Cassius VanRiper was a Niles boy, but like many other boys he became addicted to the cigarette habit. Two weeks ago Cassius began to get deaf, then he lost his eyesight, and next his reason. Now he is at death's door, and the doctors say it all came from too much cigarette smoking. Boys take warning.

The ladies of St. Mary's parish are as busy as bees, preparing for their bazaar, which will open on Tuesday evening Oct. 28th. The coming of Bishop Foley to open the bazaar is a gracious compliment to the pastor and people of St. Mary's, which they fully appreciate. Few men in public life have become so extremely popular as Bishop Foley, and this is unquestionably owing to his intense Americanism. He is assured of a cordial reception from our citizen.

Last week, after more than four years faithful service, postmaster McKone gave place to postmaster Judson. During the incumbency of Mr. McKone the affairs of the office have been administered with signal ability. It is but the simple truth to say that Chelsea never had a better postmaster. Mr. McKone gave his personal attention to the details of his office, was always at his post of duty, and was courteous and accommodating to the public. Much of the success of his administration must be ascribed to the excellent work of his assistant, Miss Alice Gorman, who, we are happy to state, has been retained in her present position by postmaster Judson. Now that postmaster McKone has retired to private life, the HERALD can truly offer him its congratulations on his successful management of the local postoffice, and its best wishes for his future success and happiness.

Just sympathize with them and pass on.

A NEW YORKER who has spent some time in the literary circles of London says that there must be at least one hundred biographies of Mr. Gladstone already in manuscript, awaiting the event of his death, at which time they will be ready for publication in book form. Besides these manuscripts there are to be found in the pigeon-holes of all the newspaper offices sketches of the statesman's life, in readiness for his dispatches announcing the end of his career that may be received at any time. It is said that Mr. Gladstone has seen some of these biographies, and prepared memoranda for some of his biographers.

The death of Mrs. James Calley occurred at her home at Easton, Conn., at the age of 110 years.

The Democrats nominated Thomas W. Pierce for Congress in the Sixth district of Pennsylvania and C. W. Canfield in the Fifteenth.

ST. PAUL, Minn., Oct. 6.—A large portion of the town of Lawrence, Grant County, Minn., has been devastated by a prairie fire during the last two days which destroyed fully \$400,000 worth of property. The fire started in the southwest part of the town from cinders dumped in a roadway from a thrashing engine, and, fanned by a strong south wind, swept across the township, consuming every thing in its path. ST. PAUL, Minn., Oct. —The buildings of the Minnesota Experiment Farm at Hamlin were entirely destroyed by fire Sunday afternoon. The explosion of chemicals at 3:30 started the fire, and the fire apparatus at Hamlin and Merriam Park was immediately taken to the scene, but there was no water available at the farm and the firemen were obliged to stand by and see the buildings burn down. ### The Prize Drill and Parade.

The prize drill and parade at Detroit next week, (October 18th), for The Detroit Journal Prize Flag, promises to be one of the most important military events in the history of Michigan. Half fare over all Michigan railroads to witness it, gives some idea of the wide spread interest that is felt throughout Michigan. The 4 companies of "regulars" at Fort Wayne, and the 6 companies at Detroit, composing the 4th Regiment, together with the 15 military companies from various parts of Michigan will participate. The whole is to be under command of General Eugene Robinson. Ladies will be admitted free to the park where the drill is to take place, if accompanied by gentlemen, who will be expected to pay 25 cents each. Four companies of British troops, from Windsor, Ontario, will also be present, and participate in the parade.

### Why She is Opposed to Annexation.

Says an American lady: "While in Canada recently I went into a candy store to make a purchase, and as I had always done at home, sampled some of the varieties piled on the counter. And what do you think I found? Cayenne pepper! At first I thought it was candy made for April fool's day, but when I sampled two other piles which looked tempting and from which, had they pleased me, I should have purchased, I found that cayenne pepper was in each piece. 'In order to stop customers eating candy they don't pay for,' said my companion. I tell you I was mad, and when I thought of the way in this country, where one is asked to sample everything unknown before buying, I told the clerk I didn't want the caramels. I understand some one is trying to annex Canada to the United States. Well, my uncle is a United States senator, and I shall tell him that unless he prevents such a thing I shall go to Europe and marry a French prince. I understand that they are cheap now.—Ex.

## The Fair.

The first annual fair of the Chelsea Union Agricultural society, opened last Tuesday and closes to-day (Thursday.)

Tuesday, the first day of the fair, was cloudy and was mostly occupied in placing exhibits, etc. The display in floral hall is quite attractive, especially the display made by our merchants. The display of live stock is much better than at any of our previous fairs. The poultry department is well filled with choice fowls of all breeds.

Wednesday the weather was all that could be desired, and nearly 2,000 people were on the grounds. The fair was a brilliant success in every way and reflects much credit on the management.

Norwich, N. Y., February 13th, 1891.

Miss Flora A. Jones—I have been annoyed with moth patches on my face for a long time. I have used only one bottle of your "Blush of Roses" and should have not thought it too much had I paid \$5 for this bottle, considering the benefit I have received from it. Yours truly, Mrs. Newell Carter. "Blush of Roses" can be had of Glazier, the druggist.

That noted painting of a "Russian Wedding Feast" is again brought prominently to the attention of the people of Michigan.

The Detroit Evening News have had the picture reproduced in all the beautiful and gorgeous colors of the original painting, by the famous acquerel process, and, with their characteristic generosity, propose to present every one of its readers with a copy. To secure a picture it is only necessary, for 60 consecutive days, to cut from the paper a small certificate; these placed in the hands of the agents will entitle the subscriber to a picture, which is a beauty.

The domestic in the European countries is content with their social grade. The people who work in the United States recognize no social grade, and the domestic servant is the one who feels that a social grade survives for her.

### Why She is Opposed to Annexation.

Says an American lady: "While in Canada recently I went into a candy store to make a purchase, and as I had always done at home, sampled some of the varieties piled on the counter. And what do you think I found? Cayenne pepper! At first I thought it was candy made for April fool's day, but when I sampled two other piles which looked tempting and from which, had they pleased me, I should have purchased, I found that cayenne pepper was in each piece. 'In order to stop customers eating candy they don't pay for,' said my companion. I tell you I was mad, and when I thought of the way in this country, where one is asked to sample everything unknown before buying, I told the clerk I didn't want the caramels. I understand some one is trying to annex Canada to the United States. Well, my uncle is a United States senator, and I shall tell him that unless he prevents such a thing I shall go to Europe and marry a French prince. I understand that they are cheap now.—Ex.

## Boys and Girls in Holland.

A letter from a girl traveling in Holland tell how they distinguish the boys from the girls in that country. They are all dressed alike in dark full skirts and gay bodices. All have long hair and long thick bangs trained to stand out under the tight caps like little visors to shade their eyes. We began to wonder why they were all girls, when suddenly the guide seized one, crying 'do you think this a boy or girl?' When we said 'girl' he whisked the child around and pointed to a little red and white crown piece in the back of its cap. 'No' he said 'girls' caps are plain. Until the children are 8 years old you can't tell a boy from a girl, except from the back of their heads.' By asking the children their names we found the guide was right, and we all wondered what young America would say if he were obliged to dress like his sister till he was 8 years old.

### Hair-Pin a Handy Thing.

What the jackknife is to the average school-boy, the hair-pin is to the school-girl. She does not use it to whittle with, since girls usually have a horror of that boyish accomplishment; but she has duties which a jackknife, but her braid or twists furnish abundant room for stowing away a few extra hair-pins, and it is the handiest thing in the world to tag them out, use them, and return them. What does she do with them? mayhap our bachelor friend will ask. Buttons her shoes and gloves, uses them for hawks, safety-pins and ordinary pins, if the original articles are not at hand, fastens her pictures to the walls, secures her brio-a-brac, adjusts her curtains, fastens her windows in whatever position she wishes, renders the lock of her door burglar-proof by thrusting a hair-pin into it, or if she has lost her key or lent it, picks locks, mends broken hinges, repairs her parasol, secures an awkward bundle, and by bending and twisting them makes more handy things than a carpenter could get into a tool-chest in the ordinary line.—Ex.
