The Storm.

A terrific wind storm swept over Michigan last Tuesday morning and laid waste everything in its tracks. But little damage was done in the vicinity of this village, while surrounding towns were damaged more or less.

In Lima township John Wade's barn was leveled to the ground, and orchards were denuded of limbs and leaves and otherwise maltreated.

Over in Freedom a barn belonging to Henry Kuhl was struck by the storm and leveled to the ground, while his house was unroofed. Orchards of apple, peach, pear, cherry and plum trees were in many places seriously damaged.

Dexter also came in for her share of the storm. The residence and factory of Luther Palmer was damaged considerable, while a barn belonging to Peter Holzhauser was moved about a foot and part of the roof torn off. M. Goodrich's barn was moved about two feet and otherwise damaged. In its track across the village chimneys were blown off, outhouses, wood and coal houses completely wiped out. A great many fine trees and several fences were blown down. No one was injured.

In Ypsilanti township a number of barns and fences were destroyed and hundreds of trees uprooted. A. A. Elliott and Eugene Wilson lost a number of cattle. Considerable damage to buildings, shade trees, etc., was done.

At Howell the smokestacks were blown from the flooring and planning mills, and one barn was turned around on its foundation.

At Jackson the damage will reach several thousand dollars. Buildings were unroofed and smoke stacks blown down and damage of all kinds done.

In the vicinity of Pinckney buildings were unroofed and great damage was done generally. Several horses and cattle are reported killed. Jas. Doyle, a farmer living south of Pinckney lost his house and contents by fire.

Stockbridge came in for her share of damage also. The wind lifted a house in the eastern part of that village, carrying it over a fence and landing it upon a hill. Chimneys were blown down, frame buildings upset, and things were shaken up generally. Several sheep belonging to a farmer named Bailey were killed, and his barns were torn to pieces.

Waterloo, Unadilla and Plainfield were also in the territory covered by the storm. At Plainfield several buildings were blown down.

In Ohio the storm was more severe, and much damage was done throughout the state.

National G. A. R. Encampment.

The growth of the Grand Army of the Republic, since its organization in 1886, has been rapid and widespread beyond the wildest hopes of its originators. Ten states were represented in the meeting at which it was founded. Today, twenty-seven years later, it comprises forty-five departments, seventy-five hundred posts, and nearly a half million members. Within the last few years, certainly within ten or twelve, its Annual Encampments have grown to enormous proportions.

This year the encampment is to be held in the west and Indianapolis has been chosen as the city. The arrangements for the entertainment and amusement of the veterans will be the most liberal that ever have been made. A fund of \$150,000 has been raised by the citizens of Indianapolis for expenses, and the plans are of a character that assure the old veterans the greatest encampment in the history of the Grand Army.—Observer.

Decoration Day.

As another year has passed it becomes our duty as citizens to commemorate our nation's dead by proper ceremony and strewing of beautiful flowers on the graves of our soldier dead. Exercises will be observed on May 30th at Oak Grove Cemetery at 9 o'clock p. m. sharp. Flowers are solicited. They may be left at the Town Hall Tuesday morning, May 26th.

By Order of Com.

Attention.

Chester Tent, K. O. T. M., you are requested to meet at the hall at 12:30 p. m. sharp, Tuesday, May 30, to assist the G. A. R. Post in their ceremonies. Let every member that can, turn out and make as good a showing as possible.

Potatoes—Amounts of Seed.

Bulletin No. 98, of the Michigan Experiment Station, is on "Potatoes: Amounts of Seed."

"The conclusion arrived at is that the potato growers of Michigan do not plant enough seed. Our own experiments, corroborated by those of other stations, go to show that for ordinary distances the half potato gives better results than any smaller amounts. For weak growing varieties, or varieties having small tubers, even a larger amount of seed will be found more profitable."

"A careful investigation shows clearly: 'First, That an increase in seed within ordinary limits produces a marked increase—both in total yield and in marketable yield."

"Second, That an increase in seed, from one eye up to the half potato, produces an increase in the net value of the crop; but the increased yield from the whole potato over the half potato is not sufficient to cover the cost of the greater amount of seed."

The above conclusions are the result of hundreds of experiments, extending over many years. They practically agree with the results of twelve other stations as compiled in the bulletin. It would seem that such a large number of experiments under such widely varying conditions as are furnished by the thirteen states in question, would practically settle the question of the best amount of seed potato to plant.

In reality the whole question is not what gives the greatest yield, but what amount gives the greatest profit. When seed is high in the spring it will generally be advisable not to plant whole potatoes at ordinary distances, but when they are cheap it will generally pay.

Since it has been proven that the yield is more in proportion to the weight of seed planted than the number of eyes, the cutting out of the eyes for seed, common in some parts of the State, is to be strongly condemned.

So also, the use of small potatoes for seed, not only lessens the profits the first year, but if followed for a series of years tends towards rapid deterioration, in accordance with the laws of heredity.

The larger amounts of seed gave a more vigorous growth of vines, and on the "whole tuber" plants the crop matured five to ten days earlier than on the "single eye" plants.

A FEW FACTS.

A remedy has been found which cures chronic diseases; not in every case, but a large percentage of them. And in cases too far gone for cure; it affords relief and prolongs life. Many who have been given over by physicians have been prevailed upon by friends to try this remedy, the Compound Oxygen Treatment of Drs. Starkey and Palen, of Philadelphia, and are now living to testify to its wonderful curative powers. It has been successful in curing many cases of catarrh, malarial diseases, hay fever, asthma, bronchitis, neuralgia, nervous prostration and other chronic diseases. In these diseases physicians have had little success, as the name they have given to this class of disorders indicates, but Compound Oxygen has worked wonders.

There is only one genuine Compound Oxygen, and any made elsewhere or by others than Drs. Starkey and Palen, is spurious. Avoid imitations.

If you wish to learn more of this wonderful remedy, send for our book of 200 pages, sent free, with numerous testimonials and records of surprising cures. 49

Language of the Hand.

Round nails belong to obstinate, generally stupid people.

Vigor of constitution is indicated by a long, clear life line.

Straight, good colored lines are generally favorable; very red lines indicate a bad temper.

The third finger belongs to Apollo, and its mount betokens the artistic in the temperament.

Prominence of any or clearness of any line intensifies the characteristics supposed to be indicated.

Long white nails are an indication of deceit and treachery; also of a feeble constitution and much sickness.

Pointed fingers indicate rapid conception and execution. They are the fingers of the poet, the novelist, the religionist.

When the line of the head unites with the heart line, it denotes an individual whose reason is overcome by his passions.

A liver line which extends from the mount of Mercury to the mountains of the moon denotes capriciousness of character.

Napoleon, who rarely gave attention to details, but laid plans for others to execute with very small and perfectly formed hands with taper fingers.

The line of the liver begins at the intersection of the life line with the wrist and runs diagonally across the palm to the base of the fourth finger.

A strong heart line, broken at the ends and here and there having an appearance like a chain, belongs to the gallant and indicates many love affairs.

A bifurcation of the life line at the base, near the wrist, means mental decay brought on by severe sedentary labor. Such a sign is common among literary men and artists.

Knotty fingers, with square phalanges, are peculiar to theorists on practical matters—such as affairs of government and administration. Pascal and Descartes had such fingers.

The mountain of the moon is on the outside of the hand, opposite the thumb, and just above the wrist. When this mount is prominent, the indication is of a sentimental disposition—St. Louis Globe Democrat.

The merchant who advertises when his shelves are bare will get very little return for his expenditure, and even if his shelves are full, if he has nothing that the people want, he is still an unwise advertiser. If he is located in a community where there is no money, even for the purchase of everyday necessity, advertising would be useless. But with all these conditions reversed, the merchant who advertises is sure to profit by it, and the one who does not will find himself doing a slow business, unless he is so situated that he can profit by the advertising of his neighbors. There are various kinds of advertising. Some employ one and others another, but those who have advertised to the best purpose and have realized the greatest profits from it have used the newspapers.

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was troubled with Neuralgia and Rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite all away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large Fever sores on his leg, doctors said he was incurable. One bottle Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold at F. P. Glazier & Co's. Drug Store.

Maryland has a sect numbering 2,000 whose principal claim to individuality is that members believe, and state vociferously, that they live without sinning. Neighbors, who have observed the sect with some care, believe that it labors under error. People who do not sin in any particular are so scattered among the plains of the country that 2,000 of them could hardly be together in Maryland.

"Royal Ruby" Port Wine.

If you are reduced in vitality or strength by illness or any other cause, we recommend the use of this Old Port Wine, the very blood of the grape. A grand tonic for nursing mothers, and those reduced by wasting disease. It creates strength; improves the appetite; nature's own remedy, much preferable to drugs, guaranteed absolutely pure and over five years of age. Young wine ordinarily sold is not fit to use. Insist on having this standard brand. It costs no more. \$1 in quart bottles, pints 50 cents. Royal Wine Co., For sale by R. S. Armstrong & Co., Druggists.

A young man in New York is making a great deal of money now by his invention of horses' tails. Now that docking has become somewhat unfashionable, men owning fine horses desire to have tails for them and it is almost impossible to tell genuine from the fraud.

The Detroit News gives the following estimate: "It is estimated that about one-fifth of the population of Michigan will attend the world's fair, making in all about 400,000 persons. As the estimates of an average fare are placed at \$3 the total expense for transportation for the state will approximate \$1,200,000. Expenses outside of boat or railroad fare, considering the average stop at the fair as one week, are placed at \$20, or an average for the state of \$8,000,000. This places the total expenses for the state at \$9,200,000."

Now Try This.

It will cost you nothing and will surely do you good, if you have a Cough, Cold or any trouble with Throat, Chest or Lungs. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to give relief, or money will be paid back. Sufferers from La Grippe found it just the thing and under its use had a speedy and perfect recovery. Try a sample bottle at our expense and learn for yourself just how good a thing it is. Trial bottles free at F. P. Glazier & Co's. Drug Store. Large size 50c and \$1.00.

The merchant who invests a few dollars in printer's ink is the man who is successful, in nine cases out of ten. There are men so personally popular that they can control a certain amount of trade without advertising, but they are mighty scarce, and even they can largely improve that same business by judicious use of those tiny leaden messengers of thought. If you have a good bargain in your store, tell the people about it through their home paper. If you don't, the probabilities are they will never know it and your competitor who advertises catches the plum which you might have had if you had only been as wise as he.

Adulterated Wine.

Is injurious, but nothing gives strength, and tones up the stomach like a pure old port wine. "Royal Ruby Port," so called for its royal taste and ruby color, is an account of its purity, age and strength, particularly adapted for invalids, convalescents and the aged. Sold only in bottles (never in bulk) while cheap wine is sold by the gallon and gives a larger profit to the seller but less to the user. The wine is absolutely pure, and has the age without which no wine is fit to use. Be sure you get "Royal Ruby" quart bottles \$1, pints 60 cts. Sold by R. S. Armstrong & Co., Druggists.

It is a most significant as well as encouraging sign of the times that popular attention is everywhere being awakened and directed to that overshadowing curse of American politics, the power of the "boss." It is an evil which has grown enormously with the growth of the country, and with the gradual formation of the class of professional politicians of a low type, who follow politics as a trade, and simply for the sake of the power and profit there is in it.

An exchange tells a story of a tramp who rang a doctor's door bell and asked the trim, pretty woman who opened the door, if she would kindly ask the doctor if he had an old pair of trousers that he was willing to give away. "I am the doctor," replied the plump and pleasing young woman, and the tramp fainted.

There is said to be a conspiracy under way having for its object the prevention of the sale at the world's fair of peanuts in the shell. It will be disastrous. The chances are that the plain people who now eat peanuts audibly and leave behind them a trail of debris will reject the new idea as the fad of some gastronomic dude.

THE NATION'S GUEST.

Eulalie, the Spanish Infanta, Lands a New York and Proceeds at Once to Washington—Welcomed to America.

NEW YORK, May 20.—During Thursday night health officers boarded the Christina, lying off quarantine, on which was quartered the Spanish Infanta, Eulalie, and her escort, and accorded the party permission to proceed on their journey to Washington without delay at the port. Early in the morning the United States dispatch boat Dolphin proceeded down the bay to Sandy Hook, the Spanish warship, Infanta Isabel being in the advance.

Lying quietly at anchor just off the bar was the Reina Maria Christina, bearing the distinguished guests. Eulalie expressed a wish to go aboard the Infanta Isabel, so that the ceremony of introduction to the president's envoy might take place on a government vessel, and this part of the pro-

PRINCESS EULALIE.

gramme was carried out after the Dolphin, followed by the Isabel and the Christina, and booming out a national salute of twenty-one guns, had arrived at quarantine.

Meanwhile the beautiful mahogany barge of the Dolphin had been put afloat, and Commander Davis in special full-dress uniform took his seat in the stern sheets and was rowed over to the Isabel. He was immediately escorted to the captain's cabin where the Infanta was installed and was presented to the princess by the Spanish minister. The meeting was pleasant and as devoid of formality as such meetings can be. Commander Davis welcomed the Infanta to the United States in the name of the president and expressed the hope that she would have an agreeable visit. The Infanta responded in simple and unaffected language, expressing her great gratification at the opportunity which had been afforded to her. Then the conversation turned on the order of ceremonies and the Infanta announced with regret that she felt obliged to decline the offer to board the Dolphin at the entrance of the harbor, in view of the instructions of her government to enter New York harbor on a Spanish man-of-war. However, when Commander Davis invited her to luncheon aboard the Dolphin at the end of the voyage the princess accepted the invitation cordially.

WASHINGTON, May 20.—The Infanta Eulalie arrived here at 8:30 o'clock Friday night. The crowd waiting for a glimpse of the princess completely choked the thoroughfares about the depot and for many blocks along Pennsylvania avenue. The cavalry garrison of Fort Myer took up position facing the exit from the depot to await the Infanta's arrival. President Cleveland was represented by Col. Wilson, the superintendent of public buildings, who is master of ceremonies at the white house. Secretary Gresham and Assistant Secretary Quincy came shortly after the arrival of the cavalry in Mr. Gresham's carriage, followed almost immediately by a handsome barouche drawn by four magnificent bay horses. It was President Cleveland's carriage sent for use of the princess, and the president's coachman and a footman were on the box.

As the special train steamed into the station Secretary Gresham, the state department officials and the Spanish legation walked nearer to the tracks. The princess was the first to alight. She was assisted from the train by Commander Davis. The Spanish minister, Senor Muruaga, was just behind the princess, but before he could alight Secretary Gresham pressed forward and Commander Davis presented him to the Infanta as the representative of the president. The princess and Secretary Gresham greeted each other pleasantly, and then other members of the receiving party extended greetings.

Outside the crowd was something enormous, and the princess looked pleased as she saw the throng that had gathered to receive her. She chatted gayly in English with Mr. Gresham all the while. The Infanta, Secretary Gresham, Minister Muruaga and Prince Antonio entered the president's carriage, the cavalymen saluted and the procession began to move up Pennsylvania avenue toward the Arlington.

On the arrival of the party at the hotel the princess alighted, and, taking the arm of Secretary Gresham and followed by her husband, the prince, and the Spanish minister, entered the Summer annex. The streets were thronged with people and a loud cheer went up as the princess stepped to the pavement. Every head was uncovered. Col. John M. Wilson received the party at the door. Immediately upon entering the house the princess passed into the reception room.

Kidney Trouble and Heart Difficulty

"Richford, N. Y., Jan. 11, 1892.
"Myself and my wife have taken several bottles of Hood's Sarsaparilla with gratifying results. For years I have had kidney trouble, and also heart difficulty. I was unable to sleep on my left side for years. Hood's Sarsaparilla has done me a great deal of good. I am free from kidney trouble, and can sleep on either side now, thanks to Hood's Sarsaparilla. My wife has had a chronic sore throat for more

DR. KILMER'S SWAMP-ROOT Saves Another Life!

Suffered Eight Years.

Dr. Kilmer & Co.—I had been troubled for eight years with stomach and heart difficulties.

I lived mostly on milk, as everything I eat hurt me so. My kidneys and liver were in a terrible state. Could neither sleep or eat. I had been treated by the best Chicago doctors without any benefit whatever. As a last resort I tried your Swamp-Root and now I can eat anything, no matter what. Nothing

hurts me, and can go to bed and get a good night's sleep. Swamp-Root cured me. Any one doubting this statement can write, I will gladly answer. Mrs. German Miller, Dec. 20th, 1892. Springfield, Mich.

HAD TORPID LIVER For 14 Years.

DEAR SIR:—I have been troubled with Torpid Liver for 14 years and gone through

courses of bilious fever; many times it has been impossible for me to do any kind of labor. Dr. Kilmer's Swamp-Root was first recommended to me by Holthouse, Blackburn & Co., (Druggists), Decatur, Ind. After taking one bottle I was uncertain whether I was really deriving any benefit or not.

After taking the second bottle, however, I found that my health was improving and I continued until I had taken 6 bottles. I can now most cheerfully recommend Swamp-Root to every one who has torpid liver, for it has completely cured me. F. W. CHRISTIANER, Jan. 16th, 1893. Decatur, Ind.

"August Flower"

Eight doctors treated me for Heart Disease and one for Rheumatism, but did me no good. I could not speak aloud. Everything that I took into the stomach distressed me. I could not sleep. I had taken all kinds of medicines. Through a neighbor I got one of your books. I procured a bottle of Green's August Flower and took it. I am to-day stout, hearty and strong and enjoy the best of health. August Flower saved my life and gave me my health. Mrs. Sarah J. Cox, Defiance, O.

Here and There.

Next Tuesday is Decoration Day.

Harry Shaver is building a new sidewalk on the north side of his residence.

Frank Brodich, of Jackson, is spending a few days in town with his mother.

Seborn Tichenor, of Jackson, spent a few days of this week here with his parents.

A woman over at Conway has wove 13,300 yards of carpet in the past 15 years.

Messrs. Sawyer, Sumner, and Belser, of Ann Arbor, spent Wednesday at Cavanaugh.

Mr. George Kirkland, of Iosco, visited his daughter, Mrs. J. C. Taylor, a few days this week.

Have you seen the prices in the H. S. Holmes Mercantile Co. "ad"? If not, take a look at them.

The Ladies of Columbian Hive No. 284, will serve ice cream in the McKone block, Decoration day.

W. P. Schenk & Co., are offering bargains in neckties, white and warm weather shirts, this week. See "ad" on first page.

M. Conklin, of Dexter, had his right leg taken off just below the knee, while working on a steam shovel at Jackson one day last week.

Sufferers from the effects of La Grippe will find "Adironda," Wheeler's Heart and Nerve Cure a blessed boon; it quiets the nerves and tones up the system. Sold by R. S. Armstrong & Co.

A conference of the health officers of the state will be held at Ann Arbor June 15-16 under the auspices of the state board of health, for the purpose of discussing Asiatic cholera and its prevention. Every board of health is requested to send delegates.

Judge Morse, late democratic candidate for Governor of Michigan, is off for Glasgow, Scotland, where the present administration has provided him with a snug berth as consul. The salary and perquisites will net him something with four ciphers yearly.

A Philadelphia man claims that he can make eggs by the carload at eight cents per dozen, and says he can manufacture an egg that cannot be distinguished from the genuine. These eggs are nutritious and look exactly like hens' eggs. The shell is composed of paper mache.

William Moore and family, who reside near South Lyon, were poisoned recently by getting the wrong kind of weeds when fixing up a dinner of "greens." It was a close call for the whole family but they pulled through. It is supposed that the mistake was in taking snake weed for cow slips.

What does it cost a quart to make milk? At the New Hampshire experiment station they found that from their best cow it cost about one and one-half cents a quart, and from their poorest cow it costs more than four and one-half cents. There is a chance for profit in one case and a certain loss in the other.

The merry click of the lawn mower is now heard o'er the lawn, says the Clinton Local, and the festive bonfire maketh the air hazy, and the small boy shouldereth the fishpole and hieeth away from school and sitteth upon the bank of the river all day and waiteth patiently for the wary inhabitant of the pool to reach forth and eat the bait so temptingly placed before him.

Editor Featherly of the Au Sable Monitor has been to Chicago. Listen to his tale of woe: Some of the robbers who are running restaurants upon the World's Fair grounds charge as high as \$3 for a single beef steak when they think they have the right kind of a customer; 75 cents for a cup of coffee, \$1 for asparagus, 60 cents for a piece of pie, 50 cents for potatoes. A good square meal will cost \$5. But the management have called these robbers down and hereafter they will each be compelled to use bills of fare subject to the approval of the commissioners, but at best rates will be high. A luncheon taken with you will be found economical. Guess we will stay at home.

We clip the following from the Jackson Star: "Those of this city who knew in his younger years Jacob Schweinfurth, who now calls himself Christ and has a mansion like retreat at Rockford, Ill., are surprised to learn by the dispatches that he has become a horseman. George was then a sedate student, given to teaching secular schools and studying theology. But it seems he is now breeding fine horses and has placed one promising trotter in the hands of a professional trainer. This would seem to show that he is an impostor and not at all Christ-like, for though the temptation today to own fast horses and place them on the turf is strong, no one believes that were Christ here he would for a moment yield to it. The so-called Christ is, I fear, becoming worldly, and is imitating Parson Arney, the well-known horseman, of Saranac, though the latter gentleman is not an impostor."

The Baptists.

The following is taken from the Ann Arbor Courier:

The Baptist people in this state known as the Regular and Free Will or Close Communion sects, have resolved to unite their forces, under the simple name of Baptist. Neither are to abandon the doctrines held, that being left to individual consciences. The Lord's Supper will be served without invitation, it being deemed that the simple announcement is sufficient for Christians. Baptism is insisted upon precedent to all Christian duties.

Ratification meetings are being held all over the state to sanction this union, which will make the Baptists one of the strongest denominations in the union.

The various Regular and Free Will Baptists in the United States number 3,468,143 communicants, and they have 38,398 churches. The total strength of the Baptists of all kinds, in this country, is as follows:

Churches.	Members.	Value.
Regular, north....	7,689	782,954
Regular, south....	16,446	1,271,002
Regular, colored....	12,410	1,314,525
Primitive.....	2,550	87,571

Happy Boyhood.

I'd like to be a boy again without a woe or care, with freckles scattered on my face and hayseed in my hair.

I'd like to rise at 4 o'clock and do a hundred chores, and saw the wood and feed the hogs and lock the stable doors.

And herd the hens and watch the bees, and take the mules to drink, and teach the turkeys how to swim so that they wouldn't sink.

And milk about a hundred cows and bring in wood to burn, and stand out in the sun all day and churn, and churn and churn.

And wear my brother's cast off clothes and walk four miles to school, and get a licking every day for breaking some old rule.

And then get home at night and do the chores once more, and milk the cows and feed the hogs and curry mules galore.

And then crawl wearily upstairs to seek my little bed, and hear dad say: "That worthless boy! He isn't worth his bread!"

I'd like to be a boy again; a boy has so much fun, his life is just a round of mirth from rise to set of sun.

I guess there's nothing pleasanter than closing stable doors, and herding hens and chasing bees, and doing evening chores.—Washington News.

The Lake Route to the World's Fair via Picturesque Mackinaw.

Avoid the heat and dust by traveling on the Floating Palaces of the Detroit & Cleveland Steam Navigation Company. Two new steel passenger steamers have just been built for this Upper Lake route, costing \$300,000 each, and are guaranteed to be the grandest, largest, safest and fastest steamers on the Lakes; speed 20 miles per hour, running time between Cleveland Toledo and Chicago less than 50 hours.

Four trips per week between Toledo, Detroit, Alpena, Mackinaw, Petoskey and Chicago. Daily trips between Detroit and Cleveland; during July and August double daily service will be maintained, giving a daylight ride across Lake Erie. Daily service between Cleveland and Put-in-Bay. First-class stateroom accommodations and menu, and exceedingly low Round Trip Rates. The palatial equipments, the luxury of the appointments makes traveling on these steamers thoroughly enjoyable. Send for illustrated pamphlet. Address A. A. Schantz, G. P. A. Detroit & Cleveland Steam Nav. Co., Detroit, Mich.

Farmers who have clay farms must not expect that they will soon prove mines of wealth for the manufacture of aluminum. This valuable metal can indeed be extracted from clay in the proportion of one third of aluminum to the amount of clay used in the process. But large beds of bauxite, a metal containing aluminum in proportion of forty-four to forty-eight per cent, have been discovered in Georgia and Alabama. They are exceedingly valuable as aluminum is undoubtedly a metal that will be largely used in the near future. May be there are beds in some of the Northern states. It pays modern farmers to post themselves to some extent in geology and mineralogy. The lack of such knowledge has led many a farmer to dispose of land containing valuable minerals for much less than its true value. It is quite likely that this has already been done by farmers in Alabama and Georgia in selling lands which are now regarded as extremely valuable.

parchment in which it is set forth that the
said McMillan 'having great confidence' in
Gilbert's ability to detect the difference
between a caddy of kerosene and a barrel
of black strap, does appoint him a deputy
gauger, for the 10th district. It takes a
good, strong man to draw the salary in the
10th.

While Sherman Pierce was returning
home from Chelsea last Saturday, his team,
which was hitched to a lumber wagon, be-
come unmanageable while going down the
hill by Chas. Chandler's residence, and
started to run away. When in front of
Fred Kantlehner's, Mr. Pierce was thrown
out breaking the small bone in his left leg
just above the ankle. Miss Bristle, a
young lady who was riding home with Mr.
Pierce, remained in the wagon until the
horses struck the two hitching posts in
front of Michael Staffan's residence, where
she was thrown out with the wagon box
across her back. She received but slight
injury. The team ran a short distance and
got tangled up with a telegraph pole and
stopped.

Next Tuesday is Decoration Day.

Harry Shaver is building a new sidewalk on the north side of his residence.

Frank Brodrich, of Jackson, is spending a few days in town with his mother.

Seborn Tichenor, of Jackson, spent a few days of this week here with his parents.

A woman over at Conway has wove 13,500 yards of carpet in the past 15 years.

Messrs. Sawyer, Sumner, and Belser, of Ann Arbor, spent Wednesday at Cavanagh.

Mr. George Kirkland, of Iosco, visited his daughter, Mrs. J. C. Taylor, a few days this week.

Have you seen the prices in the H. S. Holmes Mercantile Co. "ad"? If not, take a look at them.

The Ladies of Columbian Hive No. 284, will serve ice cream in the McKone block, Decoration day.

W. P. Schenk & Co., are offering bargains in neckties, white and warm weather shirts, this week. See "ad" on first page.

M. Conklin, of Dexter, had his right leg taken off just below the knee, while working on a steam shovel at Jackson one day last week.

Sufferers from the effects of La Grippe will find "Adironda," Wheeler's Heart and Nerve Cure a blessed boon; it quiets the nerves and tones up the system. Sold by R. S. Armstrong & Co.

A conference of the health officers of the state will be held at Ann Arbor June 15-16 under the auspices of the state board of health, for the purpose of discussing Asiatic cholera and its prevention. Every board of health is requested to send delegates.

Judge Morse, late democratic candidate for Governor of Michigan, is off for Glasgow, Scotland, where the present administration has provided him with a snug berth as consul. The salary and perquisites will net him something with four ciphers yearly.

A Philadelphia man claims that he can make eggs by the carload at eight cents per dozen, and says he can manufacture an egg that cannot be distinguished from the genuine. These eggs are nutritious and look exactly like hens' eggs. The shell is composed of paper mache.

William Moore and family, who reside near South Lyon, were poisoned recently by getting the wrong kind of weeds when fixing up a dinner of "greens." It was a close call for the whole family but they pulled through. It is supposed that the mistake was in taking snake weed for cow slips.

What does it cost a quart to make milk? At the New Hampshire experiment station they found that from their best cow it cost about one and one-half cents a quart, and from their poorest cow it costs more than four and one-half cents. There is a chance for profit in one case and a certain loss in the other.

The merry click of the lawn mower is now heard o'er the lawn, says the Clinton Local, and the festive bonfire maketh the air hazy, and the small boy shouldereth the fishpole and bieth away from school and sitteth upon the bank of the river all day and waiteth patiently for the wary inhabitant of the pool to reach forth and eat the bait so temptingly placed before him.

Editor Featherly of the Au Sable Monitor has been to Chicago. Listen to his tale of woe: Some of the robbers who are running restaurants upon the World's Fair grounds charge as high as \$3 for a single beef steak when they think they have the right kind of a customer; 75 cents for a cup of coffee, \$1 for asparagus, 60 cents for a piece of pie, 50 cents for potatoes. A good square meal will cost \$5. But the management have called these robbers down and hereafter they will each be compelled to use bills of fare subject to the approval of the commissioners, but at best rates will be high. A luncheon taken with you will be found economical. Guess we will stay at home.

We clip the following from the Jackson Star: "Those of this city who knew in his younger years Jacob Schweinfurth, who now calls himself Christ and has a mansion like retreat at Rockford, Ill., are surprised to learn by the dispatches that he has become a horseman. George was then a sedate student, given to teaching secular schools and studying theology. But it seems he is now breeding fine horses and has placed one promising trotter in the hands of a professional trainer. This would seem to show that he is an impostor and not at all Christ-like, for though the temptation today to own fast horses and place them on the surf is strong, no one believes that were Christ here he would for a moment yield to it. The so-called Christ is, I fear, becoming worldly, and is imitating Parson Arney, the well-known horseman, of Saranac, though the latter gentleman is not an impostor.

The Baptists.

The following is taken from the Ann Arbor Courier:

The Baptist people in this state known as the Regular and Free Will or Close Communion sects, have resolved to unite their forces, under the simple name of Baptist. Neither are to abandon the doctrines held, that being left to individual consciences. The Lord's Supper will be served without invitation, it being deemed that the simple announcement is sufficient for Christians. Baptism is insisted upon precedent to all Christian duties.

Ratification meetings are being held all over the state to sanction this union, which will make the Baptists one of the strongest denominations in the union.

The various Regular and Free Will Baptists in the United States number 3,468,143 communicants, and they have 38,898 churches. The total strength of the Baptists of all kinds, in this country, is as follows:

Happy Boyhood.

I'd like to be a boy again without a woe or care, with freckles scattered on my face and hayseed in my hair.

I'd like to rise at 4 o'clock and do a hundred chores, and saw the wood and feed the hogs and lock the stable doors.

And herd the hens and watch the bees, and take the mules to drink, and teach the turkeys how to swim so that they wouldn't sink.

And milk about a hundred cows and bring in wood to burn, and stand out in the sun all day and churn, and churn and churn.

And wear my brother's cast off clothes and walk four miles to school, and get a licking every day for breaking some old rule.

And then get home at night and do the chores once more, and milk the cows and feed the hogs and curry mules galore.

And then crawl wearily upstairs to seek my little bed, and hear dad say: "That worthless boy! He isn't worth his bread!"

I'd like to be a boy again; a boy has so much fun, his life is just a round of mirth from rise to set of sun.

I guess there's nothing pleasanter than closing stable doors, and herding hens and chasing bees, and doing evening chores.—Washington News.

Farmers who have clay farms must not expect that they will soon prove mines of wealth for the manufacture of aluminum. This valuable metal can indeed be extracted from clay in the proportion of one third of aluminum to the amount of clay used in the process. But large beds of bauxite, a metal containing aluminum in proportion of forty-four to forty-eight per cent, have been discovered in Georgia and Alabama. They are exceedingly valuable as aluminum is undoubtedly a metal that will be largely used in the near future. May be there are beds in some of the Northern states. It pays modern farmers to post themselves to some extent in geology and mineralogy. The lack of such knowledge has led many a farmer to dispose of land containing valuable minerals for much less than its true value. It is quite likely that this has already been done by farmers in Alabama and Georgia in selling lands which are now regarded as extremely valuable.

THE 100th anniversary of the laying of the corner-stone of the capitol building at Washington will be celebrated September 18.

YOSHI HOTEL, the eldest son of the Japanese mikado, who is coming to the World's fair, is only fourteen years old, but he is said to be as precocious as most American youths at twenty.

TENNESSEANS, inspired by Gen. Tom Cleburne, of Nashville, are endeavoring to raise a fund of \$1,000 to cancel a mortgage of that amount on the late Gen. Kirby Smith's homestead at Seawane.

It is proposed to build a big dam at Lake Albert Nyanza for the purpose of giving Egypt a plentiful supply of water during the low Nile. Experts say the plan is entirely feasible, and the best yet suggested.

A PREVENTATIVE of colds is said to have been discovered in the new paper stockings now made in Germany. The material they are formed of is specially prepared paper, impregnated with some substance which apparently sucks up all perspiration as quickly as it is formed, keeping the feet warm and dry.

MORE than one-half of all the oil of peppermint, spearmint and tansy used in the world is said to be procured and distilled in Michigan. The center of the industry is St. Joseph county. Peppermint plants to the weight of 15,000 tons, when dried, are cultivated every year in the state. From these the essentials oils are distilled.

It is said that some of the applications for postmasterhips which reach the new postmaster general by mail are very odd. One man has sent in a bulky petition embracing several thousand signatures, bound most handsomely in leather and lettered in gilt on the outside. Every alternate page of the volume is a photograph of scenery in the west.

WORK on the mighty telescope for the French exposition of 1900, which was to enable us to see the man in the moon, has been suspended, after considerable progress had been made in the construction of it, especially in the optic portion. The great lenses are already cast, but the whole affair is now abandoned for want of money. The principal man of funds in the enterprise was the late Baron Reinach, of Panama.

BASS' cheeks is the very latest gastronomical novelty. They do not figure on cafe menus yet, and are found only at the most gorgeous and extravagant private dinners. The dish comes very high, because it takes about a ton of bass to furnish a small dish of cheeks. The cheek of a bass is a tiny nugget of the tenderest and most delicately-flavored meat, found in the lower part of the head on either side. This is lifted out and the remainder of the bass is tossed away.

Not to be outdone by Garner, the naturalist, who is now said to be in the interior of Africa equipped with phonographs, by which he hopes to learn the language of the gorilla, M. Prevot du Houdray, a French scientist, proposes to learn the language of hens. He insists that by careful experiments with a phonograph he has discovered that hens have an oral way of communicating with each other, and he proposes to learn this way and give the world the benefit of his observations.

THE vast Salmon river country in Idaho is destined, it is thought, to become one of the greatest of the gold and silver producing sections of the great northwest. Most of the ores also carry both lead and copper in large quantities. The Big Copper, which is on the head of Big Lost river, is a vein from 20 to 60 feet in width that carries 30 per cent. copper, with considerable silver. A shaft is down on the vein 45 feet, and it is estimated that there are at least 15,000 tons of ore in sight.

A BIT of flint under a powerful microscope is one of the wonders of the world. Every atom of the substance is seen to be composed of the silicious skeletons of infinitely minute animals. Whether the flint supplied a sepulcher for these creatures, or whether, dying in immense numbers, their consolidated skeletons formed the flint, is a question about which microscopists have not agreed; but it is certain that the flint is the result of life, and that this form of silice, like coal, is the product of animated nature.

REMARKABLE evidence of the safety of traveling on well-managed railways is furnished by a report of the present Fall Brook railway system. In thirty years it has carried about 6,000,000 passengers. It was originally only fifty-three miles long, but has been gradually extended until its main line and branches are 250 miles in length. During the first ten years, when 1,000,000 passengers were carried, not one was killed or injured. In the next twenty years, when the passengers numbered over 5,000,000, no passengers were killed and only six injured.

MICHIGAN STATE NEWS.

Thirteen Not Unlucky for Her.
For the thirteenth time Mrs. Mary T. Lathrop, of Jackson, was elected president of the state W. C. T. U. society in twenty-ninth annual session at Muskegon, and as a further mark of honor the convention decided to name after her the handsome state temperance building being erected by the W. C. T. U. of Hackley Park assembly, Lake Harbor, near Muskegon. The other officers chosen are: Mrs. L. M. Johnson, of Flint, recording secretary; Mrs. Emma H. Way, of Clio, treasurer, and Mrs. Julia R. Parrish, of Bay City, corresponding secretary.

Threaten Harsh Treatment.
Mrs. Ella Metcalf secured a verdict for \$5,000 damages in Detroit against Mrs. Belle Tiffany for the alienation of the affections of Mrs. Metcalf's husband. Mrs. Tiffany is a widow, has considerable money, and conceived a great liking for Metcalf, which he reciprocated, and she gave him \$2,000 with which he secured a decree of separation from his wife. The latter then sued Mrs. Tiffany, with the result stated. All the women of the neighborhood threaten to give Mrs. Tiffany a coat of tar and feathers unless she leaves the city.

Left His Mother to Starve.
In a small dilapidated old farmhouse near Belleville Mrs. Martha Gibson, an 80-year-old widow, was found starving. Sick and helpless she had been for seven days without food. Her son Thomas a week ago eloped with his mother's housekeeper, a married woman, and took with him every bit of money, food and portable property worth anything in the house, leaving his mother to starve.

Health in Michigan.
During the week ended May 13 reports sent in by sixty-eight observers in various portions of the state to the state board of health indicated that remittent fever increased, and pneumonia and diarrhea decreased in area of prevalence. Typhoid fever was reported at eight places, diphtheria at twenty-two, measles at twenty-seven and scarlet fever at forty-three places.

Michigan Medical Society.
The State Medical association held its annual meeting in Muskegon and adjourned to meet next year in Lansing. Dr. Eugene Boise was elected president, the other officers being: First vice president, A. H. Kimball, Battle Creek; treasurer, W. G. Henry, Detroit; judicial council, G. V. Chamberlain, Flint; D. H. Wood, Quincy; J. M. Snook, Kalamazoo.

Spring Lake Swept by Fire.
Spring Lake, the summer resort village across the river from Grand Haven, suffered the loss of sixty dwellings, two churches, a large union school building and engine house and four stores by fire caused by sparks from a passing river steamer. Few of the losers carried insurance. The loss was about \$100,000.

School Superintendents.
The state association of city superintendents of schools held its nineteenth annual meeting in Lansing and elected officers as follows: President, John A. Stewart, Port Huron; vice president, Charles T. Grawn, Traverse City; secretary and treasurer, Charles O. Hoyt, Jackson.

Blind from Weeping.
Mrs. Richard Coulter, of Tawas City, became suddenly blind from constant weeping. Three weeks ago she lost her twin babies by death and has cried constantly ever since. The surgeon who examined her eyes declared her blindness resulted solely from weeping.

Short But Newsworthy Items.
The semi-annual apportionment of the primary school interest fund has been made by the superintendent of public instruction. The total sum apportioned is \$517,725.68, at the rate of 77 cents per capita for a total of 672,384 children in the state.

The Penberthy injector works at Detroit were partly destroyed by fire, the loss being about \$10,000.

The First state bank of Hillsdale has gone into liquidation and quit business. The Hillsdale savings bank assumes all the liabilities and will pay depositors in full.

The indictment against Capt. Gill, late of Jackson prison, charged with criminal carelessness in allowing Latimer to escape, was quashed by Judge Peck.

The Farmers' Loan & Trust company at Grand Rapids has been given a judgment in the United States court for \$306,397 against the Toledo & South Haven railroad.

An extensive cave-in of dirt in the Prince of Wales mine at Negaunee greatly damaged the upper levels of the mine and temporarily threw a large number of miners out of work.

Carrell & Redfern, lessees of the Pioneer furnace at Negaunee, will close down the property at once. The furnace has been in continuous operation for over forty years.

Charles H. Price, a seven-year convict, sent from Detroit September 20, 1890, for forgery, escaped from Jackson prison in a packing box.

Sales of iron ore aggregating nearly 1,000,000 tons to Pennsylvania, Ohio and Illinois consumers render the mining situation decidedly brighter than a week ago at Ishpeming.

MICHIGAN LEGISLATURE.

SENATE.
LANSING, Mich., May 17.—The bill providing for the inspection of illuminating oils and fixing the test at 120 degrees passed the senate yesterday after increasing the salary of the inspector from \$1,200 to \$1,500. It also passed the inheritance tax bill, providing a tax of 1 per cent. on all legacies in excess of \$5,000 going to the direct heirs when the testator is a resident of the state. When a non-resident or when the property goes to collateral heirs the tax is 5 per cent. on all sums in excess of \$5,000. This is expected to yield a revenue to the general fund of \$300,000. Bills were also passed appropriating \$42,000 for the support of the mining school for 1898 and 1899; appropriating \$37,000 for the state fish commission; and for the appointment of special deputy game wardens who shall have jurisdiction in all sections of the state. Gov. Rich announced his approval of the anti-Pinkerton bill and the bill to prevent the solicitation or issuing of unauthorized fire or inland marine insurance.

LANSING, Mich., May 18.—An important measure, known as the state prison bill, was passed by the senate yesterday. It provides for the punishment of any employee in or about the prison who, through neglect or otherwise, may aid in the escape of prisoners, and in case a life prisoner is aided to escape the person lending the aid may be imprisoned for a term not exceeding twenty years. The bill also abolishes the central board of prison inspectors and provides for the creation of a central board of control. A bill was favorably reported bringing the Michigan Central Railroad company under the general law for taxation purposes.

LANSING, Mich., May 19.—For the first time this session the republicans had their twenty-two senators, or two-thirds of all the members of the senate, present yesterday, and the bills abolishing the central boards of control and providing separate boards for the schools for the blind, deaf and dependent children and each of the penal and reformatory institutions of the state were given immediate effect. The soldiers' home inmate franchise bill was passed, as was also the Pierce bill reappropriating the congressional districts of the state and the Weiss bill providing for the election of representatives to the legislature from cities by separate districts instead of on a general ticket as at present. The committee on finance and appropriations reported adversely on the bill to establish an asylum for the insane in the upper peninsula. In committee of the whole a bill was agreed to fixing the tax on liquors at \$500 and allowing sales on all days except Sundays, Christmas, Decoration day and Thanksgiving day.

LANSING, Mich., May 20.—The senate yesterday passed the bill allowing the use of the Rhines vote-recorder and the Meyers ballot machine. It also passed the Gilbert liquor law, which provides a uniform tax of \$500 and allows the sale of liquors on all days except Sunday, Christmas, Thanksgiving day, Decoration day and election day. The judiciary committee recommended the passage of a bill for the relief of the supreme court by giving the justices an increase in salary of \$2,500 a year and requiring them to reside in Lansing.

LANSING, Mich., May 22.—In committee of the whole the senate on Saturday passed bills bringing the Michigan Central Railroad under the general law for taxation purposes; appropriating \$75,000 for a new asylum for the insane in the upper peninsula; amending the election law so as to provide for counting ballots during the progress of voting; amending the banking law so as to empower the state commissioner to take possession of the assets of a bank pending action on his application for a receiver, allowing banks to amend their articles of incorporation in certain cases and compelling all state banks doing both a savings and commercial business to keep the deposits, notes and bonds of each department separate; increasing the salary of the state treasurer to \$2,000 and that of the auditor general to \$3,000, and the bill creating the Thirty-fourth judicial circuit, consisting of Calhoun county.

HOUSE.
LANSING, Mich., May 17.—No business of importance was transacted in the house yesterday.

LANSING, Mich., May 18.—The house yesterday passed bills authorizing the appointment of a state dairy and food commissioner, at a salary of \$1,200, and authorizing the use of Myer's automatic voting machine at municipal elections.

LANSING, Mich., May 19.—The house yesterday by a vote of 56 to 25 passed the Kline bill providing the penalty of death by hanging for persons convicted on direct evidence of murder in the first degree. This body also passed the bill changing the name of the state troops to the Michigan National guard and increasing the per capita tax for the support of the militia from three to four and a half cents. The bill providing for a county system of roads was also passed.

LANSING, Mich., May 20.—A bill granting municipal and school suffrage to women passed the house yesterday by a vote of 57 to 25. Educational qualifications are provided, no woman not being able to read the constitution of the state in the English language being permitted to vote. The bill appropriating \$20,000 for a gymnasium at the state normal school was passed, as was also a bill providing for the general improvement of highways in the state. A joint resolution was passed proposing an amendment to the constitution requiring for signers to have their full papers before they are eligible as electors, and requiring a residence of six months in the state and twenty days in a township or ward. The bill providing for the appointment of special deputy game wardens with jurisdiction in all sections of the state was also passed. A resolution postponing the date of final adjournment until June 15 was offered.

LANSING, Mich., May 22.—The republican members of the house on Saturday non-concurred on the resolution postponing the date of final adjournment until June 15, and by a practically unanimous vote decided to adhere to the original plan and adjourn on Thursday, May 23.

SUCCESSION IN OFFICE.
The President Announces Another Departure from Old Rules.

WASHINGTON, May 18.—The president has announced another ruling in line with the iconoclastic decisions which have hitherto come from the white house. For many years the office of commissioner of customs has been given to Pennsylvania. The people of that commonwealth have apparently almost come to believe that this influential position with \$4,000 attachment belonged to them, but, in addition to having given the position to an Ohio man, Mr. Cleveland is quoted as having said that not in Pennsylvania alone, but in every section of the union, the fact that a man from any one state is given a position leads the people of that state to think that it should never go elsewhere, and he could see no good reason for it. He is a believer in rotation in states as well as in office. Hereafter, he declared, qualifications and fitness of candidates would count for more than imaginary state lines.

ROASTED ALIVE.
Eleven Men Perish in a Blazing Forest Near Lake City, Mich.

CADILLAC, Mich., May 22.—Forest fires ranging in the territory northwest of this city reached Louis Sand's lumber camp near Lake City Saturday and resulted in burning to death eleven men. The names of the unfortunate are: Samuel Campbell, John Hill, James Hugh, Hans Jacobson, Michael McCune, Michael Mulholland, M. C. Pagen, Edward Roorbach, Fred Sager, Frank Sangreen, Charles G. Taylor.

The men were assembled at dinner and the forest fire which was burning all around entirely cut off all escape. When they realized their danger they rushed out of the building in which they had been sitting. The smoke so blinded them that they became bewildered. They ran hither and thither, unable to find a means of escape, and their horses stampeded, owing to the confusion. Eight of the men jumped into a well to escape the flames and were cremated there by the timber and curbing falling in on them and burning. Their bodies were brought to the surface Sunday. Samuel Campbell, of this city, foreman of the gang, and Mike McCune were burned to death trying to run the gauntlet of fire. One man reached Lake City terribly burned and there died in fearful agony. Eight teams of horses were cremated.

HOUGHTON, Mich., May 22.—A terrible bush fire has raged in Ballman's Branch, east of Dollar Bay. Over 1,000 cords of hard wood, four houses and seven cars of the Hancock & Calumet railroad were destroyed. Over thirty families were forced to bury their household goods in the ground. Women and children were forced to fight their way over 2 miles to Dollar Bay through suffocating heat and smoke. About thirty horses were saved. One horse was scorched so badly that he had to be killed. Engineer Shea, with a wood train, was surrounded by fire, but opened his throttle and made a race for life, while his brakemen jumped off and escaped through the woods.

ANTIGO, Wis., May 22.—As the result of a forest fire Mead's sawmill, planing-mill, boarding house and thirty or forty residences in the south part of town were totally destroyed by fire Saturday afternoon. At one time the entire city was threatened. The loss will not exceed \$75,000; insurance, unknown. Many families lose everything. Fires are also raging at Rhinelander, Eagle River, Elmhurst, Birmamwood and other towns along the line. Several farmers in this vicinity are heavy losers. The loss in the country will not fall short of \$100,000.

MUST CLOSE.
Attorney General Olney Gives It as His Opinion That Six Days a Week Is the Limit of World's Fair Opening.

WASHINGTON, May 22.—John Willis Baer, of Boston, secretary of the United Society of Christian Endeavor, had an interview with Attorney General Olney in regard to the points of law and the government's relation to the World's Columbian Exposition. The attorney general said that as all appropriations made for or pertaining to the exposition were made upon the condition that the exposition should not be open to the public on Sunday it would be the duty of the national commission to make such rules or modifications of the rules of the exposition as should require the closing of the gates on Sunday.

The attorney general said further that fifteen days ago, having been led to think by press dispatches and other reports that the district attorney at Chicago might be waiting for some word from him, Mr. Olney informed that official that he expected him to act in the matter of restraining the exposition managers from opening on Sunday by enforcing the law, if their attitude at any time should require such action.

In answer to the question as to whether the president had any power in the matter the attorney general informed Mr. Baer that the president had no special authority in the premises; that the law was plainly stated and that the government would see that the law was enforced in case the national commission should at any time decide to open the gates on Sunday. The natural step to take would be that of filing an injunction by the government in the district court at Chicago.

MISS CLEVELAND ARRIVES.

The President's Sister Returns to America After Two Years' Absence Abroad.

NEW YORK, May 22.—Miss Rose Elizabeth Cleveland, sister of the president, was a passenger aboard the Etruria which arrived from Europe Saturday. Miss Cleveland returns from a two years' sojourn in Palestine, Italy, Switzerland and England. She remained much longer in Jerusalem, Rome and Geneva than is usual even for travelers engaged in the study of customs and people and objects of historic interest, and is said to have brought back a considerable quantity of material that may be used in a literary way.

A MILL IN ASHES.
LANCASTER, Wis., May 22.—At 2:30 Saturday morning the Lancaster Milling company's flouring mill took fire and burned to the ground. It was built less than two years ago and filled with sets of the best patent rollers. The loss is about \$10,000, with no insurance.

SLAN AT COURT.
A Prominent Attorney, Samuel Wesner, Killed by Odey Brown in a Courtroom at Danville, Ind.

DANVILLE, Ind., May 22.—A startling tragedy was enacted in the Hendricks county court room Saturday immediately in front of the judge's desk. J. C. Brown, otherwise known as Cole Brown, a wealthy citizen of Boone county and president of the Lebanon Natural Gas company, just after the case in which he was defendant had gone to the jury advanced on Lawyer Samuel Wesner, of Lebanon, principal attorney for the plaintiff in the case, and shot him.

The court had just taken the noon recess, but the judge and attorneys with many spectators, were still in the room when the shooting took place. Wesner, who was one of the best known lawyers in his section of the state, had given Brown a fierce scolding before the jury in behalf of his client, Martin Hohl, of Lebanon, suing the company for damages. Wesner had exposed Brown's schemes against the water works and charged him with being opposed to public improvements generally, doing much to undermine his local influence.

At the close of Wesner's argument court adjourned for dinner and the jury was dismissed, the court saying that he would instruct them after the noon adjournment. Wesner took a seat near an attorney and was pleasantly chatting with him when his attention was directed to Brown, who was standing just inside the railing, apparently muttering something which those nearest him could not understand. Wesner was told that he had better keep an eye on Brown, as the latter was very much excited; but he replied that he did not fear him, and turning to Brown, said "If you have a gun, pull it; I dare you to shoot!"

Brown had his right hand upon his hip pocket at the time, and just as Wesner spoke, he put his right hand into his bosom. Quick as a flash Brown drew a revolver and fired, and at the same instant Wesner drew a dagger from his bosom and gained his feet. As he reached a standing posture and made a step toward Brown the latter fired a second shot and Wesner was noticed to tremble violently with a sudden impulse, and as if nerving himself for the effort, he threw himself upon Brown with the uplifted dagger in his hand.

Brown caught the blade in his left hand as it descended and the two-edged instrument cut a deep gash across the palm, causing the blood to flow in a stream upon the floor. Wesner clutched at Brown's throat and the two fell upon the floor, but Wesner's strength was not equal to further effort and his hold gradually relaxed while he stared Brown in the eye with a look that plainly spoke his disappointment over his falling strength. As the hold of the dying man relaxed Brown shook him off and regained his feet and Wesner expired in a few moments.

In the meantime the most intense excitement prevailed throughout the courtroom. The jury was just retiring for dinner, the attorneys were arranging their papers and a number of ladies were just passing out at the door. With the first shot from Brown's revolver the scene changed like magic. The attorneys and jurors still in the room sought shelter under the benches and the ladies ran pell mell from the room struggling in the doorway, which was soon blocked by the crowd, rendering exit impossible. At the second shot screams of the women added to the confusion, and the entire crowd was panic-stricken and rendered escape from the room impossible by reason of their terror. A Brown recovered his feet the sheriff reached the scene, having heard the shots from his office below, and at once placed him under arrest. The remains of Wesner were removed from the room at once and Brown was taken to jail where he was followed by a large and intensely excited crowd.

As the news of the murder spread over the city thousands of people assembled upon the street and around the jail and for several hours there were grave fears that a lynching would be attempted. The fact that the community is one of the most quiet and law-abiding in the state, and that the older and cooler heads advised that no violence be done, saved Brown from the indignation of the people. At 10 o'clock Sheriff Taylor took the prisoner to Indianapolis to avoid the mob, which had become menacing.

THEIR BOAT CAPSIZED.

Two Wisconsin University Men Drown in Lake Mendota—A Third Rescued.

MADISON, Wis., May 22.—On Saturday W. B. Strong, of Whitewater; B. Smith, of Fort Atkinson, and A. C. Coe, of Barron, students at the state university, started to cross Lake Mendota in a sailboat. When a mile and half off the opposite shore the boat capsized in the strong gale which was blowing. All three managed to get hold of the boat, but Strong slipped off half an hour after the accident and two hours later Smith followed him. Coe clung to the boat, which drifted for three hours before he was sighted by persons on shore. A boat was sent out and brought him to the land much exhausted. He was well taken care of and out of danger.

SAGINAW'S WOE.

The Beautiful Michigan City Visited by a
Confounding Which Destroys Property
Worth \$500,000.

SAGINAW, Mich., May 22.—Saturday
afternoon the metropolis of the Saginaw
valley was visited by the worst
conflagration in her history and one
of the most destructive which ever
visited any city in the state.
The loss will amount to about
\$500,000. The total insurance will
aggregate about \$800,000. The extent
of territory which was burned is about
twenty-five squares, and includes large
portions of the Sixth and Seventh wards.
This territory was swept nearly clean
of every building. A close estimate
places the number of buildings de-
stroyed at 275. Over 300 families are
homeless, and 800 men are thrown out
of employment.

The first alarm was turned in at 3:45
o'clock from box 52. The department
was called to the mill of Sample &
Camp on what is termed the "middle
ground," south of Bristol street and on
the east side of the river. Just how the
fire started is not certain, but it is sup-
posed it caught from sparks, possibly
from a passing tug boat. This build-
ing was not occupied and the loss was
a few hundred dollars.

A strong gale from the southwest
drove the flames to 700,000 feet of lum-
ber owned by Brown & Ryan. The
sparks from this set fire to the eastern
span of the Bristol street bridge, burn-
ing it down and cutting off
direct railway communication.
From the bridge thence the
flames leaped to the east side, just be-
low Bristol street and north of the city
hall, where were located a large num-
ber of buildings, including hose house
No. 6, J. F. Winkler's ice houses, all
residences on Tilden street, and on both
sides of Washington avenue down to
Hollen street. These were quickly
licked up.

Then the sparks were carried across
the old bayou into the premises of the
George F. Cross Lumber company, the
Planing-Mill Lumber company, the
yard and a dozen tenement houses
melting like snow. Next came the
Allington & Curtis Manufacturing com-
pany's extensive plant and Passolt's soap
factory, all of which were wiped out.
Here the fire struck Jefferson avenue,
and in an hour some of the finest
residences in the city were in ashes,
the sweep being north to Emerson
street, where the fire continued east-
ward south of and along Emerson street
out toward the city limits. It cut a
wide swath on Owen, Howard, Sheri-
dan and Warren avenues and other
streets east. St. Vincent's orphan's
home succumbed early, but the inmates
were all removed to places of safety.
The patients were all removed from St.
Mary's hospital, which was in extreme
danger for a time, but was saved.

An old man named Robert Turner,
90 years of age, lost his life, his body
being found in front of his residence
burned to a crisp. This is the only
known casualty, although several per-
sons are reported missing. People
were frenzied in their desire to remove
household effects and everything
in the shape of a vehicle was
pressed into the service.

A partial list of the losers is as fol-
lows:
E. Germain, loss \$325,000, insurance \$31,000;
J. F. Winkler, loss \$23,000, insurance \$6,300; L.
L. Holden, loss \$17,000, insurance \$5,000; Thom-
as Steele, loss \$20,000, no insurance; R. H.
Ketchum, loss \$33,000, insurance \$10,500; W. H.
Freder, loss \$12,000, partially insured; H. Pas-
solt, loss \$7,000, partially insured; Peter Mc-
Arthur, loss \$12,000, fully insured; S. Goseline,
loss \$5,000, insured; George B. Brooks, loss
\$300, insured; John Otto, Jr., E. R. Ayres, G.
A. Mitchell, D. E. Skinner, Horace Johnson,
Charles Holland, Frank Pinnab, D. A. Swinton,
E. Bakely, Nicholas Schmeizer, W. G.
Duke, H. N. Doy, W. T. Cooper, J.
P. Cooper, A. Simpson and about
thirty others losses each from \$3,000 to \$10,000,
all partially insured; the Valley Machine company,
loss \$15,000; insurance not known; Cross Lum-
ber company, loss \$50,000; Allington-Curtis
Manufacturing company, \$25,000, both well in-
sured.

RUIN BY A HAILSTORM.

Damages in Pittsburgh and Vicinity Es-
timated at \$570,000.

PITTSBURGH, Pa., May 22.—Pittsburgh
and vicinity was visited by the most
violent hailstorm ever known here Sat-
urday afternoon. The effect was most
disastrous to life and property. Tele-
phone and telegraph wires were pros-
trated in every direction; electric and
cable cars were stopped by broken wires
or debris choking the conduits and
traffic was suspended for a long time.
In the east end of Pittsburgh and upper
wards of Allegheny City nearly
every window glass on the south
sides of the buildings were
shattered, while all over both
cities skylights, greenhouses, private
and park conservatories were shat-
tered and foliage ruined. In the
Phipps conservatory in Schenley park
over 4,000 lights of glass were broken.
At the opera house and Bijou theater
serious panics were narrowly averted
and several women fainted from fright.
The stinging pelting of the hail
caused a number of serious accidents
by frenzied horses. Twenty horses,
some of them valuable, are known to
have been killed in Pittsburgh, either
by collision or becoming entangled in
electric wires. One valuable team at-
tached to a carriage standing in front
of the Monongahela house plunged
into the Monongahela river and was
drowned.

The money loss will be very great,
various estimates placing the damage
above half a million dollars. On Ne-
ville island, in the Ohio river, the dam-
age to garden and farm products is es-
timated at over \$100,000.

\$100 Reward, \$100.

The readers of this paper will be pleased
to learn that there is at least one dreaded
disease that science has been able to cure in
all its stages and that is Catarrh. Hall's
Catarrh Cure is the only positive cure now
known to the medical fraternity. Catarrh
being a constitutional disease, requires a
constitutional treatment. Hall's Catarrh
Cure is taken internally, acting directly
upon the blood and mucous surfaces of the
system, thereby destroying the foundation
of the disease, and giving the patient
strength by building up the constitution
and assisting nature in doing its work. The
proprietors have so much faith in its curative
powers, that they offer One Hundred
Dollars for any case that it fails to cure.

it is because of the greater profit upon it.
This of itself is evidence of the supe-

thus, though selling for the same, give
less value to the consumer.

SPURGEON

WROTE

DEAR MR. CONGREVE:—As a rule I have
no faith in advertised remedies; but it
must now be some twenty-five years since
first I saw in the person of one of my
students the effects of your remedy. He
seemed at death's door, but he lives now, a
strong, hearty man. Since then I have
seen in many, very many instances, the
most happy results following your medicine.
I do not go by hearsay, but I testify to what
I have seen with my own eyes. I believe
that you have saved numbers from Con-
sumption. I have friends with coughs and
weak lungs, who speak of your medicine
with sincere gratitude. Personally, I find
it most useful in the case of wearing
cough. Very reluctantly do I give testi-
monials for publication; but I send you this
as your due. What I have seen of God's
healing power through you, demands of me
that I speak for the good of others. I have
those around me whose health I value, and
they are living witnesses that yours is a
very beneficial preparation.

Yours heartily,

(Rev.) C. H. SPURGEON,
