Mr. Chas. Bucher wish to thank his friends and neighbors for their many acts of kindness during the illness and death of his only child.

A surprise party was tendered Miss Eva Conk last Friday evening. There were about twenty couple present and all report a pleasant time.

Miss B. S. Greening is now teaching in the Canfield district, and Mr. Wm. Stapish is doing similar work in the Heatley district, North Lake.

There is some talk of compelling Glazier, the druggist, to remove the children's pie display from his window as it blocks the streets with children.

The First Annual Meeting of Chelsea Union P. of I. will be held in Chelsea, Dec. 27th, 1890, at 2 o'clock p. m., for the election of officers. S. L. Gage, Sec.

Remember the oyster supper given by the Chelsea Fire Department, Wednesday evening, Dec. 21, in the Staffan building, first door south of the Chelsea House.

Sleighing parties and individuals should not forget that a pedestrian has the right of way in crossing streets, or in fact walking along them. Reckless and rapid driving on the main streets is attended with grave danger to the lives and limbs of those crossing and it is better and safer to slow up a bit than invite possible accident.

The young people of St. Mary's church will give their annual entertainment at the Opera House on Friday evening Dec. 26th. A most interesting and beautiful literary feast has been prepared. Santa Claus, Aunt Peabody and other noted personages will be there to entertain the audience. The ladies will have an elegant Christmas tree, and every child of the parish will be remembered. A cordial invitation is extended to all to come.

The month of November will be remembered by railroad men for years as being a month in which accidents were more numerous than in any month in the history of the roads in this country. During the month there was a total of 293 accidents, in which eighty persons were killed and 380 injured, and the fatalities were largely on what are considered the best roads of the United States in exemption from accidents of a serious nature.

St. Mary's church, as usual, will celebrate Christmas with a solemnity, befitting the glorious Feast. The first service will be a high mass at 5 a. m., during which the choir will sing Leonard's beautiful mass in C. The second service will be a low mass at 8 a. m. during which the juvenile choir will sing some beautiful Christmas anthems, specially prepared for the occasion. The most important service will be the high mass at 10:30 a. m. during which the choir will sing for the first time Peter's celebrated mass in D. At this mass the pastor will preach on the "Birth of Christ." In the evening at 7:30 vespers will be sung and benediction of the Blessed Sacrament given. The church will be elaborately and beautifully decorated with choice flowers, holly evergreens and immortelles. The music will be excellently rendered as usual, and the church will look her prettiest in honor of the newborn Savior.

### From Georgia.

The follow is an extract from a letter written by Geo. E. Davis, who is at Atlanta, Ga., to a Chelsea friend:

Atlanta is a fine city of 64,000 inhabitants, and is our head quarters for the south, and also our P. O. address. We sell here once in three weeks, selling from two to three hundred at each sale. Between these sales, we sell in Florida, South Carolina and Alabama. Mrs. Davis has been with me five weeks she met me at Bowling Green Ky. She is enjoying the southern trip very much. We have visited many of the old battle fields, last Sunday we visited Big Kennesaw and Little Kennesaw; forts, breastworks and many other things are just as they left them. At Marietta is the Union National cemetery where 10,160 Union soldiers were buried. I looked all through the directory to see if I could find any of the Sylvan boys buried but did not find any. About 2000 Michigan soldiers lie buried there. It is a beautiful spot 24 acres lying in the red mountain of Georgia. Business is good, lots of money here. I have sold over 2000 horses since I left Chelsea. Weather is perfect like May and June; flies and mosquitoes are plenty.

### Unadilla Items.

The basement of the M. E. church has been divided into rooms by a removable partition.

Stewart Oseiga preached to a full house last Sunday evening. He formerly labored here with the Presbyterians 12 years. He contemplates moving from Pewama to Stockbridge.

### Don't Read This.

It is now about a year since I offered to give one years subscription to the HERALD free, to anyone purchasing goods of us, who was not then a subscriber to the HERALD. It is needless to say that a large number have availed themselves of this offer, to any who have not, I would say that I will have to withdraw the proposition Dec. 30th, so if you are entitled to the HERALD please let us know before that time. To all my friends who have accepted the proposition and become subscribers to the HERALD, I would say that my prices will appear weekly in the HERALD in the future the same as in the past. I shall work harder than ever for your trade, consequently you will find my prices more interesting and of more value to you than ever before. I hope that as your subscription expires you will renew it for another year by handing Mr. Allison the small sum of one dollar. (Less than two cents per week.) Many of our customers say that our prices save them, every week, more than the price of the HERALD for a whole year.

Yours Respectfully, F. P. GLAZIER.

RAILROAD statistics show that no one car on a train is safer than another.

SOMEONE has coined the word "motorer," to designate the person who manages the motor on an electric car.

NEARLY fourteen thousand horses are annually consumed as food in Paris. In Vienna and Berlin the annual consumption is about six thousand horses each.

The largest room in the world under one roof and unbroken by pillars is at St. Petersburg. It is six hundred and twenty feet long by one hundred and twenty in breadth.

The wife of Count Walderssee is an American, and she is the only person at the German courts who declines invitations to dances on Sundays and who is permitted to do so without offense.

The floating island in Sadawaga lake at Whittingham, Va., contains over one hundred acres, and it actually floats on top of the water. It is not attached to the mainland on any part of the lake.

"LITTLE PHIL" SHERIDAN, who is now just ten years old, is said to be a perfect counterpart of his father. He gives promise of exhibiting the pluck and endurance of the great cavalry leader. He is destined for West Point.

The distance traveled by Stanley in the interior of Africa is estimated by him at 5,400 miles, of which all but 1,000 were on foot. The expedition occupied three years and rescued 300 persons, at a cost of less than \$150,000.

While preaching at New Brunswick, N. J., Rev. Dr. Strong said: "A man might fall as easily as a star from heaven." The next instant he turned pale, clutched at the pulpit and fell to the floor in a fit of apoplexy. He died the next morning.

VICE-PRESIDENT PROCTOR of the Singer Sewing Machine Company is reported to be worth \$25,000,000. He shared the inventor's poverty with him and afterwards married his daughter. Singer's original capital was \$50, which grew to be \$30,000,000.

MOSTE CARLO is undoubtedly the greatest gambling center in the world. There the stakes are the heaviest, the losses the largest and the passion for gaming is seen in its most desperate phase. Each roulette wheel wins on an average from \$1,000 to \$1,250 a day, and the total winnings amount to over \$4,000,000 a year.

MECHANICAL devices to make the imprudent careful of their nickels and dimes are many, but all on the same principle that what you put into those banks you can't get out until five or ten dollars, as the case may be, is deposited. The latest is a bank in the shape of a small tube, which you carry in your pocket. It is for dimes and only opens when five dollars is deposited.

A PEELESS curled grain black walnut tree stood on the side of Big Black Mountain in Harlan County, Ky. Its like was not known anywhere. It was from five to six feet through at the base. A sharp New York dealer paid an ignorant mountaineer \$50 for it, and then paid \$500 to get it moved to a railroad. But after that, his profit begins. He expects to make about \$5,000.

EVERY advance in the improvement of the telescope has brought to our knowledge still closer double stars, the distance between them being so magnified as to become visible and measurable. But the spectroscopic has revealed to us a double star so close that no telescope will show the distance between the two stars, although each one of the two stars is bright enough to be visible to the naked eye.

On the highest point of Holyhead Cemetery at Brookline, Mass., nature long ago left as memento of her glacial process a great boulder fifteen feet high and twelve feet square—seventy-five tons of rock, solitary, massive, majestic, a perpetual landmark. Into the face of this great stone a tablet will be let, and on the tablet will be written the name of John Boyle O'Reilly. Other tombstone will have none.

T. C. CRAWFORD, the well-known Washington correspondent, who left newspaper work two years ago to take Buffalo Bill through Europe, has returned, bringing his sheaves with him. Buffalo Bill has made over \$500,000 clean cash by his European business, and Mr. Crawford's sojourn with Buffalo Bill profited him to the extent of \$150,000, as he has not only received a salary, but was interested in the venture.

THERE is an impression that an Englishman who commits a murder in Central Africa can not be indicted for murder out of the country or country where the crime is perpetrated. A man who is interested in the recent African horrors has called attention to a recent statute which is in force in England providing that "when any murder or manslaughter shall be committed on land out of the United Kingdom, the criminal may be tried and punished in any part of England or Ireland where he may be apprehended."

THE number of women in America employed in remunerative occupations is 300,000, or nearly 30 per cent. of the total female population. In the previous decade the percentage was only 21.33 per cent. of the whole. Out of the eleven classes of occupations, women have increased comparatively in nine, viz., Government service, professional and domestic service, trade, agriculture, fisheries, manufactures, and as apprentices, while they have decreased comparatively as laborers. In 1875 there were nineteen branches of industry in which women were not employed; in 1895 the number was reduced to seven.

MEN who are near the scene of action and have their money invested in the business do not expect the supply of natural gas in the Pittsburgh region to hold out much longer. The gross earnings of the leading company engaged in supplying it to consumers were \$3,445,995 for the first ten months of this year, while a man whose name was not learned, out of the difference divided to the amount of \$450,000 had been paid, leaving a surplus of \$2,995,995. Yet the stock of the company has declined to 80 per cent. of its par value, now being quoted at \$15 per share. If the supply should fall the plant would be comparatively worthless.

## The Children's Pie.

This is the best picture of a "pi" the printerman could make, and while it is pretty good pi of his kind, it won't stand any comparison to Glazier's.

### CHILDREN'S PIE.

Glazier recognizes that the children own the holiday season and that they are entitled to at least one month's attention out of the busy twelve. So he has decided to set his time and energy this month aside for them and will have on December 18, 19, 20, 22, 23 and 24th.

### A Grand Children's Carnival

In which every child under twelve years of age who visits Glazier's store accompanied by either or both parents will have a present. These presents will be taken from a great

### Children's Pie,

Which will be placed on exhibition in one of our windows and remain until every child has a chance to draw a

### Nice Present.

From under its spacious crust.

### Every Child is Invited,

And will be given an opportunity to take away one of Glazier's Christmas presents to his little friends. Be sure to have your parents bring you to our store on December 18, 19, 20, 22, 23 and 24th, and on December 15th keep a sharp watch

### For the Pie

The spices and presents the pie will be made of will be displayed in our window about December 12th.

It will be an eye opener for you, consisting of about \$200.00 worth dolls, toys and fancy goods. We do this, not only to show our love for the little children, but also to celebrate the close of the largest and most successful year's business that the

### Old Bank Store

has ever known.

### OLD SANTA

Will be in great demand for a few days now.

**Every Father** will buttonhole him and speak a few words of kind advice bearing on the dear children, bless'em.

**Every Mother** will consult him during office hours with a heart running over with love.

**Every Sweetheart**, with eyes downcast, will ask him what will be suitable for her "Johnnie" and

**Every Child** will endeavor to make friends of this bringer of joy and happiness.

We invite you to drop in and see the stock which for stockings we've prepared. All our prices are bed rock and for every want we've cared. No finer stock you'll find if you search the country through. All is dainty and refined and the newest of the new. We've a gift for everyone, right in reach of any purse; gifts for father and for son, gifts for baby and for nurse, gifts for mother, gifts for every child, gifts for the little girls and boys, gifts in dozens upon dozens, such every child enjoys, such a choice of goods we offer, such variety we show. So come along and see the show; 'twill make you stretch your eyes. There is no other stock you know where everything's a prize.

If you have money deposit it in the Chelsea Savings Bank, that it may earn for you interest, or until wanted, that you may be free from care and fear of loss by fire, thieves or otherwise. If you need to borrow money, upon good approved security, the Chelsea Savings Bank will be glad to supply it for you.

The Chelsea Savings Bank has recently had built for it one of the strongest safes made, being the new Patterson & Sons' Bank Safe Company's, Round Screw Door, Laminated Chrome Steel Burglar and Dynamite Proof Safe, with no keyhole, spindle or other connection through the door or walls, nor any access to the lock from the outside, the door being screwed in and held secure by a Double Chronometer Time Lock from inside. It is considered the strongest and best security ever devised against efforts of burglars. The safe is protected by a large new fireproof vault made necessary to store the upwards of twenty years' accumulation of books and papers of its business, and the whole premises are further protected by an Electric alarm system, which gives instant warning of trespassers at night.
