An Alabama man recently made a clock
as a present for a friend. He started it
running in order to regulate it, and one
day it stopped very suddenly. The mak-
er soon learned that the friend for whom
the clock was intended had died just at
that time. The clock has been started
frequently since, but always stops at the
same hour.

As an example of the rapidity of the
processes of American artisans the recent
feat of a Georgia paper-maker is note-
worthy. A tree in a forest near Augusta
was cut down at 5 o'clock in the morning,
and before night it had been converted
into newspapers, which people were read-
ing at 6 in the evening.

Tuesday morning opened as dismal as
any we have had for several weeks. A
light rain had fallen during the night and
the air was cold. Voters gathered at an
early hour, and although it was cold, con-
siderable "ketching" was done on
both sides, and the day passed off very
quietly. As far as we have heard the
County Democratic ticket was elected.

Three miles southwest of Dansville and
about one mile back in the woods, lives a
hermit about 60 years old. His cabin is
about 10x12 feet in size, is not plastered
and has no windows. He occasionally
works for farmers in the vicinity, which
supplies his scanty living. During last
winter, it is said, he ate a dog, which he
had in company with him, and one would
suppose, by his appearance, that that was
his chief diet. Like all hermits, he has a
history. He served three years in the
army, accompanying Sherman on his
march to the sea, married on his return,
but the unfaithfulness of his wife com-
pelled him to leave her. Tired of the
world and disgusted with women, he
adopted his present mode of life.—Eaton

THAT OLD 50 CENT WASHBOARD.

Some Common-sense Questions to

Men Whose Wives do their
own Housework.

MISSOURI STEAM WASHER.

Don't you ever have to buy a new 50 cent washboard, because holes were worn
through the zinc on the old one? If so, what were those holes? Was it not hard
rubbing the family clothing got on that old 50 cent washboard? Yet zinc is a metal
and will stand a great amount of hard rubbing. If the family clothing has been rub-
bed on that old 50 cent washboard, until holes have been worn in the zinc, what has
been the effect on the clothing? Don't you believe that old 50 cent washboard has
worn out 25 shirts, and a proportionate quantity of under clothing, Ladies' clothing,
pillow cases, table linen, etc. Don't you believe you have paid your share for
twenty dollars a year more for dry goods, than would have been necessary if it had
not been for that old 50 cent washboard?

GLADSTONE says that Great Britain will have a federal constitution before many years have passed.

RELYA LOCKWOOD claims that woman is improving intellectually thirteen per cent. faster than man.

EDWIN BOOTH is the wealthiest actor in this country. He is worth \$1,000,000. Lawrence Barrett ranks second, with \$750,000.

GEORGE W. CHILDS has at his country seat, near Bryn Mawr, Pa., a grove of trees each of which was planted by some famous person.

In a lawsuit at Brooklyn, N. Y., the other day, a book was produced which contained directions for making twelve kinds of "pure liquor" out of the same barrel of spirits.

JULIA BECK, a Kansas City girl, killed her husband because some one had told her "she was too homely to live." Most girls would have fought it out on the same line of retaliation.

A NEW YORK hostess marked the places of her guests at table by a single perfect rose. Upon a petal of each was delicately written, by means of electricity, the name of the person to occupy the place.

EDWARD ATKINSON, the Boston economist, says that a New England genius has discovered a cheap method of dissolving zinc, and that the fluid, when applied to certain kinds of woods, will make them fireproof.

From present weather reports the following advice in the New York Herald is reasonable: "Don't worry, keep your head cool, your feet warm, look out for east winds, the rheumatism and dyspepsia, and do your level best to die of old age."

In the United States Supreme Court the other day Chief Justice Fuller rendered his first decision, maintaining that the State of Pennsylvania has no right to collect a tax upon Western Union telegraphic messages when not confined wholly to the State.

AMOS ROBBINS, of Brooklyn, N. Y., is dead. His claim to fame rests on the fact that he made an immense fortune in the poultry business, and that during the war he sent the Union soldiers \$5,000 in money and 50,000 turkeys to celebrate our Thanksgiving Day with.

INDIA must be the physician's earthly paradise. The Nawab of Rampur recently paid Sergeant-Major Freyer, a surgeon in the British army, the princely fee of \$50,000 for having brought him safely through a three-months' illness from malignant rheumatic fever.

WHILE republics are ungrateful, it can be truthfully said that there are American doctors who are not. The refusal of Dr. William Pepper to receive any fee for his attendance upon General Sheridan during the latter's fatal illness is a delicate and graceful tribute to the memory of an American hero, as it is a fact that the widow of General Sheridan is in straitened circumstances.

MARGARET LLOYD and Maggie Galvin, domestics at Greensburg, Pa., agreed the other night to commit suicide the following night, because neither of them could procure fashionable clothes. They secured forty-five cents worth of laudanum and separated. Miss Lloyd was found dead in bed the next morning, having anticipated the compact by twenty-four hours. Miss Galvin repented, and has decided not to follow the example of her companion.

The Japanese Bureau of Statistics has published the second issue of its annual abstract in the Japanese and French languages, compiled from the sixth volume of a comprehensive statistical annual, printed in the native language only, which the Government formerly sent abroad to the foreign offices and to learned societies. The population of the Japanese Empire at the close of 1886 is set down at 38,507,000. For a number of years past the average annual increase appears to have been about 340,000.

The Vancouver Register gives this description of a forest fire: "Tuesday night the people of Yacolt prairie and on the mountains became aware of a terrific forest fire creeping down upon them from out of the mountains on the wings of a strong wind. When discovered the fire was coming down the Rock Creek country. Huge stubs were falling in all directions, and soon Bell Mountain was a roaring mass of flames. The flying brands went across Lewis River and caught in the timber, the flames making a noise that seemed like a hundred earthquakes."

A CITIZEN of Eaton, Ga., smokes about twelve pounds of tobacco yearly in a pipe that he declares is over two hundred years old. This leads a mathematical person to calculate that if that were the average amount used in the pipe since its first day, twenty-four hundred pounds of the weed have been burned in its bowl; and, if the first twelve dollars had been put out at compound interest at the rate of ten per cent., it would now have grown to the sum of \$1,755,443,200. Just how this would have benefited the first owner of the pipe does not appear.

MEN often wonder how women get along without pockets. It is not generally known that women utilize various articles of attire for this purpose. One is the hat. Young ladies out shopping may be seen tilting back their hats and putting small articles inside. A girl has been known to put a pair of collars and cuffs, a pair of stockings and several handkerchiefs in the crown of her hat. Husbands may have noticed that their wives put their gloves in the folds of their parasol when not using them, and the glove itself is made the receptacle for our fare and even letters.

Lord Salisbury, the British Minister at Washington, informed Secretary Bayard that he was not acceptable to the United States Government.

WASHINGTON, Oct. 31.—By direction of the President the Secretary of State has informed Lord Salisbury that for causes herebefore known to her Majesty's Government his continuance in his present official position in the United States is no longer acceptable to this Government, and would consequently be discontinued.

The grounds of this action on the part of the United States are stated in a report of the Secretary of State to the President, dated the 20th inst., which is as follows:

"DEPARTMENT OF STATE, WASHINGTON, Oct. 20, 1888.—To the President: The undersigned has the honor to submit to your consideration the following statement, with a view to receive your direction thereon: On the 4th of September last a letter purporting to be written by Charles F. Murphy, dated at Pomeroy, Cal., was sent from that place to the British Minister at this capital, in which the writer solicited an expression of his views in regard to certain unsettled diplomatic questions between the United States and Great Britain, stating at the same time that such an expression was sought by him for the purpose of determining his vote at the approaching Presidential election. The letter further stated that the information he sought was to be furnished to him by the British Minister, and that he would then be enabled to give certain assurances to many other persons in the same manner, and by determining their political action as citizens of the United States of English birth, but who still regard their original obligations as paramount to those of the United States. Obituary.

Died, Sept. 22, 1888, at St. Mary's
hospital, Detroit, Mich., Forest D.
Buchanan, aged 30 years 1 month
and 10 days. He leaves a wife and
three little children, parents, one
brother and two sisters, to mourn
his loss. Mr. Buchanan had been
working for the Telephone Co., and
expected to move his family to De-
troit in a few weeks. Mrs. Bu-
chanan went to spend a few days
with him, taking one little girl.
While visiting Belle Isle Park Mr.
Buchanan was taken sick, and on
reaching his boarding house took to
his bed, and was sick nearly a week
when Mrs. Buchanan was taken sick
also. They were then removed to
the hospital where the best of care
was given them. Dr. Winter, one
of Detroit's able physicians, attend-
ed them, with Prof. Chapoton for
counsel.

After lingering for a week Mr.
Buchanan died of Typhoid and
Scarlet fever. His remains were
placed in an air tight casket and
brought home to Chelsea, Mrs.
Buchanan being unable to come for
several days after. The little girl
was taken home by her grandparents
when Mr. Buchanan was first taken
sick, but she had taken the fever,
and the three children have been
very sick, but are considered out of
danger.

Hints About Killing Hogs.

If the hogs to be slaughtered are
fed within twelve hours of their
killing, the food is wasted, the meat
will be more disposed to sour, and
it will be more difficult to remove
the distended intestines and take
from them the lard. Nor is it well
to allow the swine to drink on the
morning of the day they are killed.
Hogs cannot be killed too quickly.
The more rapidly they are killed,
and the blood got out of them, the
better. A well directed blow on the
head, between and just in front of
the ears, will make the animal un-
conscious; but the chances for a mis-
stroke are so many, and as the stroke
makes unfit for use considerable
meat, this method of killing cannot
be recommended. The use of the
shot-gun is no better. The rifle is
the weapon to use—a ball on a line
from the base of the ear to the op-
posite eye produces instant death
and does not cause the waste of any
meat.—Ex.

is an interesting study. Here is
probably the highest colony in Cali-
fornia. The astronomers and nec-
essary employees of the observatory
form a little world of their own and
few of them care often to go out-
side of it. The stage that comes
once a day brings news from the
world outside and visitors curious
to see the wonders of the mountain.
A contract with a San Jose expres-
man secures all needed freight once
a month, sometimes oftener. A
butcher with supplies comes up the
twenty-eight miles of tortuous
mountain road once a week. Cows
and chickens are adjuncts to the
commissary department. Quail,
rabbits and deer are plentiful in sur-
rounding canyons and some of the
sportsmen astronomers occasionally
bring them down. The summer air
is soft and so rarified as to exhilar-
ate and make great exertions seem
alight. All the astronomers come
from cities, yet none complain or
sigh for attractions beyond those
revealed by the marvelous telescopes.

Some Foolish People.

Allow a cough to run until it gets be-
yond the reach of medicine. They often
say, "Oh, it will wear away," but in most
cases it wears them away. Could they be
induced to try the successful medicine
called Kemp's Balm, which is sold on a
positive guarantee to cure, they would
immediately see the excellent effect after
taking the first dose. Price 50c and \$1.

Unwelcome Little Stranger.

BY A DISPLACED UNTRAINED THREE-
YEAR-OLD.

Muzzer bought a baby,
A 'tittle bitty sing;
Sink I most could put im
From my wubber wing.
An't he awful ugly?
An't he awful pink?
"Just come down from heaven,"
At's a fib, I sink.
Doctor told shozer
Yate big awful lie;
Nose an't out er joint zen,
Zat an't why I cry,
Mamma stays up bedoom—
I guess he makes her sick;
Pro: him in z gutter
If I can wite quick.

Cuddle him and love him!
Call him "bessed sing!"
Don't care if my kite an't
Got a bit er string!
Send me off with Biddy
Every single day.
"Be a good boy, Charlie!"
Run away and play."

"Sink I ought to love him!"
No, I won't; zo zero!
Nasey, cryin' baby,
Not got any hair,
Got all my nice kisses,
Got my place in bed;
Want to take my drumstick,
And beat him on er head.

A Washington Group.

Sitting Bull pointed to a group
on the corner of Four-and-a-Half-st.
and the avenue. A drunken color-
ed man had found one of the Indians
wandering along, and in a splurge
of hospitality had linked arms with
him and taken him up to a fruit
stand. There he was solemnly feed-
ing the red man grapes, while the
untutored child of the forest swal-
lowed them with grunts of satis-
faction, skins and all. An old Irish-
man jabbered at them continually
from the other side of the fruit cart.
The negro stopped for a moment
from his satisfied contemplation of
the Indian's features, and looking
into a neighboring laundry saw the
grinning mug of a Chinaman peer-
ing over the curtain. He entered
abruptly and with a profound salaam
dragged the Chinaman out and
handed him a bunch of grapes.
There they stood, Indian, Chinaman,
black man, and Irishman pleasantly
munching the fruit, and not a soul
in Washington city native American
among them was the Indian. He
said never a word, but the way the
grapes disappeared was an indica-
tion of American enterprise and
push from way back.—Ex.

The Handsomest Lady in Chelsea.

Remarked to a friend the other day that
she knew Kemp's Balm for the Throat
and Lungs was a superior remedy, as it
stopped her cough instantly when other
cough remedies had no effect whatever.
So to prove this and convince you of its
merit, any druggist will give you a sam-
ple bottle free. Large size 50c and \$1.
