There are differences of opinion regarding the outlook for wheat on the ground. Some report to us that it is badly killed out; others that it looks very well, much better even than they wish it did, they say. Nobody seems to care much for the crop at the present prices and the only thing to be done is to go out of the business in part until values change.

Two separate tickets are to be voted this spring election, and there will be two separate ballot boxes. Voters should not forget this. One ballot box will contain the township ticket, and the other the state ticket which will have the names of the candidates for justice of the supreme court, county commissioners of schools, and four constitutional amendments. This ticket is important and voters should not let local matters cause them to forget to vote the state ticket.

He was a member of the first Presbyterian church organized in Sylvania township but on the forming of a Congregational church united his membership with the latter body, where he has since worshipped. The funeral was held from the Congregational church last Sunday.

At the coming spring election besides the regular township ticket, the county commissioner of schools, the circuit court judge in this judicial district, the state supreme court judge and two regents of the university to be voted for, there will also be four amendments to the state constitution to be decided at the ballot box. They are as follows: an amendment to section 9, article 14, relative to works of internal improvement; and amendment to section 1, article 9, relative to the salaries of state officers; an amendment known as section 49 of article 10, relative to conferring power on the legislature to enact laws for the creation of county and township boards of highway commissioners; and an amendment to section 8, article 6, relative to circuit courts.
