This is unfortunate for the chirpers. flood of song and to revise ever so many panegyrics of the converts, who, as it happened, were not converted.

The sensational story in regard to Mrs. Carlysle riding a wheel was a great surprise, for Mrs. Carlisle knows little or nothing about wheels, and cares less. She has little sympathy for the new woman. Mrs. Carlysle, however admires a courageous girl, the real new woman, who has the character to take responsibilities. She is a great friend to self supporting women, and those who are breadwinners. She does not admire idle young women, whose lives are devoted entirely to society. She likes them to be genuine womanly and sincere, and whether they ride wheels or not, not to forget that they

The United States Supreme Court will meet again Monday, October 14. On that day the justices will call upon the president, The business of the court will commence on the 15th. There are many important cases left over from the R. BUELL,

WILLSTOPTHEFIGHT

GOV. CULBERSON IS VERY MUCH IN EARNEST.

Typhoid Causes Forty-two Deaths in Eleven Days at Chicago Minneapolis Chamber of Commerce Damaged by Fire-Scamen Defy the Law.

Texas' Fair Fame. Gov. Culberson, of Texas, has kept his threat to call an extra session of the Legislature if necessary to stop the proposed Corbett-Fitzshmons prizefight set for Oct. 31 at Dallas. The Governor has been indefatigably looking up the laws on the subject and, with Attorney General Crane's belp, made an exhaustive study of the question. Thursday evening every member of the Cabinet was in consultation with the Governor until 11:30. At midnight the Governor issued a proclamation calling a special session of the Legislature. As the reason for his action he says that, under the present condition of the law, the fight managers are liable to pull off the fight while the courts are rowing over it; that Chief Justice of the Court of Criminal Appeals Hurt has ruled against the State, and now there is a mandamus case pending in the Supreme Court that may go in an entirely different line, raising a conflict between the two highest courts in the State. In order to settle all possible contention he issued the call.

Typhoid in Chicago. Typhoid fever seems to be epidemic in Chicago. Forty-two deaths have occurred in the last eleven days, out of a probable total of nearly one thousand cases and physicians and health department attaches ascribe the cause diversely to the condition of the water supply or to the impure milk and cream sold by dealers up to the time of the department crusade against them. Health Commissioner Kerr denies the existence of an epidemic on the basis of the fact that only three cases were reported to the department Wednesday. But, the Evening Post says, the fact that there were twenty-nine deaths from the disease at the County Hospital last week and that there are eighty cases there now has a far stronger bearing on the question of the epidemic than the report of only three new cases. It is well known that physicians are carcless about reporting cases of typhoid and even the hospitals frequently refuse to make reports of the number of patients and of their diseases as required by the city ordinance.

Bad Minncapolis Blaze. Fire in the Minneapolis Chamber of Commerce for a time threatened the destruction of the building. The flames were, however, confined to the upper floors, although the entire building was drenched. The Chamber of Commerce is a handsome five-story stone structure, at Third street and Fourth avenue south, two blocks from the milling district. It was erected in 1884 at a cost of \$180,000. It is the center of the grain trade, the Corn Exchange and Flour Exchange occupying adjacent corners. The loss is estimated at \$30,000 on the building and \$30,000 on the contents. The in-

surance on the building is \$125,000. NEWS NUGGETS.

Typhoid fever is becoming epidemic in the Wisconsin regions recently visited by forest fires. A number of deaths have been reported.

Henry R. Patton, foreman of the Patton Manufacturing Company, located in the Jeffersonville (Ind.) penitentiary, has been arrested charged with circulating counterfeit coin manufactured by the

Whitecaps took William Massey, of Fulton, Mo., out of his house and rawhided him within an inch of his life. Massey, while drunk, raised a row in his family and ran his wife and six children off the place.

The National Anti-Horse Thief Association, embracing the States of Illinois, Iowa, Missouri, Kansas and Oklahoma and Indian Territories, held its thirtythird annual meeting in Parsons, Kan. with a large attendance.

Initial steps toward holding a mid-continental exhibition in 1900 were taken at Indianapolis by official representatives from the Congressional districts, appointed by Governor Matthews on the authority of the last Legislature.

of Immigration for the United States, is at Winnipeg en route from British Columbia, where he went to make inquiries touching the number of Japanese entering the country. Colonel Stump learned the immigration of Japanses at Canadian ports is very small.

The Committee on Nominations presented its recommendations at the opening of Thursday morning's session of the deep waterways convention in Cleveland. Ohio, for the re-election of the old officers and the election of seventen members of the Executive Board. The report was promptly adopted.

Information has come to the Federal authorities at San Francisco that many British sealing schooners have been carrying arms in open defiance of the treaty and that the hunters have boldly violated every clause of the law. Complaints will be made to the State Department and the matter will be laid before the British

A great sensation has been caused at St. Joseph, Mo., by the mysterious disappearance of 15-year-old Maud Steidel, who stepped out of her mother's home the other night and has not been seen since. The mother of the girl openly accuses Dominick Wagner with having spirited her daughter away.

The United States warship Alert was seriously damaged by a collision with ans English freight steamer in the harbor of Guayaquil:

Senator Stephen B. Elkins fell from a bicycle at Kingwood, W. Va., and so seriously injured his ankle that he was taken to New York by special train for surgical treatment.

Charles J. Webb & Co.'s cotton and woolen warehouse at Philadelphia was burned, causing a loss of \$250,000.

BASTERN.

Charles Le Clercq, the actor, died in lew York, aged 55. Harry Wright, the veteran basel ire, is dangero

manager and umpire, is dangerously with pneumonia at Atlantic City, N. J. At Pittsburg, Pa., Morris Ruben, a Hebrew who embraced Christianity and had been declared insane, was freed by Judge White.

At Ogontz, Pa., Mrs. Moorehead, wife of the superintendent of the Northwood Cemetery, Oakland Station, and her daughter were killed by a train.

At the semi-annual exhibition of the Merchant Tailors' Society in New York the most startling innovation shown was dress suits of plum color, with velvet col-

At Shamokin, Pa., the seven Reading mines have been put on full time until further notice. Five thousand employes will thus receive \$25,000 additional wages.

James Francis Ruggles, a well-known New Yorker, was found dead at his home. He was one of the commissioners who laid out Central Park and was a member of the leading clubs.

During a heavy storm near Clearfield, Pa., the scale house of the Clearfield Fire Brick Company's mine at Bigler was struck by lightning, killing Boyd Hummel, a miner, and stunning three others, Charles Gearhart, Ralph Radifer and George Smeal.

The Executive Committee of the New York Chamber of Commerce Sound-Money Committee has figured that on the money question the next House of Representatives will stand: For silver, 88; against free silver 216; doubtful or views not known, 52.

There is intense excitement among the Cuban residents in Boston over information that the most formidable expedition from this country has succeeded in getting out to sea safely, and that, if all has gone well, it will be on hand to materially aid the fighting Cubans in their next big battle. The vessel's cargo includes 2,500 rifles, 900,000 rounds of ammunition and 600 machetes. Besides all this each man has his personal arms, and there are 400 pounds of dynamite, with the material to manufacture death-dealing bombs. The most unique bomb is the Flecha, or arrow, which is to be fired from a bow over the heads of the most forward of the enemy's ranks, and, exploding in the rear, creates consternation and havoc.

WESTERN.

At Logansport, Ind., Frank Kemp was entenced to three years in the penitentiary. He shot his father at Galveston. Russians around Topeka, Kan., are returning to Russia to stay. Each one takes from \$2,000 to \$5,000 in cash with

At Denver, Colo., Millie Merz, aged 9, endeavored to kindle a fire in the kitchen stove by using kerosene. The can of oil exploded, the girl and her baby brother, aged 2, being burned to death.

At Indianapolis the doors of the vault in the Indiana National Bank Building. which was partially burned a few days ago, were opened and the contents found intact. The bank contained \$2,000,000.

At Kansas City Thomas Nolan, foreman of the Railroad Transfer Company, and two teamsters were arrested charged with robbing railroad companies of \$20,-000 worth of goods during the last two

At Wabash, Ind., the Logansport and Wabash Valley Gas Company and the Wabash Steel Company have begun rate cutting to gas consumers. The former has cut 50 per cent. for domestic and bus-

Terrible prairie fires are raging south of Perry, O. T., and great damage has been done. Thousands of acres have been burned over, and much hay and other crops destroyed. Several people had narrow escapes.

The extreme heat which for two weeks had scorched a wide area was dispelled Sunday night by a gale which swooped out of the West. The change was phenomenal. Within an hour the mercury dropped from 90 degrees to 70. By morning it registered 52.

Milton H. Barr, Edward J. Clifford and Cliff B. Ruhmer, members of Company G, First Regiment, N. G. C., of San Francisco, started out from Oakland, Cal., on a trip across the continent, their destination being Atlanta. They are going to make the tour in a

In the death of S. Corning Judd, which occurred Sunday, another of the old familiar figures, who, from long association, have been landmarks in Chicago's history, has passed away. The ranks of these old-timers who made history for Chicago before the fire, aye even before the war, too, for that matter, are thinning out year by year, but seldom has Colonel Herman Stump, Commissioner | such a picturesque figure made his exit from the arena as S. Corning Judd.

The Chicago Board of Trade won its fight against the elevator men. Chairman W. S. Cantrell, of the Railroad and Warehouse Commission, handed down a decision declaring that the owners of public warehouses must not buy or sell grain through their own elevators. By way of impressing upon the elevator companies the force of the ruling, the commission issued an order revoking the licenses of nine firms who have been vio-

lating the law on this point. The committee of ten, consisting of five coal miners and five operators of Western Illinois mines, appointed to decide the question of an advance in the scale of miners' wages in the Belleville district, met at East St. Louis and made a report favorable to the scale asked for by the miners, providing that the using of "top scales" at the mines is ignored. Miners met and agreed to accept the conference report. It is said that the adoption of the new scale will raise coal 2 cents a

bushel. Four covered wagons were driven into the jail yard at Chicago Monday morning. When the big gates were swung open to allow the vehicles to depart half an hour later the wagons contained forty-five prisoners on their way to Joliet and Pontiac. This breaks all recores at the Chicago jail. Never before, according to the jail authorities, was there such a jail delivery in a single day. The aumber to go to Joliet and Pontiac Monday was originally fixed at forty-seven. Bu Mattie Smith and William, alias "Mutton," Johnson were wanted as witnesse in cases set for trial, and they were not

taken to Joliet. Hip Sing Lee, a wealthy Chinese mer-

and his fortune is estimated at from \$50,000 to \$100,000. Lee has become the oughly Americanized, and as he is getting old it is his wish to see his daughter happily married to some good American who will look after and care for his business and wealth. Lee's wife died about a year ago, and as several attempts have been made to kidnap Moi he is afraid that if Mol does not marry soon the highbinders may succeed in abducting her.

Alarmed at the recent startling discov ery of crookedness in three trusted employes of the National Bank of Illinois and the Merchants' Loan and Trust Con pany, most of the other Chicago banks are examining their books to see if their own clerks have been led astray. The news of the shortage in the accounts of Tellers Van Bokkelen, Jones and Wilson has caused much excitement among bank-ers and their first impulse has been to look for similar discrepancies among their own men. It is said that the recent wheat flurry on the Board of Trade tended to make the bank employes cast longing eyes on the gold that passes through their hands and it was this temptation that caused the downfall of the three tellers who have been found guilty of embessle

Passenger train No. 2, on the Wisconsin Central Road, Conductor Whitney and Engineer Blaine, was held up by armed men at 9:15 Thursday night in a swamp three miles west of Waupaca, Wis. The engine and baggage car were ditched by pulling spikes. Ties were piled on the track. The passenkers were not moisted by the robbers, only terrified by bullets which were fired through the coaches. Twelve sticks of dynamite were exploded on the safe without getting any booty. Conductor Whitney says there were ten or a dozen men in the gang. Twelve attempts were made to blow open the safe— at least that number of sticks of dynamite was exploded, and the passengers occupying two sleeping cars were in a demoralized state. The cannonading in the express car made a frightful noise.

The schooner A. W. Comstock, Capt. William McArthur, foundered off Stannard Rock, Lake Superior, at 7 o'clock Monday morning. Her crew of eight men took to the lifeboat and were tossed about in the tremendous seas until 10 o'clock, when they were sighted by the steamer John J. McWilliams. The Mc-Williams immediately went to their rescue, which was a most difficult matter. A heaving line had to be thrown to the lifeboat from the steamer, and the men hauled from the lifeboat to the deck of the McWilliams one by one, through the boiling sea. Capt. McArthur was badly hurt, having one leg and three ribs broken. The Comstock had on board 51,500 bushels of wheat from Duluth for Chicago. She was a new boat, having been in service but three months. She was built by Smith & Sons, of Algonac, Mich. measured 778 net tons, was worth \$45. 000 and was insured for nearly that amount. The schooner Queen City went to pieces on Hog Island Reef Monday. Her crew were rescued by the Beaver Island life-savers, after a terrible night in the rigging.

SOUTHERN.

At Winchester, Ky., B. Fulton French has been indicted for the murder of Judge Combs.

At Eagle Pass, Texas, in 1887 Encarnacion Munose killed his wife by cutting her throat from ear to ear, cut off the head of a man who interfered, and then stabbed his cousin. He escaped, but has just been captured in Crockett County, Texas.

Sunday J. J. Worrell, editor of the Jackson, Tenn., Dispatch, and his little nephew were severely burned by the ex-plosion of gas. Mr. Worrell and the boy went into a room and struck a match and an explosion followed, the gas having been turned on without their knowledge. Though severely burned, their condition is not serious.

A wounded lazador in the Mexican village and a prominent Atlanta man lying at the point of death in the Grady Hospital are Tuesday's results of two sensations which developed some time during the night in the misty mazes of the Midway at the Atlanta exposition. Women were, of course, at the bottom of it all. Both men had been badly cut-one in a regulation duel with swords, the other in a common, every-day cutting scrape.

The negroes of the Oak Grove settlement, near Camilli, Ga., assembled at their church to spend a day in religious worship. Each of the families carried a basket, and dinner was spread for all who would partake. Before the meal was over several left the table on account of violent sickness. Forty-one in all were poisoned, and six have died, with the chances against several more. It is thought that pies baked in tin plates two days before caused the poisoning.

Mrs. Nellie Reach, a white woman, was arrested at Nashville, Tenn., and locked up for breaking into a house and stealing a watch. The story is a pitiful one. Some months ago she and her husband, with an infant child, went to the city from the country. They failed to get work and they were in a starving condition. Made desperate by hunger she entered her neighbor's house and took a watch, which she pawned for a pittance and bought foods She acknowledged the deed, and it is

thought she will not be prosecuted. Lying upon a cot in Lookout Inn-upon historical Lookout Mountain-is Governor Wm. H. Upham, of Wisconsin. suffering with a fractured leg, the result of his he roic action Thursday in saving the lives of his wife, daughter and the latter's female companion. Major Upham and some friends elected to climb Lookout in carriages over the old mountain road, to avoid the heat of the crowded cars. When part way up the horses acted balky and threatened to hurl vehicle and occupants down the cliff. Major Upham sprang out to check the animals, and in doing so tripped over his daughter's dress and broke the small bone in his leg. Dr. S. B. Plummer, declared that Major Upham's injuries were serious, set the fractured bone and prescribed absolute rest for three days and crutches thereafter for as

Friday, the last day of the exercises at Chickamauga Park, was the most spectacular in its events of any during the dedication week. It was the first time that the center of interest has been in the city of Chattanocga itself, and so developed the first opportunity of getting some tangible idea of the crowds that have een attracted thither. It afforded the first opportunity the people of Chattan-ooga themselves have had of meeting their guests en masse, and neither guests nor hosts were disappointed in the meet-ing. The parade in the morning was wit-

dent Stevenson presided over the closing exercises. Speeches were made by May-or Ochs, Senator Ball of Tennessee, Gen. Grosyenor of Ohio, and others. Then the exodus began, and the celebration was over.

FOREIGN.

Maurice Block, of London, has been married to Caroline, daughter of A. M. Forbes, of Chicago.

Cuban leaders have elected Bartole Masso President of the Cuban republic Marquis of Santa Lucia, Minister of In terior; Tomas Estrada Palma, Represen tative of the Government in the Exterior, and Maximo Gomez, General-in-

All except \$2,500 of the \$77,500 which Great Britain exacted from Nicaragua in May last for the expulsion of Consular Agent Hatch and other citizens of Great Britain who had been accused of in-trigues hestile to the interests of the re-public has been paid over to the men who

A dispatch dated Monday, via New York, sent from Havana by steamer four days earlier to a Chicago paper says: "Armed parties of revolutionists are already in the Province of Matanzas and actually within seventy-five miles of the city of Havana. For a long time this will be denied, and as news of other attacks are received they will be either suppress ed or twisted into stories of mere predatory bands of evildoers, having no real connection with the revolution, until the facts become impossible of further con-cealment. The west end of the island will soon be the scene of an uprising. This seems improbable, but it is reported on the best authority.

News of a battle, in which the Spanish were defeated by the Cubans and lost 300 men, was received Monday, at New York, It came in a letter written Sept. 14 by Pedro Rovira, a Spanish private who deserted to the Cuban ranks at Pera Lego when Campos was defeated. In a later engagement Rovira was captured by the Spanish, court-martialed and shot. The Spaniards were greatly incensed against him, as he had killed three of their men before being captured. The Cubans had no cavalry, but made effective use of dynamite bombs, which, the letter says, struck terror to the enemy. In the engagement the Cubans' loss was forty men wounded and killed. The Spaniards lost over 300 men, forty horses and a large store of provisions and munitions of war.

IN GENERAL

R. G. Dun & Co.'s weekly review of trade says: "In spite of gold exports wheat advanced for some days, in all nearly 2 cents, mainly because a single speculator bought. Corn rose and fell in sympathy with as little reason. Good reports of foreign crops, weakness of flour in Minnesota, and large exports of corn from this country all work against a rise in wheat, though scarcity of contract grades may help a speculative advance. Pork products have been reasonably yielding, with prospects of a large crop, but before the close had a stronger tone. The cotton market, lifting and falling a fraction each day alternately, shows no settled tendency. The surprising increase in production and advance in prices of iron seem to be bringing a natural check, as prices have gone so high as to cause some purchases from Europe, both of pig and finished products, and have also caused a distinct

shrinkage in home demand." The following is the standing of the clubs in the National League:

DYNAMITE MINE WORKED MAR-VELOUSLY WELL.

Destroyed One Hundred Spariards-Money for the Orient-Pension List Increased a Thousand Last Year-Judge Teller to Lead.

The Spanish newspapers at Havana are again giving accounts of Gen. Jose Maceo's death. He is known to be suffering from rhoumatism, which prevents him from riding on horseback, but letters have been received from him written two days after the battle of San del Indio, in which he ways his beatth is variely in Spring a Mine. which he says his health is rapidly improving. In one of his letters Jose says the Spaniards had about 200 men killed and wounded at the battle of San del Indio, and when they were retreating were met by some of Antonio Maceo's cavalry, who had set a dynamite mine in the road where they had to pass. The mine worked marvelously well, exterminative about 100 men. Over an area of ating about 100 men. Over an area of fifteen miles pieces of human bodies were found afterwards, while shreds of fle and skin could be seen hanging from high trees and vines.

Gained About a Thousand Names. A year ago Commissioner of Pensions Lochren said that the limit had probably been reached in the number of pensions, or rather in the amount to be yearly appropriated for pensions, and that for two or three years the payments would remain about the same. It was his opinion that there would be a slight reduction in the number of pensioners on account of deaths, but that the allowance of new pensions, with back pay and arrears, would probably keep the amount about even. While the amount of money paid for pensions will not be materially different there has been added to the pension rolls during the last year about a thousand names in excess of those that have dropped out, so there has been an increase instead of a decrease. There have been a great many outstanding pension claims adjusted during the year, and that accounts for the large increase. The year has not been very fatal to pensioners, the death rate being less than would be anticipated at the time of life at which the veterans of the late war have arrived.

Over \$3,000,000 Shipped. When the Pacific mail steamer City of Rio de Janeiro sailed from San Francisco for China and Japan with passengers and merchandise she carried away the largest amount of treasure which has been taken to the Orient in over two years. The total amount from the various banks and Chinese merchants netted \$1,134,200, of which sum \$905,400 was in Mexican dollars and \$227,000 in silverbullion. This sum will bring the total amount of treasure exported to China and Japan in September to a figure exceeding \$3,000,000. The Coptic, the last steamer to sail, carried over \$1,000,000.

New York Democrats in State convention at Syracuse placed in nomination the following ticket: Judge Court of Appeals. . . . Judge Teller Secretary of State. Horatio C. King Comptroller.....John B. Judson Attorney General Norton Chase

BREVITIES.

According to a London report James Gordon Bennett will soon wed Mme. Annekoff, widow of the Russian general who constructed the Trans-Caspian Rail-

road. Little Pipe, the famous Chippewa Indian chief, supposed to be one hundred and eight years old, was drowned in Beaver Dam Lake, Wisconsin. His canoe was capsized and he was too drunk

Dr. Robert Battey, the noted surgeon, is dying at Rome, Ga. As originator of an operation that now bears his name Dr. Battey gained great prominence. He has been successful in a number of difficult surgical operations, using methods original with himself.

A special dispatch from Shanghai says that 30,000,000 taels in silver have been deposited at Shanghai by the Chinese Government with which to pay the supplementary indemnity required by Japan as a consideration for the evacuation of the Liao-Tung Peninsula.

Two men, named Westfall and Barrett, were out sailing at Oswego, N. Y., in a small skiff, which was capsized. Barrett, who was an employe of the Silver Metal Works, was drowned. Westfall held on to the overturned boat until he was picked up by a schooner.

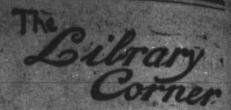

By the explosion of a lamp in the dwelling of Leon Kuchinsky, at Pittsburg, two daughters of Kuchinsky, aged six and eight, were, it is thought, fatally burned. Dr. L. S. McDonald, who rescued the children from the flames, was severely burned and will probably lose the sight of one eye.

At Nashville, Tenn., work is progres sing rapidly in preparing the site for the Tennessee Centennial Exposition buildings, and Oct. 8 the corner-stone of the art building, a reproduction of the Parthenon at Athens, will be laid with appropriate ceremonies. A large attend ance of prominent people from all parts of the State is expected.

At Norton, Kan., Morgan Heaton made a desperate attempt to kill J. M. Craig. a Plattsmouth, Neb., banker, and failing yellow, 35c to 36c; oats, No. 2 white, 24c turned his revolver on Cashier W. T. Shoemaker, of the Norton State Bank. The bullet directed at the latter also went wide of its mark, and Heaton was finally arrested. Family affairs caused the trou-

> The President has granted a pardon pecause of the prisoner's ill-health to L. A. McKnight, sentenced to ten years' imrisonment in the Indian Territory for arning a stack of hay belonging to the United States.

The Spanish Government has decided to send hereafter only veterans to Cuba for the suppression of the insurrection

Canadian poet, has written a short opular history of Canada. Two years of work have been given to it. Sir Walter Besant began his career as a college professor, and it was due to Ill-health, of which there is now no

trace, that he turned his hand to novel-A selection has been made from the apublished letters of Dean Stanley for ublication. The letters were addr ed to members of Stanley's family, to Dr. Jowett, Mrs. Arnold, Dr. Vaughan Sir George Grove, and the Queen

George Meredith was reader to Chanman & Hall when Thomas Hardy be gan his career as a novelist, and the latter declares that he was much encouraged when his manuscript was read and pronounced "promising" by the author of "Diana of the Cross.

Miss Montresor will soon publish a new novel which she intends to call "The One Who Looks On," and peops are wondering whether she can repeat the success of "Into the Highways and Hedges." She also has in hand another novel, which she proposes to entitle "Monsieur Morezes."

A. J. Balfour has in his country home a big and lofty study, where all his literary work has been done. It is full but not overfull of books, and a conspicuous object is a splendid grand piano, whereon the author of "The Foundations of Belief" is accustomed to wreak his idealistic moods. Mr. Ralfour is sometimes eard playing on this piano at two o'clock in the morning.

W. H. Mallock has been at it again. Years ago he wrote a clever little burlesque, "The New Republic," in which well-known people were happily travestied. In "A Romance of the Nine teenth Century" the same photography was conspicuous. And now, in "The Heart of Life," the portraits are more audacious than ever. More than one well-known figure in society is represented in circumstances at which the reader may stand aghast. Mr. Mallock has availed himself freely of matter collected from the newspapers. When Samuel R. Crockett, the Scotch

novelist, was a student at Edinburgh University, he lived on nine shillings a week, and lodged in the garret of an old house. His life was vigorous and there is a trace of it still in his habit of rising before dawn. Mr. Crockett is out of bed and at his desk before five in the morning, and by the time a man in mercantile life is on the way to his office he has done a day's Six hours' sleep is all he takes, and the long day from ten in the morning till eleven at night is his own to do with as he pleases.

"Nana Sahib."

An English magazine tells her curious story. She was an ugly painted wooden image which a soldier took years ago from a poor heathen in India. The. man had tried to kill the soldier and, I suppose, had been killed in return. At any rate, the soldier took his horrid little idel from him and brought it to his little niece to play with.

Ugly as it was, the child seemed to fancy it for a dolly, and it became one of her treasures. She named it "Name Sahib."

When she had become a woman and thought no more about dollies, one day her mother thought that ugly Nana Sahib had been lying around long enough, and decided to make her useful for kindling the fire.

The creature's eyes seemed to be made of clay, but a blow from the at made the clay scale off and show two bright red beads which were found to be rubies. Then it was discovered that the image was hollow and stuffed with gold. More than \$400 worth of money had been hidden all these years in the wooden "dollie!" I wonder what the mother did with the money? The article did not state. What do you think she ought to have done?

Making of Perfumes.

It is an interesting thing to know that 4,200 species of plants are gathered and used for commercial purposes in Europe. Of these 420 have a perfume that is pleasing and enter largely into the manufacture of scents, soaps and sachets. There are more species of white flowers gathered than of any other color-1,124. Of these 187 have an agreeable scent, an extraordinary large proportion. Next in order come yellow blossoms, with 951, 77 of them being perfumed. Red flowers number 823, of which 84 are scented. The blue flowers are of 594 varieties, 34 of which are perfumed, and the violet blossoms number 308, 13 of which are pleasantly odoriferous.-New York World.

Wooden shoes in France are produced to the extent of about 4,000,000 pairs yearly. They are made in Alsace and Barrier by machinery and Lozere by hand. In the last name province 1,700 persons are engaged in this manufacture, and the yearly prodnct is more than half a million pain. The best are are made of maple; in the provinces nearly every lady possesses a pair of the finer sabots for wearing out in damp weather. These finer sa bots have monograms and other de signs carved on the vamp, and they at kept on the foot by ornamental les pieces over the instep. The mann ture of these pieces of leather is a res

Mrs. Adam Streit, an aged Gorman who trundles a wheelbarrow woman who trundles a wheelbarrow about Adrian, had a narrow escape. While cutting grass on the river flats while cutting grass on the river flats she felt something entwine itself around her bare ankle. A stinging pain followed, and she saw a snake on her foot. Mrs. Streit struck at the snake with the sickle and not only cut off the serpent's head but made a big slash in her ankle, severing two veins. She promptly sewed up the wound and walked home. Although she was slightly poisoned she is now as

Has Lived One Hundred Years, The oldest inhabitant of Tuscola County, if not the oldest in the State, has just celebrated her 100th birthday. To everybody who knows her she is Grandma Husted, and scores of people called to congratulate her on the completion of a century of life.

Grandma Husted was born in Scotland in 1795. Her maiden name was Sarah Siris. She went to England with her parents when 5 years old. In 1817 she was married to John Alard, and five children were born to them, but none of am are now living. In 1827 her hushand died and she was marrried again in 1830 to Peter Husted and they came to America in 1835 and settled at Ning-

ara Falls, N. Y., where they lived until 1859, when they moved to Tuscola County and settled in Watertown Township, near Mayville. Grandma Husted was the mother of twelve children by her second husband, and seven of them are now living. Mrs. Husted has been a resident of Mayville for the past ten years. She is in the best of health and bids fair to live in three centuries. The portrait accompanying this sketch was taken three years ago.

Poison in a Peach.

In order to be avenged on a bicycle rider who accidentally ran into her baby carriage an unknown woman made a desperate attempt to poison Bert Becker, a clerk in Bay City. About two weeks ago a woman came to Rosenbery & Sons' store, and to several other stores, looking for the man she claimed had struck her baby buggy, throwing out the child and injuring it severely. She finally settled on Becker as the man who had injured her child and dramatically threatened to get even. While Becker was sitting on the delivery wagon a woman came up to him with several peaches in a basket and offered him the most luscious one in the lot. He accepted it and the woman disappeared immediately. Becker was surprised to find the skin cut in one place. Further investigation showed that a part of it had been removed and the hole filled up with precipitate mixed with arsenic. The police are looking for the woman.

Eucs Her Faithless Lover.

Mary Horigan, a pretty Owosso lass not yet 20 years of age, and Albert Jebb, a cabinet-maker, were sweethearts. Such implicit confidence did Mary place in Albert's word that she alleges she trusted him with a \$5 umbrella, an \$8 ring and \$4 in cold cash that she had laid by. At last when Mary realized, so she says, that Jebb had made a dupe of her she made a proposition to settle, stating that if her former sweetheart would but return the property and borrowed cash that she would make no mention of the affections she had loaned him. Jebb spurned even so generous an offer, and Mary has begun suit for a settlement.

Paid Her Only \$140. The late S. W. Hamilton, of Port Huron, who died several months ago, carried a policy for \$1,000 in the Old People's Mutual Insurance Company, of Elkhart, Ind. Shortly after his death representatives of the company paid Mrs. Hamilton, the beneficiary, \$140, stating that that was all there was due on the policy. Since then Mrs. Hamilton has visited the headquarters of the concern at Elkhart and demanded the full amount of the policy, but received, she says, very little satisfaction. It is claimed that Mr. Hamilton, in his lifetime, paid the company nearly \$500.

Short State Items. Right of way has been secured for an electric railroad from Ann Arbor to De-

Mrs. John Jackson, of Port Huron, was severely burned Thursday by the igniting of some gasoline which had

leaked out of the reservoir. Orson S. Jennings, a highly respectable pioneer of Genesee County, died at Flint Monday morning. Until three years ago Mr. Jennings was a model farmer of Gen-

esee township. Deceased was 70 years old and had been a resident of Genesse County for forty-five years past. During the absence of Mrs. S. S. Haines, of Battle Creek, from home a

purse and \$11 in money, an \$8 pair of spectacles, shirts, gloves, etc. He made his escape.

George Peppet, the engineer, who was is a new woman of the courageous type. Is a new woman of the courageous type. Is a new woman of the courageous type. It is alleged that her husband, a colored limited, Friday, died at Marshall from internal injuries. At the wreck Mr. Peppet acted the hero, sticking to his post to the last minute. While pinned under the wrecked engine, suffering agony, he bravely directed the men who were clearing away the debris.

Girard has a school ma'am that walks four miles each day to her school, receiving for her salary \$15 per month.

Daniel Richards, of Pinckney, is picking a very small second crop of strawber-ries. They are of good size.

J. N. Cross, of Ypsilanti, aged 65, was thrown ont of his wagon, striking on the back of his neck. He will die. A gang of Flint hoodlums pelted bicycle riders in a lantern parade, injuring two ladies so severely they had to drop out. William Francis' barn, with all its con-

tents, was detroyed by fire, near Munger. His 6 months' old child died the evening before

Martin Smith, who left Bay City last May to work in a West Virginia sawmill, was recently thrown from a log carriage

R. D. Lee, a farmer near Baneroft, reports a yield of 742 bushels of oats from a field of 8% acres, an average of 85 bushels per acre.

Traders' mine, Iron Mountain, burst. Antoine Frank, a trammer, was killed by fly-

Lightning shattered the flag staff of the Sualt court house and shocked Judge Steere, County Clerk Webster and others. Torrents of rain flooded the streets. Jackson prohibitionists are so disgusted

at the laxness of churches in dealing with the liquor traffic, that they talk of starting a prohibition church of their own. Ann Arbor people with chronic ailments

claim to have been cured by riding through the woods on the electric cars, absorbing some kind of mysterious cur-

Gladstone, in Delta County, will issue bonds to the extent of \$12,000, the proceeds to be used in street improvements. and the construction of an electric lighting plant.

The little daughter of George Schutte, of Calumet, pulled over a big pail of saurkraut standing on the kitchen table, and was so badly burned that she died a few hours later. The work on the roadbed of the Toledo

and Ann Arbor Railroad is being pushed, and when the work is completed the road will be in first-class shape. The shops at Owosso will also be greatly improved. The stockholders of the syndicate that proposes to build the big water power at

declare that work on the canal will begin next spring. They are busy purchasing Ex-Attorney General Ell's went to Bessemer armed with an execution directed against the Gogebic and Montreal River Railroad Company, a branch of the Wisconsin Central Railroad, for the collection

taxes for the year 1890. A terrific cyclone at Pinneboy blew down the residence of I. Obl, killing three children and injuring the parents. At Kinde two children of Richard Tott were killed. At San Beach and East Tawas as a brave man, he had no opportunity men. great damage was done, and at Alpena an unknown schooner and crew were lost.

Two masked men entered the front door of the Smith Hotel at Hillsdale about 12:30 Tuesday night and, with drawn revolvers, ordered the night clerk to hold up his hands. They demanded his and the hotel's money. One man kept the clerk covered, while the other went through drawers and shelves in the office, securing \$10 from the till, and through the clerk's pockets, taking his watch and chain and about \$5 in money.

William E. Leonard, an old lawyer of Port Huron, who is somewhat eccentric, has presented the public library with a complete set of Thomas Paine's works. In each book a photograph and the following inscription are found: "This book is presented to the public library by William E. Leonard, whose shadow appears above, with the request that all who read this work use their reason, then give Thomas Paine the credit of being the greatest man of the American revolution."

In less than two weeks little Eddy Thayer, 7 years old, has stolen four different rigs from hitching posts at Jackson and has been as many times caught and has been locked in jail twice, but afterward given his liberty. He stole a rig Monday afternoon belonging to Mrs. Charles McCallum, living fourteen miles distant in Rives, and was caught with it by Deputy Sheriff Smith o' Panama, ten miles west of the city. The common prosecutor has failed to find a law which provides for punishing so young a crim-

As the result of a fire at Alaska Tuesday night there is but one store . ift in the village. The larger buildings were owned by County Treasurer S. T. Colson, whose loss is \$3,000, with no insurance; John Forbes, John King, William Glascow and Joseph McKee, whose losses will aggregate \$6,000. The fire was undoubtedly of incendiary origin and the town could get no aid in time to save the buildings. Alaska is eighteen miles south of Grand Rapids.

At Ann Arbor the Hamilton amendment proposed by the General Conference of the Methodist Church, which would bar women from the general conference, was defeated in the Detroit conference by a vote of 164 to 3. At the same time the amendment proposed by the Baltimore and Colorado conferences, providing for the admission of women, was carried by a vote of 185 to 9, a sweeping victory for the women. The question of dividing the conference was voted down unanimously. Adjournment was taken, the conference deciding to go to Flint next year. The principal appointments are: Dr. C. M. Cobern, Ann Arbor; E. B. Bancroft, Adrian; Joseph Frazer, Monroe; Mathew C. Hawks, Bay City; C. B. Steele, West Bay City; W. F. Sheridan, Tabernacle, Detroit; S. W. Homer, Simpson, Detroit; Arthur W. WILLLIVE IN MEMORY

DEEDS OF FARRAGUT, THE GAL-LANT SON OF TENNESSEE

He Performed Heroic Feats for His Country During the Civil War-None Supposed Him Possessed of Brilliant Genius Until Already Famous.

Hero of Mobile Bay. One of the men of whom this country may well be proud and to whom is due a debt of gratitude which can never be paid is Admiral Farragut, whose life was devoted to fighting for his native land, and who devoted his whole existence to her welfare. Writing of him Rossiter Johnson says: "When we remember how other commanders merely The fly wheel of the ore crusher at the fought line against line in simple though courageous

fashion, while he contended with casemated forts. firerafts, fleets and hidden torpedoes, all at once, and conquered them all,

we can hardly re-ADMIRAL PARRA- fuse to pronounce him the greatest naval commander the world has ever

David Glasgow Farragut was born at Knoxville, Tenn., in 1801. His father was a naval officer and a very gallant man and, doubtless, from him Farragut inherited those qualities which went to make him famous. Before he was 10 years old Farragut was made a midshipman, for he was from birth destined for life on the sea, and made his first trip on the ship Essex. On this voyage he first made himself conspicufor promotion.

A Youthful Commander.

the Soo have been visiting the town and On the next voyage to the coast of of about \$5,000, due the State for specific port.

lowing years he sailed almost over the spring to their deadly work."

river between Port Hudson and Vicks urg, established a blockade of the Red River, and thus intercepted sup-plies from Texas for the Confederate Battle of Mobile.

In the following summer, 1864, Far-ragut began an attack on Mobile. He

led his squadron past the entrance to the bay, and once within engaged and vanquished a Confederate fleet of fronclads, winning a victory second only in importance to that which resulted in the taking of New Orleans.

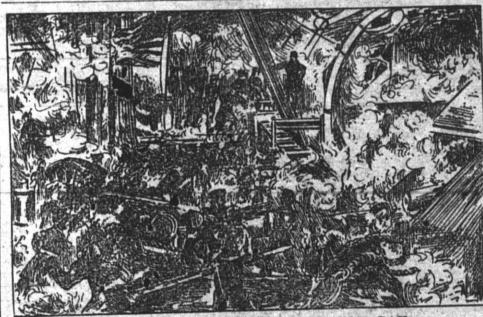

THE FARRAGUT MONUMENT, MADISON SQUARE, NEW YORK.

In this battle Farragut lost one ves sel, the Tecumseh, by a torpedo being ous by discovering to his commanding exploded under her, which sent the officers a mutiny. At the conclusion of ship and all on board to the bottom. the voyage the commander, Commodore | Another vessel barely escaped a whole Porter, commended "the lad Farragut" nest of torpedoes, but these things did and regretted that he was too young not cause Farragut to falter a moment from pressing onward.

He watched this fight lashed to the shrouds, so that he might have a good Cuba to war with the pirates Farragut view of the whole spectacle. In his captured one vessel and was ordered report he spoke with great generosity to take her to Valparaiso, the original about his men, commending them all. captain to navigate her After the ves- In part he said: "I witnessed the terrisel had started the captain refused to ble effect of the enemy's shot and the obey the 12-year-old Farragut's orders, good conduct of the men at their guns; whereupon the boy confined him in the and although, no doubt, their hearts cabin and alone brought the vessel to sickened, as mine did, when their shipmates were struck down beside them, From this time on Farragut rose from | yet there was not a moment's hesitaone position to another, and in the fol- tion to lay their comrades aside and

really to show of what stuff he was | In November of this year Farragut's made till he was 60 years old, when the health began to fail and he was ordered civil war broke out. Though born in home. He was received with great the South, his sympathies were with honor; Congress again thanked him, the the North, so when the conflict really office of vice-admiral was created for arose he threw his lot with that sec- him and he was given a purse of \$50,tion.

At New Orleans.

Farragut's first orders were received Jan. 20, 1862, when he was told to head the expedition sent to capture

New Orleans and open the Mississippi River. On reaching the Gulf of Mexico Farragut first arranged a blockade of the whole coast, after which his fleet entered the Mississippi. He began bombarding the enemy's forts, but made little headway, and at last on a the night of April squadron to get

under way, and, delivering broad- FARRAGUT'S GRAVE. sides at the forts, [Woodlawn Cemetery. ran past them as swiftly as possible "under such a fire," he wrote, "as I believe the world has

mirals. deavor, though he lost several vessels battle is largely dependent upon him on the way by means of the enemy's as the commander?"

000. Later still, in 1866, he was made admiral, for the Government felt that brave a patriot.

In 1867 Farragut started on a Eurorecipient of most flattering attentions. But his health, already broken, continued to fail. He returned home in 1870 and died at Portsmouth Aug. 14, that same year.

Farragut occupies a unique position all his own. The world has not lacked examples of men who have accomplished their noblest work after the three score and ten years of human life, but these have been men already distinguished. With Farragut it was otherwise. Here was this man living quietly for sixty years, differing apparently in nothing from his fellows, following the hum-drum course of existence, nor giving any sign of the divinity with: him. But when his time had come, when the predestined hour sounded he burst forth, glowing with the fire of genius like some splend'd star before all men's eyes. This it is which is his and his alone; this it is which makes never seen." But passing the forts him one of the most striking figures in

How Grant Felt in Battle.

"General Grant," Senator Elkins went ammunition at his command. He next on, "was a great big man. The closer silenced two formidable batteries just you got to him, the bigger he grew. He below New Orleans, and then made was a broad gauge man in every sense for the city, which at once surrendered of the word, and entirely unselfish, and to him. In this wonderful passage Far- with all his greatness he was the soul ragut's fleet received 165 shots, 37 men of simplicity. One day, as we sat on my porch chatting and looking out over the mountains, the thought of his great deeds in war came to me, and I asked: "General, I want you to tell me how

was placed first on the list of rear ad- a great man feels when he is in the midst of a battle which is to decide In March, 1863, Farragut attempted perhaps, the fate of a nation, and make with his fleet to reach Vicksburg, a mark in history for all time, knowing which he had tried to do once before as he does, that the world is looking without success. In his second en- on, and the success or the failure of the

FARM AND GARDEN.

BRIEF HINTS AS TO THEIR SUC-CESSFUL MANAGEMENT.

Comfortable Scat Designed to Be Attached to Agricultural Implements-Convenient Crates for Handling Fruits and Vegetables.

Crates for Fruits and Vegetables. Crates that are indispensable are each year coming more and more in demand, for either handling, storing or shipping. Barrels cause harsh treatment, and are not convenient for rapid work where a delicate touch is required, while crates present a more shallow depth and larger open surface. As they

can be piled on each other, quantities of crates occupy no more space than barrels and frequently not as much. A crate is easily handled by two persons, and allows air to circulate freely between its contents (doing away with the need of bins, barrels, etc., through which air cannot readily pass), and the essential requirement of sweating is obtained. The crates may be piled one above another in the cellar or storehouse and the fruit moved from one place to another with great ease. Make crates to fit into the wagon box, and an astonishing quantity of stuff can be handled at a load. But these rectangu-

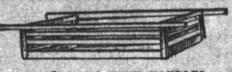

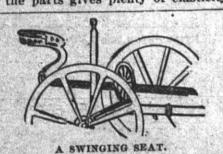

FIG. 2. CRATE WITH HANDLES.

lar crates will not "nest" into each other so well as when made in the shape suggested in Fig. 1, which is a decided advantage. These can be made larger and with handles, or handles put on the usual form (Fig. 2), for quick carrying short distances. Handles may be rigged with hooks so as to be instantly removable instead of being attached to the crate.-American Agriculturist.

Bursting of Cabbage. The bursting of growing cabbage may very easily be prevented by selecting the heads which show signs of bursting, and starting the roots by pulling or cutting off some of the root with a hoe. The pulling process is preferable. Putting both hands under the head, says the National Stockman, pull until many of the roots are loosened and the plant is pushed over to one side. This atment effectually stops the bursting, and not only that, but the cabbage continues to grow lustily; but I have the gratification of seeing heads thus treated grow to double the former size and weight, and all due to this starting the roots, which checked the growth enough to prevent bursting, but not enough to hinder further development. There is no excuse for allowing cabbage to burst when so effectual means are at hand to prevent it.

A Swinging Seat. The Scientific American illustrates the seat here described. It is intended to remove the discomfort to the rider that comes from the motion of the machine and the inequalities of the ground. It may be adjusted to suit riders of different weights. The cut shows how the device is arranged. A hoop or bow spring is mounted on either the front or the rear axle, and through it passes a beam supporting the seat on a spring shank at its rear end. The forward end of the beam too much honor could not be given so passes through a sleeve on the tongue or the reach. By means of a set screw or pin the sleeve is adjusted to suit the pean cruise and at every port was the | weight of the rider. The arrangement of the parts gives plenty of elasticity

on even rough ground, the seat remaining level and comparatively unaffected by the motion of the machine.

Got Rid of Wild Oats. Wild cats are a great nuisance in many sections. To get rid of them on stubble fields, plow the land as soon as the small grains have been removed. The seed already shed will germinate, and the young plants can be killed by a second plowing; or by running over the field with a corn cultivator or disk harrow. If the oats occur on sod land, break the ground in June or July, and prevent any maturing of seed by stirring the soil. The weather so far this season has been moist, thus causing the seeds to germinate quickly, and making it possible to get rid of them soon.

A Disgusting Practice. Any one who uses a stale egg for a nest-egg takes a very great risk compared with the advantage gained, if any advantage is known, for the reputation of a very careful person may be damaged for a slight mistake. To sacrifice a reputation for the sake of using a stale egg for the nest, instead of an artificial egg, is mistaken economy. Stale eggs have done more to keep downprices of eggs than all other causes, as they will turn up when least expected in

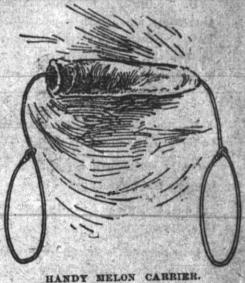

Lime on Grase Land.
Lime may be applied advantageously on grass land in the fall, says the Counry Gentleman. If the land is already full of vegetable matter, it is probable | the country.

that the lime will do great good. Forty bushels was considered a fair dressing in former years, but now ten to twelve bushels per acre is considered the most economical application. Buy stone or unsiacked lime, place it in small piles of about five bushels each at regular intervals over the field and cover slightly with earth, allowing the rain and the moisture which rises below to slack it.

An interesting experiment in turni large farms into small holdings, which may help to solve the agricultural problem in England, was recently compl in Dorsetshire, according to the English Magazine. Sir Robert Edgecom seven years ago bought a farm of three hundred and forty-three acres, spent money in building roads and wells, divided it up into twenty-five holdings of from two to thirty-three acres, and offered them for sale, payment to be made in ten equal annual instalments. Purchasers were readily found of all trades and classes, eight only being agricultural laborers; and all the instalments, with light exceptions, have already been paid off. Instead of a farmer and three laborers, there are now twenty-five families of seventy-five persons on the land, which has increased in value from £170 to £313 a

Feeding Hens. It is not a good plan to keep food before a flock of hens all the time. If this is done they will get fat and lazy, and not take enough exercise to keep them in laying condition. It is the best plan to have a fixed time for feeding fowls, especially at night, and not feed them at irregular intervals. If they are fed about the same time every evening they will soon know when to come for it, and will be content until that time. If feed is thrown to them at all sorts of times they will come rushing around you as soon as you make your appearance, and a good many of them will stay close to the house all day in expectation of being fed. The best way to feed hens in the summer is to feed them in the morning, and again just at night, and not give them anything to eat between times. If kept confined they will be fed at noon, of course.

A Melon Carrier. A little device made of wire with a wooden handle, which some city dealers supply their customers for carrying home melons, is especially convenient. Country people can make one with material at hand which is equally effective and costs next to nothing. The one shown in the illustration may be taken as a model. It consists simply of a

piece of ordinary wire, which can be of any medium size, but is better if not very large. This is cut the desired length and run through the pith of a corncob, which, when the whole is completed, forms the handle. After the wire is passed through the cob turn the ends above to form loops as shown in the cut. Slip these over the melon, draw them tight and a very handy melon carrier is the result.

To Prevent Rust on Tools. A Canadian recipe for the preservation of tools from rusting is as follows: Dissolve half-ounce of camphor in one pound of melted lard; take off the scum, and mix in as much black lead (graphite) as will give it an iron color. Smear the tools with this mixture, and after twenty-four hours, rub clean with a soft linen cloth. Another coating is made by mixing slowly six ounces of lard to ten ounces of resin, and stirring till cool. When semi-fluid, it is ready for use.

Apples that Go to Waste. Professor Maynard says: "Many thousand bushels of apples go to waste which, if taken in time, might be dried with profit, or could be profitably fed to stock. Analysis shows a food value in apples for cows and horses of from ten to twenty cents per bushel. Aside from this food value, the fact that the insects in such fruit are destroyed in such using makes it of great importance."

Stock Gotes. Hold fast to your mutton sheep.

A good sheep is a good friend to the farmer. Do not abuse him, even though he is not on top just now. No farmer can afford to be without

hogs, but they should be good ones. If the hog house is kept clean it is necessary to have an outside pen for the manure.

The Butchers' Journal advises 200 to 250 pound hogs, giving hams weighing ten to fifteen pounds.

New York farmers estimate leave highly as bedding material, and th manurial value alone is placed at \$2

A writer says that the time will most surely come when it will be impossible to sell at remunerative prices an animal having merely the name of sheep, and no quality.

One who has been looking up statistics says the exportation of horses for the iscal year just ended was far in excess of any previous year in the history of BY O. T. HOOVER :-\$1.00 per year in advance.

CHAPTER IV .- (Continued.) "Ah!" exclaimed Aube, raising her face at this revelation, and looking wonderingly in the old lady's face. "It was this necessity which kept her

from coming to see you again and again. If she had done so, she says, she could not have kept you here.' "My mother!" sighed Aube, with her

eyes dilating; and the Superior went on in the same low, sweet voice:

"She says now, Aube, that you are a woman grown, and that she can bear the separation no longer that her heart yearns for you-that she cannot rest until she clasps to her breast all that is left to her of that dear husband who was to her as a god-I give you her own words, my child; and I ought to utter words of reproof on the vanity-the wickedness of a woman giving herself up so wholly to such a love-but-but-but, my darling, I cannot say them now. For it touches me to the heart, Aube, and I can only see the sweet, loving widowed mother there, all those thousands of miles away -stretching out her trembling hands, my darling, her longing eyes strained yearningly to me, as she says, 'I'have done my duty.-I have worked, and watched, and waited-I have done all that he would have had me do, and now that my long penance is fulfilled, give me back my child." The solemn silence was broken now by

laid her head upon its arm. "Yes, my dearest one," continued the Superior, "we poor women here, devoted as we are, have never known a mother's love; but as I read that lever, Aube, I seemed to realize it all. Between its lines there stand forth in burning words all that you poor, patient woman tried to express, and suffer as I may at having to part from you, I know it is your duty to go to her-to go, as she says, at once, for life is short, and I can send you to her, glad in my heart, with the blessings of all here, and say we now send you back the infant you confided to us, a woman now, and as sweet and true and pure as ever

Luce's sobs, as she sank into a chair, and

knelt before God." "Sister Elise! Mother!" sobbed Aube. "My child!"

There was another long pause, and then smiling on her pupil the Superior took the letter, and placed it in Aube's hands. "Take it and read it, dear," she said calmly now-"it is the letter of a mother, of whom you may say, "Thank heaven.

I am her child!" It is a terrible experience, for it is a long voyage, and to a land of which till now I have heard naught but evil. Now I know that there is one there whom I should be glad to call sister, and now there will be one whom I am glad to call my spiritual daughter. Hayti cannot be all bad, Aube, so now wipe away those tears, for the pangs are past, and it is a day of joythe day on which the first steps are taken to rejoin two such hearts as yours." "But, mother, am I to go soon?"

"In a day or two at most. The Consul brought me the letter. He had received one as well, and his orders were to find some good family returning to the island in whose charge you could make the voyage. This might have been months, Aube, but heaven smiles upon the project, and the Consul tells me of a widow lady who has been in Paris a year with her daughter about your age. She, too, lost her husband, it seems, in the war when your father died. This Madame Saintone will be glad to be your chaperon, my child,

her daughter your companion, but-" "But, what, mother?" whispered Aube, who seemed half stunned.

"The mail steamer leaves Havre within a day or two, I hear, and our parting will be very soon." Aube gazed at her wildly.

'No, no," my darling, no more tears," whispered the Superior, kissing her. "Go to your room now, and rest and pray. Then read your letter as I would have you read it. Go, my child. Your true, loving mother, who must have passed through a martyrdom for your sake, waits to press you to her heart. Luce, my

Luce started from the chair, to run forward with her face swollen and convulsed with weeping, to lead her companion to the room they shared. As the door closed Aube flung her arms

about her friend and sobbed out: "Luce! Luce! is it all true?"

Luce was silent, only gazed at her wildly as Aube raised the folded letter to her lips and kissed it passionately. "Yes, mother," she said, gazing before

her, with a wild, far-off look, "yes, mother, I come!" "Aube!" rang out in a wild cry.

"Luce, darling, what are you thinking?" cried Aube, startled by the agony in her friend's eyes. "I was thinking you must not, shall

not go." Aube shrank from her with the letter pressed to her lips once more, and she stood blanched, hard and strange-looking as if she had been turned to stone. "Aube, darling, what will poor Paul

South. They were seated in the broad veranda of a good house, slightly ele-vated and overlooking the town of Port au Prince, and over it, away to sea, with its waters of deep and dazzling blue.

"Now, then, light up. I want to talk to you. Have some 'rack?"
"No; had enough. Talk away."

"Well, look here, then," said Saintone, lowering his voice, after a glance round to see that they were not likely to be overheard. "I've quite made up my mind to join the Vandoux."

"And I've made up my mind not to," replied Deffrard, tilting back his chair; "I'm going to be very good now, and marry your sister." "Tchah!"

"Ah, you may talk and sneer, but what would she say?"

"That you are, as I say, a fool. Who's going to tell her what we do. Suppose I should go and tell my mother as soon as she gets back?"

"But what do you want to join them for-to go to their feasts and dances? Pah! I fancy I can smell the niggers here.

"To go to their feasts, man? Where are your brains?" cried Saintone, bending toward his friend. "Can't you see, boy, that I mean to take a big place in the Government?"

"Yes; you are always talking about it." "Well, to get there, I must have votes." "Of course."

"Black votes are as good as colored, man." "You'll get yourself mixed up with some political rising, and be shot as your father

"Well, that's my business. Now, look here; if I belonged to the Vaudoux sect, and came out pretty liberally to the Pa-

"Papaloi?" interrupted Deffrard, "How did they get that word?" "Papa, roi, stupid, Father King," said Saintone, impatiently.

"Ah! I see; their way of sounding the -roj-loj. "These priests will influence the people on my behalf, and I am safe to be

elected." "Well, yes, I suppose so; but-"Hang your buts! Don't hesitate so. Look here, Duff, you want to marry An-

"Of course. "Well, then, I expect my brother to suport me in everything join once for all with me."

"What, the Vaudoux?" "Yes, and I mean to be initiated at

"And you want me to be initiated, too?"

"Of course." "Oh, very well-that is, if you will back me up with your sister and mother." "Trust me for that; you shall have

"I'm ready, then; but I don't like it. Hang it all, one hears all kinds of horrors about them.

"Old women's tales. There, I'm going through the town. You can walk with me part of the way." "Going over to the priest to see-

ahem!" "Mind your own business. I'm going to take the first steps toward our initiation, so be ready to go any night I warn "But-

"No hanging back; you have prom-

"Yes, and so have you," said the young man, getting up languidly; "but I say, will there be anything to pay. Isn't it something like the foreigners' freemason-

"Nothing to pay, but some bottles of rum, and I'll see to them. Now come along.

They strolled off together down the shaded road leading to the town, passing plenty of suiky, defiant-looking mulattos and heavy-jawed, independent, full-blooded negroes, who generally favored them with a broad grin; but no sooner had they reached the far side of the town, and Deffrard had taken off his straw hat to wipe his streaming brow, than Saintone said in a laughing, contemptuous way:

"There! Go home and cool yourself. Be a good boy and the steamer will soon be here and you can go courting to your heart's content."

"I don't like this Vaudoux business," grumbled Deffrard to himself, as he went one way.

"I can make the fool useful," said Saintone, with a sneering laugh, and he went in the other direction, away toward where the slovenly plantations and the country began with its luxuriant growth, among which hidden here and there peeped out the cottages of the blacks, with their overgrown gardens full of melons running wild, yams, and broad flap-leaved bananas, looking like gigantic hart's tongue ferns.

Etienne Saintone was so devoted to the object he had in view that he paid no heed to a gigantic-looking black whom he had encountered in the narrow track or lane running in and out among squalid cottages, in front of which nearly nude black children basked in the sunshine. But the black turned and looked after him curiously, and taking up an old and battered straw hat, frowned, and slowly followed in the young man's steps as he went on for quite a quarter of a mile, the cottages growing less frequent and su-perior in aspect, more hidden, too, among

All at once Saintone looked sharply round, as if to see whether he was ob served; but as if expecting this, the black had thrown himself down beneath a rough fence, and if in his hasty glance Saintone saw anything, it was that common object of the country, a black bask

ing in the sun. His glance round satisfied him, and he turned off sharply to the left; and, as he disappeared among the trees, the black rolled over three or four times, by this means crossing the track and reaching ong which he, too, plunged and dist TAMMANY IN CONTROL

At the end of about a hundred yards Saintone stepped over the rough fence of a solitary cottage, at whose door a mu-atto girl was seated, idly twisting to ther some thin shavings of cane, to arm a plait. She had seen the white acket of the young man approaching, and had uttered a slight laugh, as he eyes closed till only a glimpse of be dark pupils could be seen, as she watch ed the track in a sidelong way, and begun to hum over a wild, weird ditty, one wel known among the Haytian blacks, an air probably brought by some of their race rout their native Africa.

"Ah, Genle, dear," cried Saintone, as he caught sight of the woman in the

dark, shadowy interior.

"Mass' Saintone?" she replied, with an affected start and look of wonder.

"Yes," he said, laying his hand upon her shoulder. "How pretty you look today. Didn't you see me coming?" "No, sah. I was busy here. What do

yon want?" "What do I want? Why, I've come to ee you, dear.

"Oh," said the girl, coldly. "Mass' Saintone could have come last week-two weeks-three weeks ago-but he never came. Thought you never come again.

"Oh, nonsense! I've been too busy,"
"Yes," said the woman, quietly, "Mass'
Saintone's always very busy; but he came every day." "Yes, and I'm coming every day again dear," he said, as he threw his arm round her and tried to draw her to him.

As he did so there was a faint sound as of a hissing breath at the back of the place, and Saintone looked sharply round. "What's that?" he said.

"Snake or little lizard," said the woman coldly, freeing herself from his arm. "Oh, come, don't do that," said Sain tone, laughing, as he tried again to catch her in his arms; but she eluded him, and her eyes opened wildly now.

"No; go and make love to the new lady," she said, spitefully. "What new lady?" he cried. "Why you silly, jealous girl, I never loved any one but you."

"Lies!" said the woman, vindictively. "It's true!" he cried angrily. "Come Genie, don't be so foolish. "It is not foolish. That is all over. Go

to her." "Why, you silly thing, I tell you I have been too busy to come."

"Yes, too busy to send a boy to say mass' can't. All lies.' "Genie!"

"I know. I am not a fool," she said scornfully. "Sit down, silly girl," he cried. "There I will not try to touch you; I'll smoke a cigar. Look here," he continued, as he

prove to you how true I am. Do you know why I came to-day?" "Because you said Genie is a fool, and will believe all I say." "No," he said in a low voice, as he leaned toward her. "I came up because

lit the little roll of tobacco, "I'll now

I wanted you to help me, dear. I want to be more as if I were one of you." The woman shook her head, and half closed her eyes; but he had moved her, and she watched him intently, as she

stood shaking her head. "You understand me," he whispered. "The Vaudoux, I want to join-to be one

of you. There, do you believe I love you now? "No," she said, panting. "Don't know what you mean."

"You do," he whispered. "You need not try and hold me off. I know you are one of them."

"One of the Vaudoux-you?" "Yes. You can take me to one of your priests, and let me join at the first meet-

"The Vaudoux?" she said, opening her eyes widely now. "Ah, yes, I know what you mean. Oh, no; you could not join them. They say it is all very dreadful and secret. No one knows who they are or what they do." "Yes," he said, laughing, "you do for

one, for you could take me to join them. "Oh, no," she cried, with an eager move

ment of her hands, as if she disclaimed all such knowledge. "It is only the blacks who know of that."

"You are trifling with me," he said. "You are offended because I have been away so long. Now I have come and want to be nearer to you than ever, you refuse."

"What can I do?" "Take me to one of their meetings tonight."

"I?" cried the woman, shaking her head. "You play me with now. How could I know?" "You mean you will not," he said,

fuming. "Eugenie will not do what she cannot."

replied the woman, coldly. "All very well," he said in a cavalier way. "I daresny I can find some one else who will take me to a meeting; or, I don't know! it does not matter. I daresay I shall give it up. Well, I must be off back."

"Going?" said the woman, coldly. "Yes, I am going now. A bit disappointed, of course, but it does not matter. Good-by."

(To be continued.)

The Farmer and the Sportsman. A gentleman of means, and an enthusiastic sportsman, having purchased a country residence, began (to the astonishment of his neighbors) to devote ants. The real test of its practical imhis time to his gun and hounds, in- portance may not come for a long time stead of the culture of his land. After a time an old farmer took a favorable opportunity to make some remarks upon his course, that was, in his view, not only profitless, but devoid of interest, "If you will for one day go with me," said the sportsman, "I think I can convince you that it is intensely interesting and exciting." The farmer consented to do so; and the next morning, before daybreak, they wended their way to their hunting ground. The Mackenzie Bowell, Premier of Canada, dogs soon scented a fox, and were off, and the two worthies followed, through woods and meadows, and over hills. for two or three hours. At last the sportsman heard the dogs driving the game in their direction; and soon the pack, in full cry, came over a hill that had previously shut out the sound. "There! my friend," said the sports- the convention did not in any way comman, "there! did you ever hear such heavenly music as that?" The farmer stopped in an attitude of intense attention for some moments, and then said. "Well, the fact is, those confounded dogs make such a noise I can't hear the

RULES THE NEW YORK DEMO-CRATIC CONVENTION.

State Democracy Men Leave the Hall, and Senator Hill and His Friends Have It All Their Own Way-The Platform and Ticket.

Bow to the Tiger. There was an exciting scene in the New York Democratic State convention at Stracuse when the delegates of the State Democracy

rose in a body and left the hall. This action, according to a press dispatch, was caused by the adoption of the report of the Committee on Credentials. The anti-Tammany Democrats of New York City considered a fifth of a loaf

worse than no bread D. B. HHLL. at all. The proposition to give one-fifth of a vote to each of their delegates, giving four-fifths to Tammany, was rejected by them, though indorsed by the convention. A final struggle was made by the Cleveland men in a motion to allow them one-third representation, or 35 votes to 70 for Tammany. This was voted down and they left the hall, taking their one-fifth representation with them. Senator Hill voted with Tammany for the report and against the motion, an early morning conference having resulted in a patching up of his differences with the tiger.

The State Democracy might have accepted the one-fifth representation if it had not been coupled with the hard conditions of a recognition of Tammany Hall as the regular party organization, entitled to recognition in all future conventions. The one-fifth representation was to be accepted not as a right but as a sop to harmony, and the State Democracy promptly decided to reject it and enter a vigorous protest. Charles S. Fairshild, of New York, said when he left the convention: "The Associated Press can announce that we will have a ticket of our own on all local issues." The resolution adopted by the Commit-

tee on Credentials read as follows:
"Tammany Hall is entitled to recognition in all future conventions as regular, and its delegates are to be placed upon the preliminary and other rolls thereof, and, in the appointment of inspectors of elections, the use of the party emblem and in every other way in which the question of party organization may arise, said Tammany Hall organization shall be recognized and seated as the regular organization of the party in New York County, but in the interest of harmony at this time the committee recommends, subject to the aforesaid conditions, that the sitting delegates, as well as the delegates known as the State Democracy, be admitted to the convention with one-fifth

Tammany Hall delegate." The resolution was adopted by a vote of 32 to 17. Senator Hill voted William B. Kirk, of Onondaga nay. A

3

of a vote to each State Democracy dele-

gate and four-fifths of a vote to each

motion to give the State Democracy one-third of a vote each was lost by a vote of 22 to 27, the nays scluding Hill and Kirk. The rank and file of the State Democracy were atfirst inclined to accept the half loaf, but when Mr. Fair-

child arrived he vig- R. P. FLOWER. orously protested against surrendering any rights.

The Grace-Fairchild people left the hall, and as they filed out there was a repetition of the scene in the Democratic convention of 1894 at Saratoga. They were alternately cheered and hissed. When the tumult had subsided the report of the Committee on Permanent Organization was read, and the chairman appointed John Boyd Thatcher and James N. Sheppard to escort ex-Gov. Flower to the chair as permanent chairman of the convention.

The platform as adopted declares for home rule in cities, economy in public expense, an orderly Sunday without blue laws, home rule in excise, equal taxation, honest elections, good roads, opposition to trusts, Federal taxation for revenue only, "sound money," and a vigorous enforcement of the Monroe doctrine. The administration of President Cleveland is indorsed and that of Gov. Morton denounced. The following ticket was nominated without opposition:

Judge Court of Appeals . . . Judge Teller Secretary of State. Horatio C. King Comptroller......John B. Judson Attorney General Norton Chase Treasurer......D. C. Dow State Engineer Russell Stuart

IN AID OF COMMERCE.

Navigation Topics Carefully Considered at the Cleveland Conference, The International Deep Water Association, which met at Cleveland, proved a large success in the number of attendyet. It is certainly encouraging to have this evidence of interest. The relative importance of water-ways has greatly decreased, it is true, since the days of De Witt Clinton and the Erie Canal, but from a positive point of view their

importance has greatly increased. At the opening of the session a partial report of the Committee on Credentials was submitted, indicating the presence of 330 delegates from fifteen States and Provinces. President Howland said that he had received a communication from Sir designating an eminent engineer, Mr. Munro, to represent the Canadian Government at the convention. Mr. Howland then invited Lieut. George P. Blow, who came to the convention as a representative of the United States Government, and Mr. Munro to take seats on the platform. He said the action of the two Governments in sending representatives to

mit them to the policy of the convention. After adopting a rule limiting speeches to ten minutes, discussion was declared in order, and Mr. Richard R. Dobell, of Quebec, and Mr. A. L. Crocker, president of the Minneapolis Board of Trade, gave abstracts of the papers which they had prepared on "Export Lumber and Timber Trade." Mr. Dobell in closing cordially invited the convention to meet next year in Quebec. Alexander H.

nith, secretary of the Executive Cana upon the subject of "An Improved Eric Canal Offered to Lake Commerce as a Substitute for a Ship Canal." Mr. Smith said that the people of New York were intensely interested in cheap transportation and the commerce of the great lakes. He detailed at length the proposed plans for improving the Eric Canal and expressed the belief that when the work of deepening that waterway had been completed the canal would easily accommodate the lake traffic to the sea. Prof. nodate the lake traffic to the sea. Prof. mory R. Johnson, of the University of Pennsylvania read a paper on the "Effect of Deep Water Between the Great Lakes and the Sea Upon Railway Traffic and

CLEVELAND'S DEADLINE.

Which No Person Can Pass Without the President's Consent.

When President Cleveland gets to Gray Gables, his country place on Buzzard's Bay, he feels quite safe from annoying visitors. The place is so situated naturally that it is impossible for anyone to get to the house without the President's consent. Should the visitor attempt an entrance to the domain by water he would find at the floating dock, vecre alone it is possible to land, a man on guard who would tell him that "Mr. Cleveland is Much the same performance is gone

through with by those who approach on land. They have to traverse half a mile of private road before they reach the lodge. There is no other road leading to Gray Gables, and any one on foot who attempted to cross the marsh near the estate would have a sorry time of it. At the lodge visitors are met by officers

of the secret service. If they are personal friends of the President or are expected, they are allowed to go on. If they are there simply out of curiosity or with the hope of seeing Mr. Cleveland, they

MAP OF MR. CLEVELAND'S GROUNDS. are allowed to go to "the deadline" as it is called. Beyond that may no man pass without Mr. Cleveland's direct permis-

This "deadline" is established just west of the stables. It was placed there so that vehicles could have an opportunity to turn around in the open space in front of the carriage shed. The driveway is too narrow to turn in any other place. blasted. The occasion for the establishment of

Until the "dead- of white granite and bronze. Upon each edict went forth, wagon loads of line" people from all around would drive into is inscribed the gallant deeds performed the President's grounds, pull up directly in front of the north piazza, the favorite gathering place of the family, and stare at the people who happened to be sitting there in a way that was, to say the least, embarrassing, pointing out each individual and commenting audibly.

After a year of that sort of thing every day, with no heliday from the ordeal of inspection, even on Sunday, Mr. Cleveland established "the deadline." He said he was not only willing, but felt much complimented to have his fellow citizens make trips to see his home and his grounds, but he seriously objected to having his family and himself put on exhibition like so many freaks in a museum. He thought he was entitled to a little of the domestic privacy which is accorded without question to his 60,000,000 fellow citi-

CONVENTION OF IRISHMEN.

A Militia Organization of Irish Americans Is Advocated. The great national convention of Iris societies was opened in the Young Men's Christian Association Hall in Chicago with a large representation of Irishmen from all parts of the country. Nearly 1,500 delegates were in attendance. The convention lasted three days. One general object was the formation of a united open organization for the furtherance of the Irish cause. Those who issued the call for the convention claim that it is not contemplated that physical force shall be used or advised in the attainment of the independence of the Irish people as a nation, "unless such means be deemedabsolutely necessary and the object in view be probable of attainment.'

Little time was lost in preliminaries and the election of permanent officers was put through at a rapid pace and with uninterupted harmony. The report of the Committee on Permanent Organization did not meet with the slightest opposition, the following officers being unanimously elected: J. F. Finerty, Chairman; J. P. Sutton, Secretary; J. F. Keating, T. H. McGravey and J. O. Strain, Assistant Secretaries; Vice Presidents, J. M. Kennedy, Montana; C. B. O'Brien, St. Paul; C. F. Driscoll, New Haven; P. J. Judge, Holyoke; Cornelius Harding,

Pittsburg. Considerable enthusiasm was created by a motion to add O'Donovan Rossa to the list of vice presidents, but Mr. Rossa declined. Any doubts as to the earnestness of the "new movement" towards freedom for Ireland, were set at rest when Chairman John F. Fineray, in an address to the convention, declared for an Irish-American standing army which shall be ready to do battle for Ireland whenever opportunity may present itself. The boldness of the plan as outlined by the ardent speaker created a sensation.

The Turkish authorities at various ports of Asia Minor, notably at Beyrout and Samsun, are again subjecting packages sent by the American Bible House for the mission stations to Tresh examinations and delays at the port of arrival, notwithstanding the fact that all packages are carefully examined by the customs authorities at Constantinople and duly sealed by that body.

The molders in two of the largest iron foundries in St. Joseph, Mo., the Ambrose and Columbia, went out on a strike, demanding more hours. The men have been on short hours for several THEIR FAME SECURE

In Enduring Granite. Michigan's part in the recent great event at Chickamauga was performed dicated at Snodgrass Hill, a point a which there was probably more hard which there was probably more hard fighting during the battle than on any part of the field. Gov. John T. Rich, with his staff and the members of the Park Commission was introduced by Capt. C. E. Belknap, president of the Michigan commission; in a brief speech he told of the work done by the Commissioner, called the assemblage to order, and then introduced Gov, Rich, who sloner, called the assemblage to order, and then introduced Gov. Rich, who spoke. Col. Henry M. Duffield, of Detroit, responded. When he had finished there was music by a military band, after which the benediction was said.

Through the hard work of Capt. Belk. nap, all the Michigan monuments were in position. Capt. Belknap is a Grand Rapids man, and has been honored by the people of that city with the Mayoralty. He is prom

in manufacturing circles, and, though a veteran, is yet a young man. He en-listed when but a boy, and is said by his old associates to have been a tiger to fight. At any rate, e rose from the ranks to a captaincy. Eleven monu-CAPT. BELKNAP. ments of granite

and bronze mark the important positions occupied by Michigan soldiers in the great battle. Six regiments of Michigan infantry, two- of cavalry, one regiment of engineers and mechanics, and two batteries participated, and that Michigan soldiers were in the thickest of the fray is amply attested by the fact that 600 boys from the State were among the dead. One regiment was almost annihilated, the Twenty-second Infantry losing 389 out of 455 men engaged, and others suffered terribly, the Thirteenth Infantry losing 107 out of 217 engaged and the Twenty-first 105 out of 311 engaged. The two batteries lost some of their guns and many of their men and horses while holding important positions, and the cavalry rendered valuable services at both wings of the army, checking the enemy and rallying the panic-stricken Union forces. The State Legislature of 1803 appropriated \$20,000 for the erection of monuments to the Michigan commands From this outpost messages and cards are in the National Parket dov. Rich aptaken to the house, while visitors wait pointed as a commission to select designs, with a hope that is almost sure to be award contracts, and to attend to all the blasted.

details, Capt. Charles E. Belknap, Grand Rapids; E. A. Crane, Kalamazoo; S. F. "the deadline" was not so much to keep Dwight, Hillsdaye; L. L. Church, Greenville; and J. M. Whallen, of Fitchburg. monument is a bronze plate upon which by that particular command at or near the site of the monument, and in addition is the State coat of arms in bronze.

The Ninth Michigan Infantry is a statue in granite of Gen. John G. Parkhurst, of Coldwater, the commander of the regiment, still living and who attended the dedicatory exercises. The monument is placed on the ridge in the southwest corner of the park overlooking McFarland's Gap, the scene of the battle Sunday morning, near where the regiment formed a line checking the right wing

rout. The Tenth Infantry monument has a base five feet square, tapering upward to a height of twelve and a half feet, and in the die is a bronze plate showing a fully accoutered private soldier in fighting attitude The monument is located at the base of Orchard Knob, the scene of the fighting of Nov. 24 and 25 in the battle of Chattanooga.

The Eleventh Infantry is a statue of Col. William L. Stoughton, who commanded the regiment. It is located on Snodgrass Hill, where the regiment held the hill against furious charges by the

The Thirteenth Infantry is a life-sized private soldier in granite in the act of shooting over a wall.. It is located where the regiment lost 107 men. 'The Twenty-first Infantry is an irreg-

ular mass of granite surmounted with an eagle with outstretched wings in bronze, located near the ground occupied by the command, where 105 men were lost, and the scene of Gen. Lytle's The Twenty-second Infantry is located on Snodgrass Hill, and marks the place

The monument to the Michigan Engineers and Mechanics is located in the custom-house lot in the city of Chattanooga, facing Lookout Mountain; the regiment was actively engaged in railroad and bridge work. The Second Cavalry monument is lo-

where 385 men were lost.

cated at the Glenn House. The Fourth Cavalry has a bronze plate 7x5 feet in size embedded in granite, picturing a platoon of cavalry firing across the river. It is located on the site of Jay's mill, as is also the balance of the cavalry brigade.

Battery A, Loomis' battery, is ten feet high and on the bronze plate is pictured the death of Lieut. Van Pelt while defending his gun against an overwhelming onslaught of the enemy. It is located near the Lafayette road, where the battery lost its commander, twenty-five men killed or wounded, thirty-five horses killed, and five guns captured.

Battery D, Church's battery, is placed near the Poe house, the scene of its

hardest fighting, and where the battery lost heavily of men, horses and guns. In addition to the monuments are thirteen markers for the subordinate posi tions occupied during the battle. With a single exception the markers are sim locks of granite with brief inscriptions to the effect that certain commands were at such places at the time named. The single exception is the marker for the Twenty-first Infantry, which is a huge rough granite boulder rising to the height of 9½ feet, with a bose 4 feet wide and feet deep. It is located near the Wilder's brigade. The Eleventh Infantry has four markers located respectively on the Crest road, Missionary Ri iment ascended the hill and where its Donald house; and near Leed's tannery,

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live bet-ter than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid harative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting

in the form most acceptable and pleas-ant to the taste, the refreshing and truly beneficial properties of a perfect lax-ative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kid-neys, Liver and Bowels without weak-

ening them and it is perfectly free from every chiectionable substance. Syrup of Figs is for sale by all drug-gists in 50c and \$1 bottles, but it is man-ufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

Bacter a as Incendiaries. Experiments made regarding the

cause of "spontaneous combustion" of masses of cotton, grass, tobacco, etc., have led to the conclusion that it is due to the fermentation caused by bacteria. No perceptible rise in temperature takes place in heaps of cotton, whether dry or moist, when bacteria are carefully excluded.

CONSUMPTION AVERTED.

From the Herald, Peoria, Ill.

More than four years ago Mrs. Cyrus T. King, of Williamsfield, Illinois, was

matter of time until my death would fol-low. All thought I had consumption. I

was compelled to lay down two or three times during the day even if I did not work at all, and I was able to do only the lightest. One evening I was sitting in a

one box until an improvement was noted

in my condition. It was but a very short

while until I was able to take up my

work again and I began to rapidly gain flesh. My blood, which had been like

water, became healthy and strong, and I

never felt better in my life. I forgot to say that while first sick I had rup

tured one of the inner walls of the ab-

domen. For three years I had been com-

pelled to wear a truss and bandage. That

I think had considerable to do with my weakly condition. I had not taken the

pills more than a week or ten days until I took the truss and bandage off, and it

has not been necessary for me to wear it ever since. I had weighed but eighty-five pounds when sick, but in a short while my weight had increased to 118. I am

fully convinced that I owe my life to the use of Dr. Williams' Pink Pills for Pale

People.
"Not only myself has been benefited by

the pills, but many of my neighbors who

took them on my recommendation are now enjoying perfect health where before

they could hardly do their work. I was the first in this neighborhood to get them,

but soon many of the surrounding farmers

were sending for them, and now the local

druggist always keeps a good stock on

"Early this spring I met with a severe accident that threw me back for a while, but I got six boxes of the pills and am

> General Macco's Patriots Achieve Great Triumph-Dynamite Is Used with Terrible Effect - Bartolome Masso Elected President.

Killed by Hundreds. News of a battle in which the Spanish were defeated by the Cubans was re-ceived in New York by President Palmu. T. King, of Williamsfield, Illinois, was taken sick and for three years treated with five of the best physicians of Peoria, Ill. None of them seemed able to understand the nature of her allment. Finally one physician declared she was suffering from a tumor in the abdomen. This she took medicine for until it was dried vy, but still there was no improvement in her condition. It came in a letter, written Sept. 14, by Pedro Rovira, a Cuban private, who deserted the Spanish ranks at Pera Lego, when Campos was defeated. In a later engagement Rovira was captured by the Spanish, court-martialed and sentenced to receive 400 lashes and to be shot. The sentence was carried out while Rovira equidition.

"Finally," to use Mrs. King's own words, "my condition became such that all of my friends declared it was a mere time until my death would folwas shouting for Cuban liberty. On Aug. B1 the Spaniards captured Francis, and Gen. Jose Macco fortified his few men in a plantation house near the Casambra Hospital. The Spanish were slowly closing in on him some days later when Gen. Cebreco and a Cuban column came to his relief and made the enemy evacuate their position. A hot engagement followed, in which the Spanish regained their position, but were unable to hold it long, as Gen. Antonio Macco suddenly appeared on the scene, and, with Cebreco and Col. Mieuninit, succeeded in wresting it from Canalle and Gariko, who commanded the Spanish. This battle lasted from 5 o'clock a. m. until 9 o'clock at night, when it was discontinued until the dawn

OLD SPANISH FORT, SANTIAGO DE CUBA

of the next ley, Sept. 1. The Spanish then commenced to retreat until they reached the Igubanabano field, where they were able to use their cavalry, which was impossible on the mountains of Santa Maria. They did not gain any advantage, however, and after burning their provisions they continued to retreat to Mountanin, which place they entered in scattered groups. The Cubans had no caval ry, but made effective use of dynamite bombs, which, the letter states, struck into those of her child. terror to the enemy. In the engagement the Cubans' loss was forty men, wounded and killed. The Spaniards last over 300 men, forty horses and a large store of provisions and munitions of war. . The Spaniards after the battle sent a cable to Spain headed, "The defeat and capture of Jose Maceo," and also asked for the reward and the adva

sary to give new life and richness to the the engagement. Cubans Elect a President. Letters received at Tampa, Fla., by prominent Cuban leaders state that op Sept. 10 a Constitutional convention was they effect a radical cure in all cases arisheld at Najasa at which Bartolome Masso ing from mental worry, overwork or excesses of whatever nature. Pink Pills are was elected President of the Cuban republic, Marquis of Santa Lucia Minister of the Interior, Thomas Estrada Palma sold in boxes only at 50 cents a box or six boxes for \$2.50, and may be had of all druggists, or direct by mail from Dr. Williams' Medicine Co., Schenectady, Representative of the Government in the exterior and Maximo Gomez General-inchief. Some time ago when delegates were called Santa Lucia was mentioned as President of the convention, and the The annotations which the late tsar impression prevailed that he was the was in the habit of jotting down on the destined Constitutional President. Masso was born sixty years ago at Manzaninspection must sometimes have brought despair into the hearts of the

illo. He is highly connected and thoroughly educated. He left Manzanillo Feb. 24 last, and was considered as the head of the revolution in the eastern department. When this occurred Calleja sent a committee of prominent autono mists and some chiefs of the former revolution to dissuade him, but he was not pliable. The committee went again, reenforced by ex-resident Sportono, who during his term, published a decree to put to death any person who should propose anything but Cuban independence. Masso received him, but learning his purpose told him to leave the camp immediately or his own decree would be enforced.

News has been received at military

headquarters in Havana of a desperate fight at Mefi, near Palma Sola, province of Santa Clara, between 300 insurgents led by Bermudes and Fleites, and a detachment of Government cavalry under Capt. Riestra. The vanguard of the cavalry, consisting of a sergeant and seven privates, were first surrounded by the

THE BARCAEZTEGUI.

insurgents, and in the engagement every one of the vanguard was killed. By this time Capt. Riestra, with the main body of cavalry, thirty in number, came up and engaged the insurgents, whom he forced to retreat, leaving three of their number dead on the field. Their wounded they carried off with them when they re-

treated. As the cruiser Barcastegui, which was sunk by the merchantman Mortera Wednesday night, constitutes a danger to vessels leaving or entering the port of Hayana, it has been decided to break up the hull of the vessel with dynamite. The divers have refused to work upon the wreck on account of the danger from sharks and because of the insufficiency of their outfits.

Sparks from the Wires. The ball at Bar Harbor in honor of Secretary of the Navy Herbert was a brilliant social success.

Army Bicycle Tactics.

The new tactics of the regular army which require cavalrymen to pick up wounded comrades and sling them over plied to bicycles. It remained for Willthis new possibility. Mr. Beecher and David Welch were indulging in a little scorching at Lawrence, near Edgemere, L. I., when Welch, without stopping, leaned over and tried to pull up his wheel.

When Mr. Beecher surveyed the wreck he could not tell which had received the most damage, rider or bicycle. Welch was so badly hurt that ambulance surgeon, picked his companion up and folded him across the front of his bicycle.

With Welch in this position, Beecher wheeled up to the former's home in Edgemere, much to the astonishment of every one along the road. Welch's bruises were attended to, and Beecher returned to the Edgemere hotel, where he was the hero of the day.-New York Recorder.

Keep Your Weather Eye Open. Fraud loves a shining mark. Occasionally spurious imitations spring up of Hostetter's Stomach Bitters, the great American family remedy for chills and fever, dyspepsia, constipation, biliousness, nervousness, neural-gla, rheumatism and kidney disorder. These imitations are usually fiery local bitters full of high wines. Look out for the firm sig-nature on the genuine label and vignette of St. George and the Dragon.

Reply Was Consoling.

In the morning the bright-eyed, happy child came into her mother's room, and the mother said to her: "Did my little Ruth tell God how naughty she had been, and ask Him to help her to be a good little girl to-day?"

"O, yes, mamma. Dod and me talked it all over," said the child.

"And what did God say?" inquired the mother, looking with serious eyes "O. Dod said, 'Never you mind, Ruth,

there's lots of wusser gorls than you be in heaven!"

Kate Field in Denver.

Denver, Sept. 10 .- My journey from Chicago was over the Chicago, Burlington and Quincy Railroad, one of the best managed systems in the country, I should say, judging by the civility of the employes, the comfort I experienced, the excellence of its roadbed, and the punctuality of arrival. I actually reached Denver ahead of time. The Burlington Route is also the best to St. Paul, Minneapolis, Omaha and Kansas City.

The Largest Crawfish. The largest crawfish ever captured alive is now in the London aquarium. It was captured in May, 1893, on the coast of the Isle of Jersey. From head to tail it measures 2 feet 2 inches, and from tip of feelers to tip of tail 4 feet 31/2 inches. Its girth is 18 inches and its weight 31 pounds.

If afflicted with scalp diseases, hair falling out, and premature baldayss, do not use grease or alcoholic preparations, but apply Hall's Hair Renewer.

SAVE

When estimating how much wood or coal to lay in for the winter's warming, investigate and see if it would not be wise to buy a Rochester Radiator and save from one fourth to one half of the fuel. I append the names of those who have tried them in this vicinity:

J. W. Miller, Dexter. Luther Palmer, Dexter, Levi Lee, Dexter. J. P. Wood, Chelsea. Chas. Allen, Chelsea. H. Baldwin, Chelsea. Dr. Armstrong, Chelsea.

Chas, Baldwin, Chelsea. I am going to sell the Rochester Radiator on its merits and would be pleased to put up for you and if it does not save 25 per cent of the fuel, don't keep it. Will be at the fair and

will tell you more about if, as talk is cheaper than printer's ink. C. M. BOWEN.

Real Estate!

Eight houses and lots for sale. Good building lots at \$100, \$150, \$200 and \$300. Two houses and lots to exchange for small farms. Terms easy.

C. J. Chandler & Co. will take in poultry at their warehouse in Chelsea on Tuesday and Wednesday of each week, and farmers are sure of getting the top market price if they will bring the top market price if they will bring the distance, he stuffed the grapes into t

Pinckney has had an up to date haunted house, but has one no more, The present occupant has lain awake Savings deposits...... nights, listening to the mysterious rap- Savings certificates of depings, etc., until he located it exactly, and discovered it was nothing but a woodpecker.

Last week bees swarmed from an over crowded hive belonging to Chas, Cassidy, and went no one knows whither. Such a freak is without precedent Of course, the new swarm cannot gather honey enough to support it through the approaching cold weather and will must likely perish. Bee instinct is at fault in this case. - Grass Lake News.

mumps .- Ypsilantian. "I have heard of men wearing summer pants in the winter and fur caps in the summer, but it was always because they had no other," said a chronic yesterday, "but I have been asking for a week to flud out what under the sun the ladies wear those big feather collars for when it's so hot the ice man growls,"-Ann Arbor Courier.

A man named Jacobus, of the third ward, fell among thieves, as he walked by the way side, while going home Saturday night. He was near Hiscock's coal yard, when three men sprang upon him, evidently expecting an easy victim. Right there they made the mistake of their lives, for Jacobus shook himself in several directions and soon had the air full of robbers. When he had two of his assailants flat on the ground and the other one had fled, Jacobus quietly pursued his way homeward .- Ann Arbor Ar-

A young lady named O'Connor was standing on a barrel picking apples in her father's orchard near Monroe, one day last week, when the head of the barrel gave way and she tumbled in, Unfortunately for the girl, this barrel she fell into was full of pitch. A hired man who witnessed the young woman's sad predicament, tried in vain to pull her out, and not till he pried off the hoop of barrel could they release her. The girl stood up to her waist in the pitch an hour-the next two days she labored to get the stuff off.

Mrs. Laura E. Sands, living at 105 Hamilton street, met with a miraculous escape from burning to death Friday evening. She was filling the tank of the gasoline stove and some of the oil must have dripped down, as suddenly it seemed to her she was enveloped in flames. The presence of mind of a young lady who heard her scream probably saved her and the building, as she immediately took an old carpet that was near by and covered the oil can. The flames were soon extinguished when it was found that Mrs. Sands was severely burned about the face and left arm, her dress having caught fire. She is resting easy and congratulates herself that it was no worse .-Washtenaw Times.

Nervous Prostration Cured by Dr. Miles' Nervine.

Prolonged derangement of the nervous system not only affects the brain and mental powers, but develops disease in some of the vital organs. The most dangerous of these indirect results is when the heart is affected. This was the case of the Rev. N. F. Surface, Fawn River, Mich., who writes under date of Feb. 14, 1895:

"Fourteen years ago I had a slight stroke of prostration. I was exceedingly nervous and the exertion of public speaking caused heart palpitation that threatened my life. I used two bottles of Dr. Miles' New Heart Oure for my heart trouble, and two of Dr. Miles' Restorative Nervine for my nervousness and feel better than I ever expected to feel again. I can speak for hours without tiring or having my heart flutter as it for-merly did, and I have you to thank that I am alive today." On sale by all druggists. Dr. Miles' Book
