New Jackets and Capes.

Another large lot just received. The very latest novelties out. Don't fail to see them. We have 50 sample garments, low and medium priced, bought at a reduction of 25 per cent. You can buy them on the same basis.

Worth Giving Attention.

Closing out 25 last year garments at one-half price. These are not ten years old, but were bought late last season; have the large sleeve and are a trifle longer than this year's garments. Great values.

All Carpets at Wholesale Prices during the next 30 days. All New. This year's Patterns.

Dry Goods.

New Dry Goods just opened. More coming this week, fresh from headquarters.

Remember, we don't deal in old truck that makes you tired to look at. Consequently we sell the goods while others do the howling on old stuff that needs moving from town to town to catch new suckers, who will pay war time prices for out-of-style goods.

Patronize the store where they always have the latest and guarantee whatever you buy to give satisfaction.

Mrs. Lucy A. Morton.

Mrs. Lucy A. Morton, who died last Friday morning, was buried from the Congregational Church last Saturday morning. The remains were brought here from La Salle, Monroe county, Mich., where she had been living with her oldest son since January last. Mrs. Morton was born in Oneida county, New York state, Sept. 19, 1816. She came to Michigan in 1837; was married to James Van Scooter Feb. 28, 1839. He died the following September. She was again married to Aaron D. Morton Dec. 17, 1840. They lived in Marengo until 1852, when they moved to Marshall, where Mr. Morton died in 1856. After his death she moved to Chelsea with her family, where she has lived until last January. Four children survive her—Charles C. Morton, of La Salle; Andrew N. Morton, of this place; Mrs. Wm. Judson, of Ann Arbor, and Wm. F. Morton, of Detroit. One son, Albert, died soon after she moved to this place. Her surviving sisters and brother are Mrs. E. A. Crafts, of Sharon; Mrs. E. Skidmore, of this place; Mrs. C. A. Congdon, of Berkeley, Cal., and W. F. Hatch, of this place. Mrs. Morton united with the Presbyterian Church in 1839. Upon her moving to Marshall in 1852 she united with the Baptist Church in that place. She became a member of the Congregational Church here in 1860, of which she remained a consistent and faithful member till her death. She was devoted to the services of the church, and was especially regular in her attendance upon and taking part in the prayer meeting and all revival meetings. Hers was a useful life that had reached its full fruition.

Entertainment Course.

We are pleased to learn that the matter of having an entertainment and lecture course in Chelsea this season has not been given up, and that we are now able to publish the list of attractions, which are the very best that could be obtained, a far superior to any that have previously visited us:

Wednesday, Nov. 6—J. Williams Macy.
Monday, Nov. 25—Alice Raymond Concert Co.

Monday, Dec. 16—Pres. Wm. H. Crawford.

Tuesday, Jan. 7—Miss White and the Morgans.

Wednesday, Jan. 22—Judge Sidney Thomas.

The list includes two musical entertainments, two lectures, and one humorist. It will be seen that the committee have used a great deal of care in arranging this varied program, which we think will suit persons of all tastes, and the course deserves liberal patronage.

The price for season tickets has been fixed at \$1.50 and will be on sale in a few days.

Resolutions.

WHEREAS, It has pleased the Almighty God in His infinite wisdom to remove from this earthly abode the beloved sister, Mrs. Mary Stoll, of our esteemed and worthy Brothers, Sir Knights John J. Jacob J. and Chaney Hummel; therefore be it

Resolved, That we, the Sir Knights of Chelsea Tent No. 281, extend to them our heartfelt sympathy in their affliction, and bereavement; be it further

Resolved, That these resolutions be spread on the records of this Tent and also published in the HERALD and Standard, and a copy sent to our bereaved Brothers.

W. C. T. U.

Miss Willard's Prayer for Railroad Men—More Reports.

BALTIMORE, Md., Oct. 21.—The delegates were prompt in their attendance on the opening session of the second day of the great white ribbon convalescence at Music hall Saturday. The auditorium was well filled with representatives and visitors when Miss Willard tapped the desk with her gavel.

Devotional services were conducted by Mrs. Annie M. Palmer, national evangelist, of Iowa. After some routine business had been disposed of, "Methods of Promoting our Principles" was discussed. This is the way in which the reports of national superintendents of the W. C. T. U. are designated. The reading of these papers occupied a greater portion of the morning session. Mrs. Winnie F. English, of Illinois, read an interesting paper on work among miners, the opening sentence of which was:

"This department of the W. C. T. U. is in the field to assist in molding the 650,000 of miners in the United States into Christian citizens." The speaker described the means employed in reaching the miners in the different states and reported flattering results.

"Railroad Employees" was the text of a paper read by Mrs. C. M. Woodward, of Nebraska. She implored the prayers of the pastors for this class of men, of whom there were, as she said, a round million in the United States whose circumstances prevent their attending services.

At the conclusion of Mrs. Woodward's report, Miss Willard said she was sure the hearts of all those present had been touched by the statements in it. She said:

"The woman who can go out and find other women whose hearts are earnestly in this work is just the woman they want at the head of this department. Thirty thousand railroad men are killed or maimed every year. About three go under the wheels every hour. I can't help lifting up a prayer to the Divine God for the engineers, conductors and brakemen every time I enter a railway train."

BALTIMORE, Md., Oct. 21.—Women talked temperance from forty-two Baltimore pulpits Sunday to over 30,000 people. In addition to the great meetings in Music hall special services were held and addresses delivered by earnest, eloquent speakers of the Woman's Christian Temperance Union in thirty-three Methodist, two Protestant Episcopal, two Baptist and three Presbyterian churches, one Congregational church and the Friends' meeting house.

A BAD FIRE.

Algiers, Near New Orleans, Almost Destroyed—Loss, \$400,000.

NEW ORLEANS, Oct. 21.—A fire which broke out in Algiers, opposite this city Saturday night, continued burning until 9 o'clock Sunday morning, when it was got under control because very little else was left to burn. Two hundred and twenty houses were burned in all. The fire was confined almost entirely to the residence portion of the town, the owners of which are people in moderate circumstances. The insurance is said to be very light, and the loss is therefore almost total. It is estimated that the loss is fully \$400,000, but it will be several days before it can be accurately stated.

The fire originated in an Italian confectionery and fruit store and everything seems to prove it was incendiary. So intense was the feeling against the suspected man that if he could have been found he would have undoubtedly been lynched. He was arrested Sunday and brought over to New Orleans for safe keeping.

The Algiers police station, the courthouse and jail were burned, together with some of the court records of Algiers. These include court incidents, marriages, etc., for many years past. The courthouse was an historic one, having been erected about the year 1808, and was originally a grand family residence.

A subscription for the relief of the homeless people, who number about 700, has been started and has been liberally responded to. The public school buildings have been thrown open to them and many have found shelter there. Thousands went over from New Orleans Sunday to view the ruins. About 6 o'clock the ferry incline on the Algiers side of the river gave way and precipitated probably 100 persons to the ground. Fortunately the river is low, or the accident might have been serious. Five or six only fell in the water, and were rescued. One young man had his leg broken. With this exception no person appears to have been injured.

GRAND RAPIDS, Mich., Oct. 21.—The general offices of the Chicago & West Michigan Railway company in this city were gutted by fire Sunday evening and the building in which they were located partially destroyed. The company's loss is \$5,500 and that on the building \$40,500.

IN COLD BLOOD.

An Aged Couple in Michigan Murdered by Robbers.

HANCOCK, Mich., Oct. 21.—The bodies of Chris Kramer and wife, aged people, were found in the cellar of their house at West Hancock Saturday morning with their throats cut. It is quite certain the double murder was committed for the purpose of robbery, as the old couple were commonly believed to have kept large sums of money secreted about the house. The police so far have no clues to them under.

Health

Built on the solid foundation of pure healthy blood is real lasting. As long as you have rich red blood you will have no sickness.

When you allow your blood to become thin, depleted, robbed of the little red corpuscles which indicate its quality, you will become tired, worn out, lose your appetite and strength and disease will soon have you in its grasp.

Purify, vitalize and enrich your blood and keep it pure by taking

KENNEDY'S MEDICAL DISCOVERY

DONALD KENNEDY, of ROXBURY, MASS.

Has discovered in one of our commonest pastures a remedy that cures every kind of Humor, from the worst Scrofula down to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases (both thunder humor). He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston. Send postal card for book.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the right quantity is taken.

When the lungs are affected it causes shooting pains, like needles passing through them; the same with the Liver & Bowels. This is caused by the ducts being stopped, and always disappears in a week after taking it. Read the label.

If the stomach is foul or bilious it will cause squeamish feelings at first. No change of diet ever necessary. Eat the best you can get, and enough of it. Dose, one tablespoonful in water at bed time. Sold by all Druggists.

What Do You
Expect to Find

In a first-class meat market? The first thing is the class of meat kept in stock—whether it is nice, tender and juicy, or tough as a 10-year old Texas steer. Being satisfied on this point, you begin to look around as to the cleanliness of the market and clerks. We would be pleased to have you call and put us to this test. We pride ourselves on our cleanliness, and all our meats will be found first-class and the best in the market. Our prices will always be found just right, too.

Mr. Macy's entertainment will be of the same character as that given by Mr. Fred Emerson Brooks last winter, and it is said that he is the only humorist now traveling who is equal to Brooks. He is also the possessor of a fine, large, musical bass voice, and his songs are sure to win the hearts of his hearers.

The remains of Mrs. Ella J. Capron were brought here for interment from Eaton Rapids, her late home, last Friday morning, and were laid to rest in the Vermont Cemetery. Mrs. Capron was born in Chelsea July 26, 1850, but for twenty-two years had resided in Eaton Rapids. She had been for nine years a member of the Congregational Church, and during her years of failing health and in the experience of death she was sustained by a confident and joyful trust in Christ. One of her surviving brothers is Mr. G. E. Monroe, of this place. She died on Tuesday, the 15th, and the funeral services were held at Eaton Rapids Thursday afternoon.

Flag Raising.

A very pleasant event took place Oct. 18 in School District No. 3, township of Lyndon. The occasion was the raising of a new flag. When the pole was in position Miss May Havens stepped forward and raised the flag to its place at the top of the pole. The school children then gave the national salute, which was followed by three cheers for "Old Glory" and music by the band. The following program was then rendered to the large crowd of people who had filled the school house:

Singing, "America,".....School Welcome.....Lucy Sawyer Recitation.....Lucy Skinner Recitation.....May Havens Singing, "Our Flag,".....School Exercise.....By Five Pupils Recitation.....Edith Gorman Recitation.....Allen Skinner Music.....By the Band Exercise.....By the Little Folks Singing, "Rally Round the Flag,".....School Recitation.....Leady Buehler Recitation.....May Havens Flag Drill.....School Music.....By the Band

The children performed their parts admirably, especially the flag drill, which represented a great deal of time spent in patient practicing.

At the close of the exercises Mr. Edward Gorman delivered an appropriate address, in which he expressed the hope that the children might always love and honor the flag and be willing to defend it when danger threatened. Mr. Charles Canfield, director of the school, then made a few fitting remarks, after which the band gave some stirring selections, and the crowd dispersed—all expressing themselves as well pleased with the proceedings of the afternoon.

Let us hope that such entertainments may be encouraged in the future, as they tend to develop the best traits of character in the pupils and to create a deeper interest in the school for all concerned.—COM.

School Commissioner's Report.

The report of the Commissioner of Education for the year ended November 30, 1894, which has just been published, shows that the number of pupils enrolled in schools and colleges, public and private, was 15,083,630, or 22.5 per cent of the entire population of the country. Of this number, 14,510,719 were in the public schools, and they had 122,056 male and 260,954 female teachers. According to the details of attendance, it appears that children in the United States leave school for about two-fifths of the year to engage in labor, or from other motives. In the last twenty years the value of school property and the amount of common school expenditure have more than doubled.

Mr. L. K. Taylor and Miss Ada H. Boothby were married Wednesday, Oct. 16, at 6:30 p. m., Rev. J. M. Thoburn, of the Central M. E. Church, officiating.

The bride wore white dotted muslin, trimmed with lace and ribbon, and carried bridal roses. Miss Alma A. Boothby acted as bridesmaid, and Mr. George A. Taylor as groomsmen. Only immediate relatives were present. A wedding supper was served after the ceremony. Mr. and Mrs. Taylor will be at home after November 15 at No. 248 Willis avenue west.—Detroit Free Press.

An exchange truthfully says a teacher refined in manners, in dress, in sympathies, is sure to obtain an influence that will work for good long after the pupil has passed from his immediate charge. The favorite study of a pupil, and often the profession in life, is determined, not so much by the attractive character of the study itself as by the subtle magnetic power of the teacher. On the other hand, the cold, indifferent manner of teachers; their sharp, shrill tones; their impatient temper, have sent many a pupil from school in utter disgust with anything pertaining to study.

Mr. Hardin gives dairymen the following good advice in Home and Farm: If you sell butter, make in brick-shaped prints, with your initials stamped in it or some other mark. Wrap each print in parchment paper. This is cheaper than cloth and keeps the butter better, besides many purchasers are suspicious of what use the cloths may have been put to before using. Cheese cloth is cheap, but the butter sticks to it. Parchment paper is cheap, neat, and presents a handsome appearance, and comes off clean. It is impervious to brine and will hold the butter if it melts. Brick-shaped prints pack closely together, so the air cannot get at the butter, and they will take up less room than any other shape. They are easy to cut from for putting on the table, as a whole pound is too much for that use. Nothing sells butter like a neat appearance, so it pays well to take trouble with it. Build up a trade in this way and it will never depart from you.

Board of Supervisors.

The Board of Supervisors met at Ann Arbor Oct. 14. Hiram Lighthall, of Sylvan, was chosen as permanent chairman. The following standing committees were appointed by the chairman: Equalization—Davenport, Scott, McQuillan, Burtless and Alber. Criminal Claims, No. 1—Walter, Case and Howlett. Criminal Claims, No. 2—Tuomy, Hunter and Hall. Civil Claims—Oesterlin, Ball and Whitaker. To Settle with County Officers—Whitaker, Childs and Forsyth. On Salaries of County Officers—Dancer, Kitson and Walter. On Apportionment of State and County Tax—Grosshans, Hauser and Voorheis. On Public Buildings—Oesterlin, Hunter and Dancer. On Rejected Taxes—Alber, Wheeler and Donnelly. To Examine Accounts of Supts. of Poor—Boyle, Leland and Hall. On Finance—Forsyth, Childs and Wheeler. On Fractional School Districts—Voorheis, Hauser and Tuomy. On Drains—McQuillan, Bibbins and Grosshans. On Printing—Donnelly, Damon and Hauser. On Contagious Diseases—Ball, Boyle and Leland. On Per Diem—Howlett, Fischer and Davenport. To Redistrict County—Hall, Donnelly and Bibbins. The board adopted \$25,000,000 as the basis for equalization.

Making Cement.

S. D. S. would like to be told how to make cement that, when dry, becomes hard like stone. Answer: This depends somewhat on the use to be made of the cement. For araways, walks, etc., one of the best mixtures is one part of Portland cement and three parts of good, clean sand. The sand must be free from earth and vegetable matter, and of such a quality that water will run from it nearly clear. Mix the cement and sand thoroughly by sifting or shoveling, then put into a box and very quickly wet it thoroughly, so that it will be of the consistency of good, stiff mortar. It must be used at once, for it sets almost as quickly as plaster of Paris. It takes some hours, possibly some days, to become thoroughly dry. While it is still damp, if a finer finish is required, mix cement with an equal quantity of sand and put on an outer coat and allow this to dry. A thin covering of pure cement and water, about as thick as stiff batter, makes a finish almost equal to earthenware. Properly made and worked, this cement will stand heat and frost without injury. It should, however, be thoroughly dried before winter.

Free Pills.

Send your address to H. E. Bucklen & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of Constipation and Sick Headache. For Malaria and Liver troubles they have proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to stomach and bowels greatly invigorate the system. Regular size 25c per box. Sold by F. P. Glazier, Druggist.

A Forest of Microbes.

Cheese, the supposed to be edible milk curd of commerce, is the best soil in the world for microbes and bacteria, and on its surface flourish millions upon millions of infinitesimal parasitic plant growth. A microscopic examination of a single gram of fresh cheese, such as is usually sold at the grocer's, proved that it contained not less than 90,000 separate and distinct specimens of bacteria. After seven days this same section of cheese was examined and found to contain 80,000 separate and individual bacteria. Professor de Kohn, says that a cheese, properly sliced and exposed, will within a week be implanted with a bacterial growth containing more separate specimens than there are trees upon the whole of the earth's surface.—St. Louis Republic.

We know whereof we affirm when we state that Ayer's Pills, taken promptly, at the first symptoms of colds and fevers, arrest further progress of these disorders and speedily restore the stomach, liver and bowels to their normal and regular action.

Dropping in Your Throat.

Hawking and spitting is one of the most disagreeable parts of catarrh. We have patients using Mayers' Magnetic Catarrh Cure to report complete relief from this within ten days of its use.

CATARRH OF LONG STANDING

will be cured by the use of Mayers' Catarrh Cure.

Catarrh may be well called a great scourge in this country; nearly every person has it in a greater or less degree. Mayers' Magnetic Catarrh Cure, if used promptly, will cure this terrible disease. No cure no pay.

A cold in the head, accompanied by frontal headache, can be cured by one or two applications. Remember one bottle lasts three months and is guaranteed to cure or money refunded by agents.

Read what a one time sufferer from Catarrh has to say of our marvelous cure: OAKLAND, Md., March 24, 1898.

The Mayers Drug Co., Oakland, Md. Gentlemen—I have been a sufferer from catarrh for years and was recommended to use a bottle of Mayers' Magnetic Catarrh Cure, and in less than six weeks I was completely cured, and deem it one of the best medicines on the market and recommend its method of treatment to any sufferer from the awful malady.

Reports from the lake regions of Minnesota and the Dakotas announce that the lakes in that section are not only greatly diminished in quantity, but some are disappearing entirely. This state of affairs is largely attributable to the deficiency in rainfall for the past ten years.

LONDON papers say that there is now no reason to doubt that A. F. Mumery, the famous mountain climber, lost his life in the Himalayas. He was on his way up the Nanga Parbat, the summit of which is more than 26,650 feet high, when, it is supposed, he fell into some ice crevice.

A REPORT just issued by the geological survey shows that the quarry value of the stone produced in 1894 was \$37,377,816, of which \$33,000,000 was used for the construction of buildings. Pennsylvania leads all of the other states in this product, Ohio coming next and Vermont third.

At the last session of the Maine legislature a special joint committee of the house and senate was chosen to investigate the matter of purchasing the Blaine residence at Augusta for an executive mansion for the governor, and it is now said that the committee will make a favorable report.

THE fire losses in this country this year to the close of September reached the enormous aggregate of \$96,277,000, not including the indirect losses through interruptions to business. About nine-tenths of this enormous waste is chargeable to faulty construction of buildings or criminal carelessness on the part of occupants.

PARIS is said to be the cleanest city in the world. Every morning 2,000 male and 600 female scavengers, divided into 149 brigades turn out to perform the toilet of the capital. The men work from four in the morning to four in the evening, less two hours off for meals, or ten hours a day. The women are engaged in the morning only.

MICHIGAN'S peppermint crop this year has been harvested. The United States raises nine-tenths of the world's product and Michigan two-thirds of the American product. The acreage in the state is between 132,000 and 150,000, and it is estimated the crop this year will approximate 150,000 pounds of oil. The average price has been \$1.60 and \$1.65 a pound.

In the province of Khorassan thousands of acres that ought to be raising breadstuffs are devoted to the cultivation of opium. Russia does not permit the drug to be shipped into its bounds, but Christian England year before last shipped 130,000 toman (equal at that time to perhaps \$32,000) worth of opium from this province of Khorassan to India and China.

Their Convention at Baltimore a Marked Success.

Attendance of Delegates Large and Their Enthusiasm Intense—Miss Willard's Address—The New Star Spangled Banner.

BALTIMORE, Md., Oct. 21.—Between 500 and 600 delegates from thirty-eight states and territories, representing 800,000 members of the Woman's Christian Temperance union, congregated at Music hall Friday morning to attend the twenty-second annual convention of that society.

As Miss Willard stepped to the front of the stage, carrying a huge bunch of La France roses, the audience tumultuously applauded her. Following the drop of her gavel a crusade Psalm was read, respectively, led by Mrs. Eliza Thompson, of Hillsboro, O., who is more familiarly known in temperance circles as "Mother Thompson." She began the crusade inauguration in her home twenty-one years ago, and from which rose the present W. C. T. U. Mrs. Thompson is in her 80th year, but her powers seemed unimpaired as she led the reading Friday morning.

Mrs. Henrietta L. Monroe, president of the Ohio W. C. T. U., offered a fervent invocation. Some routine business was followed by the reading of the president's annual address, which was, in part, as follows:

Miss Willard's Address.
"Civilization is but Christianity's effect on the brain and hands of the race; science and invention are its twin daughters, and both lend the totality of their influence against the practice of stimulation. All of the states and territories except two (Georgia and Arkansas) now require the teaching of the laws of health to all school children, beginning with the youngest. Mrs. Mary H. Hunt heads this movement as the representative of the Woman's Christian Temperance union. Four times a year the Sunday-school lesson explicitly teaches total abstinence. This is another point gained by white-ribboners, who worked ten years for it."

"The general assembly of the Presbyterian church has this year declared in favor of non-alcoholic wine for sacramental purposes. In the widening field of athletics all stimulation is discounted. The bicycle is the most influential temperance reformer of the time, and milk is the favorite beverage of those who ride to win. Legislation follows on after individual progress. The Canadian parliament this year declared by an overwhelming majority in favor of prohibition. In South Australia and Utah women have been admitted to the full rights of citizens. Five legislatures last winter voted to submit this question to the people. In New York city

MISS FRANCES E. WILLARD, reform, has forsaken the line of least and sought that of greatest resistance. Municipal politics in that metropolis and many others turn on the temperance question. The enforcement of law by Commissioner Roosevelt and the renewed war upon Tammany, led by the redoubtable Dr. Parkhurst, are the salient features of the time.

"The action of the Methodist conferences in voting to admit women to the general conference is the largest straw on the current of the times. The woman's department of the Atlanta exposition and the great congresses of women held in the farther south are other tokens hardly less significant. A union of reform forces is contemplated, and the leaders have agreed to a basis, which is commended to the good-will of all white ribbon women."

"The labor movement is the natural ally of the white ribboners. The 'working class' are the only true aristocrats. Roman Catholic young women of Danbury, Conn. have formed a society of members pledged not to marry any man who is not a strict abstainer. The unfading hope of the social purity movement was set forth in the resolution unanimously adopted by our London convention in June last."

Miss Willard closed her review of the woman question with these words:

"In primitive days we had the matriarchate, which means the rule of the mothers, and now for a painfully lengthened period we have had the patriarchate, or the rule of the fathers; but we begin to see the dawn of the amphipatriate, or the joint rule of a joint world by the joint forces of its mothers and its fathers. Happy are they who put their sturdy shoulders to the wheels of this white chariot of the sun."

An important part of the address was devoted to the situation in Armenia, and an urgent plea was made for the united efforts of women in collecting funds and circulating petitions for the relief of "our well-nigh martyred Christian neighbors in Asia Minor."

In the midst of her address, while recommending a continuance of total abstinence on the part of every delegate, Miss Willard requested every woman present to arise and thereby indicate their willingness to renew the pledge. Every woman in the house, delegates and visitors as well, arose, while great enthusiasm prevailed in every direction.

New Star Spangled Banner.

A handsome white silk banner, bearing fifty gilt stars, representing the states and territories wherein the W. C. T. U. have representation, was presented to Miss Willard by Mrs. W. Jen-

nings Demorest, chairman of the executive committee, of Sorosis, N. Y. This beautiful emblem was waved to and fro by Miss Willard and Mrs. Eliza Thompson, while Mrs. Katharine Baldwin, of New York, a niece of the national president, sang the recently composed song, "The White Ribbon Star Spangled Banner," the first verse of which is:

"Flung it out to the breeze. Let it tell to the world
That the faith which has raised it will never surrender;
Let it tell that the love which our banner unfurled
Is the guard of the home and the nation's defender.
Let it gleam as a star for the shipwrecked afar,
Like a beacon that warns of the treacherous bar;
Let that banner of freedom and purity wave
As a signal of hope midst the perils we brave."

The enthusiasm was beyond description as the throng arose and sang the closing stanza of the hymn. A cable-gram of greeting from Lady Henry Somerset, of England, was read.

At the afternoon session two important resolutions were presented and adopted. Mrs. A. S. Benjamin, of Michigan, offered a resolution denouncing lynching and other lawless practices in our own or any other country, and declaring the belief that when women have a share in making the laws such atrocities will disappear from the face of the earth.

Suggestion to Episcopalians.

The other resolution was presented by Mrs. Mattie McClelland Brown. It required the sending of a greeting to the triennial congress of the Episcopal church now in session at Minneapolis and earnestly requested that, "in view of the fact that the use of fermented wines in the sacrament of the Lord's supper is objectionable to a large proportion of the most active and devoted membership of the church, and as it is also a source of danger to any who may have come under the power of alcohol, thus weakening the influence of the church in reform work, therefore the general convention approve and sanction, if it may not enjoin the use of unfermented wine at the communion sacrament as being more in accordance with the character of the Master at whose table the wine is served."

"Methods of promoting our principles" brought forth a number of papers, and each speaker was allowed ten minutes to present her views.

Colored People Aroused.

Work among colored people was talked about by Mrs. Lucy Thurman (colored), of Jackson, Mich. During the year, she said, more headway had been made in the work than in any other like period. Forty unions of colored women had been organized in the south, but more active work yet was needed. Among the ten millions of her race in this country, Mrs. Thurman said, there was not one distiller or brewer; something that could be said of no other race.

After the Smokers.

The superintendent of the narcotics department, Mrs. E. B. Ingalls, of St. Louis, said that more persons were interested in the movement than ever before, and that reformers are beginning to realize that soothing syrups, headache medicine and the cigarette lead to the use of opium, chloral and other drugs. Many men, she said, were giving up the use of tobacco. Lecturers were becoming more numerous. She said they were decreasing the numbers of smokers. Mr. Pullman had been petitioned not to place smoking apartments in his cars and she understood that the millionaire car-builder was not putting these compartments in the sleeping cars and that smokers would be forced into the ordinary smoking-car or go without the weed.

The Night Session.

An enormous crowd attended the session at Music hall Friday night. After devotional services Mayor Lathrop welcomed the delegates to the city. A message of encouragement and sympathy was read from Cardinal Gibbons. Addresses of welcome were delivered by Rev. John F. Goucher in behalf of the Methodist Episcopal church; Rev. W. E. Bartlett, in behalf of the Catholic clergy; Mrs. Mary Haslup, president of the state W. C. T. U., in behalf of the state unions, and Mrs. Alice C. Robinson spoke for the city W. C. T. U. organization. Mrs. Mary Reed Goodale, of Louisiana, and several other ladies responded.

The Negroes at Washington.

WASHINGTON, Oct. 19.—The colored national convention completed its work Thursday when Chairman James W. Poe declared it adjourned to meet at Richmond, Va., Tuesday, July 2, 1896. It adopted a long platform, a synopsis of its main points being as follows:

It denounces the administration of President Cleveland; also the crime of lynching; reaffirms its allegiance to the republican party; favors freedom for Cuba; declares in favor of the use of both gold and silver as money; eulogizes Morton, Reed, Harrison, Allison, Sherman, and practically indorses the candidacy of McKinley.

Go d Again Going.

WASHINGTON, Oct. 21.—The withdrawal of \$400,000 in gold at New York Friday for export to Buenos Ayres, Argentine Republic, reduces the gold reserve to \$92,840,058. It has been several weeks since the gold export movement ceased and its resumption while not unexpected is unwelcome. It is believed, however, that it does not presage another onslaught on the gold reserve to any great extent, although other small shipments of gold may be made next week.

CLARKE'S NEXT MOVE.

Progress of the Game of Pugilistic Checkers at Hot Springs.

Judge Leatherman Decides That Prize Fighting Is Not Illegal in Arkansas—Gov. Clarke Says He Will Yet Block the Game.

HOT SPRINGS, Ark., Oct. 21.—Corbett was released Saturday and the habeas corpus case terminated just as everybody in Hot Springs expected it would. The decision of Chancellor Leatherman was in accordance with the views expressed by Gov. Clarke, and as shown by the house records. The proof produced demonstrated the fact that a glove contest was to be fought a limited number of rounds here on October 31, and that five-ounce gloves were to be used. By the numerous experts put on the stand it was proved that soft glove contests are not brutal affairs and are never attended with any serious or harmful results when engaged in by trained athletes.

Chancellor Leatherman rendered a decision that there is no law prohibiting prize fighting or glove contests and that the defendant was entitled to his liberty under a writ of habeas corpus. The attorney general states that he will take an appeal to the supreme court on a writ of certiorari.

The probable action of Gov. Clarke, in view of the decision of the chancellor, is the subject of much comment and surmise. An extra session of the legislature is now the governor's only hope of making good his word that there shall be no meeting of Corbett and Fitzsimmons anywhere in Arkansas. If he should persist in sending the militia into this county without being called upon to do so, the local peace officers will see that they do no damage to either life or property. An extra session of the legislature would cost the state about \$10,000, and the governor will have to decide, for himself whether or not the emergency is such as to warrant the expenditure of so much money.

Martin Julian, Fitzsimmons's backer, says he will not sign the new articles of agreement. The contest must be a fight to a finish or none at all. He objects also to a postponement of the contest. He says Fitzsimmons will be at the ring ready for the meeting on the day set, October 31. If the other parties are not present the Fitzsimmons party will claim the forfeit money, according to contract.

LITTLE ROCK, Ark., Oct. 21.—Gov. Clarke was seen immediately after the news was received of Chancellor Leatherman's decision. He said he was not surprised at Judge Leatherman's decision. He continued:

"For the past week I have been cognizant that some such case as this would be resorted to and I have formed my plans accordingly. I was never more determined than at present to prevent the fight, and I am sure beyond peradventure that I will do so."

"I cannot say what I shall do, but you can safely say for me that the fight will not take place, and I think it would be but fair for you to advise those people in the north and east not to come to Arkansas expecting to see the fight, because it will never come off in Arkansas."

EPISCOPALIANS.

Main Points in the Proceedings of the Conference at Minneapolis.

MINNEAPOLIS, Minn., Oct. 21.—In the house of deputies on Saturday the proposition to use only the form "Jesus," and not "Jesu," in the prayer book and hymnal was laid on the table. The committee on new dioceses reported in favor of concurring with the bishops in the matter of setting aside the new jurisdiction of Kioto. A minority report declared that the English church was ready to occupy the field. In the debate no reference was made to the opposition's real reason.

In view of the pecuniary aid other difficulties the house of bishops refused to concur in the proposal to insert the patriotic hymn "My Country, 'Tis of Thee" in the hymnal. The house of bishops held an afternoon session and adopted a canon on marriage and divorce. The canon differs materially from the one first proposed, providing that in case of doubt the godly counsel of the bishop shall be sought and followed. The canon will receive no further action at this session, as the bishops voted to refer it to the commission on revision of the canons.

LIVES CRUSHED OUT.

Terrible Accident to a Camping Party in West Virginia.

DAVIS, W. Va., Oct. 21.—Marion H. Carr, accompanied by his wife and two sons, of Randolph county, went to Shaffers mountain in search of genesing, building a camp at night which they covered with slabs. Between 2 and 3 o'clock in the morning a big maple tree, 20 feet above the camp, broke and fell on the cabin. Mrs. Carr and her son George were killed instantly. The other son, Jesse, was fatally injured and the father was badly hurt.

Prairie Fires in Kansas.

TOPEKA, Kan., Oct. 21.—During the last four days destructive prairie fires have swept over parts of four counties in western Kansas and a large scope of country in eastern Colorado. The fire which has caused most damage started in the western part of Finney county on Thursday and spread to Greeley county, burning over a strip of country 4 miles in width, over 200,000 acres in all.

MONROE DOCTRINE.

Uncle Sam May Be Forced to Fight in Its Defense.

LONDON, Oct. 21.—The St. James Gazette says it is in a position to state that Lord Salisbury has sent an ultimatum to President Crespo, of Venezuela, demanding reparation for the arrest of policemen at Uman and stating the terms upon which Great Britain will definitely determine the boundary dispute with Venezuela. The ultimatum is either on the way to Venezuela or, possibly, has by this time been actually delivered.

Lord Salisbury and Mr. Chamberlain, colonial secretary, the Gazette says, decided upon a final course in the matter before Mr. Chamberlain started upon his vacation a month ago, and both decided that it was necessary to end the frontier dispute at once, even if it had to be accomplished by force.

LONDON, Oct. 21.—The officials of the foreign office practically confirm the statement made by the St. James Gazette that Lord Salisbury has forwarded an ultimatum to the president of the Venezuelan republic.

LONDON, Oct. 21.—The Chronicle says: There is no doubt that the United States are determined to effect an early settlement of the Venezuela dispute. Lord Salisbury has not yet answered Mr. Bayard's July dispatch.

WASHINGTON, Oct. 21.—There was a feverish interest at the state department Saturday in the Venezuela boundary dispute. It looks as if the issue had been joined between the United States and Great Britain on the question of the Monroe doctrine. Unless the British back down from the position they have heretofore maintained toward the time-honored doctrine of Jefferson and Monroe the United States will be called upon shortly to maintain the principle by an armed force.

It is the opinion of those in authority Saturday that we are nearer the war crisis than we have been since the Chilean ultimatum under the Harrison administration.

Secretary Olney is impatient because the British foreign office has delayed its answer to his brief submitted in August. This delay may be only in keeping with the dilatory tactics of the British on all diplomatic questions, or it may mean that delay is being asked merely to give the British an opportunity to mass troops in the disputed territory and thus be better fortified to resist when the final test comes.

Whatever may be the outcome of the present dispute it will settle for all time the force and effect of the Monroe doctrine. If congress meets pending the settlement of the dispute it will in all probability strengthen the hands of the president by passing a joint resolution affirming the Monroe doctrine, which up to this time has had the force only of executive proclamation. Congressman Holman in the last house called attention to the fact that the doctrine had never been declared by resolution of congress and suggested the advisability of such a step.

It is believed here that one of the objects of England's delay in answering the communication from Secretary Olney is to sound the sentiment of other European powers on the Monroe doctrine. Great Britain has always sneered at the policy, and it has been a stumbling block in the way of her dream of territorial acquisition and territorial subjugation on this continent.

GOING BACK.

Scores of Chinamen Are Returning to the Flowery Kingdom.

CHICAGO, Oct. 21.—The Grand Central passenger station Sunday night was crowded with Chinamen returning to their native land. A few of them were of the better class from Chicago's Chinatown, but twenty-three of them were from Boston. All were en route to Hong Kong, via the Northern Pacific's rail and water lines.

The exodus of Chinese from this country has been particularly large during the last three weeks. Local Passenger Agent Thompson, of the Wisconsin Central railroad, who has charge of the party, says there is hardly a day that a party of from twelve to forty Chinese does not leave Chicago for Hong Kong. It is believed by the railroad agents that the Chinese government has emissaries at work in this country who are either appealing to the patriotism or the pockets of Chinamen who have accumulated money to return to their native land for either military service or political position, preferment being offered as a recompense. Before leaving the city the Boston delegation visited Chinatown and were lavishly entertained, but no information was vouchsafed by the local Chinese who speak English as to the object of their return to China. Sam Moy, the head of Chinatown here, admitted that many of his countrymen had lately left for China, and that many more would follow.

Contest of Motorcycles.

CHICAGO, Oct. 21.—The motorcycle, or horseless carriage, race from Chicago to Waukegan and return, a distance of about 100 miles, will be contested Saturday, November 3. From present indications there will not be less than forty starters in the great race. It is expected that several of the motorcycles will make the distance in less than six hours. Several motorcycles from France and Germany are entered in the race.

A JOYOUS SEASON.

Fort Wayne, Ind., Celebrates Her Centennial.

Milwaukee Dons Her Holiday Attire—Many Notables Participate in the Exercises—Denver Inaugurates an Annual Festival.

FORT WAYNE, Ind., Oct. 17.—The booming of 100 guns opened the centennial celebration in Fort Wayne Tuesday. The bells in the steeples chimed out merry welcome and the shrieking whistles in the many factories added a din that informed every inhabitant that Fort Wayne was 100 years old. The city is beautifully decorated, and Tuesday night was aglow in electric splendor. Huge electrical arches surmounted the street as monuments to Gen. Anthony Wayne, Chief Little Turtle and the early pioneers, who laid the foundations for this city a century ago.

The city is flooded with visitors to do honor to the event. At 9 o'clock Tuesday morning the grand centennial building was opened in a blaze of glory. This is an art loan exhibition hall with a rare collection of Indian relics and ancient curios. Among the relics is Gen. Wayne's campaign badge, now nearly 130 years old. It is a family heirloom. In the afternoon the grand bicycle parade of hundreds of wheelmen was the feature. In the evening the opening meeting was held at the Princess rink, and the large auditorium was crowded to the doors. Mayor C. B. Oakley delivered the address of welcome, to which president P. A. Randall, of the centennial committee, responded. Hon. S. B. McManus read an original poem entitled "Fort Wayne," and Miss Anna Philley recited a sketch.

FORT WAYNE, Ind., Oct. 19.—Thursday was the big day of Fort Wayne's centennial celebration. Incoming trains brought over 20,000 excursionists. The morning was occupied by band and military contests and the game of ball between Chicago and Cincinnati, which resulted in a victory for the former by a score of 11 to 4. In the afternoon the civic, military and industrial parade, over 10 miles long, furnished the grandest street pageant ever presented to our people. Gov. Matthews and his staff and Commander I. N. Walker arrived at night and addressed the meeting in the evening.

panies of militia present in the morning, and in the afternoon there were two sham battles—one between the Indians and old settlers and the other in which 1,800 militiamen participated. The celebration closed at night with a gorgeous display of fireworks.

Milwaukee's Semi-Centennial.
MILWAUKEE, Oct. 18.—The semi-centennial of Milwaukee as an incorporated city is being celebrated in a style beyond anything ever attempted here before.

The distinguished guests present were as follows:

Gov. Jackson and wife, of Iowa; Gov. Clough and wife, of Minnesota; Gov. Altgeld and wife, of Illinois; Gov. Rich and wife, of Michigan; Gov. Upham and wife, of Wisconsin, and Mayor Swift, of Chicago. The governors are accompanied by their staffs. The guests of honor are the old settlers who lived here in 1835—over 150 strong.

At sunrise a salute of forty-five guns was fired by the First light artillery and the United States revenue cutter Andy Johnson. At 10 o'clock the civic parade moved. It was composed of the police, fire and health departments,

SOLOMON JUNRAU, FOUNDER OF MILWAUKEE.

members of the national guard and of the Grand Army of the Republic, Light Horse squadron, First light battery, old settlers and pioneers, high school pupils and pupils of the seventh and eighth grades, and various civic societies.

The parade was reviewed by the governors and other notables present from the grand stand erected on the corner of Grand avenue and Fourth street. At 8 o'clock in the afternoon there was a general reception at the academy of music, with addresses by Gov. Upham and Mayor Koch, an oration by Gen. Frederick C. Winkler, of Milwaukee, and brief addresses by Govs. Altgeld, Jackson, Rich and Clough. Vocal music was furnished by the male choruses of the Arion musical club and Milwaukee musical society, and instrumental music was rendered by the Arion band of Oshkosh. At 3 p. m. there were bicycle races at National park and boat races on the Milwaukee river. In the evening there was an illuminated bicycle parade of wheelmen of the city and state.

MILWAUKEE, Oct. 19.—The second day of the celebration was ushered in like the first, with the booming of cannon and the blowing of whistles, but there was not quite so much of either as on Wednesday morning.

The morning was given over to receptions at the new city hall by the city officials, at the Pfister hotel by the visiting governors and their wives, and at the Plankinton house arcade by the old settlers of the city. An industrial

parade in the afternoon was composed of 300 floats representing the industries of the city.

The semi centennial wound up Thursday night with a grand display of fireworks on the lake shore, witnessed by 100,000 persons.

Denver Has a Holiday.

DENVER, Col., Oct. 18.—Denver was in a blaze of glory Wednesday, the first of the annual festivals of mountain and plain inaugurated this year. The weather was glorious, and over 50,000 people flocked to town from the country districts, taxing the carrying capacities of all the Colorado railroads. The decorations are extensive, the holiday colors—yellow and white—being seen everywhere.

At 1 o'clock in the afternoon the first great parade, the Pageant of Progress, which illustrated the progress of the state from the time when the redmen roamed over mountains and plain up to the present, started on the line of march. Although there had been little time for preparation, some of the floats were very handsome. One of the most magnificent features was a human flag composed of 400 children appropriately costumed and arranged on a stand. The festivities will continue three days.

Wednesday night a trolley musicale was given, bands occupying ten brightly illuminated cars, which moved slowly through the business streets and stopped at stations designated by the festival committee to give open-air concerts to the crowds.

DENVER, Col., Oct. 19.—Never has such a crowd been seen in Denver as that now in attendance at the first annual festival of Mountain and Plain. The railroads estimate that they have brought 45,000 passengers to the city during the last two days. A grand military parade was given Thursday forenoon, in which the federal troops from Fort Logan, the entire national guard of Colorado and grand army posts and Sons of Veterans participated. The parade was followed by drills by both federal and state troops.

DENVER, Col., Oct. 21.—Upon the sloping surface of the half mile bicycle track at City park fully 50,000 people stood for three hours Friday afternoon watching with intense delight the Ute and the Santa Clara Indians in their games, races and dances.

While this entertainment was in progress at the park, the downtown streets were made wildly hilarious from noon until 6 p. m. by the antics of several thousand people en masque who held the streets almost to the exclusion of traffic.

In the morning there was a brass band contest in front of the mammoth grand stand and a series of miners' drill for prizes at City park. Crowded into the day's programme was a parade of the city fire department, the apparatus lavishly decorated with the carnival colors.

At night the mysterious Order of the Silver Serpent gave a parade under the thousands of colored incandescent lights which make Sixteenth street so beautiful. Several thousand dollars had been expended by the order upon their floats and the effect was dazzlingly brilliant, rivaling the best efforts of New Orleans mardi gras.

The festival of mountain and plain closed at a late hour by a reception held at the Brown Palace hotel by the officers of the Silver Serpent order, and a grand ball participated in by the slaves and invited guests.

The Moose.
O hunter of the modern solitudes
Beyond the shaggy fells of Saranac,
And of the swampy jungles vast and black
Of Adirondack, and of the hemlock woods—
Thou art the child of nature's wildest moods.
Half brother to the hemlock and the tamarack,
And the strange loon, whose yell demoniac
Rings o'er the coaves where breathless silence
broods.

They knew thee not in that far golden morn
When earth rejoiced in ever-blessed youth,
Or Sylvan Pan, sweet nature's dearest child,
Had stolen much of thee, O forest born;
Thy shaggy head fern horned, thy form uncouth,
Thy heart untamed, the wildest of the wild.
—Fred L. Pattee, in Springfield Republican.

The Night and the Day.
The forest fires are blazing now—
So beautiful are they and bright!
They tint the mountain's rocky brow
And give a softness to the night.

So oft our doubts in darkness seem
To light the sky with rosy ray,
But waking from the midnight dream
A pall of smoke obscures the day.
—Flavel Scott Mines, in Harper's Weekly.

HIS SAD LOT.

An Aged Knightsville Miner's Story.

From the Democrat, Brazil, Ind.
Mr. Alexander McCallum, of Knightsville, Indiana, was a sufferer for many years with rheumatism. A reporter of the Democrat visited him at his home in Knightsville and was told by him the following story:

"So you want to know how bad I was and what cured me. For a number of years past I have been a terrible sufferer from that excruciating painful affliction, chronic rheumatism. For years I have suffered more or less with this painful malady, sometimes I would be so afflicted that I could get no relief day or night, nothing gave me relief. I could not get around without a cane for years, and often if I dropped it I could not stoop to pick it up. I was a sufferer, more or less, almost all the time, and sometimes I would get a little better and would try to work. I remember one time I was taken very bad with rheumatic pains while at work, and it took me more than two hours to walk home, a distance of less than a mile.

"During all these years I had spent nearly all my wages in paying doctor's bills and buying medicine, but kept gradually growing worse, until I could not walk without the aid of my cane, and one of my legs had begun to become paralyzed and to shrink away. Mr. Mack Rogers, of Brazil, sent me an article of Dr. Williams' Pink Pills for Pale People and told me to read it. I did so and was induced to try the remedy. I bought a box and began taking the pills, however, with but little faith in them, as everything else had failed to give me relief. I had not taken the first box until to my astonishment and great joy the pains were less severe, and farther apart, by the time the contents of the first box was gone, I was greatly relieved, and I purchased the second box. My condition continued to improve and I kept buying pills until I am at last free of pain, eat well, sleep well, and can do a day's work once more, have thrown away my cane, and can get around spry and quick, have outgrown my clothes and have gained more than twenty pounds in flesh since I began taking the pills. They are the greatest pills on earth to-day. I have great faith in them, and can conscientiously recommend them to anybody. I am almost a new man again, thanks to Dr. Williams' Pink Pills."

The reporter further confirmed this story by asking McCallum if he would verify this statement before the proper officer, and he subscribed to the following affidavit:
Subscribed and sworn to before me this 11th day of July, 1895.
HOWARD ROGERS, Justice of the Peace.
That there is virtue in these pills is evident from the fact that Geo. H. Came, the Knightsville druggist, states to the reporter that he sells more of these pills than of any pills in his store, and that he sold them to Mr. McCallum, and he knows that they will do the work they are claimed to do.

Dr. Williams' Pink Pills contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are also a specific for troubles peculiar to females, such as suppressions, irregularities and all forms of weakness. In men they effect a radical cure in all cases arising from mental worry, overwork or excesses of whatever nature. Pink Pills are sold in boxes (never in loose bulk) at 50c a box, or six boxes for \$2.50, and may be had of all druggists, or direct by mail from Dr. Williams' Medicine Co., Schenectady, N. Y.

Sarsaparilla Sense.

Any sarsaparilla is sarsaparilla. True. So any tea is tea. So any flour is flour. But grades differ. You want the best. It's so with sarsaparilla. There are grades. You want the best. If you understood sarsaparilla as well as you do tea and flour it would be easy to determine. But you don't. How should you?

When you are going to buy a commodity whose value you don't know, you pick out an old established house to trade with, and trust their experience and reputation. Do so when buying sarsaparilla.

Ayer's Sarsaparilla has been on the market fifty years. Your grandfather used Ayer's. It is a reputable medicine. There are many sarsaparillas. But only one Ayer's. IT CURES.

A Sufferer Cured

"Every season, from the time I was two years old, I suffered dreadfully from erysipelas, which kept growing worse until my hands were almost useless. The bones softened so that they would bend, and several of my fingers are now crooked from this cause. On my hand I carry large scars, which, but for

AYER'S

Sarsaparilla, would be sores, provided I was alive and able to carry anything.

Eight bottles of Ayer's Sarsaparilla cured me, so that I have had no return of the disease for more than twenty years. The first bottle seemed to reach the spot and a persistent use of it has perfected the cure."—O. C. DAVIS, Wautoma, Wis.

Mortgage Sale.

DEFAULT having been made in the conditions of a certain mortgage made by Erasmus R. White and Sarah J. White, of the City of Ann Arbor, Washtenaw County, Michigan, to Charles H. Kempf, of the Village of Chelsea, county and state aforesaid, dated August 30th, 1893, and recorded in the office of the Register of Deeds for said county, on the 19th day of September, A. D. 1893, in Liber 81 of mortgages, on page 578, on which mortgage there is claimed to be due at the date of this notice one thousand nine hundred and twenty-five dollars and eight cents, and no suit or proceeding at law or equity having been commenced to recover the moneys secured by said mortgage or any part thereof.

Now, therefore, notice is hereby given that by virtue of the power of sale contained in said mortgage, and the statute in such case made and provided, the said mortgage will be foreclosed on the 11th day of January, 1896, at 10 o'clock in the forenoon of that day, at the south front door of the Court House in the City of Ann Arbor, Washtenaw County, Michigan (that being the place for holding the Circuit Court for said county), by a sale of the said premises therein described, or so much thereof as may be necessary to pay the amount then due on said mortgage, together with the cost of this proceeding and the attorney fee of thirty dollars provided for in said mortgage, as well as any taxes or insurance that may become a charge against said premises. Said premises to be sold are described in said mortgage as follows: To wit, lot three (3), block four (4); north range ten (10), east Lawrence and Maynard's addition to the Village (now City) of Ann Arbor, Washtenaw County, Michigan.

Dated October 17th, 1895.

Regular examination for second and third grades, at Ann Arbor, the third Thursday of October, 1895, and the third Thursday of June, 1896.

Special examination for third grade, at Maumet, the third Friday of September, 1895. Wm. W. WEDMEYER, Commissioner of Schools.

Shoe Superstitions.

When you buy a pair of new shoes, never put them on a shelf higher than your head, unless you want to bring bad luck; and if you blacken them before you have had both shoes on you may meet with an accident or even have a sudden death. This is an old Irish superstition.

The Scottish girls believe that if they drop their shoes before they are worn trouble will ensue, while a French lady losing her heel is sure of some disappointment in love, and a German mother in the same predicament feels that she will soon lose one of her children.

You must not put your right shoe on your left foot, or your left on your right, unless you want bad luck. This superstition dates back to one of the emperors of Rome, who, it is recorded, put on his left shoe first one morning, and came near being assassinated during the day.

A sign of respect the Japanese take off their slippers when they meet in the street, and the Jews used to pluck off one of theirs to confirm a bargain. Throughout the east, when an inferior enters the presence of his superior, he leaves his shoes or slippers at the door.

Forestry.

If there were more forests in Southern Michigan there would be more birds, fewer insects, less severe drouths and larger crops. No state was more richly endowed with timber than Michigan, and in none has it been so wickedly slaughtered and wasted. The great lumber corporations, that knew little and cared less about anything save the present dollar, have been of incalculable injury to the state. When they commenced invading the forests years ago they would cut down a tall pine, saw off two butt logs, and leave the rest for destructive fires to consume. These destroyers of trees were worse for Michigan than the Vandals were for Rome, and all the time the farmers thought it was smart to allow themselves to be taxed two dollars a thousand feet on all the lumber they used to hurry up to destruction. What is the result? Three-quarters of the high grade lumber sold by Smith & Adams in Jackson, for example, comes from the far-off state of Washington or from the South. But the worst of all is the effect of denuding the hills of their natural covering, which is seen in severe drouths, greater changes of temperature and increased dangers to crops. Farmers should study forestry. Ben Hathaway, of Cass county, has done so to great advantage, and find his acres of woodland as profitable as any part of his farm, and he does not allow the number of trees to become less. Eugene Davenport, of Barry county, said at a public meeting a few years ago that his maple woods earned him ten per cent on a valuation of \$100 an acre. What is needed is not only to save all the forests now standing on farms, but to increase them.

La Grippe.

During the prevalence of the Grippe the past seasons it was a noticeable fact that those who depended upon Dr. King's New Discovery, not only had a speedy recovery, but escaped all of the troublesome after effects of the malady. This remedy seems to have a peculiar power in effecting rapid cures not only in cases of La Grippe, but in all Diseases of Throat, Chest and Lungs, and has cured cases of Asthma and Hay Fever of long standing. Try it and be convinced. It won't disappoint. Free Trial Bottles at F. P. Glazier & Co's Drug Store.

Women Tempt Pickpockets.

Little sympathy is aroused in the average man when he hears that a woman of the day has been a victim of pickpockets, and, as a rule, if he is at all outspoken, his comment will be: "It served her right." Most men think, and there is reason in their idea, that the dress of a woman today is an invitation to the light-fingered gentry. She wears her watch dangling from a fragile chain, the other end of which is attached insecurely to her belt or pinned to the dress waist; or she may reverse the order of things and put the watch in her belt, while from it a light chain depends, and on that she wears a charm frequently as heavy as the time-piece itself. In either case a deft thief could disengage the entire outfit without much effort. The practice of carrying the pocket-book in the hand is a careless one, and women who lose their purses have only themselves to blame. The man or woman who would make a name for himself or herself should devise a safe and convenient pocket for a woman's dress. Ex.

In many cases the first work of Ayer's Sarsaparilla is to expel the effects of the other medicines that have been tried in vain. It would be a saving of time and money if experimenters took Ayer's Sarsaparilla at first instead of at last.

Odds and Ends.

Buyers of feeding sheep are doing a big business, and the demand seems to be largely in excess of the available supply.

Hip Sing Lee, a rich Chinaman, offers an interest in his business and \$5,000 in cash to any American who will marry his daughter Mei. Mr. Lee is afraid somebody will kidnap Mei if she doesn't get married soon. Now, boys, here is a chance of a lifetime. Hip Sing's address is San Jose, Cal.

A farmer sends up the following wall: "It's scarcely any wonder that lines are on my brow; it's hard to make a living as things are going now. I plant nice potatoes and set down to watch them grow, when comes the frost a whooping and lays the blamed things low. I plant some little seedlets to raise some succotash; my neighbor's hens come over and scratch them all to smash; I had a little arbor in which to snooze and rest; a cow came in and climbed it and sent it 'galley west.' I bought a dozen egglets (they cost so much I cried); they hatched a lonely chicken, and that went off and died. The insect ate the cabbage, the worms have nailed the corn; my horse has got the glanders, my cow has lost a horn; my pig has got the measles and squeals unseemly tunes, my geese are hunting water, and I am full of prunes."

The Cosgroves.

The bright lights of comedy, drama and concert. This attraction, which will be seen at the Chelsea Opera House on Tuesday evening, Oct. 29, 1895, under the auspices of the W. R. C., for the benefit of the Soldiers' Monument Fund, and for which seats are now on sale at J. W. Beissel's, is what is designated a high class yet popular entertainment. That is, the fun is all clean, and in bringing about the hurricane of laughter which characterizes the performances, there is no recourse to the variety business which figures so largely in the average "comedy" entertainment.

The Cosgrove Company is made up of the very best material in the land, and have succeeded in pleasing large audiences from ocean to ocean on both the Canadian and American sides of the line with their novel and artistic music and comedy and dramatic selections.

Many Perfumes.

It is an interesting thing to know that 4,200 species of plants are gathered and used for commercial purposes in Europe. Of these 420 have a perfume that is pleasing and enter largely into the manufacture of scents, soaps and sachets. There are more species of white flowers gathered than of any other color—1,124. Of these 187 have an agreeable scent, an extraordinarily large proportion. Next in order come yellow blossoms, with 951, 77 of them being perfumed. Red flowers number 823, of which 84 are scented. The blue flowers are of 594 varieties, 34 of which are perfumed, and the violet blossoms number 308, 13 of which are pleasantly odoriferous.
