FIFTY-FIRST CONGRESS. TURSDAY, May 20. — In the Senate a bill was introduced for the establishment of a land-loan bureau in the Treasury Department. The bill subjecting imported liquors to the provisions of the laws of the several States was discussed. A joint resolution was introduced proposing a new article for the constitution providing that neither titioned the Legislature for a change of the United States nor any State shall pass any law authorizing the establishment or maintenance of any lottery or distribution of prizes by chance. In the House the bill to forbid the bringing into a State of liquor in original packages where the State law prohibits such importation was considered and the debate on the tariff bill was ended.

WEDNESDAY, May 21. - Arguments on the silver bill were made in the Senate, and the "orignal package" bill, intended to nullify the effect of the recent decision of the United State Supreme Court, was discussed. In the House the McKinley tariff bill was passed by a vote of 162 to 142, all the Republicans present except Mr. Coleman, of Louisiana, and Mr. Featherstone, of Arkansas, voting for it, and all the Democrats against it.

THURSDAY, May 22.-In the Senate bills were reported favorably making it a felony for any person officially connected with an election to change the returns of elections, and to prohibit the printing of advertisements on the flag of the United States. it Passes the House by a Vote of 164 to 143 - Two Republicans Place Them selves on Record Against the Measure

Principal Changes in the Schedule.

WASHINGTON, May 22.—The House of Representatives on Wednesday passed the measure known as the McKinley tariff bill by almost a strict party vote, the roll-call showing yeas, 164; nays. 142. Two Republicans, Messrs. Cole-man (La.) and Featherstone (Ark.) voted with the Democrats against the

bitl.

[The tariff bill as passed by the House is in every respect just as agreed upon by the Republican members of the ways and means committee, except that three amendments to their original bill proposed by the committee and agreed to by the committee of the whole were defeated in the House by a few votes. One of the amendments made the duty on jute yarn 35 per cent. as at present, instead of 30 per cent. as first proposed, and the other two amendments increased the pound duty 5 cents on woolen yarn and woolen cloth valued at 30 cents per pound or less. The changes made in the bill by the ways and means committee and agreed to by the House reduced nittee and agreed to by the House reduced the duty on guns valued at less than \$12 to the present rate of 33 per cent.; reduced the rate on burlaps to 1% cents per pound, and on bags to 3 cents per pound; included oriental rugs at the Wilton carpet paragraph; placed on the free list fresh fish caught in fresh water, except salmon—leaving all other fish (except herring) dutiable at 1 cent per pound; changed the duty on carpet wools to 32 percent, advalorem on wools at not more than 13 cents and 50 per cent, on carpet wools than 13 cents and 50 per cent. on carpet wools valued above 13 cents; provided for specific duties on kid gloves equivalent to the present 50 per cent. rate; reduced the duty on rough granite and free stone to 11 cents per cubic foot, and on dressed and polished stone to 40 per cent.; made cloths made partly of On the 22d Elzo Allen, confidential silk and partly of wool dutiable as woolen clerk at Kansas City of the Austin Incents per pound. In other respects the bill as passed is the same as that originally reported by the ways and means committee.
Sugar, up to and including No. 16, together

with molasses, is made free, and refined sugar above No. 16 is given a duty of 4-10 cent per pound. A bounty of 2 cents per pound is given the home producer of cane, sorghum and beet sugar. The proposition to increase the duty on tin

plate to 2 2-10 cents after July 1, 1893, went through safely, and inasmuch as the Senate in-cluded a similar provision in their bill two years ago, it is probable that this will become

The duty on clothing wool is increased I cent per pound, and the duty on all manufactures of wool increased in larger proportions. It is reneede this increase of duty on wool, but will cut down the duties accorded by the bili passed by the House to manufacturers of wool. The bill reduces duties on common cotton goods, but increases the duty on the finer grades, including cotton hosicry.

There is no increase of duties of slik manu-

Revealed in San Francisco-The Plan Being to Found a Republic and Then Join the United States.

SAN FRANCISCO, May 22 .- A morning paper devotes four columns to the details of an alleged conspiracy to capture Lower California and found an independent republic to be afterward annexed to the United States. The revelations claim to involve a number of prominent capitalists interested in Lower California lands and mines and well-known citizens of Los Angeles and San Diego. The latter city appears to have been the headquarters of the filibusters. The general outline of the plan, it is claimed, was for a Mexican land and cult work, as the water was rough, the colonization company composed of wealthy Englishmen to place in the hands of a well-known San Diego capitalist \$100,000 to be used in advancing the interests of the filibusters. A large warehouse at Ensenada was to be filled with arms, ammunition and provisions. The officers of the English | Hammor was the only one in the party corporation claim that the policy of Mexican officials in Lower California has been ruinous to the land interests | him to shore. The body was found to be in a good state of preservation. It could be easily recognized. The hair had somewhat fallen off from the forehead, but the beard had grown fully two inches. The eves and mouth were closed and the features shrunken, but perfectly white. They looked as though a light frost had fallen upon them. The two sons of the late President, Harry and James A., did not care to look at their father's re-mains, and the cover of the casket was replaced and refastened forever.

CHICAGO, May 22.-James Hendrickson, aged 65 years, while drunk Wednesday afternoon, entered the back yard of the premises at which he lived, No. 9 Ann street, where his wife was hanging out clothes. Without a word he drew a revolver and shot her in the side, inflicting a wound which will doubtless prove fatal. Hendrickson then re-entered the house and blew out his own brains. The only cause to which the tragedy can be attributed is the intoxicated condition of the man and the fact that he was of an exceedingly jealous disposition. Five Miners Killed.

A VICTORY FOR HENNEPIN.

The House Decides That the Clause Appropriating \$500,000 for Work on the Great Waterway Shall Be Retained in the River and Harbor Bill. WASHINGTON, May 26.—A half million dollars for the Illinois and Mississippi

canal is now safely lodged in the river and harbor bill. The chairman of the committee of the whole decided, after thinking over the question for a night, that the appropriation for the canal was properly in the bill, and a motion to strike it out was defeated Saturday by a large majority after two hours' debate. This settles the has no constitutional authority to appropriate money for digging canals, even though the canal be designed to improve the commercial facilities of the whole country by opening water communication between two great natural waterways. Mr. Turner (Ga.) led the opposition, and was supported by Messrs. Hatch (Mo.), Holman (Ind.), Buckalew (Pa.) and Oates (Ala.). General Henderson's (Ill.) efforts were seconded by Henderson, Gear, Sweeney and Hayes, of Iowa, Anderson (Kan.) and Blanchard (La.); and while the argument was going on Messrs. Gest, Hopkins and other Illinois Representatives were at work on the floor. The bulk of the votes striking out the section were given by Democrats, but portions of the Democratic delegations from Texas, South Carolina and Illinois voted with the Republicans in favor of Hennepin. The bill provides that the canal and feeder shall be eighty feet wide and

seven feet deep, the locks 170 feet long and thirty feet wide and have a capacity for vessels of 280 tons burden. The Secretary of War is required to secure the right of way for the canal and feeder and such land as may be necessary by agreement, purchase or voluntary conveyance, or by condemnation through the United States Court, the proceedings to be governed by the laws of the State of 11linois. And the work is to commence as soon as practicable by the construction of one of the locks and dams on Rock river at such point as may be deemed advisable. The motion to strike out the canal provision was lost by a vote of 122 to 50.

The advocates of the Hennepin canal have for years been working to secure its recognition as a public work, but until now have not been able to do so. And whether this bill becomes a law or not it will always hereafter have a status, and the improvement will be regularly appropriated for in the river and harbor bill. The credit for this result is due to General Thomas J. Henderson, of Illinois, but it was reached at the sacrifice of the Illinois river improvement and the deep waterway. It is unfortunate that both of these enterprises could not have received equal recognition, but General Henderson feared that he would lose both if he tried to get the other in the

MANSFIELD, O., May 26.—A heavy ain-storm passed over Richland County Saturday night. Lightning struck the John Charles block in Lucas, six miles east of this city, about 8 o'clock Sunday morning. The block took fire and was entirely consumed, together with two dwellings adjoining. There is no fire apparatus in the village and the citizens turned out with buckets, but could do nothing toward extinguishing the flames. They then endeavored to save the contents of the building, and while they were removing the goods about fifty pounds of dynamite, which was kept in the store, exploded with disastrous effect. Two persons were killed and about twenty-five persons in all more or less injured.

The officer spelled out this communition with some difficulty, and put it in his pocket. It contained all the information he wanted. He had now nothing to do but to wait in order to capture Tom Lane, guerilla.

The next morning the boy was playing in the road not far from his father's house. A Confederate officer, with stars on his coat-collar, rode up, followed by his staff, and asked him some questions about the topography of the country, which the boy answered promptly. The General praised him for a smart boy, and then said: "You seem to know the country pretty well. Do you know the

WOMEN TELEGRAPHERS. They Have One Great Advantage Over the Ordinary Gossiper.

An expert woman telegrapher was telling odd things connected with her profession yesterday.

"Do you know how many more ways telegraphers have of communicating among themselves than ordinary mortals have?" she asked. "No? Well, I'll tell you. Not long age, in a crowded house, I saw an associate to whom I very much wished to say a few words. She was within easy hearing distance of me, but I could not get close enough to her to whisper what I wished to say, and I could not even catch her eye. Suddenly I thought of something. I noticed that the frame of the chair in which I was sitting was iron. I took my latch-key out of my pocket and striking the frame of the chair tapped out her full name. Her practiced ear caught the sounds at once. She turned and saw me. Then I tapped out my full message on the rim of my chair. She took her latch-key from her pocket and sent an answer in the same way. Not a word was speken, and only two or three persons noticed the clicking, and these did not understand what it meant. "Then there are other ways in which conversation may be carried on between telegraphers without a word," she went on. "In fact, if I am sitting next to an associate in an audience room

I never speak. I simply tap my message on the hand of my friend. I once sat down in church directly behind a friend to whom I told a long and important story during the prayer by tapping on the back of her shoulder.

"WHAT A LOVELY WOMAN"!

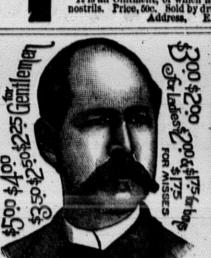

exclaimed the Chief Justice, upon passing a beauty while walking down Penn. Avenue with a friend. "What an excellent Judge"! said the lady, when her sensitive ear caught the decree of the Chief Justice. How many women might receive such a compliment as the above, were they not prematurely robbed of the charms the other sex value so highly, and made old before their time, by functional irregularities and weaknesses peculiar to their sex. To such the bloom of youth may be restored by the use of a remedy acknowledged to be without an equal-Dr. Pierce's Favorite Prescription. It is the only medicine for women guaranteed to give satisfaction, in every case, or money refunded. Read printed guarantee on bottle-wrapper.

As an invigorating tonic, it imparts strength to the whole system. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers. and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic, or strength-giver. It promptly cures nausea, indigestion, bloating, weak back, nervous prostration, debility and sleeplessness. It is carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. Purely vegetable and perfectly harmless in any condition of the system. As a soothing and strengthening nervine, "Favorite Prescription" is une-
