Loans 120,879.80 Cash on hand and in banks - 105,802.84

If you have money deposit it in the Chelsea Savings Bank, that it may earn for you interest, or until wanted, that you may be free from care and fear of loss by fire, thieves or otherwise. If you need to borrow money, upon good approved security, the Chelsea Savings bank will be

glad to supply it for you. The Chelsea Savings Bank has recently had built for it one of the strongest safes made, being the new patterns of the Mosler Bank Safe Companies, Round Screw Door, Laminated Chrome Steel, Burglar and Dynamite Proof Safe, with no keyhole, spindle or other connection through the door or walls, nor any access to the lock from the outside, the door being screwed in and held secure by a Double Chronometor Time Lock from inside. It is considered the strongest and best security ever devised against efforts of burglars. The safe is protected by a large new fireproop vault made necessary to store the upwards of twenty years' accumulation of books and papers of its business, and the whole premises are further protected by an Electric alarm System, which gives instant warn ing of trespassers at night.

same period were \$421,804,470.46, leavseverity raged and scores of lives were ing a surplus of \$37,239,762.57. As com- lost and an immense amount of proppared with the fiscal year 1890 the re- erty was destroyed.

AT Garlitz, in Prussian

EVERY building but two in the vil-MICHIGAN STATE NEWS.

Found His Long-Lost Daughter. Seven years ago Mrs. Frank Crocker deserted her husband in Alpena, tak-ing with her her pretty young daugh-ter Rose, who was 7 years old at the time. The other day Crocker received

word that a girl was being detained in Manistee as a witness against her mother, who, it was alleged, tried to lead her child into a life of shame. The

father quickly went to Manistee and was overjoyed to find that the young witness was none other than his longlost child, who was delighted with her new-found parent.

Two Mammoth Children.

Gerard Palmer, Jr., son of Gerard Palmer, of Detroit, is 10 years old and weighs 190 pounds. His sister, Miss Hattie, weighs 265 pounds. Both the children are seemingly healthy, but so unwieldy in their proportions that it is difficult for them to walk. Hattie is a fraction of an inch below 5 feet in height and her breadth seems almost as much. Gerard, the younger, is also rather under the medium height for his \$24,000,000. For the fiscal year ending June 34, 1893, the secretary estimates a revenue of \$455, 338,850 and expenditures amounting to \$441,000,-098, or an estimated surplus of \$14,030,256. It is estimated that the revenue of the government was not only inadequate to the needs of the country, but was very much less per capita than during the so-called flush times which followed the civil war. age. Both children are getting fatter all the time.

Oldest Native-Born Resident Dead. Mrs. Elizabeth Odren died at her home in California township, Branch county. She was undoubtedly the oldest native-born resident of Michigan, having been born in Detroit August 11, 1797, and was over 97 years of age. She was the mother of fourteen children, seven still living. Her husband, who was also born in Detroit, died in 1888, aged 96 years, after a wedded life of seventy-four years. Mrs. Odren had resided in Branch county since 1837.

Health in Michigan.

Reports to the state board of health by fifty-four observers in different parts of the state for the week ended December 5 indicated that typhoid fever, cholera morbus, dysentery, whooping cough and typho-malarial fever increased, and inflammation of the brain, kidney and bowels decreased in area of prevalence. Diphtheria was reported at forty-seven places, scarlet fever at forty-one, typhoid fever at forty-one and measles at six places.

The Horticulturists.

The State Horticultural society, in session at Eaton Rapids, elected the following officers:

President, T. T. Lyon, South Haven: secre tary, E. B. Ried, Allegan; treasurer, W. M. Pearsall, Grand Rapids; member of the executive committee, C. A. Sessions, of Oceana bounty. Interesting papers were read by W. A. Taylor, assistant pomologist at Washing-ton; A. C. Glidden, of Paw Paw, R. Morrill, of Benton Harbor, and J. F. Taylor, of Douglas.

Seven Brave Girls.

Seven of the 14-year-old girl schoolnates of little Blanche Thomas, of Grand Rapids, submitted to the surgeon's knife while 6 square inches of skin were removed from the arm of each and grafted to the side and upper arm of their playmate, to cover a burn. The children bravely stood the skinning process without anæsthetics.

Extracts from the Report of Secretary Foster on the Condition of Affairs in the Treasury Department. WASHINGTON, Dec. 10.-The report of the secretary of the treasury says in part: The revenues of the government from all sources for the fiscal year ended June 30, 1891 were \$458,544,233,03. The expenditures for the same period were \$431,304,470,46, heaving a sur-plus of \$37.339,762.57.

THE NATION'S FINANCES.

ance in the treasury, making a total of \$131,967, 535.48. As compared with the fiscal year 1890, the receipts for 1691 have failen off \$5,418,847.59.

There was an increase of \$57,656,198,14 in the ordinary expenditures. Among the larger items of increase was \$11,591,497 for pensions

the same period are estimated at \$409,000,000, leaving an estimated surplus for the year of

\$24,000,000. For the fiscal year ending June 30

followed the civil war. The important subject of circulation, the sec-retary says, has been unusually prominent during the past twelve months. The strin-

gency in the money market during the sum-mer and autumn of 1890 was relieved by the

prompt and effective measures of hi

predecessor and disappeared without pro-ducing the grave consequences which were

feared by the public, but its existence and the

widespread apprehensions which it caused in-duced a revival of the erroneous idea that the

volume of money in circulation was not only

inadequate to the needs of the country but was

very much less per capita than during the so-called flush times which followed the civil war.

very largely increased since the close of the

The amount of money in circulation has been

fiscal year. The amount July 1, 1891, was \$1,-

497,440.507, and the amount per capita was \$23.-

That depends, madam, upon how you feel. If you're suffering from functional disturbances, irregularities or weaknesses, you're sure to "look it." And Dr. Pierce's Favorite Prescription is the remedy. It builds up and invigorates the items of increase was \$11.521,497 for pensions refund of direct taxes; \$4,938,333 expenses of eleventh census; \$1,398,298 salaries and ex-penses United States courts; \$4,137,296 for the military establishment; \$4,107,690 for the naval establishment; \$1,819,422 for the Indian service, and \$17,479,095 for pensions. For the present fiscal year the revenues arc estimated at \$433,000,000. The expenditures for the same period are estimated at \$409,000,000. system, regulates and promotes the proper functions, and restores health and strength. It's a legitimate medicine, not a beverage; purely vegetable, perfectly harmless, and made especially for woman's needs. In the cure of all "female complaints," it's guaranteed to give satisfaction, or the money is refunded. No other medicine for women is

sold so. Think of that, when the dealer says something else (which pays him better) is "just as good."

"Times have changed." So have methods. The modern improvements in pills are Dr. Pierce's Pleasant Pellets. They help Nature, in-stead of fighting with her. Sick and nervous headache, biliousness, costiveness, and all derangements of the liver, stomach and bowels are prevented, relieved, and cured.

"I inherit some tendency to Dyspepsia from my mother. I suffered two years in this way; consulted a number of doctors. They did me no good. I then used

terview. He is very reticent. Postmaster General Wanamaker talks guardedly, but is affable, and generally popular with interviewers. Secretaries Tracy and Foster are very approachable. The president does his talking through "Lige" Halford, his secretary, and all that comes through that source can be put in a nutshell.

This country came near having Crescentia as the name of one of its states, instead of Maryland. It was originally intended to give that name to the province granted as a proprietary govern- 914,027. ment to Lord Baltimore, but when the charter was presented to Charles I. honor of his queen, Henrietta Maria, of 159.35. France.

GEORGE W. ALLEN, better known as "Land Bill Allen," died in an Ohio poorhouse. He spent a handsome fortune in getting his homestead law before the people, and many thousands owe their beautiful homes to his untiring labors. His original bill of 1863 has been many times amended, but its principles have been preserved. Now that he is dead there is a movement to raise a monument to his memory.

A MOST remarkable alliance between two families is reported from the parish of St. Marie Beauce, Can. Two respectable farmers named Rheaume and Morin had each eight children, four sons and four daughters. Rheaume's four sons married Morin's four daughters, and the four sons of the latter joined their fortunes to the four daughters of the former. The offspring of the first four unions up to date number thirty-nine and of the latter thirty-five children.

So FAR as numbers are concerned the Indian population of the country is no longer formidable. The total Indian population of the United States is only 249,273. Of these only 133,382, exclusive of a few prisoners of war and convicts, are under the control of the Indian office-not taxed or taxable. Many of these are children and women and of the braves the greater number are peaceable. Twice as much money is expended yearly now on Indian education as in 1888, and that policy pursued for a few years longer will, it is believed, almost eliminate the Indian question from American politics.

DR. WALTER WYMAN, supervising surgeon general of the marine hospital service, in his annual report, states that 52,992 sailors were treated in the various marine hospitals and dispensaries of the service during the fiscal year 1891. One thousand three hundred and thirty-three surfmen and keepers of the life saving service were examined physically, of which number fifty-nine were rejected for disease or disability; 1,182 pilots were examined for color blindness, of which number twentynine were rejected; 243 seamen were examined for enlistment in the marine service and thirty-eight rejected.

Or the explosive used in the assault upon Russell Sage a New York expert says: "I am almost certain that dynamite was the cause of the disaster. The odor was unmistakable. Nobiling's gelatine is the most powerful form of dynamite known. It is made of nitro-glycerine and collodion. Rackarock is another form. The amount used was at least a pound. If During the month of Nove

pared with 204,849 bales last year. TWELVE persons were wounded in a battle which took place between a sheriff's posse and striking miners near

Crested Butte, Col. MIDDLETOWN, a Maryland village, held a big celebration in honor of the 100th birthday of Miss Elizabeth Ap-

pleman, one of its citizens. MRS. N. MASON was burned to death t Melbourne, Ark., by falling into the

fireplace while in a fainting fit. MISS JULIA A. AMES, editor of the Union Signal, the official organ of the Woman's Christion Temperance union,

and a resident of Evanston, Ill., died at Boston. Her remains would be forwarded to Streator, Ill., for burial. WHILE on a drunken spree John

Miller fatally wounded his wife and then committed suicide by shooting at Mount Olive, Ill.

FIVE men were killed by the explosion of dynamite which they undertook to thaw out in a stove at Grand Junction, Col.

HANK LOVETT and two companions, all notorious cattle thieves, were lynched 30 miles east of Custer City, S. D., and their bodies riddled with bullets.

DR. WASHINGTON F. PECK, a prominent physician of Davenport, Ia., died at the age of 58 years. MINISTERS at Mexico, Mo., have de-

clared against a ball which is to be given on Christmas night for the benefit of the ex-confederates' home.

MRS. MARY MILLER, of St. Peter, Minn., was acquitted of the murder of her husband on the ground of insanity. Six children were burned to death at

" Foxy, the Con Man," Dead.

William Fox, better known as "Foxy," one of the greatest confidence men in Michigan, was found dead in his room at the Reynard house in Bay City. "Foxy" had been implicated in numerous scrapes, even to murder, but nearly always managed to escape the clutches of the law, only serving once

a short time in state's prison.

Short but Newsy Items.

A couple named Block was arrested at Bay City for passing counterfeit \$20 gold certificates.

S. H. Selden, an Escanaba pioneer, died of erysipelas in Chicago while on his way to Florida.

Medical inspectors will be stationed at Detroit and Port Huron to inspect trains and prevent the introduction of smallpox that is prevalent in Canada. William Brice, cabinetmaker in the Fort Gratiot car shops, dropped dead of heart disease while at work. He was 63 and leaves a widow and five children. The steamer Brazil and the schooner

Pelican were libeled at Detroit for \$176,060 and \$40,000 respectively. The Michigan Federation of Labor in

session at Bay City reelected W. A. Taylor, of Detroit, as president. The state Sunday-school convention held a three days' session at Muskegon. It was decided to hold the next convention at Bay City.

While working on a scaffold in Detroit Arthur and John H. Priest, father and son, fell 50 feet to the stone walk below and were killed.

At Maranisco Fair & Atwater's sawmill was burned. Loss, \$40,000; insurance, \$10,000.

Buildings at Muskegon Heights were unroofed by a cyclone. The damage was estimated at \$12,000.

Daniel O'Brien was found on the railroad track at Grand Rapids, his body badly mangled. He had been drinking on the previous night.

While Fred Roost, aged 9, and a companion were skating on the river at Holland they fell through the ice and Roost was drowned. His companion was rescued.

A party of hunters found the body of Peter De Marsh, of Picton, Ont., frozen stiff near Alger.

Capt. Matheson was drowned while returning from Acqueoc to Cheboygan. His boat capsized.

J. Mason Reynolds, aged 50, known as "Farmer" Reynolds, died of malarial fever at Grand Rapids.

The product of the Calumet and Hecla mine for November was 3,775% tons; Quincy, 600%; Franklin, 32614; Atlantic, 20814; Allouez, 118; Peninsula, 105%.

A terrific dust explosion set fire to the Fuller washboard factory in Kalamazoo and destroyed one building completely. The loss was \$20,000; insurance, \$30,000.

A dwelling house in Detroit was partially destroyed by fire, and after the flames had been extinguished the bodies of George J. Reis, his wife and three sons, Charles, Jesse and Ed-ward, aged 22, 11 and 7 years, respectively, were found in the ruins.

C. W. Waldron, the banker who absconded from Hillsdale, was reported as being in the banking business in Fairhaven, Wash.

port of New York during this period was \$70,-223,494. From the large exports of breadstaffs and other materiais from the United States this fall and winter the movement of gold to this country will continue for some months at increased amounts. For the year 1893 it will be \$455, 336, 350, 44.

Of the practical effect of the new tariff law the secretary, after exhibiting the figures relating to foreign commerce used by the president in his message to congress, says:

"The removal of the duty on sugar has reduced its price to the consumer and this result is not in conflict with the doctrine of protection to home industries, because the limited domestic production of sugar under the most favorable protective rates is not sufficient to influence the price in the home market. Under the operations of the new tariff the customs revenue has been decreased as far as is consistent with the current needs of the government. "By the readjustment of duties in the line of protection to American labor and American industries the free list has been enlarged by the addition of articles which from climatic or other conditions are not produced profitably nor extensively in this country; adequate protective duties have been imposed upon articles that come into competition with our own productions; new industries have been established and others stimulated, thereby giving increased employment to American labor and better control of our home market to our own people and the price of nearly every article of common consumption has been reduced to the consumer "Inasmuch as a considerable portion of our revenues must be derived from duties on im-

ports, it is the part of wisdom and patriotism to so adjust the rates as to have regard first to the interests of own people and the rightful demands of American labor for remunerative

wages. "I do not believe that any considerable num ber of the people desire to see our manufacturing industries destroyed or wages reduced to the European basis, which would be the inevitable result of a reduction of duties with a view to revenue only.

"Comparison of the prices of goods imported espectively under the old and new tariffs where rates have been increased will demonstrate that the tariff is a tax upon the foreign competitor in our markets in the articles extensively produced here, and the duties are in fact thus deducted from the foreign market value and are paid by the foreigner as a tax for the privilege of selling his goods here at prices fixed by our own people competing among themselves in their

own market." In referring to the world's fair the secretary says the work has been progressing satis-factorily in the preparation of a suitable contribution by the treasury department to the government exhibit at the World's Columbian exposition. Pursuant to the provisions of the law, the supervising architect of the treasury has completed plans for the government exposition building. A contract for the construction has been approved, involving an expenditure of \$313,767, and work is going forward upon the structure.

The secretary reviews at great length our foreign merchandise; recites the operations of he Chinese exclusion act, the alien contract labor law and the new immigration act. He makes a number of recommendations for legislation, on the same line as mapped out by Mr. Windom. He refers to the Behring sea fisheries and other important matter which has een covered by bureau reports.

KILLED BY A CRAZY MAN.

Death of a Railway Man at the Hands o a Passenger, Who Commits Suicide.

LA JUNTA, Col., Dec. 10 .- A tragedy occurred here Tuesday night which cost two men their lives. One was Joseph R. Lampkin, the night watchman at the Santa Fe depot, and the other J. W. Knorsa, a passenger on the overland flyer from San Francisco to New York. Knorsa was crazy and had left the train, and while Lampkin was inducing him to return he shot and instantly killed the watchman and then cut his own throat, dying in a few min-

COMMUNICATED TO CONGRESS.

WASHINGTON, Dec. 9. - President Harrison submitted his third annual message to congress at noon to-day.

The State Department.

The State Department. Referring to the work of the state depart-ment during the last year he says that it has been characterized by an unusual number of important negotiations and by diplomatic re-sults of a notable and highly beneticial charac-ter. Among these are the reciprocal trade ar-rangements which have been concluded with the republic of Brazil, with Spain for its West India possessions and with Spain for its West Like negotiations with other countries have been much advanced, and it is hoped that be-fore the close of the year further definite trade arrangements of great value will be concluded. The Bebring Sea Fisheries.

The Bebring Sea Fisheries. Alluding to the long pending controversy be-tween this country and Great Britain, over the Behring sea scal fisheries, the president an-nounces that terms of behitration satisfactory to this government have been agreed upon, and that an agreement as to the arbitrators is all that is necessary to the completion of the con-vention.

Open Ports for Pork Products.

Open Ports for Pork Products. The president congratulates the country on the effective working of the law of the last congress -providing a system of inspection for our meat intended for export, and states that germany, Denmark, Italy, Austria and France have opened their ports to imported American pork products. Referring to the lynching at New Orleans in March last of eleven men of Italian nationali-ty by a mob of citizens, the president deplores the unhappy affair, and states that the tem-porary absence of the minister plenipotentiary of Italy at this capital has retarded further correspondence between this government and the government of Italy, but he does not doubt that a friendly conclusion is attainable. The Chilian Imbroglio.

The Chilian Imbroglio.

onicession to the unenlightened domand of a worthy class of people, that impression has been most effectually removed by the great re-nuits already attained. Its home influence has been very great in disseminating agricultural ad borticultural information; in stimulating and directing and eradicating diseases of domes in discriticultural information; in stimulating ad directing and eradicating diseases of domes in discriticultural information; in stimulating ad information contact which it has established ad maintained with the farmers and scientes in discrimination has had prompt attention and very subject merited consideration. The scientific corps of the department is of a high information has had prompt attentions with over subject merited consideration. The scientific corps of the department is of a high infinite corps of the depart

Our Great Grain Crop.

Our Great Grain Crop. The grain crop of this year was the largest in our history, 50 per cent, greater than that of heat year, and yet the new markets that have been opened and the large demand resulting from short crops in Europe have sustained prices to such an extent that the enormous will be markets and breadstuffs will be mar-be the year (\$000,000 more than last; of be this year \$50,000,000 more than last; of the farm \$50,000,000 more, and of all products of the farm \$50,000,000 more. It is not inspor-field, I think, here to suggest that our satis-addition to the national wealth is unclouded by any suspleion of the currency by which it is addition to the national wealth is unclouded by any suspleion of the currency by which it is addition to the instination. The Postal Service.

The Postal Service.

The Postal Service. In the report of the postmaster general some very gratifying results are exhibited and many betterments of the service suggested. A pe-rusal of the report gives abundant evidence that the supervision and direction of the postal system have been characterized by an intelli-gent and conscientious desire to improve the service. The revenues of the department show an increase of over \$,000,000, while the 6sti-mate for the year 1803 shows a surplus of re-celpts over expenditures. Ocean mail post of the North German Lloyd and Hamburg lines, saving, by the distribution on shipboard, from two to fourteen hours time in the delivery of mail at the port of entry and often much more than this in the delivery at interior places. So thoroughly has this system, initi-ated by Germany and the United States, evidenced its usefulness, that it cannot be long before it is installed upon all the great ocean mail-carrying steamships. Eint thousand miles of new postal service

Eight thousand miles of new postal service have been established upon railroads, the car distribution to substations in the great cities has been increased about 12 per cent, while the percentage of errors in distribution has, during the past year, been reduced over on -hait.

THE NEW SENATORS. Biographical Sketches and Portroits of

the Embryo Lawmakers. Sixteen new senators representing the republican, democratic, and farmers'

parties have taken seats in the Fiftysecond congress. Hon. William A. Peffer, of Kansas, Senator Hon. William A. Peller, of Kansas, Senator Ingalls' successor, is a man sixty years of age. He was born in Cumberland county, Pa., joined the argonants when nineteen years of age and amassed some wealth. In 1852 he roturned to Pennsylvania, but later removed to Indiana. He enlisted in the Eighty-third Illinois volun-teers in 1861 and served through the way. After

teers in 1861 and served through the war. After the war he settled in Clarksville, Tenn., where he engaged in the practice of law. In 1870 he removed to Fredonia, Kan., and a few years

C.S.BRICE. F.T. DUBOIS later to Topeka, where he became editor of the

Kansas Farmer. He was a republican until the organization of the Farmers' Alliance. The new senator from South Dakota, John

H. Kyle, succeeds Gideon C. Moody, a republican of national reputation. Mr. Kyle was is a Congregational minister, and at the time of his election to the senate was financial secretary of Yankton college. He has been a member of the South Dakota state senate, and is classed as a Farmers' Alfiance representa-

tive. Another alliance senator is Col. John Laurens Manning Irby, of South Carolina, who takes the seat of Wade Hampton (dem.). He is the youngest man who has entered the senate since the war, being but thirty-seven years old. He is a lawyer by profession, and also one of the most prosperous farmers in his state. Edward Douglas White, of Louisiana, was born in New Orleans, fifty-one years ago. This Eustis.

war as lieutenant colonel of the Sixth Florida infantry. He was a member of the constitutional convention of his state in 1865, and rep-

en President Harrison's secretary of war, and was at one time governor of Vermont. He is a rich man and enjoys the confidence of the

iation at large. Idaho has elected two senators who claim admission. At the first election three senstors were chosen, two for the two short terms and

were chosen, two for the two short terms and Fred T. Dubois, the sitting delegate in the house, for the six years' term beginning March 4. 1891.³ Subsequently the democrats, assisted by some republicans, elected Judge William Clagett, who will contest Mr. Dubois' right to the seat. Mr. Dubois was born in Illinois and is forty years of age. His father was a person-al friend of President Lincoln. The new sen-ator is a graduate from Yale and has held vari-out important offices. Early in the 80's he re-moved to Idaho and in 1889 was elected United States marshal for the territory. He made a strong fight on the Mormons which made him intensely popular and secured his election as delegate to the Fittleth congress. William Clagett, the gentleman who contests the seat, is a native of Maryland. He has served as del-egate in congress and is the author of the bill

egate in congress and is the author of the bill establishing the Yellowstone park. Henry C. Hansbrough is the successor of Sen-ator Pierce, of North Dakota. He was born in

ator Pierce, of North Dakota. He was born in Randolph county, Ill., January 30, 1848, and was educated in the public schools. He is an editor by profession and at the present time publishes the Devil's Lake Inter Ocean. He has been a resident of North Dakota since 1882. He was the first member of congress from his state.

Hon. Charles N. Felton, of California, who will serve out the term for which the late Sen ator Hearst (dem.) was elected, was born a poor ator Hearst (dem.) was elected, was born a poor boy in Eric county, N. Y., but is now one of the rich men of the Pacific coast. He has served in the California legislature and was a member of the Forty-ninth congress. He is a repub-

OUR SILVER DOLLAR.

The Percentage of Alloy in Our Standard Coins.

The weight of pure silver in our silver dollar has never been decreased a particle; it always has contained three hundred and seventy-one and one-quarter grains of pure silver. In 1837, in order to adopt the handy French decimal system of alloy, we put exactly one pound less copper in wo thousand dollars. Thus, when you hear anyone speak of the debasement of the United States silver dollar, remember that all we have to ask forgiveness for is this trifle, which is allowed by the constitution of the United States. The sin of debasement, if one

ean call it a debasement, was committed in 1834 op our gold coins, by reducing them about six and one-quarter per cent. Had they reduced the gold coin only half as much it would have been born at Xenia, O., thirty-eight years ago. He an act strongly indorsed to-day, but now unwise to adopt. In 1887, a minute fraction of gold was added to the weight of the coin for convenience in

mint calculations. These two, the gold dollar of twenty-five and eighttenths and the silver dollar of 412.5 grains of standard metal, meaning that each thousand parts of coin were alloyed with one hundred parts of copper, were the basis dollars on which the government was conducted from 1837 to 1873. The issue of greenbacks is his first appearance in public life. He is a did not disturb these coined dollars, lawyer by profession. He succeeded James B. These wore the local coine dollars. These were the legal coins our laws

referred to in the issue of all national Robert Henry Morris Davidson is the proba-ble successor of Wilkinson Call, of Florida, and bonds sold during our war of secession. a lawyer by profession. He served during the These were the coined dollars which we promised to pay in the redemption of our greenbacks. In 1869, in an act resented his district in congress fourteen years. passed to strengthen our public credit, Charles Hopper Gibson, who has been ap-pointed by Gov. Jackson, of Maryland, to enter States solemnly pledges its faith to

a chicken, but what do you expect when you set a dog on a tramp? Answer-A flee.

The Nicaragua Canal. Referring to the Nicaragua canal, the presi-dent says: "I deem it to be a matter of the highest concern to the United States, that this canal, connecting the waters of the Atlantic. and Pacific oceans and giving to us a short water communication between our ports upon those two great seas, should be speedily con-structed and at the smallest practicable limit of cost. The gain in freights to the people. and structed and at the smallest practicable limit of cost. The gain in freights to the people, and the direct saving to the government of the United States in the use of its naval vessels, would pay the entire cost of this work within a short sories of years." The president suggests that the bonds of the canal company be guar-anteed by the United States government, and says: "A guaranty of the bonds of the canal company to the amount necessary to the com-pletion of the canal could, I think, be so given as not to involve any serious risk of ultimate loss."

International Copyright. The president refers briefly to the securing of an international copyright treaty. The Tariff.

study. There should be no hesitation in prompt-ly completing a navy of the best modern type, large enough to enable this country to display its flag in all seas for the protection of its cit-izens and its extending commerce.

The Indian Question.

The Indian Question. Indian sflats are referred to at great length. The president declares that the provision of school facilities for Indian dults upon farms are the two factors which will settle the entire "Indian question." He believes that the Sioux had some cause for their outbreak last winter in the way of insufficient rations and the delay of the government in fulfilling its engagements with them. It was necessary to reduce them to submission, however, and Gen. Miles is given high praise for the manner in which he performed this duty. The president strongly disapproves of the continuance of the inde-pendent governments of the divised tribes in the Indian territory, and believes that the al-lottment of lands in severalty should be com-menced as soon as possible. Pensions.

on the term for which the late E. K. Wilson was elected, has been a member of the house for six years past. He is a native of Queen Ann county and forty-nine years of ege. Mr. Gibson will hold his seat until the legislature selects his successor.
