NEW YORK, Oct. 8.-Hon. L. P. Morton has written the following letter of accept

"RHINECLIFF, N. Y., Oct. 2, 1888.—Hon. M. M. Estee and Others, Committee—Gentlemen: In making formal acceptance of my nomination as the Republican candidate for the Vice-Pres idency I desire to express my grateful appre-clation of the confidence reposed in me by the convention. The duties devolv-ing on the Vice-President as presiding officer of the Senate, and in certain contingencies a participant in the legislation of Congress, make it proper that the people should know distinctly and unreservedly the political views of the candidate who may be presented for their appropriate their ap for their suffrages. It fortunately happen that this duty for myself is easily discharged by referring to the principles embodied in the resolutions manimously adopted by the National convention. These resolutions, une-quivocal and comprehensive in character, refleet my personal convictions and have my hearty approval.

"It is difficult, however, in a political campaign to fix popular attention on more than one issue, and in the pending election every voter in the United States clearly sees that the controlling question is whether the protec-tive tariff duties now in force shall be so refuced as to destroy their efficiency or whether these duties shall be retained with such modifieat one and adjustments as shall better adap them to the great end of protecting the vast and important industries of the whole country. "The Republican platform, while recognize

ing the necessity of reducing the revenue, declares that this reduction must not be made at the expense of these industries and of American can labor. The American people have now enjoyed the protective system for a longer continuous period than ever before in the history that for more than a quarter of a century they have realized a degree of industrial and financial prosperity unprecedented in this country and never equaled in any other.

"The pressing reason given for once again trying the old exper.ment of a revenue tariff without protection as a motive or end is that the present tariff has produced, and is producing, a surplus in the Treasury. But is it not easily within the wisdom of Congress to adjust the National income to the National expend iture without sacrificing or even imperilling ar industrial system which has brought untold advantages to the entire country? "Admitting that the present tariff by lapse

of time and the large expans on of trade which it has stimulated needs revision, is it not wise and more patriotic to revise it with a careful regard to the interest of protection than with the purpose of lessening its protective features? These are some of the questions which must be answered at the National polls in November. For myself, as a cititen and as a cand date, I do not hesitate to declare that from long observation I am as unwavertaxed \$40 per ton; in the Mills bill \$10. Tow of | ing friend of the protective system. In a busiflax or hemp is taxed \$10 per ton; in the Mills | ness life now extending over forty years I have w tnessed and compared the effect upon the country of a revenue tariff tending to free trade with a protective tariff egeouraging home industries. Under the former the development of the country has always been ar rested, while under the latter it has unifor mly been promoted. "To the men who earn their broad by the sweat of their brow the difference tetween the

two systems is that of narrowing chances on the one hand and expanding opportunites on the other. Free trade would open America to competition with the whole world, Protection reserves America for Americans, native and adopted. The industrial system o ing-men. With the views of the convention so frankly expressed in its resolutions upon al The duty on woolen cloths, shawls and all its connection with and influence on the prosowe to the sh pping interests of the country,

"The Republican platform proposes a dis tinetly American policy; not one of narrowness and bigotry, but one broad and philanthropic -

"It is for the American people to develop cents per pound; valued at above 40 cents a and cultivate the continent to which in the pound, and not exceeding 60 cents, 18 cents per providence of God they have fallen heirs. They should adopt a policy which looks steadat above 60 cents a pound, 40 cents per pound, lily to this great end. With no spirit of narrowness toward other peoples, but rather in the ighest interest of all, they should find under their own flag a field of limitless advance in the direction of the improvement, the prosperity and the happiness of man. Very respectfully LEVI P. MORTON."

MANY BADLY HURT.

READING, Pa. Oct. 8 .- The ceremony of aying the corner-stone of the new St. Mary's Polish Catholic Church in this city had just been completed Surday after-noon, and the officiating priest, Father Leibeeczki, Was delivering the final address, when, at a quarter to 4 o'clock, the floor in front of him fell with a crash, and about 200 men, women and children were dropped fifteen feet into the basement. Upon the struggling wounded people fell the wreckage of joists and planks and a section of a newlybuilt brick wall about twenty feet square. Archbishop Ryan, of Philadelphia, who stood in safety a short distance from the fallen floor, looked down upon the scene. Mayor Kenny, of Reading, went down with the unfortunates, and was one of the first to be taken out, with a slightly injured leg. Women and children screamed with pain or fright. Some of them were ruthlessly trampled under foot by men who made haste to free themselves, but in many instances the stronger sought safety for their weaker companions first and for themselves afterward. Nearly 1.000 people, who were outside the building, rushed in to help

the wounded. Archbishop Ryan assisted in lifting out several women and children. A half-dozen members of the Germania Band were in the struggling mass, their silver instruments being knocked about in a lively fashion. Two Polish women were taken out in a dying condition. Two infants were handed out next. One had bitten off its tongue. An alarm brought the two city ambulances. They were quickly filled with groaning men and women who had their legs, arms or backs bro- Justices Gray and Matthews being absent. ken. Neighboring trades-people hitched up their teams, filled their wagons with of the opening of the Court, and after a bedding, and thus assisted in the removal of the injured. Private residences were converted into hospitals, and in some instances six patients were re-ceived in a single house. All the physicians in the city were promptly in attendance and every thing possible was done for the relief of the sufferers. Very touching scenes were witnessed among the thousands who had rushed to the church in search of friends and relatives. Archbishop Ryan and the accompanying priests were about the coolest persons in

the immense audience. They made vain efforts to restore order, and went among the people, quieting them as much as possible. CRUEL FLAMES. LINCOLN, Neb., Oct. 8 -A special to the State Journal says that a family named Fred Korockie, a laborer, was killed by Richter, farmer, living between Geneva a Michigan Central train near Dearborn a and Ohiowa, consisting of the husband and wife and five children, were burned to death, with the exception, rier, was acquitted the other day of a charge of the husband, who was so seriously burned that he will probably die, at their home Saturday night. A tramp who was spending the night with them was also burned to death. The origin of the fire is hay and the season's grain. The property unknown, but the supposition is that it is another tribute at whisky's shrine. The tramp had been around the neighborhood for some time, and that day was drunk. Mr. Richter had also been drinking, and it is supposed that the farmer may have gone to sleep while smoking, and the fire thus originated. It was not discovered until the house, with its inmates and entire contents, was entirely consumed.

HUNDREDS SLAIN. San Francisco, Oct. 8.-China advices say that a disastrous flood has inundated the province of Moukden, about 350 miles northeast of Pekin. Chief-Justice Fuller Installed in Office-Account of the Impressive Ceremony-A Call on the President.

WASHINGTON, Oct. 9.—Chief-Justice Fuller has taken his oath of office and assumed the active duties of the phil-tion. An hour before the time for the opening of the court the narrow space allotted to the general public in the court chamber was crowder by men and women, who wanted to wit ness the ceremony of the installation of Chief Justice. Among the people of note who found places in the room was Judge Alien G. Thurman, who was conducted to Marshal and who became a conspicuous center of attraction during the half hour preceding the entry of the Justices; Mrs. Fuller, wife of the Chief Justice, with six daughters and one son, whom seats were reserved, Justice Harlan, Mrs. Senator Cockrell, Attorney General Garland, Japanese Minister Matsu, wife and Secretary; Senators Davis, Butler, Hampton, Farwell, George, Mitchell, Dolph and Spoonert Congressmen Breckenridge, Wheeler and Herbert, of Alabama, and Solicitor-

General Jenks. The Chief Justice arrived at the Capito at half-past 11 and proceeded to the private office of the court, where he took the oath of allegiance in the presence of the Asso ciate Justices, the oath being administered by the senior member of the court, Associate Justice Miller. At 12 o'clock the gavel of the crier fell,

The crier then announced the court adjourned; the Chief Justice and his Associates retired to the conference room and in a few moments the court-room was cleared. The Justices removed their robes, and taking carriages proceeded to the White House to call on the President.

Shortly before 1 o'clock the members of the Supreme Court, with the exception of Justice Matthews, and headed by Marshal Wright and Clerk McKenny called at the White House. The party were ushered into the Blue Room, where the President soon joined them. Some twenty minutes were spent in pleasant conversation. The east room at the time was well filled with people awaiting the President's regular Monday reception; but none were admitted into Blue Room Chief-Justice Fuller and Justice Lamar, the two new members of the Supreme Court bench, were much observed by the curious crowd, which watched the departure of the distinguished party. THE CORN CROP. That for the Year 1888 Estimated at 2,-110,920,858 Bushels.

CHICAGO, Oct. 9 - The following estimate of the total corn crop of the United States for 1888 was compiled by the Furmers' Review: "Ohio, 130,869,992 bushels; Indiana, 159,543,013; Illinois, 285,503,470; Iowa, 306,-843,713; Missouri, 237,563,568; Kansas, 163,269,623; Nebraska, 151,591,479. Total for the seven States, 1,435,184,858, as compared with 730,425,000, the yield reported by the Department of Agriculture for 1887, or a gain of 654,759,-858 bushels. Assuming that the crop in other States will be equal to that reported for last year by the department, viz., 675,-736,000 bushels, we estimate the total corn crop of 1888 as 2,110,920,858 bushels.

The British Premier Said to Look Upon the President's Retaliation Message as an Act of Hostility.

New York, Oct. 9,-A special cablegram to the Mail and Express from London says it is reported that Lord Salisbury has protested through the British Minister at Washington against the President's retaliation message as an act of hostility and breach of the modus vivendi agreement. WASHINGTON, Oct. 9 .- Nothing has yet been heard at the State Department about the reported protest of the British Gov-ernment against the President's retaliation message. The British Minister, Mr. West, is in Beverly, Mass., and no information on the subject is obtainable at the British Legation.

ORCHARD grass, which is somewhat difficult to seed, is a very valuable grass -- much more so than is generally supposed. Though it shoots out and grows in tufts, leaving bare intervals, when it once gets fairly rooted it well covers the ground, either of pasture or meadow. Many dislike it for hay, but this arises from the fact that they let it get too ripe before cutting. It needs to be cut just before bloom. It then makes most excellent hay, and the next crop springs up rapidly and vigorously.

What a lesson in this tragic story! Two hundred, nay, five hundred thousand people would Marat have sacrificed to his un-

holy passion of power! Methods are quite as murderous and inexorat.e as men, and they number their victims by the millions.

The page of history is full of murders by authority and by mistaken ideas! In the practice of mer ine alone how many hundreds of millions ave been allowed to die and as many more killed by unjustifiable bigotry and by ingling!
But the age is bettering. Men and meth-

ods are improving. > began hunting up the old remedies of the Log Cabin days; after long and patient research he succeeded in securing some of the most valuable, among family records, and called them Warner's Log Cabin remedies -the simple preparations of roots, leaves, balsams and herbs which were the successful standbys of our grandmoth ers. These simple, old-fashioned sar-saparilla, hops and buchu, cough and consumption and other remedies have struck a popular chord and are in extra-ordinary demand all over the land. They are not the untried and imaginary remedies of some dabster chemist intent on making money, but the long-sought principles of the healing art which for generations kept our ancestors in perfect health, put forth for the good of humanity by one who is known all over the world as a philanthropist-a lover of his fellow man, -- whose name is a guarantee of the highest standard of excellence. The preparations are of decided and known influence over disease, and as in the hands of our grandmothers they raised up
