above. The angels stopped their wings, and said, to you a hope is given, Delinquents on a printer's book can never enter heaven."

Mr. T. Watson is quite sick.

Baked apples are plenty, help yourself.

Wm. Worden is around canvassing for books.

Lou Glenn is in Unadilla teaching school.

Campers arriving every day, and more coming.

Little Gertie Webb is visiting cousins in this place.

Oats are nearly as poor a crop as the wheat was.

Very dry, but no fires have broke out around here.

Rain prophets are getting more plenty now that harvest is over.

Everybody's cattle wants to get into everybody's clover fields.

Miss Carrie Purchase is visiting Miss Clara Burkhardt a few days.

Mrs. S. O. Hadley is about the house again after a severe illness.

Mr. H. M. Twamley has been camping at Bass Lake the past week.

Peaches, plums, pears and apples are falling off, half cooked with the sun.

Everything is dried up here, even the cows, and it takes two hens to lay one egg.

The farmers around here are about as busy as any time in harvest—waiting for rain.

Everybody says Nellie Glenn's baby beats them all. Just like its grand-pa, you know.

Reason, the thrasher, comes among us again on Tuesday. A very dusty time is looked for.

There must be fires in the north. The wind from that quarter Thursday brought lots of smoke.

Prof. A. J. Wood, of Chicago, is out to visit his many friends of this place and cool off awhile.

Lawyer Hamilton, of Ann Arbor, camping here, says we will have rain by Thursday of this week.

It is rumored that Miss Betty Collins has had a call to the ministry. Time will tell if Betty won't.

Why are frogs like farmers in time of drought? They are quite down in the mouth, or liable to be.

An old maid can give a minister musical lessons so quick you can't hear the organ. Must use all the stops.

A frog began to sing, a camper made a spring, and Mollie put the kettle on and that was the end of him.

Good crops of oats are the rule around Plainfield. The farmers are as busy in them as in the wheat harvest.

Mrs. Taylor, of Unadilla, died of cancer in the mouth on Friday last. Funeral on Sunday at Plainfield church.

Cattle are wandering around the fields where grass used to grow. Farmers had better feed a little or they will get thin.

The faces of Mr. and Mrs. Coffin, of Detroit, are seen at the Lake for a time, to get the fresh air and enjoy a little quiet.

Mr. Montague, of Unadilla, called on McLean, of Detroit, to relieve him of a painful cancer, but it was found to be too late.

Mr. Montague, of Unadilla, is a terrible sufferer from cancer, which will not admit of an operation, and is becoming very offensive.

Young Watts, a camper here, while riding a hay rake a few days ago, did not get the deck until a bumble-bee began a jig on his ear.

The last day of our school was on Friday. A picnic and dinner had the effect to draw out nearly all the young men. A good time was enjoyed.

There is a man in this section who is more than half baked. The sun got through the opening in his shirt, and did the job that nature had failed to do.

The campers are having a jolly good time. One young man is taking lessons in harvesting. He fell from both ends of a load of hay taking the load with him.

Lawyer Hamilton, of Ann Arbor says it takes nearly or quite 1,000,000 gallons of water daily to supply that city this dry time. If prohibition had carried the water company would have busted sure.

The Sunday School Convention to have been held at Unadilla is adjourned until December, and the place changed to Plainfield if agreeable to the people there. If not, either at Unadilla or North Lake.

The ditch that forms the outlet of North Lake is cracked in the bottom a foot or so deep. Who says it isn't a dry time? If prohibition had carried on whiskey as well as on water, the country would be safe.

What came near being a serious runaway only resulted in a good scare and a few untimely hatched turkey eggs, which R. Hawley had gathered up preparatory to housekeeping. While out on the ground adjusting his sunshade the team became frightened and run, with little mamie Craine in the drivers seat. The team was stopped by R. D. Glenn, without serious injury to them or wagon.

The pastures are all dried up and burned with the heat. The report from Gauges, Allegan county, states that peaches in some localities in this county are shriveling and dropping from the trees.

THE COST OF GIRLS.

New York Society Rescues at Fifteen Hundred Dollars Apiece.

"First tell me about clothes. I mean those dresses that are actually required by a girl who intends to go everywhere and look smart?"

"Well," said mamma, "I've not been extravagant with my girls, yet you know they have all been well dressed. This is the outfit I allow for the first winter, and I find the more attractive it is the sooner the girls get married. A cloth costume for the street, tailor made, with a toque to match, \$125. A silk and woolen dress for church and afternoon wear, including a jacket, \$140, and bonnet, \$18. A reception dress of dark velvet, trimmed with fur, with hat and muff, \$200. An evening costume of black silk and jet, with a mantelet and bonnet to match, \$200. A tea gown, \$75."

"Good heavens! you haven't mentioned ball gowns yet."

"I'm just going to. A simple gauze dinner or ball gown costs \$40. A more elaborate one of satin and tulle, \$125. And a third for very smart occasions, \$175. Two or three pairs of walking shoes at \$11, and say four pairs of slippers for \$7. Then gowns of all lengths, say costing from \$1.25 to \$5, and a variety of handkerchiefs, silk stockings, fans, ribbons, etc., which are dear to the girl's heart."

"But do you mean to say that all these things are necessary?"

"I should be sorry that that one of my girls had been without them," was the proud maternal reply.

"But can't you have these things made at home by clever maids?"

"No; I've tried that. A clever maid is very good later in the season to make these gowns, but the moment one of them learns enough to be valuable she sets up in business for herself, calls herself Mme. O'Brien and charges you Worth prices."

"Can you give me any idea of what a debutante's tea costs?" I ventured to remark.

"Easily. First, 2,000 cards at \$1.50 a hundred. Johnson charges \$3 a hundred to deliver them. He charges \$25 an afternoon for calling carriages and other services at the door, which sum also includes the use of an awning and druggist on the sidewalk. The confectioner's bill for cakes, ices and so on is not much, say \$50, although some people attempt to serve an elaborate menu."

"During all this talk I had been jotting down items, and now found myself confronted with a pretty array of figures, thus:

Each costume. \$125
Silk and woolen dress complete. \$140
Velvet reception dress complete. \$200
Evening costume. \$200
Tea gown. \$75
A simple gauze dinner dress. \$40
A more elaborate one of satin and tulle. \$125
A still better one. \$175
Slippers, stockings, shoes, etc. \$100
Sartorial expenses. \$50
Total. \$1,000

"This is what I make it," said I, handing over the slip of paper. "Is that what it actually costs to bring out a girl?"

"Rather under than over the rule. And, mind you, this is only a beginning—the cost of the first step. If your girl develops a voice, or wants to play on the violin, or has sporting tastes, then come the teachers, the habits, the covert coats, ulsters, and I have usually given my girls saskin sagues, \$200, and a sorrie de bal costs \$100."

"Well, good-day, Mrs. Bountiful. So sorry your daughter is not at home. I had no idea she was so expensive."

Had you?—N. Y. Star.

Cork is the bark, not the wood, of the cork-oak. The bark comes from Spain and Portugal, where they keep take its bark away and it can be skinned every six or eight years. About \$10,000 worth of the raw bark is brought to this country every year. The cork is steamed before it is cut. Cork stoppers are made in thousands of sizes and grades, six hundred sizes being kept in stock. None of the bark goes to waste. In a granulated state it is used as roof-packing.
