ROYAL ARCH MASONS.

The first grand convocation of the Grand Chapter Royal Arch Masons of Michigan met at Grand Rapids recently with about 400 delegates present, representing 20 chapters. There are about 10,000 members of the chapter in the state and the treasury contains \$8,000 cash. The following officers were elected: M. L. O. M. Travers, Phillips, of Hastings; D. L. G. M. Diphtheria was reported at twenty places, scarlet fever at nineteen, typhoid fever at nineteen and measles at twenty-eight places.

Look Out for Them.

Agents are now traveling through the State selling what they call certificates of membership to the National Union Association, whereby farmers are enabled to purchase wagons, carriages and farm machinery at manufacturers' rates. It is not necessary to say, says the Lansing Republican, that they are rank frauds, and that the quicker the farmers find it out the better off they will be.

The Offices Filled.

The Western Michigan offices were filled the other day by President Harrison. Lewis G. Palmer was made district attorney and James R. Clark marshal. Mr. Palmer is a lawyer living at Big Rapids. He is now serving his second term in the State Senate. Mr. Clark is an active Republican and a leader in the party. Both men were recommended by Senator Schuchman.

The Best in the World.

J. P. Andrews, of Marquette, is now in Europe in the interests of upper peninsula verde-antique marble. He cables the company that he has compared the Michigan mineral with the best in the world, and that they had nothing to fear, as theirs is the best in the world, and the largest deposit. He claims they will soon lead the world.

A HURRICANE.

An Unprecedented Wind-Storm Blows in the Rocky Mountains—Trains Blown from the Tracks—Several Passengers Badly Hurt—Fire and Flood Do Much Damage.

DENVER, Col., Jan. 27.—Travelers in the Rockies have had an experience that will last them a lifetime. For four days a wind-storm of unparalleled violence has swept the mountain sides and howled down the narrow canyons with a force that has denuded the steep hillsides of stately trees that had withstood the storms of centuries. The devastation is incalculable, as the ruin laid bare an area of 200 miles long by 170 wide.

The wind struck Manitou Springs with awful force about noon Saturday and in an instant a large number of buildings were in ruins. Houses were lifted from their foundations like so many straws and dashed to pieces. Scarcely a building of any considerable size in the town escaped some damage. Thousands of shade trees were also broken off, sidewalks caught up and thrown against houses and stores and chimneys toppled over by the hundred.

A Rio Grande passenger train was blown from the track at Monument Station Saturday evening, and two coaches and a sleeper immediately took fire, and for a few minutes it looked as though twenty of the passengers imprisoned would be burned to death. The hurricane fanned the flames to a furnace, but by heroic efforts the trainmen succeeded in extinguishing the fire before any person was burned.

Among the passengers injured is Assistant General Freight Agent Zimmerman, of the Rio Grande. Twelve others were also wounded, but it is believed but one of them will die of his injuries. The Santa Fe express is reported to have been blown from the track, but no details are obtainable. The train was heavily loaded with passengers and it is feared that a number of lives have been lost.

A freight train on the Colorado Central, near near Berthland, ran into a sand drift which the hurricane had blown into the cut. The engine and four cars were wrecked. Engineer John French and Fireman Richmond fatally injured, two brakemen wounded and a lot of valuable freight destroyed. Fire broke out in the wreck, but was extinguished after a hard fight.

The path of the heaviest of the storm is down the mountains through Monument, Colorado Springs and Manitou. A telephone message from Monument at 8 o'clock Saturday evening said many outbuildings were destroyed and the citizens were moving from their houses and taking refuge in the brush.

It is reported that the wind was unusually severe on Pike's Peak, and that at a railway grading camp half-way up the mountain several men were killed by being blown over a precipice. This report, however, is not confirmed.

North of Denver reports of the storm show great damage. Louisville, the center of the Northern Colorado coal fields, sustained much damage in the upper works of the mines and many dwellings have been wrecked.

In South Park wires are prostrated and trains delayed. The Arkansas valley is also getting its share. Telegraphic communication is intercepted and railroads are obstructed by sand blowing over the track. There is no snow on the plains or in the foot hills.

Reports from Idaho are that the worst snow-storm of the season has been raging since 9 o'clock Friday afternoon all through the Territory. The Utah and Northern railroad is completely blocked again, and all the rolling stock and motive power has been ordered sidetracked until the storm is over. The Central Pacific is also in worse condition than ever. It is reported that the fast mail sidetracked at Shady Run for the past ten days, on which the Howard Atherton Company is, has been gotten out and that the company is on its way to Kansas City.

FIRES RAGING.

The plains have been free from serious trouble, although the wind has attained a recorded velocity of fifty miles at Denver. A far on the horizon two columns of flames rise to the heavens, and the crackling of fire fanned by a hurricane can be heard for twenty miles from Colorado Springs. The scene is grand. Pike's Peak along the line of the railway grading is blazing with a ferocity that is increased every minute. Hundreds of laborers are trying to stem the advance of the flames. Fire caught on Cheyenne mountain from some unexplained source just above the famous canyons, and as the mountain is heavily timbered the gale sent it in a few minutes over hundreds of acres. Large bodies of men succeeded in staying the progress of the flames before a great amount of damage had been done.

FLOODS IN CALIFORNIA.

SAN FRANCISCO, Jan. 27.—The warm rains that have fallen in Northern California for the last two days have melted a large amount of snow in the Sierra Nevada and Siskiyou mountains and caused streams and rivers to overflow their banks. At the city of San Jose the water is higher than ever before known. Santa Clara's principal thoroughfare is covered with water for half a mile. The district north and south of San Jose is flooded. At Chico the Sacramento river is over its banks and flooding the entire country. The water stands from five to six feet deep over 3,000 acres of land in Russian river valley. From Geyserville to Herdsburg, a distance of eight miles, is a vast sea of water.

Death of a Wealthy Woman.

TUSCULOA, Ill., Jan. 27.—Mrs. Irene Garrett, aged 71 years, died here Sunday evening. Mrs. Garrett was the wife of the late Caleb Garrett. She was the owner of 1,000 acres of land, and was regarded as the wealthiest woman in this section, her estate being valued at \$300,000.

Death of a Veteran Actor.

BOSTON, Jan. 27.—Dan Leeson, the veteran actor, died here after a short illness, from pneumonia. He was 60 years old, had served in the Mexican war, and entered upon his dramatic career in 1833 at Philadelphia.

Stole Over \$40,000.

NEW YORK, Jan. 27.—Postmaster Van Cott spent almost the entire day quelling his investigation into the accounts of George H. Lounsbury, late cashier of the post-office here, who committed suicide at his home when he was about to be arrested for his defalcation. The amount of his thefts, it is now stated, will come between \$10,000 and \$45,000.

Wesley McNamara was bitten on the finger by Gilbert Jones in a street fight at Sabatha, Kan., and died in terrible agony, with all the symptoms of hydrophobia.

UNITED IN DEATH.

A Father and Mother Killed at Chicago While on the Way to Bury Their Little Child—A Train Running at Full Speed Dashes Into the Mourners' Carriage—Two Other Persons Lose Their Lives.

CHICAGO, Jan. 24.—A most distressing accident, which resulted in the death of four persons, occurred at Rose Hill Cemetery, on the Chicago & North-western road, Thursday afternoon. Mr. and Mrs. Fred Payne, whose home was at 54 North Aberdeen street, were on their way with a few friends to bury their 5-months-old babe. There were only four carriages in the procession. Mr. and Mrs. Payne were in the carriage immediately following the hearse, and with them were Mrs. William Repregal and Gracie Payne, their little 5-year-old daughter. It was 3:30 o'clock in the afternoon, and the Milwaukee express, four minutes behind time, was nearing the city at a high rate of speed. As the train came squarely on the track tearing it into splinters and instantly killing Mr. and Mrs. Payne. Mrs. Repregal and Simon Anderson, the driver, received injuries from which they died within two hours afterward.

All who witnessed or knew any thing of the occurrence agreed that no warning whatever of its approach was given by the flying train. The engineer was E. J. Mahoney, and the fireman William Anderson. The train was in charge of Conductor Barney Kavanaugh. The train was stopped within a block of where the accident occurred, and the bodies of the dead and injured were placed in the baggage-car. Mrs. Repregal and Anderson, the driver, were still alive when the train reached the depot at North Chicago avenue. The North Chicago Avenue Police station was notified and at 5 o'clock Officer Finn with the signal-service wagon removed Anderson to the Emergency Hospital, corner La Salle and Superior streets, where he died a few moments later. The bodies of Mr. and Mrs. Payne were removed to the Chicago & Northwestern depot at Wells street, whence they were taken to Jordan's undertaking establishment. Mrs. Repregal died shortly after reaching the depot.

The track in the vicinity where the accident occurred is straight and level, and the catastrophe seems to have been entirely without excuse. The grief among the surviving relatives as they gazed upon the mutilated bodies lying upon the rude cots prepared for their reception at the depot was heartrending. Mrs. Payne's face was badly scarred and the top of her husband's head was entirely crushed in. Mrs. Repregal was slightly disfigured, but the old driver's face was terribly cut and bruised and his eyes swollen and blackened.

Late in the evening Engineer Mahoney was arrested for causing the death of these four persons and was locked up at the East Chicago Avenue station pending an investigation of the accident by the coroner. He was badly broken up when informed that he would have to pass the night in a cell, and stoutly protested his innocence of any criminal neglect of his causing the death of the four victims. He said that from his seat in the engine, which was on the opposite side to that from which the funeral was approaching, he could not see any thing except directly ahead of the engine. On the other hand, those of the funeral procession could, before they reached the crossing, command a full view of the track in either direction. They must have seen the train coming.

THE NATIONAL CRUSADERS.

The Followers of Mrs. Foster Effect a Temperance Organization of Their Own—Their Pledge and Constitution—Mrs. Phinney, of Ohio, Elected President.

CLEVELAND, O., Jan. 24.—The ladies who, under the guidance of Mrs. J. Ellen Foster, have met here to form a non-partisan temperance union, decided Thursday morning that the organization shall be known as the American Woman's Christian Temperance League. A constitution was adopted. One section of the constitution declares that no officer shall pledge the support of the organization to any political party or any religious sect.

At the afternoon session Mrs. Foster, of Iowa, presented the following pledge: "I hereby solemnly promise, God helping me, to abstain from all distilled, fermented and malt liquor, including wine and cider, and to discourage the use of and traffic in the same." Mrs. Foster said that the pledge was just the same as that of the National Woman's Christian Temperance Union. Mrs. Dr. Patton offered an amendment providing that the words "a believer" be inserted after the word "ever," and after some little discussion this was agreed to.

The vote by which the name of the organization had been fixed was reconsidered, and the name was changed to that of "The National Crusaders."

The following were put in nomination for president of the new organization: Mrs. Foster, of Iowa; Mrs. Aldrich, of Iowa, and Mrs. Phinney, of Ohio. Mrs. Foster's name was withdrawn at that lady's request. An informal ballot was then taken, and it resulted as follows: Mrs. E. J. Phinney, of Ohio, 100 votes; Mrs. E. J. Aldrich, of Iowa, 37; Mrs. Hugh Campbell, of Pennsylvania, 20. The informal ballot was declared formal, and the secretary cast the ballot of the convention for Mrs. Phinney. Mrs. T. R. Walker, of Minnesota, was elected vice-president. The headquarters of the organization will be in this city.

A Substitute for Wool.

PROVIDENCE, R. I., Jan. 24.—A mill operator of this city has succeeded in cording, spinning and weaving the product of the Chinese rama plant, a fiber which has been thought to be impossible by operators who were looking for a substitute for wool.

An Absconder Sentenced.

NEW YORK, Jan. 24.—Henry M. Jackson, the teller of the United States post-office, who absconded in 1887 with \$10,000 of public money, has been sentenced to an imprisonment of six years and a fine of \$10,000.

A Double Tragedy.

CHICAGO, Jan. 24.—A double tragedy occurred at 219 North Center avenue about noon yesterday. Nicholas Meyer, living at the above number, murdered his pretty young wife and then killed himself. The weapon used was a revolver, and after firing the fatal bullet into his wife's head he sent a bullet into his own brain. It is said that jealousy was the cause of the murder and suicide.

Holding Works Burned.

DEADWOOD, S. D., Jan. 24.—The holding works of the Iron Hill Mining Company at Carbonate were burned Thursday. Loss, \$25,000; insurance, \$8,000.

NELLIE WINS.

Miss Nelly Completes the Circuit of the Globe in Seventy-Two Days, Six Hours, Ten Minutes and Fifty-Eight Seconds—Her Arrival in New York—Miss Nelly Still on the Ocean.

NEW YORK, Jan. 27.—The train with Nelly Bly aboard reached this city at 8:51:28 p. m. Saturday. Cannons were fired in Battery Park and at Fort Green Park in honor of the event. Miss Bly left New York November 14 at 9:40:30 a. m. She made the complete circuit of the globe, therefore, in seventy-two days, six hours, ten minutes and fifty-eight seconds.

Mr. Chieftain returning from a tour of conquest over received a more royal welcome. The depot was crowded to the very bristles of the ferris, fully 15,000 people having gathered to welcome her. Miss Bly was escorted out upon the ferry platform, where three carriages waited for her and her escort, Mayor Cleveland, of Jersey City, attempted to address to Miss Bly a formal speech of welcome. The crowd was so overpoweringly dense, however, that he was compelled to abandon the effort. The cheering was continued with enthusiasm until Miss Bly had taken passage for New York over the Cortland street ferry.

On the trip across to New York every tugboat and steam craft saluted the ferryboat. At Cortland street another tremendous crowd had gathered, and Miss Bly's way to the World office was one of cheers and flowers. It was 4:30 o'clock when Nelly Bly alighted in front of the World office. Her first words were: "I am glad to be home again."

The crowd in Park row stayed for an hour cheering Nelly Bly and making other demonstrations, while Miss Bly was the center of an enthusiastic welcoming party of old friends in the office, where she held a sort of informal reception.

Miss Bly, who attempted to beat Miss Bly and made her tour in precisely the opposite direction, is on board the Bothnia, which is not expected to reach port until Tuesday morning at the earliest, so that Nelly is an easy winner.

MANY SAILORS DROWNED.

Unprecedented Severity of Hurricanes in Great Britain.

LONDON, Jan. 27.—The gales continued with increasing strength and velocity in the southern portion of England and in Wales Sunday. Menai strait, in Wales, is rendered impassable by the fury of the gale. Many sailors have been swept overboard and drowned. The parade at Sand Gate is partially destroyed. The ship Ilex, bound from Greenock for Rio Janeiro, was wrecked off the Needles. Several of the crew were drowned. The survivors clung to the rigging all day Saturday and part of Sunday. It was impossible to send a life-boat to the rescue, as no boat could live in the turbulent sea, but a life-line was finally shot across the vessel by means of a rocket, and in this way the men were safely landed.

The bark Janet Crown has returned to Plymouth. She reports that two of her crew were washed overboard and drowned, and that many were injured. The steamer Yorkshire at Liverpool, from Baltimore, was flooded, and her bridges destroyed and sustained other damages. Three seamen were blown from the rigging and two others were drowned. Damage to property by the storm is general. Numberless houses have been wrecked. The river Shannon in Ireland and a number of rivers in Wales have overflowed their banks, flooding the adjacent country.

QUEENSTOWN, Jan. 27.—The western hurricane now prevailing is of unprecedented severity. The sea has caused much damage to the town. A number of small crafts have been swamped. Outward-bound line steamers report fearful weather in the Irish channel. The bark Sidlaw, from Passay, encountered hurricanes for ten days and lost her first mate by drowning.

THE NEW EXTRADITION TREATY.

Provisions of the Proposed Convention Between England and the United States.

WASHINGTON, Jan. 27.—The new extradition treaty negotiated by Secretary Blaine with Great Britain, now pending in the Senate, has leaked from that official reservoir and is now published. Secretary Blaine and Sir Julian Paucot have agreed upon the following crimes in addition to those already included in the present agreements as extraditable:

"Murder, counterfeiting of money, embezzlement of money or other valuable articles, and any crime against the person of a similar character, perjury or subornation of perjury, rape, abduction, child-stealing, kidnapping, burglary, house-breaking or shop-breaking, piracy, revolt or conspiracy to revolt on shipboard or sea, crimes and offenses against the laws of both countries for the suppression of slavery and slave trading."

Political crimes are not extraditable and no person surrendered can be tried for crimes of a political character. No person extradited shall be tried for any other crime committed before extradition except the one he is extradited for until he has had a chance to return to his country where he is extradited from. All articles seized in the possession of a person extradited shall be given up when the extradition takes place unless a competent authority of the State becomes custodian. If several States demand extradition of the same person the State making the application first shall have priority. A fugitive convicted of an extraditable crime and who escapes after conviction, shall be surrendered on the evidence of a court of record of his conviction. The present convention does not apply to crimes as specified which shall have been committed or convictions procured prior to the date at which the convention shall have come into force.

Lost Part of a Town Gone.

LOGANSPORT, Ind., Jan. 27.—The business portion of the town of Bunker Hill, in Miami County, was almost totally destroyed by fire at an early hour Sunday morning. Twelve warehouses were burned. The aggregate loss is \$15,000.

A Representative American Institution.

The New York Central & Hudson River Railroad is to-day recognized by the traveling public, and also quite generally by its competitors, as being in many respects the representative trunk line leading from the Atlantic seaboard. The merit of this distinction rests largely upon its unsurpassed natural advantages, supplemented by a liberal and progressive policy.

It is the aim of the Central's management to provide for the patrons of this line the best service attainable, and to this end all the resources of this great company are intelligently directed. A splendid roadway, admirable train service, and magnificent equipment, are features which place the New York Central in the foremost rank among the railroads of the United States.

About thirty relatives and friends were present to witness the ceremony; which took place at twelve o'clock.
