1889-SPRING-1889

We have just returned from New York and Eastern Markets. where we bought very argely of all goods in our several lines. There is no denying the fact that go ds were 10 per cent. cheaper two weeks ago than to-day. There is also no doubt of our being the lowest priced store in town, as our greatly increased trade the past year proves that.

DRY GOODS.

We are showing 12 styles new Chelsea suitings We are showing elegant lines of French suitings. We are showing black and color d silk warp Henriettas. We are showing French plads and stripes in quantities. We are showing elegant Plushes at reduced prices. We are showing bean iful China silks for dresses. We are showing beau iful Surrahs, all shades in stripes. We are showing Challes and French Saines. We are showing elegant lines of silk hose and underwear We are showing the best black cottan hose made, Which we warrant not to crock or fade.

CLOTHING.

This is a Department we have taken great pride in, and to-day you will find the best selected stock of Children's and Men's clothing (at lower pices) than we have ever shown.

We are also laders in tine first class Merchant Tailoring, with a record of not having one misfit suit since our starting this department. Everything will be found as represented.

We have the best display of Gents furnishing goods, in the way of fine Hosierv Neckwear, Collars, Cuffs, Suspenders, Hats and Caps in town.

BOOTS & SHOES.

We have bought very largely in this line, and in order to reduce our stock will be oblig d to make extra low prices on Shoes, which you will find by calling.

The boomers saw the troops coming and determined te stand their ground. Being surrounded and called upon to depart without trouble they commenced parleying, and made threat against the lines of troops. These threats enraged the soldiers and they rode upon the party with gun and revolver in hand, but having orders to avoid a conflict they halted and dismounted. Part of the boomers were disarmed, but Anderson and old man Adams held out and made a desperate resistance with their guns. The former received a pistol wound in the head and the latter in the mouth. Other boomers took up clubs and stones and fought with desperation. They were, however, compelled to surrender. Several of the soldiers received wounds. While the soldiers were tying their captives with ropes to be connected with their saddles and thus lead them to camp Adams escaped. The others were all brought to the camp and are being held awaiting further orders There is great excitement among the boomers since the conflict. They declare they will all make resistance and fight, if necessary, to remain in Oklahoma

The most intense excitement prevails at Oklahoma City and among the boomers everywhere along the line. They denounce the clubbing as a dastardly outrage and one American citizens will not brook, if it is from the regular army. The United States authorities are notified that if they do not furnish the protection demanded the boomers will take it into their own hands and wreak summary vengeance on the soldiers. The former are generally well provided with Winchesters and arms of the latest approved pattern, with plenty of ammunition. There are many reckless and desperate men among them and even cool-headed ones who are ready to fight when they are shot at, and what has been play is turned into tragedy. The au-thorities here fear that there will be bloodshed before the row is over, if it has not already begun, and are anxiously awaiting further details of Tuesday's encounter.

The other night a happy wedding party assembled at the residence of William Rem ington, in Detroit. Miss Emma Remington was to marry William Jones. The guests and the parson waited two hours, but Jones failed to put in an appearance, and it was whispered around that he had played the bride-expectant false. This came to Miss Remington's ears, and she fell in a dead faint. The guests were dismissed and physicians called in. About the same hour Jones and Miss Agnes Brown, of Windsor, called at the residence of Dr. . Wilson, a Methodist preacher, and were married, taking a train for the South.

Over the Cataract.

When the brave Stanley and his tireless ollowers were pushing their way into Central Africa, they came one day to the bank of a mighty river. Footsore and weary, they quickly launch their boats, and find rest and change in floating upon the smooth surface of the stream.

Soon, however, the watchful eye of the great explorer sees unmistakable signs of the near presence of a cataract. The current grows swift, tiny bubbles float by. The signal is given to land, and the party seeks safety on the low, shelving bank. One daring spirit, however, pushes his little cance into the middle of the stream and goes resolutely forward, with the seeming intention of finding whether the river is

The recent discoveries of the microscope has developed the real cause of so many terrible fatalities and brought out the fact that many of the symptoms which are called diseases are but symptoms of kidney disorder. People do not die because of the kidneys ulcerating and destroying their spinal column, but because the poisonous waste matter is not extracted from the blood as it passes through the kidneys, the only blood purifying organs, but remains, forcing its way through the system, attacking the weakest organ.

The doctors call this a disease, when in reality it is but a symptom. Understanding this, the reason why Warner's Safe Cure cures so many common diseases is plain. It removes the causes of consin, to be Consul General at Vienna, and disease by putting the kidneys in a healthy condition; enables them to perform their functions and remove the poisonous acids from the blood; purifies the blood and prevents the poisonous matter coursing through the system and attacking the weaker organs and producing a malady which the unsuspecting victim fears is, and the heartless practitioner pronounces, a disease, because of his inability to remove

without the least inconvenience. This we guarantee, and what is more, we authorize all druggists to refund the purchase money to any patient who is in a reasonable condition, and who, after taking two bottles of our Emulsion, does not gain in weight. It is plain that if a consumptive patient continues to gain in weight, a permanent cure must result. A CASE OF HEREDITARY CONSUMPTION CURED.

J. A. MAGEE & Co.: Sirs—I have been a long and patient sufferer from a lung difficulty; have taken a great amount of medicine, and been under the care of several physicians, all of which finally failed to benefit me. I had lost two sisters and one brother from the dread disease of consumption, and when the doctors gave me up I thought I should and when the doctors gave me up I thought I should follow them by the ravages of the same disease. I was terribly reduced in weight, scarcely weighing 100 pounds where I once weighed 150. I took your Emulsion and at once began to experience relief, gained strength, and now weigh 150 pounds. No other medicine could have done as much for my lungs I am sure, and I can recommend it without hesitation on its own merits. Yours truly,

NELLIE NOLAN.
