Y. P. S. C. E. CONVENTION

A SUCCESSFUL AND INTERESTING MEETING.

The Jurors for the May Term of Court—
Spray Your Orchards—Surprised Maccabees—Other Items.

The Y. P. S. C. E. Convention.
The convention of the Washtenaw Union Christian Endeavor held in the Congregational church at this place last Friday was the banner convention of the county, there being 188 delegates in attendance. The weather was all that could be desired thus adding to the enjoyment of the day.

The convention opened on time and the program as announced was carried out with but few changes. The missionary reports showed a marked increase, also that the Endeavorers are not dead in the matter of missionary work. Reports from local societies showed a gain in all branches of the work.

"Who are the Workers?" by Miss Mary A. Whitney of Ann Arbor, was well rendered. One of the most interesting parts of the convention was the Junior Hour, some interesting papers being given, notable among which were those by Mrs. H. W. Schmitt and Miss Myrtle Kempf of this place.

The report of the county secretary and treasurer showed the Union to be in a most flourishing condition.

The evening session opened with the usual devotional exercises, followed by a stirring address on "Winning Men" by Rev. C. B. Newman of Detroit.

The farewell service was conducted by Miss Angell of Adrian, district secretary, in a pleasing and fitting way. Miss Angell has the faculty of presenting her arguments in a forcible way thus making the closing moments of the convention of much profit to all.

The local society furnished dinner and supper for the delegates in the dining room of the church.

The following officers were elected: president, W. C. Hull of Ann Arbor; secretary and treasurer, Miss Isabelle Turnbull of Ann Arbor.

The May Jury.

Argus: The May jury has been drawn and the jurors are named below who will dance around the May pole to be erected in the circuit court room on May 7, 1895. The jury has got socks on it. It is Weiss. It contains a Mann and an admonition to Beeman. It contains a Rider, and a Mount and a Way to ride over, as well as a Ford to make. It is Moore of a jury than some others. It is born with a Caul, and taken all in all, it is a remarkable jury.

Ann Arbor city—Eugene Mann, Geo. Vise, George Almandinger, George L. Van der Walke, Robert Winslow, Ernest Eberbach.

Ann Arbor town—John Keppler.

Surprised Maccabees.

Tuesday evening as the Lady Maccabees were in the midst of the initiation of a candidate, footsteps were heard on the stairway, making a terrible racket. The Picket ran in to give the alarm and received orders to keep the intruders in the anteroom until the chief officer was prepared to receive them. When without further warning, the ceiling opened, a ladder descended and Sir Knights scrambled down from above. Simultaneously the different doors were burst open and more Sir Knights rushed into the room.

The Lady Maccabees were so thorough-

ly frightened at the descent of the Sir Knights that they beat a hasty retreat, but were prevented from leaving the hall by the crowd approaching from the front.

Finally the assembly was called to order by Commander Sir Knight Spear, and the following program was rendered:

Music. Quartet.

Address. R. B. Parker.

Declaration. T. G. Spear.

Music. J. Hummel.

Recitation. Quartet.

Music. T. G. Spear.

After the program, ice cream, cake and fruit were served by the Orientals, and an enjoyable social time was had.

At a late hour, the Sir Knights departed leaving the Lady Maccabees to peacefully finish their initiation.

Resolutions of Respect.

Whereas: Our Heavenly Father in his wisdom and love has called unto Himself our beloved brother, Seymour Goodyear;

Resolved: That while we recall with grateful hearts the privilege of fellowship with him as teacher and helper in our Sunday school and the uniform cheerfulness with which his duties were performed, we can but feel deeply our loss, and realizing that he will meet with us no more, we sincerely sympathize with his grief stricken family in their deep bereavement.

Resolved: That believing in the supreme wisdom and goodness of Divine Providence, we can but commend the sorrowing family of our departed brother to our risen Lord for comfort, who timely heals each broken heart and consolation gives for every grief.

Resolved: That a copy of these resolutions be presented to the bereaved family and spread on the records of the Sunday School and printed in the local papers.

Canker Worm.

The time for the orchard canker worm is near. The wingless female moths are now climbing the trees from their winter quarters in the ground to deposit their eggs, and the canker worms that hatch from them will soon appear. They are not a difficult pest to control if dealt with intelligently.

Some of the moths lay their eggs in the fall on the apple tree limbs, but more deposit them in the spring. The eggs hatch at the time the buds are swelling, and the young canker worms scatter over the trees and begin feeding at once on the tender foliage. By the time the leaves are partly open the worms are large enough to be easily seen. They are nearly half an inch long, a little larger around than a common pin and vary in color from a light brown, with a darker stripe, to a chocolate brown. Annoy one of them and it will stand out like a dead twig, or start off at a looping gait. Jar or shake the limb lightly, and many of them will drop, and suspend themselves in mid-air by a web which they spin as they fall.

It is while the canker worms are in this very young stage that the trees should be given a thorough spraying with Paris green or London purple at the rate of three ounces to forty gallons of water.

A quart or two of glucose or molasses or a pound of freshly slacked lime (strained) added to each barrel of water, will help to retain the poison on the foliage. The lime will at the same time prevent injury from soluble arsenic.

Up to this time the canker worms have merely eaten a few holes in the leaves, but if they remain a week or two longer they will destroy every leaf on the trees, if as common as they were last spring.

They grow very fast and soon are from an inch and a quarter to an inch and a half long and as large around as a small twig. This is the time when people usually notice that something is eating the leaves in their orchard. Last spring letters came from all parts of the southern portions of the state, asking for help, but there was little that could be done as the calls came too late; the canker worms were mostly grown and were leaving the trees.

These facts regarding the canker worms demonstrate the importance of early spraying. Heavy rains may prevent complete success and a second spraying may occasionally be necessary.

FARM CROP REPORTS.

SECRETARY MORTON IS HAMPERED BY LACK OF FUNDS.

Recognizes that the Present System is Faulty, but Does Not See His Way Clear to Make Any Radical Changes Without Finance.

Has No Money.
Secretary Morton and Statistician Robertson have not yet had an opportunity to consider the recommendations made by the various representatives of the commercial organizations which recently presented plans looking to more accurate crop reports by the Department of Agriculture. While the suggestions of the commercial men may be taken into consideration, and some of them adopted, the department has already considered plans for improving the service and has found that the trouble lies in the fact that there is not sufficient money to carry out any method of reform that would greatly improve the service. Statistician Robertson says that it would not be best to abolish the State agents while there are still but a limited number of reporters in each county. He thinks it well to increase the number of reporters, but this is something that the department had under consideration.

Millers Forced to Assist.
The North Dakota Milling Association of Grand Forks, N. D., owning and operating twelve flouring mills in North Dakota and Northern Minnesota, made an assignment Thursday afternoon to William F. Honey, of Park River, N. D., as assignee for North Dakota, and A. D. Stephens, of Crookston, Minn., as assignee for Minnesota. The officers of the association are: President, Hugh Thompson, Crookston, Minn.; vice-president, John M. Turner, Grand Forks; secretary and treasurer, George F. Honey, Grand Forks. It is said the assignment was caused by an attachment levied upon the association for \$100,000 by the Mandan Roller Mill Company, to secure the payment of a note given for that sum by the association, through General Manager Turner. Other debts amounting to \$20,000 are pressing, of which \$20,000 is open accounts and \$5,000 due the First National Bank of Mandan. Approximately the assets are \$700,000; liabilities, \$400,000. This association is organized under the laws of New Jersey. It owns and operates mills at Mandan, Bismarck, Casselton, Mayville, Park River, Northwood, Minto, Milton and Grand Forks, N. D., and at Moorehead, Crookston and Fisher, Minn. The attachment and mismanagement are causes of the assignment. The assignee will continue the general offices in Grand Forks until the affairs of the association are closed up.

Tired of Looking Up Big Fortunes.
Upon his return home at Massillon, O., Anthony Howells, cousin to Cardinal Wales, says that some sort of epidemic has secured foothold in this country which leads countless numbers of persons to write to him about supposed fabulous estates that have no existence. It keeps him too busy to answer such letters.

BREVITIES.

Russell Sage has the grip.
Earthquake shocks were felt at Modesto, Conn.; Burlington, Vt., and Montreal.
Senator William Goebel has been acquitted of the charge of manslaughter for killing Banker John L. Sanford at Covington, Ky. Witnesses proved that he acted in self-defense.

Judge Gildersleeve at New York denied the application for alimony in the pending suit of Mrs. Cutting for separation from her husband, ex-Congressman John L. Cutting, of San Francisco.

A New York syndicate has agreed to furnish \$12,000,000 for the Minnesota Canal Company. It is proposed to open two hundred miles of canal and river front at Duluth for navigation and power purposes.

"Doc" Minchion is on trial at Rome, N. Y., charged with aiding the escape in April, 1892, of Tom O'Brien, the bank robber, now held in Paris, France, for killing Reed Waddell, the gold brick swindler.

Mrs. Katherine Jackson died at Terre Haute, Ind., a maudlin as the result of the disgrace caused by the arrest of her son on a charge of theft. The son is in a precarious condition from an attack of epilepsy.

A. Schletter, one of the wealthiest and best known business men of Ida Grove, Iowa, shot his wife and then killed himself. Mrs. Schletter cannot live. Indications show that he had been planning the tragedy for several days.

Ex-Senator Henry G. Davis, of West Virginia, father-in-law of Senator Stephen B. Hanks, while in New York, declared that his son-in-law would positively not be a candidate for the Republican nomination for the presidency.

At Cleveland, Alexander Turk, 23 years of age, called at the residence of his sweetheart, Miss Julia Fallon, and fired three shots into her body. He then turned the weapon upon himself and ended his own life. Jealousy is supposed to have caused the deed.

In conversation with a member of the Grand Army of the Republic, at the State encampment in Macon, Mo., the Hon. J. J. Ingalls declared he was not only in favor of putting a plank into the national platform favoring the free and unlimited coinage of silver, but that he was strongly in favor of nominating a candidate who was personally in favor of that principle.

EASTERN.

J. Edward Addicks has sued the Philadelphia Press for libel in publishing an article saying that he gave a worthless check to a Philadelphia hotel.

Governor Morton has submitted to the New York Legislature a message requesting the Legislature to provide a proper exhibit for the coming cotton exhibition in Georgia.

Investigation shows that in the last twenty-two years the city of New York has received \$340,000 as rent of a pier for which the lessees received \$936,000 from a sub-lessee.

Robert E. Wright, Jr., 22 years of age, was arrested at Fairhaven, N. Y., by officers from Emporium, Pa., for the murder in 1888 of Christian Drum. Robbery was the motive of the crime.

A photographic counterfeit of the \$5 issue of the American Exchange National Bank of New York city, series of 1882, check letter F, charter No. 1,394, bank No. 101,798, treasury number letter V, 1,230,081, portrait of Garfield, has made its appearance.

James W. Scott, proprietor of the Times-Herald and Chicago Evening Post, died suddenly of apoplexy Sunday afternoon in his apartments at the Holland House in New York. Mrs. Scott and her young niece, Grace Hatch, were with him when he died.

Women have entered the ranks of day laborers and are proving themselves so efficient they receive higher wages than have been paid men for the same class of work. Half a dozen Welsh women began work last week in the rolling mill of the Monongahela tin plate works at Pittsburgh. They receive the plates as they come from the rolls and separate the black sheets. This work heretofore has been done wholly by men. It is hard and rough. The women wear great leather shields on their hands, leather aprons and hob-nailed shoes to protect them from the heat and metal. The women are paid \$1.50 a day. Men received for the same work \$1.25. The forewoman gets \$1.75. This is the first time women have been employed at such work in this country.

WESTERN.

Chief Justice Albert H. Horton, of the Kansas Supreme Court, has resigned. Judge David Martin, of Atchison, has been appointed to succeed him.

An unknown man, while waiting for a train on the platform of the Lake Street Elevated road in Chicago, fell on the structure and was almost instantly killed.

Charles Hart was hanged in the Ohio State prison for the murder of Elsie and Ashley Goode, children 7 and 9 years old, respectively, in Paulding County, Nov. 4, 1894.

Joseph Rosso, an Italian miner, was shot and killed at Denver by William de Moss, one of a gang of toughs from whose insults he was trying to protect a party of little girls.

Family troubles caused Mrs. William Baldwin, of Hartshorne, W. T., to take her own life. She also gave strychnine to her 7-year-old girl and the latter is not expected to recover.

The Minnesota Senate adopted a memorial favoring deep waterway improvements to the sea. Congress is asked to continue the present work and to extend the system in the interest of the business development of the entire Northwest.

E. R. Hunter, an old-time Chicago stock speculator, was assassinated mysteriously by an unknown person in the firm's office Friday evening. He became unconscious before help could be given him and died at his home. His assailant struck the old man a terrific blow with a brick and escaped.

The Hotel Raymond at Pasadena, ten miles from Los Angeles, Cal., was destroyed by fire at 8:30 o'clock Sunday afternoon. Not a stick of the famous resort is left. The hotel was crowded with tourists, but they all escaped with their lives, although wardrobe and other possessions were consumed. The Raymond was one of the most famous health and pleasure resorts in the United States. It was located on a hill commanding a magnificent view of the San Gabriel Valley, and cost over \$1,000,000.

Policeman Charles J. Poole, of the Desplains street station, Chicago, has been suspended from duty and orders have been issued for his arrest. Circumstantial evidence gathered by detectives from central and Desplains street stations indicates the policeman was connected in some way with the gang of burglars of which Clarence White, alias "Whitey," is the head. White is now under bonds on charges of participation in the Ream and Keith burglaries and the evidence against Policeman Poole is regarded by Assistant Chief Ross and Inspectors Shea and Lewis as strong.

With enthusiastic cheers, the author of "Lussey Woolsey," Mr. Joseph Arthur, was called before the curtain on Monday evening, after the second act of the play at McVicker's Chicago theater. It was the first presentation on any stage of the production, and it scored an immediate success. It was a novelty in every way. Hypnotism had never been seen on the stage before in a Chicago theater, and the audience at first did not know how to take it, but the acting was so superb that but one verdict could be given. The stage settings are beautiful and the many different mechanical effects were loudly applauded. A laughable incident in the riding of a bucking horse by an English groom who gets thrown into a hog wallow. Another incident is the parade of the volunteer fire department and the Fourth of July celebration. The play from start to finish was a success.

The dead bodies of a man and woman were found Friday afternoon on a farm a few miles west of St. Louis, on the Walton road. Their throats were cut. In the right hand of the man was a revolver. At the foot of the bodies was an empty box labeled "poison." The woman's hat was crushed and broken, laying on the ground. Pinned to a ribbon was this note: "We have both decided to die together, and if one of the other should happen to discover the other shall not be held responsible for the deed. We both are going to take poison, and I will do the shooting. We are not doing this on account of any love affair, but simply because we don't want to live any longer. This is all we have to say, and hope there will be no trouble. We remain as ever, yours truly, Louis Frank, 1634 Cherokee street; Miss Kate Kolb."

SOUTHERN.

William Headrick, wanted in Ohio, North Carolina, Tennessee and Kentucky for bigamy, has been arrested at Middleboro, Ky., on a charge of horse stealing. Seven deserted wives are on his track. Headrick's method was to travel about the country, and when he found a woman with money he would marry her. Then, as soon as he could get her money in his possession he would desert her.

Georgetown, Tex., dispatch: The last train load of meal-fed cattle for this season will be shipped from here Wednesday, and there will be no grass-fed cattle to ship this summer on account of drought. The supply of stock cattle on hand to be fed next winter on cottonseed meal is 25 per cent less than last year. Prominent cattle men do not attribute the rise in beef to any combination; but to the supply of cattle, which has fallen off greatly during the past two years on account of the drought.

The body of Jefferson Davis, Jr., was reinterred Friday afternoon beside that of his father. Young Davis died in Memphis a few years ago of yellow fever. Mrs. Davis and Miss Wildie came on from New York to the interment. They were joined at Richmond by Mr. James Richardson, of New Orleans, to whom Miss Davis is said to be engaged to be married. Simple religious services were conducted by Rev. Dr. Hartley Carnichael, rector of Old St. Paul's. On the bier rested a silk Confederate flag, the same used when the body of Jefferson Davis was interred. All the dead Davis children are now interred at Hollywood.

WASHINGTON.

The Treasury Department has decided that it has no power to extend the time for making income tax returns.

The sale of postage stamps for the last quarter of 1894 was the largest ever known and indicates a revival of business.

The Interior Department has overruled former decisions in holding an acting assistant or contractor during the civil war has not performed such military service as entitles him to a pension under the act of June 27, 1890.

Secretary Morton reports that there is a shortage of about 300,000 head of cattle for slaughter; and to check the tendency to excessive prices for dressed beef, without injuring the interests of the producer, has ordered the free admission of certain California and Texas ports of properly inspected cattle from Mexico.

FOREIGN.

A dispatch to the London Times from Shanghai says Li Hung Chang's son-in-law telegraphs that a peace convention was signed at Shimonoseki Monday by the plenipotentiaries of China and Japan. Following are the terms of the convention:

1. The independence of Korea.
 2. That Japan retains the places she has conquered.
 3. That Japan shall also retain the territory east of the Yalu river.
 4. That the island of Formosa be ceded permanently to Japan.
 5. The payment of an indemnity of \$100,000,000, and
 6. An offensive and defensive alliance.
- United States Consul General de Kay, at Berlin, reports that Dr. Louis Waldstein, of New York, has discovered the means of curing consumption, lupus and perhaps cancer. The doctor announces in the German medical papers an extraordinary action of minute injections of picrocarpin, a crystallized extract from the Brazilian labor and plant, on the lymphatic system. This, in a sense, completes the celebrated "hell serum," acting favorably on patients whom the serum does not cure. The key of the discovery is this: By successive injections of minute doses of picrocarpin in the veins he arrives at a gradual stimulation of the lymphatic system. That system increases the white corpuscles in the blood, which, in some way not agreed upon, certainly overcomes particles in the blood that produce disease. The report closes with a statement of a case of lupus of twenty-two years' duration, regarded as incurable, which was relieved immediately after the first injection and is now almost cured.

A dispatch from Shanghai to a London news agency says that a proclamation bearing the emperor's name has been issued describing the empire as finished and asserting that he is unable to govern any longer and that the officials he trusted are corrupt. It is added that the proclamation has caused great excitement and that there are signs of rebellion. The document, however, is said to be the work of the secret societies. Little doubt is felt at the State Department in Washington that the proclamation posted in Shanghai announcing that the Chinese empire is finished is really the work of the secret societies, for there is no record in history of the voluntary abdication of a Chinese emperor. It is said that these secret societies, aimed at the existence of the present dynasty, have numerically strong in the central provinces, and it is apprehended that upon the conclusion of peace their ranks will be swelled by the disbanded soldiers influenced by the Hunan, or war, party, and that sporadic revolutionary movements may be expected in various parts of the country.

Late news from Havana says that Maceo is captured and Cuba's last hope is gone. Crambet has been killed. Without these two leaders all is chaos in insurgent ranks, and the most ardent friends admit that the Cuban cause is lost. The Spanish authorities are posting bulletins and the loyalists in Havana are celebrating the ending of the revolution. Without Crambet and Maceo there can be no real war. On Saturday the Cuban army and the Spanish soldiers met at Palmaire. The rebel forces numbered 2,000 men and the Spaniards 3,000. A desper-

ate battle followed and, according to official reports, lasted two hours. At the end of that time the rebels retreated, were pursued by the Spanish troops and Maceo captured. His secretary was also taken and all the personal and private papers of the rebel leader confiscated. The battle was a hard-fought one, and the insurgents battled desperately against odds. The Spanish soldiers resisted with remarkable courage the onslaught of the rebels. In a hand-to-hand conflict a number of Cuban officers, one of whom was a colonel, were killed.

If Nicaragua's counter proposition to Great Britain for the submission of the whole question in dispute to arbitration has been rejected by the latter Government, as reported, administration officials will expect another strong appeal for assistance from the weak republic. The whole question has now reached an acute stage and no one at the State Department ventures to predict what the outcome will be. Nicaragua cannot well afford at the present time to pay the \$75,000 indemnity demanded without borrowing the money. There has been much talk from Nicaragua sources about the necessity for ceding Corn Island to Great Britain in lieu of the indemnity. This talk may be only a trick on the part of Nicaragua to force the United States into coming to her rescue. Although Nicaragua might of her own motion suggest the cession of Corn Island to Great Britain as a means of escaping the payment of the indemnity demanded, such action would nevertheless be indirectly the result of coercion on the part of Great Britain. Hence the authorities would consider a move of this kind a violation of the Monroe doctrine, and as one official remarked, the administration would be compelled to step in and prevent by force, if necessary, the consummation of any such deal. This is no doubt what Nicaragua would like.

IN GENERAL.

Seven A. R. U. men at Fergus Falls were found guilty of obstructing the mail during the Great Northern strike last April. They were fined \$100 each, on the installment plan.

Between 700 and 800 negro families have recently arrived from the United States at Tlahualilo, State of Durango, Mexico, as colonists under the Federal concession granted to W. H. Ellis, an American citizen.

The jury in the case of Anna F. Dickinson, for confinement in an insane asylum, against Dr. Underwood, Dr. Hillman, John M. Bryden, George B. Thompson and others, after being out for seventeen hours, was discharged, not being able to agree.

H. G. Dun & Co.'s Weekly Review of Trade says: Progress toward better business conditions, but it is slow and meets many obstacles. In speculative aspects and in wholesale demand for goods the week shows improvement. Money markets are undisturbed and a little more active. But among the chief obstacles is the anxiety of operatives to secure better wages, even while many manufacturing works are running without profit and others at the risk of loss. In a number of establishments better wages have been conceded, thus increasing the purchasing power of the people, but strikes have largely overbalanced settlements, several of importance having thrown about 12,000 workers out of employment this week. Retail trade has improved on the whole since March.

Eighteen months from the present time, when the frisky calf of to-day is ready for the slaughter house there will be a fall in the present high price of beef, whether purchased on the hoof or at retail. This assertion is borne out not only by the assertions of the interested packers of Chicago, Omaha, St. Louis and Kansas City, but by the statistics prepared quarterly by the Government concerning the shipping, receiving and killing of cattle in the four American cities which control the delivery of beef dressed or on the hoof to the remainder of the country and Europe. The statement that a combine among the four principal packers of the West has caused the increased prices is indignantly denied by them, and the devastated grass and sage brush ranges of the West pointed to as irrefutable evidence of the absolute lack of cattle in comparison with the demand.

MARKET REPORTS.

WARNING TO SAILORS.

MUST BE CAREFUL WHILE FOREIGN PORTS.

Merchant Vessels Have No Rights Asylum for Refugees When Within the Jurisdiction of the Alleged Slanders' Country.

Can't Harbor Refugees.
Secretary Gresham has laid down a doctrine touching the rights of merchant steamers in foreign ports to afford asylum to refugees that may be of great importance to commanders of vessels. It was called out by a letter addressed to the State Department in December, 1900, by C. P. Huntington, president of the Erie Mail Steamship Company, asking an exact definition of the powers of a steamship in this respect. The Secretary responded that the so-called doctrine of right of asylum is not an application to merchant vessels, but it follows that a shipmaster found no exercise of discretion on character of offenses charged against refugees. While no general rule can be laid down as a comprehensive principle, a merchant vessel in a foreign port within the local jurisdiction of the country with respect to offenses or offenses against the laws thereof, and an order demand for the surrender of a person accused of crime by due process of law, with exhibition of a warrant of arrest in the hands of the regularly accredited officer of the law, may not be disregarded or resisted by the master of the ship. Arbitrary attempts to capture a passenger by force may call for a disavowal of the resort to violence endangers the life of the innocent and the property of a friendly nation.

American Rights Belittled.
The St. James's Gazette, commenting upon the latest developments in the dispute between Great Britain and Nicaragua, says: "There is wonderful ignorance of diplomacy upon the part of our newspaper journalists. Why should we bombard Greytown? If Nicaragua has been so foolish as to refuse to pay the indemnity, which, with the knowledge of the United States, we demanded, shall take such steps as the American Government was perfectly warranted in asking. The Monroe doctrine has been a doctrine for sixty-two years has not been acted upon yet. Great Britain has serious differences with South American republics will not be prevented from doing anything but settled international law."

Killed While Riding His Horse.
Robert Center, club man, man of letters and one of the best known sportsmen in America, was knocked off his bicycle crushed under the wheels of a coal wagon while riding at New York Wednesday evening. He died three hours later. The tragedy occurred almost under the doors of the Colonial Club and before the eyes of the president, J. H. Underhill, and half of the members, to whom Center was personally known.

Money for Duluth Improvement.
A deal has been closed in New York within the last two weeks which will require the expenditure of \$12,000,000 in Duluth. A number of New York capitalists have agreed to finance the Minnesota Canal Company, taking its bonds to amount furnished. It is proposed by company to open up 200 miles of canal and river front for navigation and other purposes.

FOR YOUR OUTING GO TO PICTUREQUE MACKINAC ISLAND.

ONE THOUSAND MILES OF LAKE RIDE AT SMALL EXPENSE.

Visit this Historical Island, which is the grandest summer resort on the Great Lakes. It only costs about \$18 from Detroit; \$18 from Toledo; \$18 from Cleveland, for the round trip, including meals and berth. Avoid the heat and dust by traveling on the I. & C. floating palaces. The attractions of a trip to the Mackinac region are unsurpassed. The island itself is a grand romantic spot, its climate most invigorating. Two new steel passenger steamers have just been built for the upper lake route, costing \$300,000 each. They are equipped with every modern convenience, annunciators, bath rooms, etc., illuminated throughout by electricity, and are guaranteed to be the grandest, largest and safest steamers on fresh water. These steamers favorably compare with the great ocean liners in construction and speed. Four trips per week between Toledo, Detroit, Alpena, Mackinac, St. Ignace, Petoskey, Chicago, "Soer," Marquette and Duluth. Daily between Cleveland and Detroit and Cleveland and Put-In-Bay. The palatial equipment makes traveling on these steamers thoroughly enjoyable. Send for illustrated descriptive pamphlet. Address A. A. SCHANTZ, G. P. A., D. & C., Detroit, Mich.

A number of people were present and saw him in the water but it being dark they could not make out what the object was until Martin Strauss and Lynn Gorton went out with a boat and pulled him out. He had been in the water about fifteen minutes and was apparently dead but after vigorous efforts at resuscitation he showed signs of recovery, but did not regain consciousness until Sunday morning, when he gave his name as James Thompson of Caledonia, and said he fell in the pond. Soon after this he admitted that he jumped into the pond and that his name was Benjamin Munnell and lived at Sparta, where he owned some property. He gave as a reason for his rash act sickness and family trouble. Jesse Foster took care of him. He died Monday afternoon of congestion of the lungs caused by the exposure in the water.

Cure for Headache.

As a remedy for all forms of headache, Electric Bitters has proved to be the very best. It effects a permanent cure and the most dreaded habitual sick headaches yield to its influence. We urge all who are afflicted to procure a bottle, and give this remedy a fair trial. In cases of habitual constipation, Electric Bitters cures by giving the needed tone to the bowels, and few cases long resist the use of this medicine. Try it once. Large bottles only fifty cents at F. P. Glazier & Co.

Our better halves say they could not keep house without Chamberlain's Cough Remedy. It is used in more than half the homes in Leeds. Sims Bros, Leeds, Iowa. This shows the esteem in which that remedy is held where it has been sold for years and is well known. Mothers have learned that there is nothing so good for colds, croup and whooping cough, that it cures these ailments quickly and permanently, and that it is pleasant and safe for children to take. 25 and 50c bottles for sale by F. The Discovery Saved His Life.

E. G. Galliotte, druggist, Beaver-ville Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with a gripe and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store and I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it. Get a free trial at Bank Drug Store."

Rev. Wm. Ewing, state secretary of the Congregational Sunday School and Publishing Society, will preach at the Congregational church next Sunday morning, and will conduct a Sunday School institute in the afternoon at half past three. Mr. Ewing is a practical Sunday school man of wide experience, and original ideas. All Sunday school workers are cordially invited to be present.

The drought of the past two years has left this town in a sorry plight. Two years ago we had at least thirty business houses, but now the streets are dark at evenings, except 4 or 5 glimmering lights in the business houses trying to struggle through, and there is only here and there an inhabited dwelling. Verily, the Drouth Fiend has had triumph.—Callaway (Seb.) Tribune.

The council met Wednesday evening and made a contract with the Chelsea Electric Light Company to furnish twenty 2,000-candle power arc lights for a term of ten years for the sum of \$7 per light per month. The Standard has been making a canvass of the citizens and found but few who favored the 2,000 candle power lamps, while the majority were most emphatically in favor of the 1,200 candle power.

The P. A. T. semi-annual business meeting was held at the home of Miss Minnie U. Davis Monday evening. The following officers were elected for the next six months: President, Fanny E. Warner; vice president, Minnie U. Davis; 2d vice president, Nettie E. Hoover; 3d vice president, Pearl M. Davis; secretary, Marie V. Stimson; corresponding secretary, Edith D. Noyes; treasurer, May Sparks; critic, Mary L. Pearson.

Jacob Rothfus, Died at his home south of Chelsea on Tuesday, April 23d, Jacob Rothfus, Mr. Rothfus was born in Germany, on January 18, 1827, and came to America in 1855. He enlisted in Company A, 1st Michigan Engineers and Mechanics, and as a soldier was loyal to his adopted country. In 1866 he was married to Miss Christina Gutekounst, who with three children survive him. The funeral was held at the Lutheran church, Rev. Eisen conducting the services, assisted by Rev. C. L. Adams.

Mrs. Frederick Mensing. Mrs. Frederick S. Mensing died at her home in this village about 10 o'clock Wednesday morning. Her health had not been firm for some time but she had been about as usual until three weeks ago, when she was taken with pneumonia from which she was unable to rally. She was of a quiet, retiring nature, but faithful to her principles of right and truth. She was trained in the doctrines of the Lutheran church but united with the German M. E. church after coming to this country, of which she remained a faithful and true member. Her suffering was such that she often wished to be released by the kind hand of death that she might go to her eternal home.

She was born in Badbergen, province of Hanover, Germany, December 8, 1828. She was married to Mr. Mensing in 1845. She came to this country in 1850, the trip taking two months before she reached Washtenaw county, which has since been her home. She was the mother of nine children seven of whom are still living, who with their father mourn their loss.

Funeral services will be held Friday afternoon at the German M. E. church. Pastor in charge of the pastor, Rev. Paul Wuerfel assisted by Rev. C. L. Adams.

Rev. C. L. Adams is still assisting in the special services at the M. E. church in Grass Lake. The extra meetings will close this week.

The weekly crop bulletin of the Michigan weather bureau says that reports help to strengthen the statement made a week ago that, generally speaking, fall sown crops and fruit buds had come through the winter in good shape. In the southern part of the state wheat is losing its brown appearance and is greening up nicely. In the other localities it is holding its own. The warm weather and beneficial rains have been very beneficial in all sections. The fruit prospects are excellent, buds being in good shape and swelling slowly. In the southern section the season's farm work has opened up generally. Farmers are plowing and many have already sown oats. In the central counties the plow is just commencing, but during the coming week it will be general. In the northern counties very little has been done, but the coming week promises to see quite a general start. So far the spring has been a very good one, with practically no weather that could be called unseasonable.

Flossie is six years old. "Mamma" she called one day, "If I get married, will I have a husband like pa?" "Yes," replied the mother, with an amused smile. "And if I don't get married will I have to be an old maid like aunt Kate?" "Yes." "Mamma,"—after a pause—"It's a tough world for us women, ain't it?"

Those who never read their advertisements in their newspapers miss more than they presume. Jonathan Keelson of Bolan, Worth, Iowa, who had been troubled with rheumatism in his back, arms and shoulders read an item in his paper about how a prominent German citizen of Ft. Madison had been cured. He procured the same medicine, and to use his own words "It cured me right up." He also says: "A neighbor and his wife were both sick in bed with rheumatism. Their boy was over to my house and said they were so bad he had to do the cooking. I told him Chamberlain's Pain Balm had cured me, he got a bottle and it cured them up in a week. 50c bottles for sale by F. P. Glazier & Co.

WHAT YOUR THUMB TELLS.
The thumb is an unfailing index of character. It is the finger which indicates a strong will, great energy and firmness. Closely allied is the Phalarope Type, the thumb of those of advanced ideas and business. The thumb of a man or woman, and Demorest's Family Magazine prepares especially for such persons a whole volume of new ideas, condensed in a small space, so that the record of the whole world's work for a month may be read in half an hour. The Conical Type indicates refinement, culture, and a love of music, poetry, and fiction. A person with this type of thumb will thoroughly enjoy the literary attractions of Demorest's Magazine. The Artistic Type indicates a love of beauty and art, which will find rare pleasure in the magnificent oil-painting of roses, 104 x 34 inches, reproduced from the original painting by De Longpré, the most celebrated of living flower-painters, which will be given to every subscriber to Demorest's Magazine for 1894. The cost of this superb work of art is \$250.00, and the reproduction cannot be distinguished from the original. Besides this, an exquisite oil or water-color picture is published in each number of the Magazine, and the articles are so profusely and superbly illustrated that the Magazine is, in reality, a portion of art works of the highest order. The Philopole Type is the thumb of the thinker and inventor of ideas, who will be deeply interested in those developed monthly in Demorest's Magazine. In every one of its numerous departments, which cover the entire artistic and scientific field, chronicling every fact, fancy, and feat of the day, Demorest's is simply a perfect Family Magazine, and was long ago crowned Queen of the Monthlies. Send in your development! It will cost only \$2.00, and you will have a dozen Magazines in one. Address W. J. MUNN, DEMOREST, Publisher, 10 East 14th Street, New York. Though not a fashion magazine, its perfect fashion pages, and illustrations on family and domestic matters, will be of superlative interest to those desiring the Phalarope Type of Thumb, which indicates in its small size, slenderness, soft nail, and smooth, rounded tip, those traits which belong essentially to the Demorest's Magazine. If you are unacquainted with its merits, send for a specimen copy (free), and you will admit that seeing these THUMBS has put you in the way of saving money by finding in one magazine everything to satisfy the literary wants of the whole family.

WASHINGTON LETTER

Special Correspondence

The predicament of the income tax law is getting worse. As a matter of fact, the calamitous consequences of the supreme court's decision, or rather indecision multiply apace. The decision thus the effect of taking the life out of the law impeaching its validity, treating its pseudo virtue and questioning its authority and yet it leaves many of its most objectionable features of the law in active operation—a legacy of confusion and distress, a fruitful source of strife. It exempts one class of incomes from taxation and leaves the other an open question. The great landed proprietors go free. The comparatively poor must fight. Complications in great number will inevitably ensue. Thousands of lawsuits will be instituted to test the unconstitutionality of the clauses left untouched by the court. The country knows, now, that half the supreme bench have declared the law to be unconstitutional, and two of the remaining four believe it to be so, and would have so ruled had the case come to them as an "original question." The country knows, furthermore, that with the return to the bench of Justice Jackson, or his retirement for the appointment of a successor, the matter must be taken up again. It was not for the good of the people, for the welfare of society, or for the interest of the government that the question should be left in the present deplorable confusion and uncertainty; and it will be difficult to make thinking men believe that eight learned and trained jurists should not have agreed upon something definite and conclusive as to the law in toto.

Now is the time when Washington blossoms out in Easter garb, and fully justifies its reputation as the most beautiful of American cities. The miles of tree-lined streets give to the urban portions of the city an almost rural appearance. The frequent parks are fresh and bright with green leaves and flowering shrubs. The neatly trimmed beds of spring flowers show like oases in a desert of asphalt. It is no wonder that the Washingtonian is proud of his city, for with a wholesome climate and with its admirable plan of streets and avenues, and its multitude of small reservations, there is scarcely any feature lacking to make the capital a spring paradise. The old Washington is being improved every season. The unsightly spots occupied by ugly shanties are being gradually filled up with substantial, handsome buildings. The city is spreading, too, into the country, and the surrounding areas are taking on the beauties of the city proper. There is a great future for Washington. It lacks some things, but the budding of the trees now puts reverse desires out of the mind; for nature is at her prettiest and she never appeared at better advantage than in Washington.

Presumably the Lansing incident is closed. No ceremonies perhaps, have been held in the state department, for the proceedings could hardly be described as diplomatic and, as we all know, nothing in the slightest degree undiplomatic is ever so much as recognized in the south end of the big granite building near the White House. But in a borrowed department phrase, the incident is closed. The Rev. Scandal-Monger Lansing with draws his remarks touching the president's sobriety, explains that they were based entirely on hearsay, and seems really sorry that he spoke. He will now disappear from public observation, greatly to his own advantage and to the relief of the country at large. The question remains, however, what possible good did Dr. Lansing expect to accomplish by his indecent attack upon the executive head of this nation? Abuse is not the housemaid of morality nor persecution the lieutenant of religion. A doctrine exploited by violence condemns itself. Dr. Lansing should utilize his retirement by considering these things. It may do him good.

It is not likely, from the present indications, that the treaty between Great Britain and the United States, under which a settlement may be had of the claims of the Canadian sealers against this country, will be formulated before next autumn. Meanwhile, the rules which applied to the fishing season in Behring Sea last year will remain in force until some agreement shall have been reached. The contention of American experts is that the seals are being rapidly exterminated. The Canadians insist that the methods employed of late years have not diminished the herds. It is believed by the representatives of both the American and British governments that a commission of experts should be formed to visit the islands and report upon the actual situation. Cleveland proposed the appointment of such a commission last January. The fact that congress adjourned without making any provision for it, is assigned as probably one reason why Great Britain has made no formal reply to this suggestion, and the proverbial procrastination of the Ca-

nadian officials in dealing with fisheries questions (which was so pointedly referred to by Mr. Bayard when secretary of state) is given as another possible reason why no action has been had in the matter.

President Cleveland has made his income tax return. In it he has included his salary of \$50,000 as chief executive, on which the tax will be \$990, deciding to leave it to the proper officers to determine whether the payment of the 2 per cent assessment will be in violation of the constitution.

Despite the Honolulu advice to the contrary, it is asserted with the utmost positiveness, by a gentleman close to the administration, that Secretary Gresham did instruct Minister Willis to suggest to President Dole the desirability of the recall of Minister Thurston on the ground that he had become persona non grata to the administration.

Those persons who are now urging Mr. Cleveland to call an extra session of congress seem to forget that he had a little excitement of this sort in the year 1893. Mr. Cleveland is by no means a glutton.
