### John Burns, Sr.

Mr. John Burns, Sr., of the town of Sylvan, passed peacefully away, after a lingering illness, on Thursday, Feb. 27, 1896, at the advanced age of 88 years.

Mr. Burns was one of the oldest citizens of the town, highly respected by all who knew him, a devoted husband and father, and a man of a high order of intelligence. He was an exemplary member of St. Mary's church, Chelsea, and from that church his funeral took place last Monday morning, March 2, 1896, at 10:30 o'clock. His many relatives, friends and neighbors filled the church. The Rev. William P. Considine officiated and preached an eloquent sermon on "Death." The remains were conveyed to St. Mary's cemetery, Sylvan, to rest beside his kindred.

Mr. Burns is survived by his widow, his son John, and four daughters, Mrs. Hollywood, of Jackson; Mrs. Edward Savage and Mrs. John Keelan, of Sylvan, and Mrs. George Nuffer, of Waterloo. May his soul rest in peace.

## THE NEWS.

Compiled From Late Dispatches.

### CONGRESSIONAL.

The Proceedings of the First Session.

Senator Morrill offered a resolution in the senate on the 25th to take up the tariff bill, but it was defeated by a vote of 33 to 22. The Cuban question was taken up, and Senators Morgan, Lodge, Stewart and Call spoke in favor of recognizing Cuban belligerency....In the house the Indian appropriation bill was passed and resolutions were reported from the foreign affairs committee censuring Ambassador Bayard for portions of speeches he delivered in England.

In the senate on the 26th Senator Allen (Neb.) offered a substitute for the pending Cuban resolution. It authorizes and requests the president to issue a proclamation recognizing the independence of the republic of Cuba. Senator Carter (Mont.) in speaking on the tariff bill charged the republicans in the senate and house with deserting the republican national platform on both the tariff and money questions, and with taking their orders from the white house, where a democratic president is in command. He said he believed that the protection of American industries was necessary to American prosperity, but the free coinage of silver was equally essential and the two would hereafter go hand in hand....In the house a bill was introduced for the erection of a national mint at Chicago. The Van Horn-Tarsney contested election case from the Kansas City (Mo.) district occupied most of the session.

Senator Vest spoke in the senate on the 27th in favor of recognizing Cuban independence. The army appropriation bill, carrying \$23,279,000, was passed....In the house resolutions were presented declaring it to be the sense of congress that a state of war exists in Cuba; that the insurgents be given the right of belligerents, and that it is the sense of congress that the government of the United States use its influence to stop the war, if necessary, by intervention, and pledging the support of congress. After debate the vote on the resolutions was postponed one day. John C. Tarsney (dem.), from the Fifth Missouri district was unseated, and his opponent, Robert T. Van Horn (rep.), was seated.

By a vote of 64 to 6 the senate on the 28th ult. adopted a concurrent resolution favorable to Cuban belligerency and independence. The main feature of the debate was the speech of Senator Sherman, chairman of the committee on foreign relations, who arraigned Spain and her government in the most scathing language....The entire day in the house was spent in the consideration of the legislative appropriation bill, and considerable progress was made. The speaker presented the president's veto of the bill to lease certain lands in Arizona for educational purposes.

## SINFUL HABITS IN YOUTH LATER EXCESSES IN MANHOOD MAKE NERVOUS, DISEASED MEN

THE RESULT of ignorance and folly in youth, overexertion of mind and body induced by just and exposure are constantly wrecking the lives and future happiness of thousands of promising young men. Some fade and wither at an early age at the blossom of manhood, while others are forced to drag out a weary, fruitless and melancholy existence. Others reach matrimony but find no solace or comfort there. The victims are found in all stations of life—The farm, the office, the workshop, the pulpit, the trades and the professions.

Wm. A. Walker of 16th Street says: "I have suffered untold agonies for my 'venereal life.' I was indiscreet when young and ignorant. As 'One of the Boys' I contracted Syphilis and other Private diseases. I had sores in the mouth and throat, bone pains, hair loose, pimples on face, finger nails came off, emissions, became thin and dependent. Seven doctors treated me with Mercury, Potash, etc. They helped me but could not cure me. Finally a friend induced me to try Drs. Kennedy & Kergan. Their New Method Treatment cured me in a few weeks. Their treatment is wonderful. You feel yourself gaining every day. I have never heard of their failing to cure in a single case."

CURES GUARANTEED OR MONEY REFUNDED

Capt. Chas. Ferry says: "I owe my life to Drs. K. & K. At 14 I learned a bad habit. At 21 I had all the symptoms of Seminal Weakness and Spermatorrhoea. Emissions were draining and weakening my vitality. I married at 24 under advice of my family doctor, but it was a sad experience. In eighteen months we were divorced. I then consulted Drs. K. & K., who restored me to manhood by their New Method Treatment. I felt a new life thrill through my nerves. We were united again and are happy. This was six years ago. Drs. K. & K. are specialists and I heartily recommend them."

We treat and cure Varicocle, Emissions, Nervous Debility, Seminal Weakness, Gleet, Stricture, Syphilis, Unnatural Discharges, Self Abuse, Kidney and Bladder Diseases.

### Washington Letter.

WASHINGTON, Feb. 28, 1896.—Senator Allen, of Nebraska, did a very unusual thing when he presented the ultimatum of the Populist Senators to the Republicans on the tariff bill. He said that if the Republicans would agree to vote for an amendment to the bill providing for the free coinage of silver the Populist Senators would furnish the votes needed to put the amended bill through the Senate. Of course Senator Allen knew that his proposal would not be accepted, and he probably made it only for the purpose of taunting the Republicans who were already in a bad humor because of the refusal of free silver Republicans to support the tariff bill.

Senator Carter's explanation of why he and four other silver Republicans refused to vote for the House tariff bill was far more satisfactory to the Populist and silver Senators on both sides of the chamber than it was to the other Senators. He was especially bitter in what he said of President Cleveland and what he called his Republican supporters in the Senate.

The talk on Cuban affairs in Congress has brought a powerful Spanish lobby to Washington for the purpose of trying either to head off any action or to make the action taken meaningless so far as it will commit this government in favor of the Cubans. Spain is said to be hard up, but it seems to have money enough to hire an army of spies scattered throughout the United States to watch everybody suspected of strongly sympathizing with the Cubans, and to maintain a lobby in Washington which is spending money freely to influence the opinion of Congressmen. The friends of Cuba in Congress are expressing the opinion that members of the administration are much more zealous in placing United States officials under the orders of the Spanish minister, to capture alleged filibustering parties bound for Cuba, than is actually necessary to strictly maintain the neutrality laws.

"He laughs best who laughs last" is ancient, but it is none the less applicable to the present situation in the Senate. The Republicans have been doing considerable laughing at the Democrats because of the financial differences between the Cleveland wing and the silver wing of the party, but the Democrats had their laugh when the open split between the gold Republicans and the silver Republicans took place on the floor of the Senate, showing that it was but another instance of "the pot calling the kettle black" for either of the old parties to laugh at the other on account of financial differences. However, it was nuts for some of the Democrats to hear Senator Morrill, apparently following the advice lately given by Secretary Carlisle, by trying to read the silver men out of the Republican party, and Senator Teller replying that although the silver men could get along without the party better than the party could get along without them, they did not intend to allow themselves to be read out because they declined to change their financial views to accord with those held by the Cleveland democracy and the Morrill republicanism of the country. He said the silver men would stay in the Republican party until they got ready to get out.

The A. P. A. won a decided victory this week when the House amended the Indian appropriation bill by providing that none of the money therein appropriated should go to Catholic Indian schools. It is a question whether the Senate will strike out that amendment. The Senate has already shown, by confirming the nomination of Gen. Coppinger, that a large majority of its members are opposed to the A. P. A., but sudden changes are not unknown in that body.

The limited chances that a bill favorable to the building of the Nicaragua canal with government assistance, either direct or by guarantee of the canal company's bonds, had to get through Congress at this session have been materially lessened by a determined crusade against the canal under any conditions, on the ground that it would, if constructed, be more of a menace to the peace of the United States than a benefit commercially. The friends of the canal still express confidence that a favorable bill will pass the House and the Senate, but that is just what they are here to say. This new crusade may or may not have any more substantial backing than the desire of the owner of the New York Herald to get notoriety for his paper, but it will all the same influence nine men out of every ten who were in doubt to declare against the canal. To that extent the crusade will be a factor in the situation.

Ambassador Bayard may as well brace himself to receive that House resolution of censure for having spoken slightly of Americans and American affairs, as he will get it very soon. The resolution has been reported to the House, and it is going to be adopted, sure pop.

The following ordinance was presented:  
ORDINANCE NO. 84.

An ordinance granting a franchise to  
Lynn L. Gorton to set poles and string  
wires for a telephone exchange in the  
village of Chelsea.

The village of Chelsea ordains:  
Sec. 1.—Consent, permission and au-  
thority is hereby granted to Lynn L. Gor-  
ton, his heirs, successors and assigns, for  
the period of thirty years, to construct,  
operate, maintain in and run in the  
streets, lanes, alleys and other public  
places in the village of Chelsea all need-  
ful and proper poles, mains, wires, pipes  
and other apparatus to be used for the  
transmission of electricity for the purpose  
of telephone communication, subject to  
the conditions imposed in the succeeding  
sections.

Sec. 2.—In constructing and extending  
said plant the said Gorton, his heirs, suc-  
cessors and assigns shall only be permitted  
to set poles in the streets, alleys and pub-  
lic places in said village at such places as  
the Common Council shall designate, and  
immediately after setting any pole or  
poles, said Gorton, his successors or as-  
signs shall restore the streets, side-  
walks, alleys and public places to the  
same condition on the surface as the same  
were previous to setting any pole or poles,  
and shall keep and maintain said surface  
around said poles, as near as may be, in  
like condition as before the ground was  
broken for their use, provided, however,  
and the said Common Council of said  
village hereby reserves the right to order  
said Gorton, his heirs, successors or as-  
signs to change the location of any such  
pole or poles, and the owner or owners of  
said plant to forthwith make such changes  
in the location of said poles as said Coun-  
cil may direct.

Sec. 3.—Whenever it may be found  
necessary to make repairs on said plant,  
the owner or owners thereof shall take  
care not to unnecessarily obstruct or in-  
jure any street, alley or public place, and  
shall with reasonable diligence restore  
such streets, sidewalks, alleys or public  
places to as good a state of repair as the  
same were before said repairs were made;  
provided further that in constructing said  
plant care shall be taken not to unneces-  
sarily or unreasonably obstruct or injure  
any street, alley, sidewalk or public place;  
provided further that if said telephone  
exchange is not in operation by Septem-  
ber 1, 1896, or ceases to be operated for a  
period of thirty days, then the board shall  
have the right to withdraw this ordinance.

Sec. 4.—This ordinance shall take effect  
and be in force from and after its publi-  
cation.

Approved this 26th day of February,  
A. D. 1896, by order of the Common  
Council of said village.

G. W. BECKWITH, President.

FRED W. ROEDEL, Clerk.

Moved and supported that the above  
ordinance be granted.

## Notice of Dissolution of Co-partner- ship.

Notice is hereby given that the firm  
heretofore existing under the style of  
F. P. Glazier & Co., in drugs, groceries,  
etc., etc., at Chelsea, Mich., is this day  
dissolved, Frank P. Glazier having sold  
to his partner, Saxe C. Stimson, his entire  
interest in said business, who assumes  
and will pay any outstanding indebted-  
ness of said firm on presentation. F. P.  
Glazier retires from the business for the  
reason that his stove business demands all  
his time. The name of "Glazier" has  
been prominently associated with the  
drug and grocery business in Chelsea for  
the past twenty-eight years, previous to  
which time the fathers of the undersigned  
did a very successful drug business for  
several years under the firm name and  
style of Glazier & Stimson. Saxe C.  
Stimson will therefore adopt that old and  
honored firm name for the conducting of  
the above business hereafter.

February 27, 1896.

SAXE C. STIMSON.

## A Matter of Opinion.

A gentleman was greatly surprised and  
pleased the other day at the reply a lady  
gave to the question: "Do you plant Vick's  
seeds?" Her answer was: "I always plant  
Vick's seeds in the front yard, but we get  
cheap seeds in the back yard, which I  
know is a mistake."

It pays to plant good seeds, and we ad-  
vise our friends who are thinking of doing  
anything in this line to send 10 cents for  
Vick's Floral Guide for 1896. This  
amount may be deducted from the first  
order. James Vick's Sons, Rochester,  
N. Y., are the pioneers in this line.

## Marvelous Results.

From a letter written by Rev. J. Gun-  
derman, of Diamondale, Mich., we are per-  
mitted to make this extract: "I have no  
hesitation in recommending Dr. King's  
New Discovery, as the results were almost  
marvelous in the case of my wife. While  
I was pastor of the Baptist church at River  
Junction she was brought down with  
pneumonia succeeding La Grippe. Ter-  
rible paroxysms of coughing would last  
hours with little interruption and it seemed  
as if she could not survive them. A friend  
recommended Dr. King's New Discovery;  
it was quick in its work and highly sat-  
isfactory in results." Trial bottles free at

lar size 50c. and \$1.00.

## TO CORRESPONDENTS.

All communications for this paper should be accompanied by the name of the author; not necessarily for publication, but as an evidence of good faith on the part of the writer. Write only on one side of the paper. Be particularly careful in giving names and dates to have the letters and figures plain and distinct. Proper names are often difficult to decipher, because of the careless manner in which they are written.

JOHN STEMMER, the New York millionaire whose purchase of a granite obelisk for a mortuary monument was noticed some time ago, has had his name translated into Egyptian hieroglyphics. The obelisk when set up will be 65 feet high, and is to be capped with a gilded pyramid.

In London recently occurred the first public sale of frozen salmon from Vancouver, comprising some 443 boxes, the total weight of which was 140 tons. If all goes well the shipments will be made the year round, and Londoners will find salmon available for their tables at all seasons.

FRANCE is one of the best paved countries in the world. The first Napoleon instituted and carried out a road system which gave France the roads which are lasting monuments to the Napoleonic foresight and shrewdness. These roads, always passable, and reaching all the centers of population, are competitors of the railways.

The editor of the London Sporting Times has discovered in a little old church of East Sutton, in Kent, an interesting monument to the second wife of Lawrence Washington, a forefather of George Washington. The monument proves Washington's descent from the founder of Balliol college at Oxford, and the brother of John Balliol, king of Scotland.

FRANCE OWNS more land in Africa than England does by more than 425,000 square miles. But England's possessions are more populous than France's by more than 13,000,000 souls. The most extraordinary feature of the case is, though, that after all the land-grabbing of recent years, 1,486,710 square miles, with 23,919,500 inhabitants, still remain "unappropriated."

DR. SHUCORNS says the oyster, at the commencement of its career, is so small that 2,000,000 would only occupy a cubic inch. In six months each separate oyster is large enough to cover half a dollar, and in 12 months a silver dollar. It bears its age upon its back, and it is as easy to tell the age of an oyster by looking at its shell as it is that of horses by looking at their teeth.

The balloon sent up in Berlin with self-registering instruments to investigate the atmosphere at high altitudes came down with the instruments in good condition in Bosnia. The balloon had reached an elevation of 53,872 feet, over ten miles. The thermometer had made desperate attempts to tell how cold it was ten miles above the earth, but failed. It did the best it could, but its limit was 52 degrees below zero.

At this time, when the eyes of the entire world are turned toward Venezuela, President Crespo has naturally come in for no small amount of attention. He is a well built man; though somewhat heavy and taller by several inches than the statesmen with whom he is connected. His countenance reveals force and determination, and there is a certain suave courtesy about him very rare indeed with South American politicians.

AN English member of parliament, who recently resigned his seat, says that when he was in the house he received and answered 4,000 letters in one year, paid a monthly visit to his constituency some hundreds of miles from town, was called upon to put his hand in his pocket for all sorts of objects in which he took not the slightest interest, and, save on Saturdays and Sundays, never saw his wife and family during the session.

A FEATURE of the fifteenth annual report of the New York state board of health just presented to Gov. Morton is the information concerning the existence of bovine tuberculosis. It appears that the disease has spread to such an extent throughout the state, and particularly in the districts from which New York receives the greater part of its supply of milk, that the destruction of the cattle affected, as required by law, would involve an expenditure of \$1,000,000.

The science of digestion received an important impetus from the knowledge gained by the case of Alexis St. Martin. He was a young Canadian, who received a gunshot wound in the stomach. The wound healed, but left an open fistula, through which the process of digestion could be watched and ascertained from time to time. Through experiments made in his case the time of digestion was ascertained with some degree of correctness—that is, so far as his stomach was concerned.

W. B. TAYLOR, of Omaha, for five years private secretary to Gen. Logan during his senatorial career and clerk of the senator's committee, is now interested in western irrigation matters and fox raising on a large scale in Alaska. He organized the company that first undertook the propagation of blue and silver-gray foxes for the European fur market. The company now has five islands in Alaska under a lease from the government where these animals are domesticated for their fur.

## FOR RECOGNITION.

### United States Senate Would Give Cubans Belligerent Rights.

Text of the Resolutions Adopted—Announcement Cheered in the House—The London Press on the Situation.

Washington, Feb. 29.—By a vote of 64 to 6 the senate of the United States put on record Friday its views and policy in relation to the existing revolution in Cuba. Up to the hour of four o'clock the debate went on, the senators vying with each other in praise of the Cuban patriots and in denunciation of Capt. Gen. Weyler; Senator Sherman characterizing him rather as a demon than as a general. The cruelties of Pizarro and Cortes in Mexico and Peru, and of the duke of Alba, in the Netherlands, were overlooked, and there ran through the debate a hardly concealed contempt for the power of Spain.

Senator Lindsay (dem., Ky.) said he approached the subject from the standpoint of humanity rather than of law. Declarations of sympathy would avail nothing to the Cubans. Declarations that they had progressed to the stage of belligerents would avail nothing. "If the United States intends taking any step that will help these struggling Cubans, that step should be in the direction of the ultimate independence of Cuba," declared the senator. Quoting from international authorities, the senator maintained that a condition now existed in Cuba justifying the United States in considering a proposition for active intervention to restore public order and in behalf of humanity.

The debate closed at four p. m., and then the voting began. Various amendments were voted down or laid on the table by large majorities, and, finally, the vote came on the resolution of the committee on foreign relations as amended by the addition to it of Senator Cameron's resolution for the recognition of Cuban independence.

#### The Resolutions.

The resolutions as passed by the senate are as follows:

"Resolved, By the senate (the house of representatives concurring), that in the opinion of congress a condition of public war exists between the government of Spain and the government proclaimed and for some time maintained by force of arms by the people of Cuba, and that the United States of America should maintain a strict neutrality between the contending powers, according to each all the rights of belligerents in the ports and territories of the United States.

"Resolved, further, That the friendly offices of the United States should be offered by the president to the Spanish government for the recognition of independence of Cuba."

#### No Demonstration.

The six senators who voted against the resolution were Caffery (dem., La.), Chilton (dem., Tex.), George (dem., Miss.), Hale (rep., Me.), Morrill (rep., Vt.) and Wetmore (rep., R. I.).

No applause or demonstration of any kind followed the announcement of the result. On the part of the senators there was undoubtedly a feeling of relief from the great strain of the last few days; and on the part of the immense audience there must have been gratification at the result of the struggle. More than half of the spectators immediately left the galleries—the diplomatic gallery being entirely emptied of its occupants.

#### Action Announced in the House.

Washington, Feb. 29.—The Cuban resolution did not figure in Friday's proceedings of the house until just before the close of the session. Secretary Cox, of the senate, announced to the house the action of the senate, and the house galleries cheered his statement.

#### Views of London Editors.

London, Feb. 29.—In its issue to-day the Standard says it thinks that the action of the senate on the Cuban question places President Cleveland in a highly embarrassing position. Nevertheless, the throwing of the onus of the decision on him is a compliment to his judgment. It is much to be hoped that he will feel strong enough to follow the policy of prudence.

The Chronicle says: "If President Cleveland decides to act upon the resolution of congress, his action will be one that Spain will perforce regard as hostile to her vital interests. Whatever the rights or wrongs of the case, no power would tolerate a request from another power to give independence to a rebellious colony. The doing so would involve abdicating all position of sovereignty. That Spain will do so is inconceivable, yet it is difficult to see what effective opposition she could offer if the United States are determined to follow their good offices by action. The American government, however, is entering upon a thorny road. It must be assumed that it realizes all the responsibilities it proposes to incur."

#### Three Thousand Massacred.

London, Feb. 28.—The Anglo-Armenian association has received a telegram from Constantinople which says that 3,000 Armenians have been massacred at Arabkir, and that the widows and orphans of those killed are in terrible distress from cold and hunger.

Constantinople, Feb. 28.—Inquiries here seem to establish the fact that there is no truth in the story from this city, published in the Daily News of London, that on February 14, the first day of the Ramadan festival, the Turks surrounded the Armenian quarter in Marsovan, ordered the Armenians to accept Islam, and killed 150 who refused to do so.

## B. & O. INSOLVENT.

### Receivers Take Charge of the Railroad's Property.

Baltimore, Md., March 2.—The Baltimore & Ohio Railroad company, one of the oldest and most extensive transportation systems in the United States, and, until recently, one of the most profitable, has confessed its insolvency and gone into the hands of receivers. John K. Cowen, president of the road, and Oscar G. Murray, third vice president, will hereafter operate it for the benefit of the creditors and the bondholders, under the direction of the United States circuit court.

This action was taken Saturday night, after a prolonged struggle against the inevitable, and was the immediate result of the failure of the directors to negotiate loans to provide for interest and other payments due and about to become due. For several years the road has been losing money, and, while the collapse, coming at this time, was a surprise to many, but few believed that it could be averted much longer.

Since the last regular meeting of the directors, two weeks ago, Maj. Alexander Shaw, chairman of the finance committee, and President Cowen have spent a great deal of time in New York in the endeavor to borrow enough money to provide for a large floating debt and the payment of interest amounting to \$400,000, falling due to-day. It was thought, at one time that they would be successful, but President Cowen gave up the fight and returned to this city Friday. Immediately upon his arrival he called a meeting of the directors.

The history of the Baltimore & Ohio is the history of railroad enterprise in this country. It is the oldest chartered railroad in America and the oldest passenger railroad in the world.

Ground was broken for the enterprise on July 4, 1828, by the only then surviving signer of the declaration of independence, Charles Carroll, of Carrollton. No one supposed it would be anything but a horse railroad. Nevertheless it was the original intention to extend its operations to the Ohio river, and the name by which it is known to-day is the name by which it was christened.

On the 22d of May, 1830, the road was opened for business from Baltimore to Ellicott's Mills, 13 miles. The first American passenger car then used was about 12 feet long. One horse was attached, and he was good for eight miles an hour, carrying 25 passengers.

The first American locomotive ever constructed was tried upon this road, being the handiwork of Peter Cooper. It then drew the first passenger car ever propelled by steam upon any railroad in the world (August 28, 1830). Mr. Cooper acting as engineer. It is also recorded that on this occasion Mr. Cooper severely jammed his thumb, which may be set down as the first railroad casualty in history.

The road was opened to Washington August 25, 1835; to Cumberland, November 5, 1842; to the Ohio river at Wheeling, W. Va., January 1, 1853; to Cincinnati and St. Louis, June 4, 1867, and to Chicago, November 23, 1873.

The Baltimore & Ohio system includes 2,065 miles of railway, extending into all parts of the country east of the Mississippi river. Under the management of the late John W. Garrett, of this city, it attained an enviable position among the interest-bearing and dividend-paying lines in the country, and its securities were looked upon as gilt-edged. Its stocks and bonds are largely held for investment purposes in this city, where a public calamity. Johns Hopkins university is one of the largest holders of its preferred stock, and the loss of revenue from that source will be keenly felt by the institution.

## BOOTH TO FORM A NEW ARMY.

### Deposed Salvation Leader Will Organize a Movement.

New York, March 2.—The World says that Ballington Booth is making plans for an independent American Salvation Army, of which he and his wife will be the leaders. He announced the decision to start such a movement Saturday, but it will be several weeks before he can tell just on what lines the work will be undertaken. The deposed commander said in regard to the matter:

"I have received a large number of letters and telegrams from people in all parts of the country, many of them auxiliary members of the Salvation Army. The practically unanimous sentiment expressed in them is that Mrs. Booth and I should organize and lead an independent religious movement. Both Mrs. Booth and myself are strongly inclined to comply with these demands; in fact, I may say that such an organization will be established."

"Considerable time is needed, however, to perfect the plans and details of such a widespread movement. It will be essentially American in character, and we have already received most cordial assurances of support from men and women of prominence in all walks of life. Although most of our former associates in the army have given their allegiance to the new commission, they are watching every movement made by us with the deepest interest. From many of them I have received messages assuring me of their personal devotion."

In another lengthy address—issued Sunday night—Ballington Booth confirms the statement that he and Mrs. Booth will inaugurate a movement in America which will afford them an opportunity to continue their labors for the uplifting of the unchristianized people of the country. The address says: "It is farthest from our desire that such a new and independent movement should be hostile to the one we have labored so long and so hard to uphold."

#### Church Sued for Damages.

Janesville, Wis., March 2.—Abbie E. Perry has brought suit against the First Presbyterian church of Janesville for \$20,000 for a broken ankle sustained in February, 1892, caused by stepping in a hole in the sidewalk in front of the church property. The city was made a party to the suit when it was first started in October, 1892, but an amended complaint is now made in which the city is left out of the action on the claim that the church is liable.

## FEELING IN WASHINGTON.

### Spain Must Apologize for Acts of the Barcelona Mob.

Washington, March 2.—Intense interest centered here in the dispatches showing the demonstrative feelings existing in Spain against the Americans regarding the Cuban question and the statement that the government is increasing its naval force. Copies of the press dispatches were shown to public men interested in the question. No surprise was expressed at demonstrations which have occurred; in fact, such were expected. The speeches in the senate, extracts of which have no doubt been published in the Spanish papers, have had their influence on the masses of the people and have thrown them in an unfriendly move against United States officials. The whole matter is regarded here simply as that of mob violence, of which the Spanish government has not in any manner been responsible.

The violation of the consulate of the United States at Barcelona makes a disavowal necessary by Spain, and the United States probably will inquire of the Spanish government what amends will be made. Spain may be expected to make an expression of genuine regret or proper explanation for the unfortunate occurrence and possibly reparation for the damage done. This, at least, is the opinion of Chairman Hitt, of the house committee on foreign affairs, who from his actual experience in diplomatic usages is well qualified to say what the requirements of international law and custom are in such cases.

Mr. Hitt is confident that the attitude of our own government will be one of great caution at this juncture, and it is not probable that any act or expression that may emanate from it will add to the difficulty of a peaceable and honorable settlement of the trouble. The danger to be apprehended in his mind is solely in some intemperate utterances in congress that may add to the excitement and precipitate a collision unnecessarily.

New York, March 2.—A Journal special from Washington says: The Spanish-American situation growing out of the reports of the riots in Barcelona and other cities in Spain was regarded so serious by the president that he decided to convene a special meeting of the cabinet Sunday night, though the call was issued under the guise of a dinner at Secretary Olney's home. Secretary Olney was promptly advised of the outbreaks in Madrid, Barcelona and other places in Spain by Minister Taylor and the American consuls. He hastened to the white house and laid before the president all the dispatches he had received.

Secretary Herbert was sent for and consulted with regard to the prompt dispatch of naval vessels to the Gulf coast in the event such a step should become necessary. The secretary replied that the government has effective ships ready for active service sufficient for any purpose of emergency.

Secretary Olney was directed by the president to cable immediately to Minister Taylor for further details. Secretary Olney suggested that the president come to his residence at 7:30 o'clock for dinner, and he would invite the members of the cabinet to meet there, and around the table the entire subject could be thoroughly canvassed. This plan was carried out, and the important conference took place Sunday evening.

The dinner conference lasted until after ten o'clock. During the dinner Secretary Olney produced some very important additional information that had come to him by cable. He read a letter from Minister de Lome, the Spanish minister, inclosing a cable message he had received from his government. This message directed the Spanish minister to inform the United States government that Spain was exerting all her power to amply protect the United States legation and consulates, and that he could give assurances that they would be protected from any harm. Also that Americans visiting or residing in Spain would be made safe from the attacks of mobs and other riotous assemblages. The communication from the Spanish minister is couched in pleasant and friendly terms, and reiterates on his own behalf assurances of his government that no outrages should be perpetrated on Americans in Spain.

Secretary Olney submitted another communication, which created profound surprise. It was a message from the Spanish minister of foreign affairs in Madrid, insisting that the United States government disavow the action of the senate as a condition precedent to friendly relations between the two governments.

Of course, this ultimatum of the Spanish minister is regarded as absurd. The only result of the conference at Secretary Olney's was a practical agreement that the secretary of state should promptly respond in kindly terms to the communication of Minister de Lome, and through him thank his government for its readiness to protect Americans and American interests in Spain. The foolish demand for a disclaimer of the senate's resolution will be ignored.

#### Awful Fate of a Lady.

Charleston, S. C., March 2.—Mrs. John Blanche was killed by a South Carolina railroad train on Reid street, her body being completely cut in two at the waist. Her son, who accompanied her, barely escaped death.

## WHITNEY IS HEARD.

### He Denies, Practically, That He Is a Presidential Candidate.

Jackson, Miss., Feb. 29.—The editor of the Clarion Ledger has received a letter from Hon. William C. Whitney, in which he disclaims any knowledge of a movement in this state to circulate a petition requesting him to become a candidate for the presidential nomination by the democratic convention, and requests his friends not to participate in such a movement, as it has not his approval or countenance. He also denies that he is a supporter of the free coinage of silver idea; on the contrary, he considers that theory of finance unsound, and, if adopted, as likely to lead to most evil consequences to the people, their industries and prosperity, and in his opinion is fundamentally wrong and vicious. He says he is a believer in gold and silver as the metallic basis of values and of the world's currency, and is confident that within a time not far distant there will be a concurrence of the nations upon that subject, by which the ratios of value of the two metals, for coinage and currency purposes, will be fixed, and the stability of such values maintained by an international agreement. Until that occurs he believes any action by the United States alone would be disastrous to us, would bring general ruin to our present prosperity and would hinder the true and final solution of the problem. In conclusion, Mr. Whitney says: "These opinions I do not entertain or express as a candidate for the presidency (for which office I have already said I would not be a candidate), but in order that your people who have views differing from these may not be deceived as to mine."

## ROBBERS BECOME MURDERERS.

### Two of the Miscreants Strung Up to a Telegraph Pole.

Warren, Ark., Feb. 26.—A daring and desperate attempt at bank robbery occurred here at three o'clock Tuesday afternoon. The robbers failed to get any money, but the brave cashier, Mr. Adair, lies dangerously wounded, and Mr. T. M. Goodwin, a leading citizen, merchant and bank director, is dead.

Wichita, Kan., Feb. 26.—A special from Wichita Falls, Tex., says two robbers entered the City national bank of that city at 2:45 p. m. and demanded the money of Cashier Dorsey, who resisted them. Shooting began, resulting in the death of Cashier Frank Dorsey and the wounding of Bookkeeper P. P. Langford. Langford's wounds are not serious, being light flesh wounds. The robbers secured several hundred dollars in silver. They then mounted their horses and made a run for their lives.

Wichita Falls, Tex., Feb. 27.—The two men who attempted to rob the City national bank and killed Cashier Dorsey Tuesday, and who were captured and brought to this city, were taken from jail Wednesday night by a mob and hanged to a telegraph pole in front of the bank they tried to rob. The crowd began to gather as soon as the captives arrived, and the first idea was to take the robbers to the public square and burn them to death. This plan was finally abandoned in favor of hanging. The robbers a few hours before the hanging got a sudden call to Amarillo and left the men in charge of a few citizens, who immediately turned them over to the mob.

## JAMESON ARRAIGNED.

### He and Fourteen Others Charged with "Warring Against a Friendly State."

London, Feb. 26.—Dr. Jameson and 14 of his fellow-prisoners were Tuesday arraigned in Bow street police court. The charge against them is "warring against a friendly state."

The case was adjourned for two weeks, the prisoners being admitted to bail in £2,000 each.

Dr. Jameson's entrance to the courtroom was the signal for a remarkable scene. Evidently everyone present was of one mind in sympathizing with him. All were his friends, and all rose and uncovered upon his appearance, giving him hearty cheers. It was in vain that the court officers sought to quell the demonstration. The effort to do so seemed little more than cursory. After the hearing Dr. Jameson's appearance outside the building was the signal for a wild outburst of cheering, throwing of hats in the air and a tremendous pressure to get within reach of the popular idol.

## DUNLOP TO JAIL.

### Chicago Publisher Must Pay the Penalty of His Crime.

Chicago, Feb. 28.—Judge Grossepup refused on Thursday to remit the sentence of two years in the penitentiary that he imposed upon Joseph R. Dunlop, late publisher of the Dispatch. He declined to mitigate its severity by order of commitment to an institution less austere than that at Joliet, and scorned the proposition to listen to barter by freeing the convicted man of the disgrace of serving time by the process of substituting an increased fine for the original sentence.

Dunlop is the editor and publisher of the Chicago Dispatch, a paper which printed advertisements and reading matter of a somewhat shady character, and he was convicted in the United States district court on February 4 of sending obscene matter through the mails. The sentence was a fine of \$2,000 and imprisonment in the penitentiary at Joliet, Ill., for two years.

## SPANISH SPLEEN.

### It Displays Itself in Insults to the United States.

Demonstration in Barcelona on Receipt of News of the Senate's Action—Consulate Stoned and Our Flag Dishonored.

Barcelona, March 2.—The fever of indignation and hate against the United States which seems to have taken possession of the heart of all Spain over the action of the United States senate in recognizing the provisional government of Cuba as belligerents, and in calling upon President Cleveland to use his good offices with Spain to secure the independence of Cuba, culminated in violent scenes here Sunday and an attack upon the United States consulate.

The trouble did not arise out of the spontaneous formation of the mob which did the violence, but was the outcome of a public meeting which had been influenced by fervid speeches. The public demonstration to protest against the United States senate's action was organized by the political leaders, including republicans and men of all shades of political sentiment.

The persons who took part in the disorderly demonstrations clearly had the sympathies of the people with them. The onlookers from the neighboring houses cheered them with the greatest enthusiasm. The balconies and windows were filled with ladies waving their handkerchiefs as the mob passed through the streets.

Herbert W. Bowen is the United States consul general in Barcelona, and H. W. Rider is the vice consul general.

Madrid, March 2.—Dispatches from Barcelona state that an attack has been made upon the United States consulate in that city, notwithstanding the fact that the building was guarded. During the day a procession comprising 10,000 persons, headed by four republican members of the chamber of deputies, paraded through the principal streets of the city as a demonstration against the action of the American senate. A strong guard had been placed about the American consulate in anticipation of trouble. As the procession passed it there were some derisive cries and cat-calls. The crowd tried to force its way into the building, but the police and gendarmes succeeded in driving them away, but not until they had been forced to charge upon the mob with drawn sabers.

While this trouble was going on, the main body of the procession continued its march to the town hall, where the leaders of the demonstration handed to the mayor a strongly worded protest against the action of the American senate, and also against the speeches that had been delivered therein on the Cuban question; it being declared that some of the speakers had grossly insulted Spain and the Spanish government, in defending Cuban bandits and outlaws.

Subsequently a great crowd assembled in the Plaza Cataluna, and a number of patriotic speeches were delivered. The crowd became greatly excited by the burning oratory of the speakers, and after the meeting had broken up, a large number of those who had listened to the words glorifying Spain and denouncing the United States proceeded to the American consulate, where they gave vent to their patriotism by stoning the building, much to the damage of windows thereof. As in previous mob demonstrations in Barcelona, the police were almost impotent to disperse the rioters, who did about as they pleased.

In the evening there was another outbreak of disapproval of the United States and all things American. This time it took the form of publicly dishonoring the American flag. The rioters had purchased somewhere a large American flag, which, after it had been dragged through the streets, was pulled to pieces amid cries of "Long live Spain" and "Down with the Americans." There is still much excitement in the city.

After this outrage on the American flag, the mob became more violent, and a proposition to make a further demonstration against the American consulate was speedily acted upon. The mob proceeded to the consulate, in the meantime arming themselves with stones. Arriving at the consulate a perfect volley of missiles was directed against the shield over the doorway bearing the American coat of arms, which was battered almost to pieces. The mob in some way became possessed of several American flags, which were destroyed amid ribald jests and expressions of contempt for the nation they represented.

The situation was becoming more and more threatening, when reinforcements for the guards at the consulate arrived in the shape of a detachment of mounted gendarmes. The crowd was ordered to disperse, which they sullenly refused to do, whereupon the gendarmes charged them with drawn swords and put them to flight. Several of the rioters were injured by being trampled on. Until a late hour the boulevards were thronged by an excited crowd singing the "Marseillaise" and patriotic Spanish songs.

Popular feeling here is bitter against the United States because of the action of the senate in adopting a resolution favoring the granting of belligerent rights to the Cuban rebels.

As stated in the dispatches Saturday night, the stock market here responded to the excitement, and there was a material decline in purely Spanish and Cuban securities. In view of the financial difficulties under which the government is laboring, this is a most unfortunate time for Spanish securities to decline in value.

The action of Admiral Berenger, minister of marine, in ordering the speedy preparation of six warships and some of the naval reserve vessels of the Spanish trans-Atlantic company for dispatch to the Bahama channel meets with hearty approval. It is very evident that, despite Prime Minister Canovas del Castillo's declaration that if President Cleveland should be compelled to indorse the action of congress it would not provoke an international conflict nor interrupt the friendly relations existing between Spain and the United States, the government is doing its utmost to prepare against any possible contingency. In addition to the warships Petayo, Vizcaya, Oyendo, Maria Teresa, Lepanto and Alfonso XIII, the ministry of marine has ordered that several torpedo boats, and one torpedo catcher be made ready for immediate dispatch in the event of the United States acknowledging the Cubans as belligerents.

Acting under instructions from the government, no group of persons is allowed to approach the United States legation or the house occupied by Minister Taylor.

Havana, March 2.—There has been absolutely no outward demonstration of feeling against Americans here. The city is remarkably quiet. Marquis de Palmerola, secretary to the governor-general, speaking for the government, said that no manifestation would be permitted. The authorities were prepared to check any disturbance. They would follow the example of the central government and would prevent any gathering of the people to protest against the action of the American senate, should such a gathering be attempted. The marquis further said that after the action of the senate upon the belligerency question, and the meaning of belligerent rights were perfectly understood, it would be seen that there was nothing to affect the present friendly relations between Spain and the United States. Strict neutrality for the present would be maintained.

### AWFUL TRAGEDY.

Young Man at Long Island City Kills His Mother and Himself.

Long Island City, L. I., March 2.—Michael Kraemer, 25 years old, shot and killed his aged mother and then put a bullet into his own brain Sunday afternoon. Death was instantaneous in both cases. The Kraemer family consisted of the murdered woman, the suicide and a younger brother named John. They had been entertaining a party of friends from New York. Plenty of drink was supplied. Quarrelling ensued, and Mrs. Kraemer went into the kitchen to urge her son to stop drinking.

Everybody in the house professes ignorance as to what transpired there. They say they were alarmed by hearing two pistol shots in rapid succession. On rushing into the kitchen they found mother and son stretched on the floor, a few feet apart, gasping for breath. There was a bullet hole under Mrs. Kraemer's left ear and near her son's right eye. In his hand he still held a smoking revolver. They were both dead before the police arrived.

### HUNTER OUT OF THE RACE.

Congressman Withdraws from the Kentucky Senatorial Race.

Frankfort, Ky., March 2.—Congressman Hunter, republican caucus nominee for the senatorship, has withdrawn from the contest. He has written a letter relieving his friends from their pledges to support him as caucus nominee. The name of Gov. Bradley has been mentioned in connection with the nomination. It is said that he would not refuse a nomination if offered. The ballot for senator in joint assembly Saturday developed a number of candidates, and showed that no one had been decided upon by the republicans for whom to vote as a unit. It resulted as follows: Blackburn, 61; Hunter and Bennett, 4 each; Stone and Holt 8 each; Duboe and Finley, 7 each; Burnam, 6; Buckner, 5; Blanford, 3; Pratt and Worthington, 2 each; Dyche, Carlisle and Farleigh, 1 each.

### THE WAR IN CUBA.

Spanish Papers Present Interesting Statistics of Its Cost.

London, March 2.—Madrid papers contain some curious official statistics regarding the war in Cuba. According to these there were sent to the island up to March, 1896, 118,000 men. Thirteen thousand of these were sent at the time of the outbreak of the rebellion. The cost of the war thus far is placed at \$50,000,000. For the second year the cost is estimated at \$75,000,000. Each soldier in Cuba cost the government \$500 annually. During the first year 406 soldiers were killed and 3,472 died from yellow-fever.

Husband Valued at \$3,000.

Springfield, Ill., March 2.—The jury in the United States court in the \$5,000 damage suit of Mrs. Mary N. McGhee against the Green Ridge Coal company, of Girard, for loss of her husband, has returned a verdict for the plaintiff of \$3,000. McGhee, while at work for defendant, pushed a car of coal into the open mine, falling with it, there being no guard gate, as provided by law.

### Floral Tracery on Metal.

By chance it has been discovered that even the most delicate tracery of the petals of flowers can be reproduced in metal. During the trial of a new fuse the other day a small leaf fell between a dynamite cartridge and an iron block on which the cartridge was fired. As a result, a perfect imprint of the leaf was left on the iron.

### RESULTS OF MALARIAL AND TYPHOID FEVERS.

A Case Cited in Three Oaks, Mich., That Will Interest Delicate Women.

The Effects of the Fever Were Felt in the Weakest Spots.

### A WARNING TO MOTHERS.

From the Press, Three Oaks, Mich.

Out at Three Oaks, Michigan, lives Mrs. J. S. Flowers, from whom we publish part of a most interesting letter. The first part of the letter was taken up with a description of her sufferings as a result of malarial and typhoid fevers. These consisted of rheumatism, nervous prostration, boils, severe pains in head and back, etc., etc. The feature of her letter, which will be of the most interest, however, follows, and it will interest many women and particularly mothers of young daughters:

"I had also been a sufferer for sixteen years with painful menstruation. Every time I would have to lie down most of the time, as it was impossible for me to stand. At last, as a result of this remedy (Pink Pills), they nearly disappeared. Every time they should come I would cramp and would have to use hot applications, and would take hot slings, teas and every known remedy, but of no avail. After using Pink Pills two months they came on without any pain whatever. It had been two years since there had been any color. The doctors said it might be the turn of life, but as I was too young, only thirty-three, he thought it strange if it was. Now I am just as anyone should be at those times.

"Another trouble I had was a weak stomach from a child. Every little while I would have bad vomiting spells, consequently the doctors found me a very hard patient to treat. My physician said he had spent more time in studying my case than that of any patient he ever had. Several physicians advised me to use an electric battery. We got one and I used it for some time before I commenced using the pills, and continued it for awhile after I began using them, but I found out I could get along as well without it and just depended on the pills.

"When I commenced using them I was so discouraged that I had given up the thought of ever being any better, as after every attack I was so much weaker and more helpless. It seems almost a miracle to me that after trying so many remedies that my medicine should have helped me so much. I can now walk quite a distance without getting very tired, and the bunch on my back is much smaller than it was.

"I can furnish plenty of proof that these statements are all true from friends who have seen me suffer and know just how helpless I was when I commenced using your medicine. I have used in all thirty-two boxes. I am perfectly willing to tell what has helped me and have recommended your pills to several persons who are now using them. I do not believe I would have been alive now had it not been for Dr. Williams' Pink Pills, and am very thankful that there is such a medicine, for they have helped me when everything else failed."

Respectfully,

Mrs. J. S. FLOWERS.

Sworn and subscribed to before me this 19th day of October, A. D., 1896.

Dwight Warren, Notary Public.

Berrien County, Michigan.

Dr. Williams' Pink Pills contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are also a specific for troubles peculiar to females, such as suppressions, irregularities and all forms of weakness. They build up the blood, and restore the glow of health to pale and sallow cheeks. In men they effect a radical cure in all cases arising from mental worry, overwork or excesses of whatever nature. Pink Pills are sold in boxes (never in loose bulk) at 50 cents a box or six boxes for \$2.50, and may be had of all druggists, or direct by mail by addressing Dr. Williams' Medicine Company, Schenectady, N. Y.

### KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

#### Mortgage Sale.

DEFAULT having been made for more than one hundred days in payment of installments of interest due and payable on a mortgage dated October 24th, A. D. 1892, made by Eddie Clark to George A. Koelz and recorded in the office of the Register of Deeds for the County of Washtenaw, in the State of Michigan, on the 4th day of November, A. D. 1892, in Liber 79 of mortgages, on page 255, for which default the said George A. Koelz, by virtue of the right given him by said mortgage, has made and hereby makes the principal sum of said mortgage and the interest accrued thereon now due and payable, on which mortgage there is claimed to be due at the date of this notice, for principal, interest and attorney's fee, as provided for in said mortgage, nineteen hundred and fifty-four dollars.

Notice is hereby given that said mortgage will be foreclosed by a sale of the mortgaged premises at public vendue to the highest bidder on Monday, the 9th day of March, A. D. 1896, at 11 o'clock in the forenoon, at the east door of the Court House in the City of Ann Arbor, in said County (said Court House being the place of holding the Circuit Court within said County), to satisfy the amount claimed to be due on said mortgage and all legal costs, to wit: All those certain pieces or parcels of land situated in the Townships of Lyndon and Sylvan, County of Washtenaw, State of Michigan, known and described as follows, to wit: The south half of the southwest quarter and the northwest quarter of the southeast quarter of section thirty-one (31) in town one south and in range three east (Lyndon). And about sixty acres, more or less, in the northeast corner of the southwest quarter of section six (6), bounded on the north by lands owned by J. Byrnes, on the west by lands owned by Fred Richards, and south by lands owned by James Matt, in town two south, in range three east (Sylvan).

Dated December 11th, 1895  
GEORGE A. KOELZ, Mortgagee.  
G. W. TURNBULL, Attorney for Mortgagee.

### To the Teachers and School Officers of Michigan.

In order to awaken an interest in the beautifying of rural school grounds, the State Agricultural College offers to the first ten school districts in each county that make application, a collection of flower seeds, to be planted upon the school grounds and to be cared for by the children.

They will be selected with reference to their adaptability for the purpose and will be accompanied by directions for their planting and care.

We urge all persons interested in the schools, or in the welfare of the children, to aid in instilling in the pupils a love of flowers and regard for the appearance of the grounds about the schoolhouses, as we believe that it will not only aid in cultivating in them a love of the beautiful, but it will be a means of interesting them in the work of the school room.

Applications should be made as promptly as possible, as we cannot promise to honor any received after the first of April. The seeds with full directions will be sent about April 15.

L. R. TART, Prof. of Horticulture, Agricultural College, Mich.

Regular examination for second and third grades, at Ann Arbor, the third Thursday of October, 1895, and the third Thursday of June, 1896.

Special examination for third grade, at Manchester, the third Friday of September, 1895. WM. W. WEDEMAYER, Commissioner of Schools.

#### Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, dizziness yield to Electric Bitters. 50 cents and \$1.00 per bottle at F. P. Glazier & Co.'s drug store.

### Financial Statement.

DEFAULT having been made in the conditions of a certain mortgage made and executed by Alfred Seitz, of the Township of Pittsfield, County of Washtenaw, State of Michigan, to Luther James, of the Township of Lima, County and State aforesaid, dated March 15th, A. D. 1891, and recorded in the office of the Register of Deeds for said County of Washtenaw on the 15th day of March, A. D. 1891, in Liber 66 of Mortgages, on page 478, which said mortgage was duly assigned by Thomas S. Sears and Lewis W. James, executors of the last will and testament of said Luther James, deceased, to James L. Babcock, by assignment thereof, closed on the 27th day of March, A. D. 1895, and recorded in the office of the Register of Deeds for said Washtenaw County on the 30th day of December, A. D. 1895, in Liber 118 of Assignments of Mortgages, on page 289; by which default the power of sale in said mortgage has become operative, on which said mortgage there is claimed to be due, at the date of this notice, the sum of fifteen hundred and seven dollars (\$1507.00), and that there is still to become due thereon March 15th, 1896, an installment of principal of one hundred and fifty dollars (\$150.00), and also an installment of principal on March 15th, 1897, of fourteen hundred dollars, besides interest thereon since March 15th, 1895, and no suit or process at law or equity having been commenced to recover the moneys secured by said mortgage, or any part thereof.

Now, therefore, notice is hereby given that by virtue of the power of sale contained in said mortgage and the statute in such case made and provided, the said mortgage will be foreclosed on the 27th day of March, A. D. 1896, at eleven o'clock in the forenoon of that day, at the south front door of the Court House in the City of Ann Arbor, Washtenaw County, Michigan (that being the place of holding the Circuit Court for said County), by sale of the said premises therein described, or so much thereof as may be necessary to pay the amount then due on said mortgage, together with the costs of this proceeding and the attorney fee of thirty dollars, provided for in said mortgage. Said premises to be sold are described in said mortgage as follows:

All that certain piece or parcel of land situate in the Township of Pittsfield, in the County of Washtenaw, and State of Michigan, and described as follows, to wit: The east half of the northwest quarter of Section number fourteen (14), in Township number three (3), south of Range number six (6) east, in said State, subject to the right of way of the Detroit & Hillsdale Railroad across said lot.

The above foreclosure and will be made subject to the payment of principal and interest yet to become due upon said described mortgage as hereinbefore stated.

Dated January 22d, 1896.
