## The Banquet of Nations.

The "Banquet of Nations" given by the Senior Class, of the Chelsea High School, at the Town Hall last Friday evening was one of the finest school entertainments ever produced in the hall. The curtain rose on the scene of the banquet as Columbia was welcoming her guests. The table was laid in the most tempting manner, set off by the collection of lovely flowers.

The toasts from the different nations were given in a very pleasing way, the persons being dressed in native costume of the country they were representing. Miss Angelina Sherwood made a most beautiful Columbia, dressed in white, with the national flag draped artistically around her, and also did her part as America, hostess of nations, with charming ease. The different nations were represented as follows: England, Henry L. Stimson; France, Cora I. Taylor; Ireland, Reno D. Hoppe; Russia, C. LeRoy Hill; Africa, Max L. Moon; Japan, Minnie C. Allyn; China, Nellie A. Lowry; Scotland, James F. Hathaway.

The orchestra in attendance rendered some fine music, and the vocal duets by Miss Annie Bacon and Faye Moon deserve the highest of praise. The violin duet by Messrs. Freer and Freer won great applause from the appreciative audience.

Steward—Jay Wood.

## Observance of Memorial Day.

No one can fail to be made better by taking part in the ceremonies of Memorial Day and we are glad to know that each year the day is more generally and appropriately observed. The disposition of some to make it a day of festivity and pleasure has been so extensively rebuked that but few will have cheek to get up picnics or balls or even go fishing on this Memorial Day. In a very few years those who are most active in strewing the graves of others will themselves be the objects of the same loving service and it is pleasant to think that they will not be forgotten, but that their last resting place will be bedewed with tears and bedecked with flowers on each recurring spring, and that Memorial Day will continue to be observed as long as the principles of love and gratitude remain, which will be to the end of time.

#### FURIOUS RIOTERS.

CLEVELAND, O., THROWN INTO CONSTERNATION BY A MOB OF UNEMPLOYED FOREIGNERS.

CLEVELAND, O., May 4.—Tuesday 5,000 unemployed foreigners celebrated May day by marching through the streets of the city, closing down each factory as they came to it. The mob, whose appetite for blood and violence had been increased by the May day deprivations, ran wild on Wednesday, throwing the citizens into consternation. The city authorities became aroused at last to the dangers confronting life and property, and 800 men in arms were put in readiness to check any indiscretions in which the mob might indulge. The mayor issued a proclamation warning all persons to abstain from all acts of violence and from assembling together for the purpose of riot and disorder. Mayor Bleel also ordered the militia to be in readiness for any emergency which might arise.

The crowd was crazy and was past all control. Poles, Bohemians, Huns, Slavs and a regular babel of tongues shouted orders and encouraged the rioters on to their work.

#### LEADERS ARRESTED.

As a result of the day's deprivations six rioters have been arrested. One is Tom Moore, a leading anarchist and a dangerous fellow. He was captured by Lieut. English while loudly urging his cohorts to do all kinds of violence.

#### CLEVELAND RIOTERS SUBDUED.

## THE OLD POSTMASTER.

Been runnin' of the office  
For fifteen year an' more:  
Best all the other candidates—  
Walked in an' locked the door.  
  
He wears two pair o' spectacles,  
His sight is growing dim;  
He knows each man that ever  
Had a letter writ to him.  
  
He says: "Bill Brown, here's somethin'  
Handwritin's kinder slant;  
I guess it's from yer daddy,  
Or a letter from yer aunt!"

He strikes a yell'er envelope  
With printin' on one end;  
He han't it to the grocerman:  
"About them goods, my friend!"

Knows everybody's business,  
An' tells 'em of it, too;  
A letter from your sweethearts,  
Or "Another bill fer you!"

No politie kin hurt him.  
No matter who may win:  
He sees the preidents go out  
While he keeps stayin' in.

But the truth about the matter  
To all is mighty clear:  
He's had the blamed ole thing so long  
They've done forgot he's there!

## HARRY GAY'S FLING.

BY MADGE ROBERTSON.

[Copyright, 1894, by the Author.]

**T**HE day of Harry Gay's wedding drew near. As he thought of it, cold shivers ran down his back. The shivers were entirely anticipatory. He was enjoying his engagement immensely—so well that he had no objections to its going on indefinitely.

"But what have I ever done," he asked himself, miserably, "that I should get married?"

Not in love with his betrothed? Of course he was. Lulu was the dearest girl in the world, and, even by unapreciative outsiders, acknowledged to be the brightest and prettiest girl in Ballingwood. After a year or so he would be quite content to marry her and settle down into a model husband. But he never thought of a speedy marriage when he engaged himself to her—never! Why, man alive, he had just, last month, completed his law course; and before that he had put in four years of severe labor at his university. If ever he were going to have a fling in his life, now was his chance. If ever a man deserved a good time after all that grind—he was the man. If ever he felt more like letting himself out than he did this summer—Oh! confound it!

How had he got into this hasty affair anyway? Looking back, Harry couldn't in the least remember. Lulu had been as passive in the matter as himself. As nearly as he could recall it, their respective families had with maliceous in the light of Harry's subsequent feelings—and unwarrantable haste settled the final arrangements as soon as their several consents had been obtained.

"Well, I suppose we must not keep the young people waiting too long," remarked Papa Boulton, facetiously.

And Mamma Boulton chimed in: "I really cannot have Lulu ready before September."

September! Harry groaned within himself. He had thought vaguely of a couple of years.

"It would be nice to go to Europe together, wouldn't it?" suggested Harry's sister; "and September ought to be a nice month there."

The deed was done. Before Harry had quite grasped the situation, he found himself the possessor of a house and grounds, both of which required immediate and close attention. The worst of it was, that there seemed no help for it. To explain his state of mind to anyone but Lulu would be to involve himself in unsympathetic ridicule. To expose it to her was out of the question. He wondered if any fel-

At last a thought came to him; it was a wild-eyed thought, but it had a dawn of reason somewhere. "Perhaps Lulu feels as I do about it. She does not seem over-anxious about the wedding." This hopeful train of ideas was plausibly carried out. "She naturally would not like to tell me any more than I like to tell her. She may be dreading it even more than I am. But then, again, she may not. And if she doesn't, and if I am fool enough to hint that I do, she will be furious and I'll lose her forever; and, hang it all!—I don't want to lose her forever! A bit more freedom is all I want. One good year of it, even abroad, and then we'll be the happiest couple in Ballingwood. I've got to find out how she feels, but it's a risky business. I'll sound her without giving myself away—if I can!" With a painful realization of Miss Boulton's acuteness.

He tried for several days to screw his courage up to ascertaining Lulu's views on the marriage state with special reference to their personal and immediate bearings, and at last one night did so. As a matter of investigation, his success was instant and startling. His soundings were more visible than he intended, and a blazing-eyed young damsel turned fiercely upon him:

"There was no necessity for all this beating about the bush. If you wished to break off the engagement all you had to do was to say so!"

"But I don't!" protested the unfortunate youth. "I only thought it would be better for both of us, perhaps, to wait a little—until we were a little older."

"Bah!" said Miss Lulu, scornfully, adding cruelly: "Although, now you suggest it, your immaturity is certainly an objection! I cannot say, however, I have ever noticed it until today."

"I thought you would understand," Harry said, reproachfully. "You know I love you. You know I want to marry you—"

"When there is nothing better you can find to do with yourself," injected Miss Boulton, sharply. "When you are jaded with every kind of pleasure, you will descend to bring your bored self back to me to see what I can do to entertain you the rest of your life—that is, provided no one else has taken your fancy in the meantime! And

AND SHOWED IT ENTHUSIASTICALLY AS THAT OF HIS FIANCÉE.

now!" rising, and with even a look of indifferent disgust on her face, "you must really excuse me. I have already wasted too much of my life on you!" And in spite of indignant remarks from Mr. Gay she marched off through a doorway and was gone. From that time on she was never at home to him.

Well, Harry was free! A happy idea of avoiding the remarks of his family, by way of taking a flying trip to Paris and doing a few of the things that "fling" was to be distinguished for, occurred to him. Think what he would, he could not appear to himself in any other light than that of a weak-minded rascal, and to have a low opinion of yourself is a barrier to enjoyment as effectual as poor health. Perhaps Paris would brighten him up a bit. Possibly it might have done so but for one circumstance.

When he took the train for New York prior to embarking for the gay French capital, he rode on the rear end of his car until it should have got out of his native town. He was leaving when only the news of a broken engagement was all that had got abroad. But Heaven knows what would be said when the truth got out! As Harry ruminated gloomily, he stood on the back platform and gave a last glance at his birthplace. The train was crossing a side street, and with the breadth of view a local line admits to its passengers. Harry saw the length of the street. He gazed a moment and then threw himself fuming into the nearest seat. Coming down, sauntering idly down this secluded lane, were Lulu Boulton and a man. The man had a name, and Harry knew it, but in his thoughts then, and at all other times, he was merely and generally designated "the fellow!"

Then the iron of jealousy entered Harry's soul. Between self-disgust and suspicion and sense of loss, he was in a very bad way indeed. The passengers made comments on the gloomy youth, and many maidens eyed him in interested pity. He was too good-looking, too interesting generally, to be so ill-treated by fortune. But the gloom never lightened, and Harry stepped on to the ferry at Jersey City feeling very much worse than he had felt when his marriage was imminent. He spent the night at a hotel on Broadway, and woke next morning in thoroughly bad temper. He tried to understand himself. "What do I want, anyway?" he asked himself, explosive-

ly. "I want to get off being married, and I get off. I want to go abroad, and here I am on my way abroad. I've got everything I want, and I never was so internally miserable in my life! I am an idiot!"

He hunted up some men he knew about town, and found most of them about to be married. That is what people do in June in New York. One youth confided his raptures to him and worked Harry up so that he produced a photograph of Lulu and showed it enthusiastically as that of his fiancee, and did not remember until the youth had gone that he had no fiancee. That ended the pretense of the day, and Harry frankly owned up to himself that the one thing he did want on the face of the earth was—Lulu.

For very shame's sake, he let three days elapse—as abominable a three days as he ever spent, and during which he discovered for all time that a "fling" without her was no fling at all—and then he went back to Ballingwood.

Did Lulu forgive him? Oh, yes—eventually. But the year she is making him wait is dragging very slowly for a youth who every day asks the blue sky if there was ever before such an utterable fool as himself. She went to the world's fair without him and made him stay in Ballingwood. She has further announced an intention of passing the season next winter in New York, so that "I can have one more good time before I settle down with dear old Harry!"

And "dear old Harry" uses a good deal of choice language; but, in view of his own New York experience, decides to wait for her.

### COLOSSAL INEFFICIENCY.

The Absurd Verdict Brought in by a Western Jury.

Many are the stories told of the remarkable verdicts brought in by inefficient juries, but there could scarcely be a better illustration of what a certain legal man calls "colossal inefficiency" than the story he tells of the verdict given by a jury in a western city. The case under trial was that of a man who—accidentally, as almost everyone believed—had fatally shot a friend, while the two were off with a hunting party.

The accused person was a prominent citizen of the place, and was greatly beloved as well as respected by every one who knew him.

At the trial proceeded, the faces of the jurors were filled with anxiety. When they at last retired it became evident to them that the prisoner could not be acquitted of all blame, according to the evidence, but they decided that if he must be considered guilty of something they would make that something as light as possible. Accordingly the foreman gravely announced on the return to the court room that they found the prisoner "guilty of drunkenness."

In spite of the gravity of the case a ripple of amusement ran over the court room at this verdict. The judge, with considerable severity and with great clearness, again charged the jury, and again they retired.

A long interval elapsed. At last they came straggling in again. Once more the foreman confronted the judge and thus announced the verdict:

"We find the prisoner guilty of manslaughter in the third degree, but—this in a tone of something like defiance—"we don't believe he did it!"—Youth's Companion.

### At the Barracks.

The colonel, on his tour of inspection, unexpectedly entered the drillroom, where he came upon a couple of soldiers, one of whom was reading a letter aloud while the other was listening, and at the same time stopping up the ears of the reader.

"What are you doing there?" the puzzled officer inquired of the latter.

"You see, colonel, I am reading to Pitou, who can't read himself, a letter from his sweetheart."

"And you, Pitou?"

"Please, colonel, I am stopping up Boquillon's ears with both hands, because I don't mind his reading my sweetheart's letter, but I don't want him to know what she writes."—La Famille.

### Gallant.

A really polite Frenchman can be complimentary in the face of unkind remarks.

Such a man, who had been bestowing upon a lady many compliments, asked her why she kept a large and apparently savage dog which had just entered the room.

"I bought him only yesterday," she answered, flippantly, "and I am going to keep him in my front hall to eat up my admirers."

"Ah, ze poor animal!" exclaimed the Frenchman, "to die of indigestion!"—Youth's Companion.

### Objected to the Doctor.

Jimmie—Are you a good doctor, Mr. Newfiz?

Mr. Newfiz—Well, Jimmie, I try my best to cure my patients.

"Kin you cure a broken neck?"

"Why, no. People always die when their necks are broken."

"Well, then, you can't marry my sister, 'cause maw says Sister Nell would break her neck to marry you, and if you can't cure her I don't want no dead sister."—Detroit Tribune.

## RUINED BY HAIL.

A Veritable Ice Storm Visits Iowa City, Ia.

Frozen Ice Falls in Chunks and with a Force Sufficient to Perforate Roofs and Smash Windows—Damage, \$100,000.

### A REMARKABLE STORM.

IOWA CITY, Ia., May 7.—A deluge of rain fell for twenty minutes Saturday afternoon with a continuous pelting of hailstones, some 8 inches in circumference and the average 2 inches in circumference. In almost a flash every pane of glass in the city that faced west and many that faced south, including most of the big plate glass windows, were smashed. Every tin roof was perforated with holes through which the flood poured, running down upon the stocks of goods. As nearly every business house in the city has a tin roof the damage runs up to \$100,000, if not more.

In the few minutes that the hail fell the excitement in the city was intense. Hundreds of carriages and wagons stood on the street. When the hailstones began to fall the horses broke loose and scores of vehicles went flying down the streets without drivers, and in nearly every case there was a smash-up. The people, almost panic-stricken, kept indoors, but so suddenly came the hail and flood that almost nothing could be done. Many persons got their teams unhitched from their carriages and wagons and housed them, but the vehicles left in the street were entirely riddled—tops, cushions, seats destroyed and the bottoms of the vehicles broken through by the great chunks of ice.

The buildings most seriously injured were those of the state university, the west sides of which were entirely ruined. Most of these buildings are covered with tin and the hail made sieves of every roof. Three of the largest university buildings are covered with slate and the roofs are nearly ruined. Every church in the city had the west windows shattered and the water poured in and did great damage. The photograph galleries and their stocks were ruined. The extensive greenhouses with their collection of plants are a total wreck.

MINNEAPOLIS, Minn., May 7.—A cyclone swept across the prairie and through the heavy timber near Royalton, Minn., about 2 o'clock Saturday afternoon. The traditional black, funnel-shaped cloud was distinctly visible from the village, which was visited by a tearing wind, accompanied by a heavy hailstorm. Several buildings were unroofed in the village and few panes of glass left unbroken. People were terribly frightened, but no one was injured.

At Little Falls there was a heavy windstorm, accompanied by rain and hail. Much timber was prostrated a short distance south of the city and several buildings unroofed. No lives were lost.

Arlington was visited by a heavy wind and rainstorm that did some damage. At Gaylord considerable hail fell, and a large barn filled with hay and grain was struck by lightning and completely destroyed.

WICHITA, Kan., May 7.—A terrific storm swept over this section of Kansas Friday night. Rain fell in torrents here from 7 in the evening to early morning. West Wichita had several houses struck by lightning and one man and his wife were knocked senseless by a bolt. Several houses in West Wichita were blown down and hardly an out-building is left standing. Plate glass windows in the Sunflower block were smashed like eggshells. The damage is considerable.

EMPORIA, Kan., May 7.—The hailstorm and waterspout of Friday night was not so severe in this city, but at Reading, 15 miles northeast of this place, considerable damage was done. The hall was so forcible that in one instance some went through a shutter, window pane and heavy curtain. Lots of them went through the roof. Some of the chunks of ice measured 13 inches in length. Some cattle were killed and most of the herds stampeded. All kinds of crops, gardens and fruits are ruined. Marshal Walsh was out in the storm and has not been found yet.

FAIRBURY, Ill., May 7.—A destructive storm swept over this section Saturday night. Great trees, fences and weak structures were leveled to the ground. Signs in the business part of the town were torn loose and hurled through the glass fronts. Several buildings sustained heavy damage.

ACCOLA, Ill., May 7.—The worst hailstorm that has visited this section of the country for years fell Sunday. Much damage was done to growing crops.

HUNTINGTON, W. Va., May 7.—A terrible hurricane and thunderstorm passed over this region about 5 o'clock Sunday evening, doing considerable damage. At Central City, 2 miles west of here, the Ohio river railroad shops and several houses were completely demolished, with a loss of \$20,000. J. H. Berkhardt, the superintendent, was buried beneath the debris, but was extricated. He will probably recover. Other persons received slight injuries.

### To Reclaim Thousands of Acres.

LOXON, May 7.—The reclaiming of 500,000 acres of the Zuyder Zee by means of a dike and at a cost of \$15,000,000 guilders is recommended by a Dutch royal commission.

### County Seat War in Court.

The county seat war in Montmorency county has finally reached the supreme court. That tribunal has granted an order requiring the board of supervisors of the county to show cause on June 5 why it should not reconvene and recanvass the vote cast upon the proposition to remove the county seat from Atlanta to Lewiston. It is alleged that the vote of Alberta township, which gave a majority of about 250 in favor of removal, was illegally and arbitrarily thrown out by the supervisors and the proposition thereby defeated by 100 votes.

### Served Nineteen Years in Prison.

Convict Ripley was released from prison at Jackson, having served nineteen years for assault. He had never seen a telephone, electric car nor brick pavement until he came out. The city, he said, seemed like fairyland to him, and the actions of people moving about the streets were like unto a picnic when he was a boy. He had saved a few dollars during his confinement, which he was disposed to spend as a boy spends a dollar at Christmas. He is 45 years old.

### Funeral of Senator Stockbridge.

The funeral of Senator Francis Stockbridge, who died suddenly in Chicago, took place at St. Luke's church in Kalamazoo, with Rev. R. R. Claiborne, the rector, officiating. The congressional delegation arrived at noon. The pall-bearers were members of Orcutt post, G. A. R. The church was filled to its utmost capacity and the funeral procession was the largest ever seen there. The business houses and factories closed at noon. The burial was at Mountain Home cemetery.

### For the Forestry Exhibit.

Gov. Rich has received from John Boyd Thacher, chairman of the executive committee on awards of the Columbian exposition, an official copy of Michigan's award. It is for the following things:

Comprehensive display of rich forest resources of the state, accompanied by well compiled statistics showing in a graphic manner the wide adaptability of the woods of the state or utilization in the industrial and decorative arts; instructive display of insects injurious to commercial woods; artistic and attractive arrangement of the display in the form of panels, wainscoting, etc.

### Health in Michigan.

From various portions of the state the reports of sixty-three observers for the week ended April 28 show that erysipelas and diarrhea increased and pleuritis decreased in area of prevalence. Scarlet fever was reported at forty-five places, measles at forty-eight, diphtheria at thirty, typhoid fever at fifteen places and smallpox at Kalamazoo, Menominee Marquette and Jackson.

### An Old Resident.

Without doubt the oldest continuous resident of Macomb county is William Moe, who lives a half mile north of Disco. Mr. Moe was born on the Weltz farm, near Mount Clemens, December 30, 1818, and has lived in the county ever since. He was in Romeo when the first cellar was dug there. Mr. Moe claims to be the first white boy born in the county.

An observant drummer says he can readily tell who is the boss on the farms he passes, the farmer or his wife. If a farm has a barn and a small house, the man is boss; but when there is a fine house and a dilapidated barn, you may know that the woman has her own way. Where there is a new house and a good barn, it may be taken for granted the man and woman are about equal in authority.

The Mayor of Ann Arbor recommends ringing a curfew bell at 8 p. m., after which time the police shall catch all youngsters under 14 found in the street, and carry them home. When that ordinance comes up, we shall move as an amendment that the police catch the parents of the aforesaid children, whether found at church, prayer meeting, a W. C. T. U. lodge, or a pedro party, and carry them home to take care of the captured children. It will be unsafe to leave them in their homes alone.—Sentinel.

Richard Bell, deputy sheriff, of Dexter, has commenced suit in the circuit court against the Dexter Savings Bank to recover the \$750 reward offered at the time of the robbery. If hosiers know what they are about the feet of American women are larger than they once were. Three dozen pairs of women's hose used to be assorted as to size in this fashion: Six pairs No 8; six No. 8½; twelve No. 9; six No. 9½; six No. 10; The No. 8s have now disappeared from among women's sizes, and the number of larger sizes in three dozen pairs of hose has increased.

We notice in the Indiana Farmer, a recommendation of alsike clover as being harder than red clover, and producing crops four or five years in succession, while common clover runs out after the second year. The truth is, alsike is more truly biennial than is the common clover. Its seed is ripened in the first crop, which is cut in June, and after it has seeded the plant dies. If there are patches of alsike the third year must be some that escapes producing seed in the previous season. Do not sow alsike if you wish permanent meadow or pasture, unless timothy or grass seed is sown with it.

In reply to numerous inquiries from assessing officers, Atty-Gen. Ellis has filed an opinion to the effect that, under the new law, real estate mortgages are treated as personal property and as such are assessable in the township in which the mortgagor resides. Mortgages owned by non-residents are non-assessable, unless the mortgagor resides within the State. Mortgages owned by banks are not to be deducted from the capital stock of said banks, the only deductions to be made being the value of the real estate which the banks own. Real estate must be assessed at its true cash value, without regard to the mortgages thereon.

## W. C. T. U. Convention.

The twentieth annual convention of the Woman's Christian Temperance Union of Michigan will be held in Ann Arbor May 22-25, in the First Presbyterian church. Celebrated lecturers have been secured. Free discussions of the labor question and other topics of local and national interest will be led by representative women of the W. C. T. U. Drills in parliamentary usage and exercises in physical culture, as related to temperance work, are assured, under the direction of two of the national superintendents. Excellent music will be furnished each day, some of the finest musical talent of Ann Arbor having consented to render assistance in this direction. A number of women expect to attend from this city.

## Spraying Fruit Trees.

Under present conditions spraying is essential in fruit growing, says the Jackson Patriot. Kerosene emulsion for destroying lice, aphides and larger insects is made by dissolving one pound of hard soap in a gallon of boiling water, and adding two gallons of kerosene. The mixture is churned briskly until thoroughly mixed. When cold it is of the consistency of cream. Twenty gallons of water may then be added, when it is ready for use, being applied with a fine sprayer.

Bordeaux mixture is used for destroying fungi and a protection against insects. It is cheap and easily prepared. Dissolve six pounds of sulphate of copper in ten gallons of boiling water, or as much water as may be needed to dissolve it. Slake four pounds of lime in another vessel, and add enough water to make a whitewash. Pour this slowly into the sulphate solution, through a piece of cheese cloth or other suitable strainer, and add thirty gallons of cold water. Two ounces of Paris green added to the mixture makes it an excellent insecticide as well as fungicide. For grape rot, potato rot, and other diseases due to fungi, it is invaluable, and may be applied with advantage after a heavy rain. It is also, when the Paris green is added, an excellent protection against the potato bug if sprayed as a fine vapor so as to reach every leaf.

The kerosene emulsion is ten times cheaper than kerosene. In using Paris green or London purple the addition of lime lessens the liability of damage to the leaves. The kerosene emulsion will destroy the tent caterpillar if sprayed into their webs, and for ridding poultry houses and other buildings of lice it is the best remedy known. These are the cheapest solutions and have been used in every portion of the country with success.

Raising fruit without spraying is very uncertain.

## Prof. W. A. Brush, Horse Educator.

Will give an exhibition with four trained horses under canvas near Geo. Foster's ten cent feed barn, in the rear of McKone House, Chelsea, on Monday evening, May 14th at 7:30 o'clock. Immediately after the exhibition, H. D. Brush, V. D. will deliver a lecture on "Horse Dentistry," which will be interesting and profitable to those interested in horses. On Tuesday and Wednesday May 15 and 16, they will teach their theory for educating colts and horses, which is different in nearly every respect to any that has ever been taught and is very simple and easy and therefore useful.

## TESTIMONIAL.

PROF. W. A. BRUSH.

DEAR SIR—Having used your method for showing vicious horses, I am compelled to say it is the best and only absolutely safe method I ever saw or heard of. I can frankly recommend it to my brother horse-shoers. I would not be without it now for at least \$25 for one year alone. Your book too is worth twenty times the selling price to any man owning horses.

For members of a church not to attend religious services of the church is in a measure discourteous to the pastor. If you were to prepare a feast and invite your friends, you would feel rather embarrassed if at the appointed time only half of the guests were present. And so when a minister prepares a sermon and only a certain part of the members are present when the sermon is preached, he naturally feels a certain amount of discourtesy on the part of the absent ones. It is to be hoped that there will be no discourteous member on our charge. The pastor always means to be courteous to the people, and it is to be hoped that they in turn will be courteous to him. Don't let your pew then get dusty because of your long absence.

## THE CHELSEA HERALD.

A. ALLISON, Editor and Proprietor.

CHELSEA, MICHIGAN.

A ST. PETERSBURG editor has hit upon the notion of printing his journal on paper suitable for making cigarettes. It is said that its circulation has been largely increased by this means, as the Russians are largely given to smoking cigarettes, which they make themselves.

CAPT. SAMUEL C. REID, who commanded the American brig Gen. Armstrong in the war of 1812, and now rests in an unmarked grave in Greenwood cemetery, New York, is likely to have a monument. To Capt. Reid has been ascribed the honor of designing the present American flag.

FRIED ice cream has become very popular in Philadelphia. A small, solid cake of ice cream is enveloped in a thin sheet of pie crust and then dipped in boiling lard or butter long enough to cook the outside covering to a crisp. If served immediately the ice cream is found to be as solidly frozen as when it was first prepared.

THE English war department has ordered sent from Chicago to the victualling yard at Portsmouth a consignment of 500 tons of compressed fodder for horses, a combination of crushed oats, corn and chaffed hay. This is the first indication that the English government has been compelled to resort to this country for fodder as a result of the famine in the British hay market.

A CONVICT in the penitentiary at Raleigh appealed to the superintendent to let him go and look for the last time in the face of Senator Vance, whose dead body was then lying in the state house. He urged as a reason for his request that the senator once saved his life. The convict betrayed so much emotion and earnestness that the superintendent granted the request.

THE spelling-bee mania which devastated the country a few years ago has broken out again at Atlanta, Ga., in a virulent form. One was given there a few nights ago for the benefit of a local library, at which the governor of the state gave out the words, three justices of the supreme court acted as judges, and all the prominent citizens of the town were contestants.

BISHOP BLYTH, the Anglican bishop of Jerusalem, asserts in his annual report that "about one hundred thousand Jews have entered Palestine during the last few years, of whom 65,000 have come within the last seven years; and the arrival of a vaster host is imminent." No one can, he says, forecast the extent of Jewish immigration to Palestine within the next seven years.

THERE are few members of the senate who do not wear eye-glasses or spectacles, either all the time or for reading. Peffer, singularly enough, is the greatest luxury in his glasses. He wears habitually a pair of gold-rimmed spectacles, and keeps besides on the lapel of his coat a pair of gold eyeglasses fastened to a gold clasp and attached to a gold chain that is heavy enough to attract attention.

ANOTHER important use has been discovered for a preparation of coal-tar called tulnol, that of displacing quicksilver in the thermometer. It is said that tulnol expands with regularity when exposed to heat and does not congeal at a low temperature so quickly as does quicksilver. A larger tube can be used with this new substance than is used with quicksilver, which is another thing in its favor.

BALTIMORE is still agitating the question of a ship canal across the Maryland and Delaware peninsula to shorten her route to the sea 200 miles. It is urged that the canal should be 100 feet wide and carry 27 feet of water throughout. The existing Chesapeake and Delaware canal, connecting the heads of the bays, is one of the deepest canals in the country, and it shortens the water route from Philadelphia to Baltimore by at least 250 miles.

THE newest of western mining camps, the Cochiti camp, in New Mexico, lies near the ancient Indian village of that name on the west bank of the Rio Grande, southwest from Santa Fe. The mines lie in ledges which cross at right angles the walls of three canyons, the Cochiti, the Pino and the Peralto. Some of the ores already taken out here are very rich, and, if the claims as to their abundance are verified in the continued working, Cochiti will prove one of the gold-bearing districts of the United States.

THE fire department at Berlin has a fire engine, the carriage of which is constructed entirely out of papier-mâche. All the different parts, the body, wheels, poles, etc., are finished in the best possible manner. While the durability and powers of resistance possessed by the material are fully as great as those of wood, the weight is, of course, much less. The lightness of a fire engine is, of course, a great advantage, and it seems not unlikely that wooden carriages will in a short time pass out of use altogether.

## COMMONWEAL EVENTS.

Coxey Is Brought Up for Trial in Washington.

The General and His Two Lieutenants Appear Before the Bar of Justice—Frye's Men Sell Books—Progress of Randall's Army.

ARRAIGNED IN COURT.

WASHINGTON, May 6.—Jacob S. Coxey and his lieutenants, Carl Browne and Christopher Columbus Jones, were arraigned for violation of the capitol grounds act on May 2. Coxey and Browne had both attempted to speak from the capitol steps. Browne had been arrested for disorderly conduct. Coxey had been led away and then released. Coxey, later appearing as a witness in court for Browne, was arrested on the charge for which he was tried. Attorneys Heymann and Lipscomb appeared for the defendants in the preliminary proceedings and raised the issue of constitutionality of the law under which their clients were arrested. The point was argued at considerable length by Senator Allen, of Nebraska.

Judge Miller, after the arguments closed, overruled the objections of counsel for the defense to the information, the judge holding that the capitol grounds act was constitutional. He denied Coxey a special trial.

The court reassembled at 1:30 o'clock, and after some delay a jury was selected and sworn. Assistant District Attorney Mullowney then addressed the

Galvin's Army Pays Fare.

WHEELING, W. Va., May 5.—Col. Galvin's army has evacuated this town, taking a Baltimore & Ohio train for Pittsburgh at 1:30 p. m. The local trades assembly paid their passage, \$150, \$62 of which was raised among the merchants, and the rest being supplied out of the assembly's funds. The city furnished the army with food while here.

Another Train Stolen.

TACOMA, Wash., May 5.—Three hundred of the 1,000 industrials encamped at Puyallup, congregated near Orling and in the early evening seized a fast east-bound Northern Pacific freight train. The balance of the army was ordered to march on double quick time under Gen. Cantwell up the track.

THE YAQUI INDIANS.

They Wreck Their Dire Vengeance Upon Mexican Troops.

SAN DIEGO, Cal., May 8.—News is received here that the Yaquis have once more ambushed the Mexican soldiers sent against them. Ex-Gov. Luis E. Torres, general of the northern and western departments of Mexico, had an army of over 500 men, and the plan was to dispose of the Yaquis question at once and forever.

On the afternoon of the fifth day of the march the trail led the pursuers into a long, deep, narrow defile in the Sierra de Bacaté. The walls of the canyon were almost precipitous, rising to a height in some places over 2,000 feet and covered with brush. Half the dangerous locality had been traversed with no sign of

jury, explaining the charges against Coxey, Browne and Jones, and the law applicable to the charges.

Maj. Moore, the chief of police, in his testimony repeated the conversation with Coxey on April 30, when the general asserted his intention of carrying out the programme of speaking from the capitol steps.

KELLY AT DES MOINES.

Haggard and Footsore Men March Into the City Under Heavy Escort.

DES MOINES, Ia., May 1.—This city was greatly excited by the arrival of Kelly's industrial army and there were fears of an outbreak of some sort. The men had marched 27 miles Saturday night without food and were held by the police 5 miles out of the city in a driving rainstorm all day with no provisions or shelter. The action of the authorities aroused much indignation among the laboring people, and when at 5 o'clock the army finally marched up Grand avenue to the camp on the east side of the town, wet, haggard and weary, their pitiable condition aroused sympathy almost as great as that which was theirs in Council Bluffs.

As rapidly as possible the remnant of the column fought its way back to open ground, where its foe did not dare to follow, and, after a brief rest, dragged themselves back along the route over which they had marched so cheerfully the day before.

The number of killed cannot be accurately stated, but out of the column of 500 men it is said that at least 200 are either killed or wounded. An additional force of 200 militia has been organized in Hermosillo, and the campaign against this party of reds will be pushed vigorously. Torres himself and a small party of soldiers retreated to Guaymas.

THEY FAVOR SILVER.

United States Senators Send a Cablegram to the London Bimetallic Conference.

WASHINGTON, May 5.—Following is a copy of a cablegram sent to the lord mayor of London, apropos of the bimetallic conference held in that city, by several United States senators:

"We desire to express our cordial sympathy with the movement to promote the restoration of silver by international agreement, in aid of which we understand a meeting is held under your lordship's presidency. We believe the free coinage of both gold and silver by international agreement at a fixed ratio would secure to mankind the blessing of a sufficient volume of metallic money, and, which is hardly less important, secure to the world of trade immunity from violent exchange fluctuations."

The document was signed by Senators John Sherman, W. B. Allison, D. W. Voorhees, George F. Hoar, Nelson W. Aldrich, David B. Hill, Edward Murphy, A. P. Gorman, O. H. Platt, Calvin Brice, Joseph M. Carey, William Frye, C. K. Davis, S. M. Cullom, Henry Cabot Lodge.

TO PUNISH LYNCHERS.

A Bill on the Subject Introduced in the Ohio Legislature.

COLUMBUS, O., May 2.—In the legislature Mr. Smith, of Cleveland, has introduced a bill providing that the legal heirs of any person killed by a lynching party in Ohio, shall recover the sum of \$15,000; in case only personal injury is inflicted the person so injured shall recover the sum of \$10,000 and the persons found guilty of participation in the lynching shall be sent to the Ohio penitentiary for a term of not less than three years.

The sum awarded the victim of a lynching shall be made a lien on the tax levy of the county where the trouble occurs, to be collected as taxes from the citizens of such county. The attorney general is authorized to assist in all prosecutions under the act.

The subject of the above portrait is the Rev. Chas. Prosser, a much beloved and most devout minister of the gospel at Mount Carmel, Northumberland Co., Pa. Mr. Prosser's usefulness was, for a long time, greatly impaired by a distressing, obstinate disease.

How his malady was finally conquered we

will let him tell in his own language. He

says: "I was a great sufferer from dyspepsia, and I had suffered so long that I was

a wreck; life was rendered undesirable and it seemed death was near; but I came in contact with Dr. Pierce's Golden Medical Discovery and his 'Pleasant Pellets.'

I took twelve bottles of 'Discovery' and several

bottles of the 'Pellets,' and followed the

hygienic advice of Dr. Pierce, and I am

happy to say it was indeed a cure, for life is

worth living now."

For dyspepsia, indigestion, "liver complaint," or torpid liver, biliousness, constipation, chronic diarrhea and all derangements of the liver, stomach and bowels, Doctor Pierce's Golden Medical Discovery effects perfect cures when all other medicines fail. As an invigorating, restorative tonic it gives strength to the whole system and builds up solid flesh to the healthy standard, when reduced by "wasting diseases."

Mr. J. F. Hudson, a prominent lawyer of Whitechapel, Sebastian Co., Ark., writes: "Having suffered severely, for a long time, from a torpid liver, indigestion, constipation, nervousness and general debility, and finding no relief in my efforts to regain my health, I was induced to try Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' Under this treatment, I improved very much and in a few months was able to attend to my professional duties."

Yours truly,

*J. F. Hudson*

To purify, enrich and vitalize the blood, and thereby invigorate the liver and digestive organs, brace up the nerves, and put the system in order generally; also to build

up both solid flesh and strength after grip, pneumonia, fevers and other prostrating diseases, "Golden Medical Discovery" has no equal. It does not make fat people more corpulent, but builds up solid, wholesome flesh.

Do you feel dull, languid, low-spirited, have fullness or bloating after eating, tongue coated, bitter or bad taste in mouth, irregular appetite, frequent headaches, "floating specks" before eyes, nervous prostration and drowsiness after meals?

If you have any considerable number of these symptoms, you are suffering from torpid liver, associated with dyspepsia, or indigestion. The more complicated your disease the greater the number of symptoms. No matter what stage it has reached, Dr. Pierce's Golden Medical Discovery will subdue it.

Nervousness, sleeplessness, nervous prostration, nervous debility, and kindred disturbances are generally due to impoverished blood. The nervous system suffers for want of pure, rich blood to nourish and sustain it. Purify, enrich and vitalize the blood by taking "Golden Medical Discovery" and all these nervous troubles vanish.

The "Golden Medical Discovery" is far better for this purpose than the much advertised nervines and other compounds, so loudly recommended for nervous prostration, as they "put the nerves to sleep," but do not invigorate, brace up and so strengthen the nervous system as does the "Discovery," thus giving permanent benefit and a radical cure.

something else that pays them better will

## BLOOD IS SHED.

Duke Strikers Led by Their Wives Charge Upon the Deputies.  
UNIONSTOWN, Pa., May 7.—Friday was a day of bullets and axes and the wildest lawlessness reigned. In a daylight battle at the Painter plant fifteen Hungarians were shot, several fatally, and at least three dead comrades are thought to have been carried off the battlefield and buried secretly. Superintendent Sanford White, of the Painter plant, and E. B. Roddy, bookkeeper at the same works, were horribly beaten and both are lying at the point of death. Sixty-three Slavs are now in jail charged with rioting.

By contract with the McClure company thirty workmen reported for duty at the Painter mines. The report spread among the strikers and about daybreak they began gathering on the common. There were many women in the crowd. A charge was made with the women in front, the men daring the deputies to open fire on them. They were soon in the yards, regardless of the presence of the deputies, and sweeping everything before them.

In the first conflict fully ten Hungarians fell to the ground and were carried away to their settlement, while a great many were injured by flying missiles. The sight of the wounded and dying falling at their sides only infuriated the mob, which rushed on the deputies like wild men and women.

Deputy Sheriffs Mat Allen and John Richards took a posse of deputies and started on for the scene of the riots. They found the men and women all in the houses, and without meeting the least opposition arrested sixty-three of those who composed the mob. They were brought to jail here under the protection of twenty-five Winchesters. In the gang of prisoners were twelve women and ten children. At the time of the trouble thirty men were at work, all of whom have since quit. The works are idle.

## THE MINERS.

One Hundred and Sixty-Five Thousand of Them Strike for Living Wages.

COLUMBUS, O., May 4.—The great miners' strike is spreading, and reliable information received by President McBride is to the effect that 5,000 more miners are out now than ever before since the strike was inaugurated. There are now 165,000 men in voluntary idleness as a result of the strike for living wages.

PANA, Ill., May 3.—As a result of the arrival here of the body of union miners from Taylorville and Edinburg Tuesday night the miners held a mass meeting Wednesday morning, which was largely attended, and a strike was declared at the four mines of Pana by a two-thirds majority. Mayor Hayward has issued a proclamation warning the strikers not to interfere with any one desiring to work and that he would use all of his official power to give such men protection.

An Interstate Conference.  
PITTSBURGH, Pa., May 5.—Coal mine operators from Illinois, Indiana, Ohio and Pennsylvania met in this city Thursday and decided to take steps to settle the strike. After a conference among themselves they sent for the miners' officials. With the latter they talked the situation over and agreed upon a joint call for an interstate conference to be held in Cleveland May 15. The call is as follows:

To the Operators and Miners of the Bituminous Mines of the United States: A meeting will be held in Cleveland, O., Tuesday, May 14, at 12 o'clock p.m., to take such action as may be deemed wise to bring about an adjustment of the differences that exist between the operators and miners in the various states. All operators and miners are invited to attend the meeting.

The call is no half-way measure. It was drawn up by President McBride, in accordance with the wishes of the operators, and signed by all present.

Trouble in the Mesaba Range.  
DULUTH, Minn., May 5.—Fifteen hundred miners, mostly Finns, are out striking for \$1.50 a day. They are now receiving \$1 and \$1.25. The strike began at the Franklin mine, 300 men going out. They drove the men out at the Oliver, Norman, Iron King and Mountain Iron mines. At one of the mines the magazine was broken open and forty kegs of powder and some dynamite stolen.

Shot a Mesaba Striker.  
DULUTH, Minn., May 6.—Marshal Free tried to suppress a slight disturbance among the striking miners at Mountain Iron Friday evening when Mat Matson threatened him with a revolver. Free promptly shot him twice in the abdomen and he will probably die. Notice of the affair was sent to the strikers at Virginia and a mob of 1,200 started for Mountain Iron with the avowed intention of lynching Free. Ten minutes after the mob left for Mountain Iron a train left with the sheriff and militia. The train beat the mob by ten minutes and arrived here at midnight with Free aboard. Adjt. Muehlberg called out company H to go to Mountain Iron and it left at midnight. The strikers cut the telegraph wire at midnight and there is no other communication.

Only Six Mines at Work.  
ST. LOUIS, May 6.—The reports received from the mining districts of Illinois in the vicinity of this city show that but six mines are now being operated—Staunton No. 6, Clyde, Gilkeson, Sandoval, Odin and Bunker Hill. The net result of the crusade of strikers Thursday was the stopping of work in No. 7, Breece, Trenton, Troy, Brookside, Hillsboro, Coffee and Carlinville mines.

Antwerp Fair Opens.

ANTWERP, May 7.—King Leopold, accompanied by the queen of Belgium, the princess of the royal family, the countess of Flanders, Prince von Hohenlohe, the cabinet ministers and a host of prominent persons, opened the world's exhibition here Saturday with appropriate ceremonies. There were over 35,000 people present.

## PATTON IS PICKED.

Gov. Rich Selects a Grand Rapids Man to Succeed the Late Senator Stockbridge.  
LANSING, Mich., May 7.—Gov. Rich on Saturday afternoon appointed John Patton, Jr., of Grand Rapids, United States senator to succeed the late Senator Stockbridge. He was notified of his good fortune but a few minutes before the matter was made public. Mr. Patton is an able and successful lawyer, an orator, and a genial and approachable gentleman who is very popular. He comes from a family of marked ability, his father having represented his district in congress two terms, one in the Thirty-seventh congress and again in the Fifteenth.

Gov. Rich says that aside from Patton's great personal worth he was led to make the appointment because Patton was more generally indorsed than any other candidate and because he came from practically the same section of the state as did Stockbridge. The nomination is generally satisfactory to the party.

(John Patton was born at Curwensville, Pa., October 30, 1863, and consequently is a trifle under 41 years of age. He prepared for college at Andover, Mass., and graduated at Yale College with the class of '78, afterwards taking a course at Columbia law school, New York, from which he graduated in 1877. The following year he went to Grand Rapids, where he has since resided as a practicing lawyer. Some years ago he married a daughter of the late Wilder D. Foster, representative in congress for this district in 1873, and two children have blessed the union. Mr. Patton has always taken a deep interest in political affairs and has always been regarded as an able and safe party counselor. In 1884 he was a member of the state central committee. He is an eloquent and forceful speaker and in all state and national campaigns is in much demand as a campaign orator. For two years he was president of the Michigan State Republican league and in that position displayed an executive ability and power of organization which won the highest esteem of the party managers.)

## BUILDING BOATS.

Kelly's Army Preparing to Be Transformed into a Naval Force.

DES MOINES, Ia., May 7.—A veritable shipyard, barring the tall masts, was established yesterday on the Des Moines river below the city and nearly 500 men, mostly from Kelly's army, were put to work building boats in which the industrials expect to float down the river. About fifty boats, 6x14 feet, were completed Sunday. The start down the river will probably be made some time Tuesday.

A committee will go ahead of the army, calling on the farmers and the people of towns near the river to meet the men as they float down and supply them with food. The prospects are that the river will be lined with farmers and townpeople all the way down, as the country is thickly settled and by prosperous citizens. Gen. Kelly expects to reach Ottumwa, about 90 miles down, on the evening of the second day, but he will hardly do so by the end of the fourth day, according to good judges. There are three railroads close to the river—a branch of the Chicago, Burlington & Quincy to Albia, via Knoxville; the Wabash, which runs down the bottom, and the Keokuk & Des Moines, branch of the Rock Island, which traverses the bluffs down to Keokuk.

INDIANAPOLIS, Ind., May 7.—Seventy-five of Gen. Frye's army of the commonwealth started to tramp to Washington Sunday. They are under the command of Allan Jennings, a labor leader of this city. They started in the direction of Cincinnati, and made about 8 miles during the day. Gen. Frye announced that the other 275 members of the army under his command start on their march this morning at 7 o'clock, unless it should rain. Frye has obtained teams with which to haul the army's cooking utensils, bedding, etc. He says that he still believes that he will obtain transportation for the army most of the way to Washington.

Antwerp Fair Opens.

ANTWERP, May 7.—King Leopold, accompanied by the queen of Belgium, the princess of the royal family, the countess of Flanders, Prince von Hohenlohe, the cabinet ministers and a host of prominent persons, opened the world's exhibition here Saturday with appropriate ceremonies. There were over 35,000 people present.

**Love Fired Him.**  
"Love hath made me rich," he said:  
"I was poor and lone;  
Life, to me, seemed hopeless—dead!  
Bitter was my moan."

"Like a beggar at love's gate,  
There a crust to win;  
Love came in the twilight late,  
Kissed and led me in."

"Now my servants come and go,  
All the neighbors stare.  
(This love's father-in-law, you know,  
Is a millionaire!)"

—Atlanta Constitution.

## In the Heart.

If no kindly thought or word  
We can give, some soul to bless;  
If our hands, from hour to hour,  
Do no deeds of gentleness;

If to lone and weary ones  
We no comfort will impart—

Tho' 'tis summer in the sky,  
Yet 'tis winter in the heart!

If we strive to lift the gloom  
From a dark and burdened life;  
If we seek to lull the storm  
Of our fallen brother's strife;

If we bid all hate and scorn  
From the spirit to depart—

Tho' 'tis winter in the sky,  
Yet 'tis summer in the heart!

—George Cooper, in S. S. Times.

## Spin Cheerfully.

Spin cheerfully,  
Not tearfully,  
Though weary you plod;

Spin cheerfully,  
Spin prayerfully,

But leave the thread with Cod.

The shuttles of His purpose move  
To carry out His own design.  
Seek not too soon to disapprove  
His work, nor yet assign  
Dark motives, when with silent dread  
Your view each somber fold;

For lo, within each darker thread  
There twines a thread of gold.

Spin cheerfully,  
Not tearfully,  
He knows the way you plod;

Spin carefully,  
Spin prayerfully,

But leave the thread with God.

#### A Queer Amendment.

Under the constitution of the state, as it now stands, any person who has lived in this country two and one-half years and has declared his intention to become a citizen six months prior to any election, is entitled to vote. The last legislature passed a joint resolution to amend this section, and the proposed amendment will be voted on next November. It was proposed to amend by making it necessary for foreigners to have declared their intention two years and six months instead of but six months, prior to election. But the language used is two years and six months prior "to the date last named." This date is Nov. 8, 1894. It will thus be seen that, should the amendment be ratified, no one who has not declared his intentions two years and six months prior to Nov. 8, 1894, could ever become a voter in Michigan. This would bar all foreigners who have come into the state during the past two years unless they have declared their intentions in some other state, and all who ever hereafter come. Further than this, persons who are under the present constitution entitled to vote at next fall's election would not, if the amendment is adopted, be entitled to vote hereafter. It is not probable the amendment will carry, but for fear it might, we better vote "agin" it. —Ypsilanti Sentinel.

#### Excursion.

Excursion fares have been granted, on the certificate plan, to the following points for occasions mentioned:

#### Spend Your Outing On The Great Lakes.

Visit picturesque Mackinac Island. It will only cost you about \$12.50 from Detroit; \$15 from Toledo; \$18 from Cleveland, for the round trip, including meals and berths. Avoid the heat and dust by traveling on the D. & C. floating palaces. The attractions of a trip to the Mackinac region are unsurpassed. The island itself is a grand romantic spot, its climate most invigorating. Two new steel passenger steamers have just been built for the upper lake route, costing \$300,000 each. They are equipped with every modern convenience, annunciators, bath-rooms, etc., illuminated throughout by electricity, and are guaranteed to be the grandest, largest and safest steamers on fresh water. These steamers favorably compare with the great ocean liners in construction and speed. Four trips per week between Toledo, Detroit, Alpena, Mackinac, St. Ignace, Petoskey, Chicago, "Soo," Marquette and Duluth. Daily between Cleveland and Detroit. Daily between Cleveland and Put-in-Bay. The cabins, parlors and state-rooms of these steamers are designed for the complete entertainment of humanity under home conditions; the plated equipment, the luxury of the appointments makes traveling on these steamers thoroughly enjoyable. Send for illustrated descriptive pamphlet. Address A. A. SCHANTZ, G. P. & T. A. D. & C. Detroit, Mich.

#### Four Big Successes.

Having the needed merit to more than make good all the advertising claimed for them, the following four remedies have reached a phenomenal sale. Dr. King's New Discovery, for consumption, Coughs and Colds, each bottle guaranteed—Electric Bitters, the great remedy for Liver, Stomach and Kidneys, Buckler's Arnica Salve, the best in the world, and Dr. King's New Life Pills, which are a perfect pill. All these remedies are guaranteed to do just what is claimed for them and the dealer whose name is attached therewith will be glad to tell you more of them. Sold at F. P. Glazier & Co.'s, Drug store.

Printer's ink compares an advertisement to an electric current. The newspaper is the switchboard. The advertiser would electrify the public by manipulating the switchboard, and the powerful current which he so thoroughly controls enlivens the community and often shocks or even kills a competitor.

#### Ordinance No. 32.

An ordinance to require the owners and occupants of lots and premises to construct and maintain sidewalks in the public streets adjacent to and abutting upon such lots and premises, and to keep them in repair at all times, and to construct and lay the same upon such lines and grades, and of such width, materials, and manner of construction, and within such time, as the council shall by ordinance or resolution prescribe.

The Village of Chelsea ordains:

SEC. 1. All sidewalks constructed and laid in the said Village shall be at the expense of the owners of the lots and parcels of land in front of which such sidewalks may be laid, according to their respective fronts owned by them, and such sidewalks shall be constructed in the manner hereinafter provided.

SEC. 2. Whenever the Council shall determine that new sidewalks shall be constructed and laid or that old walks shall be relaid in front of any of the premises of any person abutting any of the streets within said village, said Council shall by Special Ordinance provide for such construction of new or of laying of old sidewalks.

SEC. 3. The Council shall in the Special Ordinance, providing for the construction of or laying any such sidewalks, specify the streets or portions thereof on which the same is to be laid and shall further specify the material to be used therein, the manner in which such sidewalk is to be constructed or relaid together with the time which will be given such owners as may prefer so to do, to grade and construct such sidewalk in front of the lot or parcel of land respectively owned by them or to relay said sidewalk as the case may be. Provided, however, that the time allowed by said Special Ordinance to such owners as may prefer to grade, construct or relay such sidewalks in front of their respective lots or parcels of land, shall not be less than thirty days nor more than forty days after the publication of the Special Ordinance directing the same.

SEC. 4. As soon as such Special Ordinance shall have been duly published, the Village Clerk shall cause the owners of property mentioned in said Special Ordinance to be notified that the same has been passed and duly published, and it shall be sufficient for the Clerk in such notice to refer to said Ordinance by its number, title and date of approval, to notify said owners that by the terms of said Special Ordinance they are required to make the improvements therein mentioned in front of their property (describing the same) within the time provided, failing in which such improvement will be made by and under the direction of the Council, and the cost thereof levied as a special tax on the owner or holder of such property, and collected in the manner provided by the Charter.

SEC. 5. The Marshal or any Constable of said county may serve all notices required by the Special Ordinance, and shall make return thereof as in other cases.

SEC. 6. For cases where any owner of property included in such Special Ordinance is unknown, or if known, is a non-resident of Washtenaw County, and cannot be found within the village limits, such notice may be published in any newspaper printed and published in said village for two successive weeks which said publication shall be equivalent to a personal service on such unknown or non-resident owner.

SEC. 7. The Clerk shall cause all such notices to be either served or published as hereinbefore required within ten days after the publication of said Special Ordinance.

SEC. 8. All persons who shall elect to grade and construct such sidewalks shall notify the Marshal or other persons having charge of said work, of their intention so to do, and all such work done by the owners of the property, shall be done under the supervision and control of the Marshal or other persons having charge of said work, and it shall in all such cases be his duty to see that such sidewalks are graded, constructed and laid or relayed, as the case may be, in the manner required by said Special Ordinance.

SEC. 9. At the expiration of the time fixed by said Special Ordinance for the completion of said improvements by the owners, the clerk shall certify to the Council the names of each party who have not complied therewith. The Council shall thereupon by resolution direct the Marshal or some other competent person to purchase material, hire help and forthwith construct lay or relay, as the case may be, the said uncompleted sidewalks proposed for in said Special Ordinance, and when completed the Marshal or person performing the labor or services shall report under oath to the Council the actual cost of the several improvements, with a description of the lots or premises upon or in respect to which the expense was incurred, and the names of the owners or persons chargeable therewith, whereupon the Council shall determine what amount or part of any such expense shall be charged and the person, if known against whom and the premises upon which the same shall be levied as a special assessment, and as often as the Council shall deem it expedient they shall require all of the several amounts so reported and determined and the several lots or premises and the persons chargeable therewith, respectively to be reported by the Clerk to the board of assessors for assessment and collection as provided in the Charter of said Village.

SEC. 10. It shall be the duty of every person or persons to keep the sidewalks in front of their premises in good repair, and in case of neglect to do so the Marshal or other persons having charge of the sidewalks shall make such repairs, the cost and expense of the same to be chargeable to the said owners in like manner as is provided in case of new walks by this Ordinance and Village Charter.

SEC. 11. In case the Marshal or any member of Council shall discover that any person's sidewalks are out of repair and that the same is likely, unless promptly repaired, to cause injury to persons traveling over the same, it shall be the duty of said officer to immediately inform the owner if he or she shall reside upon the premises and be at home and verbally require said owner forthwith to repair such dangerous place, and in case the owner shall neglect for two hours to proceed to make such repairs, said Village officer shall cause the same to be repaired and report his action to the Council with a verified statement of

the cost in the same manner hereinbefore provided in other cases. In all other cases the Village Marshal shall notify said owners in writing, if found within said Village, of the needed repairs and in said notice require said owner or owners to make such repairs within forty-eight hours after service of said notice, and in case said owner or owners shall neglect to make such repairs within the time required in said notice then said Marshal shall purchase material, employ necessary help and make such repairs immediately after the expiration of the time named in said notice, and make report under oath to said Council of the cost and expense of the same to be assessed and collected from said respective owners as in other cases herein provided for.

SEC. 12. All Ordinances or parts of Ordinances inconsistent with this Ordinance are hereby repealed.

SEC. 13. This Ordinance shall take effect and be in full force from and after its publication.

Approved April 28, 1894, by order of the Village Council.

WILLIAM BACON, President.

J. B. COLE, Clerk.

Nervous Debility and Catarrh Cured.

Thomas Minchin says: "I was reduced to a nervous wreck—only weighed 118 pounds. The result of early abuse was the cause. I had the following symptoms: Miserable mentally and physically, melancholy, nervousness, weakness, specks before the eyes, dizzy, poor memory, palpitation of the heart, flushing, cold hands and feet, weak back, dreams and doses at night, fainted in the morning, plump in the day, loss of appetite, bad memory, kidney trouble, etc. Doctors could not cure me, but Drs. Kennedy & Kergan by their New Method Treatment, cured me in a few weeks. I weigh now 170 pounds. It is three years since I have taken their treatment."

Blood Disease and Dyspepsia Cured.

Major Simfield says: "I had Dyspepsia and Catarrh of the Stomach for many years. To make matters worse I contracted a Constitutional Blood Disease. My bones ached. Blotches on the skin, loss of appetite, bad memory, kidney trouble, etc. Doctors could not cure me, but Drs. Kennedy & Kergan by their New Method Treatment, cured me in a few weeks. I weigh now 170 pounds. It is three years since I have taken their treatment."
