Chelsea Savings Bank. Date, Mar. 10th, 1891.

State Law Guarantee Fund and Capital Deposits, Mar. 10th, 1891 Invested in Choice Bonds, Mortgages and approved

Cash on hand and in banks If you have money deposit it in the Chelsea Savings Bank, that it may earn for you interest, or until wanted, that you may be free from care and fear of loss by

fire, thieves or otherwise. If you need

to borrow money, upon good approved security, the Chelsea Savings bank will be

glad to supply it for you. The Chelsea Savings Bank has recently had built for it one of the strongest safes made, being the new patterns of the Mosler Bank Safe Companies, Round Screw Door, Laminated Chrome Steel, Burglar and Dynamite Proof Safe, with no keyhole, spindle or other connection through the door or walls, nor any access to the lock from the outside, the door being screwed in and held secure by a Double Chronometor Time Lock from inside. It is considered the strongest and best security ever devised against efforts of burglars. The safe is protected by a large new fireproop vault made necessary to store the upwards of twenty years' accumulation of books and papers of its business, and the whole premises are further protected by an Electric alarm System, which gives instant warning of trespassers at night.

great prosperity, and his people half his recovered by the worms, the advance closed, to count cash and balance Don't forget that the Herald office is prepared to do all kinds of Job Work Cheap, and on short notice.

More people born in Vermont reside out of the state than in it.

A PAPIER-MACHE trunk is one of the ideas. The baggage-smasher finds it mactically indestructible. According to the most recent census

returns London has a population of 4,500,000, Paris of 2,450,000, Berlin of 1,574,485 and St. Petersburg of 1,000,000. A MEXICAN woman who is said to be 105 years old has filed her final entry

for 160 acres of land in Stanislaus county, Cal. She is hale and hearty and the mother of twenty-five children. EXPERIMENTS at the McGill university in Montreal show that a signal may be flashed through the round cir-

cuit of eight thousand miles of ocean cable in the average time of only 1.05 THE great seal of the United States homa. is affixed to nothing but treaties, proc-

lamations, commissions, pardons and States during the seven days ended on passports. The government has had the 18th numbered 239, against 214 but two seals in the one hundred years to preceding week and 190 for the corsince its foundation. LORD RANDOLPH CHURCHILL is not suffering any of the privations of

Stanley in his travels through Africa. He carries with him two French cooks. cows and goats for fresh milk, and a prisonment. supply of champagne. CAPT. GEORGE DEWEY. of the navv.

has lived for the last five years with Capt. Dewey was lying ill from liver disease at Malta in 1886.

THE true test of genuine American the light so that you can discern two lines running parallel across its length: these are a red and a blue silk thread inside the paper; no counterfeit has

THE amount of coloring matter stored in coal is such that one pound of the mineral yields magenta sufficient to color 500 yards of flannel, aurine for 120 yards, vermilion for 2,560 yards, red cloth.

This is a season of dreadful tragedies. There are disasters of various sortsbuildings crumble, and death is in their ruins; ships sink, and railroad trains carry their passengers to destruction. Of course, these are but coincidences. yet sometimes these unfortunate occurrences come in groups as if there were

In one of the Paris papers an Amergrave, although there are thousands of Americans in Paris. The writer says he found a ragged American flag administration of Gov. Hill. on the grave, and this he replaced by a new one. In all France there remains not one person named La Fayette.

RACERS such as the Teutonic charge from \$20 to \$40 more for a first-class passage to New York than other swift ships of the same line, but a good deal of the additional profit is absorbed by coal alone. The so-called five-day ships consume per day from sixty to eighty tons of coal more than other great steamships, and this item alone means an extra cost of from \$180 to

QUEEN VICTORIA is said to have made use for years of a mechanical device to enable her to rise in her carriage and bow to her enthusiastic subjects. Very strong springs are arranged under the carriage seat, and when the procession moves she can, by simply pressing a button at her side, be elevated into the defaulter to the amount of \$00,000. attitude of acknowledgment as often as the cheers of the lookers-on require. These might be called "mechanical bows," but the queen furnishes a very natural accompaniment of smiles.

Ex-QUEEN ISABEL, of Spain, heard the other day that a Spaniard who had once tried to take her life was in Paris, dying of hunger. "Send him five hundred francs," said Isabel to her secretary. "But your majesty knows that this man is an assassin, that it is he who-" "What difference does that make?" said Isabel. "You are absurd with your hatred and your ideas of vengeance. The unhappy man did not wish to kill me, but the party I represent. Be good, now, and do what I'

WITHIN the last ten years the average reduction in the time consumed in crossing the Atlantic has been two hours and thirty-six minutes per year. the next ten years the ocean greyhounds of 1901 will go across in about of increasing the speed will be offset, it is believed, by the saving effected in express car. the steward's department. By the time the seasiek passengers have got over their woes and acquired an appetite for something to eat their journey will be over, and the ship's larder will escape their hungry inroads.

WHILE ancient maiden ladies, publicists and statesmen are evolving devices to prevent eligible male persons from continuing bachelors, they have overlooked the point that marriage is not a failure in promoting length of life. A magazine writer collates much data in support of the averment that "marriage is a life preserver," and insists that "if longevity is desirable, then it is better that we should marry than remain bachelors; for it appears that at every age, from twenty to eighty- at Grand Island nominated Judge J. five, the death rate of the benedicts is H. Broody for member of the state very much smaller than that of their supreme court and F. A. Brogan and unmarried brethren."

THE world's trade in 1889, according to good statistical authority, amounted to \$15,885,000,000. Of this two-thirds is beyond the reach of American competition. The remainder is to be fou in Asia, Africa, Australia and North America outside of the United States. One-fifth of this is in South America, Mexico and the West Indies. The commerce of this field may be largely possessed by the United States if we choose Rapids & Northern train at a crossing of the American association were: to engage in active competition for it.

It lies at our very doors, inviting our enterprise, and it will be our own fault if we do not avail ourselves of the opif we do not avail ourselves of the op-portunity to appropriate it to ourselves. 78 years.

THE CHELSEA HERALD. Epitome of the Week.

INTERESTING NEWS COMPILATION.

FROM WASHINGTON. THE president and family have re-turned to Washington. In August the United States exported \$28,853,510 worth of breadstuffs and

A BULLETIN from the eensus office says the increase in the consumption of malt liquors which require hops in their manufacture in the United States was from 344,605,485 gallons in 1879 to 779,897,426 gallons in 1889.

In the first sixteen days of September the United States paid \$5,555,000 to

old soldiers for pensions. Ir was claimed at the Farmers' Alliance headquarters in Washington that fifty-five members of the lower house of the next congress would vote for all the measures of the alliance, and at least four in the senate.

Thirty-nine saloonkeepers were fined 840 and cost each in the circuit court at Marquette for keeping saloons open July 4. In imposing the fines, Judge Stone expressed regret that he could not in equity impose a severer penalty, as the real offenders were not before him in his official capacity. Some of the leading citizens of Marquette had guaranteed the saloonists immunity from prosecution, for violating the law regulating the liquor traffic on holidays, on condition that they would subscribe liberally to the celebration fund, thus fostering a spirit of lawlessness.

Milk Without Cows.

A stock company is soon to be formed at Kalamazoo for the purpose of supplying Chicago and that city permanently with milk, and especially during the world's fair. Mr. Parker, of Grand Rapids, has succeeded in making a preparation from corn, a pint of which added to four gallous of water and four gallons of milk makes a mixture impossible to be distinguished from pure milk. It was thought to be nutritious and could be delivered at Chicago at seven cents per gallon. The difference in taste could not be

Cracked the Safe. Cracksmen shattered the safe of J. S.

Stearns, at Stearns' siding, 6 miles west of Baldwin, and secured a little south. over \$1,000 and started The bills were fresh and The men were twenty-four hours too late, as the day before was pay day, and over \$4,000 was paid out. The men were evidently professionals, and doubtless knew the firm had a large sum in its possession.

Wants \$100,000 Damages.

Mrs. Emily T. McDonnell, of Port Huron, has commenced a suit against the Grand Trunk Railway Company for \$100,000 damages. On June 30, 1890. Mr. and Mrs. McDonnell were going to Niagara Falls. When near Cape Town the parlor car jumped the track and rolled down an embankment and Mr. McDonnell was killed and his wife internally injured. Workmen were engaged repairing the track at the time.

Short but Newsy Items. The body of a man, evidently a sail-

or, was washed ashore at Lexington. The Tittabawassee Boom Company has rafted over 200,000,000 feet of logs this season, and has 69,000,000 to 75,-000,000 yet to come out.

Rev. William Dumont was to have delivered a lecture at Kalamazoo, but he left with the \$100 receipts without fulfilling his contract.

Col. F. M. H. Holloway, of Hillsdale, died at the age of 76. He was the democratic nominee for governor of Michigan in 1888.

R. S. McKee, city treasurer of Charlotte and member of the hardware firm of Wyman & McKee, died of heart disease after an illness of five days. Capt. Frederick S. Dodge, of Detroit,

a retired army officer, committed suicide by shooting himself through the brain. He was 51 years old and had been deranged in mind for some years. The schooner C. H. Burton, ore laden, was beached near Duncan City, having sprung a leak during heavy weather. While Andrew Simmons was speeding his trotter, Brown Dan, on the race course at Richmond, the animal stumbled and broke its neck.

Bishop Foley, of Detroit, conducted the dedicatory services of the Lefevre institute at Kalamazoo, a large Catho-

Alexander Neveau, living in the First ward of Bay City, shot and killed his wife and then fatally shot himself. Neveau was 35 years of age and his wife but 17. They were married July 15 last, but have never lived happily together. Jealousy was given as the motive of the crime.

The body of Tom Ellison, of Onekama, was found upon the beach near Frankfort. A small boat came ashore previous to finding, and it was supposed to have been Ellison's.

A heavy frost at East Tawas did great damage to vines, and potatoes would not be half a crop. Many fields of oats would not pay for harvesting. The hay crop was the lightest for The latest returns from thrashers re-

ceived by the secretary of state indicates that Michigan's total wheat crop will exceed 28,000,000 bushels, instead of less than 27,000,000 bushels, as estimated two weeks ago. Wesley McDonald, 22 years of age was shot and instantly killed at Port Huron by an old man named Thelo

Kyhn. Kyhn fled. McDonald attempted

works in three years.

to prevent Kyhn from beating his wife. Osear Jossela was shot and killed by Capt. John McEncroe at the house of the latter in Ishpeming. Jossela was discovered in the premises, and refused to give his name or business. The mixing-house of the Anthony powder works, midway between Negaunee and Ishpeming, was demolished by an explosion. Nobody was injured. This was the third explosion at the

MICHIGAN WORKINGMEN. Interesting Facts Given by the State Bu-

reau of Labor. The bureau of labor and statistics of the state of Michigan has completed a most interesting investigation. A personal canvass has been made of 8,838 workmen in 201 shops and manufacturing institutions in twenty-five villages and cities. The industries covered in the investigation were manufactories of agricultural implements and ironworking establishments, and the information was obtained by the regular employes of the bureau of labor, who visited each workman in person and se-

In the industries canvassed the best of feeling is reported as existing between the workmen and the proprietors. With the exception of the carpenters' strike in Detroit there were no serious labor troubles in Michigan in 1890, and the good feeling now prevailing promises to continue. Of the 8,838 employes, 57 per cent. were born in the United States and 43

per cent. in foreign countries. The

total amount of earnings for the year was \$4,127,591.20; average per man. \$467.02. The lowest annual wages was. \$312.46, and the highest \$653.54. The average weekly wages of married men is \$11.50; single men, \$8.12; all employes in the canvass taken together, both married and single, \$10.06 per week, or \$1.67% per day.

There is no "child" labor in the industries canvassed, but 225 boys are employed between 11 and 15 years of

age. According to law all boys under 14 years of age are prohibited from working more than nine hours a day and must attend school four months in the year. The total family expenses for the year is given as \$2,550,521, making per capita \$122.48. Scotchmen, Englishmen and Americans in the order named are the best livers, and have the highest per capita of family expenses. The Polanders and Germans spend the least money. Two thousand three hundred and twenty-eight employes own homes, of

which 2,242 are married men, the percentage of married men owning their own homes being 46. The Germans are the home-owning nationality. The percentage of these who own their house and lot is 37, Hollanders 35, Irishmen 33, Scotchmen 30, Polanders 28, Englishmen 25, Americans 22, and Canadians 18 per cent. The total value of homes is \$3,055,965-which gives an average value for each home of \$1,312.70. One thousand three hundred and forty-two homes are mortgaged, which is 58 per cent. The total value of the mortgaged homes is \$1,630,360, amount of mortgages \$614,485, which is 37 per cent. of the valuation. In the towns and cities outside of Detroit the average age of those who own homes and have them paid for is 41 years.

The average weekly wages of those employes outside of Detroit who own homes upon which there is no incumbrance is \$12.29.

During the year 1390, 1,390 employes made payments and improvements upon homes amounting to \$175,470 and 2,477 saved \$329,880 in money; 264 of the 1,390 who made payments and imheart all through this trouble has provements on homes lso saved money is 3,603, which is 40 per cent. of the

total employes canvassed. The total present worth of 7,474 employes (1,364 not reporting) is \$3, 461,164, average \$950.98. Eighty-eight employes are reported to be worth

Two thousand one hundred and sixteen workmen carry life insurance, which is 23 per cent. of the total employes. Two thousand two hundred and forty-three, or 25 per cent. of total employes, belong to benefit societies paying an average weekly sick benefit of \$6.41.

One thousand and forty-six foreigners brought money with them when they came to the United States amounting to \$176,354; average, \$168.57. Total present worth of foreigners, 3,293 reporting, \$2,693,610; average, \$817.98. Total increase over the entire amount brought to this country, 1527 per cent.

There were found to be 5,949 persons who took newspapers and magazines, which is 67 per cent. of all the employes canvassed. The number of newspapers and magazines taken among the 8,838 workmen is 9,924, as follows: Dailies, 5,103; story papers, 443; magazines, 343. Only about 5 per cent. of the workmen cannot read or

Among the questions asked the workmen by the representatives of the labor bureau was this: "Has your labor organization been of any financial benefit to you?" and only 1,212 persons were willing to reply to the question, 778, or 64 per cent., of these answering yes, and 434, or 35 per cent., saying no.

Two thousand four hundred and twenty-one men, or 27 per cent., work at hand work, and 5,816, or 65 per cent., at machine work, and 601, or 6 per cent., at both.

"Sassed" the Census Bureau.

COUNCIL BLUFFS, Ia., Sept. 19 .- A. S. Branley, a Taylor county farmer, was up before Commissioner Hunter Thursday and bound over to the federal grand jury for violation of the census law. Branley owns a mortgaged farm and when he received a blank from the census department inquiring for particulars he wrote Mr. Porter requesting that gentleman to attend to his own affairs. Branley's letter was forwarded to the Iowa federal authorities and his arrest followed.

IN FOREIGN LABOR FIELDS. In Sweden, it is said, a competent

servant girl can be obtained for fourteen dollars a year. It is now the intention of European engineers to store the waters of the

greater extension of the cotton and sugarcane crops in that region. PATAGONIA is the most recent addition to the list of frozen-meat exporting countries. The country is said to be well adapted to the breeding of the hardier descriptions of English mutton

Nile to such an extent as to enable a

Up to the beginning of last year \$15,-000,000 were invested in Indian teacompanies, and since then new companies representing a further capital of \$3,125,-000 have been formed. China is fast losing her hold on the tea trade. In Australia the desiccation of pota-

togs is a new industry. The potatocs sites. The damage are sliced and dried, all the moisture being extracted. About one ton of desicated potatoes is obtained from five tons of the raw article. A good market for the product is expected among the steamship companies.

THE cost of a high-class passenger locomotive is about \$8,500.

VALPARAISO, Sept. 21. - By-President Balmaceda, of Chili, shot, himself through the temple in his room at the Argentine legation in Santiago at 8:30 o'clock Saturday morning. The story became known here in the afternoon and created the greatest excite-

BALMACEDA. illuminated and on every hand were heard sounds of rejoicing. It now seems that Balmaceda left Santiago on August 29 last in hope of

making his escape from Chili, but seeing that every avenue of retreat was cut off he returned there on September 2 and went direct to the itings, Sites, Sruises, Sunions Argentine legation. His intention had been to go on board the vessel Condell, which he expected to find lying in Santiago bay. Upon arriving there, however, he discovered to his chagrin that the vessel had sailed.

Since his return to the Argentine legation in Santiago Balmaceda had been in an extremely nervous condition. No one, with the exception of the minister of the Argentine Republic and one other man who was devoted to the unfortunate ex-president's cause, was permitted to talk with him or ever to see him. All the different schemes of the flight were considered by the hunted ex-president.

Senor Urriburia went to the theater Friday night. When he returned to the legation he had a long and earnest talk with Balmaceda relative to the latter's ideas, previously broached, about the advisability of giving himself up to the junta. Balmaceda and Senor Urriburia went to bed at midnight.

Senora Urriburia, about 8 a. m. Saturday, heard a pistol shot in the bedroom that had been assigned to Balmaceda. She notified her husband. Before he went to Balmaceda's room he ran around to the house of Carlos Walker Martinez and brought that gentleman back to the legation. Upon breaking in the door of Balmaceda's room it was found that he had shot himself. The body was still warm. There was a gaping wound in the temple. The body was undressed and lay on the bed. The revolver was still in his right hand. Balmaceda left a letter to his mother;

also a statement to the press of the United States. As almost the last declarations of a dying man they are of especial importance. He says. "I acted during all the past eight months with the firm conviction that I was right. I had no one in the army on whom I could

place any trust. My generals were false to me. They lied all through the war. Had my orders been obeyed I believe that the battle of and are included in the 2,477 above try from foreign domination. I strove to make stated. The total number of persons her the first republic in America. My enemies who saved something during the year say that I was cruel. Circumstances compelled me to sanction certain acts, but many bad deeds that have been attributed to my or ders were never known by me until they had been committed. "Until the final battle of Placilla I had

strong hopes of triumphing over my foes. Victory was assured by my generals, Alcerecca, Barbosa and Viel. They all lied. I now know those who pretended friendship for me only because of the money that was to be gotten out of me. All the money that I have in my possession is \$2.500. My wife gave it to me on the night of August 28. "Your minister, Patrick Egan, many times offered me good advice. He urged me to make

peace with those opposed to me and to retire from Chili. I did not heed his wise advice, for I thought he was under the influence of the junta's orders, who were then refugees in the American legation. All through the trouble my closest advisers were always opposed to any overtures for peace." Another letter was found addressed to Senor Urriburia. In it Balmaceda says: "When I saw the persecution directed

against me by persons who had supported my

administration I came to the conclusion that

the only way to put an end to this persecution

was to take my life, as I was the responsible

one. Adois, my good friend. Give my farewell

Just before the San Francisco sailed last Monday it became known that Balmaceda had been smuggled on board the warship and would be safely at sea. It was too late to go on board the San Francisco and make personal inquiries. That vessel was ust getting ready to weigh anchor. But the story of Balmaceda's alleged disguise as a drunken sailor in a uniform said to have been furnished by Admiral Brown was so circumstantial and seemed so plausible that it could hardly be doubted. Unfortunately for the now dead ex-president he did not escape on board the San Francisco, but despairing of his ability to get away, and fearing the vengeance of his enemies, took his own life.

There is a mingled feeling of savage rejoicing at his death and of bitter reregret that he should have killed himself instead of falling into the clutches of the infuriated citizens, who would have delighted to rend him limb from limb for the long list of cruelities for which they hold him responsible. It is the general belief that Balmaceda's death will hasten in a great degree the restoration of peace throughout Chili. Now that the chief enemy of the junta is no more it is likely that his followers will be shown mercy, since without Balmaceda to direct them they are little to be feared.

LYNCHED A MURDERER.

Officer Nash's Slayer Lynched by a Mob at Reno, Nev. RENO, Nev., Sept. 21.-Louis Ortez, who shot and mortally wounded Officer

Richard Nash, was lynched at an early hour. About midnight fifty prominent citizens marched to the court house, took the keys of the jail and the cell from the deputy sheriff, and dragged the assassin out. He was bound and led to the iron wagon bridge. A rope was in readiness and Ortez was drawn up. The rope broke and Ortez fell back about 4 feet. A larger rope was then obtained and the prisoner success-

fully swung up. The Floods in Spain.

MADRID, Sept. 21. -The bodies of 1,200 victims of the flood at Consuegra have been buried. The town wears a most desolate aspect. The official report of the disaster says 530 buildings in Consuegra have vanished from their is now estimated at \$4,000,000.

Two Children Burned to Death. Boston, Sept. 21.-Sadie and Mary Cullen, aged 7 and 5 years, were burned to death at their home this morning. The children had been locked in their bedroom by their parents when they went to church.

HIS CAREER ENDS.

Sx-Congressman William L. Scott, of Pennsylvania, Passes Away at Newport, R. L.-From a Page at the National Capitol He Became One of the Wealthlest Men in the United States and & Power in Pennsylvania Politics. NEWPORT. R. I., Sept. 21.—Ex-Con-gressman William L. Scott. of Erie,

Pa., died in this city at midnight Saturday. His remains have been B forwarded to Erie for interment. Mr. Scott's trouble was hereditary, as his father died of consumption of the bowels. The illness which ter-

minated in his W. L. SCOTT death became manifest about twenty years ago, and its stubborn nature was greatly aggravated by Mr. Scott's great mental activity and his abnormal appetite at times.

[From a page in congress William Lawrence Scott grew to be the richest member of the house of representatives and a politician of national reputation and importance. But that was perhaps the least of his achievements. At one time he peddied fish for a livelihood, and many of those who bought of him lived to see him become what it is the fashion to call a great railroad and coal "king," taking rank with the Goulds and Vanderblits. The congressional page of 1846 had a pay-roll forty years later with the names of 10,000 men on it and 22,000 miles of railroad under his control. In the political councils of his party his name was as potent as it was in the great exchanges and marts of finance and

When William L. Scott was born in the city of Washington July 2, 1828, his father held the rank of colonel in the army. Both parents died when he was a mere lad, leaving to him poverty as his only inheritance. Some relalives took charge of him and sent him to the public school of the district, and at the age of 12 he was made a page in the house of representatives. He held this position from 1849 to 1846. In 1848 he settled in Erie, Pa., where he was employed as a clerk in the shipping business. Two years later he engaged in the coal and shipping business, owning and running several vessels on the lakes. Subsequently he devoted himself to the manufacture of iron and the mining of coal and the building of railroads. In these various enterprises he was highly successful and amassed large wealth. In 1868 he was a district delegate to the national demoratic convention, and in 1880 he was a delegate at large from the state of Pennsylvania to the national demoeratic convention; from 1876 to 1884 he represented his state in the national democratic committee; he served as mayor of Eric in 1866 and again in 1871. He was elected to the Fortyninth congress and again to the Fiftieth.

Among the great corporations in which he was largely interested at one time or another was the Brazil Block Coal Company, which owned valuable railroad property in and around Chicago. He had coal mines in western Pennsylvania, in Indiana, in West Virginia, in Illinois and other states. In fact he may be said to have been the largest individual coal operator in the country, which means the whole world. He has held the presidency of the Erie & Pittsburgh railroad and was one of the directors of the Canadian Pacific, elected and reelected from 1883 downward. He owned a controlling interest in the Spring Valley Mining Company, one of the wealthiest in the country, and in addition there were 40,000 acres of coal land in western Illinois, the ownership of which was vested largely in him. Altogether his possessions of all kinds are estimated to be worth from \$15,-000,000 to \$20,000,000.1

AGAIN A WIFE.

Gertrude Potter, of Chicago, Creates Another Sensation.

CHICAGO, Sept. 21 .- On Wednesday it was announced that the secret marriage between F. Lee Rust, son of a wealthy Wisconsin lumberman, and Miss Gertrude Potter, daughter of O. W. Potter, the millionaire vice president of the Commercial bank and president of the North Chicago Rolling-Mill Company, had been annulled by Judge Horton, because of the fact that young Rust was a minor when the marriage was contracted. Judge Horton has been severely criticised for his action. mainly because of the secrecy surrounding the hearing of the case. Another sensation is now created by the announcement that Miss Potter has been married quietly at her father's residence, to Julius Clarke Daniels, of New York.

An attorney for the Potters makes the statement that this is the second marriage between Gertrude and Mr. Daniels. The first, it is said, occurred in this city in 1889; at which time Daniels secured the license under the name of Julius Clark, giving Gertrude's name as Gertrude White. The parents of Miss Potter declare that the couple never lived together. Gertrude afterwards was advised by counsel that the marriage was invalid, and it was under this impression that she formed the union with young Rust. When the latter marriage became known to Mr. Mrs. Potter, the fact of the former ceremony also came out. Therefore, in order to

straighten out the entanglement, it was deemed best to have the Rust union annulled and a second ceremony performed

between Daniels and his former bride. TO MOVE AGAINST CHINA.

A Naval Demonstration Finally Decided Upon-Italy, England, Germany and the United States Reach an Agreement.

ROME, Sept. 21.-The Tribune ancounces that England, Italy, Germany and the United States have decided to make a naval demonstration in Chinese waters, and that the command of the combined fleet will be given to the Duke of Genoa. This, according to the same authority, will result in the nonintervention of France and Russia. It is stated in official circles that the visit of the duke of Genoa to England is for the purpose of conference with the British government on the subject of a naval demonstration.

ALLERTON IS KING

He Lowers the Stallion Record Three INDEPENDENCE, Ia., Sept. 21.—The mark for Nelson to shoot at was placed three-quarters of a second lower by Allerton at 6:30 Saturday evening. Nelson's mile in 2:10 at Grand Rapids Friday placed them on even terms, but those who saw the king trot to the first quarter in 0.32%, to the half in 1:05%, to the three-quarters in 1:37% and the mile in 2:00% have full faith in its dropping still fur-ther from the Maine horse's grasp. Williams says that he will go in 2:07

Plenty of Funds for the Fair. GRAIN BURNED UP,

Eundreds of Acres Swept by Fire in North Dakota and Minnesota-Flames Devastate Forests and Cranberry Marshes in

St. Paul, Minn., Sept. 19.-Prairie fires are reported from many points in the northwest. Hundreds of acres of Minnesota land in the neighborhood of Willmar and Beardsley were burned over Thursday and Friday. The wind has been so strong as to make it im-possible to stay the flames. A great deal of hay in stacks has been destroyed and 3 or 4 miles of the Great Northern railroad track have been burnt and made impassable.

In North Dakota the greatest damage has been done around Lisbon. At least 50,000 bushels of wheat have been destroyed there. The town of Buttzviile, depot and elevators were saved after a hard fight. At last reports the fire was still spreading north and east. For miles north of Medina, Stutsman county, the prairies are all on fire and the smoke is so dense that fighters of the flames cannot get near. In Eddy county the fire burned to death four horses hitched to a plow in a field before the animals could be saved; also 150 acres of wheat for the same farmer. Other small losses are reported there. The Northern Pacific water tank

was sent north on the Jamestown & Northern track to protect the company's property if necessary. No fire is reported east of the track now. Farmers generally have insufficient fireguards and great anxiety is felt on that account. Barney Burbridge, the stagedriver from Winona, N. D., says a prairie fire started at Winchester Thursday and burned west 12 miles, and within 6 miles of the Missouri river. The wind changed and drove the fire east 15 miles, through Williamsport, which is 4 miles southeast of Bismarck. Thursday night the entire neighborhood gathered and fought the fire out of Winona. The fire is still burning. It is feared Williamsport is burned, as the fire was driven by a heavy wind and the town is poorly protected. The fact of there being no mail to Bismarck since Wednesday gives credence to the feat. A strip about 30 miles wide and 40 long has been burned over. In norihern Minnesota and Wisconsin the fire is in the forests. The damage is not reported heavy except near Cumberland. Several buildings were burned in Perley. CUMBERLAND, Wis., Sept. 19 .- Forest fires are raging in the country immediately south and in plain sight of the city, and a strong south wind prevails. Several farmhouses and barns, two woodyards near the Omaha track and a large amount of other property have been burned. Men are now fighting the flames, and there is much apprehension in this city. The village of Perley was almost wiped out of existence by fire Thursday.

TOMAH, Wis., Sept. 19.-A most di astrous fire is raging in the cranberry marshes between Valley Junction and Norway Ridge. The fire originated on the Mills marsh from an old forest fire the south it spread and was soon beyond control. All the buildings on Taylor's marsh, including warehouses filled with harvested berries, were quickly reduced, the flames continuing in a southeasterly direction, sweeping everything in their path. Berry pickers ran, leaving their tents and accoutrements to the pursuing flames. The railroad track was soon crossed, and still onward swept the fire at a fearful rate. Between twenty-five and thirty square miles of marsh have been consumed, and the fire shows no signs of abatement. What the loss will reach is impossible to estimate. Thousands of dollars' worth have already been sacrificed. Men from miles about are on the grounds to fight the fire, but their efforts are unavailing. Rain is the only salvation, but at present there are no indications. Thousands of acres are still before the fire, and unless some unforeseen event occurs they will furnish food for the hungry flames.

WASHINGTON, Sept. 19.—The weather bureau says reports from Dakota, Minnesota, Wisconsin, Michigan, northern Illinois and northwestern Iowa show the occurrence in those states during the last two days of the highest temperature for the season of which the weather bureau has record.

The clear weather and high temperature in the corn region has been most favorable for the ripening of corn, and it is probable that at the close of this week at least eight-tenths of the corr crop will be safe from injury.

St. PAUL, Minn., Sept. 19.-The intense heat continues, thermometers on Friday registering from 100 to 106 at several Minnesota points. The heat is accompanied by a wind which in places amounts to a gale and prairie fires are reported from a dozen localities.

HURON, S. D., Sept. 19.-Intense heat has been experienced here the last five days, being 92 degrees to 95 degrees in the shade. Several cases of prostration are reported from the country. It is almost impossible to keep thrashing gangs in the field, as men are unable to remain in the sun. Many farmers are running two sets of hands working in reliefs of three hours each day and night, Two cases of prostration are likely to

SIOUX FALLS, S. D., Sept. 19.-At 2:80 Friday afternoon the thermometer registered 98 in the shade. O. Karleton was killed by a sunstroke.

Embezzied \$25,000. LOUISVILLE, Ky., Sept. 19.—A \$25,000 embezzlement, which occurred during the thirteen years ending December last year, was made public Friday the first time. Charles Millet was the trusted clerk of C. T. Dearing, a leading bookseller, for nearly twenty years. Last July Dearing sold out his business to the Baptist Book Concern, then just organized, of which Rev. W. P. Harvey is president. Harvey suspected thiev-ing was going on and in December set a trap. Miller was caught and confessed. He had taken in the thirteen years pre-

ceding \$25,000 of his employers' mo ney Nelson Trots in 2:10. GRAND RAPIDS, Mich., Sept. 19.-At the West Michigan races Friday the stallion Nelson not only broke his own building is to cost \$150,000.

SWEPT BY FIRE.

Immense Districts in the Dakotas Laid Waste by Flames-A Farmer and His

Son Burned to Death, BISMARCK, N. D., Sept. 21.-Dispatches from points in both Dakotas show no amelioration of the situation The heat is intolerable everywhere, and the spectacle is presented in nearly fifty counties of farmers thrashing by the light of the full moon, accentuated in spots by the blaze of prairie fires. In sections where the crops have been harvested there is a fervent prayer for rain, without which there is the greatest danger of the most disastrous series of fires ever known. The western counties in this state are also suffering and fires are reported from Clay, Norman and Travers counties, where fire lines are being burned in all directions by anxious farmers. No rain has visited this section for weeks. The weeds and grass are unusually tall and heavy. The time is ripe for fires, and they are here in full force. Friday afternoon a fire broke out in Emmons county, adjoining Burleigh on the south, and at this writing is wiping out all before it. The daily mail stage from Williamsport, the county seat of Emmons county, was utterly unable to make its usual trip Friday night on account of fires. The driver returned to Bismarck,

and reports all in that section a vast ruin and only smoking embers visible as far as he could see. A fire started near Williamsport and swept down on the village. A fortunate change of the wind enabled the citizens to save the buildings there, but it was with great difficulty. Heavy losses have been sustained by all the farmers in the Emmons county district

George W. Johnson and his son, living 60 miles south in Emmons county. were burned to death Thursday while fighting one of the worst prairie fires ever witnessed in this country. The fire swept over the country from Winchester to the Missouri river for 50 miles southeast, destroying a large amount of grain, hay, buildings, etc. An estimate of the damage cannot yet be

JAMESTOWN, N. D., Sept. 21.-The terrible heat in the past few days has scorched every stubble field and hay range in the state until the faintest spark is sufficient to start an almost unquenchable fire. Intense anxiety exists throughout the state at this time over the danger to crops and lives as well. In this county alone over \$1,000,-000 worth of wheat lies exposed to fire, which may be ignited now from the slightest cause.

LINKED TO CANADA.

Formal Opening of the Tunnel Under the St. Clair River Connecting Port Huron, Mich., with Sarnia, Ont.

PORT HURON, Mich., Sept. 21 .-- The international tunnel under the St. Clair river connecting the United States and Canada was opened Saturday. Heretofore it has taken over one hour to transport a train by boat. At 1 that had been smoldering the last three o'clock Saturday seven carloads of visiteks. Fanned by a brisk gale from ors entered the Canadian end of the minutes the train reached the American end. The train was drawn by a monster locomotive built expressly for the occasion, weighing 200,000 pounds. At the depot the guests disembarked, when Mayor McIlwain made a brief welcoming address, to which Sir Henry Tyler responded. The excursion train then returned to Sarnia, where 350 people sat down to a banquet given in honor of Sir Henry Tyler. Everything was gotten up in the most elaborate manner. Toasts were responded to by Sir Henry Tyler, Sir John Ross, Gov. Winans, of Michigan, Senator Palmer, of Illinois, Erastus Wiman and others. The tunnel will not be used for general traffic until October 1. [The tunnel is the longest river tunnel in the

world. It is 6,050 feet long. From the American sutting to the river edge is 1.800 feet. and from the Canadian cutting to the river edge is 1,950 feet, and the distance across the river is 2,300 feet. The tunnel walls are of cast-iron segments, thirteen of which and a key form a cir cle. The segment dimensions are: Length, 4 feet 10 inches; width, 18 inches; thickness, 2 inches, with flanges inside 6 inches deep and 1% inches in thickness. Their total weight is 28,900 tons. The segments are bored and secured in place with bolts seven-eighths of an inch in diameter and weighing in all 2,000,000 pounds. The outside diameter of the tunnel s 21 feet and 20 feet inside. The soil excavated amounts to 2,196,400 cubic feet. Em ployment has been steadily furnished to 700 men since first the work of construction be gan and costs complete about \$3,000,000. It is a year ago since the engineers, who had been working toward each other from opposite sides of the river, fitted their hydraulic shields together and shook hands fathom's be low the surface. The approaches and railway tracks have been completed since that day. The Grand Trunk people believe that when the tunnel is in actual use it will offer facilities for through communication between Chicago and all points east which will be greatly appreciated by passengers and by freight shippers. It shortens the distance to the seaboard about 6 miles and saves two hours

A MOTHER'S AWFUL DEED. A Sloux Falls (S. D.) Woman Drowns Her

Two Children and Herself. SIOUX FALLS, S. D., Sept. 21.-Saturday afternoon workmen on the railroad saw a woman walk to the Great Northern bridge, throw a boy 8 years old into the river, hurl an 18-months-old the moon furnishing sufficient light to baby after him and plunge into the wacontinue the work through the night. ter herself. Boats reached the scene and dragged the three ashore, but too late to save the mother and babe. The woman is the wife of a contractor named Neprosich, and had become crazed on account of her husband's business reverses.

Has a pleasure in store for all young lovers of English literature in the form of a narrative by Miss C. H. Garland called "The Maidens of the Lakes" (Dorothy Wordsworth, Edith Southey, and Sara Coleridge), lovely girls, to whom Wordsworth addressed his poem, whom Wordsworth addressed his poem, "The Triad;" with portraits of the three girls, and other illustrations. "The Hogs. 5 10 6 5 90 FLOUR-Fair to Fancy. 4 50 6 5 25 FLOUR-Fair to Fancy. 4 50 6 5 25 Minesota Patents. 5 10 6 6 00 Horse," by L. J. Bates, "Bee-Hunting," by Rowland E. Robinson, and "A Joint Snake," by E. Olin, are three peculiarly articles. The structure of the stru interesting Natural History articles." A Night with Russian Wolves," a bloodcurdling true story by Lieut.-Col. Thorndike, "Jessie's Chickens," a home-life story by Hattie Tyng Griswold, "Edith's Guinea-Pig," a travel story by Esther George, and "Bronson Company (Limited)," another home-life story by J. H. Jamieson, are very entertaining. A Moqui folk-tale of "The Genesis of Earth and Moon," a Norse folk-tale of "Why the Sea is Salt," the "Margaret-Patty Letter," the "Drawing of the Child Figure" (Miss Rimmer's art-paper) are readable and instructive. Margaret Sydney's Peppers Serial is intensely interesting this month. "Men and Things" is full of good original anecdotes, and there are many readable poems and enjoyable pictures, puzzles and the Children's Letter-Box. \$2.40 a year, 20 cents a number. D. Lothrop Company, Boston.

Music as an aid to cooking is provided for by a chef in Berlin. He has composed a polka called the "Boiled Egg Polka," with this notice on the title page: "To boil the eggs, place them in boiling water and play the polka in' 'allegro moderato' time, taking them out at the last bar. They will then be found to be boiled to a nicety."

Artistic Advertising.

Undoubtedly the Ivory Soap people deserve credit for the best grade of illustrations now being used for advertising purposes. The series of full-page drawings which have been appearing on the last page of the Century represent some of the most capable book and magazine artists in the country. The series must have cost no small figure. As yet the "way up" artists do not sign the work they do for advertisers, but I apprehend that it will not be long ere we shall see in the advertising columns such names as George Wharton Edwards, E. W. Kemble, etc. Such men as these bring skill, a trained imagination and an artistic conception of things. These qualities, when used in connection with advertisements, command scarcely less interest than when used in the ordinary literary way. (Printer's Ink, August 19, 1891.

SHEEP....OMAHA.

A woman who can see. She's the woman who gets well. It's the woman who won't see and won't believe who has to suffer. And it's needless. There's a medicine-a legitimate medicinethat's made to stop woman's suffering and cure woman's ailments. It's Dr. Pierce's Favorite Prescription. It's purely vegetable and perfectly harmless—a powerful general, as well as uterine, tonic and nervine, imparting vigor and strength to the whole system. For periodical pains, weak back, bearingdown sensations, nervous prostration, and all "female complaints,"

it's a positive remedy. It improves digestion, enriches the blood, dispels aches and pains, melancholy and nervousness, brings refreshing sleep, and restores health and strength. No other medicine for women is guaranteed, as this is. If it fails to give satisfaction, in any case, the money paid for it is refunded. You pay only for the good you get. On these terms it's the cheapest.

But more than that, it's the best.

I suffered severely with face neuralgia, but in 15 minutes after application of ST. JACOBS OIL was asleep; have not been troubled with it since. F. B. ADAMS, Perry, Mo. No return since 1882.

"ALL RIGHT! ST. JACOBS OIL DID IT."

About seven years ago I had Bronchitis, which finally drifted into Consumption, so the doctors said, and they had about given me up. I was confined to my bed. One day my husband went for the doctor, but he was not in his office. The druggist sent me a bottle of Piso's Cure for Consumption. I took two doses of it, and was greatly relieved before the doctor came. He told me to continue its use as long as it helped me. I did so, and the result is, I am now sound and well-entirely cured of Consumption.—Mrs. P. E. BAKER, Harrisburg, Illinois, February 20, 1891.

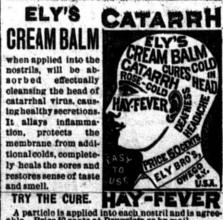

I have had Catarrh for many years, but never found anything that did me any good until I concluded to try Piso's Remedy for Catarrh. After using it a few times I found great relief, and would not be without it now.— Miss Belle Woodruff, Lawler, Iowa, July 21, 1891.

one will see it," is what many a merchant Santa Fe Route is now running Pullman says when asked to put his 'adv' in the Tourist Sleeping Cars from Chicago to San Francisco and Pacific Coast points paper. Later on something occurs and Mr. and Mrs. John Jackson, of that same merchant finds that his name is paper office to see if there is anything in about it. "Yes, there is only a line or Mrs. A. L. Dutton, of Plainfield two," the editor says. "Only a line or it will be known all over town," the ap-Mr. Geo. Benton and family, of plicant for favors responds. "Impossible," responds the editor, because no one There is no gammon about this. The Mrs. Wilson, of Leslie, spent Sat- above are cold, hard, solid facts. Any newspaper man in the country will tell you that this is so. Men won't advertise because, as they say, "people will not Mr. Jacob Scholtz will wield the sec their advertisemen." But they have a rod at the "North Lake Seminary" different opinion about one line in the paper that reflects upon their character. They have a different opinion when they W. R. King is on the sick list, but want a "puff" or a "send off," a notice by they want to make some money for themselves. In such case, the newspaper is just the right kind of a medium for every one to see the notice, but when it comes to an "adv" it isn't worth a nickle. Miss May Frazier attended the There is a good deal of humbug about this whole business. If a man won't advertise because no one will see the "adv" let that man distinctly understand that no one will see the line or two that he is so The bean crop is nearly all secured anxious to keep out of the papers. This and the threshers are heard in this is business from the word go, and don't
