THE four-masted ship Shenandoah, the finest and largest sailing vessel that ever flew the stars and stripes, reached San Francisco May 25 after a voyage of 120 days from New York. Her fastest run was thirteen knots an hour for twenty-four hours. There is only one larger sailing ship afloat, the French five-masted steel ship France. Faster time than the Shenandoah has been made often between New York and San Francisco, but by much smaller ships. Her length is 399.7 feet, her breadth 49.1 feet and her depth 28.5 feet. She spreads 11,000 yards of canvas. Her net tonnage is 3,358.47 tons.

ANOTHER BIG THEFT.

The Discovery Made that \$445,000 of Philadelphia's School Funds Found a Resting Place in Treasurer Bardsley's Pocket—His Stealing Now Amount to Over \$2,000,000—Assistant United States Treasurer Nettleton's Name Brought into the Bank Scandal.

PHILADELPHIA, June 13.—Another startling discovery of Bardsley's stealings as city treasurer was made Friday. The auditing committee, appointed by the mayor, found that in addition to his embezzlement of over \$1,300,000 of the state's money Bardsley stole \$445,428 of school funds paid to him by the state treasurer for the year ended June 30, 1891. This is the lost money locked up in the two broken banks, will aggregate a total loss to the city of \$1,000,000 and to the state of \$1,300,000, in all \$2,300,000 so far as discovered. This school money was a part of the annual appropriation made by the state to the city of Philadelphia as its pro rata share of the state school fund. This money was paid to Bardsley in various amounts from March, 1889, until December, 1890, and should have at once been paid into the city treasury. It does not represent any part of the \$930,000 which Bardsley claims to have paid into the Keystone bank and for which he holds Marsh's due bills. What he did with this nearly half a million but adds to the astonishing mystery surrounding his gigantic robbery. It is not supposed that Bardsley has even told his counsel of this school fund stealing.

The investigating committee of the council met Friday afternoon, and John R. Read, assistant district attorney, appeared before it and made a personal explanation of his course in acting as attorney for the Keystone bank as a member of the law firm of Read & Pettit. State Auditor-General Shapley read a statement in which it was shown that there was still due the state from licenses, municipal loans and state taxes on personal property collected by John Bardsley for the year 1890 a total of \$815,715.

Ex-Director of Public Works L. E. Wagner was on the stand and was asked what he knew about the Spring Garden bank. Gen. Wagner, who before he was approached on the subject of the presidency of the bank was a candidate for the reevehip of the bank, testified that when he first went to the bank on the subject of the presidency he said to Bank Examiner Drew that he understood that the reevehip had been settled and that it was to be Nelson P. Evans, president of the Spring Garden Insurance Company and director of the Spring Garden bank. Gen. Wagner also added that he understood that Mr. Wanamaker was backing Mr. Evans for the position. In reply Mr. Drew said to Gen. Wagner: "No, I think you are mistaken. Mr. Wanamaker has nothing to do with it. Now that explains something I did not understand. Assistant Secretary Nettleton is a great friend of Evans, and he is probably backing him for the position. It also explains some accounts at the Spring Garden I did not understand, where Nettleton appears as a large borrower." Gen. Wagner said that he had since looked in the papers for the name of Assistant Secretary Nettleton as one of the debtors of the bank, but had not seen it.

W. P. Drew, the national bank examiner, was seen in regard to the statement attributed to him by Gen. Wagner that Assistant Secretary of the Treasury Nettleton was a large borrower of the Spring Garden bank. When first asked if he had made such a statement to Gen. Wagner, Col. Drew said it was absolutely false, that he had never told Gen. Wagner such a thing. Col. Drew afterward withdrew his sweeping denial and qualified it by saying that he had no recollection of having said anything on the subject.

WASHINGTON, June 13.—The attention of Mr. Nettleton, the assistant secretary of the treasury, was called to the testimony of Gen. L. E. Wagner before the council's committee of Philadelphia investigating the bank scandal. After reading it Mr. Nettleton said: "I never backed Mr. Nelson P. Evans or any other person as a candidate for the reevehip of Philadelphia. I suggested his name simply because I had known him long and believed him every way. I have borrowed no money from the Spring Garden bank but it is probable that certain accommodation notes on which I am responsible are in that institution. If so I am simply among the losers by the bank's failure, which I regret."

COLLAPSE OF A BIG FIRM.

The London & Liverpool Clothing Company fails.

NEW YORK, June 13.—A series of unfortunate complications and continued bad business caused the assignment of two of the largest retail clothing houses in the city. They are the London & Liverpool Clothing Company, at Bowery and Hester street, and Mack & Co., at Nos. 405 and 467 Broadway. Both concerns, although apparently under separate management, were owned and controlled by Isidor Rosenheim and Isaac S. Mack. Their liabilities are estimated at about \$250,000 and the assets at from \$175,000 to \$200,000, most of which consist of merchandise on hand. The firm will probably be able to settle with their creditors on a basis of seventy-five cents on a dollar.

A GREAT GUN.

It is Expected to Throw a Missile for a Distance of 15 Miles.

ATLANTIC HIGHLANDS, N. J., June 13.—The 52-ton new steel breech-loading gun, the largest ever made in this country, has been landed at Sandy Hook. It was cast at Watervliet arsenal, West Troy, and is 34 1/2 feet long and has a bore of 34 feet. It will stand a charge of 44 pounds of powder. It is calculated to give a muzzle penetration in wrought-iron of 32 inches. It is said the gun will throw a distance of 15 miles, and when tested will give all the building on a basis of seventy-five cents on a dollar.

MANY STARVING TO DEATH.

Great Suffering Among the Foreign Population in the Argentine Republic.

SOUTHAMPTON, June 13.—Over 300 families have arrived here by steamers from Buenos Ayres, having been forced to leave there in consequence of the stoppage of work there and the lack of money. Nearly all are entirely destitute, and the Southampton authorities were obliged to provide them with food and other necessities. The foreign population, large numbers of whom emigrated there on glowing promises of highly-paid labor, are said to be in some cases actually dying of starvation.

IT SHAKES THE THRONE.

Great Indignation of the Middle Classes in England at the Prince of Wales' Connection with the Haeccart Affairs—Cumming Expelled from the Army.

LONDON, June 13.—The fate of Sir William Gordon Cumming is sealed, as far as the army is concerned, for the following paragraph is published in the Official Gazette:

"Warrant Office, June 13, 1891.—Scots Guards, Maj. and Lieut. Col. Sir William Gordon Cumming, baronet, is removed from the army; he may have no further occasion for his services."

"Dated June 10, 1891." The storm rising round the prince of Wales is fast obtaining intensity, endangering his chances of succession to the throne, if not the existence of the English monarchy. No class appears to be stirred so deeply as the great middle class, the real strength of the country and hitherto a solid and stolid prop of the monarchy. Wherever the voice becomes audible its earnest denunciations of the prince of Wales, accompanied by regrets at his nearness to the throne. Representative gatherings of religious bodies—Congregational, Methodist, Baptist, Unitarian and Presbyterian—have already recorded their condemnations. Boards of guardians are going out of their accustomed paths to discuss motions branding the gambling propensities of the prince of Wales as a disgrace to the country. Several liberal societies have adopted protests against his continuance in the army. The agitation has every character of permanence. It has not yet touched more than a fringe of the political parties, but ere long the glowing fierceness of the popular heat must penetrate to the core of politics, causing party action within and without parliament.

It is understood that the prince of Wales is keenly stung at the adverse press criticisms which have been showered upon him from all quarters. Especially is this the case in regard to the newspaper comments which practically accuse him of revealing the secret of the Tranby Croft scandal, and referring to the fact that he, the prince of Wales, was not asked if he had spoken of the affair to anybody, after Sir William Gordon-Cumming signed the incriminating document, while this question was put to all the other witnesses for the defendants. The prince of Wales emphatically denies that he divulged the secret to anybody.

The radical members of the house of commons are opening the attack on the prince of Wales, but they have been warned by Mr. Gladstone to desist from the movement and that the leaders of the opposition will actively show their repugnance to associating liberalism with an agitation tending to cast discredit on the crown. A group of radicals, meeting after Cumming's dismissal from the army was gazetted, concurred in the opinion that the leaders had mistaken the feeling of the nation; that even on party grounds it was impossible to neglect the duty to take the sense of parliament on the position of the prince of Wales and the others concerned. The radicals will not be content with anything less than action by the military authorities involving the same official reproof of the prince of Wales, Gen. Williams and Levett. The prosecution of Cumming and the others for illegal gambling will be made a part of the demand on the government, but it will not be earnestly pressed.

Court circles are much excited over the circulars of German emperor reflecting the opinion of Emperor William. It is believed that the emperor has written the queen a long and serious criticism on the prince's life, and dilating especially upon the gambling of officers as a grave offense to military honor and made worse by the signing of a paper permitting a colonel of the guards convicted of cheating to retain his commission in the army. The queen, it is said, forwarded the letter to the prince of Wales.

IN PROHIBITION'S BEHALF.

Temperance Advocates to Hold a Big Meeting on Staten Island.

NEW YORK, June 13.—From the 4th of July next to August 10, the National Prohibition Convention at Port Richmond, Staten Island, will be held. It will be a national affair in every sense of the word. Roger C. Mills, John J. Ingalls, J. P. St. John and many others of continental reputation will be among the speakers. It will be a remarkable series of meetings and the greatest concerted effort yet made in an educational way by the temperance cause. It begins the first season of the National School of Methods for Reforms. Work of a general reformatory nature will also be done. The international medical congress holds its meeting in the park on July 13 and 16, when N. S. Davis, M. D., of this city, will preside and deliver the introductory address. The Woman's Christian Temperance union will meet there on July 24, remaining in session three days. From August 7 to 10 the national prohibition party will be in conference with the Farmers' Alliance and other labor people. The auditorium on the grounds will have a seating capacity of 4,000.

Three Were Killed.

PITTSBURGH, Pa., June 13.—A coal train of twenty-five cars, while coming down a mountain on the Pennsylvania & Northwestern railway, got beyond the control of the trainmen and was wrecked. The conductor, engineer and brakemen were killed.

A Nebraska Bank Fails.

OMAHA, Neb., June 13.—Bradstreet received a report, Friday that the doors of the Central National bank of Broken Bow had been closed. In commercial circles the report created much surprise, in view of the long and substantial career of the institution. The deposits of the institution were the heaviest in the interior of the state. No idea can be obtained of the situation. It is said the trouble is the result of the great amount of paper the bank was carrying for farmers and business men in the surrounding country, and its inability to realize on the same in view of recent crop failures. Depositors will lose nothing.

Brakeman and Tramp Both Killed.

GRENELEY, Col., June 13.—While Brakeman, Dillon was attempting to get a tramp from a freight train the tramp shot and killed Dillon. The tramp then jumped from the train and started across the bridge over the Brakeman Matting, who shot the tramp three times, killing him instantly.

Changed in Baltimore.

BALTIMORE, Md., June 13.—William Braken was hanged in the jail-yard here for the murder of his grandmother and aunt in their home in this city on the night of May 3.

LACEY EXPLAINS.

The Comptroller Says the Delay in Closing the Keystone Bank Was Due to the Misleading Statements of Its Condition by Examiner Drew and a Fear of the Effect of Its Failure Upon the Financial Situation.

WASHINGTON, June 13.—The report of the comptroller of the currency, Mr. Lacey, to the secretary of the treasury, upon the Keystone bank of Philadelphia, is made public. It is a very lengthy document, making forty pages of type-written matter. It states that his first information was a communication from Bank Examiner Drew dated January 24, in which he stated that the accounts of the bank showed a hitherto concealed debt of \$900,000, which had been concealed by manipulation of the accounts for a series of years by changing the accounts taken by Lucas and so altering the individual accounts on the ledger as to make the aggregate credits fit the general account. This has been done with the connivance of Marsh, who was cashier during Lucas' life time and who became president at his death.

The report of Examiner Drew showed that property of the Lucas estate valued at \$225,000 had been secured through the assistance of the United States district attorney, and that it was hoped more might be added to it. He added that the directors expressed a desire to raise \$300,000 more to put into the bank. He also stated that Marsh had promised Lucas on his deathbed to continue the deception in the assurance that profits from investments made by Lucas with the abstracted funds would replace the entire amount.

Comptroller Lacey states that he recognized that the responsibility was a grave one, but that he determined to delay because of promises that the amount would be made good by the directors, and that an immediate closing of the bank would probably cause a renewal of the serious financial troubles and monetary stringency through which the country had but recently passed and produce widespread disaster. Nor could he have lawfully closed the bank, as it did not then appear that its capital was impaired.

He had entire confidence in Bank Examiner Drew, who was one of the oldest examiners, having served under Comptrollers Knox, Cannon, Tremblow and Lacey. He urged the examiner to complete his examination and present a revised statement of the condition of the bank.

On February 18 he received this report, which disclosed an impairment of capital of \$125,000, but did not indicate insolvency, as it still left the assets of the bank \$755,000.

The comptroller on March 3 received a final and formal itemized report of the condition of the bank, and then levied an assessment of \$250,000 on the association to make good the impairment of the capital, announcing that unless it was met a receiver would be appointed. A committee from the bank had in the meantime assured the comptroller that this would be met within one week.

On March 14 the examiner reported that none of the amount had been paid in and that several of the directors elected in January had failed to qualify and did not seem inclined to zealously cooperate. He had also been unable to supply the vacancies in the board of directors.

To this Comptroller Lacey replied on March 17 that unless the payment of the larger amount of the assessment was made in five days he would take peremptory action. On March 19 Marsh visited the comptroller and after a statement from him the comptroller ordered the bank closed. He also consulted the department of justice as to the arrest of Marsh, but was advised against it, as it was not thought a man who voluntarily confessed the Lucas defalcation and made a trip to Washington to give details would attempt to flee.

As to the delay in closing the bank, he had no power to do so until an impairment of capital and failure to make the same good was shown, or he was satisfied of the insolvency of the bank. As soon as this point was reached the bank was closed.

The comptroller states very explicitly that Mr. Wanamaker, although holding 2,500 shares of the bank which he had received from Lucas as pledged certificates, never directly or indirectly suggested delay in closing the bank or appointment of a receiver, except in one telegram on April 2, in which he said that Marsh had indicated good progress in securing subscriptions, and that one day's delay in the appointment of a receiver would be advisable.

Mr. Lacey says he should not be blamed for allowing Marsh to remain in office so long after his confession. He supposed that Drew and United States Attorney Read would do whatever was necessary in the way of prosecuting Marsh if circumstances warranted it. Mr. Lacey further says that Mr. Wanamaker never suggested delay in the appointment of a receiver except to send him a telegram April 29 saying that no harm would be done by delaying the appointment twenty-four hours longer.

He closes by saying that Bank Examiner Drew's several reports did not, in his opinion, reflect the true condition of the bank, and that he has been suspended until a fair and impartial investigation of his course can be made.

Mexican Mustang Liniment

Medicine, Rheumatism, Sprains, Strains, Stitches, Stiff Joints, Burns, Scalds, Stings, Itches, Bruises, Swellings, Cuts, Lacerations, etc.

THIS GOOD OLD STAND-BY accomplishes for everybody exactly what is needed. One of the reasons for the great popularity of the Mustang Liniment is found in its universal applicability. Everybody needs such a medicine. The Housewife needs it for general family use. The Farmer needs it for his teams and his men. The Mechanic needs it always on his work bench.

The Miner needs it in case of emergency. The Pioneer needs it—can't get along without it. The Farmer needs it in his house, his stable, and his stock yard.

The Steamboat man or the Boatman needs it in liberal supply aboard and ashore. The Horse-fancier needs it—it is the best friend and safest reliance.

The Stock-grower needs it—it will save his thousands of dollars and a world of trouble. The Railroad man needs it and will use it as a life and a round of accidents and dangers. The Backwoodsman needs it. There is no place where it is not an antidote for the dangers to life and limb and comfort which surround the pioneer.

The Merchant needs it about his store among his employees. Accidents will happen, and when some one of the Mustang Liniment is wanted at once, keep a Bottle in the House. 'Tis the best of economy.

MICHIGAN LEGISLATURE.

SENATE.

LANSING, Mich., June 8.—A new sensation was sprung in the senate on Saturday in the form of charges of bribery against the Friedlander, the senator who was given the seat of Benjamin C. Morse (rep.) during the absence of the republican majority of the senate attending the party state convention. Friedlander is accused of bribery and treachery to his constituents in accepting a bribe of \$300 for his aid in carrying the senate bill for the consolidation of the rival cities of Okeana and Asa, in Isosco county.

LANSING, Mich., June 10.—The senate yesterday passed the house bill providing for the election of county commissioners of schools and the appointment of examining boards to assist them, and also concurred in the house bill for the Benson free text-book bill.

The house bill detaching territory from Manistowick county and attaching the same to the county of Leelanau was killed. The contempt proceedings against William C. Graves, the Detroit Tribune correspondent, for refusing to answer questions asked him by the special committee engaged in investigating the bribery charges brought against the senator, were quashed.

LANSING, Mich., June 11.—The senate yesterday passed the house bill, amending it so that no bill should be introduced in the upper peninsula only from October 1 to November 1. A bill was also passed placing all special charters on railroads on the same footing as other roads in the matter of taxation, and also abolishing all special railroad taxes and substituting local taxation instead.

LANSING, Mich., June 12.—The senate yesterday passed the Richardson house bill providing for bringing all railroads of the state under the general taxation purposes, and also the senatorial apportionment bill, and the bill making ten hours a legal day's work and requiring that employees be given extra pay for extra work. The bill makes it a misdemeanor for employers to coerce employees into signing contracts waiving the above provisions.

LANSING, Mich., June 13.—A bill passed the senate yesterday abolishing the entire electric tax system relating to mining property and placing it upon the same basis as all other property for purposes of taxation. Adjourned to Monday evening.

LANSING, Mich., June 8.—The house held a short session on Saturday and adjourned until 9:15 p. m. Monday evening.

LANSING, Mich., June 10.—The house yesterday passed the senate bill for a consolidation of the penal institution boards of control after making a sweeping reduction in salaries. Those of the wardens of the prisons and of the superintendents of the criminal insane asylum and of the reform school were reduced from \$2,200 to \$1,400 with board; those of deputy wardens and clerks from \$1,200 to \$1,000, and all provisions for board and subordinate officers were struck out. Bills were also passed appropriating \$2,000 for the support of the state board of pardons and the charter of the Lake Shore & Michigan Southern railway and bringing it under the provisions of the general law for a reorganization of "charitable institutions."

The committee on public health has by a vote of 10 to 9 recommended the bill abolishing the sale of tobacco in any form to minors under 17 years of age, and establishing a state homeopathic medical college at Detroit, and also recommended the bill abolishing the state board of health.

LANSING, Mich., June 11.—The bill appropriating \$50,000 for the fish commission this year and next passed the house yesterday. Although Reporter Graves, who made sensational charges against Doyle and Muntz, escaped punishment for contempt, the house voted to expel him from the chamber.

LANSING, Mich., June 12.—In the house yesterday the bill appropriating \$30,000 for the maintenance of the National G. A. R. at Detroit, which had passed both houses by a two-thirds vote, and was vetoed by the governor, came up for reconsideration and failed to pass over the veto. The bill providing for the payment of bounties to soldiers still remaining due after amending it so as to apply only to bounties promised soldiers who enlisted under the call of February, 1862, was passed.

LANSING, Mich., June 13.—The house yesterday passed the senate bill repealing all specific taxes on mines and providing that hereafter they shall be taxed locally the same as other property. The state last year realized about \$75,000 from taxing the mines specifically, but the counties got the title. The bill also repeals the law which exempted from state taxes 40 acres for each mining company. The conference committee reported a substitute for the congressional quarryman. It makes changes from the bill which passed the house only in the proposed second and sixth districts. Adjourned to Monday evening.

WANT TO GO TO EUROPE.

President Harrison Asked to Choose Two Women for the Immigration Commission.

WASHINGTON, June 12.—Mrs. Charlotte Smith, president of the Woman's National Industrial league of America, has written a letter to President Harrison earnestly urging the appointment of two women on the board of commissioners to investigate the immigration problem in Europe. The letter calls attention to the great immigration of women of all classes into the United States from Canada and Europe, many of whom it is asserted are brought over here for immoral purposes. Great numbers of them it is also alleged are imported to take the places of American women in mills and factories and clothing establishments at greatly reduced wages. The smuggling of Chinese into the United States and the displacement of American help by this cheap labor is spoken of. It is urged that female inspectors would be able to greatly aid the American working women in their struggle for a livelihood and do better duty than men.

DEVASTATED BY FIRE.

More Than 100 Miles of Territory in New Brunswick Swept by Flames.

ST. JOHN, N. B., June 12.—Forest fires are raging with unabated fury in the northern section of the province. Unless there is an immediate and heavy fall of rain much additional damage must follow. Over 100 miles of country have been made desolate, and among the poor settlers it is a case of ruin. The result will be severely felt by the lumber men, as many valuable timber areas have been swept away. Never in the history of the province has such damage been caused by fires in the forests, and a bad feature is that none of the settlements have any adequate means of quenching the flames.

RUSSINSTEIN is making a book on Music and Musicians, excluding references to living men. He makes the interesting declaration that instead of being reformers, Wagner, Liszt and Berlioz placed serious obstacles in the path of musical progress.

The duke of Sutherland, who is something of a musical enthusiast, has erected a large organ in the grand hall at Stafford house, London. The instrument, which is the largest and most complete of any in private residences in England, is blown by a hydraulic engine, and cost \$20,000.

A. M. SLOAN, of Greenburg, Pa., has a portrait of Gen. Grant that he prizes very highly. It was painted from life by an artist who afterwards was forced to part with it because of poverty.

OUR BANNER.

The National Emblem Will Contain Forty-Four Stars After July 4.

WASHINGTON, June 15.—Another star will glitter in the national flag July 4. This is not because of any recent admission to statehood, for there has been none. But the law requires that the admission of a new state shall be signaled in the national banner from the independence day following the admission. The new star which will find a place July 4 this year will stand for Wyoming. That vigorous young commonwealth came in after last independence day by just a week or so. Idaho had been more lucky as the president had signed the bill admitting it the evening of July 3, so it has had its star all the year. With the one added for Wyoming the stars will number forty-four. It promises to be several years before any more territories are admitted into statehood, so that the emblem is not likely to undergo further change for some time to come. In unofficial flags the admission of Wyoming has been recognized by its extra star for nearly a year past, and the grouping of the stars has been according to the individual flag makers. It is left for the army emblem to fix the grouping according to the government's idea. This is done in the order just issued by the war department as follows:

The field of the national flag in use in the army will, on and after July 4, 1891, consist of forty-four stars in six rows, the upper and lower rows to have eight stars, the second, third, fourth and fifth rows seven stars each in a blue field.

Every flag flapping as the sign of authority of the national government will henceforth conform to this order. The flags with less than forty-four stars and with the old grouping will not be at once condemned, for the government does not go to that extravagance. But as the new emblems are called for the new order will be observed and the old flags will gradually disappear.

THE PEOPLE'S PARTY.

Members of the Executive Committee Organize a Plan of Campaign.

ST. LOUIS, June 15.—The executive committee of the people's party was in session at the Laclede hotel Saturday. The committee consists of seven members, but Ignatius Donnelly, of Minnesota, and David of Texas, wrote that they would not be able to present. The members were: H. E. Taubeneck, of Illinois; George F. Washburn, of Massachusetts; William Weaver, of Iowa; A. O. Wilkins, of Kansas, and M. C. Rankin, of Indiana. The committee was in executive session all day and adjourned subject to the call of the chair. It was agreed to make the special features of the campaign the support of the subsensory scheme in modified form, the government to loan money on real estate and non-perishable farm products. The government ownership and control of railroads are to be advocated and the wage earners are to be supported in their fight against the encroachments of capital. A constitution was drafted for the organization of county clubs all over the country; a resolution against fusion or consolidation with any other party was passed, and another authorizing committees in states without any organization to appoint associates to help them. A bureau of information is to be organized by the secretary and an address to the people of the United States is to be issued. It was decided not to call a national convention until after the all-ances meet at Cincinnati next February.

SUFFERING WITH RABIES.

Dogs and Cattle in the Vicinity of Dunlap, Ia., Going Mad.

DUNLAP, Ia., June 15.—There is considerable excitement a few miles east of Dunlap over dogs and cattle going mad. Within ten days past thirteen cattle have been shot in one neighborhood, eight of them from the herd of George Runnels. The cattle appear to be "dumpling" and then refuse to eat, becoming excited and wild, frothing at the mouth and starting at any moving object. One man was chased through the brush and trees for over a quarter of a mile before he could escape from one of the mad cattle. Mr. Runnels had eighteen head of cattle in this pasture and whenever there is any sign of the disease apparent in an animal it is shot. About twenty dogs in the vicinity have been killed. The symptoms were identical with those of the cattle. A child of James Fantz was given milk from a cow that was shortly afterwards affected. The child shows symptoms of hydrophobia and is in a critical condition.

HIS CAREER ENDED.

Gerónimo, the Noted Mexican Stage Robber, Killed.

TUCSON, A. T., June 15.—Deputy Sheriff Gray arrived here Saturday morning with the body of the notorious Mexican stage robber, Gerónimo, and Leon, his accomplice. They had been robbing stages in southern Arizona during the last five years, and officers have been after them continually. Friday night Gray and his posse ran them down in the mountains near Pantano. They made a fight and Gerónimo fired five and Leon three shots without effect. Gerónimo was killed and Leon surrendered. Gerónimo robbed the United States mail and stage passengers more than a dozen times and has committed many murders. He was captured several times and escaped. Leon, his accomplice, up to six months ago was a deputy sheriff.

A DOLLAR SHORT.

Result of the Count of the Cash in the United States Treasury.

WASHINGTON, June 15.—The count of the cash in the vaults of the treasury consequent on the recent change in the office of treasurer has so far resulted in the discovery of a discrepancy of one dollar. This is missing from a bag of silver in a vault containing nearly \$70,000,000. The bag broke open by its own weight and the decay of the canvas and its contents were scattered among the other bags in the vault. It contained 1,000 gold dollars, all but one of which were found.

Big Fire in the Quaker City.

PHILADELPHIA, June 15.—Between 1 and 2 o'clock Sunday morning fire broke out in the main building of the Philadelphia Abattoir Company. The machinery and 1,000 carcasses of beef and 10,000 green hides were consumed. The loss will be about \$75,000, covered by insurance divided among fifty companies.

Heavy Failure in London.

LONDON, June 15.—Tonerfield, May & Co., wholesale merchants, have failed with liabilities amounting to £250,000. The concern is the outgrowth of an old Oporto house.

EUROPE IN AFRICA.

FRANCE'S possessions in Africa amount to 7,400,000 square kilometers, peopled with 24,000,000 inhabitants.

GERMANY'S possessions in the dark continent amount to 2,300,000 square kilometers of land, on which are located 7,800,000 inhabitants.

ENGLAND holds sway in Africa, including Egypt, over 5,000,000 square kilometers, with inhabitants to the number of 32,000,000.

LITTLE Portugal has managed to get control of 2,500,000 square kilometers of African land, and its rule extends over a population there of 10,000,000 people.

they have but an smattering of many and
not much of any.

One familiar English word of ours—
"hurrah"—says Sarah Orne Jewett in her
interesting work on the Normans, is said
to date from Rolf's reign. "Rou," the
Frenchman called our Rolf; and there was
a law that if a man was in danger himself
or caught his enemy doing any damage
he could raise the cry, "Ha, Rou!" and so
invoke justice in Duke Rolf's name. At
the sound of the cry everybody was
bound on the instant to give chase to the
offender, and whoever failed to respond
to the cry of "Ha Rou!" must pay a
heavy fine to Rolf himself. Thus began
the old English fashion of "hue and cry,"
as well as our custom of shouting "Hur-
rah!" when we are pleased and excited.

In Memoriam.

Last Monday evening at 10 p. m.,
Miss Margaret Howe, daughter of
Mrs. Thomas Howe of Waterloo,
died rather suddenly after an illness
of two days. Miss Howe had always
been in poor health, but she bore her
affliction with christian patience and
resignation. Her remains were en-
closed in a casket of pure white, and
six of her young friends, dressed in
white, carried her to her last resting
place. Her funeral was held from
St. Mary's church Wednesday morn-
ing, June 17, 1891, Rev. Father
Considine officiating, and the church
was filled with her many friends.
Miss Howe was a girl of gentle and
lovable character, and she will be
missed, not only by her immediate
relatives, but by hosts of friends.

The exquisitely beautiful lines of
America's sweet poet, Longfellow,
come into mind at a death like our
friend's:

And the mother gave, in tears and pain,
The flower, she most did love;
She knew she should find her all again,
In the fields of light above.

O, not in cruelty, not in wrath,
The Reaper came that day;
Twas an angel visited the green earth
And took the flower away.

Obituary.
John H. Barker, who came from
England fifty-three years ago, and
has lived in Sylvan ever since, died
on Wednesday, June 10th, 1891, of
fatty degeneration of the heart,
aged 74 years. Mr. Barker was
highly respected by those who knew
him, and his funeral was largely
attended on Friday. He was the
father of nine children, of whom
six are living to mourn his loss.

Card of Thanks.
The children of the late John H.
Barker hereby express sincere and
heartly thanks to their neighbors
who so kindly assist them during
the sickness and at the burial of
their father.

A Boom for Chelsea in the way of a New Manufacturing Industry.

Arrangements have been made
with the Strong Oil Stove Company,
of Homer, Mich., to locate their
factory at this place. A co-partnership
has been formed under the name of
The Glazier-Strong Oil Stove Co., for the purpose of manu-
facturing Strong's "Perfect" oil
heating and cooking stoves, which
are the marvel of the age.

The Creamery buildings have
been completely overhauled, re-
modeled, and fitted up with the most

modern and complete machinery for
the business. Nothing in the way of
improved machinery that could possi-
bly be used to advantage having
been overlooked.

The accompanying cut of the
"Perfect" heater will give you a
little idea of their general appear-
ance. You must see one of the
stoves, however, to fully appreciate
their beauty, and many points of
intrinsic merit. The stoves are cer-
tainly all that their name implies,
"Perfect."

They possess many new and use-
ful features, intirely doing away
with all the objectionable points that
have been urged against oil stoves in
general. They are perfectly safe
and easy to handle.

Their air heating capacity is won-
derful, being about three times that
of any other oil heater. The trucks
on which the stoves are rolled from
room to room with perfect ease, their
combination nickel jacket, and light
shut-off device, are unique features,
which together with many other im-
provements place the "Perfect" far
in advance of all other oil stoves.

The factory will have a capacity of
about fifty stoves per day and will
commence turning them out in
about three weeks.

Boynton, Rockwell and Killam fami-
lies was held at the residence of Mr.
Irving Storms, in Lima, June 11th,
and if there was any one present
that did not enjoy themselves, it
was their own fault. At noon din-
ner was served to all in attendance,
after which the President called the
Society to order. The exercises were
opened by reading of Scriptures and
prayer by Rev. A. B. Storms, of the
Woodward Ave. M. E. church, De-
troit, followed by music, recitations,
declarations, etc. After the various

exercises was over the President in-
troduced Rev. A. B. Storms, of De-
troit, who delivered the annual ad-
dress, taking for his subject the
"Typical American," showing how
the mingling of different national-
ities will, in the future, produce a
more perfect man, morally, physically
and intellectually. Those who
listened to the address will remem-
ber the sentiments expressed, until
many a reunion has passed by, for it
was a masterly effort, and could only
be appreciated by those present.
