Russia is pushing forward that great railroad enterprise, the Siberian railroad, and it is to be completed in two or three years. A writer familiar with the country says it will be seven thousand miles in length, and the eastern terminus will be but five days from Japan. It will give Russia the trade of Japan and China with Europe and enable it to compete with the Pacific roads of America for the traffic now derived from China, especially in the carriage of tea, which loses its best quality by sea transportation.

THERE is a tradition among watchmakers all over the world that prior to the year 1370 all clocks and watches were made with IV., the proper characters to mark 4 o'clock. In that year a clock was made for Charles V., of France, who was not only a crank, but a great fault-finder. The clock was a beauty, but Charles had to find fault. He examined it critically and finally broke out in a storm of rage because the hour 4 had been marked "IV.," insisting that IIII's should be put on instead. This was done, and in order to perpetuate a king's mistake has been kept up ever since.

CONSTERNATION has been occasioned among the vegetarians by a declaration of leading Philadelphia physicians that tomatoes are a hurtful diet. The specification of ills derivative from this luscious fruit includes injury to the walls of the stomach, interference with the action of the salivary glands, and a generally impaired digestion. It will be remembered that this view is a repetition of the early prejudices which assailed the "Jerusalem apple," as the tomato was first called. The tomato survived its early persecution, and if any vegetable can resist this second on-slaught the tomato can.

he had only a few SENATOR HEARST. hours to live. But Senator Hearst held on with the grim determination that marked everything in his career. His death will change the political complexion of the senate, for the remaining two years of his term will be served out by a republican. SAN FRANCISCO, March 2.—The death

of Senator Hearst will infuse life into the state legislature, which has the election of his successor. There are three prominent candidates: M. M. Estee, who was chairman of the last republican national convention; M. H. De Young, proprietor of the Chronicle and a member of the national world's fair committee, and Charles N. Felton, ex-congressman from California. Each has a strong following and the struggle will be lively. The legislature is overwhelmingly republican, so there is no chance for a democratic successor to Hearst. The death makes his son, W. R. Hearst, the richest newspaper proprietor of the country. It is said young Hearst will have complete control of the bulk of the senator's estate of \$20,-000,000, and that he will at once set about the establishment of a daily newspaper in New York, as he regards 'Frisco as too small a field. [George Hearst was born in Franklin county

Mo.. September, 3, 1820. His father had gone to that state from North Carolina in 1819. The son received only such a limited education as the common schools afforded in that day. He worked on his father's farm until 1850, when he caught the gold fever and went to California For several years he was a miner and prospector, and subsequently, by location and purchase, he became the owner of valuable mining interests and a large employer, having at one time as many as 2,000 men at work i his mines alone and operating quartz mills that crushed 1,000 tons of ore per day. The increase of his wealth was steady and rapid and for some years past his income has been something like \$1,000 per day. He has been for a long time chief partner in the extensive mining firm of Hearst, Huggin, Lewis & Co. He owned about 40,000 acres of land in San Luis Obispo county, Cal., a ranch of 160,000 acres of grazing land in old Mexico, stocked with a very large herd of cattle, and a fine stable of thoroughbred horses. He was also interested in a large tract of land near Vera Cruz and in railroad building in Mexico His fortune at the time of his death was estimated at \$20,000,000. Mr. Hearst's politica life began in 1865, when he was elected to the California legislature and served one term. In 1883 he was a can-didate before the democratic state convention at San Jose, Cal., for the nomination for governor, but was defeated by Gen. George Stoneman. The latter was elected governor, and when, by the death of United States Senator John F. Miller in 1885, the power of appointing a senator was given t him, he appointed his former opponent for the gubernatorial nomination, Mr. Hearst. The latter was re-elected in 1887 by the Califor nia legislature, which was then democratic and his term would have expired in 1893, His death gives the republicans, in their turn, the same advantage which the death of Senator Miller gave the democrats. While in the senate Mr. Hearst was a man of action rather than of words. He tool but little part in the debates, as he had a weak voice, but when he did address the senate his speeches were always brief and pointed. Sens tor Hearst leaves a widow and but one child

Closing Session of the National Association at Washington.

WASHINGTON, March 2 .- At the closing session of the Woman's National Suffragist association on Saturday the principal paper was one by Henry B. Blackwell, of Massachusetts, on "The Adoption of an Amendment to the Constitution Giving Women -the Right to Vote." Dr. Frances Dickinson, of Chicago, made a report from the platform committee, and papers were read by Emma Smith De Voe, of South Dakota, on "The Moral and Political Emergency," and by Alice J. Pickler on "The South Dakota Campaign." Miss Anthony read the report of the congressional committee and was followed by a number of state presidents.

Resolutions were adopted recommending conventions during the coming year in every southern capital; asking congress for a constitutional amendment abolishing all political distinctions on account of sex; to petition every state legislature for municipal and presidential woman suffrage by statute; to support any state which engages in a struggle for equal suffrage by methods approved by this association; to urge the appointment of women as physicians, matrons and managers in all penal, reformatory and other public institutions containing women or children as inmates; demanding that women and men should be equally represented on school boards; urging each state suffrage society to petition its legislature for a thorough revision of the marriage relation, so as to secure to wives and husbands equal personal and property rights, to mothers and fathers an equal right to their children and to widows and widowers an equal inheritance of property.

He is a native of New Hampshire, 56 years of age, and a lawyer by profession. He was lieutenant colonel of the Fifteenth New Hampshire regiment during the civil war, and was twice elected to the state legislature before he entered congress. The nomination of Senator Blair was

well received at the capitol. As soon as it became known on the floor of the senate he was surrounded by a large crowd of senators and kept on his feet for half an hour receiving congratulations. Senator Blair received a national reputation as the author of the educational bill named after him and his advocacy of national prohibition and various labor measures. The senate in secret session con-

firmed the nomination of Henry W. Blair as minister to China.

CASH FOR PENSIONERS. Warrants Issued for the Payment of

Nearly \$20,000,000. WASHINGTON, Feb. 28.-Acting Secre tary Nettleton has issued warrants for the payment of nearly \$20,000,000 on account of pensions. The amount was distributed among the different agencies as follows: Augusta, Me, \$750,000; Boston, \$1,500,000; Columbus, O., \$3,-250,000; Concord, N. H., \$750,000; Des Moines, Ia., \$1,600,000; Troy, \$1,500,000; Indianapolis, \$2,550,000; Knoxville, \$1,300,000; Louisville, \$1,000,000; Milwaukee, \$1,550,000; Kansas City, \$2,450,-000: San Francisco, \$400,000, making in all\$18,600,000, in addition to which \$758,-000 was paid out on account of naval pensions. The requirements for pensions for the quarter ending March 4 next are about \$31,000,000. Including these disbursements a little over \$21, 000,000 has already been applied to that purpose, leaving nearly \$10,000,000 to be met between now and next Thursday. The available cash balance in the treasury, as stated by the treasurer, is

Cleveland Will Have to Elect a New Municipal Government. CLEVELAND, O., March 2 .- The municipal reform bill that became a law on Thursday wipes out the whole city government at one stroke except the board of education, which will be reached by another bill. The water-works, police, fire, parks, infirmary, cemetery and ten lesser boards were killed outright, the council, which had another year to serve, being reprieved until April 6, the terms of the mayor, police judge, public prosecutor and treasurer, the only executive and judicial officers hereafter to be elected, expiring by limitation on that day. An entirely new city government will thus have to be elected on April 6, including a council of twenty member, ten for one and ten for two years, and the political contest will be the most exciting ever experienced in the city. The new mayor will appoint a director for each of the now headless departments heretofore

Sherman have searched everywhere through the general's private desks and papers and all efforts to find the will have been futile. It is believed that he did not make any. The general was not a man of large wealth, having little, if any, real estate, and his pension as retiring general of the United States army is believed to have been his only source of income. His personal estate is not large, but he possessed many war relics and curios. If on further search no will appears application will be made for letters of administration on his estate.

MICHIGAN LEGISLATURE.

LANSING, Mich., Feb. 25 .- There have been in the senate fifteen democrats, fourteen re-publicans and three patrons of industry. Seats of two republican senators were contested by democrats and committees have taken testi-mony on the subject. The farmer senators have alternated their votes between both parties and have been able to throw the majority in either direction. Yesterday, during the absence of the eleven republican senators at the state convention at Jackson, the democrats called up the contested election cases and by a vote of 14 to 6 unseated the republican members and seated the democratic contestants. The six voting no were the three republicans and three patrons of industry. The new democratic members seated are Morrow in place of Horton, and Friedlander in place of Morse.

LANSING, Mich., Feb. 28.-The republican senators made an effort yesterday to rescind the action of the senate in unseating Senators Horton and Morse while most of the republic ans were absent at their state convention. The ocrats, however, had summoned Morrow and Fridlender, the two contestants, and sworn them in and placed their names on the roll-call. The two new members occupied seats in the hall and voted on every motion, thus giving the democrats a majority and enabling them to table all the protests and affidavits presented by the republicans.

LANSING, Mich., Feb. 27,-Bills were introluced in the senate yesterday: Authorizing sheriffs to act as game and fish wardens; to prevent fraud in elections; to amend law relative o trust, deposit and security companies; making election day a legal holiday; providing for a site for governor's residence in city of Lansing; making an appropriation for erection of new buildings at the mining school; abolishing board of school examiners in each county; for a tax upon fishermen. business was transacted. LANSING, Mich., Feb. 26.- The majority report of the Coldwater school committee was made to the house yesterday. The report says that the general management of the school is above criticism, but .there have been a number of cases of gross carelessness in sending out children. In this respect both Superintendent Newkirk and the board of control have been dereliet in their duty, "Had Newkirk observed the plain requirements of the law Nellie Griffin would not have met her fate." The committee believes that for the negligent management in this respect the members of the board of control should be censured and Superintendent Newkirk for his gross carelessness be removed.

LANSING, Mich., Feb. 27 .- In the house yesterday the minority report of the committee on the state public school, the institution from which Nellie Griffin was indentured to an unknown man, by whom she was carried to Eaton county and murdered, was made, The committee found the internal management of the school to be excellent. It excuses the action of Supt. Newkirk in letting the girl go on the ground that the murderer, Canfield, had practiced an imposition which was not detected by the county agent. Bills were in troduced for death penalty by electrocution: to repeal certain sections of the liquor law; amending law relative to registration births, deaths and marriages; to provide for the apportionment of congressional representative districts; to reincorporate the village of Howell; to divide state into thirty-two senatorial districts; to organize the county of Winans: to merge the offices of game warden and fish commissioner into one; abolish state board of health and transfer the business to the secretary of state; to prevent criminal surgery; to provide for a state board of prison inspectors; to incorporate village of Watervliet; to create office of dairy and food commission; to allow the catching of fish in any streams supplied with fish by state; to compel saloon keepers to iting the sale and use of playing cards, obtain permit of county in which they wish to and making the second offense punish- engage in business; making appropriations for able by a fine of from \$5 to \$10 and im- a horticultural exhibit at the world's fair; to prisonment for not more than thirty incorporate the village of Clare; making an apays. STRUNG UP INSENSIBLE.

Awful Scenes Attendant Upon the Execution of William West, at Washington, Pa.-Hanged While Unconscious from a Self-Inflicted Stab.

West, the condemned murderer, did not go to sleep until 4 o'clock a. m., Thurs- the following is taken: day but slept until 7:30. All night he talked about the murder, but denied his guilt. At 8:30 o'clock, while the death-watchers were changing. West secured a small piece of iron conin the neck. He was rendered unconscious. Physicians were immediately called in, but were unable to restore consciousness. Up to 2:30 p. m., when he was hanged, his condition had not greatly changed. He was strapped to a board and carried to the scaffold. At 2:33 the trap was sprung and the rope broke. The murderer was in terrible distress, and it took five men to hold him though manacled. At 2:40 the rope was strung up again and this time it was successful. At 2:47 West was pro-nounced dead. The hanging and the horrible occurrences connected with it created great excitement. West's crime was the murder of John Crouch, his wife and son at Bentleyville on May 13,

FIGHTING IN INDIA.

British Defeat Burmese After Desperate

Skirmishes and Some English Losses. CALCUTTA, Feb. 26.-Advices from Rangoon report conflicts between the British and the natives with sharp fighting. Wuntho, which had been seized by the Burmese, had been captured by the forces under Maj. Smythe's command, very little opposition being offered. A more serious encounter occurred at Okpho, where the Burmese rebels were routed with a loss of fifty killed. Their guns and ammunition were also captured by the British, whose casualties in the fight were three killed and ten wounded.

Capt. Hutchinson reports that while advancing toward Kawline from You his column was confronted by a body of the enemy strongly entrenched in a stockade near Okham. An assault was ordered, and after five hours of desperate fighting the position was captured. Twenty-seven Burmese were killed and Capt. Hutchinson was severely wounded during the fight.

THE REPUBLICANS.

They Meet in State Convention and Make JACKSON, Mich., Feb. 26.-The repub lican state convention met in Assembly hall on Tuesday. Ex-Senator George A. Farr, of Ottawa, was chosen temporary presiding officer, and A. W. Smith, of Lenawee, temporary secretary. After the ap-

was made permanent chairman. The following nominations for justice of the supreme court were made: Victor H. Lane, of Adrian; Russell R. Pealer, of Kalamazoo; Robert M. Montgomery, of Grand Rapids; James G. Ramsdell, of Traverse City; Frank A. Hooker, of Charlotte. On the second ballot Robert M. Montgomery was nominated. Henry Howard, of Port Huron, and Peter W. Cook, of Corunna, were nominated for regents of the university.

The platform adopted is as follows: The republicans of Michigan, in convention issembled, in the city of Jackson, where thirtysix years ago, under the oaks, the great party of human liberty and equal rights was born looking backward over a period of unparalleled national and state prosperity, as the result of the supremacy of republican principles, do hereby adopt the following platform:

1. Resolved, That we believe in maintaining the integrity of the currency, and that silver and gold should be used as a money basis by the United States; and to accomplish this end all the American silver product should be received at its market value by the government, and legal tender silver certificates or silver coin should be issued therefor.

2. We believe in the purity of the ballot box, and that any abridgement of the right of suffrage is perilous to the safety of the nation and we demand the enactment of such national laws as shall protect every American citizen in the exercise of this sacred right. 3. The republicans of Michigan, believing in

the rule of the majority, demand that the

United States senate shall adopt such rules as

shall enable that body to reach a vote on any question after reasonable debate. 4. We hereby indorse the late revision of our national tariff laws, protecting producers, laborers and farmers against the ruinous competitions of foreign productions and cheaper labor, and especially commend those features of the law which provide for the protection of farm products as well as manufactured articles; and we cordially approve of the reciprocity provisions therein contained, under which im

under the magnificent leadership of James G. Blaine. 5 We indorse and commend the action of the republican party in carrying out its pledges in relation to pension legislation.

portant treaties, opening new markets, have

already been entered into by the administration

6. We reaffirm the position of the republican party upon the subjects of temperance legislation and taxation as expressed in its last state platform, and demand such a state tax law as shall make taxes upon non-resident lands collectable with promptness and certainty that there may be no discrimination against the resident owner.

With sincere sorrow the republican party of Michigan mourns the recent death of Gen. William Tecumseh Sherman and Admiral David D. Porter. Our heroes of the civil war are fast passing away, but their memory will remain with us as an inspiration to fidelity to our common country. Let it be ours to hand down to posterity a free and untarnished republic which their patriotism helped to establish and maintain.

At the close of the convention the state league of republican clubs held a meeting and elected officers as follows: president, Hon. John W. Patton, Jr., of Grand Rapids; secretary, C. E. Baxter,

NEVER GROW OLD.

The Girls of Years Ago Are Still the

Young Ladies of To-Day. The Port Huron Times says: "Fifteen years ago S. L. Boyce & Son raised a pole in front of their store in that city. On top of the pole was a hollow anvil, which contained copies of the Port Huron daily papers and many other articles. Recently the pole was lowered, and last week the anvil was opened and the contents taken out in a fair condition, although time had somewhat withered the papers. In looking over the copy of a paper a reporter noticed a list of well-known young ladies who participated in the centennial celebration. Strange as it may seem, these same young ladies are the young ladies of to-day. The fifteen years has not affected the ladies as it has the papers. Newspapers grow old, but young ladies

never. Left with a Strange Man. Brighton was all agog over the disappearance of Miss Effic Jones, 17 years of age and of fine personal appearance. She was seen taking the evening train west with a strange man. The conductor noticed the pair and that they got off at Lansing. Since then no trace whatever could be learned of their whereabouts.

A Noted Character.

Sands Carpenter, an old man of Port Huron, who was at one time a surveyor, a school-teacher and a public lecturer, but who for years has been a wanderer, has gone to Lexington to spend his remaining days. He was a familiar figure on Port Huron streets, and for the past year has drawn \$30 every three months from the poor commission, and would invest all his money in tea, crackers and cheese, and carry his provno home, but had a remarkable memory and was always well treated.

MICHIGAN DEMOCRATS.

State Convention at Lansing and Can-LANSING, Mich., Feb. 27 .- The democratic state convention met yesterdry n Baird's opera house in this city Lieut. Gov. Strong was chosen as temporary chairman, and after the selection of committees John Power, of Delta, was elected permanent chairman, and

Fred Estee, of Isabella, secretary. The committee on credentials reported that every county was represented, and there were no contests. The re-port was received, and the districts were called upon for nominations for candidates for justice of the supreme court. The following persons were named for nomination: John W. Champlin, of Wayne, and William Newton, of Flint.

A ballot was taken showing for Champlin, 636; Newton, 163; but before it was announced the name of Newton was withdrawn and Champlin was nominated unanimously. The platform was read by Congress-

man Ford, of the committee on resolu-

tions, and was unanimously adopted, as 1. The democratic party of Michigan in convention assembled stands upon and reaffirms the cplatform of the democracy adopted at Grand Rapids in 1890.

2. We congratulate the democrats of the national congress on their splendid battle against and the permanent defeat of the infamous force 3. The McKinley bill is a law, but the demoeratic party pledges itself to the people to ex-ecute their judgment, pronounced in 1890, for the repeal of the law, and that this shall be done in

the year of our Lord 1893. 4. The great communities of farmers are too numerous to form effective trusts, and as this large body of our citizens raise a surplus, the lling prices must, by a natural law, be fixed by the prices of the world's markets abroad. 5. Reciprocity merely with countries which do not demand or need our agricultural products and increase, but which will buy only our man

ufactures, will not suffice. 6. Those great markets of the farmer, to ong closed, and whose dense populations are the great consumers of the world, must be opened, by inviting repeals of retaliatory laws. 7. We challenge the policy of the republican party, which, while seeking to enact prohibitory duties for the destruction of trade with other countries, at the same time proposes to ap propriate millions of dollars from the earning of the people as subsidies to steamship lines under the pretense of restoring trade.

8. We indorse the action of the state senate in fearlessly deciding the late contests for seats according to testimony, and in unseating members holding their places by fraud, and in giving their seats to members who were elected by the people.

9. Resolved, That the democracy of Michigan approve of and indorse the administration of Gov. Winans as able, honest and efficient. A letter was read from D. J. Campau, addressed to the chairman of the convention, dated at Berlin, February 6, in which he resigned the position of chairman of the democratic state central committee on account of his absence abroad and inability to personally give attention to the pending campaign. The resignation was not accepted. The convention then adjourned.

[James Woodruff Romeyn was born in Detroit in 1839. He was admitted to practice by the supreme court in 1800. Mr. Romeyn served early in the war in the army of the Potomac as senior aide on the staff of the general command ing the first division of the Ninth army corps, with a commission in the Fourth Michigan i fantry. He was elected a representative in the state legislature from the city of Detroit in 1868, and served at the regular session in 1869 and the special session in 1870. In the latter year he was elected to the state senate from the First district and elected from the same district in 1882. In 1886 he was appointed by President Cleveland consul at Valparaiso, and held the office four years, his successor being Col. W. B. McCreery, of this state. MAY BE SUPPRESSED.

An Important Decision Handed Down by the Supreme Court. In denying the application for a mandamus in the case of Schmedding vs. Clerk May, of Wayne county, the supreme court established the right of legal cases at their discretion. The court says that after a trial the records are undoubtedly public property, but this publicity does not include papers that are necessary to the framing of the issue in cases to be tried. In cases involving private issues between private parties the court thinks that the public can only be interested through idle curiosity, and that the publication of the fact that a suit had been commenced would often seriously affect the financial standing of parties when the proceeding had no foundation. The opinion further holds that in divorce cases the public are certainly not interested and that the public interests would be best subserved if the charges

in those cases were never published. To Have an Indian School. Congressman A. T. Bliss in a letter

regarding the provisions of a bill to establish an Indian school in Isabella county states that the bill has been signed by President Harrison and is a law. This law carries with it an appropriation of \$25,000 for the erection of the school buildings, and is in no wise dependent upon the annual appropriation bills, but after the school is established an appropriation will have to be made each year for its maintenance.
