Just now a man gets "the grip" before  
he gets a degree. No initiation fee is re-  
quired but a doctor's fee usually follows.  
There is no secret society business about

feres. We are all anxious for this for-  
eign invader of our country to take his

The boy stands on the corner  
Watching the market with eagle eye  
And plenty of cash in his pocket to buy  
Bargains, which make old time 100-per-  
center sigh.

For the good old days gone by.  
Judging from the latest official returns  
100-per center is likely to keep on sighing  
the balance of his days, while the boy on  
the corner keeps on buying, bargains, not  
intending to lessen the sighing. The sighs  
will probably grow deeper and deeper as  
the matinee advances. The old time prices  
have gone to stay as long as the boy on  
the corner keeps whacking away.

A ST. LOUIS justice has decided that a young woman is bound to return the gifts of a rejected lover.

A half dozen New York ladies can afford a handsome living by holding conversation classes and giving private lessons in that art.

A Boston scientist declares that only the microscope can discover the difference between oleomargarine and butter. Few boarding houses can afford microscopes as side dishes.

The most reasonable answer to the question: "Where did you get that hat?" would be "from Danbury," as there were over 4,000,000 hats made in the little Connecticut town last year.

A Boston publisher says that he still sells thirty thousand copies a year of "Uncle Tom's Cabin." Several seasons ago he got out a special edition of the book and sold sixty thousand copies of it.

One of the streets of Palermo is named after President Lincoln. This was done by order of the Marquis di Rodini, the new premier of Italy, who was mayor of Palermo at the time of Lincoln's assassination.

WILLIAM M. ROBERTS, of Liberty, Mo., entertained an angel unawares last December, when Edward Williams stopped at his house, asked for shelter and was given a home. He died the other night without relatives, leaving Robert a block of brick buildings in Kansas City, Mo., and a large bank deposit.

HEBREW is again becoming a living language in Palestine. The thousands of Jews who are going there from different countries, being unable to communicate with each other in their own languages, resort to the knowledge which they have of Hebrew in their religious services for a means of communication.

A novelty in the washing machine line has just been invented. It is connected with a child's swing, and after the soiled garments, with the proper quantity of soap suds, have been put in the tub, a child is placed in the swing, which is set in motion, and moves automatically, and turns the washing machine.

THE Pall Mall Gazette tells of a doctor on a man-of-war who had a very simple method of treatment. He would tie a piece of tape around the waist of the complaining mariner, and command him to state whether the pain existed above or below the tape. If above, an emetic, and if below, a dose of salts followed as a matter of course.

HENRY M. STANLEY intimates that circumstances may arise which will make necessary his return to Africa. For his one hundred lectures Stanley received \$110,000, and Maj. Pond says the average gross receipts were \$2,760. He is endeavoring to arrange with the explorer for another course of one hundred lectures in America, beginning in October.

The centennial celebration of the patent system in Washington recently was an event of great interest. Unfortunately many of the men, says the Inter Ocean, who devised the plans that brought millions to the "moneyed banker," have passed into obscurity, or death, or had too little money to attempt the luxury of being present. When the true history of patents is written some large names will appear small.

About two miles above Parkersburg, W. Va., the site of a large prehistoric village has been found and many relics unearthed. The village covers four acres bordering on the Ohio river. The entire area presents the appearance of having been at one time closely packed with people. The earth is furrowed in many places, and is intermixed with fragments of pottery, bones of animals, such as deer, bear, etc., with many utensils and ornaments of stone, bone and shell.

The formation of the commonwealth of Australia is an event in the history of the world the significance of which is just being realized. There is no separation from England. The commonwealth will have a figure-head governor general, just as has Canada, but a new and great Anglo-Saxon nation which will most resemble the United States. The question of absolute independence is, of course, only a matter of time, or rather of option.

The astronomers tell us in their stellar predictions for April that Venus is making her way toward the sun and rises less than two hours before the sun appears above the eastern horizon. As she travels toward superior conjunction, she at the same time recedes from the earth, her semi-diameter naturally decreases, and with it her brilliancy. She has been fair to see for many weeks, and although she will not lay aside her starry crown for some little time to come her rival, Jupiter, is gaining rapidly upon her, and will fairly outshine her before her course as a morning star has been fully run.

"JACK" ROBINSON, son of Circusman John Robinson, says that on one occasion his father, his brother Gilbert and himself paid a visit to Barnum at his home in Bridgeport. After some reminiscences Mr. Barnum asked them if they would take a drink with him. They assented, and as Mr. Barnum himself stepped to the sideboard to produce the tipples they expected something particularly fine. "Judge of our surprise," said Mr. Robinson, "when the old showman passed around the fed water." Mr. Barnum could not perhaps have done anything else that would have so impressed his visitors.

The bulk of P. T. Barnum's property (\$5,000,000) went to Barnum Seeley, his only grandson. Barnum paid taxes on about \$1,000,000 worth of real estate in his home city, Bridgeport, Conn. When he had by the accumulation of wealth passed all question of financial trouble, he used what his foresight had secured to him for the benefit of the poor people of Bridgeport. He established the system of building houses and selling them to the working people on long payment, and hundreds of the poor residences now owned by the working class in that city were secured through Mr. Barnum's generosity.

WASHINGTON, April 16.—The following is the correspondence between Secretary Blaine and the Italian government since the secretary's note to the Italian minister acknowledging notice of Baron Pava's departure:

"ROYAL LEGATION OF ITALY, WASHINGTON, April 16, 1891.—Mr. Secretary of State: I have the honor to acknowledge the receipt of the note which you have addressed to me on the 1st inst. in reply to that whereby Baron Pava informed you of his departure on leave.

"I have had the contents of your excellency's aforesaid note before the government of the king, and his excellency the president of the council, his excellency the minister of foreign affairs, and his excellency the minister of justice, and they have all agreed to address the following communication to you:

"The government of the king of Italy has asked nothing beyond the prompt institution of judicial proceedings through the regular channels. It would have been glad to see the punishment of the guilty parties without the want of a regular judgment. The Italian government now repeats the same demand. It asks that the judicial proceedings be promptly begun and that the diplomatic incident be considered as closed.

### Undella Items.

There are five sick at Dr. DuBois'  
and two at S. M. Harris' this week.  
Hiram J. Barton died Friday  
afternoon April 17, 1891, aged 41  
years, and was a universally respect-  
ed young man. The funeral was  
large attended at his late home last  
Sunday. The burial was at the  
Collins' burying ground.  
Selah B. Collins father of Addison,  
Betty and Cynthia Collins, died last  
Thursday, April 10, 1891, at the  
home of his son A. C. Collins, aged  
78 years. He was one of the first  
settlers of Lyndon, Washtenaw Co.,  
and in his years of activity was pub-  
lic spirited and enterprising. He  
was generous to all worthy un-  
dertakings, and no deserving person  
was ever refused assistance in dis-  
tress by him. These last attributes  
of nobility, are perpetuated in his  
son, Addison.

### Rheumatism Knocked Out.

I have been a sufferer of Rheumatism  
for about half of the time could not  
get around. Sometimes better, some-  
times worse. But all the time so severe  
as to make me miserable. But through  
the advice of your agent who stopped at  
my house, I commenced to take Bed  
Lifter and I can thank the day I done so.  
I improved so fast that I have played in  
eight games of bill this fall and have not  
lost a game. I think I know it—Loose's  
Extract of Red Clover is the best blood  
remedy on earth and I am thankful for the  
benefit I have derived from your Extract,  
and every case that is using it here—  
there are a dozen—has been benefited.  
I can cheerfully recommend it to all suf-  
ferers of rheumatism. Yours very truly,  
GEO. E. RETLER.
