It must be sadly said that the Weather Bureau hasn't grown any wiser since the punsters of the press began to give it a rest. If the Bureau can't manage the weather any better, why doesn't it give up the job and retire on a pension? Evidently the Weather Bureau is a back number and doesn't know it yet.

We learn that Conduc'or J. R. Allyn, formerly of this village, has severed his connection with the W. S. R. R and accepted a position on the N. Y. C. & H. R. R. running from Albany to New York City, where he joins Mr. D. B. McCoy, his former Superintendent, he being transferred from the West Shoie.

Now that you are fairly launched upon the new year, what are you going to make of it? You can paint it very red at the outstart if you like it that way. But the color won't wear. You can fill it with comfort and prosperity if you start right and keep up the gait, other things being equal. Even if you can do no better you can deserve success. Here's a bit of ad-

EFFICACI

DURING 1890 3,107 car-loads of oranges were shipped from California. The wine product of the State was 18,-200,000 gallons.

THE State of New York has upward of five thousand Indians who keep up tribal organizations. They have in their reservations ninety thousand acres of

A Columbus celebration in 1892 will be held by Spain at Auleva, in Andalusia, "the discoverer having sailed from the estuary now known as Huelva five the number of army officers who

THE list of Harvard clubs which have been established in different parts of the country is interesting. Nineteen in all are given, with a total membership of nearly 2,000.

MRS. BELVA LOCKWOOD has officially withdrawn from National politics. She says she will never run for President again. This leaves the track a trifle clearer for 1892.

Some \$200,000, it is estimated, will be subscribed in California to secure land in Mexico for the exiled Hebrews in Russia. Some fifteen hundred Jews are expected to come to the coast in the event of the subscription plan being

BERLIN, with its 1,500,000 inhabitants. has 1,398 physicians, 107 dentists, and 120 licensed apothecaries. For every 10,000 persons there are therefore 9.32 physicians and four-fifths of an apothecary. There are thirty-four hospitals, with 4,635 beds, in the city.

A DENVER publication gives a bit of advice which is worth heeding. "Don't worry, whether the man who says nice things to you means them or not. The fact that he takes the pains to say them is a compliment. He doubtless has an axe to grind, but it doesn't follow that you must turn the grindstone."

THE most valuable printed document in existence in relation to Columbus is that in the possession of B. Quaritch, of London. It is the first printed copy of the first letter of Columbus written from Lisbon to Ferdinand and Isabella when the court was in Barcelona, and printed there. This is held for £1,600.

CERTAIN New York firms have been trying good-looking women as bill collectors. So far the scheme has been unsuccessful. Three of the women married inside of a week and four more were engaged, while the balance sympathized with the poor fellows who had run into debt and had not collected a cent

ELECTRICITY has not been practically applied in the art of music heretofore, except, perhaps, in the operating mechanism of church organs. George Breed of the United States navy, has devised a method by which the passage of a broken current over a conductor in a magnetic field produces musical tones of varying pitch and volume.

THE Pennsylvania Supreme Court has reversed a decision of the Allegheny County court, where a dealer was fined ten dellars each on one hundred and ten quails he had on sale and had bought in Missouri after the season in that State had closed. The decision opens the Pennsylvania markets to Lancaster, Pa., causing the death of game from other States at all seasons.

THE Chattanooga Tradesman says the increase of white population in the South during the past year was 26,2 per cent, and of the colored population it as requires the payment of a tax as a only 10 per cent.; and there were now 475,930 persons of Northern birth in the South, against 240,385 ten years ago. The State, county, and municipal indebtedness of the South aggregates \$183,772,353,

THE number of males and females in the world is about equal, and their average life is about thirty-three years; one-fourth of the inhabitants die before they reach their fifteenth year. To one thousand persons only one reaches the age of one hundred years; to every one hundred only six reach the age of sixty-five, and not more than one in five hundred live to see their eightieth year.

THE chinch bug is the latest pest to attract the warfare of science. Chancellor Snow, of the Kansas State University, is declared to have discovered a Way to rid the fields of this arrant little cereal destroyer. He inoculates sample bugs with cholera and turns them loose. Contagion does the rest. The chinch bug is as deadly a parasite to the in 1851, has been purchased for exhibifarmer as the tuberculosis bacillus is to tion at the world's fair. the consumptive. It will afford happiness to mankind to see both destroyed.

WITH regard to the question: "Ought our laughters to be dowered?" the answer is very easy, indeed, declares the Pittsburgh Dispatch. They should be dowered with cheerful disposition, cultivation of the affections and a training which enables them to do their work in life bravely and well. Daughters so dowered will be worth more to themselves and those related to them than any amount of money in bank or bonded securities. If we have brave, bright and useful women, the question whether they have any money or not sinks into utter insignifi-

Now THAT so much is being said about Russia a few statistics from the last official year book of that country will be of interest. The population of the Empire is placed at 110,628,676, of which 100,000,000 are in Europe. The rate of increase in population is fifteen per 1,000, a higher rate than that of any other European nation. In the matter of education Russia is progressing rapidly, her public schools now costing the government, in bountles, 7,000,000 roubles, or over \$6,000,000 annually. It does not require much reflection to show the immense possibilities of such

a people. A CANVASS by the Farm and Home of Springfield, Mass., to ascertain the Presidential preferences of farmers throughout the United States shows should be President: Of 108,758 persons making their choice for the head these figures, the question being who of the Democratic ticket 65.93 per cent.
favor Mr. Cleveland, 15.74 per cent. Mr.
Hill, 10.18 per cent. Mr. Hatch and 8.09 per cent. other men. Of the 407,841 his sweetheart and then shot himself tween Chicago and the Mississippi Republican voters returned Mr. Blaine the lady's payone and took this has 66.44 per cent.; Mr. Harrison, 27.75 per cent.; Mr. Rusk, 19.23 per cent., and 15.58 per cent. are scattered among various candidates.

Epitome of the Week.

INTERESTING NEWS COMPILATION. FIFTY-FIRST CONGRESS.

TUESDAY, Jan. 6. — The financial bill occupied the time in the Senate. In the House a bill granting a pension of \$100 per month to Franz Sigel, late Major-General of volunteers, was favor-ably reported and the shipping bill was full authority to act.

WEDNESDAY, Jan. 7 .- In the Senate the free coinage measure was again considered. Senators Shoup and Mc-Connell, of Idaho, drew lots for the terms of service, the former securing the long term. In the House a bill was passed increasing from fifty to seventy- fatally shot. may be detailed to military colleges.

THURSDAY, Jan. 8 .- Bills were passed in the Senate for public buildings at Davenport, Ia., and Akron, ized by the Democrats. O., and the finance measure was further considered. In the House the time was consumed in discussing the shipping bill. The bill authorizing the ers in various portions of town were certificates of service to telegraph oper- awakened. ators with the Union army in the late war was passed.

FRIDAY, Jan. 9. - In the Senate Major Wham, army paymaster, crediting him with \$28,345, Government funds of which he was robbed in Arizona in 1889, and House bill to provide for an and fifteen dwellings. additional Associate Justice of the Supreme Court of Arizona. The finance measure was again discussed and the bill creating the office of Fourth Assistfavorably. In the House the time was occupied in committee of the whole on the private calendar. At the evening session sixty private pension bills were

FROM WASHINGTON. THE salary of Miss Phœbe Couzins as secretary of the board of lady managers

of the Columbian exposition has been fixed at \$2,000 per annum. Ox the 7th the international monetary conference convened in Washington and a cordial address of welcome to the delegates was made by Secretary Blaine.

A BULLETIN issued by the Census Bureau shows the total Indian population of the United States to be 244,704. This makes the total population of the country, including Alaska, estimated at 87,000, almost 63,000,000. THE business failures in the United

States during the seven days ended on the 9th numbered 403, against 348 the preceding week and 373 the corresponding week last year.

THE EAST.

THE Legislature of New York met at Albany on the 6th, and Governor Hill in his message announced that he would not again be a candidate for the Gubernatorial chair.

THE Pennsylvania and Delaware Legislatures met on the 6th. THE firm of Decker, Howell & Co. New York brokers who failed for \$12. 000,000, has resumed business.

pied by Hungarians were burned, rendering about 1,000 persons homeless. The victims lost all their effects. HIRAM A. TUTTLE (Rep.) was elected Governor over Amsden (Dem.) by a vote of 185 to 150 at the joint convention

of the houses of the New Hampshire Legislature. A SCANTLING fell at the new edifice of the St. John's Lutheran Church at

SCORES COMING IN.

Red Cloud Surrenders to General Miles Many Other Hostiles Give Themselves Up—Lieutenant Casey's Murder — Sho-shones Put on Their War-Paint in Idaho. PINE RIDGE AGENCY, S. D., Jan 9 .-General Brooke, from his camp on White Clay creek, writes General Miles that he has been notified that many of the principal men and chiefs now on that creek will visit General Miles to-

day. It was expected that General Miles would hold a conference with Red Cloud, who came in Thursday morning, but the expectation was not realized. The General had decided that he would hold no more talks with the aged chief, as he had given him the ultimatum several days ago to abandon the hostiles or suffer the consequences. The arrival of the old man is considered an evidence of his good faith, as is also the effort he made to save Lieutenant Casey's life by warning him of his danger.

Red Cloud told of a fight between the Ogallalas and the Brules shortly after the killing of Casey. The former made an effort to separate from the Brules and return to the agency. The latter objected and fired at them, but no one was injured. Thursday morning about 200 of the Ogallalas succeeded in forsaking the Brules and came into the agency.

Young - Man - Afraid-of - His - Horses, with several members of band, returned Thursday from a friendly visit to the Crows and was granted an audience by General Miles. Buffalo Bill, attended by Buckskin Jack, arrived at noon from Rushville. He was warmly greeted by several hundred Indians who thronged about the sutler's store. He bore a letter from Governor Thayer to General Miles setting forth Colonel Cody's connection with the State militis, and assuring the General of the hearty co-operation of the State troops.

Yankton Charley, now employed as a scout here, brings particulars of the murder of Lieutenant Casey, of the Twenty-second Infantry of General Brooke's command, near the hostile camp Wednesday. The Lieutenant had started out to visit the hostiles in order to induce the chiefs to come in and talk with General Brooke. He passed a small band of Ogallalas, who were butchering, and proceeded further, followed, however, by two of the Indians, who appeared to be friends. He was shortly afterwards met by Pete Richards, sonin-law of Red Cloud, who had been sent by the latter to warn him not to approach the hostiles, as it was dangerous to do so. Casey said he would ride to the top of a little knoll, where he could get a view of the hostile camp. Richards dissuaded him, and he and Casey turned around and departed. Just then Richards heard a shot, and turning back, saw Casey fall from his horse, the bullet having passed through the Lieutenant's head. The shot was fired by the younger of the two Ogallalas who had followed Casey. Richards would have shot the murderer but his cartridges would not fit his gun. Thursday night General Brooke sent out a detachment under Lieutenant Getty to recover the remains. The body was found stripped but not mu-

whence it will be sent to Fort Keogh, DENVER, Col., Jan. 9 .- A Salt Lake City special to the Rocky Mountain News says: A special from Pocatello says the town is in a great state of excitement over the action of the Shoshone Indians on the reservation. Last night they indulged in a war dance and otherwise evinced a desire or bloodshed. The chief, Mayer Jim, declared that the Indians would fight, giving as his reason

tilated. It was borne to Oelrichs,

that the "bad Indians get heap grub and blankets; good Indians get nothing. Indians heap mad; will fight." The people are fleeing from the city for safety. The Indians are in war-paint and can not be restrained. The latest advices say: The Gov

ernor's guards and the United States cavalry at Boise City have been notified to repair to Pocatello as soon as possible and by this time they are thought to be en route. The town is in a state of wildest confusion. The place is almost entirely destitute of arms and a force of not over 200 men is all that can be mustered for service. The ranchmen and cowboys from the surrounding country are assembling to the rescue. Requests from Blackfoot, Idaho, for transportation of arms have been sent to the Union Pacific authorities here. People of Pocatello are pleading with the railroad people for the trains to remove their families from the town.

PERISHED FROM COLD.

The Weather on the Continent Is Disastrous in Its Results.

LONDON, Jan. 9 .- The weather continues intensely cold throughout the continent. Three unfortunates have been found frozen to death in the streets of Paris, and three children lost in the woods in the department of the Nord perished from the cold. From Hamburg comes the news that the lower Elbe is frozen over solid. Fleets of vessels are detained. Some which were provisioned for short voyages are frozen in and their crews are suffering for want of food. At the mouth of the river over twenty ships, unable to enter, are driven helplessly about by the strong northeast winds among the heavy floating ice. Great loss of life and property is feared. All the North German ports are blocked with ice and navigation is suspended.

THE DEAR PRINCE.

THE Princess of Wales is forty-nine years old and wears a number six shoe. THE Prince of Wales has a cabinet containing copies of every style of pho-tograph ever taken of himself.

THE private correspondence of the Prince of Wales is something enormous. He is said to receive four times as many letters a day as does the President of the United States.

PERHAPS it is not generally known that the Prince of Wales is a collector of dogs. He is very fond of the canine tribe, and, among others, possesses some dogs with black tongues. THE Sandringham parties given by the Prince of Wales are of two kinds.

Grave and reverend personages are in-

vited from Saturday until Monday,

When the Queen married it was seven o'clock. She now dines at nine. The Prince of Wales' effort to turning it back to half past seven is supplemented by an appeal for danc-ing to begin at nine, to be finished at

REFUSED HIS SEAT.

Governor Boyd, of Nebrasks, After Much Trouble, Is Sworn In, but Governor Thayer Refuses to Vacate Until Doubts About the Former's Eligibility Are Re-

LINCOLN, Neb., Jan. 9.—The joint ession of the Legislature for the purose of opening, convassing and publish ing the returns of the late election was held Wednesday, and for the greater part of the time the wildest anarchy eigned. The Alliance members had a clear majority, but the Democrats and Republicans were not willing to quietly lay down their hands, and a fight was made. The after-noon was spent in wrangling and nothing was accomplished, the Republican and Democratic members being able to keep the Alliance members from bringing the contest cases up in the canvass of the returns. When the joint convention met Speaker Elder, of the House, insisted that he was the proper presiding officer. Lieutenant-Governor Melklejohn, pre-siding officer of the Senate, however, took possession of the speaker's stand and announced that he was the proper presiding officer. This led to much confusion, and a recess was finally taken until morning. All the doors of the representative hall were closely guarded yes-

terday morning, and none but members of the Legislature, State officers and persons having busi-The ness inside were admitted. Alliance members had taken possession of the House at 5 o'clock in the morning. They placed the speaker in the chair and put a cordon of assistant sergeants-at-arms around him. Lieutenant-Governor Miekeljohn got in through the cloakroom and was served with an order of ejectment, but he defied the officer and was not taken into custody. Both sides had a force of sergeants at-arms within call, and any attempt on either side to proceed with the canvass would have precipitated a row. To

avoid this a committee from each party was sent with a statement of the case to the Supreme Court, and the House waited several hours in suspense for a decision as to which officer had the constitutional right to preside. Fifty sergeants-atarms were appointed and thousands of people besieged the doors. Governor Thayer called out the militia to suppress the disturbance at the State House. The Supreme Court issued a writ of mandamus compelling the speaker to canvass the returns. This is a point in favor of Governor-Elect Boyd. Sheriff McCloy served the writ on the speaker only after a pitched battle. He

was guarded by a squad of police and Captain Carder's clothes were torn off, but after smashing hats and heads with their clubs the officers secured an entrance and served the writ. Lieutenant-Governor Meikeljohn then declared the session adjourned, and Republicans and Democrats filed out of the house. Mr. Elder then called the Alliance members to order and directed the roll to be called. Mr. Elder called the eighteen Senators and fifty-five Repre

ders of the court. Nevertheless, Elder was declared the presiding officer of the joint session, and the Alliance men started to begin work. Governor Thayer tried to quiet the crowd, but with no effect. The militia cleared the State House grounds, but the people crowded by them every time they could and a howling mob sur-

sentatives of the Alliance to order as a

joint session, but Attorney-General

Leese advised them to submit to the or-

rounded the capitol. The proceedings at the afternoon Bession were less sensational than those of the morning. The mandamus of the Supreme Court sobered the radical Alliance men and a spirit of moderation was manifested. At 2 p. m. the Independents were in their seats, but transacted no business until the entire body was present and the Lieutenant-Governor appeared and called the convention to order. A number of conciliatory speeches were made, and the Independents, seeing that they could not gain their point by instituting their contest before the canvass of the vote, offered no further obstruction to busi-

The speaker of the House proceeded to open the returns and the Democratic candidate for Governor (Boyd) and the Republican State ticket, with that one exception, were found elected on the face of the returns. A resolution was then passed, receiving the full Alliance vote, declaring that the canvass had been conducted under protest and that the Legislature in nowise recognized the election of the officers who had been returned as receiving the highest number of votes. The officers, however, were sworn in promptly by Chief-Justice Cobb. The contest will now go on as prescribed by law. There is a prospect that the Legislature will unseat every one of the

new officers. Matters were further complicated Thursday night. At 8 o'clock Governorelect Boyd called on Governor Thayer and was informed that the latter would not give up the office on the ground that Boyd was not a citizen of the United States and was therefore not eligible. Governor Thayer has barricaded the executive office and remains inside with police and a committee of militia on guard. It is impossible to reach him to ascertain his purposes, but it is understood that he will remain Governor if possible until all questions affecting his successor are

Thousands Died of Small-Pox. PANAMA, Jan. 9.—By advices from Guatemala it appears that the epidemic of small-pox which has ravaged several cities has abated. It has been the cause of over 20,000 deaths, according to the accounts in possession of the Government. There is now a demand on the part of the medical faculty for the establishment of compulsory vaccination. Nine Persons Fatally Burned.

Moscow, Jan. 9.—The Royal Hotel in this city was burned Thursday night. Nine persons were fatally burned during the fire. Among the victims was a Russian General. Six Victims of a Vendetta.

Sovernor Luce's Farewell Recommends tions to the Legislature-Governor Winans Makes Many Suggestions in His Inaugural Address:

Governor Luce's Message. At the cutset the Governor announce At the cutset the course the rould confine himself particularly to giving such information as four years of close and intimate relations with the affairs of State and institutions have enabled him to obtain, leaving the recommendations largely to his successor. He pointed with pride to the fact that the State for the first time in its history was rely free from debt and the last bond can

THE NEW ELECTION LAW. The New Election Law.

The Governor says: Every safeguard should be thrown around the voter to enable him to east his vote in accordance with his conscience and judgment. The Legislature of 1889 passed an act prescribing the manner of conducting elections in this State. It is believed that this law has been of value to the voter. The Superson Court has passed upon and confirmed its me Court has passed upon and confirmed its stitutionality. It is believed that the main features of the law meet with the approval of the people. It has certainly rendered the use of money at the polls more difficult and hazardous. Some slight amendments should be made to the act. The voter should be required to remain in the booth at least one minute. Some provisions should be made for more rapidly canvassing the ballots.

TEMPERANCE LEGISLATION. What is known as the local option law has been declared by the Supreme Court constitutional. No amendments to this act are required. It furnishes counties, who so desire, opportunity to prohibit the manufacture sale within their jurisdiction. Another law was passed increasing the tax upon the sale of malt or brewed liquors from 8300 to \$500, making the tax the same as upon spirituous liquors. A mistake was made in enrolling the bilt, and certain provisions were ed, and for this reason the entire act was declared unconstitutional by the Supreme Court. I urge upon your attention the propriety of re-enacting the provisions that should have been enrolled in the law of 1889.

INCORPORATION LAW. A general law for the incorporation of cities illages and for amending their charters is urged, as much valuable time is lost by the Legislature in attending to such cases. BUILDING AND LOAN ASSOCIATIONS.

The same rule of taxation should prevail in the cases of building and loan associations doing business of a banking nature as is provided for the taxation of bank stock, and the Governor tax these associations and have them all placed under the examination of the Bank Commissioner of the State.

DELINQUENT TAXES.

In the collection of delinquent taxes on lands returned to the county treasurer a change is recommended, that the sale be made directly to the county treasurer. He urged the prosecution of the swamp-land cases, and compli-mented highly the commission of the Gettysburg Monument Association.

LAND TITLE CONTROVERSY. The questions in controversy to the title to some of the swamp lands between the general and State governments have not, as yet, been adjusted. The bill is still pending in the House of Representatives which provides for refunding to the State \$1.25 per acre for all the lands that were withheld from patent by the general ernment that the courts have so generally decided belonged to the State.

WORLD'S COLUMBIAN EXPOSITION. He suggests that the Governor be authorized appoint four commissioners to take charge of the several exhibits in their special lines, one to represent agricultyre, another the manufacteducational interests of the State. GRAND ARMY OF THE REPUBLIC.

zens of the State the next Grand Army encampment will be held in Detroit, in August, 1891. The Legislature will be asked to appropriate \$50,000 from the State treasury as a contribution to the expenses, which are estimated STATE SCHOOLS.

The many excellencies and world-wide reputation of the State University have brought to its halls a rapidly increasing number of students. Four years ago it numbered 1,580, but now it has under instruction 2,400; an increase of 50 per cent, in four years. The regents ask of \$197,525. This is \$9,246 less than the appropriations two years ago.

The Normal School is in excellent condition. It will require no special appropriation except for current expenses and repairs. An appropriation of \$90,920 is asked for the biennial pe-

Early last spring the botanical laboratory connected with the Agricultural College was destroyed by fire, with nearly all its contents. The Board of Agriculture ask for an appropriation of \$10,000 to rebuild the laboratory. Including this they ask a total appropriation of \$52,620

The Mining School directors ask for an appropriation of \$98,900 for 1891 and \$37,700 for 802, making a total of \$136,600, for construction, equipment and current expenses. Both the School for the Blind and the School

The State public school asks for \$35,000 for 1991, and \$34,608 for 1892, for current expenses. The reform school is in good condition. The Industrial Home for Girls asks for an appropriation of \$73,694 for current expenses for the next two years.

THE SOLDIERS' HOME. The Soldiers' Home Board ask for an appropriation of \$177,000 for the biennial period. Nearly all of this is for current expenses, with an added amount for still further fitting the grounds. Under the present law we are now receiving at the rate of \$100 each for each sol-

PRISONS AND ASYLUMS. The State prison is well managed, and the four insane asylums have a population of 2,840, about twice as many as were in the asylums ten years ago. The institutions are full and ore room is required.

RAILWAYS. Our railroads are fairly presperous; their earnings, as reported by the Commissioner of Railroads, are increasing every year.

Nonew State institutions have been established during the last four years. But the Legislature of 1885 established three, and two of these have been paid for, and almost entirely during that time; and large additions have been made to nearly all of the State institutions. And while for four years there has been no increase in State taxation, yet for the term of ten years there has been a tendency in that direction, not only in this State, but others. A graded income tax is advocated by some who seek to relieve property from the burdens of taxation. The suggestion is worthy of consideration.

CLOSING WORDS. These closing words terminate my labors as overnor of the commonwealth. And while I can not sever the ties that have bound me to so many people and institutions without a pang a the parting, yet I cheerfully and gladly pass over to another the cares, duties, responsibililes and anxieties connected with this important position. I now go out into private life with love for my adopted State unimpaired, with my faith in her future grandeur and glory con-firmed. CYRUS G. LUCE.

Governor Winans' Inaugural Message.

The following is a synopsis of Governor Winans' inaugural message.

He recommends to the Legislature the conclusions and suggestions made in his predeces STATE INSTITUTIONS.

He had visited the State prison, the State University, the State Normal School, the chool for the Deaf, and the Eastern Asylum, il of which seem to be in admirable condition. "The growth of our institutions is vigorous, and their wants beyond their means. The question will be, not how much could they question will be, not how much could they use, but how much can you grant. Most of them could make good use of more than they ask, but I feel sure that the various estimates have been made in the spirit of economy, and in view of the popular feeling against increased public expenditures." The request of the Regents of the University is for \$18,000 less than was then granted, yet the needs of the University, owing to its largely increased attendance, are necessarily greater, and mere them to lift their heads, and look at

lendance, are necessarily greater, and more room and accommodations are required.

The State Board of Education estimates its needs at \$104,960 for the next two years, as against \$102,150 for the past two years. While there is an increase of students the Governor thinks its efficiency can be maintained without additional cost.

In view of the public demand that taxatic

While the appropriation asked for (552,690) for the Agricultural College, does not seem a large sum for so important a school, the college has the Agricultural College, does not seem a large sum for so important a school, the college has a substantial endowment fund, and if the board can, without injury to the college, prune their estimates, the farmers will appreciate the effect upon their taxes. Inability had brevented the Governor's visiting the other State institutions; but their interests were commended to the committees. The cottage system for asylums for the insine is recommended. More room is imperative and this system will be far more economical than the multiplication of separate institutions. Prisons and reformatories were briefly considered. The Governor believed the controlling power should be placed in the hands of a non-partisan board, who should appoint the wardens and have general supervision of the institution.

Of the election law, the Governor said all agreed as to the desirability of ballot reform. A practical test of the present law had shown A practical test of the present law and the that some amendments were needed to render it entirely efficient and satisfactory; and the following suggestions were offered: "1, let the following suggestions were offered: "i, let the following suggestions were offered: "i, let the distribution or using of ballots outside the booths be prohibited under the severest penalties; 3, let the ballots be printed by the county clerks under the supervision of the party com-mittees, and be delivered by the county clerks to the inspectors of elections. Let the ballot be paid for by the State in all State election and by the townships and cities in the munici-pal elections. The Australian system of voting was favored.

WAGON ROADS. A change in the laws relating to the highways of the State is recommended; a large amount of labor and money is annually wasted in road building and the establishment of a general system of road making which would gradually if slowly result in permanent good roads throughout the State would be a wise

and beneficent reform. TAXATION.

The subject of taxation was dealt with at considerable length. The Governor is in favor of a thorough revision of the system of taxation for the purpose of equalizing the assessment on the two classes of property, that subject to specific tax and that subject to local taxation. Every industry, business and property interest should bear its just share of the burden of taxation, but, under our present system, that vast amount of property which pays a specific tax pays at least one-half less in proportion to its value than the property subject to direct and local taxation, thus adding to the burden of those least able to pay and favoring the corporate wealth of our State.

Another just cause of complaint is that much property is now exempt from taxation that ought not to escape. There seems to be no good reason why property owned and used by railroad, mining, telegraph and telephone companies and other associations for private pur poses should be exempt from general taxation He doubts the policy of exempting any property from equal taxation.

Many who have given thought to the subject favor a return to the county system for the col-lection of delinquent taxes. The Governor believes it would be less expensive and more efficient than the present system, which is in his opinion cumbersome and costly. Special attention is called to the feature of

axation of real estate where there is a mort gage encumbrance, and the Governor says: 'Justice to the owner of the real estate forbids levying a tax on a larger interest than he may have in the land, yet, for various reasons, it may be difficult to ascertain his exact interest. All agree that the mortgage is evidence of property and should be taxed. Mortgagor and mortgagee should, between them, pay taxes on the full value of the property California has a statute under which the full tax may be paid by the owner of the land, and such proportion of the tax so paid as the indebtedness bears to the assessed value becomes a legal set-off against the mortgage. As our law stands, the owner of the land pays tax on the full value, be his real interest great or small, while the mortgagee, who is usually uring, another the mining, and another the the better able to pay, either escapes taxation or pays another tax on the same property. If the mortgagee is a non resident of the State Through a great effort of many leading citi- he pays no tax, which is a discrimination against our own people

He further says: "I consider this question of taxation the most important with which you have to deal. Nearly all questions would be easy of solution if the cost was not to be considered, but every move costs money, and in the end the people must pay. The time has come when our people demand that unnecessary taxation must cease. State taxes must not increase. Let every request for public aid be sternly denied unless it can be shown that the money is needed for public pur-

STATE BOARDS. He believed the public interest would be better served by abolishing many of the State Boards. They were expensive, and many of them could be disposed of by transferring the work to other departments. The offices of Insurance Policy Commissioner and State Game and Fish Warden he also suggests discontinued, and in the latter case recommends that the law be so amended that the constables, sheriffs and deputy sheriffs of the counties be specially intrusted with its enforcement, such officers to receive the same fees that are al owed them in other criminal matters.

WORLD'S COLUMBIAN EXPOSITION. "The World's Columbian Exposition, to be held in a neighboring city, will be an event of great interest to the world at large, and paricularly to the citizens of the United States. The Federal Government has liberally aided in providing the funds needed by the management, and Michigan is honored in the selection of one of her most esteemed citizens as president of

the world's fair commission. "Our importance as a State, and the great variety and abundance of our products and resources, suggest the propriety of our being represented at the world's fair by an adequate exhibit, and you will doubtless be asked to appropriate funds for that purpose. It will be for you to decide what will be for the interest of the State in this matter.

CONCLUSION. "Let us bear in mind, in all our official acts, that we are exercising delegated authority and are sent here to enact the popular will. Pubhe sentiment plainly indicates that our people will no longer patiently submit to the steady increase of public expenditures which has con-tinued through the past twenty-five years. They demand economical administration of public affairs. They demand the abolition of every unnecessary office. They demand that all who enjoy the protection of our laws shall contribute to the cost in just proportion to their

means.
"Our fidelity to the interests and rights of
the masses will be the measure of our success.
If we give to our public duties the care and
zeal we give to our own affairs, the people will be quick to see and approve.
'I assure you of my carnest desire to co-operate with you to the extent of my power in expediting your work and promoting the public

good.
"A business session, short and economical, will command popular approval."
EDWARD B. WINANS.

OVER SIX FEET. Men of Great Height Are Always Glad to

Meet. Great stature, like exalted station, produces a kind of loneliness. Giants as well as kings must enjoy meeting now and then an equal. This is the point of a little anecdote, or incident,

which comes from New York. The other day, a man about six feet four in height entered an elevator where another giant of similar proportions stood fanning himself with complacency. The two men looked one another over with entire frankness, and

then the first said: "You must be pretty well above three inches."

"Six, four," said the other, laconical-

ly. "I'm just a shade under it," said the first man, with great solemnity. Then he stepped out of the elevator, leaving the other giant standing there with a

them to lift their heads, and look a him in a level way, the effect is almost

startling. "A little chat about unusual height follows as a matter of course," continned the giant. "Big men are proverbi ally good-natured, you know. You have no idea how rare an experience it be lowered the Governor thinks the material interest of the School for the Deaf, whose work is commended, need not suffer if their request for increased appropriation be not fully granted, height."—Youth's Companion.

MICHIGAN STATE NEWS.

Michigan Railway Earnings. The earnings of the Michigan railways for the month of October aggregated \$8,061,205, an increase of \$40,119 over the corresponding highly last year. This was the smallest monthly increase in five years. The total carnings from January 1 to November 1 Were \$77,446; 304, an increase for the period of \$7,286,582, of 10.38 per cent: All of the companies, except six of the larger ones, showed slight increases in total earnings, the latter showing a decrease in freight. Passenger earnings were increasing on nearly all roads.

Health in Michigan. Reports to the State Board of Health by fifty-eight observers in different parts of the State for the week ended January 3 indicated that cholera infantum, inflammation of the bowels, scarlet fever, malarial fever, measles; diphtheria and typhoid fever increased, and inflammation of the kidneys and whooping cough decreased in area of

prevalence. Diphtheria was reported at twenty-eight places, scarlet fever at thirty-five, typhoid fever at fourteen and measles at sixteen places.

Slid Into the Lake. A half acre of ground and \$40,000 worth of buildings slid off the earth at Iron Mountain and into the lake and quicksand the other night. Parts of the buildings were carried fifty feet. Fortunately the occupants were forewarned, and no lives were lost. The bluffs are underlaid with quicksand, which is frequently carried out by springs, causing acres every year to move into the lake where the shore is not protected.

Knights of the Grip. The Michigan Brigade, Knights of the Grip, held its annual convention at Kalamazoo. A beneficial feature was incorporated in the organization, it being the intention to pay \$500 on the death of a member. The dues were also slightly raised. The officers elected were: George E. Bardeen, of Kalamazoo, President; J. L. McCauley, of Detroit, Secretary; George C. Cooper, of Lansing, Treasurer.

An Old Firm Dissolved. The wholesale dry-goods firm in Detroit of Allan Sheldon & Co., founded nearly half a century ago by Zachariah Chandler, has ceased to exist, having been dissolved by mutual consent. It was in 1833 that Mr. Chandler laid the foundation of the firm which has flourished through many stages of commercial life to die a natural death by the mutual consent of the partners.

A Bloody Record. Linwood, a little station above Bay City, has a most bloody record. William Mitchie, nine years ago, was killed by a man named Parent, now in prison for life: John Lalone cut Archibald Hule to death three years later; recently Robert Smith shot his brother dead, and this is the hamlet where a mutilated corpse was found hanging in a barn by Bay City officials.

Filled Him with Lead.

Mike Downey, a young man from Saginaw, was shot and instantly killed at Ewen, Ontonagon County, by Joe Thomas. The murderer fired five shots into his victim's body and then fled to the woods. Thomas was finally captured by Sheriff Ferd, who, fearing a lynching, run his prisoner out of the place by hand-car to the county seat.

The Beekeepers. At the twenty-fifth annual meeting of the Michigan Beckeepers' Association held in Detroit the following officers were chosen for the ensuing year: Senator R. L. Taylor, of Lapeer, President;

M. H. Hunt, of Bell Branch, Wayne County, First Vice-President; W. Z. Hutchinson, of Flint, Second Vice-President; George E. Hilton, of Fremont, Secretary, and Dr. A. B. Mason, of Auburndale, O., Treasurer.

Michigan Masonic Home. At the fourth annual meeting of the directors of the Michigan Masonic Home in Grand Rapids the election of officers resulted as follows: President, William L. Dunham; Vice-Presi-

dent, R. D. Swartout; Secretary, General W P. Innes; Treasurer, Jacob Barth; Directors, Ed D. Benedict, Herman N. Moore, Samuel E. Watson, Thomas D. Bradfield, Thomas W Strohan, W. C. Dennison.

Capture of an Escaped Burglar. Tom Burns, alias Jim Sanders, a notorious burglar, who, with five other prisoners, escaped from the jail at Kalamazoo in October, was arrested in Milwaukee and returned to the Michigan authorities. When he escaped Burns was awaiting trial for an extensive silk robbery on the Grand Trunk railway.

Plenty of Game. Game Warden Smith, whose term expires next March, has resigned. During three years there have been 726 arrests for breaking game and fish laws and 564 convictions. The warden says game is rapidly increasing in the State, with a large supply of quail, partridge and duck, and that deer are

multiplying. Short but Newsy Items. Oil-bearing rock has been found at

Gladstone. P. S. Whipple and wife, of Plymouth, celebrated their golden wedding. John Powell left Traverse City for his home at Cedar Run. The team ran away, throwing him out on the frozen ground and killing him.

Antrim County is so moral that it is now in the second year since a jury trial has been held.

The golden wedding of Rev. and Mrs. W. D. Tomkinson was celebrated at Kalamazoo.

Property valued at \$624,206 was destroyed by fire in Detroit during the 7ear 1890. Rev. F. R. Bunker and Belle Rich-

ards were married at Kalamazoo. The newly-married couple had just been consecrated to engage in twelve years' work in Central Africa as missionaries. Williamston has for some time been infested with a gang of petty thieves The officers arrested Adelbert Glasbrook and John Jeffers, as well as Mrs. Coreyell, who took care of the goods after the boys had stolen them.

At Grand Rapids the Peninsula Furniture Company filed mortgages on its property amounting to \$30,000 to secure John Powel left Tawas City for his

ground and killing him. The Norton Manufacturing Company,

MICHIGAN LEGISLATURE.

LANSING, Mich., Jan. 8.—The Senate organ ized yesterday by electing Chauncey W. Wis-ner, of Baginaw, president pro tem.; Alfred J. Murphy, of Detroit. secretary: John Andrews, of Huron, sergeant at-arms; V. W. Bruce, of Big Rapids, engrossing and enrolling clerk. The Lieutenant-Governor was authorized to sipoint the keeper of the cleak room and buges.

biges.

Linistro, Mich., Jan. 8.—The Democrats or ganized the House by electing P. H. Wachtel, of Petoskey, as specified I. A. Brant, of Detoit, as cierk, and William F. Preston, of Mackinac, as sergeant at arms, and E. M. Howkins, of Genesee, as enfolling and engressing cierk. The speaker was authorized to appoint the pages, janttors and janitress, the door-liceper and keeper of the document room; the cierk to appoint his three assistant clerks, the clerk to appoint his three assistant clerks, the sergeant at-arms his accordants and the curolling clerk his assistants. LANSING, Mich., Jan. 9.—Both houses yester

day listened to the reading of the messages of

Governor Luce and Governor Winans. The

former amounced that the bonded indebted-ness of the State had been entirely paid off. though the State was still in the acts of the trust funds. He indorsed the finishing law passed by the last Legislature, but suggested some direndments in the way of improvement. He indorsed the local option bill passed in 1889, and urged the recognition. if 1889, and urged the re-endetment of the provisions left out in error of the enrolling Sterk. In regard to the world's fair, Governor Luce suggested that the Governor be empowered to appoint fair commissioners to look after the State exhibit, and that ample appropriation be made to carry on the work. Edwin B. Winans, the in coming Governor, in his message, commended to the careful consideration of the Legislature the recommendations of his predecessor. He commended the new election law, but urged the adoption of amendments applying the law to all elections. He urged care and economy i appropriations and a revision of the system of State taxation. He recommended an adequate appropriation for the Michigan representation at the world's fair, and closed with a recommendation for a short and economical business session of the Legislature.

THE CENSUS PAY-ROLLS. Figuring Up the Cost of Taking the Re

cent Enumeration. WASHINGTON, Jan. 8 .- Disbursing Of ficer Stoddard of the Census Bureau is glancing over his figures in order to give Superintendent Porter some data as to what the census would cost and how many people were engaged in getting it up. The books show that 2,116 people are on the census pay-rolls here in Washington, and they draw \$155,000 monthly. Of these fully 1,000 are women who receive from \$50 a month to \$1,600 a year. It took 48,000 enumerators to gather the census figures and their returns were made to 175 State The total number of people, therefore, who have been at work taking the census at one time is about 55,000, the population of a good-sized town, including men, women and children. The total cost of the census up to December 31 was \$4,810,152. The pay-roll for last month alone was \$650,-933. Thus far the enumerators scattered around the country have drawn about \$2,000,000. The points will be given to Mr. Porter, who will get them into shape, thus finding the cost of the census. GLASSWARE MEN COMBINE.

Nineteen Factories in Ohio, Pennsylvania

and West Virginia Join Hands. MARTIN'S FERRY, O., Jan. 9 .- A combine has been formed by nineteen of the leading manufacturers of glass tableware in Ohio, Pennsylvania and West Virginia. The present management of each factory will continue control of their respective works, but an executive board will meet regularly and look after the interests of all concerned. The number of men employed by the nineteen factories is over 8,000 and the aggregate weekly pay-roll is \$200,000. Among the factories in the deal are the following: The Rochester (Pa.) tumbler works, employing 700 hands; the Hobbs Glass Company, Wheeling, W. Va., 350 hands; the Riverside Company, Wellsburg, W. Va., 250 hands; Adams & Co., 400 hands; Ripley & Co., 350 hands; Duncan & Co., 300 hands; King, Son & Co., 325 hands; Brice Bros. & Co., 400 hands, and Brice & Hegbee, 200 hands, all of Pittsburgh; Beatty Bros., Tiffin, O., 600 hands; Bellaire Goblet Company, 400 hands, and the Columbia Glass Company, 300 hands, both at Findlay, O.; the Nickel Plate Glass Company, 350 hands, and the Fostoria Glass Company, 400 hands, both of Fostoria, O.; the Greensburg Glass Company, Greensburg, Pa., 300 hands; the Libble Glass Company, Toledo, O.,

SNOW IN THE WEST. Serious Interference with Railway Traffic in Kansas.

KANSAS CITY, Mo., Jan. 9.-Complete reports from fifty Kansas towns show that the severest storm of many years is raging in the Sunflower State. All of the incoming trains are late, and those that have arrived bring reports of a great blizzard sweeping the State and cutting the wires. From Junction City westward the cold is intense and is increasing momentarily. Weather reports in the general manager's office of the Union Pacific railroad state that the storm is general as far west as Ellis, Kan. This is 300 miles west of Kansas City.

Revolution in Chill.

London, Jan. 9.—Cable messages received here from Buenos Ayres announce that a revolution has broken out in Chili.

The revolution in Chili is the result of the long struggle between President Balmazada on the one hand and the majority of Congress on the other. It has been feared that the President would throw the influence of the Government into the Presidential election this year. and thus secure the succession of the Presidency of one of his own creatures. he himself being ineligible. Congress has repeatedly demanded the resignation or dismissal of obnoxious ministers; but the President has refused to

PROGRESS IN SCIENCE.

THERE has been made a list of two hundred and ten birds which inhabit THE weight of a crowd of men closely

packed is about eighty-four pounds per superficial foot. THE Smithsonian Institution is about to issue a publication showing the coming extinction of many valuable animals

in a few years. PAPER or other fibrous forms of cellulose passed through a bath of nitrie acid and then washed becomes celluvert, a new material of great toughness. THE museum of the St. Petersburg

University has received the remains of a mammoth found in Siberia last summer about a mile from the military station of Krassniy-Yar, on the coast of home at Cedar Run, and his team ran the river Lomovata. Among them is a away, throwing him on the frozen tooth perfectly preserved weighing PHOTOGRAPHS for determining the mo-

tions of moving animals and flying birds are now taken on a traveling In Detroit during the year 1890 permits were issued for the construction of intermittent flashes of light, and the movement of the paper in the focus of the total estimated cost of the improvements being \$5,871,480.

INFORMATION ABOUT WESTERN

Owing to the world-wide interest now taken in the fertile provinces of Western Canada, many of our readers are anxious to know more about the lands, climate, resources and chances open to intending settlers in the Canadian Country. The reputation of these prairie lands has been fairly earned by their enormous yields and natural adaptability to mixed and dairy farming, for they are unrivaled in productiveness.

At the close of 1890 a handsomely il lustrated and neatly printed set of pamphlets was issued, fully describing the country from the Eastern portion of Manitoba to the Pacific Ocean. These have been carefully compiled by som petent men, from the most reliable sources, and besides containing a vas amount of useful information put in most readable shape, they contain a great number of letters from actual residents in the country, -telling plainly what has been done. Furnished with maps and nicely illustrated they are well worth securing as books of refer-

Copies of one, or all of them, will be mailed free of charge to any address, if application is made to L. A. Hamilton, Winnipeg, Manitoba; or to J. F. Lee, 232 South Clark St., Chicago, Ill.; or to C. S. Sheehy, 11 Fort St. West, Detroit, Michigan.

Office of Hahn, Hoopes & Co., Muscatine, Iowa, Aug. 8th, 1890.

Dr. A. T. SHALLENBERGER,
Rochester, Pa. Dear Str:—Thirty
years ago I was a great sufferer from Malaria, until I found your Antidote and was
immediately cured. I went south to live,
and recommended the medicine to every sufferer I met, always guaranteeing a cure supervisors, who employed 700 clerks. and without a failure. Sometime ago I re-turned to Muscatine and have been check full of Malaria ever since. The doctors fed me on quinine until I was nearly deaf and blind. I took one hundred and sixty grain without breaking the chills, when, remem-bering the Antidote, I sent to the drug store and got a bottle. One dose did the business, and I will never be without the medicine. No more quinine for me. Respectfully yours, J. C. SHIPLET.

A STRUGGLE WITH DIRT Goes on in civilized society from the cradle to the grave. Dirt is degradation-and degradation is destruction. Women, especially, are judged by their habits of household cleanliness, and no stronger condemnation can be expressed than "she keeps a dirty house and a filthy kitchen." But the struggle with dirt is often unequal. The woman's weakness or the worthlessness of the soaps she uses make it impossible to overcome the demon of dirt. By the use of SAPOLIO she wins easily.
