The Governor, in signing the pardon of Mackin, refers at considerable length to the offense for which he was imprisoned, and says his perjury was not destined to affect the life, liberty or property of anybody, and had it hot been committed in trying to escape from the conse-quences of another offense of which he was accused, and which the people justly regard with alarm, it is not fair to presume that it would have attracted any more attention than any ordinary case been, in all probability, less than that fixed by the jury. In his petition for pardon Mackin professes sorrow for his crime, and makes earnest pledges of an upright life for the future. The Governor continues: "It is doubtful if any petition for pardon was

Nearly all who have had any of signing the ordinary petition, have written letters wherein they have urged with so much carnestness and apparent candor why the law, the penalties of which Mackin has long borne, should now give way to mercy. It is insisted that greater good will be accomplished by this course than would be by holding on to Mackin to the last hour of his sentence. The warden of the prison certifies that Mackin's conduct as a prisoner has been good; that he has never been punished or reported for any infraction of the prison rules. I have given this case much thought and consideration and have the hope that he may yet become useful member of society and prove h mself worthy the love and affection of the "devoted wife who has in the hour of his misfortune stood by him so faithfully and who has so long and patiently waited for his coming. Whether Mackin ought to be pardoned or not it is very evident that a great many good and thoughtful people think so."

HISTORY OF THE CRIME. Mackin went to the penitentiary on a fiveyear sentence for complicity in the ballot-box frauds of 1881. - A few days after the election in November of that year it was apparent that the strength of the two leading political parties would be about equal in the Legislature, so nearly so that a single vote in either the Senate or House might control the election of a United States Senator. In the Sixth Senatorial district, which included the Eighteenth ward of this city, Henry W. Leman, Republican, was apparently elected Senator over Rudolph Brand, Democrat, by a few hundred votes as shown by the unomeial returns on election night. When, however, the official canvass was made, it was found that the tally-sheets and certificate from the seaond precinct of the Eighteenth ward had beca altered and forged and made to show a decreased vote for Leman and an increased vote for Brand sufficient to elect the latter by a majority of about ten votes, On the sworn returns of the United States supervisors as well as from other collateral evidence it was so evidently a fraud that the Federal grand jury of Chicago, then in session, took jurisdiction of and investigated the matter. Meantime the county canvassing board, being powerless to go behind the returns, abstracted the vote as it appeared and returned the same to the State canvassing board. This body heard such evidence as was available and proper, and, following their action, the Governor decided to issue a certificate of election to Leman as being the actually elected Senator. The Federal grand jury found several indictments, but after that body had adjourned new and important additional proofs of the fraud were discovered, and Mackin. William J. Gallagher and Arthur Gleason were tried and convicted of conspiracy on a charge brought by information instead of indictment. The two former were sentenced to two years in prison. The case was then taken by writ of error before Justice Harian

of the United States Supreme Court and Circuit Judge Gresham sitting together. Upon disagreement between them it was certified to the dicted Mackin and Gallagher for violation of the State law. Mackin testified before the State grand jury and for the testimony given there he was indicted for perjury. His trial began on June 29, 1885, before Judge Moran. He was found guilty and sentenced to belies by recused to interfere. Lately other attempts have been made, which resulted in the pardon issued Tuesday. By reason of "good time" Mack n would have been out next month by the expiration of his sentence. By reason of his pardon his citizenship is restored.

He said he was in Iowa about a month ago, and the great cry there among old soldiers was that there was too much delay in granting pensions to the deserving. Said the interviewer:

SHOT TO KILL.

Conflict Between Strikers and Police at

DULUTH, Minn., July & The street I borers' strike culminated Saturday after noon in a desperate street battle between the strikers and the police, in which revolvers were freely used. It is a difficult matter to get at the true facts concerning the number of dead and wounded moons the strikers. Many of them, were ing the number of dead and wounder among the strikers. Many of them were taken away during the battle and could not be traced to their homes or boarding places. From what can be learned at the hospitals and prominent boarding-houses, however, a fair estimate of the wounded would be twenty-five and several more estimate of the wounded would be twenty-five and several more seriously injured than was at first supposed. It is not positively known that more than one man is dead, Ed Johnson, aged 22. The death of Matt Mack, aged 25, and Tom Fitzsimmons, aged 18, is momentarily expected. It is probable that all others will recover.

Of the police, all are doing well, and several have returned to duty limping slightly or carrying an arm in asling. It is settled to the satisfaction of every body that the strikers were the aggressors, the police not having fired until they were charged upon by the strikers. Last Tuesday 4,000 men were employed

on street and sewer improvements at \$1.50 per day, but then 1,500 struck for an advance of 25 cents per day. The contractors refused to accede to the demand and the strikers have since assembled daily and marched through the city, trying to in-timidate the other laborers to join them, There were many recruits each day, and the mob finally increased to 2,500 or 8,000. There had been ugly rumors of the de-

termined attitude of the strikers all Saturday and preparations had been made by the police department for any emergency.
At 1:30 p. m. Superior street between Sixteenth and Seventeenth avenues west was lined with strikers and spectators, per-haps 200 in all. This number was gradually increased until the thoroughfare see med black with men. Officer Clements who was on duty there, recognized many of the men as those who were among the mon that raided the police on Friday, and anticipating trouble from them he telephoned the officers at the West End headquarters to turn out and guard the men who were at work in front of the National iron works. The police on duty at that time numbered twenty-four. the greatest number at any one time during the day being only twenty-seven. From 2:30 until 4 o'clock the police experienced no trouble with the strikers, and many of the spectators went away thinking the trouble was over for the day. At 4 o'clock the head of a new line of

strikers was seen on Third street coming around the corner of Sixteenth avenue west. Twenty minutes later they halted on the corner of Twentieth avenue and Superior street, where they were addressed by one of the ringleaders, whom they cheered lustily. The police, noticing this marched in a body from the National iron works along Michigan street to Twelfth avenue, where they halted. They had left only two or three officers to guard the working-men. Soon after reaching Twentieth avenue they heard a yell from the strikers, who had been afternoon. It seems that they had taken advantage of the absence of the police to drive the working-men out of the trenches. Their yell was answered by the larger body of strikers at Twentieth avenue, who immediately started on a run. The officers also hastened toward the trenches at The first assault of the day occurred when the strikers began throwing rocks at

the officers. It is said by some that Officer Walkoviak was shot in the leg before the police fired on the mob. The officers, who had formed in two squads in front of the Peterson and Koff blocks, commenced firing with revolvers right and left. This was returned by a volley from the strikers. Shots continued to be exchanged for fully thirty minutes, showing that the strikers were well armed. The police stood their ground, but their opponents were scattered. A band of nearly 100 men were fortified behind the breastwork of dirt which had been thrown up from the sewer and at every opportunity they jumped up and fired at the police, who made a good target at close range. short time Captain McLaughlin put them to flight. In the meantime the police had kept up a constant fire on the strikers who were on Superior street, and with deadly ffect. Many who were nothing more than etators received serious injury. A boy 18 named Tom Fitzsimmons was shot in he abdomen. He was picked up by another ectator and in another moment the latter ad a finger shot off. Ed Johnson, who came here from Michigan just six days ago, had run forward from Superior street to throw stones at the police. He turned, and when half a block away was shot through the brain by a bullet from a rifle in Officer Benson's hand. Houses for two blocks were completely riddled with bullets, the same pane of glass in many instances having a halfdozen holes. The police after awhile were re-enforced by Company K, State militia, who did good work in clearing the street,

During the fray the policemen stood their ground like heroes and poured a steady and galling fire into the crowd of strikers. Between the ranks of police and strikers Duluth's intrepid mayor, John B. Suthpin, pushed his way and the firing ceased. He told the strikers to clear the streets and go to their homes. Hundreds dodged away around the corners of adjacent streets and then a rush was made by the strikers to carry off their wounded. The following ringleaders have been ar

MICHIGAN LEGISLATURE

The Legislature ended its six months' segsion on the 28th. One of the last bills passed was the general appropriation bill, amounting to \$1,600,000. This, with the special appropriations make the State taxes for the next two years agy; egate \$3,050,000, or \$23,000 less than the total for the last two years. The cost of the legislative session was \$133,000. Both houses passed bills to apply the marriage license law to non-residents of Michigan by compelling them to procure a license in the county in which the marriage is solemnized; also appropriating \$70,000 for new buildings for the State Reform School, and providing for minority representation in the legislative detegations from Detroit and Grand Rapids by a cumulative system of voting. The House bill creating a State Court of Arbitration to settle labor troubles was passed by the Senate. Governor Luce signed the Local Option offit and the graded two-cent fare bill with the provision requiring the sale of one thousand-falle tickets good for any member of the purchasers' family.

The final act of the Legislature was to pasa new general election law. It is a modifica-of the Australian system. Seventy Egyptians were slain or injured. Two English officers were also hurt. Colonel Wodehouse is pursuing the defeated troops. The dervishes attempted to effect a lodgment on the river bank. Colonel Wodehouse immediately advanced and attacked them with a field force. The enemy made a stubborn resistance but were finally forced to retire, fighting as they went. They were driven northward seven miles, but every foot of the ground was hotly contested. Two guns belonging to the enemy were captured by the Egyptians. It is expected that further fighting will occur shortly.

Fire Destroys Ten Blocks in the Town of Ellensburg, W. T.

St. Paul, Minn., July 6.—A special from Ellensburg. W. T., to the Dispatch says: Fire broke out in this city Thursday evening, and before it could be gotten under control ten blocks of the business center was consumed. All of the hotels and business houses are burned excepting the First National Bank building, Bloomer & O'Con-nor's dry-goods house, H. Getzian's shoo store, one saloon and one general store. The losses will reach many hundreds of thousands of dollars Many families are homeless and help has been asked for. The city contained about 3,000 population and was one of the most thriving towns in the center of the prospective State.

Child Killed and Over 100 Persons Injured at a Race in Oklahoma City. OKLAHOMA CITY, Ind. T., July 5 .- The grand stand at the race track collapsed at 3 o'clock Thursday afternoon, injuring more than 100 persons, many fatally. One thousand people crowded into the stand when the horses came to the post, and then suddenly, without any warning, the structure went down, burying more than 500 in the ruins. For a second the outside spectators were paralyzed by the accident. Then, as the cries and groans of the wounded filled the air. they rushed forward and began the work of rescue. The victims were dragged out and carried to places of safety or put in ambulances and sent into town. Colonel Wade, the commanding offiper here, sent the military and physicians to the scene promptly and gave material aid. The escape of the crowd from death was miraculous, and, incredible as it appears, only one person was killed outright, a child of Dr. J. A. Ryan.

Five Young People Drowned at a Picnic

PITTSBURGH, Pa., July 5.—A sad accident happened at the picnic of the Arch Street Methodist Episcopal Church of Allegheny City at Forest Grove, on the Pittsburgh Western railroad, Thursday, by which five young people were drowned. Their names are: Nellie Burton, aged 18; May Royal, 16; Ida Cassiday, 22; Fannie McComb, 18, and Bert Freeman, 20 The five named, to rother with Edward Shaffer, took an old parge and started for a ride on Connaquenessing creek. The stream was very turbulent and the barge capsized. Shaffer succeeded in reaching the shore, but the others went down before assistance could

MASON CITY, Ia., July 6.—John R. Elder has just returned from a trip through nearly every county in South Dakota, and with the exception of very few localities pronounces the wheat crop an almost complete failure. Much of it stands less than six inches high, and is headed out with the kernel inside dried up, nothing being left but the hull. Corn is showing the effects of the drought, and at the best will be but half a crop. Water is very scarce and past.

Two Mighty Continents. haif a crop Water is very scarce and past-

urage very short.

Kansas Citt, Mo., July 6.—Crop reports received by Secretary Mohler, of the Agricultural Department of Kansas, are to the effect that the wheat harvest is almost finished. The secretary estimates the total yield at 34,000,000 bushels, which is just doub'e that of last year. The crop may now be said to be successfully harvested. The largest yield is in Sumner County, where 8,000,000 bushels have been harvested.

St. Louis, July 6.—The secretary of the State Board of Agriculture reports the condition of crops as being quite favorable, taking the State as a whole. Excess of rain and cool weather has interfered with corn, and in some cases the crop has been abandoned. Better weather during the last ten days has improved the condition, which is now 80. The condition of winter wheat at harvest time and after considerable of it has been put into the shock is put at 93. The average of estimates of correspondence in every county in the State indicate that the yield per acre will not be less than fourteen bushels and the quality of the grain will be good, if not damaged in the shock. The condition of oats is 92.5; estimated yield of meadows per acre, 1.5 tons; condition of apples, 67.

FURY OF THE FLAMES.

Two Hundred Houses in the Business ELLENSBURG, W. T., July 6 .- Fire broke out at 11 o'clock Thursday night in the grocery store of J. T. Anthony, on Main street. A high wind prevailing it soon spread to the adjoining frame buildings and then got beyond control of the limited fire department, sweeping the entire business portion of the city, embracing Main street from Fifth to First. Fourth from Main to Pine, Third from Water to Sprague, Pearl from Fifth to Second, covering an area of ten blocks in the business' heart of the city. The only brick buildings left are the Lynch block and the Ellensburg National Bank. Two hundred houses were totally destroyed, and the space burned over is ten blocks, or about fifty acres. The loss, as far as can be ascerand \$1,250,000 in goods.

tained, is \$2,000,000-\$750,000 in buildings Among the principal buildings destroyed are the Stone Bank, Snipes & Co., Ashler Hotel, Oriental Hotel, Masonic Temple, Odd-Fellows' Hall, Geddes block, Fish block, Post-Office Localizer printing office, Dexter stable, Shoudy block, the new brick

post-office, and Davidson block. The only stores left are: Blumauer & Son. O'Connor & Hogan, Gatzian's shoe store and Coffin's grocery. There is not a restaurant, hotel or boarding-house left, and there are about 150 people destitute. Mayor Abrams has called a meeting of citizens, and action will be taken for relief. While the loss is terrible for a city of 4,000 the citizens maintain a cheerful disposition and are determined to build more substantially than ever. The fire exhausted itself after

Aeronaut Allen's Balloon Collapses at Height of 1,200 Feet-His Nerve Saves

PROVIDENCE, R. I., July 6 .- One of the most frightful experiences ever had by an aeronaut was that of Prof. Walborne Allen Thursday afternoon. The ascension was made about 4:30 o'clock. Reaching an altitude of about 1,200 feet the balloon collapsed. It recled and turned bottom up and then it rolled around once more and the basket lay out horizontally from the envelope. Then it fell rapidly. The terrified spectators next saw the gas-bag on top once more and fast nearing the earth. They saw a form clamber up into the ropes. Whipping out his knife, Allen pierced a rent in the canvass and the balloon spread out like a parachute and shot downward like a disabled bird and landed in a lot. The concussion threw the acronaut out. He was picked up semi-unconscious, badly shaken up and pale, but was not seriously injured.

STOLE FROM A PARIS BANK. Two Men and a Woman Arrested for the Crime in New York - Henry Autoine Nolle Confesses to Embezzling 163,000 Francs from the House of Belisaire,

New York, July 6.—Henry Antoine Nolle, who has confessed that he stole 163,000 francs from the Paris banking house of Belisaire, Journal & Co. last May while he was its acting cashier, is now in Ludlow street jail awaiting extradition on the charge of embezzlement. His wife, Blanche, and a dandified young Hebrew named Paul Hement are also prisoners in the same jail, charged with being accomplices in the

Death at Winnipeg of John Norquay, Ex-Premier of Manitoba.

WINNIPEG, Man.; July 6.-Hon. John Nor quay, the veteran ex-Premier of this province, died here suddenly Friday night of heart disease. He was a native of this country, of Scotch and Indian parentage, and was the central figure in politics since this province entered the confederation. He was accounted one of the leading politicians of the Dominion, and his death will be an irreparable loss. He was 48 years of age and was Premier for fourteen years.

Chicago, July 6.—A number of prominent Irish-Americans held a private meeting Thursday afternoon at the Grand Pactific to discuss the feasibility of organizing an Irish-American Republic to advance the interests of Ireland and the Irish race. After a lengthy discussion it was unanimously decided to adopt a plan of action formulated and proposed by William T. Griffin. Accordingly, an organization was perfected to be known as the Irish-American Republic Association, and an election of officers was held with the following result: President, William T. Griffin; Vice-President, Edward T. Cahill; Secretary, Edward P. Lynch; Treasurer, David F. Sullivan.

It is the intention of the projectors of the above-named association to organize a land syndicate, composed of influential and wealthy Irishmen, send representatives to Canada, Chili, Peru and Mexico. The latter country, it is understood, would be willing to dispose of Lower California or a neighboring State, under certain conditions, with the privilege of establishing an Irish-American republic therein.

It is proposed to secure a grant of land there, or elsewhere sufficient to accompless of the conditions, with the privilege of establishing an Irish-American republic therein.

The several climates of Florida, Colorado and California have each been much prescribed for sufferers from lung disease, yet thousands of the natives in those States die of this fatal malady. A far more reliable remedy is to be had in every drug store in the land, and one that can be used at home; a remedy which is sold, by druggists, under the manufacturers' postlive guarants that, if taken in time and given a fair trial, it will effect a cure, or money paid for it will be promptly returned. We refer to that world-famed remedy for consumption (or lung-scrofula) known as Dr. Pierce's Golden Medical Discovery. It is the only remedy for this terrible disease possessed of such superior curative properties as to warrant its manufacturers in selling it under a guarantee.
