UNCLE SAM'S PENSIONERS.

What It Costs to Support Wounded Vet-oran Extracts from Commissioner Tan-ner's Report Before Ills Connection with the Administration Censed.

Washington, Oct. 19.—The annual report for the fiscal year 1888-80 of the Commis-doner of Pensions has been submitted to the Secretary of the Interior and is now in the bands of the Public Printer. The following summary of the report will sho the more important details of the work the Bureau of Pensions during said fiscal

pensioners. There were added to the rong the year the names of 51,921 new pen nd the 'names of 7,754, whose pansioners and the 'names of 7,754, whose pansions have been previously dropped, were restored to the oils, making an aggregate of 83,675 pensioners dded during the year. There were 16,507 pensioners dropped from the rolls for various auses, leaving a net increase to the rolls of 37,88 answers.

The average annual value of each pension a the close, of the year is shown to have been \$131.18. The aggregate annual value of pen-sions is \$64,946,552.3d. The amount paid for pensions during the year was \$88,975,113.98. The total amount disbursed by the agents for all purposes was \$89,

Amount paid as fees to attorneys, \$1,383,583.47.
There was a disbursement of \$14,515.72 for the payment of arrears of pensions in cases where the grainal pension was granted prior to January \$5, 1879, and the date of commencement of pension was subsequent to discharge or death.

In the aggregate 1,248,146 pension claims have been filed since 1861, and in the same period 789,181 have been allowed.

The amount disbursed on account of pensions the claim and the claim are period 789,181 have been \$1,052,218,418,17.

since 1861 has been \$1,059,218,413.17. The issue of certificates during the year shows a grand total of 145,798. Of this number 1,921 were original certificates.

The report shows that at the close of the year there were pending and unallowed 479,000 claims of all classes.

Commissioner Tanner recommends that Congress be asked to amend the act of June 6, 1874, so as to extend the ben-efit of all pension laws as to rates to all pensioners whose pensions have been granted by special acts passed subsequent to said date, and that the benefit of pensions be granted to the widows of soldiers who died from causes originating in the service prior to March 4, 1861, during the time of peace. He further recommends, as did his predecessor, that the act of March 3, 1877, be amended so as to grant pensions to those who, having partici-pated in the rebellion against the United States, subsequently enlisted in the navy and were disabled therein. The act referred to confines its operations to those

only who, under the same conditions, enlisted in the army of the United States. The commissioner asks attention to the fact that the act of August 7, 1882, which terminates the pension of a widow be-cause of immorality, makes no provision for continuing the pension to the minor children of the soldier when the widow's pension is terminated. He asks that Congress be requested to correct this palpable

The Commissioner is also of the opinion that the not of Congress approved February 12, 1880, providing a rate of \$100 for the loss of both hands unjustly discriminates against those pensioners who have lost both feet or the sight of both eyes.

The Commissioner earnestly recommends that whenever an invalid pensioner dies the usual pension be granted to his widow, or, if he leaves no widow, then to his minor children, without regard to whe her or not his death was due to any cause incident to the service and line of duty. The Commi sioner favors granting pensions to all soldiers who are disabled. He

and its attendant infirmities afflict the veteran who served his country faithfully and well a quarter of a century ago it is a serious question whether the Government does him tice in limiting the application of disabilities only which were contracted in the service and line of duty. I carnestly recommend that a pension be granted to every honorably dis charged soldier and sailor who is now or who may hereafter become disabled, without regard to whether such disability is chargeable to the service of the United States or has been contracted since discharge therefrom,

The Commissioner also favors a pension for army nurses and makes an earnest apneal in their behalf.

A QUESTION OF AUTHORITY. Thy Secretary Noble Dispensed with

WASHINGTON, Oct. 19 -- Secretary Noble has made public copies of his letter of July last to the then Commissioner of ensions Tanner, ordering an investigation into the workings of the Pension Office. The letter is a very lengthy document. It shows, what generally has been understood all along, that the trouble between Noble and Tanner originated in a question of authority. Tan-ner claimed that the Secretary of the Interior only had power to reverse the decisons of the Pension Commissioner when be had decided against an applicant for a pendon, but had not the power to call a halt or reduce the pensions granted by the Commissioner, and that the Vice-Commissioner only could do secretary Noble disagreed with this, and noted the law to maintain his point. After disposing of this question the Secreary takes up the cases of ten employes of the Pension Office, who were drawing salaries ranging from \$1,000 to \$2,000 per annum, each of whose applicaion for re-rating Tanner had made special and granted, besides arrearages aggregating in all \$17,000, Secretary Noble upbraids Tanner for making hese cases special, and that, too, in advance of hundreds of thousands of pensioners who really needed pensions and had no Government positions to support them. He then takes up each case separately and shows wherein they were not entitled to rerating. In conclusion he states that he had ordered an investigation, n order to get at the true history of Penion Office methods.

ned by President Harrison for This portant Position-Sworn Into Office. WASHINGTON, Oct. 21 .- The President on Saturday settled the controversy over the appointment of a Commissioner of Pensions to succeed James Tanner, resigned, by the appointment of Green B. Raum, of Illinois, ex-member of Conrress and ex-Commissioner of Internal Revenue. The impression prevailed two days ago that Mr. Poole, of New York, be appointed. This was based on the hopeful expres-sions of Senator Hiscock, who is Mr. Poole's principal supporter, and who felt confident of his appointment. In none of the speculations about the successor to Conmissioner Tanner has the name of Mr. Raum figured prominently until last-night, and then the possibil-

It was at one time suggested that Mr. Mason, the Commissioner of Internal Revenue, might be transferred to the head of the Pension Office and Mr. Raum succeed him as Commissioner of Internal Revenue. Mr. Raum's appointment as Commissioner of Pensions, announced early this morning, came as a genuine surprise to most of those interested.

the affairs of the Internal Revenue office earned for him high enconiums. He took charge of it just after the exposure of the whisky ring when the office was in a disorganized condition and brought order out of chaos before he left it.

General Raum took the oath of office as Commissioner of Pensions before Chief Clerk Dawson, of the Interior Department, at 12 o'clock. He was then officially introduced by Secretary Noble to the officials in the department. After some time spent in receiving the congratulations of friends General Raum proceeded to the Pension Office. accompanied by Assistant Secretary Bussey. He was introduced to the chiefs of division by General Bussey and Assistant Commissioner Smith. General Raum will assume charge Monday. Secretary Noble, speaking of the selection of General Raum, said he was chosen from a number of excellent men. and he thought would make a Commissioner satisfactory to the country. He felt much relieved now that a Commissioner of Pensions had been selected

by the President. Assistant Secretary Bussey, who has immediate charge over pension matters, is well pleased with the selection of General Raum, and says he is certain he will so conduct the work of the Pension Office as to give general satisfaction to all. Among Interior Department officials the selection is well received, the only criticism made being that General Raum has not in recent years been in active political life.

[Mr. Raum was born in Golconda, Ill., December 5, 1829. He was admitted to the bar in 1865 In 1856 he removed with his family to Kansas where he made himself obnoxious to the proslavery faction. A TIDAL WAVE.

It Causes Great Destruction and Loss o Life in Japan-Towns Completely Obliterated, and Nearly Eight Hundred Persons Perish.

SAN FRANCISCO, Oct. 21.—The steamer City of Peking arrived Friday night from China and Japan. She brings an account of a tidal wave in which nearly 800 persons lost their lives and about 2,000 houses were washed away. On September 11, the same day Yokohama was so severely damaged by a typhoon, a violent wind and rain-storm set in at Hazugun and Aichiken. By 2 o'clock the sea had risen several feet above ordinary high tide, and just after nightfall the waves mounted to a great height, washing away the embankment and leveling the buildings near the shore. Shortly afterward a wave fifteen feet higher than those that had preceded it rolled in with a great roar, washing away the remaining portions of the embankment and carrying with it nearly all the houses of the vari-

ous villages along the beach. This was done so suddenly and unexsectedly that the inhabitants had not ime to escape. At Okudo, in Oguri-Shinden, all the houses, twenty-three in number, were washed away, and out of ninety inhabitants, fifty-four lost their lives. At Jitsuroku, Koyabu-Mura, forty houses were washed away, and about fifty out of the population of 250 were killed. At Ikuta-Mura 120 houses were washed away, about twenty broken up and about forty of the inhabitants killed. At Yoshida-Mura, 350 out of 650 houses were washed away. and 628 of the population of 3,260 were killed. At Toba-Mura, containing 220 houses and a population of 1,130, ten houses were broken up and ten persons

In addition to those already enumerated, 369 bodies have been found and there are yet 280 persons missing. The Emperor and the Empress have sent \$1,-500 and \$500, respectively, for the relief of the sufferers.

NEWS FROM GAMP TWENTY.

Cronin Was Accused—The Murder the Result of a Row—Indications That This Will Be the Theory of the Defense— The Twelfth Juros Still Undiscovered.

CMCAGO, Oct. 21.—Despite the unusual efforts made by the State to keep the present work of the prosecution within the narrow limits of the State's Attorney's office, it has leaked out that one more witness to the work of Camp 30 in condemning Dr. Cronin to death has been found. This man, whose name is suppressed by request, told Judge Longenecker this story Saturday

"Thave been a member of Camp 30 for years, but have been a very unusual attendant at the meetings. I happened, however, to be present on the night when Tom O'Connor brought into the camp the story that the Sullivan investigating committee's report had been read in another camp. There was a good deal of excitement in the camp, and several speeches denouncing Cronin very bitterly were made."

"What was the immediate occasion of this denuncing time" the witness was asked. enunciation?" the witness was asked.
"Why, it was Cronin who had read the report

"Why, it was Cronin who had read the report in the other camp and they were charging him with treason. Some said that he was in the employ of the British Government and others that if he were not a spy he was at least a disorgauizer and a firebrand and that he ought to be expelled from the order."

"Was there no more serious threat than that made?"

"Well, there was a good deal of loud talk and some of the men were very angree but I couldn't

"Well, there was a good deal of loud talk and some of the men were very angry, but I couldn't swear to the exact language. It all ended with a motion that a committee be appointed to try the charges against Cronin and that Senior duardian Beggs was to appoint the committee secretly and that it would report at a subse-

"What did you understand were the charges which the trial committee were to investigate?" "That Cronin was an associate and fellow-spy with Le Caron, and that in the interests of the enemies of the Irish revolution he was trying to break up the I. R. B."

"Who stated these charges?"
"Oh, they were common talk all about. I lon't know that anybody put them in definite hape that night."
"Did you hear what Coughlin said

"If I did I didn't pay much attention tidn't attach any importance to what most of hem said. I thought it was largely wind, and hat even if they made a case against Cronin hey would publicly expel him. I don't be-leve this minute that any one there had mur-ier in his heart. That came afterward." THE LINE OF DEFENSE.

In the testimony of this witness it will se noted that a hint is given as to one of the possible lines of defense which he prisoners' counsel may take-an efort, that is, to escape out of a final and fatal corner by attempting to show hat Cronin's death was not a delibertely planned and coldly executed murler, but the unexpected result of a pasionate dispute between the trapped docor and some of his self-constituted THE MYSTERIOUS PRISONER.

James Burnes, the mysterious prisonr whom Captain Schuettler brought beore the State's Attorney Friday night, and whom he afterward took to the East Chicago Avenue station, has been released. He was thought to be the nan who drove the white horse that carried Dr. Cronin to his doom, but Conklin and Frank Scanlan failed to identify him and he was sent away free. ONE MORE JUROR WANTED. It looked as if the weary labor of jury

entire venire was exhausted when the

sult so far being that eleven are accepted on both sides. A GREAT TRIAL. The attorneys said Saturday night they expected the jury would be sworn in some time Monday, and on Tuesday the State would outline its case before the jury. The State's Attorney himself will make the only opening address for the prosecution, and the defense will probably waive their opening address till the State's case is all in. Every thing indicates that this will be one of the greatest trials known to the American bar. Over 200 witnesses will be called by the State, and nearly that many, probably, by the defense. Many

days, even weeks, in their development and elucidation. WHAT AN EX-MAYOR THINKS. ST. PAUL, Minn., Oct. 21.-A local paper Saturday published a long communication from ex-Mayor C. D. O'Brien upon the Cronin case. Mr. O'Brien is a wellknown criminal lawyer, and is also noted for his efforts in the Irish cause.

of the points upon which the State de-

pends to make out its case. will occupy

He says: "It is very peculiar that Cronin's murder was ounced and an Irish society blamed even before the body was found. Had a society desired move Cronin it could have done so with less trouble and more safety. It is not certain that the body found was that of Dr. Cronin, and it has never been proved that the man found came to his death by violence, the wound discovered not having been sufficient to cause death. The blood found in the Carlson cottage was also too copious to have come from the wound. At the time of the alleged murder the Irish cause was receiving aid from the American people, and the British Government would therefore have been glad to pay for such sensation, as in the case of the forged Parnell letters. The interest shown by Messrs, Hynes and Mills in the prosecu-tion is suspicious, and the claims about jury-bribing and the free use of telegraph wires to all parts of the country are evidences of a desire to ereate political prejudice. The whole tenor of the case appears to be that Lord Salisbury knows a good deal more about the

case than do the Chicago detectives.
WHAT LONDON TRINKS. WHAT LONDON THINKS.

LONDON, Oct. 21.—The Tory organs are making the most of the scandal from Chicago about the attempted jury-bribing in the Cronin case Without waiting for any proof of the assertion made, the Saturday Review pretends to fethat some, if not all, of the large cities of United States are under the away of a class. United States are under the sway of a class as bloodthirsty and far more cunning than the "Rulers of Crete, not to speak of Dahomey."

Many thousands of head of cattle have starved to death for want of grass and famished for water. "Ranchmen," said he, "in that part of the State are paying as high as \$30 and \$35 a ton for hay, and in a week or two it will be impossible to get it at any price Water is being hauled as far as twenty miles."

QUERREC, Can., Oct. 21.—Captain Lemay, representing M. Bosse, the missionary Rishop of Labrador, has just arrived from Labrador. He brings a terrible tale of starvation and cannibalism from that section. The fisheries were a failure this year and the 5,000 inhabitants are suffering untold privation and etarving to death. From Hopedale it is reported that a father and a mother subsisted on the body of their 6-months-old infant for days, only then to follow their child by a like death from starvation. It was Turtle, indeed, but he burst away from the Colonel's hand, with something between a sob and a curse, and rushed down the stairs with heavy, uncertain steps.

Dook was lying with his arms at his sides, and his brown eyes shut.

What they see, no man can say, for the ready tongue is silent and reveals nothing, and the sweet mouth is sealed past all conjuring into speech or any answering smile.

The hands on the coverlet are so thin that if you held them up to the sunlight you might almost see through them; but for all, they are held against a woman's breast, they remain as cold as ice, and the warmth of passionate love comes to them all too

They and the busy little brain have done their share of work in this world; their ceaseless toil and activity meet as deep reward of rest as ever the careworn statesman under his Abbey monument. His joys and fears last word to the child that never knew a mother's kiss, till now it comes-too

His world has been outside the ken of the woman, who can only touch what was a moment ago the habitation of the spirit, once part of her own, now gone beyond her reach forever. "Nothing can touch him further."

It was the actress' last night upon the stage-her triumph and her everlasting farewell to all possible triumphs vet to come.

She never revealed the reason. It was a woman's expiation for long years of wrong.

So Dook was after all a person of greater importance in this world's history than he ever dreamed of in the days when he sat at his newspaper stall. -Belgravia.

Registration Law Knocked Out. At the last session of the Legislature new registration law was passed for the city of Detroit. The council of that city refused to obey the law, when an appeal was made to the Supreme Court, asking for a mandamus to compel the council to comply with the enactment. The question was argued in the Supreme Court the other day and the mandamus denied. No opinion was filed by the court, but it was underbaby's foster-mother reporting its declared unconstitutional.

Death at the Mines.

August Dahlman, a young miner employed at the Ropes gold mine near Ish-peming, fell 200 feet down the curry shaft, meeting instant death. John Nyichrist, the second victim of the Lake Angeline mine disaster, was buried recently, the 600 employes following the body to the cemetery. Two Finns, brothers, were accidentally killed at the Republic mine the other night. It is estimated that the iron and copper mines of the Lake Superior district kill ver sixty men a month the year round.

Flames in a Prisor

At 11:30 the other morning the east wing of the prison at Jackson, known as the school and library, caught fire from tinners' salamanders on the roof. After two hours' hard work the flames were got under control. The entire building was gutted and only the walls left standing. Perfect order was maintained among the convicts during the progress of the flames. The total loss was estimated at between \$25,000 and \$30,000, with no insurance.

Fate of a Careless Engineer. At Watersmeet one morning recently Engineer Kelly, of the Milwaukee, Lake Shore & Western railroad, carele sly ran his engine into a number of box cars standing on a side track. The engine was thrown complete:y over and the engineer and fireman were both severely and perhaps fatally scalded by steam escaping from the boiler.

They were taken to the hospital at Iron-

From the Ann Arbor Democrat,

Mr. James L. Babcock, Ann Ar bor's wealthy bachelor, has returned home after several months' absence.

The superintendents of the poor have made their settlement with County Treasurer Brehm and find hem correct, and everything shipshape. He has received \$7,859.55, and paid out \$4,288.94. Last December the account was overdrawn \$812.64, which leaves a balance now on hand of \$2,757.97.

A newspaper prophet says the coming winter is to be the coldest since '56. The bark on the north side of the trees is a third thicker than usual; musk-rats are building their walls much thicker than for over twenty years past; corn husks are heavier and hug the ears more pact; fowls are more numerously covered with feathers, and says. frigidly speaking, "this winter is to be a corker."

The Enjoyment of a Bath.

Is greatly enhanced by the use of Cole's Carbolisoap. It is an absolutely pure medicinal Toilet Soap that is refreshing and invigorating to the skin and preserver and beautifies the complexion. It sooths and heals irritations, sunburns, rash and prickly heat, cures pimples, skin blemisher and humors, and is suited both to the infant and the aged. It produces a soft, fant and the aged. It produces a soft, creamy emulsion, even in hard water, an interest in the arrangment of a young man's cravat his bachelor days are num and its delightful prefume, absolute purity bered.
