TO OUR

PATRONS

AND THE

TRADE

IN GENERAL.

We have completed inventory for 1889 happy, and believing not only that it has been the most successful of the 18 years of our business career, but that we have made a substantial advance in our reputation for providing goods suitable for the trade of Chelsea. Of course we intend to do even better for 1890, and beg your attention to our advertisements announcing bargains in our different departments as they may appear in the HERALD each week. Thanking our patrons for their substantial support during 1889, we remain,

Yours for 1890,

H. S. HOLMES & CO.

CHELSEA, MICHIGAN.

BEVERLY A. LOCKWOOD has announced that she will again run for President in 1902.

BESIDES teaching Englishmen how to advertise, it is said Barnum brings back a clear profit of \$500,000 from England.

MR. EDWARD EVERETT HALE says we are becoming better and better because we are becoming richer, and because God reigns; and that there are more good people than bad people.

SECRETARY TRACY has sight in one eye only. When young he taught school in Northern New York and an unruly pupil threw a slate at him, striking him in the eye and destroying the sight.

PETER MARCOLIN, who has recently died, is the only man who has been allowed to beg in St. Peter's at Rome. The privilege was granted by Pius IX. and the beggar leaves a fortune of \$10,000.

PROF. WICKENSBACH, of Berlin, Germany, recently dissected a shark and found in its stomach a dolphin weighing 130 pounds, forty-three fish, a decomposed seal, a human arm and human legs. A diligent search for the late Mr. McGee was fruitless.

QUEEN VICTORIA'S portrait in widow's weeds is still used on the three-cent and six-cent postage stamps of Newfoundland. The one-cent stamp of the same country shows the Prince of Wales' portrait as a boy. A stamp of the colony of Victoria bears a representation of the Queen sitting on her throne.

THERE is a social reaction in Washington against wine and late hours. A few high official families are believers of total abstinence and will have nothing intoxicating in the house. It is the fashion this winter, too, to forego punch at the large entertainments. Lemonade and mineral waters are the only potations in many cases.

GENERAL BUTLER'S drooping eyelid will no longer furnish a subject for the cartoonists. Dr. O. G. Cilley, of Boston, recently performed a surgical operation upon it, removing an elliptical section of the eyelid and restoring it to almost normal size. It had been causing irritation of the eyeball and rendering the left eye almost useless.

LAST year one hundred and seventy-five persons were lynched in the United States, and not one of them was a man addicted to the habit of chewing tobacco in a heated car and expectorating on the stove. The forbearance of the American people under strong provocation is something that challenges the profoundest admiration of all thoughtful human beings.

The government of Quebec proposes, by a parliamentary bill, to give a free homestead of one hundred acres to every living family of twelve children of the same father and mother. Correct vital statistics bearing upon the question are not tabulated, though ex-Secretary Blanchet, of that province, says there are two hundred such families in Beauce, his county.

The year started off fairly well in the matter of fires. The loss from this cause in the United States and Canada for January was \$9,179,300. This is higher than last year, when January was a very light fire month, but it is below the average. In January, 1888, \$16,040,000 went up in flames and smoke, and in January, 1887, \$11,550,000 worth of property was consumed.

ALEXANDER T. STEWART, of New York, left an estate estimated at all the way from \$200,000,000 to \$400,000,000. At the end of a dozen years his widow, to whom he left nearly all of it, was in debt to the executor in the sum of \$900,000, and the estate has shrunk to \$12,000,000. Jim Fisk left to his widow \$3,500,000. The estate was eaten up by sharks of various kinds, and Mrs. Fisk, who is now a miserably poor woman, is living on a small farm in New England.

CHARLES BECK, who lives near Milton, Mass., is ninety-three years old, but he doesn't rest his claim to fame upon his age. He has in his possession a pair of shoes which were made for him in 1835, and which he has worn constantly ever since in his daily work about his barn-yard and garden. They are of the low-cut brogan pattern and the wear and tear of fifty-five years of use have had no more apparent effect on them than the lapse of almost a century has had upon their owner.

HERE is how one Maine minister spends his spare time this winter: Elder Bowie, of Phippsburg, is running the steam hoister of the Parker's Head Ice Company at present, while still performing his pastoral duties. On Sunday he walks up from the Center, holds his service at the two churches under his charge, takes whatever the congregation feels like giving and helps himself out in various ways. The opinion entertained by the people is shown by the remark of one of his parishioners: "He comes the nearest of being one of the old Apostles of any man I ever see."

A LETTER in the Salt Lake Tribune describing the snow-storms in the Sierras says the flakes come down as large as a man's palm. They catch and cling to the limbs of the glorified pines and turn them into temples. The trunks of the great trees are the pillars, while all above is a mass of exquisite work in green and white. There are festoons and streamers, and the soft soughing of the wind comes to the ear like the muffled beat of the breakers upon a low coast. When a mountain storm sounds all its solemn pipes and starts upon the march it is a sovereign and awe-inspiring spectacle.

A LAND decision was made recently by Land Commissioner Groff in the claim of James A. Reavis and wife, of Arizona, which affects the title to about four million acres in Arizona. The claim was based upon the old Spanish Peralta grant made nearly a hundred years ago. The commissioner holds that it presents no valid claim which the Government is forced to respect. He denies the legality of the existence of the grant, and directs the Surveyor-General of Arizona to strike the case from his docket. The effect of this decision will be to quiet the title to a great deal of land now occupied by settlers.

The Conference at Washington Will Probably Adjourn Early in April—An Outline of Several Important Reports.

WASHINGTON, March 2.—The delegates to the International American conference are beginning to talk about final adjournment, which will probably take place about April. Nearly all of the committees have made their reports and several of them have already been adopted. The committee on monetary convention will make two reports, one of which will recommend the coinage of a common silver dollar to be the legal tender in commercial transactions between the citizens of the several nations. The other report, prepared and presented by Mr. Coolidge of the United States delegation, will recommend the issue of certificates by the United States upon any bullion that may be deposited in the United States Treasury by the citizens or authorities of the Central and South American States. These reports are before the hands of the printer and will be submitted for action very soon. The reports of the committee on railway communication, sanitary regulations and weights and measures have been already adopted by the conference, while the reports of the committee on patents and trade-marks and international law are regular orders of the consideration of the conference.

THE ARIZONA HORROR.

An Awful Scene of Desolation in the Valley Swept by the Frenzied Waters of the Walnut Grove Dam.

PHOENIX, A. T., March 3.—True reports from Walnut Grove dam show conclusively that the work of construction was very faulty. The company's safe, containing \$10,000, which was taken six miles on the rushing waters, was recovered Friday. The steel boiler used at the lower dam was found thirty miles below, crushed like a stove-pipe. There are no traces to be seen of either of the dams. The town of Seymour is wiped out; not one stone stands to mark its site. Since the flood a number of nuggets of gold have been found down the canyon. A piece of iron four inches square and thirty inches long, used to anchor the tower at the upper dam, was picked up forty miles below. For a distance of thirty-five miles the canyon is strewn with bedding, dead horses, cattle and hogs, broken wagons, and, in fact, every thing used by the settlers in the valley. Hundreds of men are searching for and burying the dead and securing the living. It is said the dam will be rebuilt.

THE FRENCH CABINET.

M. Constans, the Minister of the Interior, Resigns—Premier Tirard Also Wanted to Quit, but President Carnot Wouldn't Agree to It.

PARIS, March 3.—M. Constans, Minister of the Interior, has resigned. M. Constans' resignation was the result of a personal disagreement with M. Tirard, the Prime Minister, at the Ministerial council. It is as yet unknown whether his decision to surrender his portfolio is final.

Deputy Bourgeois will succeed M. Constans as Minister of the Interior. Premier Tirard tendered his resignation, but President Carnot refused to accept it. The press is unanimous in the opinion that the Cabinet is weakened by the resignation of Minister Constans and that his leaving heralds its downfall. M. Bourgeois, the successor of M. Constans, is an advanced radical. As a condition of his acceptance he makes special stipulations regarding the Government's policy.

LONDON, March 3.—A dispatch received here states that the British steamer Quetta, which sailed from Australia ports for London, has been lost at sea. The number of persons drowned is not definitely known, but the dispatch says that a fearful number perished.

The Quetta was a vessel of 2,354 tons burden.

A dispatch from Brisbane, Queensland, says that the Quetta had 380 souls on board, of whom 110 were saved, including the captain and several officers.

A BULLET FOR AN INSULT
—
A Southern Newspaper Correspondent

WASHINGTON, March 1.—Charles K. Taubee, correspondent of the Louisville Times, Friday afternoon shot ex-Congressman Taubee of Kentucky, in the head, inflicting a probably fatal wound. The shooting took place in one of the corridors of the capitol near the southeast entrance, and was the result of an old quarrel which originated about a year ago and a half ago by the publication in the Louisville Times of an editorial in which

With groans and sighs, and dizzied eyes,
He soaks the couch and down he lies;
Nausea and faintness in him rise,
Brow-racking pains assail him.

Nor will they fail anyone in such a dire predicament. To the dyspeptic, the bilious and the constipated, they are alike "a friend in need and a friend indeed." As a Liver Pill, they are unequalled. Smallest, cheapest, easiest to take. Put up in vials, hermetically sealed—hence, always fresh and reliable, which is not true of the large pills put up in wood or pasteboard boxes. As a gentle laxative, on one pellet for a dose. Three to four of these tiny, sugar-coated granules act as a cathartic.
