TERROR IN PARIS.

An Anarchist Explodes a Bomb in the Chamber of Deputies.

A Great Many Legislators and Spectators Injured—The Bomb Thrown Among Those Hurt—He Glories in His Infamous Deed.

A CANDIDATE FOR THE GUILLOTINE. PARIS, Dec. 12.—A dynamite bomb was thrown and exploded in the chamber of deputies Saturday while the chamber was in session. The bomb was thrown from the right gallery at about 4 o'clock. Over eighty people were wounded, of whom fifteen were deputies. Among the deputies hurt are: M. Casanove, De Pradino, Abbe Lemaire, De Tanjeunaia, Le Clech and Gouter. The injuries of the victims are in many cases serious, but it is not yet known that any fatalities will result.

The miscreant who threw the deadly missile has been captured. He now lies in the hospital suffering from severe wounds, but glorying in his crime. He is a man 33 years old, a leather worker, and a member of a group of anarchists known as Les Solitaires. They are dynamiters who are supposed to plan and commit outrages without accomplices.

August Vaillant is the real name of the villain, who was among those detained by the closing of the gates when the crowd sought to escape from the scene of the explosion. A fragment of his bomb had torn away a portion of his nose. He was rushing toward the street with blood streaming from his face when stopped by the soldiers. Sunday morning he was reexamined with the other suspects. The police had learned that he had given a false name. He admitted this and confessed his crime.

He expressed great regret that he failed in his object, which was to kill President Dupuy and several members of the cabinet. He had sought to throw the missile to strike in front of the president's desk, and had leaned to one side to avoid hitting the ladies seated in front of him in an awkward position. One glass vessel in the center of the bulb contained picric acid, one contained prussiate of potash, and another, connecting the two, had cotton soaked in sulphuric acid. When the machine was inverted explosion would follow.

In the course of the business of the house the election of M. Mierman came up for discussion. M. Mierman had been speaking from the tribune and had just descended to resume his seat, when a man in the gallery threw a bomb toward the floor of the house. The bomb must have had a time fuse attached to it, for as it passed the head of Prof. Lemiere, deputy for Hazebruck, it exploded with a terrific report. A dense cloud of smoke and dust ascended, shutting out from view for a time those sitting in the body of the house.

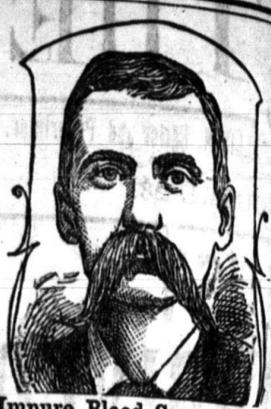

For a single instant the house was perfectly quiet, and then, the members and others realizing what had occurred, there was the wildest excitement. The officers detailed to guard the chamber were the first to regain their senses. They at once shut the great doors leading to the chamber to prevent the escape of the bomb-thrower. The people in the galleries fled in disorder.

On the floor of the house the excitement was fully as great as that in the galleries. Many of the members rushed for the exits, fearing every moment to hear another explosion. M. Dupuy, the president of the chamber, who was himself slightly hurt, was apparently the coolest man in the chamber. The excitement among the members, wild though it was, did not last long. The wounded were taken to the committee rooms and medical assistance was hastily summoned to attend them.

As soon as the smoke and dust had cleared away the members resumed their seats and business proceeded. M. Montfort ascended the tribune and in a perfectly steady voice took up the discussion of the question before the house as though nothing out of the ordinary had occurred. When the discussion had been finished M. Casimir Perier, the prime minister, said that he did not wish to interrupt the business of the chamber, but he felt compelled to assure the house that the government could be relied upon to deal with the matter in the most rigorous and energetic manner. He closed with the words: "Society has laws with which to defend itself against such crimes as the one just committed and we shall not hesitate to use them to protect our institutions." M. Dupuy said that he and the entire chamber desired that their sympathy be conveyed to the wounded. He continued, trembling with emotion:

"Such outrages cannot disturb the chamber. We shall continue our labors, and after we exhaust the order of the day the chamber officials will do their duty in regard to the outrages." This statement was generally applauded.

The number of persons arrested in the chamber on suspicion is twenty-three. Excepting those who were wounded the suspects have been sent to the police station. The wounded ones were taken to an infirmary by a strong guard. The uninjured prisoners were handcuffed and were carried away in a van from the Palais Bourbon. Sixty men who were not in the chamber were arrested, making the total number of suspects now in the hands of the police eighty-three.

Impure Blood Causes Catarrh

I have been troubled with catarrh for over ten years, with dull headache nearly all the time. After taking three bottles of Hood's Sarsaparilla, I am cured of catarrh and clear of disease, which was very annoying, four or five years. Since taking Hood's Sarsaparilla I do not have any trace of this trouble. I sleep well, have a good appetite and feel strong. J. M. CARRAHAN, Patton, Ill.

"German Syrup"

JUDGE J. B. HILL, of the Superior Court, Walker county, Georgia, thinks enough of German Syrup to send us voluntarily a strong letter endorsing it. When men of rank and education thus use and recommend an article, what they say is worth the attention of the public. It is above suspicion. "I have used your German Syrup," he says, "for my Coughs and Colds on the Throat and Lungs. I can recommend it for them as a first-class medicine."—Take no substitute.

It is generally supposed that the Brooklyn bridge has the longest single span (1,595 feet) in the world. There are several much longer, two in the bridge over the Frith of Forth are each 1,700 in length, and that over the Exus has a span of 2,004 feet. The proposed Hoboken will have a single span of 2,850 feet.

The first governor of California, Peter H. Burnett, celebrated his eighty-sixth birthday recently at his home in San Francisco. He went to San Francisco several years before the gold fever broke out, when San Francisco was a little town of 1,500 inhabitants, and soon after became judge of the territorial supreme court.

How THE mind can be made to vegetate is shown by the declaration ascribed to the president of the New York Vegetarians at the meeting of the society the other evening: "I would not take a teaspoonful of beef tea to save my life, nor would I give it to save the life of any one, no matter how dearly I loved them."

"CHATS" is the pulverized rock from which the lead ore has been extracted in the dressing or concentrating process. In bulk it is more than ten times greater than the dressed mineral. A company has been organized to transport "chats" from the St. Francois county (Mo.) lead mines and use it in connection with crushed granite in paving St. Louis.

PRESIDENT W. F. HARPER, of Chicago university, is to deliver the address at the dedication of the new library building of Colorado college, Colorado Springs, in January. The event will be of great importance to the higher education in the west. The structure is the gift of Hon. N. P. Coburn, of Newton, Mass., and is of great agricultural beauty.

A MINISTER in Haverhill, Mass., has gotten himself into trouble over his efforts to exterminate a skunk. He caught the animal, and in attempting to suffocate it burned it. The S. P. C. A. prosecuted him, and after he had pleaded guilty he was fined fifteen dollars. Now the people are dividing their condemnation between the society and the judge.

An electric tower of light will be a feature of the California Midwinter exposition, to open January 1. The tower, while not being extraordinary high, will afford a magnificent view of San Francisco, the bay, the Golden Gate and the surrounding country. It will be illuminated by about 5,000 incandescent lamps, fifty arc lights and several search lights.

The daughter of the late Prof. Win-scheid, the famous German authority on Roman law, has been graduated from the University of Heidelberg with the degree of Ph. D. Fraulein Win-scheid is the first woman to be admitted to the old seat of learning with the privilege of taking her degree. The university will soon be thrown open to women, it is thought.

JAMES SMITH, who died recently at Fairmount, Neb., had an interesting military life. He was a cabin boy in the English navy, enlisted in the British army and served in the Crimean war, taking part in the storming of the strong fortresses at Sebastopol, the Redan and Malakoff. He also participated in subduing the Sepoy rebellion in India, and was at the siege and storming of Lucknow and Cawnpore.

SOMETHING is clearly wrong with the parity between the market value of husbands and wives. A jury has awarded a wife \$10,000 for her husband killed on the Pennsylvania railroad, and a Newton (Kan.) young man is estimated at such a high price that a woman, who did not get him has sued for \$15,000 damages for breach of promise of marriage. On the other hand a Tennessee husband has sold his wife for fifty cents.

## FROM HAWAII.

News Brought by the Latest Steamer from Honolulu.

Minister Willis Still Awaiting Instructions—President Dole's Army Ready to Resist Restoration—Thurston Details Some Plans.

ANOTHER BATCH OF NEWS.

HONOLULU, Nov. 19 (via schooner Transit to San Francisco, Dec. 9).—During the afternoon the Alameda sailed Minister Willis made a statement that nothing definite would be done here until he had received a reply to dispatches sent to Washington by the Alameda. This statement was published in the Star. Thursday the Bulletin published a letter from Minister Willis in which he said he wished his remarks in the Star to apply to the entire press of Honolulu. The stand taken by Minister Willis in his interview with the Star, which was revised in proof by him before publication, caused considerable anxiety in government circles, owing to the intimation that any breach of the peace would be punished by the American minister. To a reporter his words were that any trouble precipitated on the other side would be stopped at once by United States forces.

On the morning of November 17, the day after the Alameda left, President Dole called upon Minister Willis to learn how far the authority of the United States was expected to be carried in case of emergency. Upon his return it was learned that the provisional government was fully satisfied with the explanations and limitations made by Minister Willis.

It is the general opinion that the original language used by the United States minister conveyed more than he intended it should. It is understood that President Dole very clearly informed Minister Willis that the provisional government commanded the situation and would require no aid from the United States unless it was called for. President Dole assured Minister Willis that any breach of peace which might occur would be speedily dealt with by the Hawaiian government. The provisional government received assurances on the other points mentioned which were perfectly satisfactory. It is understood that Minister Willis said he would stand back of the present government until the present difficulty was settled.

When the attention of the United States minister was called to the fact that the provisional government would aid him in keeping the peace he replied that he did not expect trouble unless it came from irresponsible persons on either side.

An interview with members of the provisional government develops a determination to stand on the defensive and take nothing on trust until the United States government is officially heard from either directly or through Minister Willis. In the meantime the troops will be kept fully armed and a reserve guard ready at a minute's notice. Americans assert that no restoration shall take place, and it seems to be the general opinion that if the queen is restored it will have to be accomplished by force on the part of the United States. The provisional government expresses the opinion that use of force would be equivalent to a declaration of war.

Since his arrival Minister Willis has been advised that should the United States restore the queen warships of that nation would be kept busy protecting her throne. Resident Americans have at least 1,500 rifles and ammunition in private hands which it would be impossible to seize in case of restoration. Those best posted say the throne would not stand an hour after the withdrawal of American troops, should Cleveland attempt restoration. The theory of the restoration, however, will not be believed here until the last moment. Should it then prove true, serious trouble will inevitably follow.

WASHINGTON, Dec. 9.—Minister Thurston, before leaving for San Francisco, told friends that a plan of action had been agreed upon by the government and would be carried out. The provisional government has 1,100 men under arms who are ready to respond at the signal of the bell. This force will not be permitted to fire on the United States marines if they are landed. Neither will the provisional government lay down its arms and leave the government building upon a request of Minister Willis, even after the marines are landed. The provisional government will remain until its members are arrested and taken out. It will resist any interference by any other than the armed force of the United States. With its military force at command it will not allow the supporters of the queen to enter the palace or disturb the peace of Honolulu.

This statement as to the plan of the provisional government is in line with the advice of Minister Thurston sent to the provisional government immediately after he had read Secretary Gresham's letter to the president exhorting President Dole to stand firm and to yield to nothing but actual force. This proves to have been President Dole's attitude before he heard from Minister Thurston.

Fire in St. Louis. ST. LOUIS, Dec. 11.—The famous shoe house was damaged by flames, smoke and water to the amount of \$150,000.

## IN MEMORY OF SHIELDS.

Statue of the Famous Soldier-Statesman Unveiled at Washington.

WASHINGTON, Dec. 8.—The memory of James Shields, soldier, jurist, statesman, received glorious homage in the national capital. Three states—Illinois, Missouri and Minnesota—paid the tribute through their chosen representatives and congressmen from all parts of the nation looked on and indorsed every praise sung in honor of the gallant hero. The ceremonies took place in the historic statuary hall in the capitol. The statue is a bronze, military figure of heroic size on a granite pedestal on the front of which are the words: "Gen. James Shields, warrior, jurist, statesman." On the other three sides are the arms of Illinois, Minnesota and Missouri—states which Shields successively represented in the senate. The statue is the work of Leonard W. Volk, of Chicago, and was an exhibit at the world's fair in that city.

At 1 p. m. the parade formed in front of the National hotel, and thence proceeded to the capitol, headed by a troop of cavalry from Fort Myer, led by the Arsenal band. Following in line in carriages were Gov. Altgeld and staff, of Illinois; Gov. Nelson and staff, of Minnesota; Gov. Stone and staff, of Missouri; the statue commission and members of Gen. Shields' family, veterans of the Mexican war, members of the Grand Army of the Republic, the Emmet guards of Washington, and members of the local committee.

The procession marched down Pennsylvania avenue to the "Peace" monument, then up the hill and around the capitol to the main entrance; through the big rotunda into statuary hall, and mounted the stand built for the purpose. At one end of the stand Gen. Shields' statue stood, at the other the white stone statue of that other son of Illinois, Abraham Lincoln.

The hall was crowded with senators, representatives, newspaper men, men and women. Standing room was at a premium. The ceremonies began with a brief speech by William H. Condon, of the statue commission. He told of the object of the assembling and introduced Miss Katherine Shields, the general's daughter, who pulled a string and the flag which covered the bronze fell aside and revealed the statue.

Then Gov. Altgeld was introduced. He briefly reviewed the military and civil career of the dead general and eulogized him in eloquent terms. In conclusion he said:

"Let the young men of America learn from this statue and from the career of Gen. Shields that the paths of virtue and of honor, the paths of glory and immortality are open to them all."

Gov. Altgeld was followed by P. H. O'Donnell, of Georgetown college, who recited "The Sword of Cerró Gordo." Other addresses were made by Gov. Knute Nelson, of Minnesota; John Tarsney, of Missouri; Lieut. Gov. Wares, of Pennsylvania, and Senator Turpie, of Indiana.

## FATAL FLAMES.

A Mother and Daughter Perish by Fire in Allegheny.

PITTSBURGH, Pa., Dec. 8.—Turner hall, on the corner of Cherry and South Canal streets, Allegheny, was partially destroyed by fire Wednesday night and two persons were burned to death and two others seriously injured. The dead are: Mrs. Carl Benninghoff, aged 35 years; Emma Benninghoff, a daughter, aged 5 years. The injured: Edward Benninghoff, aged 9 years, seriously; Carl Benninghoff, Jr., aged 4 years, probably fatally. The fire started from the furnace in the cellar about 8:30 o'clock and the children were asleep on the fourth floor. The fire was discovered by Mrs. Benninghoff, who notified a class of fifty girls engaged in calisthenic exercises in the main hall, then started to rescue her children. That was the last seen of her alive.

An hour later, during a fire in an unfinished frame house in the east end of this city, David Thompson, a fireman, was killed and John Williams, also a fireman, was dangerously injured by the falling of a chimney. The property loss was small.

## A COSTLY STRIKE.

Its Recent Troubles Cost the Lehigh Valley Road \$1,000,000.

PHILADELPHIA, Dec. 8.—As already announced the strike of the Lehigh Valley employes has been declared off. The correspondence between the New Jersey and the New York board of arbitrators, who represented the strikers, and President Wilbur shows concessions on both sides. The company recedes from its position "never to recognize labor organizations," so emphatically announced recently, and agrees to receive committees representing men who have grievances. This principle is the right to lay grievances before the proper representatives of the country through the medium of a committee or committees. A prominent official says the loss to the road on gross earnings during the period of the strike has been \$1,000,000.

## Poet Riley's Loss.

INDIANAPOLIS, Ind., Dec. 8.—Capt. Reuben A. Riley, the father of James Whitcomb Riley, the poet, died at his home at Greenfield, Ind., of pneumonia, aged 74. Capt. Riley was a quaker and a lawyer. He organized the first three months' company at Greenfield for the late war. He served in the legislature of Indiana many years ago.

## MICHIGAN STATE NEWS.

### MUST FEED THE STARVING.

Gov. Rich Has a Plan for Bringing the Mine-Owners to Time.

Gov. Rich says that unless the mine-owners show a disposition to immediately give the upper peninsula miners work at sufficient wages to keep them from starvation he will issue another proclamation on the subject of relief for the destitute. He believes it is the duty of the mine-owners to furnish such employment, and in case they refuse to do so he maintains that means should be devised for bonding the counties in which the mines are located for money to care for the starving men and their families, thereby compelling the mine-owners to pay four-fifths of such tax, they owning that proportion of the property.

### LEFT TWO FAMILIES.

Traveling Salesman Lives a Dual Life for Thirteen Years.

Richard J. Scott, a well-known traveling salesman of Grand Rapids lived a dual existence for thirteen years, and the fact was not discovered until after his death a few days ago. He married his first wife in 1858 and when his wife was ill in 1880 he engaged a nurse of whom he became so enamored that his wife dismissed her. She went to Fenton and soon after Scott appeared and told her he was divorced and married her. Since that time he divided his attentions between the two wives, the first of whom lived in comfort with one child in Grand Rapids and the second in luxury with four children in Fenton.

### Health in Michigan.

During the week ended on December 2 reports sent in by sixty-five observers in various portions of the state to the state board of health indicated that inflammation of the kidneys and pneumonia increased and typhoid fever and remittent fever decreased in area of prevalence. Typhoid fever was reported at twenty-six places, diphtheria at thirty-one, measles at six and scarlet fever at forty-eight places.

### Killed His Wife and Himself.

Myron A. King, a stonemason at Grand Rapids, murdered his wife and then committed suicide. Two weeks ago Mrs. King left her husband on account of ill treatment. She returned to see her little boy. She asked the child to come out on the walk, but her husband induced her to enter the house, and then shot her and himself.

### Evil Resort Destroyed.

The house of Trout Creek in which Deputy Sheriff George Davidson was murdered by Eric Enos was fired by friends of the murdered man. Fifty determined men carried pails of kerosene oil to the place, saturated it from garret to cellar, applied torches and stood guard while the infamous resort was reduced to ashes.

### Work for Idle Miners.

After a suspension lasting four months the Lake Superior Iron company has resumed work at its hard-ore mines near Ishpeming, known as section 16, and also at number 7, employing 400 men at the two mines. The Republic mine at Republic also began work, giving employment to 300 men.

### Held for Trial.

Nelson Bradley was bound over at Lansing to the circuit court for trial on a charge preferred by Commissioner of Banking Sherwood of making a false report of the condition of the now defunct Central Michigan savings bank, of which he was cashier. He gave bail in the sum of \$5,000.

### Short But Newsy Items.

Peter Seidle, secretary and treasurer of the Menominee River Brewing company died at his residence in Menominee after a brief illness, aged 43 years. Prof. Neil L. Downie, of Muskegon, one of the best, known educators in western Michigan, died at the age of 60 years.

Francis W. Fifield, prominent in Michigan masonic circles, died at Detroit, aged 72 years.

Benjamin Stow Farnsworth died at Detroit, where he had lived for sixty-six years.

The schooner Hunter Savidge went ashore near Port Huron. The imperiled crew were taken off safely.

Four hundred miners at the Winthrop mine at Ishpeming struck against being paid in store orders and the mine will be closed for the winter.

Michigan gold may yet cut something of a figure in the bullion market. They are stamping out \$800 per day at the Ophir mine.

The steamer Waldo A. Avery, grain laden, Chicago to Buffalo, was destroyed at Mackinaw straits. Loss, \$80,000.

The grip continues to spread around Holland, and appears to be attacking chiefly old people.

The November product of the Quincy mine was 1,000 half tons and of the Atlantic 217 half tons.

Counterfeit dollars and half dollars are in circulation at Lake City. It is thought that they are the work of amateurs.

W. H. Lossing, of Girard, has been appointed head farmer at the state school at Coldwater.

Stephen Howard, a veteran of Kalamazoo county, died at his home in Portage at the age of 95 years.

## THE CIVIL SERVICE.

The Commission Reports on Its Work—Johnston's Minority Report.

WASHINGTON, Dec. 12.—The majority report of the civil service commission for the present year is a voluminous document of about 15,000 words—as long as the president's message. The portion of special interest is that bearing on the extension of the classified service to free delivery post offices, by order of President Harrison, January 5, 1893. It is from this portion that Commissioner Johnston dissented, causing his removal by President Cleveland. The majority report says of this extension:

"This act brought into the classified service 584 offices and since its promulgation the free delivery service has been extended to nine other offices, thus making the total number of classified post offices at this time 6,110, including the fifty-three classified prior to this extension."

The salary limit to the classified service in the custom houses is condemned and classification by grade recommended. Changes in the New York custom houses are cited as examples. The satisfactory result of the classification of the railway and mail service are dealt on at length. The work of fourth-class postmasters subject to removal for partisan cause is cited in comparison with that of railway mail clerks to show the advantage of the system of choosing the latter.

The report closes with a statement showing that the number of persons connected with the civil service in the United States is about 200,000, and giving in detail the regulations governing hours of labor, compensation, promotions, etc.

Commissioner Johnston in his minority report takes issue with his colleagues as to the extension of the classified service ordered January 5, 1893, to include free delivery post offices. He thinks that under the circumstances, with the commission crippled for want of clerical force with which to do even the regular work of the commission, it was ill-advised, unfair and harmful to the cause of civil service reform. He says:

"The American people realize that the extension of the classified service does not necessarily mean civil service reform. When that extension increases by thousands the representatives in office of a party whose members already in classified places outnumber the members of the other party in classified places in the proportion of probably three or four to one, and when such extension is ordered by an administration and goes into effect shortly before the government is turned over to another administration of different political faith and party affiliation known to be friendly to the cause of civil service reform, it is difficult to reconcile it to fair-minded men of all parties as a non-partisan measure, and as difficult to reconcile it to believers in genuine civil service reform as a helpful contribution to that worthy and good cause."

The sending to the president of this minority report brought to a crisis the serious personal and official differences that, ever since Mr. Johnston's appointment as a member of the commission, have existed between him and his colleagues, and it is understood that Mr. Roosevelt and Mr. Lyman at once laid the matter before the president, representing that as Mr. Johnston's views differed from those of the majority on the vital questions of policy it seemed quite impossible that the personnel of the commission could longer remain as then existing. The result was Mr. Johnston's dismissal.

## GUARDING THE QUEEN.

Lillooalalani Seeks and Is Given Protection by President Dole.

HONOLULU, Nov. 22, via San Francisco, Dec. 11.—No positive knowledge has yet transpired as to Minister Willis' instructions or intended action. It is the general belief now that he came expecting to restore the ep-queen to the throne either directly or by intervention of popular vote. It is also believed that serious objections to such a course have caused the delay and reference to Washington. The mystery is still maintained and the apprehension created has produced great disturbance and irritation in the public mind.

Among the obstacles to restoration is the refusal of the queen herself, unless she receives the strongest guarantees that the United States forces will maintain her upon the throne, knowing that she would otherwise be immediately overthrown again and severely dealt with. Again, some 1,500 rifles with ammunition are in private hands, chiefly Americans, ready to remove her at the earliest possible opportunity. Furthermore, the provisional government is absolutely determined to make no concessions and will firmly maintain its position, yielding it only to actual war made upon it by superior forces of the United States. Added to these obstacles it is well known that Admiral Irwin and the officers under him are reluctant to make war probably involving bloodshed upon American people of Honolulu, their own friends and daily associates.

Since advices by the schooner Transit, which sailed three days ago, the queen has applied to the provisional government for protection, claiming that she fears violence from foreign residents. The government at once granted her request and a detail of six policemen was ordered by the marshal. The government has informally intimated to the American minister that it is simply able to repress any disorder and wishes no troops to be landed.

The sad news comes from England that a new whistle is being brought out, capable of one thousand variations, and audible at a distance of two miles. The effect is produced by placing inside of a metal bulb a perforated revolving disc. What with siren whistles, handorgans, street bands, electric car gongs, and this new invention of the evil, some of us will begin to envy the inmates of the deaf and dumb asylums before very long.

### Here and There.

Coming Florida on wheels. Grip is quite prevalent in this vicinity. Albert Hindelang has been on the sick list the past week. For sale, or exchange for wood, a new Beckwith Round Oak stove. J. J. Raffrey. The machine gun is about the only mowing machine that has been successfully introduced among the natives of South Africa.

Some people will do anything for money. Recently two physicians advertised in New York for a man who would submit to a surgical operation which might possibly be fatal, in consideration of \$5,000. They received 142 replies, the greater number of which were bona fide.

Holiday excursions to Canada. The M. C. R. R. will sell tickets at one lowest first class fare for round trip to points in Canada east and including Fargo to Canfield, inclusive. Date of sale, Dec. 19, 20 and 21, 1893. Good to return not later than Jan. 9, 1894.

Holiday Excursion Rates for Christmas and New Years, 1893-94. The Michigan Central Company will sell tickets at one and one third lowest local first-class fare for round trip. Tickets to be sold December 23, 24, 25, 30 and 31, and January 1, limited to return up to and including January 2, 1894.

Gov. Rich has appointed B. E. Thompson, of Stockbridge, as one of the State delegates at large to the Farmers' National congress to be held at Savannah, Ga., commencing this week. Andrew Campbell, of Pittsfield has been appointed delegate from this congressional district with D. N. Perry, of Wyandotte, as alternate.

At the annual election of officers of the Woman's Relief Corps, held on Friday last, the following were elected: President, Mrs. Mary E. Van Tyne; Senior Vice President, Mrs. Mary Winans; Junior Vice President, Mrs. Addie Green; Treasurer, Mrs. Carrie Palmer; Chaplain, Mrs. Charity Yocum; Conductor, Mrs. Ada R. Speer; Guard, Mrs. Victoria Conk; Delegate to State Convention, Mrs. Addie Green; Alternate, Mrs. Ida Palmer.

Florida's rolling exposition is a state fair on wheels, a tenth wonder of the world. It is the most remarkable car on either continent, has been entered by more people on the inside, gazed at by more people from the outside than any car ever built in the history of railroading, and has done Florida more good than all the fairs she ever held—Charlotte (N. C.) Observer. Will exhibit in Chelsea, Tuesday, Dec. 19, day and evening, at M. C. depot.

A smooth individual has been victimizing the farmers in the vicinity of Jackson He claimed to be looking after a farm and promised to pay a good price for one that suited him. Of course it took several days to consider the matter in each case and this gave him free board for that length of time. He purchased several pieces of property, and wound up his work by absconding with some wearing apparel and money taken from the farm houses.

Somebody has discovered that church sleepiness is to be explained on scientific principles. It is, in fact, a condition of hypnotism, and, so far from indicating inattention to the sermon, shows rather complete absorption by it. Fixing one's mind on the voice of the minister, in the otherwise complete silence of the audience-room, produces just the conditions necessary to domination by another's mind, and the nodding head and drooping heavy eyelids are not elovuent of the preacher's dullness, but rather mute testimonials of his powerful influence.

Gasoline is an expensive fuel in the end although its first cost is trifling. People continue to risk their lives and their property by using gasoline because it costs a few cents less per gallon than nonexplosive oil. The oil inspectors seem to have no authority to prevent its sale and the underwriters pay losses caused by its use. So long as this state of affairs continues the crop of explosions and fires will not diminish. Some people will take any chances in order to save ten cents a week. That some of them are blown up or burned to death does not deter others. The case is apparently hopeless.

Report of school in district No. 7, Sylvan, for the month ending Dec. 1. Number enrolled, 33; attending every day, Oliver, Jimmie and Alvin Killam, Blanche Wortley, Alfred Faulkner, Oscar, Joe, Edwin and Dave Laubengayer, Anna Jensen, Paulina Bohnet, Theodore, Herman and Myrta Weber, Arthur, Lena and Clara Merkle, Lydia Wolf; standing 80 or above, Paulina Bohnet, Oscar Laubengayer, Lydia Wolf, Jimmie Kellam, Herman Weber, Alvin Kellam, Joe Laubengayer, Alfred Faulkner, Lois Kellam, Paulina Bohnet, Jimmie Kellam and Lydia Wolf have not misspelled a word in written spelling lessons during the month. Lucy Stephens, teacher.

### 1893-1893.

For 25 years I have been engaged in the Drug business in Chelsea; for the past few years devoting nearly all my time to it, not having time or inclination to handle a mixed stock of merchandise. Feeling that business habits established so many years ago are not those of to-day, I have associated with me in the Drug and Grocery business, H. H. Fenn and Louis T. Freeman, both young men who are well known to you, who will in the future take entire management of the business.

I am very thankful to the Public for the many favors and very liberal patronage bestowed upon me, and knowing the qualifications of the young men who are to take charge of the business, I can assure you that anything in the Drug line will be safe if intrusted to them.

I shall remain in the store and hope to be of some assistance. It is the intention as soon as can be to handle a more extensive stock of Groceries, Wall Paper, School Books and Druggists Sundries. With ample means to buy for cash and small expense of doing business, we can and will meet any competition. Yours Truly

R. S. ARMSTRONG.

### For Sale Cheap.

Sixty acre farm, all improved, well fenced, new-house and barn, was formerly owned by George Oesterle, 5 miles west of Chelsea. For price and terms write L. R. COOPER, Saginaw, East Side, Mich.

### December Crop Report.

The reports this month, with rare exception, show that while wheat has made small growth, the plant, December 1, was in fairly healthy condition. The small growth is due to late sowing and dry weather. For the southern counties, the average condition is reported at 84 per cent; for the central, 89 per cent; and for the northern, 96 per cent, comparison being with vitality and growth of average years. The corresponding figures one year ago were 82, 93, and 97. The presence of insects is noted by a few correspondents, but the injury done by them, if any, is hardly perceptible. The ground has been well covered with snow since the 2d of December.

The total number of bushels of wheat reported marketed in November is 1,704,351. The number of bushels reported marketed in the four months August—November is 6,358,371, which is 378,825 bushels less than reported marketed in the same months last year.

Pasture this fall has not been good, particularly in the southern counties; and the condition of live stock is reported from five to seven points below a full average. Stock is practically free from disease of any kind.

JOHN W. JOCHUM, Sec. of State.

HAWAIIAN AFFAIRS.

Debate in Congress on the President's Message Relating to This Subject.

In the United States senate on the 5th Mr. Hoar (rep. Mass.) introduced a resolution calling on the president for copies of the instructions to Minister Willis and Admiral Irwin...

Mr. Dolph (rep. Ore.) then addressed the senate upon that part of the president's message relating to Hawaii, beginning with expressions of surprise at the president's persistence in overthrowing the provisional government...

Mr. Vest (dem. Mo.) asked Mr. Dolph whether he was arguing in favor of the policy of securing the Hawaiian islands and holding them as a colony.

Mr. Dolph's reply was that he would come to that point after a while; but he declared that he was in favor of the annexation of the islands, giving them suitable government and exercising control over them.

Mr. Vest (dem. Mo.) asked Mr. Dolph whether he was arguing in favor of the policy of securing the Hawaiian islands and holding them as a colony.

Mr. Dolph's reply was that he would come to that point after a while; but he declared that he was in favor of the annexation of the islands, giving them suitable government and exercising control over them.

In the course of his speech Mr. Dolph was asked by Mr. Gray (dem. Del.) whether the present government of Hawaii was a republic. His reply was that it was as republic as anything else. It was certainly not a monarchy.

"And it certainly is not a republic," said Mr. Gray.

"If it is true that force is to be used to restore the queen," said Mr. Dolph, "that is worse than piracy." He said the report of Mr. Blount read more like the plea of a zealous lawyer for his side of the controversy than like the unprejudiced and impartial decision of a judge.

Mr. Hoar's resolution requesting the president to forward to the senate all the correspondence on the Hawaiian question was debated in the senate on the 6th. Mr. Hoar said the resolution covered the period of three administrations and he hoped and believed that the instructions would show a settled and consistent policy—certainly down to recent times.

people of the United States did not like this. All the facts ought to be communicated to congress. Sherman said that all he desired to say on the present occasion was that if it was the purpose of the president, by the use of military force, to restore the queen in Hawaii, it would be a fatal act of public policy, a great injustice to the people of the United States and almost an insult to the congress of the United States.

The debate was closed by Mr. Call (dem. Fla.), and the resolution was adopted without a division.

HOUSE In the house on the 6th Mr. Hitt (rep. Ill.) introduced a resolution, which was referred to the committee on foreign affairs, calling on the president to communicate to the house copies of the instructions given to our minister to the Hawaiian islands regarding the protection of the lives and property of American citizens there, or any contemplated change in the form of government.

POUNDED TO DEATH.

An Omaha Woman Murdered—Her Slayer Kills Himself.

OMAHA, Neb., Dec. 7.—Martin Anderson, cellar clerk at the grocery house of Heimrod & Hanson, murdered an unknown woman in the cellar of the store Tuesday and then cut his throat. Nothing is known of the causes for the tragedy. Anderson was seen leaving the store at 6 o'clock, when the place was locked up. He had no key, and so forced his way in from the rear. About 8 o'clock passers-by heard a woman scream: "Help, my God, he's killing me." These sounds came from the cellar. As soon as possible the police obtained entrance. Anderson had used a paving stone and literally pounded the head of his victim to a jelly. There were signs of an awful struggle. The dead woman was apparently about 30 years old and almost Anderson's equal physically, so she was able to make a desperate fight for life. After he had finished his work of murder Anderson took a dull pocket knife and cut a ghastly hole in his neck. He sawed and pried with the dull blade until he severed both the windpipe and the carotid artery. He died from loss of blood. Anderson was unmarried and bore a good name with the firm for which he worked.

FOUR MEN INJURED.

Calcium Light Cylinder Explodes with Terrible Results at Albany.

ALBANY, N. Y., Dec. 7.—A horrible accident happened on the river front shortly after 9 o'clock a. m. William Becker, Fred Russell, Edward Eagan and Edward Leslie, employes of the People's line, started to move eight calcium light cylinders from the dock to the freighthouse. Eagan hoisted one upon his shoulder and walked across the street. In front of the doorway of the freighthouse there occurred an explosion which startled every one in the vicinity. When the dust cleared away three of the men lay prostrated. On the snow in the street lay Russell. One leg was torn off and from a gash in his stomach protruded his entrails. Eagan lay near him. One of his legs was also gone, while there was hardly a spot on his body but showed the marks of some of the flying portions of the death-dealing cylinder. Becker lay near the door. A gash in his left thigh showed that he, too, had been badly injured. Leslie escaped with a couple of broken ribs. Eagan and Russell are injured internally and are likely to die. Becker will live.

MUST FEED THE STARVING.

Gov. Rich Has a Plan for Bringing the Mine-Owners to Time.

LANSING, Mich., Dec. 7.—Gov. Rich says that unless the mine-owners show a disposition to immediately give the upper peninsula miners work at sufficient wages to keep them from starvation he will issue another proclamation on the subject of relief for the destitute. He believes it is the duty of the mine-owners to furnish such employment, and in case they refuse to do so he maintains that means should be devised for bonding the counties in which the mines are located for money to care for the starving men and their families, thereby compelling the mine-owners to pay four-fifths of the property. Inasmuch as most of the money earned by the miners is expended in Chicago, Milwaukee and Green Bay, Gov. Rich thinks these cities should be willing to contribute in the present emergency.

TWO WOMEN MURDERED.

Harper Whitmore Kills Mrs. Martin and Mrs. Hesler for \$200.

ST. JOE, Pa., Dec. 6.—A brutal double murder has been committed a mile north of here. Mrs. James Martin, aged 25, and her mother, Mrs. Christian Hesler, aged 60, were found lifeless at 8 o'clock a. m. by Mrs. Hesler's son, who had returned home. Mrs. Martin's skull was crushed and her throat was cut from ear to ear and her mother's head had been crushed in by a blow from a poker. The latter is still living, but will not survive the day. The murderer is Harper Whitmore, a son-in-law, who had been visiting his mother-in-law. He has not been apprehended, but officers are after him. The object of the terrible deed was robbery. Whitmore secured about \$200 from a trunk.

**WONDERFUL CURES!**

THOMAS MINCHIN.

MAJOR W. A. SIMFIELD.

**Nervous Debility and Catarrh Cured.**  
Thomas Minchin says: "I was reduced to a nervous wreck—only weighed 118 pounds. The result of early abuse was the cause. I had the following symptoms: Miserable mentally and physically, melancholy, nervousness, weakness, specks before the eyes, dizzy, poor memory, palpitation of the heart, flushing, cold hands and feet, weak back, dreams and losses at night, tired in the morning, pimples on the face, loss of ambition, burning sensation, kidneys weak etc. Doctors could not cure me; but Dr. Kennedy & Kergan by their New Method Treatment, cured me in a few weeks. I weigh now 170 pounds. It is three years since I have taken their treatment."

**Blood Disease and Dyspepsia Cured.**  
Major Simfield says: "I had Dyspepsia and Catarrh of the stomach for many years. To make matters worse I contracted a Constitutional Blood Disease. My bones ached. Blotches on the skin looked horrible. I tried sixteen doctors in all. A friend recommended Dr. Kennedy & Kergan. I began their New Method Treatment and in a few weeks was a new man with renewed life and ambition. I cannot say too much for those scientific doctors who have been in Detroit for forty years. I conversed with hundreds of patients in their offices who were being cured for different diseases. I recommend them as honest and reliable Physicians."

**A Domestic Science.**

The servant girl problem has reached such a crisis in Massachusetts that a really sensible though high sounding movement has been made. Schools are to be established where cooking, washing, etc., are to be taught, and the new science of house-keeping is to be styled oekology. Training schools of this description have long been needed, and it will be found that intelligent graduates from a course of oekology will do much to make the fast vanishing home life enjoyable. Our good wishes are with the coming oekologists.—Halifax Critic.

**A Leader.**

Since its first introduction, Electric Bitters has gained rapidly in popular favor until now it is clearly in the lead among pure medicinal tonics and alteratives—containing nothing which permits its use as a beverage or intoxicant, it is recognized as the best and purest medicine for all ailments of Stomach, Liver or Kidneys. It will cure Sick Headache, Indigestion, Constipation, and drive Malaria from the system. Satisfaction guaranteed with each bottle or the money will be refunded. Price only 50c per bottle. Sold by F. P. Glazier & Co.

**A Courageous Girl.**

In an impromptu catch-as-catch-can wrestling bout, a New Jersey girl of 23 proved herself fully as good as a burly burglar who got into the house the other night. The episode shows that one thing we can do with some of our girls is to teach them not to be afraid. Not every one of them could be brought up to face an unlawful intruder as Lizzie Butts did in Belvidere. But burglars who depend on the terrifying process in dwellings where "the man of the house" happens to be a woman would become more cautious and less numerous if it began to be understood that feminine courage was on the rise along the whole line.—Ex.

**Guaranteed Cure.**

We authorize our advertised druggist to sell Dr. King's New Discovery for Consumption, Coughs and Colds, upon this condition. If you are afflicted with a Cough, Cold or any Lung, Throat or Chest trouble, and will use this remedy as directed, giving it a fair trial, and experience no benefit, you may return the bottle and have your money refunded. We could not make this offer did we not know that Dr. King's New Discovery could be relied on. It never disappoints. Trial bottles free at F. P. Glazier & Co's. Drug Store. Large size 50c and \$1.00.

If all that is expected of wood pulp is accomplished it is apt to become much more of a king than ever was cotton. Late patents cover inventions for machines which are intended to spin and weave the fiber as if it were cotton or wool, of which for the making of wearing apparel, it is said to be the equal in every respect. When our shirts and pantaloon, our hats and shoes, our bathtubs and coffins are all made, as it is possible they may be, of pulp the product will certainly have come nearer than ever did anything else of enjoying a monopoly of supplying all the ordinary wants of man.
