part of the state hunting.

Mesdames Hunter and Gay, of Quebec,
with the latter's children, are the guests of
their aunt, Mrs. Hugh Sherry.

Walter Leach has secured the town hall
and will give a social dance Wednesday
night, Oct. 14th. Everybody invited.

Farmers in this vicinity are finding con-
siderable fault in regard to hunters cross-
ing their farms and tearing down fences,
etc.

This is the last issue of the HERALD be-
fore the fair, and we ask each and every
one of our readers to do their utmost to
make it a success in every way.

A number of apple and cherry trees in
this vicinity are in full bloom for the
second time this year, caused by the warm
weather of the past few weeks.

Fred Wettemeyer, Secretary of the
Chelsea Fair, will be at the town hall,
Chelsea, Saturday, Oct. 10th, for the
purpose of making entries. All those
who can be requested to make their
entries that day and avoid the rush.

A praise service will be held at the M.
E. church next Sunday evening, under
the auspices of the Epworth League. By
agreement of the pastors of the churches
of this village, the evening services will
be held half an hour earlier, until further
notice.

Mr. Henry Lammer, Jr., of Grass
Lake, who is well and favorably known
in Chelsea, will leave for Chicago next
week to accept a position in that city,
which will necessitate his residing there
permanently. The good wishes of hosts
of friends go with him for success in his
new career.

Sheriff Dwyer and two deputies from
Ann Arbor were in town Sunday looking
after five tramps, who are wanted in that
city for burglary. Chelsea's efficient
police force, which is always at the front,
captured one in the marsh south of town
Saturday night, and the other four could
not be found.

Josiah Reed Hammond, for fifty-four
years a resident of the town of Lima, died
of apoplexy at his old home at Lima
Center on Monday, October 5, 1891, aged
73 years, 5 months and 11 days. In 1837
Mr. Hammond came to this state from
Seneca county, N. Y., where he was born
April 24, 1819. Mr. Hammond leaves
three sons to mourn his loss—Charles, who
resides in Minnesota, Irving, who occupies
the old homestead at Lima Center, and
David, who lives in Gratiot county. His
funeral will be held at Lima Center next
Friday at 10 o'clock, a. m.

Obituary.

Died, Oct. 1, 1891, at Chelsea,
Mich., Mrs. Ann Marie Burchard,
wife of J. M. Burchard, aged 63
years and 9 months.

Ann Marie Glover was born in
Brutus, Cayuga county, N. Y., where
she lived until she was 18 years of
age, when she came with her parents
to Michigan, and the following
spring she was united by marriage
to John Manley Burchard, who with
a son and daughter, Dixon Burchard
and Mrs. Abner Spencer, survive
her. Besides the children living,
one died in infancy, Adelbert Sebern.

A few days before her death she
wished to partake of the Sacrament
of the Lord's Supper. A few friends
gathered by her bedside, while her
pastor, the Rev. J. H. McIntosh, and
Dr. Thomas Holmes administered to
her and to them, the emblems of
the broken body and shed blood of
her divine Lord. It was indeed a
solemn scene.

After a few days and nights of
patient suffering, she was at rest.
The funeral was held at the Baptist
church, Rev. McIntosh preaching an
appropriate sermon, from Heb. 4-9.
Dr. Holmes, by request, took part in
the service.

The remains were laid away in
the Sylvan Center cemetery, by the
side of many silent sleepers, whom
she held very dear to her heart.

Dear sister thou hast left us here,
We would not call thee back again;
To look upon thy suffering face
Has caused us deepest grief and pain.

May rest be sweet which thou didst crave,
A home more blest ere long be thine;
There friends no more will have to part,
But dwell in peace and love divine.

Mrs. D. J. FISHER.

Quite Right.
The following named firms have
agreed to close their places of busi-
ness on Thursday, Oct. 15, from 12

School.

The new school house is nearly
completed. School will begin next
Monday, Oct. 12, and it is earnestly
hoped that all who expect to attend
this term will be present the first
day. The shortness of the term
will compel us to make each day
count, and a few days absence may
throw a pupil back a whole year.

Parents, see to it that your children
are started promptly at the begin-
ning, and attend regularly during
the year. Let no trifling affair de-
tain them. Is it not the parents
great duty to inculcate, within their
children, habits of regularity,
promptness and attention to what-
ever they are doing.

Let not your children be the first to
mar the school records by absence
or tardiness. Let us all unite in a
vigorous effort to raise the standard
of the school, and thus promote the
interest and progress of each one of
our children.

Can it not be managed so that
music lessons can be taken after
school or on Saturday? We do not
wish to dictate what you shall do,
but we, as teachers, feel an interest
in the progress of the individual
members of the school, and expe-
rience teaches us that pupils who
are out a part of the time are pretty
sure to fall in something at the end
of the year, and although we exact
thoroughness, we do not enjoy keep-
ing a single child back.

Cards will be issued at the end of
each month, showing you the stand-
ing of your children. If they are
not satisfactory, investigate and see
that they are raised.

Respectfully,
A. A. HALL, Supt.

"Where are you going my pretty
maid?"
"I'm going to Glazier's, kind sir, to
trade."
"Why do you go there, my pretty
maid?"
"His stock is very large, sir," she
said.
"But how are his prices, my pretty
maid?"
"They're lower than anyone else has
made."
"Can I go with you, my pretty
maid?"
"Pleased with your company sir,"
she said.

So then these two, the lad and
maid,
Went hurrying off to trade;
And when the lad went home, he
said:

"I've found the very best bargains
maid."

If you have money deposit it in the
Chelsea Savings Bank, that it may earn
for you interest, or until wanted, that you
may be free from care and fear of loss by
fire, thieves or otherwise. If you need
to borrow money, upon good approved
security, the Chelsea Savings bank will be
glad to supply it for you.

The Chelsea Savings Bank has recently
had built for it one of the strongest
safes made, being the new patterns of
the Mosler Bank Safe Companies, Round
Screw Door, Laminated Chrome Steel,
Burglar and Dynamite Proof Safe, with
no keyhole, spindle or other connection
through the door or walls, nor any
access to the lock from the outside, the
door being screwed in and held secure
by a Double Chromometer Time Lock
from inside. It is considered the strong-
est and best security ever devised against
efforts of burglars. The safe is protect-
ed by a large new fireproof vault made
necessary to store the upwards of twenty
years' accumulation of books and papers
of its business, and the whole premises
are further protected by an Electric
alarm system, which gives instant warn-
ing of trespassers at night.

MANY telegraph lines are being extended into the heart of Africa.

UMBRELLAS are now made of paper in France. They are made waterproof by gelatinized bicarbonate of potassium.

The annual coffee crop of the world is estimated at over 11,000,000,000 pounds, worth in first hands \$135,000,000.

ABOUT one hundred and fifty women have taken timber claims within the last few months in the state of Washington.

GEN. WICHOTE, aged ninety-seven years, the last English officer who fought at Waterloo, died recently. He was born in 1784.

TOBACCO smoking is growing rapidly in England. During the last fifty years the consumption per head of population was nearly double.

A LYONS anatomist has examined the skeletons of eighty-six monkeys—chimpanzees, gorillas and orang-outangs—and has found diseases of the bone to be as frequent as in man, and of a strikingly similar character.

SMULTANEOUSLY with the news that the empress of Austria is showing signs of approaching insanity comes the information that she smokes forty Turkish cigarettes a day. It does not need an expert neurologist to trace cause and effect in this case.

BOSTON is the only city in the world which preserves an exact record of the proceedings of its common council. Every motion, argument and remark, no matter how unimportant, is stenographically taken down. The members are, therefore, very careful of their utterances.

The late Bishop Caldwell, of India, had been in charge of the great Tinnevely mission just half a century, having been appointed thereto three years after his first arrival in Madras. The mission now embraces 618 villages, 40,000 Christian adherents, and 46 clergy, chiefly natives.

A SOUTHERN genius is credited with the discovery that a very fine article of sugar can be made or distilled from the long-despised cotton seed. The product is claimed to be fifteen times the strength of an equal quantity of cane sugar and twenty times the strength of sugar made from beets.

Other gold coins are alloyed with silver and copper, chiefly the latter. Copper alone is used to alloy our silver coins. In both silver and gold there are nine parts pure metal to one of alloy. Our nickel coins are three-fourths copper and one of nickel. The one cent is ninety-five per cent. copper and five of tin zinc.

The new Plaza bank soon to commence business in the city of New York will be as distinctly a millionaires' bank as the Metropolitan club is a club of millionaires. It has on its list of stockholders a greater number of millionaires than any other similar institution in this country. The combined wealth of the men backing the new bank is probably \$500,000,000.

FIVE American miners went from California on May 7 last to prospect for gold along the River Maranon, in Peru, the headwaters of the Amazon. A South American paper says that one of the party returned to Lima about three weeks ago completely broken down by sickness. He was unable to continue his journeyings, and reports the death in the mountains of his four companions.

The two erstwhile globe trotters of the feminine persuasion, Miss Elizabeth Bisland and Miss Cochrane ("Nelly Bly") are reported as thriving in their several walks. Miss Bisland, just from Europe, is to marry Mr. Charles W. Wetmore, a New York lawyer. Miss Cochrane is said to be wearing Parisian gowns and writing well-paid stories of the ephemeral and ineffectual sort. But both girls are getting on by self-help, and that's what American girls are born for.

The evidence taken in the celebrated Davis case at Butte, Mont., covered four thousand pages of transcripts, a total of about one million two hundred thousand words. If the sheets of evidence were placed end to end and close together they would reach nearly a mile. As they stand in the court records they make a pile about six feet high. And this is simply evidence, without attorneys' speeches and rulings of the court. The stenographic work cost about \$5,000.

The amount of money now raised by the New York Grant Monument association is \$151,213.93. This will be enough to pay for building one story of the monument. The committee has approved the proposition to remove the present temporary tomb of the dead general and place it in the position it is to occupy permanently as soon as the concrete work of the foundation is completed. It is proposed to move the sepulcher intact without disturbing its form or contents, and to place it where subsequently the crypt to contain it is to be built.

A NEW mineral is said to have been discovered in Texas in large deposits. It is called litho-carbon, and is found mixed with sand, from which it is separated by being dissolved in benzene. It is said to be the most perfect electric insulator known, a wire coated with it having a resistance of 7,000 megohms per mile, against 1,000 attained by the best insulation known hitherto. The slightest film of it coating a wire insures a perfect insulation. It is also waterproof and practically fireproof, and susceptible of use as a paint or varnish. It is unaffected by the weather and is entirely odorless.

The wonderful crops and the abundance of general products in the United States this year seem to be a family blessing. Neglected without regard to where the individual members may be located, from the arctic circle to the gulf and covering half the world in longitude. This is really noteworthy, considering the hard times afflicting the rest of the world with equal impartiality. The salmon product of Alaska is unusually large, and will average 15 per cent. over that of last year. Over 200,000 cases of salmon will be shipped from Alaska this season. One steamer brought down 20,000 cases.

MICHIGAN STATE NEWS.

White's Fatal Error.

A sensational shooting occurred in Norton township, near Muskegon. Farmer White had been missing grapes from his vineyard, and, loading an old musket with fine bird-shot, laid in wait for the poachers. He heard them finally and discharged his gun in the direction of the voices. Scores of the shot took effect in the face and neck of Mrs. Lincoln Beach, the wife of a well-known farmer and neighbor, who, with her sister, was passing through the vineyard.

AN ALLEGED MASSACRE.

Nearly 200 Whites said to have been slain by Indians in a Newely-Settled District of Mexico.

SAN ANTONIO, TEX., Oct. 5.—John H. Parton, an American, who for the past two years has been engaged in the mining business near Metatlalin, situated in the state of Hidalgo, Mexico, arrived here Sunday. He brings information of a bloody Indian outbreak which has for some time been in progress in the district of Tulemeco, in that state. The trouble is an outgrowth of a dispute between several colonies of Spaniards and Germans and the Indians, the new settlers attempting to settle on the lands of the natives. The Indians resisted their attempt to evict them and much bloodshed has resulted. Mr. Parton says that a few days before his departure a settlement of whites was attacked by the Indians and nearly 200 people massacred, including men, women and children. The colonists have appealed to the government for protection and several battalions of troops are on their way to the scene of the trouble.

The attack was entirely unexpected. On the day of the massacre the Indians had entered the town in small numbers until there was quite a crowd of them collected. When the blow finally descended they came down so rapidly that the men of the place had no time to arm.

To those in easy reach of the blood-thirsty savages there was no quarter shown. Men, women and children were shot and cut down wherever they were found. The Indians attacked them indiscriminately, making their way meanwhile toward the center of the town, where a semblance of a fort had been erected. As soon as the firing began a number of the residents of both sexes hurried into this house and there entrenched themselves. They had arms and ammunition and gave the reds a strong fight. This was continued until far into the night and then the savages drew away.

THE LAST GAMES PLAYED.

The National League and American Association Baseball Season Closed—Boston Wins Both Championships.

The National Baseball league closed its season for 1891 on Saturday. The Boston nine stands first, Chicago second, New York third, Philadelphia fourth, Cleveland fifth, Brooklyn sixth, Cincinnati seventh and Pittsburgh last. None of the league clubs finished their schedule of 140 games. Cleveland was the only club to play 139 games. The management of the Chicago club declare their intention of demanding of the league's directors a thorough investigation of the charge of playing into Boston's hands, to defeat Anson's team, by the New York club. The Boston club, winners of the championship, is composed of the following members: Catchers, Bennett, Ganzel and Kelly; pitchers, Nichols, Clarkson and Staley; first base, Tucker; second base, Quinn; third base, Nash; shortstop, Long; fielders, Lowe, Brodie and Stovey.

The American association closed the season on Sunday, the Boston club winning the championship.

The record of the games won and lost by the clubs of each organization is given below:

A PROUD FATHER.

Grover Cleveland's Newly-Born Infant Can Never Be President, Because It Isn't That Kind of a Baby.

New York, Oct. 5.—There is an heirloom in the house of Cleveland. The ex-president's wife presented him with a daughter Saturday at their home, 618 Madison avenue. Little Miss Cleveland was born at six minutes after midnight Saturday morning. She tipped the scales at eight pounds, and after testing her lungs fell into a quiet slumber. Dr. J. D. Bryant was in attendance. Mother and child are doing well. The important news did not become known down town until nearly noon. Then it spread with the utmost rapidity, both in the city and to other parts of the country. During the afternoon many flowers were sent to Mrs. Cleveland, and both father and mother received hearty congratulations. Then messenger boys began to move up the avenue with telegraphic messages from all parts of the country.

Mrs. Leslie Weds.

NEW YORK, Oct. 5.—Mrs. Frank Leslie, the well-known publisher of this city, and Mr. William C. K. Wilde, of London, Eng., one of the editors of the London Telegraph and a brother of Oscar, were married Sunday night by Rev. Dr. Charles F. Deems, of the Church of the Strangers. The announcement of the marriage will be a great surprise to the many acquaintances and friends of Mrs. Leslie, as no engagement had been announced and no preparations had been made for the ceremony.

German Syrup

The majority of well-read physicians now believe that Consumption is a germ disease. In other words, instead of being in the constitution itself it is caused by innumerable small creatures living in the lungs having no business there and eating them away as caterpillars do the leaves of trees.

The pleghm that is coughed up is those parts of the lungs which have been gnawed off and destroyed. These little bacilli, as the germs are called, are too small to be seen with the naked eye, but they are very much alive just the same, and enter the body in our food, in the air we breathe, and through the pores of the skin. Thence they get into the blood and finally arrive at the lungs where they fasten and increase with frightful rapidity. Then German Syrup comes in, loosens them, kills them, expels them, heals the places they leave, and so nourish and soothe that, in
