Does it ever occur to the average resident that strangers who visit Chelsea often obtain very unfavorable impressions of our village by reason of the first sights that greet them? It's a fact nevertheless. For instance, three-fourths of these same visitors come here by rail, and the first object upon which their eyes rest is a few old tumble-down wooden buildings on the east side of North Main street. But we are glad to note that the town possesses other features which partially make-up for the first bad impressions received. Few places of this size contain as substantial and well-kept business blocks and the stocks of goods as does Chelsea. The resident portion of town also contains many handsome buildings and grounds. The streets are well shaded and kept in good repair.

Probably no town is blessed with a finer farming country or a more intelligent class of farmers than can be found in the vicinity of Chelsea.

**AFTER CANADA.**  
 The Annexation of the Dominion and the Sandwich Islands Favored by President-Elect Cleveland.

WASHINGTON, Jan. 27.—A question which dwarts most other public questions is now being quietly considered by leading men of congress with a view to bringing it to public consideration at an early day as the foremost policy of Mr. Cleveland's administration. It is no less than a plan to annex Canada to the United States and for the acquisition of the Sandwich Islands. It is not a part of the random discussions on these questions which have been going on for many months, but it is a well-considered plan to bring these acquisitions to the point of actual realization.

The annexation movement is under full headway in Canada, but as yet little attention has been given to it among public men here. There are many, however, on the committee on foreign relations of the house and on foreign affairs of the senate in the present congress who regard the annexation question as of paramount importance. One of the leading members of these committees, said to a correspondent that it could be stated on the highest authority that the Cleveland administration would make the acquisition of Canada and the Sandwich Islands the conspicuous public question of the next administration.

Within the last few days Edward Farrer, of Toronto, Ont., has been canvassing the sentiment of the two foreign committees. Mr. Farrer is recognized as one of the foremost radicals of Canada in the annexation movement. He was for many years editor of the Toronto Globe, and was threatened with prosecution for treason. With Goldwin Smith he now leads the agitation which is convulsing Canada from one end to the other. He is now here to ascertain what practical end can be accomplished.

While public men in Washington have not been openly joining in the agitation of Canada they have watched it with keen interest and are now ready to supplement it by such steps from this side as will bring Canada under the American flag. Members of the committee give it as their opinion that within the next few weeks, and perhaps days, speeches will be heard on the floor of the senate and house urging annexation. This will be but the initial step, as the more important detail of developing the exact policy of obliterating the Canadian boundary on the northward and of acquiring the fertile islands of the Pacific will be left to the incoming administration. Mr. Cleveland is said to look upon the annexation of Canada as an achievement exceeding in importance the purchase of Louisiana from France or the acquisition of Texas from Mexico, both of which events marked epochs in our history.

**MITCHELL WINS.**  
 The Milwaukee Millionaire Named as the Democratic Candidate for United States Senator from Wisconsin.

MADISON, Wis., Jan. 27.—Hon. John L. Mitchell, of Milwaukee, was nominated for United States senator on Thursday afternoon on the thirty-first ballot. For the last twenty-four hours there was a growing suspicion that Knight's strength must soon grow less. His friends have daily balloted for him with no prospect of nomination, but with a loyalty that was remarkable. Wednesday they decided that it was useless to stand out against such odds and they capitulated.

**An Important Difference.**

**None But Royal**  
 BAKING POWDER is absolutely pure. No other equals it, or approaches it in leavening strength, purity, or wholesomeness. (See U. S. Gov't Reports.) No other is made from cream of tartar specially refined for it and chemically pure. No other makes such light, sweet, finely-flavored, and wholesome food. No other will maintain its strength without loss until used, or will make bread or cake that will keep fresh so long, or that can be eaten hot with impunity, even by dyspeptics. No other is so economical.

The Baking Powders now being offered in this vicinity, with the statement that they are "as good as Royal," have been shown by the official analyses to be composed of alum and detrimental to health.

The official chemists of the United States and Canada, State analysts, municipal boards of health, and physicians indorse the great qualities of the Royal Baking Powder.
