MANITOBA AND THE CANADIAN NORTHWEST.

Official Crop Returns Show a Splendid Yield.

The wonderful productivity of the great wheat lands of Manitoba and the Canadian Northwest Territories receives a splendid endorsement in the crop of 1900. That these Canadian lands are peculiarly adapted to the growth of the very finest grades of wheat and other cereals is already well known, and, in addition, they produce what are unquestionably the greatest crops of potatoes, roots and all sorts of garden vegetables grown on the American continent.

Small wonder, then, considering the many advantages possessed by the Canadian country, and the millions of acres of fat lands now offered in Manitoba, Assiniboia and Alberta, that settlers are flocking thither eager to secure farms in a well-governed, peaceable country, where the climate is most healthful and the soil does not wear out, but yields a rich return year after year for the labor bestowed upon it.

The following dispatch in this connection will not doubt be read with interest. It refers to the province of Manitoba:

"WINNIPEG, Nov. 27.—The local government has just issued another bulletin which gives the following comparison with 1899 in average yields and products of wheat, oats, barley and potatoes based on the returns of acreage and average yields for the respective years:

"Estimated average yield in wheat 12.4 bushels in '99, 21.1 bushels in '00. Oats, 16.8 in '99, 41.3 in '00. Barley, 13.6 in '99, 32.1 in '00. Potatoes, 119 in '99, 330 in '00. Product of wheat, 7,301,579 for '99, 14,665,799 for '00. Oats, 8,415,104 for '99, 9,515,433 for '00. Barley, 1,051,551 for '99, 2,009,415 for '00. Potatoes, 1,383,355 for '99, 2,540,820 for '00.

"Little information is given about flax, but field roots are spoken of as 'being more than usually productive' this year.

"Large quantities of hay were put up this year, compared with last. During the harvesting season there was a great 'scarcity of farm laborers. Dakota, three persons in the city since Monday, and to-day left for the West. Their expenses here are paid by the Dominion Government, and their mission is 'to pick out sufficient good farm land on which to locate three hundred Dakota families whose names are in their possession, and who will remove to Manitoba early in the spring.'"

FIFTY-FIRST CONGRESS.
Second Session.

TUESDAY, Dec. 2.—In the Senate a petition was received from an old lady in Vermont, 105 years of age, asking for a pension. A bill was introduced providing that the present tariff act should not be construed to repeal or impair the stipulations contained in the reciprocity treaty with Hawaii. The remainder of the session was occupied in discussing the election bill. In the House bills were introduced to provide for a representation of 355 members in the House instead of 322 as at present; to place raw wool, coal and iron ore on the free list, and for the free coinage of silver. A bill was passed to pay the Miami Indians \$91,730, improperly withheld from them.

WEDNESDAY, Dec. 3.—A bill was introduced in the Senate to reduce the postage to one cent. The election bill was further discussed. In the House the copyright bill was passed by a vote of 139 to 75. A bill was introduced to exclude immigrants who are hostile to the principles of the constitution or who are insane or dependent for support. It also provides that no person shall encourage immigration by advertisements or promises of employment.

THURSDAY, Dec. 4.—The election bill was further discussed in the Senate. Bills were introduced for a permanent tariff commission and for the free unlimited use of silver money. A resolution was adopted to issue arms to the States of North and South Dakota, Nebraska and Wyoming. In the House a bill was introduced authorizing the issue of a new series of legal-tender notes to meet any deficiencies in the revenues of the Government. The bill providing for the punishment of every guardian or other person for the embezzlement of the pension of his ward was passed.

FRIDAY, Dec. 5.—In the Senate the time was occupied in discussing the pension appropriation bill (\$135,000,000) and was discussed and finally passed. The Senate bill authorizing the Secretary of War to issue 1,000 stands of arms to each of the States of North and South Dakota, Wyoming, Montana and Nebraska was also passed. A bill was introduced providing for the disarmament of the Indians and making it a punishable offense for any person to sell arms or ammunition to them.

A BOOK TO BUY.—Webster's International Dictionary. This new book is the authentic "Unabridged" thoroughly revised and enlarged under the supervision of Noah Porter, D. D., LL. D., of Yale University. Editorial work on the revision has been active progress for over ten years, and more than a hundred paid literary workers have been engaged upon it. The sum expended in its preparation before the first copy was printed exceeded \$200,000. This work, well used in a family, will be of more value to the members thereof than many times its cost laid up in money.

"It's a stranger about these parts," exclaimed a May 12th year, and was the customer's hair—Yonkers Statesman.

We value everything in this world by comparison. Water and air have no intrinsic value, and yet Jay Gould, if famishing in the desert, would give all his wealth for a pint of the former, and think it more than a hundred times the value of all his gold. If you are full of malaria you will be very miserable; a few drops of Shalenger's Astringent will make you well and happy. A one dollar a high price to pay!
