## CROCKERY!

We have got Crockery enough to  
supply Washtenaw County  
during July and  
August.

Come to us if you only want a few cups and  
saucers; come to us if you want a com-  
plete set. We can positively save  
you money.

Buying in the large quantities we do, it  
means a saving that is well worth  
your consideration.

### FRUIT JARS.

We have nothing but the genuine MASON jars, best selected glass, no  
seconds. A jar actually worth 25c a dozen more than  
the common glass.

Pts. 88c, Qts. 98c, Half Gall. \$1.18, Rubbers  
and Tops 50c per doz.

JELLY CANS.—A splendid article at 40c per doz. We also have a pint  
jar with same size opening as a quart, something new and very  
desirable, as anybody will readily see.

Berry Dishes, Sauce Dishes, Celery Dishes, Sauce Pans, Preserve Kettles,  
and in fact everything pertaining to the fruit season. A can filler,  
used for straining fruit and filling cans, at 10c,  
very useful.

We are determined to boom our Crockery department during July  
and August.  
A few more window screens 25c. Two stores packed full of bargains.  
Consisting of Hardware, Furniture, Crockery and House Furnishing  
Goods.

It is the first case known of a young American lady going to the Siberian frontier, except for missionary work.

LORD ROSEBERRY in his dining-room at Berkeley Square has given the place of honor to a portrait of George Washington recently acquired. It is by Gilbert Stuart, and is one of the only two genuine portraits now existing painted from life. This particular picture was painted by Stuart upon the commission of Lord Shelbourn and Bates, about the year 1794.

A FEW weeks before the census takers began the regular census the citizens of Elm Grove, Va., thought to enumerate their population preparatory to incorporating the town. The following is the remarkable result: Number of males over twenty years of age, 148; number of males under twenty years of age, 148; number of females over sixteen years of age, 148; number of females under sixteen years of age, 148; grand total, 592.

A MAN at Springfield, Mass., is the possessor of the finest collection of eggs in the country. It comprises six hundred eggs of different kinds and is valued at \$10,000. Among the specimens are eggs of the stone stork of Newfoundland, the elder duck, the cormorant, the golden eagle, the hawk and the turkey buzzard. The collection has been the work of years and is necessarily the object of constant care. A slight blow, the merest accident, might destroy forever, and entail not only the loss of the collection, but also the malodorous consequences that invariably follow the breaking of antiquated eggs.

It is not generally known that his mark had an adopted son, now twenty years of age. One evening during the Franco-Prussian war Bismarck entered his sleeping apartments near Paris, and found a tiny baby boy curled up asleep on his pillow. The mother had left a note saying that her husband had been killed at Sedan, and despair and want had forced her to give up her child. Bismarck scratched his head over his doubtful prize of war, but finally accepted it and sent it by special nurse to Berlin, where he had it well cared for. He is a model young man, devotedly attached to the Prince.

The recent death of Dr. C. H. E. Peters, the astronomer at Litchfield Observatory, Hamilton College, New York, removes one of the most prominent of the old school of scientific workers. He held his position at Hamilton for thirty-two years and was forty-seven years old when he accepted it. Hence he died at a ripe old age, but was active to the last. His work included the discovery of forty-eight planetoids, the largest number credited to any one man, and closely approximated by the late Prof. Watson, who ran a neck-and-neck race with him for years in hunting for these objects which move between the orbits of Mars and Jupiter.

## THE REVOLT CHECKED.

The Rebels in the Argentine Republic Forced to Give Up Their Winning Fight Through Failure of Their Supply of Ammunition.

LONDON, July 30.—In the House of Commons Tuesday evening Sir James Ferguson, Under Foreign Secretary, stated that the British Minister at Buenos Ayres had cabled the home Government that President Celman had left the capital and that negotiations with the insurgents were proceeding. Other dispatches say that the trouble is not yet over and further bloodshed is feared. The Argentine Legation in London has received a telegram signed by Minister of Finance Garcia saying: "The Government is completely victorious. The mutineers have capitulated and deposited their arms in the arsenal. All rebellious superior officers will be dismissed. The troops are returning to their quarters under the command of loyal officers. The mutineers participating in the revolution will be transferred to positions of less influence. The forces mobilized by the Government are returning to the provinces. The political situation is thoroughly settled. The capital and the whole country are tranquil."

BUENOS AYRES, July 30.—Provisional President Alem stated Tuesday morning:

"The Government is completely victorious. The mutineers have capitulated and deposited their arms in the arsenal. All rebellious superior officers will be dismissed. The troops are returning to their quarters under the command of loyal officers. The mutineers participating in the revolution will be transferred to positions of less influence. The forces mobilized by the Government are returning to the provinces. The political situation is thoroughly settled. The capital and the whole country are tranquil."

THE SOUTH AMERICAN REPUBLIC. ing that the negotiations were proceeding and were expected to be successful. Both sides were reinforced, and the Celmanites armed a number of Gaucha outposts at the Government house.

At noon the Government began firing at the Government house, and firing recommenced in several parts of the city. The Celmanites evacuated their positions. Celman, Roca and all the Ministers left the Government house.

Alem and Lopez ordered the squadron of cabs firing at 4 o'clock, and they got their men away as quickly as possible.

The reason the victorious Union Civica practically yielded is because they had no cartridges left. They only had 100,000 instead of 1,000,000, as they had calculated. The men wanted to attack with bayonets, but at the risk of their own lives the Union Civica's chiefs declined to permit such terrible bloodshed.

The Government is thought to have regained the ascendancy and to be able now to quell the uprising. The insurgents are alive to the weakness of their position and have agreed to extend the truce while negotiations looking to a settlement are going on. The Ministers of foreign powers stationed here have intervened in the interest of peace, and efforts are being made to form a coalition ministry in which the disaffected faction shall be represented. A session of Congress has been called and it is thought efforts for peace will be successful. President Celman has offered terms to the insurgents. No civilian who has taken part in the revolt will be punished. All captains of the revolutionary forces and all officers above the grade of Captain will be deprived of their rank. The artillery of the insurgents must be surrendered.

SALVADOREANS WIN ELEVEN BATTLES. CITY OF MEXICO, July 30.—Geronimo Pou, agent of San Salvador, says in the eleven battles fought to date the Salvadoreans have come out victorious. The rest of the Guatemalan army is fleeing in all directions toward the interior and not a single Guatemalan soldier is left on the frontier.

A revolution against Barrillas has broken out in the eastern part of the country. Several well-known Generals head it, and the downfall of the present Guatemalan Government is considered more than probable. Barrillas is pleading for foreign intervention in his favor.

A private telegram to a commercial house in this city says that in Salvador's battle the Salvadoreans were defeated by the Guatemalans and sustained a loss of sixty killed, 200 wounded, and a large number in prisoners. The Guatemalan loss was very light.

THE CHOLERA. The scourge spreading in Japan, but dying out in Spain.

SAN FRANCISCO, Aug. 1.—Japan advises state that on the 14th inst. the total number of cholera cases was increased to 233, with 174 deaths. Forty-seven fresh cases and fifteen deaths were reported that day and on the 12th thirty fresh cases and twenty-seven deaths were reported from Nagasaki.

LONDON, Aug. 1.—An epidemic of cholera in Mecca and the surrounding districts has assumed frightful proportions. Under the intense heat now prevailing the malady is rapidly spreading and the deaths average eighty daily.

MADRID, Aug. 1.—The cholera epidemic is diminishing in Valencia. From ten to fifteen cases are reported daily, of which about one-half have proved fatal.

MARRIED the Man of her Choice. VIENNA, Aug. 1.—The marriage of Archduchess Maria Valeria, youngest daughter of the Emperor and Empress of Austria, to Archduke Francis Salvator, took place at Ischl in the presence of all the members of the Imperial family. The bride renounced her rights of succession to the throne in order to marry the Archduke, who was her own choice for a husband.

A Jilted Man's Revenge. LOUISVILLE, Ky., Aug. 1.—Peter McCarty shot and mortally wounded Annie Stakin, a pretty servant girl employed at the residence No. 631 Clay street. The girl had refused to become his wife. After shooting her McCarty attempted twice to take his own life. The first ball grazed his skull, the second knocked out his teeth, tearing away the lips and part of the jaw. He was not seriously hurt.

Sudden Death of George L. Schuyler. NEW LONDON, Conn., Aug. 1.—George L. Schuyler, of New York, a guest of Commodore Gerry on the flagship Electric, of the New York yacht squadron, died of the Pequot House, New London, was found dead in his cabin Wednesday morning. He was the oldest member of the New York Yacht Club and one of its founders. He was the last of the donors of the American cup. Mr. Schuyler was 80 years old, a native of New York and a direct descendant of the old Schuyler family of historic renown.

An Entire Town Stricken. BOREN BAY, N. F., Aug. 1.—Fishing boats just arrived here bring reports of a terrible outbreak of diphtheria in Red Bay, a fishing station on Labrador coast. The boats left the settlement several days ago, and the disease had become epidemic. The population numbers 300, and half of them were down with the disease. Many deaths had occurred.

Mine Explosion in Germany. REHLIS, Aug. 1.—A mine explosion occurred in the Unter Ruff mine at Gelsenkirchen Thursday. Eight men were killed and several injured.

## LAID LOW BY THOUSANDS.

A Thousand Men Killed and 5,000 Wounded During the Fighting at Buenos Ayres—The Insurgents Accepted the Amnesty and Peace Terms.

BUENOS AYRES, Aug. 1.—During the insurrection here the iron-clad fleet which had joined the revolutionary movement bombarded the city for two days. Serious damage was done to many buildings, especially those in the vicinity of the Plaza Victoria. One thousand persons were killed and 5,000 were wounded. The shipping in the port sustained no damage.

The rebellion, though of short duration, has entailed heavy losses on all classes in this city, as business has been entirely suspended. The Government house was badly damaged by the cannonading of the men-of-war which took part in the rebellion. At fairs have resumed their normal conditions and business has again been resumed.

NEW YORK, Aug. 1.—A dispatch received in New York from Buenos Ayres via Galveston says: "Telegraphic communication with Buenos Ayres via Galveston is reopened." The officials of the Mexican Telegraph Company in this city say the fact that this message came over the Transatlantic line is an indication that peace reigns throughout the Argentine Republic.

## THE WAR ENDS.

General Roca Crushes the San Salvador Rebels, and Publicly Executes the Leader, General Rivas—A Manifesto by President Celman of the Argentine Republic.

LA LIBERTAD, Aug. 2.—The news is confirmed of the defeat of General Rivas by the Government troops under General Antonio Ezeta. Rivas escaped from the capital Thursday night, but was pursued and taken prisoner a few miles outside the city. Friday morning he was publicly shot and his corpse was exposed on the Plaza Armas. It is reported that many prominent persons are compromised and a strict inquiry is being made regarding the Rivas conspiracy. The siege lasted forty hours. The capital suffered considerable damage. Hundreds of persons were shot dead in the streets. The Government forces which took part in the overthrow of Rivas are now disposed to return to the frontier if necessary.

LA LIBERTAD, San Salvador, August 2.—Communication with the interior of San Salvador has been restored. Advice from the capital of the Republic state that General Antonio Ezeta was ordered from the frontier with about 2,000 men immediately upon the outbreak of the revolt headed by General Rivas. General Ezeta hastened with all speed to the capital. General Rivas' forces had captured the artillery barracks, but the few troops in charge had fought desperately before they surrendered. The Indians then pillaged several houses, and a panic ensued. Rivas' forces were finally defeated and peace was restored. It is stated that Guatemala has withdrawn her forces from the frontier, and that all is quiet at present. There is no telegraphic communication with Guatemala.

SAN SALVADOR, Aug. 2.—Provisional President Ezeta, in a telegram to Congress, states that he has issued a proclamation for a general election of members of Congress during the first week in September, and has called upon Congress to convene in October. A copy of this proclamation has been sent to all the foreign legations in Central America. Ezeta desires to show good faith in regard to his promises to bring about a constitutional regime in the Republic of Salvador.

CRIMAN TO HIS PEOPLE. LONDON, Aug. 2.—A dispatch to the Times from Buenos Ayres states that President Celman has issued a manifesto to the people of the Argentine Republic after speaking of the demand for his resignation, which was made by the leaders of the revolutionary movement, the President refers to the liberty the country enjoys under his rule. He ignores the gravity, and what he has own journal terms the "horror" of the recent events in Buenos Ayres. The manifesto attributes the sole cause of the insurrection to the insatiable ambition of the local party in Buenos Ayres, which it says wished to impose itself upon the entire Republic, while prosperity, peace and security are represented by the Celman Government.

The manifesto concludes with an expression of the eternal gratitude to the supporters of the President's authority, and adds that a patriotic people blesses them as the saviors of the Government.

Even Celman's own party, the dispatch says, is ashamed at the President's callousness and his incomprehensible and vain ignorance of the real gravity of the situation.

It is stated that England and France have demanded indemnity from the Argentine republic for property of subjects of these countries to the value of \$10,000,000 destroyed by the recent bombardment of Buenos Ayres by the combined fleets of England and France. It is stated, also, that the Argentine Republic is to assemble at Buenos Ayres to support the demand if necessary.

## BOUGHT BY A SYNDICATE.

All the Tableware Glass Factories in the United States Gobblied.

FINDLAY, O., Aug. 2.—From one of the principal tableware manufacturers of this city the information has been obtained that his factory, as well as every like establishment in the United States, "has been" sold to an English syndicate, the transfer to take place on December 10. There are thirty-three tableware houses in this country, one-sixth of the number being located in Findlay. It is the intention of the syndicate that made this purchase to shut down the factories which are operated where fuel is high and increase the capacity of those in the district where this item of expense is purely nominal. The factories under the new management will retain the local superintendence, as in the case of breweries obtained control of all the glass works the price of tableware will be once advanced. The price the syndicate paid to obtain possession of these works will average \$100,000 to the factory, thus making the aggregate consideration for this sale have been over \$3,300,000. The negotiations for this sale have been on ever since last winter, but the final details have not been all settled and the first payment on the purchase made.

## HORRIBLE TRAGEDY.

A Swedish Resident of New Milford, Conn., Cuts His Sweetheart's Throat.

NEW MILFORD, Conn., Aug. 2.—Andrew Bjorjensen climbed upon a shed and broke into the house of Homer Buckingham at Northville at 3:30 Friday morning and cut the throat and horribly mangled the body of Emma Anderson, the domestic. The girl promised in Sweden last March to marry the murderer, but had since refused him because he drank. He loaned the girl \$50 passage money which was paid him two weeks ago. He was captured in the woods by a crowd of citizens.

Newport Ky., Visited by a Tornado. CINCINNATI, Aug. 2.—During the thunder-shower Friday afternoon the wind rose in Newport, Ky., to the violence of a tornado. Three houses belonging to J. A. Schaeffer were unroofed and a two-story brick house on Whittier street was blown down. The roof of Peter Ader's house was carried across the street, where it crashed in the front of a two-story frame dwelling. A portion of the Addison Pipe & Steel Company's roof was carried away. So far as known no one was hurt. The loss is estimated at from \$15,000 to \$20,000.

### Virtues of Coffee.

It is asserted by men of high professional ability that when the system needs a stimulant nothing equals a cup of fresh coffee. Those who desire to "rescue the dipsomaniac from his cups will find no better substitute for spirits than strong, newly-made coffee, without milk or sugar. Two ounces of coffee, or one-eight of a pound, to one pint of boiling water, makes a first-class beverage, but the water must be boiling, not merely hot. It is asserted that malaria and epidemics are avoided by those who drink a cup of hot coffee before venturing into the morning air. Burned on hot coals coffee is a disinfectant for a sick room, and by some of the best physicians it is considered a specific in typhoid fever.

### To Remove Dandruff

An occasional shampoo with soap and water or borax and water or some simple mixture of that kind once in two or three weeks will be found a necessity. A very good shampoo liquid for general use may be made as follows: Carbonate of ammonia, one drachm; carbonate of potassium, one drachm; water, four ounces; tincture of cantharides, one drachm; alcohol, four ounces; rum, one and one-half pints. Dissolve the carbonates in the water; shake well before using, moistening the scalp until a lather forms. Wash in cool water and rub dry.  
For a permanent removal of dandruff it is better to take borax, half a teaspoonful; common sulphur, one heaping teaspoonful; pour over them one pint of boiling water. When cool pour into a bottle; agitate frequently for three or four days; then strain. Moisture the scalp with this thoroughly three or four times a week. It is one of the most reliable preparations known for permanently removing dandruff.—Good House-keeping.

### Additional Local

Puckney has a population of 500.  
Corn and potatoes need rain badly.  
Geo. P. Glazier was in Stockbridge last Friday.  
There are now 600 water-takers in Ypsilanti.  
Mrs. Ames and daughter, of Ann Arbor, visited in town last week.  
Mrs. Caroline Crowley arrived home from Minneapolis last week.  
The wheat crop in Sharon turned out well and the farmers are happy.  
Geo. Niele, Will Lehr, Jake Briegel and Will Pfeifle, of Manchester, were in town last Thursday.  
The cricket's chirp, the humming of the threshing machine and the festive young lads prone to "cooning" melons will soon mark Autumn's approach.  
The poor man would like to be rich; the rich man would like to be richer. They both would like to get to heaven when they die, but neither one would like to die to get there.  
The Detroit Tribune says, There are about 278 widows in Ann Arbor, and besides them 246 unmarried ladies over 40. Very many of these women in both classes are taxpayers.  
C. C. DePuy, of Stockbridge, and F. P. Glazier are off to-day for a two week's trip on the lakes and through northern Michigan, where they propose to make it warm for the finny tribe.  
The turtle dove never mates with the turtle doves two seasons in succession. And then the season are so short, no wonder they dwell in harmony. Oh dear! it is only men and women who have it so tough.  
The great lumber yard cyclone show struck town last Wednesday but failed to blow the required amount of cash into the proprietors' hands, so he packed up and left for that little burg called Dexter.  
Parsons ought to charge for marrying by the hour, the same as other branches of joiners do. Widows, widowers and divorced people, having been there before, don't occupy half so much of his time as silly, smirking swains and misses do.  
It cost the cigarette men \$500,000 last year to supply the packages with pictures, and all have now combined to do away with them. They have probably concluded to kill the boys with out corrupting their morals with chromos, and for this much the country should be thankful.  
When a girl is sixteen she likes to be thought older; when she is thirty she tries to appear younger; when she is fifty it flatters her to be rated at thirty-five, but when she reaches eighty she likes to be taken for a hundred and ten, at the very least. Fearfully and wonderfully made.  
There are always people who must make a noise without knowing what the noise is about—and then others must make a noise because they hear one. One fool newspaper can make more trouble in a town or city than a runaway mule, or a frantic Texas steer—and these two disturbers of nerve centers are proverbial for efficiency.—Ex.  
The merchant who advertises in his local paper not only increases his own business by attracting customers but he helps his own town by showing to non-resident readers of the paper that there is such a thing as enterprise in the place. The first thing an inquiring reader of a county paper looks for in its columns is its local advertising. If he finds the various branches of business belonging to a place of its size represented there he knows it is a live and prosperous place; otherwise he knows it is not the town he wants to locate in.  
We clip the following item from the Grass Lake News: "Three uncircumcised guttersnips living in Chelsea came in Friday of last week on the evening train intent on painting the town red. They began by pushing folks off the sidewalk, knocking bananas out of their hands, and little attentions like that. Finally one of them signified a desire to be polished off if anybody in Grass Lake could do it. Just then a shadow seemed to shoot out of the crowd, the Chelsea squirt at the same instant began to bound around in the dirt first on his head and then on his feet like an india rubber man. The shadow was a west end boy, whose movements were too quick for the naked eye. At the close the foreigner was about as pretty as a skinned horse."
