QUEEN VICTORIA'S SYMPATHY.

Queen Victoria cabled through Lord Salisbury to the British legation in this city Sunday directing that her earnest sympathy be expressed to the President of United States for the terrible naval misfortune at Samoa and the deplorable loss of life. Mr. Edwardes, the British Charge, accompanied by the Secretary of State, waited upon the President Sunday afternoon and read to him the Queen's message. President Harrison expressed his warm appreciation and that of the whole people of this country for the Queen's considerate sympathy in the calamity that had overwhelmed our naval crews at Samoa. An informal reply to the Queen's message would be made, the President said, through the Department of State.

A LONDON ACCOUNT. LONDON, April 1.-Particulars of the disaster to the German and American warvessels at Samoa have been received as follows: The Eber was blown ashore and struck the reef first, at an early hour in the morning. She sank almost immediately in deep water. Nearly all of the men who were below were drowned. When the Adler struck her masts were shivered and her dgging parted. Several of her crew swam gh the surf and were saved, among them the Captain and a few officers After the Nipsic grounded her crew succeeded in

boats, but six men were

drowned by the capsizing of a boat in the surf. The Captain of Vandalia was stunned by being thrown against a gun and was washed overboard before he became conscious. Several others were washed overboard by the waves, while others were drowned in their endeavor to swim ashore. Many of the Vandalla's crew clung to the rigging, and the Samoans and others on shore tried in vain to rescue them. The bottom of the Vandalia was completely stove in, and Trenton was thrown upon the Vandalia's wreck. The Olga withstood the fury of the gale for a day and a night, but at the dawn of the following day she went Pilot. Mr. Roach's home was at llion, N. Y. at the dawn of the following day she went shore. Three officers of the Eber were lost and with them seventy-six men. The ipsic lost seven men. The Vandalia lost her Captain, four officers and forty men. The Adler lost fifteen men. The Nipsic grounded on a sand bank.

another account says: The hurriburst upon the harbor suddenly. The German man-of-war Eber was the first ressel to drag her anchor. She became un-manageable, and was driven helplessly on the reef which runs around the harbor. She struck, broadside on, at 6 o'clock in the morning. The shock caused her to lurch and to stagger back, and she sunk in a moheat in deep water. Most of her men were under hatches and scarcely a soul of them scaped. The German war-ship Adler was the next to succumb. She was lifted bodily by a gigantic wave and cast on her beam ends in the reef. A terrible struggle for life ensued among the officers and sailors aboard. Many plunged into the raging surf and struck out, some reaching the shore in he shore in safety. Spring Medicine

Everybody needs and should take a good spring medicine, for two reasons;

Ist, The body is now more susceptible to benefit from medicine than at any other season.

2d. The impurities which have accumulated in the blood should be expelled, and the system given tone and strength, bef. re the prostrating effects of warm weather are felt.

Hood's Sarsaparilla Is the best spring medicine. It purifies the blood. It sharpens the appetite, it tones the digestion. It overcomes debility. It builds up the whole system. "Hood's Barraparilla has driven off rheumatism and improved my appetite so much that my boarding mistress says I must keep it locked up or she will be obliged to raise my board with every other boarder that takes Hood's Barraparilla." THOMAS BURRELL, 90 Tillary St., Brooklyn, N.Y.

Tones and Strengthens

"When in the spring I felt all run down and de-bilitated, I found Hood's Earsaparilla just the medi-cine to build me up. My wife also, after much physical prostration, found in its use new life and lasting benefit. Upon our little girl, who had been sick with scarlet fever, its effect was marvelous, entirely removing the poison from her blood and restoring her to good health." E. G. STRATTON, Ewampscott, Mass.
