### May Crop Report.

Wheat and grass are making little growth. April was a month of high temperature and light rainfall. There was not sufficient rain to be of appreciable benefit anywhere in the State after the 13th of the month, and before the 13th the rainfall amounted to less than one-half of the normal for the month. The normal rainfall for April, as determined by observations extending through a long series of years, is, for the State, 2.44 inches.

The average rainfall in the State in April for five years has been as follows: 1894, 2.28 inches; 1893, 4.43 inches; 1892, 2.13 inches; 1891, 1.95 inches, and 1890, 3.09 inches.

Since May 1, there have been light showers in the State, but the average rainfall in the southern and central counties does not exceed one seventh of the normal for the same period.

The average condition of wheat as estimated by correspondents is as follows, comparison being with vitality and growth of average years: Southern four tiers of counties, 77 per cent; central counties, 87 per cent; northern counties, 89 per cent and State, 80 per cent. One year ago, when temperature and rainfall were both favorable during April the average condition in the southern counties was 89, in the northern 95 and the State 90.

Very little wheat will be plowed up this year because winter-killed or otherwise destroyed, and very few correspondents mention damage to the crop by insects.

The total number of bushels of wheat reported marketed by farmers in April is 810,226 and in the nine months, August-April, 9,670,541, which is 2,942,657, bushels less than reported marketed in the same months last year. At 39 elevators and mills from which reports have been received there was no wheat marketed during the month.

Grass, like wheat, is backward because of the drouth. The meadows are not yet ruined but an abundance of rain must come soon or they will be greatly damaged. One year ago they were in prime condition.

Apples and peaches promise fairly good crops. The averages for the southern counties are, apples 84, and peaches 81 per cent; central counties, apples 87, and peaches 88 per cent, and State, apples 86 and peaches 82 per cent.

WASHINGTON GARDNER  
Secretary of State.

### Attention Pioneers.

The local officers and members of the Washtenaw County Pioneer Society are quite enthusiastic over the prospects for a grand rally on June 12th at Dexter, which is the date for the annual meeting of the society.

They think that Dexter and vicinity can show a greater number of pioneers that settled in the county previous to 1830 than any other section of the county of the same extent of territory, but send special greeting to all such pioneers and a cordial invitation to meet with them for a pleasant old folks' reunion.

### Knights of the Maccabees.

The State Commander writes us from Lincoln, Neb., as follows: "After trying other medicines for what seemed to be a very obstinate cough in our two children we tried Dr. King's New Discovery and at the end of two days the cough entirely left them. We will not be without it hereafter, as our experience proves that it cures where all other remedies fail."—Signed F. W. Stevens, State Com.—Why not give this great medicine a trial, as it is guaranteed and trial bottles are free at R. S. Armstrong and Co's Drug Store. Regular size 50c. and \$1.00.

Mrs. T. S. Hawkins, Chattanooga, Tenn. says "Shiloh's Vitalizer saved my life. I consider it the best remedy I ever used". For Dyspepsia, Liver or Kidney trouble it excels. Price 75 cts. Sold by Armstrong & Co.

At the first step Mr. Wigglesworth made into the front hall his foot rested upon a moist cake of soap, and in another instant he was over by the dining-room door with his arms around the hat-tree and some language trailing on behind that left a coppery taste in the atmosphere as it slowly curled up the front stairs.

So Mrs. Wigglesworth upraised the other end and her husband stood in a chair. He reached for the border line of the wall, but fell short of it.

The company is first-class with lots of good specialty people Admission 25 and 35 cents.

As a few of the boys were partaking of refreshments in a certain store one evening recently, of which the major part consisted of Limberger cheese, one of the Chelsea residents, who had never before tested its flavor, etc., on being invited to partake, cheerfully did so. About the time the luscious morsel fastened its odorous mass to his teeth he turned pale the cold sweat flooded his forehead and his bosom heaved with unmistakable vehemence, which shows that cheese and stomach were wrestling with genuine McLaughlin style. As soon as he could recover himself he placed the remainder of old Limberger on the counter and turned away homeward. The boys think it will be a long day and many of them before he will knowingly tackle another slice of Limberger cheese.

We copy the following from the Battle Creek Moon, of May 7, 1895: "May 6, 1870, at Chelsea, Michigan, at the residence of the bride's parents, Miss Durand and George A. Robertson, were united in marriage. Last night at the residence of Dr. and Mrs. George A. Robertson, 174 East Main street, this city, this worthy couple celebrated the twenty-fifth anniversary of their marriage by a silver wedding. There were about seventy-five guests present who spent a very enjoyable evening. Among those present were Mr. and Mrs. Billings, of Toledo, who were the bridesmaid and best man at the wedding, also the father and mother of Mrs. Robertson. The rooms were handsomely decorated and illuminated. Very fine refreshments were served in excellent style. Dr. and Mrs. Robinson were the recipients of numerous elegant presents in silver."

#### High Character of the World's Fair Dairy Tests.

Any one familiar with the great tests between the breeds held at Chicago, from May 12th to Oct. 20th, 1893, will bear testimony to their thoroughness, their impartiality and the grand work that was accomplished in the interest of dairy science. These tests gave to the cows and breeds participating therein an opportunity to demonstrate their dairy characteristics. They were no tests of a few days or a week, but so prolonged that they exhibited to public scrutiny the staying qualities of the cows and breeds. This feature cannot be too strongly commended, as the practical dairyman is not keeping cows for what they can accomplish in a week, on a forced diet, but rather what they are capable of doing throughout the whole year, under rational feeding and what the "net profit" is which they will place to the credit of his bank account. The latter element was essentially the crucial one of the tests, as all the decisions were based on the cows and breeds "showing the greatest net profit." The cow and breeds were credited with their products and debited with their feed. The former consisted in Test No. 1 of cheese, the price of which was fixed according to the scoring of same (which was done by experts appointed by Chief Buchanan) of whey, at the rate of 8 cents per hundred pounds, and of the increase in live weight, at 4½ cents per pound; in Test No. 2 of the butter, at a price fixed by the scoring of same by the same experts as in the cheese test, of solids other than butter fat, at \$2 per 100 lbs., and of increase in live weight; in test No. 3, of butter alone.

A strict account was kept of all the feed, which was charged at a schedule price fixed by Chief Buchanan, with the consent of the representatives of the breeds prior to the tests beginning, and could only be fed in the presence of a representative of the Testing Committee. Columbian Guards were stationed in the barns day and night, to see that no feed was given the cows except in the presence of the representatives of the Testing Committee.

It will thus be seen that every feature of dairying formed a factor in these tests: quantity of milk in Test No. 1, through the whey and cheese, quantity of milk in Test No. 2, through the solids other than butter fat, and butter in Tests Nos. 2 and 3

A sample of the milk of each cow and the milk of the herds was taken daily, and analyzed by a competent staff of chemists, under the direct control of Prof. E. H. Farrington, of Illinois; and a determination of the fat in the milk was made by the Babcock oil test each day, and each cow credited with her proper proportion of the products.

The milk was creamed, and the cream churned in the dairy, under the immediate and personal supervision of Prof. S. M. Babcock or L. P. Roberts, two members of the Testing Committee.

In scoring the butter and cheese, the expert judges had no means of identifying the packages they were examining. After marking their scores, they transmitted the packages to Chief Buchanan, who, after examining same, removed the names of the scorers and transmitted the packages to the Testing Committee, who entered the scores, taking the average of the three experts.

The Testing Committee consisted of the following professors, representing the Association of the Agricultural Colleges and Experiment Stations: Prof. M. A. Scovell, Kentucky Experiment Station, Chairman; Prof. L. P. Roberts, Cornell University; Prof. S. M. Babcock, Wisconsin Experiment Station; Prof. H. P. Armsby, State College, Pa; Superintendents H. H. Hinds representing the American Short-Horn Breeders Association; Prof. W. H. Caldwell, representing the American Guernsey Cattle Club, and V. E. Fuller, representing the American Jersey Cattle Club. Meetings of the Testing Committee were held daily. The high character of the gentlemen representing the Association of Agricultural Colleges and Experiment Stations, their well-known ability and probity testify to the disinterested character of the work performed in the tests. Their knowledge of the subject warranted scientific application when such was advisable, coupled with practical deductions, so that the tests satisfied both the scientific and practical views of dairying. All the members of the committee were throughout fair and impartial, and were actuated by the sole desire to have the rules carried out and justice done to all breeds.

These tests were the most prolonged, the most thorough, the most fair and impartial that have ever been held in the world, or are likely to be for many years to come. They cost the World's Columbian Exposition \$73,000. They settled more points in dairying than have ever been settled before. They brought to light the merits, the strong and weak points of the breeds, and in doing so demonstrated that the Jersey cow is the greatest of all dairy cows.

## BEISSEL AND STAFFAN

It's a Grand Success.

The fact has been demonstrated by the thousands of testimonials the Mayers Drug Company, of Oakland, Md., has received since it has sent its famous Mayers Magnetic Catarrh Cure out to the sufferers of catarrh. No medicine has received such an endorsement from the people in so short a time as it did. The makers sell the medicine on business principles, and a patient is not required to buy the medicine by the dozen to get a cure. The Mayers' Magnetic Catarrh Cure sells for \$1 per bottle, one bottle to last for a three months treatment. Three bottles is the highest record ever required to complete a cure. General catarrh one bottle is guaranteed. No cure no pay.

This is an unequalled offer and if you are a sufferer from catarrh get a bottle from your druggist, if no benefit derived costs you nothing. A prominent R. R. conductor speaks:

Cumberland, Md., April 29th, 1893.

To the Mayers Drug Co.,  
Gentlemen:—Yours to hand, in reply will say that I have the highest regard for your Catarrh Remedy, my trouble is in a chronic form and expect to use more than one bottle. I used one bottle which removed the trouble from the lead in good shape and am on the second bottle for throat trouble, if I should succeed with the latter as I did the former I shall write you again in the near future. Hoping it will do for the suffering humanity what it did for me, I remain,

Yours truly

### A Valuable Find.

The Result of Years of Study and Labor.

There has at last been discovered a sure and never failing remedy. It has been tested on patients, who have despaired of ever being cured; the results have been in every case wonderful. Groff's Rheumatic Cure is unequalled as a positive remedy in all cases of Chronic and Acute Inflammatory Rheumatism, Gout, Lumbago, Sciatica, Neuralgia; especially Ovarian Neuralgia; Dysmenorrhoea and all kindred affections. It is also a valuable Blood Purifier, being especially useful in Eczema, Psoriasis, Scrofula, all Glandular Enlargements and diseases of the Liver and Kidneys. It is absolutely free from all narcotics. Severe attacks are relieved in from one to three days and a positive cure effected in from five to eighteen days. For sale by druggists. A good whitewash for fences and out-buildings that stands fairly well and which looks like oil paint when dry is made as follows: Pulverise air slacked lime until it is as fine as flour and passes through a sieve. Next boil some rice until the substance has been drawn out of the grain. Mix the lime and rice water, and to every half barrel of the mixture add one gallon of linseed oil. Apply with a long bristled whitewash brush for buildings, and for fences use a brush with shorter bristles.

### Rheumatism.

Is caused by Uric Acid in the blood. Dr. Humphrey's specific No. 15 opens the clogged ducts—purifies the blood—renews health and vigor, and cures the Rheumatism.

Cucumbers, says the American Cultivator, show extraordinary vigor when grown over small trees or twiggy bushes. An enormous increase of fruit is the result. In a garden where only some dozen or so of plants are required, it is an excellent practice to have stout, bushy branches planted, on which to allow the cucumbers to run. One may get as many cucumbers from one plant so trained as from a dozen suffered to trail over the ground.

### It May Do as Much for You.

Mr. Fred Miller, of Irving, Ill., writes that he had a Severe Kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called Kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all Kidney and Liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c for large bottle. At F. P. Glazier & Co's. Drug Store.

Mr. Cad Allard, editor of the Beards town Daily Star, is the proud possessor of a pug named Cute, that he considers has almost human intelligence. Cute understands almost everything that is said to her, and does over fifty tricks, such as closing doors, bowing to friends, carrying copy from the editorial room to copy hook etc., besides she eats at a table of her own and says grace before each meal.

That new horseless carriage in Springfield, Mass. has been so perfected that it is now in operation. Its inventor claims that it costs only a cent an hour to run. A vehicle for two constructed like the ordinary "buggy" weighs 600 pounds. The speed can be gauged at from 3 to 16 miles an hour, it is claimed, and after it has been running 16 miles an hour there is no horse to rest, water, feed and rub down. The nag that draws it never gets spavin, glanders or bots. The nag is gasoline, so managed that an electric spark touches one drop of it at a time, producing a slight explosion and rapid expansion of air. Finally the nag is carried inside the wagon and weighs only 120 pounds. If this vehicle comes to be the vogue, then poor people can afford carriages.

### Probate Order.

STATE OF MICHIGAN, County of Washtenaw.

ss. At a session of the Probate Court of Washtenaw, holden at the Court Office in the City of Ann Arbor, on the 15th day of April in the year of our Lord one thousand eight hundred and ninety-five.

Present, J. Willard Babbitt, Judge of the Probate Court.

In the matter of the estate of Mary Mullen, deceased.

On reading and filing the petition verified, of Mary H. Reynolds, that the administration of said estate be granted to James P. Wood or some suitable person.

Thereupon it is ordered that Monday, the 15th day of May next, at ten o'clock in the forenoon, be assigned for the hearing of said petition, and that the heirs at law of said deceased and all other persons interested in said estate be required to appear at a session of the Probate Court, then to be holden at the Probate Office, in the City of Ann Arbor, and show cause, if any, why the prayer of the petitioner should not be granted. And it is further ordered, that the petitioner give notice to the persons named in said order, of the pendency of said petition and the hearing thereof, by causing a copy of this Order to be published in the Chelsea Herald, a newspaper printed and circulated in said county three successive weeks previous to the day of hearing.

J. WILLARD BABBITT, Judge of Probate.

[A true copy.] WM. G. DOTY, Probate Register.
