GEM SCULPTURE.

Something About the Making of Cameos and Intaglios.
Gem sculpture, or lithoglyphics, is an art of great antiquity, having been practiced by the Babylonians, the Egyptians, the Hebrews and the Greeks. Afterward it sank into decadence, but in the fifteenth century was revived in Italy. It is an art that calls for great elegance of taste and much skill, for on a small stone, generally precious, designs are represented either in raised work, as cameos, or by being cut below the surface, as intaglios.
To comeos the term "minute sculpture" is indeed applicable, for since the days of Greek art celebrated statues have been copied in this way. The first intaglios were the scarabs, or beetle shaped signets, worn in rings by the Egyptians from a very remote period. One side of the stone was shaped like a beetle, the other side was flat, and the name of the king or wearer was cut into it. A hole was then drilled in the stone from end to end, and through it a strong wire was passed to hold it in position in a ring. The flat or seal side was always worn next to the finger, but when used as a seal it was turned.
In the art of gem sculpture the Greeks excelled all predecessors. The Etruscans, contemporary with the Greeks, also attained excellence in gem cutting, and it is said that "on these early gems of Etruscan or Greek origin may be read as in a book the forms of their religion and the subjects of popular interest in politics, song and fable for centuries."
Under Augustus gem sculpture flourished among the Romans, many of them possessing cameos and intaglios of great value, and cabinets of costly gems became numerous. It is said that Caesar sent six cabinets of rare gems to the temple of Venus.
There are many fine cameos and intaglios in the British museum. Among the finest of them accessible to the public are the "Cupid and Goose" intaglio, the "Dying Amazon," the "Laughing Fawn," "Bacchus" on red jasper, and the "Julius Caesar" of Dioscurides. In modern times gem sculpture has reached a high state of perfection and beauty.—Philadelphia Times.
THE FUNCTION OF ETHER.
Without It There Would Be No Light, Radiant Heat or Magnetism.
"Whatever difficulties we may have in forming a consistent idea of the constitution of the ether, there can be no doubt that the interplanetary and interstellar spaces are not empty, but are occupied by a material substance or body which is certainly the largest and probably the most uniform body of which we have any knowledge."
Such was the verdict pronounced some 20 years ago by James Clerk Maxwell, one of the very greatest of nineteenth century physicists, regarding the existence of an all pervading plenum in the universe in which every particle of tangible matter is immersed.

And this verdict may be said to express the attitude of the entire philosophical world of our day. Without exception the authoritative physicists of our time accept this plenum as a verity and reason about it with something of the same confidence they manifest in speaking of "ponderable" matter or of energy. It is true there are those among them who are disposed to deny that this all pervading plenum merits the name of matter, but that it is a something, and a vastly important something at that, all are agreed. Without it, they allege, we should know nothing of light, of radiant heat, of electricity or magnetism. Without it there would probably be no such thing as gravitation—nay, they even hint that without this strange something, ether, there would be no such thing as matter in the universe. If these contentions of the modern physicist are justified, then this intangible ether is incomparably the most important as well as the "largest and most uniform substance or body" in the universe. Its discovery may well be looked upon as the most important feat of our century.—Henry Smith Williams, M. D., in Harper's Magazine.

THE GREAT FOUR-C REMEDY

FOR
LA GRIPPE.
For Sale by R. S. Armstrong & Co.

What if Not Miracles?
The great Four-C Remedy is doing work wherever introduced as nearly miraculously as it ever falls to the lot of any human agency to do (I will esteem it a favor for any one interested to write the persons whose names appear below or anyone whose name may appear among these testimonials.)
My aim is to convince the public of my sincerity and of the true merits of this remedy.

BENEFACTORS OF THE RACE
Office of "KROPHINER TRUSS,"
Kingfisher, Okla., Dec. 12, '96.
GENTLEMEN—I believe it my duty to write you a line in regard to the beneficial effect of Phelps' "Four C Remedy," so far as I am personally concerned. A week ago last Thursday, I was taken with a severe attack of la grippe and in a short time became so hoarse I could not speak above a whisper. The night previous I had coughed nearly the entire night, and in a short time a teaspoonful and kept the entire night as sweetly as ever I did in my life, not coughing once. I was entirely relieved before taking one bottle, Phelps' Cough, Cold and Croup Cure should be in every household in the land. I send you this wholly unsolicited by anyone, for you are benefactors of the race in giving it the antidote for some of the worst afflictions to which it is heir.
Very Truly Yours,
C. J. NEESBURY, Editor.

UNBROKEN REST AT NIGHT.
J. B. HULLIS, Manager,
Office Commercial Printing Co.,
160 South Clark St.,
Chicago, Nov. 24, '96.
R. E. Phelps, Esq., City.
DEAR SIR:—I wish to bear testimony to the great efficacy of your "Four C" remedy in la grippe and lung ailments. As a rule I have been skeptical of the merits of proprietary medicines, but I am convinced that at least one remedy made out of the least objection, from children to young men, and it is particularly noticeable that it is almost immediately effective. A single dose will almost always relieve the most violent of coughs, broken rest at night. In my family "Four C" is simply indispensable and I recommend it to all qualifiedly.
Yours,
J. B. HULLIS.

A MIRACLE.
Kansas City, Kansas, Dec. 24, '96.
Last Friday, Dec. 19, my attending physician stated unless I was better by morning he could do nothing for my relief. That night I commenced taking Phelps' "Four C" remedy, stopped all other medicines. The first dose stopped my cough; slept and rested well; a few more doses removed all soreness from my lungs; the second day I was up; the third day I was out on the porch and to-day was up town purchasing holiday goods.

ACUTE LARYNGITIS.
Chicago, Sept. 25, '96.
For years back each winter I have suffered with acute Laryngitis. Last winter was especially bad. I could not leave my room for two weeks except above a whisper. I tried every known remedy, no relief, then in desperation I was induced to try Phelps' "Four C." The first dose stopped my cough, giving me the first night's rest in weeks. Half the bottle cured me. I have never been without this wonderful remedy since. It is as different from other like remedies as ammonia is from vinegar or sugar from sand.
Mrs. JOSEPH E. GERRARD,
5313 Madison Ave.

IT IS A MIRACLE.
Conductor Eckard, the Railroad Conductor of the Neobasis Express Register, Mackinac to say of "Four C." "Phelps is having a wonderful sale of his Cough and Cold Remedy. Personally know it is just what it is represented to be. Too much cannot be said in its praise. It is a miracle."
NOTICE TO DRUGGISTS AND THE PUBLIC.
CONTRACT.—Druggists are authorized in ALL CASES TO REFUND THE PURCHASE PRICE, if the Four-C Remedy (Phelps' Cough, Cold and Croup Cure) fails to give satisfaction in Croup, Bronchitis, Asthma, La Grippe, Coughs and Colds, no matter how long standing, or deep seated, in fact I guarantee in all cases Bronchial or Lung trouble, not as a Cure-All, but to give unbounded satisfaction. Give it a trial on the above conditions. I take all chances.
