## HOAG & HOLMES.

### Leading Spring Stock.

We have the Stock that meets the expect-  
tation, and gratifies the taste.

Our Stock is large. Our goods are new.  
New Styles all through the line.

Remember we advertise bargains only when we have bargains. By  
watching the market close we have fortunately secured over \$3,000 worth  
of new, clean, desirable men's, boys' and children's suits and odd pants, at  
an average of about 25 per cent. less than wholesale price. These goods  
added to our regular spring stock, makes the assortment simply immense.  
We have regular suits, full men's suits, slim men's suits, extra size suits up  
to size 48. Extra size pants. Extra length pants up to 37 inch leg.  
Realizing the fact that only extraordinary inducements to outside  
as well as home buyers, will move so many goods in a short time, we shall  
on an inducement, offer the trade for the next 30 days the choice of the en-  
tire lot, over \$3,000 worth of choice clothing, at actual manufacturers  
prices to the retailer. That means simply that we sell you these goods at  
from 25 to 50 per cent. less than you will buy goods of the same quality of  
any retailer in the county.

Don't look for bargains where they have  
none for you, but take advantage of this  
sale, when you can buy:

Regular \$20.00 suits for \$15.00.  
Regular \$15.00 suits for \$11.00.  
Regular \$12.00 suits for \$9.00.  
Regular \$10.00 suits for \$7.50.  
Regular \$7.50 suits for \$5.00.  
Regular \$5.00 suits for \$4.00.  
Regular \$4.00 suits for \$3.00.  
Regular \$3.00 suits for \$2.50.  
Regular \$2.50 suits for \$1.50.  
Regular \$1.50 suits for \$1.00.  
Regular \$6.50 pants for \$5.00.  
Regular \$5.00 pants for \$4.00.  
Regular \$4.00 pants for \$3.00.  
Regular \$3.50 pants for \$2.25.  
Regular \$2.50 pants for \$1.75.

Boys' odd pants at wholesale prices. Child-  
ren's knee pants 25c, worth 50c.  
Etc., etc., etc.  
Money saved is money earned.

Yours truly,

**W. P. SCHENK.**

the same sweet smile, at Glazier's store.

The funeral of Mr. Jeremiah M'Donnell,  
of Grass Lake, who died last Saturday  
took place from St. Mary's church, yester-  
day—Mr. M'Donnell was one of the pion-  
eers of Grass Lake, and was greatly re-  
spected by all who knew him. His remains  
were interred in Mt. Olivet cemetery, this  
village.

Mrs. Jane Maloney, for over 50 years a  
resident of Lyndon, died last Saturday  
May 9, 1891, after a brief illness, at the  
age of 80. Her funeral took place from  
St. Mary's church last Monday. Rev. Fa-  
ther Considine officiating. Mrs. Maloney  
was an earnest, devoted christian woman,  
and will be sincerely mourned by those  
who knew her best.

In the graves of the country's soldier  
dead should be laid also the animosities  
which existed during the great conflict  
that cost them their lives. No matter  
whether they wore the blue or the gray,  
they belonged to the Republic, were broth-  
ers in one great family, and in a broader  
sense, were children of the great Father of  
all. With the war-clouds long since scat-  
tered by the sweet winds of peace, and our  
reunited country happy under the smiling  
skies of prosperity, standing by the graves  
of the country's soldier dead, there come  
to mind those words of one of America's  
greatest orators: "I have but one senti-  
ment for the soldiers who fought in the  
late war, and that is cheers for the living  
and tears for the dead."

tars will be beautifully decorated.

About this time of year the farmer boy  
climbs out of bed at 4 o'clock in the morn-  
ing and works till 8 at night, while the  
poor does till 8 in the morning, then  
rises leisurely, and after he has sipped  
his coffee, lolls back in his study chair,  
closes his eyes, and thinks up some verses  
about the beauty of a spring sunrise.

sistant Organist, Cora Taylor; Chorister, Mrs.  
L. Tichenor.

Samuel Bower, of Jackson, swallowed a  
pin some time ago and ever since that  
time the doctors of the prison town and  
Ann Arbor have been trying to get that  
pin out of Bower. They have not suc-  
ceeded and now they have driven it fur-  
ther in his system and he feels quite easy.  
No serious results are feared.

J. S. Cummings was the possessor of a  
handsome white bulldog, who always  
kept his eye open for a fight. Last Fri-  
day evening while at the depot he attack-  
ed a passing locomotive, and after the  
dog had cleared away the dog was found  
minus his tail. The dog was taken home  
and the wound dressed, but he felt so bad  
over the loss of his tail that he died  
Saturday.

A very bad accident happened to Cuyler  
Carton, of Unadilla, Monday May 4th,  
1891, which will confine him to his bed  
for some time. He was running an apple  
tree. The ladder on which he stood re-  
cted against a limb which broke, and in fall-  
ing a distance of only ten feet the ladder  
turned over in such a way as to catch the  
left leg between the rounds and side piece  
breaking both bones near the ankle, also  
dislocating the foot.

Friday, May 15, 1891, another class will  
leave the drill ground of school for the  
battle field of life. The future looks  
bright. Over yonder beyond a little bay  
upon which their ship is launched, are  
heights to which their path seems clear.  
America's history is full of names of those  
who have climbed to these heights and that  
too without the aid of modern-school-room  
drill which these people have enjoyed at  
the hands of this common-wealth. The  
path is just as clearly outlined to-day as it  
has ever been. The map of shoals and  
rocks upon which so many gay voyagers  
over life's sea have been shipwrecked, is  
more plainly drawn to-day than ever before,  
and lays open before these young voyagers  
with heavy luggage warning. Life's sea is  
not all clear sailing. Carefully developed  
plans must be laid. There must be no  
waver. Obstacles must be overcome.  
The shoals and stumps, the rocks and  
winds must be carefully studied. No  
pleasant pathway which leads away from  
a direct line to the point at which is aimed  
the pent up ambitions must be taken. It  
is work, work, work in a direct line to-  
wards a given object if the heights are  
reached. This country has given these  
young people the school drill and it has  
a right to ask and expect noble lives and  
true womanhood and manhood in return.

efforts of burglars. The safe is pro-  
tected by a large new fireproof vault made  
necessary to store the upwards of twenty  
years' accumulation of books and papers  
of its business, and the whole premises  
are further protected by an Electric  
alarm System, which gives instant warn-

CHELSEA, MICHIGAN.  
FORTY years ago a New York man marked a quarter and put it into circulation. It has just returned to him.

GREAT BRITAIN'S national debt amounts at present to \$3,492,000,000. It is more than four times as large as the debt of the United States.

In the case of a man who killed himself recently, an English jury rendered a verdict that the deceased "committed suicide at the instigation of the devil."

In Atlanta Mary Jane Cheney Julia Ann Adelia Frances Fedora Eliza Maria Quit Tude Dant Morrison is the abbreviated appellation of one of the colored belles.

The aggregate wealth of the United States is nearly sixty times what it was sixty years ago, when the figures were \$100,000,000. Now they are \$53,300,000,000.

DONNA ISIDORA COUSINO in Chili is supposed to be the richest woman in the world. Her monthly income is \$50,000. She is a stately widow of thirty-five years and a famous horsewoman.

Mrs. ALMIRA LOCKE, mother of David R. Locke (Petroleum V. Nasby), who has been living in poverty and misery in a small house in Wheeling, W. Va., has been granted a pension on account of her late husband, Nathaniel Locke, having served in the war of 1812.

A WYOMING man has settled the question of how the prairie dogs obtain the water they drink. He says they dig their wells, each village having one with a concealed opening. He says he knows of several of these wells from fifty to two hundred feet deep, each having a circular stairway leading down to the water.

An idea of the enormous amount of type used in the government printing office may be gained when it is stated that the public printer has asked for bids for 15,000 pounds of English, 5,000 pounds of picas, 75,000 pounds of long primer, 6,000 pounds of brevier and 48,000 pounds of nonpareil—203,000 pounds, or about nine carloads.

STATISTICS are said to show that from 1807 to 1881 642,000 Russians were exiled to Siberia—100,000 at their own instance, in order that they might accompany condemned friends. With the advance of the century the practice of banishment to Siberia has assumed increasing proportions. In 1877-78, 16,331; in 1877-78, 16,331; in 1877-78, 16,331.

The longest bridge in the world is the Lion bridge near Sankung, in China. It extends five and a quarter miles over an area of the Yellow sea and is supported by three hundred huge stone arches. The roadway is seventy feet above the water and is inclosed in an iron network. A marble lion twenty-one feet long rests on the crown of every pillar. The bridge was built at the command of Emperor Kiang Long, who abdicated in 1796 on account of old age.

It is little things of life that tax one's nerves most, as a stalwart youth of Leavenworth, Kan., found when he accepted a wager that he could not stand a quart of water dropped into his open hand drop by drop from a height of three feet. Before five hundred drops had fallen into his hand he almost cried with pain and said he had enough. After a little water had fallen each drop seemed to crush his hand, and a blister in the center of it was the result.

It has just been discovered that the delicious looking "blood" orange which blinks so bewitchingly at the small boy from the stands of the Italian man is a delusion and a snare. There is no "blood" orange, speaking from the standpoint of the naturalist. All globes of luscious fruit which assume the hypodermic injections of aniline and other poisonous or deleterious dyes. Hence the "blood" orange is a luxury to be let severely alone.

A CORE saw, intended for boring out barrels from solid logs, was recently completed at Taunton, Mass., for a company in Lacrosse, La. The saw is made of wrought iron, cylindrical in shape, and steel cutter teeth are distributed about its edge. It is expected that the saw would cut a barrel per minute, and during a trial of the first machine a core 10 1/2 inches in diameter and 2 1/2 inches long was bored out in thirty seconds. A mill for the manufacture of barrels by these machines is to be built in Louisiana.

SEVENTEEN patents were issued recently to George F. Simonds, of Fitchburg, Mass., who, it is claimed, has solved the problem of applying ball-bearings to every shaft that turns, be it big or little, vertical or horizontal. Ball-bearings, as everyone knows, are in universal use in bicycles. A perfect ball-bearing has long been the dream of inventors, since by its use friction may be reduced to a minimum, and power, heat, wear, oil, etc., be greatly economized. If Mr. Simonds' expectations shall be realized the result will be a most complete revolution in mechanics.

SOME idea of the size of the milliner bills which the husbands and fathers of this country are called upon to pay may be had from estimates made by the government that the amount of money which must be refunded by Uncle Sam on account of his having levied excessive duties on hat trimmings will aggregate between \$20,000,000 and \$30,000,000. This sum represents only the difference between the legitimate duty on hat trimmings and that on ribbons during the period covered by the claims of the importers. It indicates that the female form divine requires a good deal of trimming.

In a little log house near Weaversville, Pa., live four wealthy and aged bachelor brothers who are veritable women-haters. They are Benjamin Michael, Nathan and Samuel Kunkel, respectively eighty, seventy-one, seventy and sixty-one years old. They own a valuable farm and have \$40,000 out at interest, but still they do all their own farmwork and housework unaided, and will not consent to employ a woman in any capacity or have any association whatever with the gentler sex. Two sisters formerly lived with them, but are now dead. They shunned men and their brothers do women, and never married.

# HOMEWARD BOUND.

The President, Having Visited the Pacific Coast States, Is Now Rapidly Speeding Eastward.

PORTLAND, Ore., May 6.—The early part of the journey of the president and party into Oregon Tuesday was made in a steady fall of rain, varying from a drizzle to a light storm. Salem was reached at 9 o'clock a. m. Curiosity was felt as to the course of Gov. Penney, whose remarks have been the subject of newspaper and political comment. Rain was falling and the troops were in line, but the governor was not present.

The explanation was made that the carriage failed to call for him, and had been sent to his residence. Just as the train arrived the governor and mayor drove up five minutes late, and were presented to the president in his car. The governor said: "Mr. President, I am glad to meet you and welcome you to the state of Oregon," and added: "I am sorry to have delayed you but it was not my fault." After the presentation of the governor and the mayor to the ladies and to the other members of the party the procession moved to the capitol.

The presidential train arrived here at noon. Despite the falling rain the party received a more impressive reception than at any point save San Francisco during the entire trip.

The route of the procession was very lengthy, giving the population an opportunity to see the president. Probably 40,000 people stood in the rain to pay their respects to the chief magistrate in passing. The president reviewed the procession from the Portland hotel. In the evening a public reception was given at the pavilion.

SEATTLE, Wash., May 7.—It was nearly 2 o'clock p. m. when the steamer City of Seattle with the presidential party arrived at the dock here. All the steam vessels blew their whistles and this noise was augmented by the booming of cannon. The houses in the city were generally decorated and arches were erected at prominent corners. An escort composed of the First regiment, N. G. W., Sons of Veterans and G. A. R. posts accompanied the president to the cable car station, where the pupils of the high school sang an ode of welcome. On arrival at Lake Washington the steamer Kirkland was boarded by the party for a tour of the lake. The president stopped for some time at Tacoma, where speeches were made. The party left for Portland at night.

SALT LAKE CITY, T. May 8.—President Harrison and his party reached Boise City, Idaho, at 7 o'clock Friday morning and were welcomed by Gov. Wiley and Mayor Pinney. Two troops of the Fourth cavalry and a large number of civic organizations escorted the president to the state house, where addresses of welcome were delivered by the governor and mayor and replied to by the president. The latter, after holding a reception in the governor's parlors, assisted the school children in celebrating Arbor day by planting a tree on the capitol lawn. At 1 o'clock the train left for Salt Lake City. At Pocatello the party was met by a special train, containing large delegations from this city and Ogden, which preceded the president's train to this point.

SALT LAKE CITY, Utah, May 11.—Beautiful springlike weather made the short visit of the president to Salt Lake City a pleasant one. The presidential train arrived at 3 o'clock a. m. Saturday and was sidetracked until 7 o'clock, when Gov. Thomas, Mayor Scott, Congressional Delegate Cain and a large reception committee called with carriages and escorted the party to the Walker house. After breakfast the president was escorted through the principal streets of the city. The streets were crowded and much enthusiasm was shown. The decoration of buildings along the line of march was general, among the places made conspicuous by a profusion of bunting being the temple and President Woodruff's house. A large strip of bunting bearing the words "God bless the president" was displayed from the temple.

For the first time in its history the tabernacle floated the stars and stripes from its roof.

The houses occupied by Brigham Young's wives were decorated with bunting. On Brigham street the school children of the city, nearly 5,000 in number, were concentrated, and they greeted the president by waving flags and scattering flowers. It was a beautiful sight, and the president seemed touched as he passed the long lines of little ones. The children sang "America" and "Hail Columbia," the president acknowledging the compliment by keeping his hand over his heart until the carriage had passed the end of the line. Public exercises took place at Liberty park and were witnessed by several thousand people.

GLENWOOD SPRINGS, Col., May 11.—The presidential party arrived here early Sunday morning. The president, Postmaster General Wamaker and Mrs. McKee afterwards attended divine services at the First Presbyterian church. During the afternoon the president received the delegations from Leadville, Aspen, Colorado Springs and elsewhere. A children's mass meeting was held at Durand's opera house at 2 o'clock in honor of the visitors. Mayor Rogers introduced the president and postmaster general, each of whom made a short address.

# THE BLAZING FORESTS.

Whole Counties in Michigan Devastated by the Flames—A Number of Villages Destroyed—No Loss of Life Reported.

DETROIT, Mich., May 11.—A fire raged in the upper peninsula Saturday the like of which has never been known. The line of flames reached almost without a break from Mason county, on Lake Michigan, to Iosco county, on Lake Huron, with the forests of Lake, Osceola, Claire, Gladwin, Ogemaw and Alcona, where Gen. Alger owns large interests, all ablaze. Another fire of scarcely less magnitude exists in the lower peninsula. The incline of the Duluth, South Shore & Atlantic railroad through Marquette, Houghton, Baraga and Ontonagon counties is in the path of the flames. Two railroad bridges have already gone on that line, and the telegraph lines are in bad shape. Fears are entertained that the fire will reach the town of Merdith, in Clay county. Friday night the flames swept into Osceola and burned out \$200,000 worth of property. Two houses and 7,000,000 feet of lumber were burned. Great apprehension is felt at Au Sable. An appeal for help has been sent to Alpena. It is feared that the city will be swept away if the wind shifts. Millions of acres of pine are burning. Additional reports now coming in show that a wide district is devastated.

A special received from Ludington on the Lake Michigan shore says that four townships in the county—Freesoil, Sherman, Branch and Custer—are all on fire, and while there is but little danger of the towns themselves falling in the flame, the farmers in the outskirts are flying to the towns for safety, abandoning everything.

A special from Evart, in the southern corner of Osceola county, states that a belt of fire extends clear through the county to the north, and fears are entertained for the safety of Hartwick, Milburn and Dighton, which are off the railroad and in the center of a heavily wooded district. Nothing has been heard from the latter place since Thursday and nothing from the other two since Friday morning. Specials from Harrison, the county seat of Clare county, say that it is rumored that Merdith, 16 miles to the northeast, is destroyed. Another special from Clare, in the same county, corroborates the information, but offers no details of the burning of the town.

Gladwin, the county seat of the county of the same name, sends information that the entire north part of the county is in flames and no human means can stop the spread of the flames or probably save the little township of Butman in the northeast corner of the county.

Each additional report from the region of the forest fires shows that the damage instead of being exaggerated has been underestimated. Word reached here that the little hamlet of Walker, in Oceana county, was wiped out Saturday—a hotel, livery stable, post office, four stores, three saloons and a large amount of dwellings. Five hundred thousand feet of hardwood logs also burned. Moreau, Mecosta county, telegraphed that Alcona, a small village 10 miles from there, was in ashes. Clinton, a small station on the Toledo, Ann Arbor & North Michigan railroad, was wiped out Saturday afternoon. Wagner & Pierce had 2,000,000 feet of logs and Hyde Bros. 1,000,000 feet burned. Farwell burned Saturday with all the houses in the settlement.

SAGINAW, Mich., May 11.—The forest fires which have been raging with great fury during the last week continue to cause great damage to property and threaten the destruction of towns and villages in their path. The loss for the twenty-four hours ending at 8 o'clock Sunday has been greater than for any corresponding period of time in the month. The country round about is very dry and in Saginaw county the record of fires was remarkably large and the fire department has been on duty almost constantly. The territory covered by the forest fires extends from the Saginaw river to the Straits of Mackinac on the north and to Lake Michigan on the west. On the line of and adjacent to the Mackinac division of the Michigan Central and western division of the Flint & Pere Marquette the destruction of property has been greatest. Whole sections of standing timber have been burned over, and millions of feet of logs ready for the rivers were reduced to huge piles of ashes. At Batchelor Saturday night 1,000,000 feet of lumber, 1,000,000 shingles and 1,100 feet of railroad track were burned. The people of the town have formed a volunteer fire brigade to prevent the destruction of their homes.

A bridge on the Monroville branch of the Flint & Pere Marquette branch burned early Sunday morning, cutting off travel entirely, and it is impossible to traverse the Stearns branch because of the dense smoke and danger to trains. On a number of the branches which connect the interior of northern Michigan with the more populous sections communication is wholly suspended. Martin's mill, on the Allen and Manion branch near Harrison, Pringle's mill and lumber yard on the Maloney branch southwest of Farwell, and the Flint and Pere Marquette road engine house at Reed City all burned Sunday. The latest advices from Clare Lake, Evart, Roscommon, Frederick, West Branch, Gladwin, Farwell, Center, Manistee and Grayling show that fires are raging fiercely in the vicinity of those places.

Big Demand for Dimes.  
WASHINGTON, May 11.—The demand for dimes upon the treasury department is so great that it cannot be met. Within the past ten days \$174,000 in dimes have been shipped, and orders for \$60,000 are now waiting. There has been ordered melted and coined into dimes at the several subtreasuries \$321,000 of debased silver coin.

# "August Flower"

There is a gentleman at Malden-on-the-Hudson, N. Y., named Captain A. G. Pareis, who has written us a letter in which it is evident that he has made up his mind concerning some things, and this is what he says:

"I have used your preparation called August Flower in my family for seven or eight years. It is constantly in my house, and we consider it the best remedy for Indigestion, Constipation and Indigestion, have ever used or known. My wife is troubled with Dyspepsia, and at times suffers very much after eating. The August Flower, however, relieves the difficulty. My wife frequently says to me when I am going to town, 'I am out of August Flower,' and I think you had better get another bottle. I am also troubled with Indigestion, and whenever I am, I take one or two tea-spoonsful before eating, for a day or two, and all trouble is removed."

Constipation of August Flower, and I think you had better get another bottle. I am also troubled with Indigestion, and whenever I am, I take one or two tea-spoonsful before eating, for a day or two, and all trouble is removed."

## THE MINING SCHOOL.

The Annual Report Shows the School to Be in a Prosperous Condition.

The annual report of the Michigan mining school shows that last year there were thirty-five pupils enrolled, and this year there have been sixty-two enrolled, which number will probably be increased before the close of the year. There are graduate students, four, class of '91, nine; class of '92, eight; class of '93, forty-one. This shows a great increase for this year, which is really the first that the school has had anything like proper equipment. It is expected, from statements received, that next year's class will be as large or even larger than this. The one hundred and eleven students who have entered since the school opened have come from eight states and from Europe, Canada and Japan, and of these eighty-nine are from Michigan.

## Health in Michigan.

Reports to the state board of health by fifty-seven observers in different parts of the state for the week ended May 1 indicated that membranous croup, peripneumonia and inflammation of the lungs increased, and cerebro spinal meningitis, typho-malarial fever, diphtheria, dysentery, scarlet fever, typhoid fever and whooping cough decreased in area of prevalence. Diphtheria was reported at twenty-five places, scarlet fever at thirty-three, typhoid fever at five and measles at fifty-two places.

## Went Down with the Atlantic.

Details of the schooner reported in distress by the St. Clair were received at St. Clair. She left the Sault in tow of the tugboat and parted her tow line about 20 miles from St. Clair. The schooner was foundering shortly afterward. Five of the crew perished in attempting to reach the shore in yawls and two men were rescued by a life-saving crew. The Atlantic was coal laden for Ashland, Wis.

## Wrecked by the Wind.

A terrific electrical and wind storm raged all over the copper country for two days, and at Dollar Bay a store and residence building was badly shattered and set on fire by lightning. ## MICHIGAN LEGISLATURE.

SENATE.

LANSING, Mich., May 6.—A bill favorably reported in the senate yesterday to engage women professors and educators in the state university. The bill was passed to provide for the incorporation of mutual provident associations of miners and those of other occupations, and laborers in and about iron, gold, silver, lead, copper and coal mines; to authorize the incorporation of companies for the construction of union railroad stations and depots; appropriating \$50,000 for current expenses of the blind school for 1913. The bill regulating the purchase of labor on street railways was amended, and no longer contained any provision for the employment of employees from making such contract as they may mutually desire with reference to the number of hours of labor for each day and compensation to be paid.

LANSING, Mich., May 7.—Senator Brown's legal option bill was killed by the senate yesterday. The bill practically established prohibition by requiring that no liquor should be sold in any county unless the people voted in favor of saloons at a special election. The house bill allowing hotel keepers to seize and sell the baggage of guests who leave without paying their bills was passed.

LANSING, Mich., May 8.—The senate yesterday passed the house bill changing the method of inspecting kerosene oil and reducing the test about 17 degrees, which will reduce the price 2 1/2 cents per gallon.

LANSING, Mich., May 9.—Bills were passed in the senate yesterday abolishing the state forestry commission appointed four years ago to investigate the effect upon the water supply and climate of the destruction of Michigan forests; consolidating the boards of control of the three state prisons and the reform school; and authorizing the state to take in general land managing bill; providing that in cases of abandonment of children by their parents the superintendents of the public institutions where the children are held be empowered to place them in making out adoption papers.

LANSING, Mich., May 6.—In the house yesterday a bill was formally reported requiring that all members of state institutions shall be inspected before slaughter. The bill amending the law providing for the relief of soldiers and their families out of the soldiers' home failed to pass. A bill was reported for the purchase of a new colony of cottages at the Kalamazoo insane asylum.

LANSING, Mich., May 7.—The house yesterday defeated the bill appropriating \$50,000 to state the National A. A. R. A. R. bill was reconsidered and the bill tabled. Bills were passed creating the thirty-first judicial circuit from the counties of Ontonagon and Gogebic; appropriating \$10,000 for the collection of labor and industrial statistics. The joint committee on military and state affairs reported favorably the Dodge bill providing a bounty of \$100 to the soldier who is wounded, and in committee of the whole agreed to the agricultural college appropriation bill. The bill increasing the specific tax on railroads from 2 to 3 percent of the gross earnings was passed, and it is estimated to place \$200,000 additional in the state treasury annually.

LANSING, Mich., May 8.—The house yesterday passed the once defeated bill creating the new county of Dickinson out of territory taken from Iron, Ontonagon and Marquette counties. The bill consolidating the cities of St. Joseph and Benton Harbor was also passed. The name agreed upon for the new city is Port Michigan.

LANSING, Mich., May 9.—The house yesterday passed the bill appropriating \$50,000 for the agricultural college.

## INJURED BY FROST.

Wheat, Corn, Fruit and Vegetables Suffer from the Cold Wave.

LOUISVILLE, Ky., May 9.—A summary of reports received from all sections of this state, northern Tennessee and southern Indiana indicate the destruction by the frosts of Tuesday and Wednesday nights of nearly all of the garden vegetables except strawberries, which will probably still average half a crop with favorable weather. Grapes are generally killed, but peaches and other fruits did not suffer greatly south of the Ohio river. In bottom lands along water courses and the lower valleys growing wheat and corn have received more or less damage, while on uplands tobacco and other crops and most forms of vegetation escaped comparatively uninjured. At numerous points ice was formed on Wednesday night, but, singularly, this did not appear to affect plants as unfavorably as might have been expected. The approach of higher temperatures and the prospect of showers will lend encouragement to fruit growers and market gardeners and without doubt eventually reduce the frost damages below present estimates.

## RIVALS UNITED.

St. Joe and Benton Harbor Made One, with New Name.

LANSING, Mich., May 9.—The house Thursday passed a hasty vote passed the once defeated bill creating the new county of Dickinson out of territory taken from Iron, Ontonagon and Marquette counties. The senate passed the house bill changing the method of inspecting kerosene oil and reducing the test about 17 degrees, which will reduce the price two and one-half cents per gallon. The long-standing row between St. Joseph and Benton Harbor was settled in the house Thursday by consolidating the two. The proposed name of St. Joe Harbor for the new city was rejected and Port Michigan selected instead.

## Messenger Boys Steal \$1,000.

NEW YORK, May 9.—Charles Wagner, of No. 247 West Forty-first street, and his chum, Charles Gleason, of No. 851 First avenue, both of whom are 20 years of age, were employed by the American District Telegraph Company at Thirty-seventh street and Fifth avenue, unobserved Wednesday afternoon with \$1,000. Wagner had been intrusted with the package to deliver it to Miss May Kellard at No. 3 West Forty-third street. Late Thursday afternoon two Central office detectives captured Gleason on First avenue and took him to police headquarters. Wagner, who appears to have been the principal in the affair, has disappeared.

## JACK FROST'S WORK.

The Fruit and Vegetable Crops in All Parts of the Country Badly Damaged—Wheat Not Injured.

ST. PAUL, Minn., May 7.—A great deal of apprehension is felt as to the results of the sharp frost of Tuesday night on the growing crops. Reports are coming very slowly from northwestern men here report it is a favorable one. Had any damage been wrought, the fact would have been hastily announced. The greatest fear was felt for the park region of Minnesota, stretching from St. Cloud to the Red river valley, but reports from Detroit and Park Rapids say the growing wheat never looked better. Grand Forks, Casselton, Jamestown and Devils Lake report no damage to wheat, and the belief is general that an escape has been made in the finest wheat country included in the frost advanced to be harmed, and will be benefited rather than otherwise. Through southern Minnesota and South Dakota the frost was too light to injure anything but flax, which must be replanted in several localities. The greatest danger to the wheat crop at present is from drought. The steady winds of the past few days have carried off the moisture and dried out the upper soil, where the wheat has yet but light root. Another week without rain will cause considerable anxiety, but rain within that time will place the crop in security for the present, with every prospect of an extraordinary yield.

MILWAUKEE, May 7.—Reports from the state regarding the heavy frosts are meager, but all agree that general damage was done only to garden truck. Fruits were not sufficiently advanced to be affected, and there is no other crop in the state at this season which could be injured.

CENTRAL, Ill., May 7.—A heavy frost occurred in this region Tuesday night, nipping berry blooms and early vegetables, but it is too early to correctly estimate the damage. The quantity of berries is reduced about a third. Damage to peaches and other fruits is unknown.

MONTICELLO, Ill., May 7.—There was a blighting frost in Platt county and throughout central Illinois, killing fruit at a fearful rate and greatly injuring the gardens. Ice froze one-inch thick in places. The peach crop is greatly injured.

WINCHESTER, Ill., May 7.—A heavy frost here Tuesday night. Grapes are badly injured, potatoes cut nearly to the ground and early beans destroyed. The prospect for a good wheat crop in Scott county was never better than at present. The weather has been good for farm work, and many farmers are nearly done planting corn. The average will be 10 per cent more than last year.

COLUMBUS, O., May 7.—No serious results to fruit prospects in the immediate vicinity of Columbus are reported. A Lima (O.) dispatch says it is thought early fruits are greatly damaged, if not killed. At Washington Court House Tuesday night ice an eighth of an inch thick was formed. A prominent fruit grower says that the early cherries are all killed and that peaches, pears, apples and other fruits are being greatly damaged, and one or two more frosts like that of last night will settle the fruit crop throughout that part of Ohio at least.

INDIANAPOLIS, Ind., May 7.—An exceedingly low temperature prevailed Tuesday night. The strawberry crop is practically ruined and cherries, grapes and peaches suffered considerably, but the crops will not be a total failure. The extreme dryness of the season only saved the crops from complete blight. Neither wheat, oats nor corn has been planted long enough to be affected, except that the cold weather prevents it from sprouting.

EVANSVILLE, Ind., May 7.—A frost fell in this vicinity Tuesday night. The damage can hardly be estimated at this time. In some particular localities it was heavier than others. The fruit trees will be the main sufferers, and of these peaches especially. The buds have been nipped and it is thought the crop will be greatly curtailed. The frost was not of sufficient weight to totally destroy the fruit. Farmers report that such vegetables as beans, tomatoes and potatoes have been greatly injured.

FRANKFORT, Ky., May 7.—The gardens were seriously injured Tuesday night by the frost. Peaches and grapes were also damaged. There was some damage to wheat in many places. The full extent of the damage cannot be estimated as yet, but it is serious.

DES MOINES, Ia., May 7.—Frosts have been prevalent in Iowa for several nights, but Tuesday night the freeze was hardest and ice formed in many localities. Farmers in from the country say that the chief injury has been done to small fruit of the earlier varieties, such as cherries and plums. In southern Iowa, where vegetation is further advanced, considerable injury has been inflicted on the apple crop. The growing grain has not been affected.

LEWIS, Del., May 7.—The frost of Tuesday night in this vicinity was very severe on fruits and vegetables. Early strawberries are probably killed. There were some peaches, cherries and plums are supposed to be badly damaged and are doubtless peaches still remaining are doubtless injured. Early potatoes, beans and some other vegetables are much cut.

ST. LOUIS to Have Another Bridge.

ST. LOUIS, May 7.—An important deal has just been closed, which guarantees to St. Louis the Mississippi third bridge across the Mississippi river. The new bridge will be built at a point about miles south of the Eads bridge. The grant of the Eads is perpetual, was granted in 1874, and has lately been represented by a syndicate represented by Mr. John B. Clements, formerly chief engineer of the Missouri Pacific railway company system. The capital stock will be increased to \$1,000,000 and work on the new bridge will be promptly begun.

## AFTER THE ITATA.

United States Men of War Set Sail Under Sealed Orders, but Are Thought to Have Started in Pursuit of the Bold Chilian.

LOS ANGELES, Cal., May 11.—The schooner Robert and Minnie was captured Saturday afternoon about 3 miles from San Pedro by Deputy Marshal Anderson, on board the tug Falcon. She made no resistance and was towed into San Pedro harbor and tied up to the wharf. The arms said to have been on board had disappeared. It is believed they had been transferred to the Chilian steamer Itata.

SAN FRANCISCO, May 11.—A morning paper says that when the Charleston sailed Saturday morning it was received by Capt. Remy at midnight Friday. It took over three hours to translate the dispatch, and at 4 o'clock in the morning all visitors were ordered ashore and the Charleston hastily put to sea. The vessel is provisioned and coaled for a long cruise, and instead of going outside to try her guns, as was the general supposition at first, it is said she has gone in pursuit of the Chilian steamer Itata, with orders to capture her. If the Charleston does not catch her her orders are to keep on until Admiral Brown is encountered in Chilian waters. The transfer of arms and ammunition from the schooner Robert and Minnie to the Itata was not completed until Friday afternoon, so that the insurgent vessel has a store of thirty-six hours and 500 miles. The Charleston would have returned to this port by this time if she had gone outside simply for target practice.

LOS ANGELES, Cal., May 11.—Before the schooner Robert and Minnie was captured by the United States Marshal Supercargo Burch and Pilot Dill, who took the Itata out of San Diego harbor, went ashore. Dill was arrested at San Pedro. Burch came to Los Angeles and was traced by a reporter to the Arcade depot, where he was waiting to take a train to San Francisco. Burch at first denied that he was the man wanted, but afterward acknowledged it and was arrested by Detective Harry Morse and is now in custody of the United States marshal. Burch says he landed the arms, but declines to say at what point, but it is supposed to have been at Catalina or San Clemente island. He insists that he has violated no law and seems to be confident that he will be released. He said that he had not violated a single maritime law nor had he violated those relating to neutral powers.

Burch said he was confident that the Itata could not possibly have been detained by force at the command of the United States marshal, as her crew would most certainly have resisted any attempt to board her. He also expressed surprise that Marshal Gard did not seize the schooner when he went out to her in a tug if she was to have been seized at all. Burch has telegraphed the facts as to his arrest to Senator Trumbull, has engaged attorneys and will fight the case, but appears to be expecting advice from Washington ordering his release.

Pilot Dill, of San Diego, came up from San Pedro with United States Marshal Gard. Dill says he had no alternative but to take the Itata to sea. He says the captain put three armed Chilians on either side of him and remained himself with a revolver to see that he did not run the steamer aground. He says he saw fifty or sixty armed men on board, but there may have been more. There were two cannons on the forward deck and he was told that there were six more cannons and two gatling guns on board. Dill says he is confident that the vessel would have resisted any attempt to detain her, as it was a matter of life or death. He says the Itata was a veritable man of war when he took her out of the harbor, but had the appearance of a merchant vessel when he brought her in.

SAN DIEGO, Cal., May 11.—The United States man of war Omaha steamed out of the harbor Saturday, and after passing the heads stood out to sea in a southerly westerly course. Commander Cromwell received a mass of correspondence in either from his department, and it is understood that he has instructions to cruise around the Coronado islands and San Clemente to find out, if possible, where the Robert and Minnie met the Itata, and to pick up the schooner if sighted.

## ALL PROBABLY LOST.

A Steamer Founders with Fifty-Five Colonists on Board.

TACOMA, Wash., May 11.—The steamer Lucy Lowe has foundered in the straits of Juan de Fuca with fifty-five colonists on board. The party, numbering fifty-six, left Tacoma April 21 to settle on land near the mouth of the Guadalupe river, but were beaten back by high seas and became short of food. John Grant, of Tacoma, the only survivor, returned here Saturday. He believes the entire party has been lost. A search party is being fitted out.

## STOCK TRAIN WRECKED.

Four Trains Instantly Killed, Cars Demolished and Stock Destroyed.

SANTA FE, N. M., May 11.—A stock train consisting of twenty cars was wrecked Saturday night near Trinidad through the engineer losing control of the brakes while going down a steep grade. Four trains were instantly killed and the twenty cars were demolished. Over 300 head of live stock were killed and as many more seriously injured. The trainmen escaped with slight hurts.

## GROCERIES IN A BLAZE.

The Great New York Wholesale House of Leggett & Co. Burned Out.

NEW YORK, May 11.—A disastrous fire visited the wholesale grocery house of Francis H. Leggett & Co. at the junction of Varick, Franklin and West Broadway at 3:30 Sunday afternoon. The immense stock of groceries in the building were almost completely destroyed and the building was badly damaged. The damage to the stock is estimated at \$400,000, while the building was damaged to the extent of \$50,000. The stock was insured for \$500,000.

One of the most notable features of our financial fabric has been the remarkable growth of building and loan associations. It is only a few years since this co-operative plan of saving money and providing funds for home building was first tried in Philadelphia. In the West particularly they have almost monopolized the field of the savings banks, and also for small real estate loans.

The Revenue Indemnity gives a process for preserving sheet-iron smoke-pipes and chimneys from rust, which may be found useful. According to this, nothing is necessary but to paint the pipe thoroughly, either with coal or wood-tar, then fill it with shavings and set them on fire. The heat roasts the tar; and at the same time, opens the pores of the iron, which appear to become filled with carbon, and to be thus preserved from rusting for an indefinite period. A smoke pipe is mentioned which was thus treated twenty-six years ago, and is still in good condition.

**Notice.**  
My theme next Sunday evening, May 17th, will be:

"To what extent did Mr. H. L. Broadbridge, of Detroit, outrage true public sentiment, as to justify the gathering of a mob in front of the Methodist Episcopal church, in this village, on the night of the 6th of April last, threatening to do him personal violence?"

J. H. MCINTOSH.

### Unsettled Items.

Mrs. E. Marshall is visiting her daughter, Mrs. May, at Stockbridge.

Frank Richmond and wife have settled down to housekeeping on the Pangborn place.

The Chalker and Hopkins families moved last week to the old A. Chalker farm in West Putnam.

Mrs. L. Barton and F. Hoard have been on the sick list during the past week. Grandma DuBois is some better.

Representative Rowden, of Bay County, came over from Lansing, and spent Sunday with Mrs. Rowden's uncle, William Gilbert.

Lyndon has some hushers. Jas. Gilney beat John Webb planting corn which is contrary to custom, also J. W. Barton has a cow that gives 40 quarts of milk per day, but it is not so rich as the lactated fluid given by Jas. Mackinder's Bovines, under which he has to build a fire before milking, so it is said.

**Spraying Trees.**  
Professor A. J. Cook, who is a noted "bugologist," and can give farmers some valuable hints on how to treat injurious insects, writes regarding the spraying of apple trees: "It pays well, very well, to spray apple trees. The spraying should never be done till blossoms all fall from the trees. Unless heavy - very heavy rains come, one spraying is enough, otherwise two will pay - second three weeks of the first. Use one pound of London Purple or Paris Green to 200 gallons of water; apply thoroughly with force pump. Spraying before blossoms fall is too early for insects and kills the bees. Bees are a great advantage to the fruit."

**Ordinance No. 27.**  
An Ordinance relative to and designating the time of closing of saloons, restaurants, bars in taverns, and all other places of public resort, where malt, vinous or intoxicating liquors are sold or kept for sale shall be closed.

The Village of Chelsea Ordinances.

SECTION 1. All saloons, restaurants, bars in taverns or elsewhere, and all other places except drug stores, where malt, vinous, or intoxicating liquors are sold, or kept for sale, either at wholesale or retail, shall be closed on the first day of the week, commonly called Sunday, on all election days, on all legal holidays, and until six o'clock of the following morning.

SECTION 2. Any person or persons who shall violate Section One of this ordinance shall be deemed guilty of a misdemeanor, and if found guilty before any Court having jurisdiction, shall be punished by a fine not to exceed Fifty Dollars, or by imprisonment in the County Jail not to exceed Thirty Days, or both such fine and imprisonment, in the discretion of the Court.

SECTION 3. All Ordinances or parts of Ordinances inconsistent with this Ordinance are hereby repealed.

SECTION 4. This Ordinance to be in force from and after twenty days after its passage.

Approved May 1st, 1891, by order of the Village Board.

WILLIAM BACON, President.

ALBERT E. WINANS, Clerk.

**Commissioner's Notice.**  
STATE OF MICHIGAN, county of Washtenaw. The undersigned having been appointed by the Probate Court for said County, Commissioners to receive, examine and adjust all claims and demands of all persons against the estate of Peter Schwilke, late of said County, deceased, hereby give notice that all persons having claims against the estate of said deceased, are to present their claims against the estate of said deceased, and that they will meet at the office of Lehman Bros. & Co., in the Village of Chelsea in said County, on Wednesday the 8th day of July, and on Thursday the 9th day of October, next, at 10 o'clock A. M. of each of said days to receive, examine and adjust said claims.

Dated April 28th, 1891.  
CHARLES NEUBERGER, Commissioner.

## Mortgage Sale.

WHEREAS, default has been made in the payment of a certain mortgage of mortgage, dated the 1st day of July, A. D. 1889, made and executed by Lemmon E. Sparks and J. E. Sparks, his wife, to Emma J. Hatch, by which default the power of sale therein contained has become operative. Said mortgage was on the 4th day of August, 1889, duly recorded in the office of the Register of Deeds for the County of Washtenaw, State of Michigan, in Liber 44 of mortgages, on page 74. There is now claimed to be due and unpaid on said mortgage the sum of Three thousand Six hundred and Seventy-six and 25/100 dollars (\$3,676.25). No proceedings have been instituted either in law or equity to collect the amount so due and unpaid on said mortgage, and therefore notice is hereby given that by virtue of the power of sale contained in said mortgage, and in pursuance of the Statute in such case made and provided, said mortgage will be foreclosed by a sale of the premises therein described at public auction or vendue, to the highest bidder, at the South front door of the Court House in the City of Ann Arbor in said County, (that being the place of holding the Circuit Court for said County) on Friday the 3rd day of July, A. D. 1891, at eleven o'clock in the forenoon of said day, to satisfy the said due as aforesaid, and the costs of this proceeding, including an attorney fee of Twenty Dollars, and the costs of advertising and agreeing to the Statute in that behalf, as well as the further interest to accrue on said mortgage.

Said premises are described in said mortgage as follows, to-wit: All that certain place or parcel of land situated in the Village of Chelsea, County of Washtenaw and State of Michigan, described as follows, viz: Village Lot Number Sixteen (16) in Block Number Six (6) according to the recorded plat of said Village of Chelsea, including the Flouring Mill, all the Machinery, Tools and Apparatus therein, and all the contents thereof, and including in said mortgage all Machinery, Tools and Apparatus which may hereafter be purchased and placed in said Mill, and upon said premises for the use of the same.

Dated, Chelsea, Mich., in this 9th day of April, 1891.  
LEHMAN BROS. & CAVANAUGH, Attorneys for Mortgagee.
