Condition of the Chelsea Savings Bank of Chelsea, Michigan, on the 10th day of September, 1892.

State Law Guarantee Fund and Capital \$112,951.34

Invested in Choice Bonds, Mortgages and approved Loans 176,108.80

Cash on hand and in other Banks 59,541.93

Deposits on morning of above date 179,855.97

By the increase of business of the Chelsea Savings Bank, the year 1892 thus far, gives promise of being the most profitable of the twenty-four years of prosperous banking in Chelsea.

The bank pays interest on deposits according to the rules of the bank, also offers its patrons the use of the strongest and best protected bank vault safe in Central Michigan, and solicits your banking business.

If you have money deposit it in the Chelsea Savings Bank, that it may earn for you interest, or until wanted, that you may be free from care and fear of loss by fire, thieves or otherwise. If you need to borrow money, upon good approved security, the Chelsea Savings bank will be glad to supply it for you.

The Chelsea Savings Bank has recently had built for it one of the strongest safes made, being the new patterns of the Mosler Bank Safe Companies, Round Screw Door, Laminated Chrome Steel, Burglar and Dynamite Proof Safe, with no keyhole, spindle or other connection through the door or walls, nor any access to the lock from the outside, the door being screwed in and held secure by a Double Chronometer Time Lock from inside. It is considered the strongest and best security ever devised against efforts of burglars. The safe is protected by a large new fireproof vault made necessary to store the upwards of twenty years' accumulation of books and papers of its business, and the whole premises are further protected by an Electric alarm system, which gives instant warning of trespassers at night.

A FEW FACTS.

A remedy has been found which

cures chronic diseases; not in

every case, but a large percentage

of them. And in cases too far

gone for cure; it affords relief

and prolongs life. Many who

have been given over by physicians

have been prevailed upon by

friends to try this remedy, the

Compound Oxygen Treatment of

Drs. Starkey & Palen, of Philadel-

phia, and are now living to

testify to its wonderful curative

powers. It has been successful

in curing many cases of catarrh,

malarial diseases, hay fever,

asthma, bronchitis, neuralgia, nervous

prostration and other chronic

diseases. In these diseases physi-

cians have had little success, as

the name they have given to this

class of disorders indicates, but

Compound Oxygen has worked

wonders.

There is only one genuine Com-

ound Oxygen, and any made

elsewhere or by others than Drs.

Starkey & Palen, is spurious.

Avoid imitations.

If you wish to learn more of

this wonderful remedy, send for

our book of 200 pages, sent free,

with numerous testimonials and

records of surprising cures. 49

Additional Local.

School Report in this issue.

Another cold wave is hovering over

Michigan.

John Kilmer, of Francisco, has been

granted a pension of \$12 a month.

A long list of deaths of notable and

distinguished people have occurred since the

new year opened.

George Ward, of this county, has had a

splendid ice pond ruined by mink and

muskrats, which perforated the dam and

let the water off.

Married, Wednesday Feb. 8, 1923, at the

residence of the bride's parents, Mr. J. A.

Palmer to Miss Carrie Mohrloch. The

ceremony was performed by Rev. C. Haag.

A 70 years old woman in Ionia county,

recently got a divorce from her husband,

aged 77 years, with whom she had lived

over 50 years and raised a large family of

children and grandchildren, and was mar-

ried the next day to a man 71 years of age.

An exchange says: Put the colt between

thills the first time when it is quite icy and

slippery. He will hardly be able to

kick up, and while driving his attention

seems to be taken up with carefully placing

his heels on the ice instead of wildly, reck-

lessly, or viciously kicking against what

you hit behind him.

How many farmers, who yearly salt down

two, four, or more hogs, think of fattening

one beef for home use? In most cases the

beef will cost but little more to be home

grown than the weight or fat pork and be

far healthier, especially for the women

folks and children, whose digestion is not

always equal to disposing of slices of

pork.

Don't let the weather induce you to shut

off the supply of fresh air from your

sleeping room, or your living room either,

for that matter. Man should not live by

heat alone, any more than by bread alone.

If you would keep pure the little common

globules that make a rendezvous of your

heart twice a minute you must not deprive

them of pure air.

The debt-burdened Canadians talk

grandiloquently about taking revenge on

the United States by diverting the water

of the great lakes down the St. Law-

rence. They should hasten slowly when

it comes to making over the geography of

the continent Uncle Sam may take a hand

in, drain the lakes through the Hudson

and leave the St. Lawrence as dry as a

whistle. Then what?

The unsuspecting farmers are now being

subjected to a new system of fraud at the

hands of sharpers. A man drives up to a

farmer's house in a good horse and gives

him a telegram announcing the illness of

some relative. On the face of the envelope

the charges are three or five dollars. The

charges are paid and the farmer takes the

first train for the home of his relative and

on his arrival finds that he has been duped.

—Ex.

There is no doubt that the night was

meant for sleep, and that the longer one

sits up and the faster the pace in waiting

hours the greater will be, as King Henry

discovered, to put the night to its legiti-

mate use. True there is a good deal of fun

in sitting up, but just as much fun could

be had in the twenty-four hours if the

varieties of amusement would begin earlier.

The tendency is to stretch the day at the

wrong end.

We used occasionally to hear during the

last year the voice of the gentle chump

who argued that our climate was changing

—gradually growing warmer—and he gives

him a little theory or two upon which to

predicate the faith that was in him. If

one of these gentlemen will kindly come

to the front right now, there is a number

of people with frostbites on various exposed

protuberances who would like to argue the

point with him.

Postmaster General John Wamaker

recently wrote as follows: "Looking at it

from a postal standpoint, enlarged free

delivery, or anything like free delivery

will have to be postponed until there are

better facilities of communication through

the rural and sparsely settled districts.

The experiments that we have made in the

smaller towns and villages have proven the

practicability of greatly extended free

delivery, but without good roads it is

necessarily limited to the small towns."

Many people in all parts of Michigan

are disgusted with the operation of the

present game laws, says the Lansing

Democrat, and strong pressure will be

brought upon the present legislature, to

effect some radical changes. It is asserted

that the laws as they stand were the result

of lobbying by fancy hunters, who fixed

things so that no one can touch fish or

game except at those seasons of the year

when they are ready to enjoy them.

It has been decided to call the Republican

State Convention of this county, for the

purpose of electing delegates to the state

convention to be held in Detroit on Feb.

23d, also the electing of delegates to the

judicial convention yet to be called, and
