### Workingmen's Ticket.

MUNICIPAL OWNERSHIP PLANK OF OUR PLATFORM.

There seems to be considerable difference of opinion, as to whether the people of Chelsea are in favor of owning and operating their own Water Works and Electric Light Plant.

The only way to settle this matter is to submit the question to a vote of the people.

If the Workingmen's Ticket is elected, we pledge ourselves, should the citizens of Chelsea desire it, to submit this question of Municipal Ownership at a special election, to be held for that purpose, and before doing so, to obtain and give the public all possible information on the subject.

We furthermore promise to use our utmost efforts to transact all Municipal business, of whatsoever nature, in a friendly and honest way, believing that the best and most satisfactory results, either in public or private business, can be obtained only when conducted in that manner.

We are against all lawsuits at public expense, when instigated for the purpose of gratifying the personal vindictiveness of a few, and compelling all taxpayers, by public taxation, to help pay such unwarranted and outrageous expense. Let the few who wish to revel in such expensive luxuries as lawsuits, pay their own law-yers and not impose a public tax upon the people (most of them peaceably inclined) for such purpose.

If you are for peace and harmony, and the growth and prosperity of Chelsea—vote the Workingmen's Ticket next Monday. Respectfully,

COMMITTEE WORKINGMEN'S TICKET

### CHIDED HER MOTHER'S SPIRIT.

Practical Young Woman Didn't Want to Be Aroused at Night.

Kansas City has at least one young married woman who takes a very poetic view of ghosts and so-called spirit manifestations. She was forced to spend a night alone in a St. Louis hotel, her husband being detained elsewhere by business. In the dead of the night she was awakened out of a sound sleep by a tremendous noise in the wardrobe. It was such a sudden and unearthly uproar that the woman, sensible and practical though she was, was frightened. The noise ceased, then returned. The woman jumped up, lighted the gas, and made a thorough search both of the wardrobe and the room. There was nothing so far as the evidence of the senses went which could account for the racket. The woman put out the light and went back to bed. The noise was not repeated.

Six months afterward, however, the woman was in San Francisco, and for the first time in her life, and solely out of curiosity, she attended a Spiritualistic meeting. Almost immediately the medium, a perfect stranger, turned to her and said: "The spirit of your mother is present, madam, and she says that six months ago (naming the precise date) she tried to communicate with you by means of the wardrobe in the Blank hotel, St. Louis."

The woman's practical good sense did not desert her.

"Well, you just tell my mother," she said, "that the next time she wants to communicate with me not to make such an awful racket in the dead of night and frighten me half out of my senses."—Chicago Chronicle.

### AN OVERWORKED BRAIN.

From the Record, Pierceton, Ind.

Determined to rise in his chosen profession as an educator, Ernest Kemper, of Pierceton, Ind., overtaxed himself mentally and physically. He was ambitious, his mind was always on his work. From early morn until late at night he continually pored over his books.

"Burned the candle at both ends,"

Few persons, even with the strongest constitutions, can keep up under such a strain.

In addition to his studies, Mr. Kemper was teaching a school some three miles from his home. Finally, his excessive study and the exposure of going to and from school in all kinds of weather undermined his health.

He was taken to his bed with pneumonia and his overworked brain almost collapsed. For several weeks he was seriously ill.

Catarrh had taken root in his system and his mind was in a delicate condition. He was sent to Colorado where he spent three months without receiving any benefit.

Then a noted specialist from Cleveland treated him with a hot water cure, and then a hospital in Chicago was tried, but all without benefit. Finally his physician recommended Dr. Williams' Pink Pills for Pale People, and from the first box he began to improve.

When he had taken nine boxes he was completely cured. This famous blood and nerve medicine had accomplished what all his former expensive treatment failed to accomplish.

Mr. Kemper says his catarrh has entirely left him; he is strong again and weighs nine pounds more than he ever did. He gives the pills the entire credit. He is starting teaching again and feels abundantly able to continue the work. To prove that the above is true in every respect, Mr. Kemper makes an affidavit as follows: Subscribed and sworn to before me this 10th day of September, 1897.

R. P. WATT, Notary Public. We doubt if these pills have an equal in all the range of medicine for building up a run down and debilitated system.

### MRS. PINKHAM CONQUERS BACKACHE.

Four Women Who Owe Their Present Happiness to Lydia E. Pinkham's Vegetable Compound.

DEAR MRS. PINKHAM:—When I wrote to you last June, I was not able to do anything. I suffered with backache, headache, bearing-down pains, pains in my lower limbs, and ached all through my body. Menstruations were very painful. I was almost a skeleton. I followed your advice and now am well and fleshy, and able to do all my own housework. I took medicine from a physician for over a year, and it did not do me a particle of good. I would advise all suffering women to write to Mrs. Pinkham. She will answer all letters promptly, and tell them how to cure those aches and pains so common to women.—Mrs. C. L. WINN, Marquez, Texas.

I think it is my duty to write and let you know what your medicine has done for me. For two years I suffered with female weakness, bearing-down pains, headache, backache, and too frequent occurrence of the menses. I was always complaining. My husband urged me to try your Vegetable Compound, and I finally did. I have taken three bottles and it has made me feel like a different woman. I advise every woman that suffers to take your medicine and be cured.—Mrs. GARETT LIGHTY, 612 S. Prince St., Lancaster, Pa.

I had suffered for over two years with backache, headache, dizziness, nervousness, falling and ulceration of the womb, leucorrhoea, and about every ill a woman could have. I had tried doctors, but with no success, and it seemed as though death was the only relief for me. After using five bottles of Lydia E. Pinkham's Vegetable Compound, and four packages of Sanative Wash, I am well. Have had no more pain, womb trouble, backache or headache.—Mrs. CLAUDIA HALPIN, Cream Ridge, N. J.

Before taking Lydia E. Pinkham's Vegetable Compound I was afflicted with female complaints so that I could hardly walk. My back ached terribly, in fact, I ached all over. Was not able to raise myself up some of the time. I had no appetite and was so nervous that I could hardly sleep. I have taken but two bottles of your Compound and feel like another person, can now eat and sleep to perfection, in fact, am perfectly well.—Mrs. SUE McCULLOUGH, Adlai, W. Va.

### No Need for Grace.

A tiny girl of seven or thereabouts gave a dinner party the other day, for which 12 covers were laid, and that number of small maidens sat down to dine. It was real little girl's dinner, and the little hostess herself presided, sitting at the head of the table. But she was anxious, in looking forward to it, to do everything as it should be done.

"Mamma," she asked, "shall we say grace?"

"No," said mamma, "it will be a very informal dinner, and I think you need not do that."

That meant one less ceremony to be gone through, and was a relief, but the little lady was anxious to have all her small guests understand it. So, as they were gathered about the table, she explained: "Mamma says that this is such an informal dinner that we need not have grace to-day."—N. Y. Times.

McVicker's Theater, Chicago. Always plays the leading attractions. March 13, James O'Neill in "Virginia," followed by "Monte Cristo" and "The Dead Heart."

The mind requires not, like an earthen vessel, to be kept full; convenient food and aliment only will flame it with a desire of knowledge, and an ardent love of truth.—Plutarch.

Don't bend. Wait a little. St. Jacobs Oil will cure your lame back.

One of the most remarkable marriages on record took place within a few weeks in the parish of St. Marie, Quebec. Two neighbors named Morin and Rheume have each eight children, and four sons and four daughters. Rheume's four sons have married Morin's four daughters, and Morin's four sons have married the daughters of Rheume.

BARN, Vt., has just secured a model for a statue of Robert Burns, to be erected on the park of the Spaulding academy. The model, which is the work of J. Massey Rhind, an Edinburgh sculptor, represents the poet coming home from the field after the day's work, his coat over one arm and a roll of manuscript in his right hand.

The appointment of ex-King Milan as general-in-chief of the Serbian army is assigned to a curious cause. King Alexander's mother, ex-Queen Natalie, it seems, set such a pace in dress and court festivities that the Belgrade husbands could not stand it. They remonstrated with the king, and, as the surest way to keep Natalie out of the capital, her spendthrift husband was invited back.

The regular army of China is said to consist of 323,000 men. Besides this, the emperor's army, there is a national army of 650,000 men, who are paid about one dollar a month. But in consideration of this munificence are required to feed themselves. The cavalry receives \$3 a month, feed their own horses, and, if they are lost or killed, are required to replace them out of the pay given by the government.

ABOARD the Vizcaya there is an English speaking midshipman, Sanchez Farragut by name, who is distantly related to the great American admiral. He is proud of his American relative, and so announced in the presence of his commanding officer. His grandfather was an American and closely related to Adm. Farragut. It is from his mother that the young midshipman gets his Spanish blood.

DURING the civil war the confederate cruisers captured or destroyed 80 ships, 46 brigs, 67 schooners and eight other vessels flying the American flag. The number of men withdrawn from industry to take part in the civil war on the union side was 2,773,468, while the confederates enlisted over 600,000. The expense of the war department in 1862 was \$394,000,000; in 1863, \$599,000,000; in 1864, \$690,000,000; in 1865, \$1,031,000,000.

THERE has been considerable discussion as to the proper pronunciation of Vizcaya. Captain Eulate—pronounced "Ay-co-lah-tay," with the first two syllables run together a little, the third accented and the fourth very short—pronounces his ship's name "Vith-kye-ah," or as near that as an English tongue can get it. The second syllable rhymes with "rye," and is really two syllables, but the two vowel sounds are run close together.

SINCE the overwhelming defeat of home rule for Ireland, when the Gladstone party went to the wall, several years ago, little has been heard of the subject, but the Salisbury ministry has prepared and will doubtless pass a bill which will establish a system of local governing boards to have control of taxes, expenditures, poor relief and all other matters not properly in the jurisdiction of the courts. These county councils are to be elected by the people.

CONSIDERING that the United States army now numbers only 26,955 officers and enlisted men, the addition of two new regiments of artillery is a considerable one. At present there are five artillery regiments, with 292 officers and 3,800 men, so that the proposed addition will increase that branch of the service 40 per cent. The increase is made necessary by the large increase in the number of batteries for coast defense already made or about to be made, which have to be manned.

GERMAN analysis say that the apple contains a larger proportion of phosphorus than any other fruit or vegetable adapted for renewing the essential nervous matter of the brain and spinal cord. Scandinavian traditions represent the apple as the food of the gods, who, when they felt themselves growing old and feeble, resorted to this fruit for renewing their powers of mind and body. A modern maxim teaches us "to eat an apple before going to bed," the doctor then will beg his bread.

A RUSSIAN prince who is fond of Verdi's music has spent \$6,000 to enable himself to hear "Rigoletto" whenever he pleases in his palace at St. Petersburg. The opera is acted by life-sized puppets, whose acting is regulated by machinery, and the singing is done by phonograph. The owner has secured principal parts as sung by the principal artists of Europe, and changes his cylinders in place the owner presses a button, and the opera proceeds automatically.

## UNIVERSITY OF MICHIGAN.

This Is a School in Which All Residents of the Bay State Have a Just Pride.

A WONDERFUL RECORD IN FIFTY YEARS.

Ten of Its Graduates Have Become College Presidents in Various Portions of the Country, Among Them Being One Woman—Interesting Notes and Comments.

[Special Correspondence.]

Ann Arbor, Mich., March 3.—During the first 50 years of its existence Michigan university has had the honor of sending forth ten graduates who became college presidents. It is a record that few universities can show during their early years. Of the class of 1846 Adonijah Strong Welch, A. M., LL.D., became president of the Ypsilanti normal school, and in 1869 was called to the presidency of Iowa state agricultural college.

Park Shattuck Donelson, A. M., D. D., of the class of 1849, after being professor of languages at Albion college, was ordained a minister in the Methodist church and became president of the Ohio Wesleyan Female college.

In the same class of '49 was Hosmer Allen Johnson, A. M., M. D., LL.D., who became professor of physiology in Rush Medical college in Chicago and afterwards president of it.

In 1850 Lewis Ransom Fiske graduated, and in 1878 became president of Albion college, where he still is.

Edwin Willits, A. M., of the class of 1850, became president of the Ypsilanti normal school in 1880, and later president of the Michigan state agricultural college.

Of the class of 1858 Lewis McLouth, A. M., became president of South Dakota agricultural college, whence he resigned in 1896 and is now professor in the University of New York.

One of the best-known and most distinguished of Michigan graduates is Charles Kendall Adams, A. M., LL. D., of the class of 1861. In 1885 he became president of Cornell university, and served until 1892, when he resigned to do historical writing, but decided some months later to accept the presidency of Wisconsin university, where his arrival gave an immediate impulse to the work of the university.

In 1868 Mark Walrod Harrington, A. M., Ph. D. graduated and after holding many distinguished positions and professorships in prominent universities in other states and also in his own alma mater, he became president of the Washington state university at Seattle.

The last Michigan man to become a college president is Henry Wade Rogers, of the class of 1874, who became president of Northwestern university in 1890.

At the close of this list comes the only woman of its number, Alice Freeman Palmer, A. B., Ph. D., 1876. After graduating she was called to the professorship of history at Wellesley college and finally succeeded to the presidency till her marriage with Prof. George H. Palmer, of Harvard. After her marriage she was for two years dean of the woman's department of Chicago university.

The university is justly proud that so many of her students have attained high positions requiring intellectual as well as executive ability.

Has No Superior.

President Andrews, of Brown university, was recently asked why he, president of an eastern college, chose to send his son to the law school of the University of Michigan. He replied, in effect, that while for a purely academic training the eastern schools might have some advantages, yet when it came to preparation for the serious business of professional life there was no place like the west. As a training school for young men who were going into the thick of the fight he thought the University of Michigan had no superior.

Notes of General Interest.

The women students of the university are studying parliamentary law under the direction of a woman graduate of the law department. Last Saturday they were addressed on this subject by Mrs. Emma Fox, of Detroit, one of the ablest women parliamentarians in this country.

Seventy-five medical students from the university recently visited in a body the sanitarium at Battle Creek. Most of the physicians in that institution are graduates of the university.

Three hundred and six Michigan towns and cities are represented by students in the various departments of the state university.

D. M. Ferry, of Detroit, has shown much generosity to the university. He has given \$1,000 to the woman's building, \$250 for a scholarship in botany and money to buy some rare old books for the library.

Town's Severe Loss by Fire.

Ironwood, Mich., March 2.—A special from Watersmeet, Mich., a village 55 miles east of here, states that fire started on Main street and that nearly the whole business portion of the town was destroyed, on account of having no waterworks. No lives are known to be lost.

## THEY EXPECT WAR.

Americans at Havana Think City Could Easily Be Captured.

Havana, March 7.—As the conviction becomes settled that the court of inquiry will decide that there was a mine explosion under the Maine discussion among American naval officers and civilians here is prevalent as to the warlike measures which it is believed the United States government will adopt in case the question of the payment of indemnity by Spain is overruled. A majority believe that American troops will be landed at some point east of Havana and the insurgents communicated with, that the Spanish soldiery will be defeated or captured in detail, and that in the meantime a fleet of United States vessels will blockade, if not bombard Havana. No one seems to doubt that the reduction of this city would be comparatively easy. Four 12-inch guns—two west and two east of the city—are the only ones that are considered dangerous. These are not likely to be well served, while their emplacements are not modern.

That some Spaniards are of the opinion that an attack on Havana will be made is believed to be shown by the abnormal activity displayed on board the Vizcaya. On the best naval authority the statement is made that the Vizcaya is in a constant state of readiness for emergencies, and that picket boats are on the alert day and night inside the harbor and outside the harbor at night. It is pointed out that the men-of-war Vizcaya and Almirante Oquendo might be caught in a blockade and fall an easy prey to the United States fleet. The cruiser Alfonso XII. is without boilers, and would be of no account. All this discussion of the probability of war among the Americans and Spaniards proves nothing, and only shows the state of feeling here.

The conduct of the Spanish divers who are investigating the wreck of the Maine is a mystery. Thus far they have not been down five hours in the aggregate, and they show no disposition to make a thorough inquiry. It is impossible to learn the truth fully regarding the purpose of the Spanish court of inquiry, and it is generally believed that the divers were sent down for form's sake only, and that a report will be made in accordance with instructions from Madrid. It may be that the Spanish divers have discovered that the whole port side of the Maine forward is gone and, having so reported, further examination is deemed unnecessary. The work of our own divers henceforward is bound to be slow, owing to ponderous weights to be moved, and the safety clamps, nuts and rivets that must be cut.

Henri Laine, the correspondent of a New York paper and an alleged French subject, has been arrested and imprisoned in Cabanas fortress. A Cuban newspaper man named Pardo was taken into custody at the same time. Laine was formerly imprisoned upon a charge of active complicity with the insurgents. In addition to Laine, the American correspondent, Vicente Pardo Suarez, editor of La Republica, and 11 others have been arrested, making 13 in all. It is officially stated, from American sources, that two or more American correspondents will be required to return to the United States Wednesday. The prisoners are charged with conspiracy.

Key West, Fla., March 7.—The American colony in Havana is in a feverish state of excitement. Rumors that preparations for war are being made by the United States have reached the city and have caused great consternation. Thirty-eight warships will be at Key West and vicinity within the next 30 days.

Havana, March 7.—The Spanish first-class cruiser Almirante Oquendo arrived in Havana harbor at 8:45 o'clock Saturday morning from Spain. She received a hearty welcome from the ferry boats and tugs, on board of which were the civil and military authorities and different societies which had been waiting for the warship's arrival. The docks were crowded with sightseers, rockets were sent up and flags and other decorations were displayed from the vessels in port, the public buildings and the palaces.

Rome, March 7.—Premier Rudini, of Italy, said Saturday that his country would remain neutral in case of war between the United States and Spain. The people would rise in protest if the government took sides with Spain. Moreover, not a single ship that floats the flag of Italy would be placed at the disposal of Spain.

Philadelphia, March 7.—Another Sunday has witnessed great activity in the League Island navy yard, where old monitors and men-of-war are fast being put in trim for active service in case they should be needed.

BIG MILLS TO RESUME.

Thirty-Five Hundred Employees at Biddeford, Me., Return to Work.

Biddeford, Me., March 7.—The strike of the 3,500 employees of the Pepperell and Laconia cotton manufacturing corporations, which began on January 17, when a general reduction of ten per cent. in wages went into effect, was declared off Saturday afternoon, and the big mills, which have been silent since that date, will start up this morning. The operatives have lost nearly \$210,000 in wages since they came out on the strike and business has been paralyzed.

## BRIGHT TRADE PROSPECTS.

Indications of Unprecedented Activity in Business.

New York, March 5.—Bradstreet's says: "Nearly all signs point to an unprecedented volume of business being done or arranging for the present time. The aggressive strength of prices, record-breaking bank clearings and continued large exports, particularly of the lower-priced cereals, a very heavy volume of business in iron and steel and kindred lines and generally satisfactory reports as to the volume of spring trade at leading distributive centers are among the visible features of the trade development. Nearly all the country's cereal products are higher in prices this week, as also some varieties of provisions, Bessemer pig iron, copper, raw cotton and tin. Few decreases in prices are noted, sugar being the most important, while the list of staples steady and unchanged numbers pork, coffee, lead and print cloths. The strength of raw cotton has had an encouraging effect upon southern trade, which is generally reported good and better than usual at this season. The export of corn from southern ports is an additionally favorable feature, while the practical agreement of southern iron producers as to prices, with generally satisfactory collections at most points, has imparted a decidedly cheerful tone to advances from that section. Trade is larger than usual at the central west, particularly in dry goods, groceries, boots and shoes, hardware, lumber and agricultural implements, the demand for the latter being a notable feature of nearly all markets. Spring trade has opened up well in the northwest, and the jobbing trade is quite active."

TREAT FOR EDUCATORS.

Trans-Mississippi Educational Convention at Omaha, June 23-30.

Omaha, Neb., March 5.—The trans-Mississippi educational convention, which meets in this city on the last three days of June, has been organized to promote the educational interests of the states participating in the Trans-Mississippi exposition. It aims to give teachers and schoolmen the benefits accruing from a great gathering of representative educators interchanging ideas and listening to addresses of recognized leaders in the different branches of pedagogic work. The plan and object of the convention have been indorsed by resolution of the state teachers' associations of Nebraska, Iowa, Kansas, Missouri, South Dakota, Montana, Colorado. The convention will consist of five general meetings and numerous sessions of sections, departments and congresses. For the general meetings the programme will provide addresses by educators of national reputation upon topics of general educational interest. The conference will be under direction of leading specialists in each field.

Wrecking Vessel Founders.

New Orleans, March 5.—A special from Norfolk, Va., reports the loss of the powerful tug Underwriter, of Boston, in a storm off Hatteras. The tug left Norfolk Thursday with the derrick Chief in tow for Havana, where the vessels were to help in the work of raising the Maine. The Underwriter, with her tow, is believed to have had on a crew of at least 30 men. The big derrick Chief, which the Underwriter was towing, is said to be the most powerful vessel of the class afloat, and was sent to Havana chiefly for the purpose of raising the turrets, cannon and other heavy portions of the Maine. The loss of the Underwriter means a further setback to the work now in progress on the battleship at the bottom of Havana harbor.

Was a Cuban Victory.

New York, March 3.—Reports of the recent battle at Holguin, province of Santiago de Cuba, have been received in New York. Instead of the battle being a Spanish victory, as represented from Havana, it was a disastrous defeat, followed by a retreat on the part of the Spanish forces. This information comes through Cuban sources, and is the cause of a great amount of rejoicing in Cuban circles, because the guns and ammunition shipped from Long Island less than a month ago were used in the fight.

Spanish Squadron for Cuba.

London, March 5.—A letter just received here from Madrid says it is definitely reported there that a fresh Spanish squadron destined for Cuba is being organized at Cadiz. It consists of four ironclads, the Carlos V., Pelayo, Alfonso XIII. and another, several gunboats and a trans-Atlantic steamer. Active work is also proceeding upon the torpedo boat destroyers Prosperina, Audaz and Usada, and upon the torpedo boats Habana, Retamoso and Barcelo, which form the second torpedo boat flotilla which Spain is sending to Cuba.

A Rumor Denied.

Newcastle-on-Tyne, England, March 5.—The manager of Armstrong, Whitworth & Co., shipbuilders and ordnance manufacturers, was asked Friday night if it was true, as reported, that Spain had bought the protected cruiser O'Higgins, which his firm has been building for Chili, and the protected cruiser Amazonas (incorrectly called Amazonius), built for Brazil. "The report is entirely unfounded with respect to both ships," the manager answered.

Four Drowned at Cincinnati.

Cincinnati, March 4.—As the Boston steamed out from her wharf Thursday night for Louisville eight colored roustabouts were thrown into the river. Four were rescued and four were drowned. The dead are: Millard Dancy, Louis Jackson, Louis Miller and William Van Dike, all of Louisville. They leave families. The gang plank broke. Ten other roustabouts were starting on to the plank when it broke.

## MICHIGAN STATE NEWS.

Pardoned and Paroled.

Gov. Pingree has pardoned Elgie Stevens, convicted December 31, 1896, of burglary and sentenced at Marshall to three years' imprisonment in the house of correction at Ionia. The governor has also paroled the following prisoners:

Frank Bartlett, sent from Clinton county, February 11, 1897, to the state house of correction at Ionia for two years for assault with intent to do great bodily harm. J. W. Badgley, sent from Mackinac county September, 1893, to eight years at Marquette for criminal assault.

John A. Brown, sent from Wayne county March, 1896, to three years at Ionia for breaking and entering a dwelling house in the day time.

David Smith, sent from Eaton county May, 1896, to three years at Ionia for embezzlement.

Drowned Herself and Child.

Mrs. George Davidson, aged 28 years, left her home in St. Joseph at an early hour with her two-weeks-old babe in her arms and drowned herself and little one in the river. She was missed soon after leaving her home, and her husband started in search of her. On reaching the river bank the wife's shawl was discovered, and the body of the mother was picked up by the tug Andy about daybreak. That of the infant is supposed to have floated out into the lake. The unfortunate woman was in bad health and undoubtedly insane.

Railway Earnings.

Twelve railroad companies have thus far reported to the commissioner of railroads their Michigan earnings for January. These companies earned an aggregate of \$1,213,059, an increase of \$145,856 over the earnings of January, 1897. Commissioner Wesselius estimates that January's increase for all Michigan roads will approximate 15 per cent., traffic having been steadily growing since the first of the year. All the companies report that they have all the business they can handle.

University Change.

The faculty of the medical department of the University of Michigan has advanced the requirements for entrance to the department, the change to take place in 1901. Students entering then will have to present the equivalent of from one to two years of work in the literary department. The combined literary and medical course, which now takes six years for completion, will after 1900 be extended to seven.

Ten Men Killed.

Fire broke out in the Hall chemical works at Kalamazoo, and explosions that occurred killed ten men and injured several other persons. Those killed are:

George Halliday, engine driver; Pat McHugh, pipeman; John Hastings, Jr., hoseman; Charles Whiting, spectator; James Quigley, spectator; William Wager, fireman; L. L. Holloway, druggist; Frank Auwers, fireman; Eugene Dole, fireman; Joseph Clifford, telephone lineman.

A Fatal Explosion.

The boilers in Clark & Acker's shingle mill at Wetmore exploded, killing Hugh Long, a teamster, and Peter Morris, ex-sheriff of Alger county. George Moore was seriously injured and will probably die. Hiram Zantz and Peter Brix also received serious injuries and several others were slightly injured. Cause of the explosion unknown.

News Items Briefly Told.

The annual meeting of the Oakland County Pioneer society was held in the courthouse at Pontiac.

Gov. Pingree has appointed ex-State Treasurer George L. Maltz state banking commissioner to succeed the late J. E. Just.

The National Association of Local Fire Insurance Agents will meet July 15 and 16 at Detroit.

All the street railway property and franchises in Detroit are now owned by the interests represented by Tom L. Johnson, of Cleveland, O., and Albert Pack, of Detroit.

After several years, idleness the paper mill at Dundee is running again.

Anson H. Delamater, one of the pioneers of Columbia, died at the age of 87 years. He was the first surveyor of Jackson county, being elected in 1837 and serving 12 successive years.

William Awalt, a Michigan Central lineman, fell from a telegraph pole near New Buffalo and was fatally injured.

Nicholas Van Velken, a nine-year-old Grand Rapids boy, was hit on the head by a falling icicle and probably fatally injured.

John Grimboski, a 15-year-old boy living near Pinconning, had his right forearm shot off while hunting.

John Revett, of Watersmeet, on trial for the alleged killing of a man named Shea at that place, was acquitted by the jury.

Death itself to the reflecting mind is less serious than marriage. The older plant is cut down that the younger may have room to flourish; a few tears drop into the loosened soil, and buds and blossoms spring over it. Death is not even a blow, is not even a pulsation but a pause. But marriage unrolls the awful scroll of numberless generations. Health, genius, honor, are the words inscribed on some; on others are disease, fatuity and infamy.

The growers in the fruit belt of Michigan expect to receive more from their crops this summer than in previous years. One reason for this is that they will not give commission merchants a chance to swindle them, but will dispose of their fruit through their own association organized for the purpose of disposing of the crops to the best advantage. A uniform system of packing and graduating will be adopted which, if adhered to, is expected to keep the price up.

Now that there is a revival in the sheep growing industry, a word of caution may be needed against trying to grow sheep on low or wet land. The natural habits of the sheep is on high land often rock lands. By contact with rocks and stones the hoofs of the sheep are naturally pruned. When they are kept on low, wet ground the hoofs grow long, and being very little sensitive it is easily softened until it begins to rot. There can be no doubt that this is caused by some germ, for rubbing the hoof with blue vitriol which is one of the best germ killers, will destroy it. But the germ seems to be indigenous to all wet lands where sheep are kept, and it is the worst affliction with which sheep can be afflicted. When it once gets into a flock it can be carried to land that is high and dry, and will propagate there.

A grand dramatic and musical entertainment will be given at the Opera House Chelsea, on Thursday March 17th, St. Patrick's Day. The splendid play "From Sumter to Appomattox" will be produced by an excellent company. This drama abounds in patriotism and delicious humor and those who attend will enjoy a treat. "Dot Sour Kraut Brigade" is inimitable, and nothing so delightfully humorous has ever been seen on the local stage. The Brigade, if nothing else, will capture the house. Miss Mary Dunn, the charming singer, will render several vocal selections. Professor Van Reybroeck, a noted musician, from Detroit, will play patriotic and classical selections, and will appear with Miss Dunn in some beautiful duets. Mr. Louis Burg, the popular tenor, will sing the "Sword of Bunker Hill." Mr. William Freer will tender the music for the play, and Miss Katharine Staffan will be the accompanist. The admission will be 25 and 15 cents. Reserved seats without extra charge may be obtained at John Farrell's store. We can assure all who attend, that they will enjoy this splendid entertainment of drama and song. The doors will open at 7 and the entertainment will begin at 8 p. m. sharp.

## Here and There.

Politics? Just a lawk, doncherknow. Just a nightmare in the dawk, doncherknow.

You perspire day and night, And aftaw all the night. Why—perhaps the wrong man's wight, doncherknow.

Mrs. Henry Fenn, of Grass Lake, was the guest of her parents Mr. and Mrs. Frank Staffan, last week.

Wanted, by a middle aged lady, a situation as housekeeper. Farm house preferred. Apply to Martin Armstrong, Lyndon, Mich.

The new St. Mary's rectory in Pinckney, has been completed and was thrown open for the inspection of the public Wednesday.—A. A. Argus.

T. S. Jans has purchased a handsome span of heavy colts from T. S. Sears of Chelsea. They will be driven on his ice wagon this summer.—Dexter Leader.

Professor Stanley, of the music department of the University of Michigan has finished a symphonic poem, which will be performed for the first time in the coming May Festival.

Louis J. Lisemer has sold the Hausfreund Post to Theophilus Stanger. Mr. Stanger has been employed on the Hausfreund Post for some time and is an able young newspaper man.

A lady on a Michigan Central train wished to get off at Ypsilanti and tried to explain her desire to the conductor, but unfortunately could not remember the name of her destination. Finally she told him it was something like "slidin' up slantin'."—Pontiac Post.

Tom McNamara, of Chelsea, had a trotter named Gold Standard. He tried to prosper with it, but couldn't do it. Gold Standard, he found was not good for a race. It's good for no race. So Tom took the animal to Jackson, and let a republican have him. He should have taken him to Mason, and traded him for Greenbacks the pacer.—Adrian Press.

Albert and Jacob Reed of Dean's Mills, Livingston county, are engaged in an interesting experiment in cattle feeding. They have 60 head of cattle to which they are feeding 18 bushels of culled white beans per day. They boil or steam the beans until they are perfectly soft and then feed them. They say that the cattle thrive better on the beans than they do on corn.—A. A. Argus.

The report that every republican in Washtenaw county is a candidate for office is certainly an exaggeration. Four men of that faith in Ann Arbor alone have been found who say they would under no circumstances lay hold of the official udder unless the g. o. p. bovine backed right up to where they might be sitting and "hisied" without an articulate sound from them.—Grass Lake News.

W. J. Thurston, of Dexter township, is the complainant, and Louis Boyden, of Dexter village, is the defendant, in a suit brought in the circuit court for damages in the sum of \$5,000. Thurston charges that Boyden alienated the affections of his wife. Deputy Canfield served the papers on Boyden Tuesday and he gave a bond for \$1,000 for his appearance in court when wanted. Boyden, it is said recently inherited \$8,000 by the death of his father.—Ann Arbor Argus.

An old woman partially paralyzed and deaf got off the train Monday night having expended all her money in getting thus far from Charlevoix on her way to Chelsea where she said she had a niece residing after wandering around in the cold for a time she went to the jail and begged to be locked up for the night. She finally got an order for a night's lodging which was gratefully received.—A. A. Argus.		

## ON A MISSION OF MERCY

Two of Uncle Sam's Big Ships Ordered to Cuba.

The Montgomery and the Nashville Selected by Secretary Long to Carry Provisions to Suffering Reconcentrados.

Washington, March 3.—Secretary Long has decided to send two naval vessels to Cuba at once with 40 or 50 tons of provisions for the relief of the suffering reconcentrados. The vessels will go to Matanzas and Sagua La Grande. It is said an emergency exists that makes it necessary to dispatch provisions at once in order to succor the starving. The vessels to be sent will be the Montgomery to Matanzas and the Nashville to Sagua La Grande.

The decision of the navy department to send two ships to Cuba with supplies for the suffering reconcentrados caused

UNITED STATES CRUISER MONTGOMERY—SELECTED TO CARRY PROVISIONS TO STARVING CUBANS AT MATANZAS.

some commotion in official circles until the real purport of the visit of the ships came out. It is explained at the navy department that this action was taken at the instance of the Cuban Relief association, organized through the efforts of the state department for the relief of the destitute noncombatants in Cuba. It was represented to the department that great distress prevails among the people in the vicinity of Sagua La Grande and Matanzas on the northern coast of the island and that considerable difficulty is experienced in sending supplies there because of the infrequent visits of the merchant ships. The Montgomery will go to Matanzas and the Nashville to Sagua La Grande with the understanding that they will remain in those ports only long enough to deliver the supplies to the agents of the association for distribution where they will do the most good. Although the mission assigned to the warships will take them both within a short distance of Havana, estimated at from two to four hours, it is stated that neither vessel will visit the Cuban capital.

### Vizcaya Reaches Havana.

Havana, March 2.—The Spanish cruiser Vizcaya arrived off Morro castle at

UNITED STATES CRUISER NASHVILLE—SELECTED TO CARRY PROVISIONS TO STARVING CUBANS AT SAGUA LA GRANDE.

six o'clock Tuesday evening, after a good voyage from New York. She was met by scores of steam launches and gayly decorated yachts with bands, and as she steamed to her moorings enthusiastic welcomes were shouted from all the quays, which were lined with thousands of people. The streets and plazas were gay with bunting, rockets were discharged and there was a continuous cheering from all the boats. The officers of the Vizcaya paid ceremonial visits Wednesday morning to Admiral Manterola and Capt. Gen. Blanco. Crowds of people view the cruiser from the points of vantage ashore, and those who are permitted to do so go on board.

### Schooner Speedwell Capsized.

Key West, Fla., March 4.—The schooner Speedwell, Capt. Collier, from Marco, Fla., for Key West, was struck by a squall Thursday while off Marquesas, 18 miles from here, and capsized. Nine persons were drowned. Among the victims were three children of Capt. Collier, and the entire Nichols family, consisting of father, mother, grandmother and three children. The family of Nichols was from Bridgeport, Conn.

### Will Work Double Time.

Reading, Pa., March 4.—Beginning next Monday the Carpenter steel works will go on double turn, working on projectiles for the government, and employing 350 instead of 225 hands.

## LONG'S PRIVATE OPINION.

Publicly Expressed Caused a Commotion—Was Not Official.

Washington, March 2.—The main interest of the day in connection with the Maine inquiry centered in a statement by Secretary Long, following the cabinet meeting, that in his personal opinion any official participation by the Spanish government in the blowing up of the Maine was now practically eliminated from the situation. This statement was not of a formal or official character, and was made by Mr. Long as he walked away from the white house. As usual the various cabinet officers were besieged with inquiries as to the questions before the meeting, and in response to these importunities the secretary rather casually summed up the situation in a few words.

The remark immediately started much comment and discussion, and when Mr. Long returned to the navy department after lunch he found that what he had intended to convey was

being given the force of an official declaration that Spain's responsibility for the disaster had been eliminated. In order to make clear his meaning, as a personal expression of opinion, Mr. Long dictated the following statement:

"The main things we talked about in cabinet were the outrages on postmasters, one a white man in Georgia and one a colored man in South Carolina.

"In regard to the Cuban situation, I said I thought things were growing quieter every day and as far as my judgment went I was inclined to think that any official participation on the part of the Spanish government in the disaster was now practically eliminated."

Washington, March 3.—The Washington Post prints the following interview with Secretary of War Alger:

"The statement of Secretary Long that Spain's official participation in the disaster to the Maine had been practically eliminated was merely an expression of personal opinion on his part. It is an injustice to him, as well as to the administration, to give an official significance to his expression when he was particular at the time to emphasize the fact that he was speaking simply as an individual. In the absence of official facts, and I can repeat what has been said heretofore, that the public is equally as well informed as the government—no member of the administration can, of course, make official declaration touching Spain's responsibility, moral or otherwise. There is not an iota of in-

formation as to the cause or origin of the explosion upon which the government can at this time form a conclusion or base a decision. The verdict of the court of inquiry on that point must patiently be awaited."

### Death of a Naval Veteran.

Washington, March 2.—Lieutenant Commander Charles Henderson Craven, U. S. N., (retired) died here Tuesday, aged 55 years. He was the oldest son of the late Rear Admiral Thomas T. Craven and was born at Fort Preble, Me. He was graduated from the naval academy in 1860 and rendered efficient service in the late war. He was on the Housatonic when blown up by a torpedo boat off Charleston in 1864. After the war he served on the European and Pacific stations.

### It Suits Luetgert.

Chicago, March 5.—Wife Murderer Luetgert has been told the task selected for him during his life imprisonment. It is the intention of the Joliet penitentiary officials to manufacture sausage for use in the big prison, and Luetgert will be given charge of the work. The information pleases Luetgert.

### Japan Gets Saucy.

London, March 5.—A dispatch to the Daily Mail from Tientsin, China, says: Japan has addressed a note to Russia demanding an immediate and explicit statement on the question of the continued occupation of Port Arthur.

## CAN'T FIX THE DATE.

Court of Inquiry Unable to Tell When It Can Report.

Washington, March 5.—It was developed Friday afternoon through telegraphic correspondence between Secretary Long and Admiral Seward that the court of inquiry is unable to fix even an approximate date for the conclusion of its investigation into the disaster to the Maine. Sharing the general anxiety for some information on this point, Secretary Long Friday, at the instance of the cabinet, sent a telegram to Admiral Seward asking him when it was probable that the report of the court would be made, and late Friday night the following reply was received:

"Key West, Fla., March 4.—Secretary of the Navy: Have talked with the president of the court of inquiry, and agree with him that it is not yet possible to fix a date for the finding, as so much depends upon the progress of divers and wreckers and the results they obtain. Every effort is being made to advance the inquiry. The court returns to Havana by the Mangrove this evening, having about finished the investigation at Key West. SICARD."

Washington, March 5.—Admiral Seward's precept convening the court of inquiry now investigating the disaster to the battleship Maine has been received by the navy department and has just been made public. It is important in showing mainly the exact scope of the inquiry and the extent to which

MODERN AMERICAN ORDNANCE. (Eight-Inch Disappearing Gun and Carriage in Firing Position.)

the report will go. Aside from the usual orders directing the court to report both findings of fact and its opinions as to these findings, Admiral Seward directs the court to record any information as to person or persons, "not connected with the navy of the United States who are, in its opinion, responsible, in part or wholly, directly or indirectly, for the explosion and the loss of the Maine," with names, and the degrees of responsibility in each case.

Key West, Fla., March 5.—After two postponements of its departure, the court of inquiry left for Havana Friday evening on the lighthouse tender Mangrove. The sessions, it is generally understood, developed no evidence by which the court could definitely determine the cause of the explosion. A naval officer in close touch with the members of the court said to a correspondent:

"With one exception, the witnesses who testified here were Maine survivors. The evidence, though in most cases taking longer to tell, can be summed up in the words of an enlisted man, who, when Judge Advocate Marx asked him what he knew about the explosion, replied: 'Sir, I was blown up. I was saved and I'm here. That was all he could swear to.'"

One important fact has been learned, however. It is this: Although the members of the court have their individual theories, they are by no means prepared as a body to give a decisive verdict. The officer already quoted said:

"If the court has yet heard any testimony which would enable it to decide intelligently that the Maine was blown up from external causes, I am the most mistaken man in the world. Before the coming Havana sessions are over it may secure such evidence and possibly find the blowing up was intentional. It will learn from the divers the actual condition of the ship after the explosion, as it has already learned from the survivors most of the details of the ship's condition before the explosion. With these all the causes thoroughly established, the court will hear more expert theoretical testimony, and then reach a verdict."

### Spain Secures a Loan.

London, March 5.—The indications are plain here that Spain is making great preparations for war with the United States. It is impossible to verify the rumors in connection with Spain's transactions in London, but it is said, on the very best authority, that her agents have concluded negotiations for a loan of \$40,000,000. The Rothschilds are said to have furnished this amount, but the Rothschilds' agents deny it.

### Miss Willard's Will.

Chicago, March 5.—The will of the late Frances E. Willard was offered for probate Friday. Most of the estate is left to Miss Anna Gordon, but Miss Willard's home in Evanston is left to Miss Gordon and Mary Bannister Willard during their lives, and will revert eventually to benefit the National Woman's Christian Temperance union. The estate is estimated at \$17,000, of which \$16,000 is real property.

## PLEASED WITH HIS TRIP.

Gen. Merritt's Inspection of Our Southern Fortifications.

New York, March 4.—Gen. Wesley Merritt has returned from his tour of inspection of the southern fortifications in the department of the east. Probably within a week he will start for Key West. Gen. Merritt was especially interested in the work now going on in the New York arsenal. During the past few days hundreds of eight, ten, twelve and thirteen-inch projectiles have been shipped from the arsenal to Fort Preble, Me. Speaking of his tour, Gen. Merritt said:

"I am pleased to say that I found the troops in excellent condition. The men were all the picture of health, and the regulations were working perfectly. I first went to Fort McPherson, at Atlanta, Ga. Then we went down to Fort Barrancas and Pensacola. From there we journeyed to New Orleans, where I stopped over two days to inspect Jackson barracks. I did not go to Fort St. Philip, for the reason that none of my troops are garrisoned there. I may have a few suggestions for the improvement of some of the posts I visited, but I do not care to discuss that just now. I have nothing to say on the subject of the Maine disaster, more than that it was lamentable and deplorable in the extreme."

### Reward for Conviction of Lynchers.

Washington, March 5.—Friday's cabinet meeting occupied about three hours, and at its conclusion it was announced that nothing of an important

## A WORD OF ADVICE

To Those Coming to Alaska or the Klondike Gold Fields.

One thing should be impressed upon every miner, prospector or trader coming to Alaska, to the Klondike, or the Yukon country, and that is the necessity for providing an adequate and proper food supply. Whether procured in the States, in the Dominion, or at the supply stores here or further on, this must be his primary concern. Upon the manner in which the miner has observed or neglected this precaution more than upon any other one thing will his success or failure depend.

These supplies must be healthful and should be concentrated, but the most careful attention in the selection of foods that will keep unimpaired indefinitely under all the conditions which they will have to encounter is imperative. For instance, as bread raised with baking powder must be relied upon for the chief part of every meal, imagine the helplessness of a miner with a can of spoiled baking powder. Buy only the very best flour; it is the cheapest in the end. Experience has shown the Royal Baking Powder to be the most reliable and the trading companies now uniformly supply this brand, as others will not keep in this climate. Be sure that the bacon is sweet, sound and thoroughly cured. These are the absolute necessities upon which all must place a chief reliance, and can under no circumstances be neglected. They may, of course, be supplemented by as many comforts or delicacies as the prospector may be able to pack or desire to pay for.—*Alaska Mining Journal.*

A book of receipts for all kinds of cookery, which is specially valuable for use upon the trail or in the camp, is published by the Royal Baking Powder Company, of New York. The receipts are thoroughly practical, and the methods are carefully explained, so that the inexperienced may, with its aid, readily prepare everything requisite for a good, wholesome meal, or even dainties if he has the necessary materials. The matter is in compact though durable form, the whole book weighing but two ounces. Under a special arrangement, this book will be sent free to miners or others who may desire it. We would recommend that every one going to the Klondike procure a copy. Address the Royal Baking Powder Co., New York.

## A PRETTY INCIDENT.

The Kindness of a Spanish Lady to a Lone Soldier Boy.

A recent traveler in Spain describes a touching scene witnessed at the departure of a regiment for Cuba. All day long there had been heard the measured tread of soldiers marching through the street; all day long gayly bedecked boats had been passing to and from the vessel that was to take them to Havana. The twilight began to deepen when the correspondent saw a "startling and pretty sight"—the impetuous action of a portly, good-looking and well-dressed lady, who noticed a young soldier walking dejectedly along down the pier in his traveling gray, with a knapsack strapped over his shoulders. All the rest of the men had friends, their novias, mothers, relatives, and made the usual gallant effort to look elated and full of hope. This lad had no one, and it might be divined that he was carrying a desolate heart over the seas. The handsome woman burst from her group of friends, took the boy's hand, and said: "My son has already gone to Cuba. He is in the regiment of Andalusia, and sailed two months ago. You may meet him, Pepe G.; take this kiss to him." She leaned and kissed his cheek.

An English boy would have shown awkwardness, but these graceful southerners are never at a loss for a pretty gesture and a prettier word. The boy blushed with pleasure, and still holding the lady's hand, said with quite natural gallantry, without smirk or silly smile: "And may I not take one for myself as well, senora?" The lady reddened, laughed a little nervously, and bent and kissed him again to the frantic applause of soldiers and civilians, while the boy walked on, braced and happy.—*Blackwood's Magazine.*

### He Had Flung Up.

The superior court was in session and the little mountain town was crowded with people. Along about the middle of the day when the judge was worried with a tedious trial, Bill Williams, of the Lick Creek settlement, began galloping up and down the streets on his little red mule, firing off his pistol, whooping like a Sioux, and otherwise dispensing the energy which a liberal supply of corn liquor had inspired.

"Mr. Bailiff," commanded the judge, sternly, "go out and arrest that man and bring him into court."

The bailiff went timidly out of the courtroom and the judge attempted to proceed with business. But Williams' racket outside did not cease. It grew worse and the judge looked over the room for some one else to send out, and observed the bailiff sitting complacently on one of the back seats.

"Look here, Mr. Bailiff, why did you not arrest that disorderly man? Are you not an officer of the court?"

"Y-es," replied the bailiff, quaking with fear, "I wuz, but I've done flung up."—*Atlanta Journal.*

### Anxiety in Madrid.

Madrid, March 2.—Greater anxiety is visible here in regard to the verdict of the United States naval court of inquiry into the loss of the battleship Maine than was apparent a week ago. The constant rumors of possible hostilities are harassing and weakening the government, and they are also trying the patience of the public. The "jingo papers" publish exhaustive dispatches from New York and Washington to the effect that the relations between the United States and Spain are hourly becoming more strained, and attributing to President McKinley a series of anti-Spanish declarations.

### Ready, If Needed.

London, March 2.—A special dispatch from Shanghai says: The United States squadron is concentrated at Hong Kong, with a view of active operations against Manila, Philippine islands, in the event of an outbreak of war between the United States and Spain. The squadron, which is very powerful, includes the cruisers Olympia, Boston, Raleigh, Concord and Petrel.

### Pope Leo's Birthday.

Rome, March 3.—Wednesday Vincent Joachim Pecci, known for two decades as Leo XIII., supreme pontiff, celebrated the eighty-eighth anniversary of his birth. Thursday marked the twentieth anniversary of his coronation in the chair of St. Peter's. This double event is naturally the cause of much rejoicing to the entire Catholic world.

### Judge Vanderburgh Dead.

Minneapolis, Minn., March 4.—Judge Chase Vanderburgh, a native of Saratoga county, N. Y., a resident of Minneapolis since 1856 and for ten years a justice of the supreme court of the state of Minnesota, died at 11 o'clock Thursday morning at his home, 925 Seventh street south, from blood poisoning.

### Col. Picquart Challenged.

Paris, March 4.—Col. Henry, one of the witnesses called in the recent trial of M. Zola to contradict minor points of testimony given by Col. Picquart, has challenged the latter to a duel.

## WON'T RECALL GEN. LEE.

President McKinley Firmly Refuses Spain's Request.

Letter Government Finds Fault with the Patriotic Consul at Havana—Asks That Warships Be Not Sent with Supplies.

Washington, March 7.—The Spanish situation developed two new phases Sunday, when it became known that the Spanish government had formally requested the recall of Consul General Lee at his post at Havana, to which request the United States had courteously but firmly refused to comply; also that the Spanish government has suggested the propriety of sending relief supplies to the Cuban reconcentrados on the cruiser Montgomery and gunboat Nashville, to which suggestion the United States had given a like answer in the negative.

The first intimation of these steps came in a brief and explicit cable dispatch from Madrid. Prior to its receipt, however, the authorities here had been fully conversant with the facts, although no intimation had been allowed to get to the public on either

GEN. FITZHUGH LEE.

subject. The disclosures from Madrid left no further ground for reticence in Washington, and after a conference at the white house between the president, Assistant Secretary Day, of the state department, and Secretary Long, of the navy department, the following authorized statement was given out by Judge Day, as comprising everything that was to be said by the administration on the subject:

### President Refuses.

"The president will not consider the recall of Gen. Lee. He has borne himself throughout this crisis with judgment, fidelity and courage, to the president's entire satisfaction.

"As to the supplies for the relief of the Cuban people, all arrangements have been made to carry a consignment this week from Key West by one of the naval vessels, whichever may be best adapted and most available for the purpose, to Matanzas and Sagua."

Beyond the foregoing those who had participated in the conference at the white house would not discuss the subject, and it was stated positively that the authorized statement comprised everything that would be given to anyone. Although the officials here are noncommittal on the subject it is believed that the request of Gen. Lee's recall was made at least a day or two ago, and that the Spanish government, after receiving the reply of the state department, has not insisted either upon Lee's recall or upon its contention that the relief supplies should not be sent to Cuba in naval vessels.

The advice from Madrid, together with the authoritative statement here, left no room for doubt as to what had occurred. The request for Gen. Lee's recall is understood to have come within the last few days and doubtless since the last cabinet meeting on Friday, as no reference was made to it at that time. It came through Minister Woodford, a somewhat unusual procedure, as the common mode of requesting the withdrawal of a minister or a consul is through the representative of the government making the request, which in this case is Senor Du Bosc, the Spanish charge d'affaires. Mr. Du Bosc has received no instructions on the subject and was in complete ignorance of the demands made through Minister Woodford. The other suggestion of the Spanish government—that relief supplies should not be sent in war vessels—did not come through Minister Woodford, as the Madrid dispatches state, but was presented by Senor Du Bosc to the state department last Friday.

### No Reason for a Change.

The responses in both cases went direct to Minister Woodford. There was no loss of time, however, in assembling a special session of the cabinet or even in any general conference between the president and his cabinet advisers individually. In the protest against the Montgomery and Nashville, Judge Day conferred with Secretary Long, who in turn called in Capt. Crowninshield, chief of the bureau of navigation. There appears to be no reason why a change should be made in the plan for sending these ships on the relief mission, and without attaching grave significance to the request of the Spanish government, the answer was made that the plans for the trip were completed and that the stay of the ships would be brief and of the most pacific character.

The ground on which Gen. Lee's recall was asked are not officially disclosed. It is known, however, that the Spanish government has chafed for some time over Gen. Lee's presence in Havana, although this had never taken the form of a definite protest prior to the present time.

## SLAIN IN A DUEL.

Italian Statesman Cavalotti Is Killed with a Sword.

Rome, March 7.—Signor Felice Carlo Cavalotti, poet, dramatist, publicist and the well-known radical member of the chamber of deputies for Corte-Olona, was killed here Sunday afternoon in a duel with swords with Signor Macola, member of the chamber of deputies and editor of the Gazzetta di Venezia. The encounter was the outcome of a press polemic in the columns of the Milan Secolo and the Gazzetta di Venezia. It took place at an unfrequented spot outside the Porta Maggiore. Signor Macola's seconds were the deputies Signor Guido Fusinato, a professor at the University of Turin and member for Foltre, and Signor Carlo Donati, advocate and member for Longo. Signor Cavalotti's seconds were Signor Bizzoni, the publicist, and Signor Tassi, member of the chamber of deputies. Shortly before the meeting Signor Cavalotti seemed in excellent spirits and even joked with his seconds. When the word was given he attacked his opponent vigorously.

The first two engagements were without result, but in the third Signor Cavalotti received a thrust in the throat that severed the jugular. At first it was thought he was only slightly injured, but the gravity of the wound was soon perceived on his putting his hand to his mouth. He withdrew it covered with blood, and could not utter a word. The doctors and his seconds carried him to Zellino and laid him on a bed in the residence of Countess Cellaro. Tracheotomy was performed and artificial breathing attempted, but all efforts were useless. Signor Cavalotti expired in ten minutes without speaking again. Signor Macola did not receive a scratch. The news on reaching the city caused a great sensation. Numerous deputies and friends hurried to the spot, and there is universal regret over the tragic end of Cavalotti.

Signor Cavalotti made his will immediately after the duel, which was the thirty-second he had fought. The body will be embalmed and lie in state at his residence. The sword entered his mouth and pierced his tongue.

Though political opponents, Signor Cavalotti and Signor Macola were personal friends. For this reason their seconds tried to avoid the duel, but the matter becoming ridiculous in the public eyes, the principals decided that they must fight. The death of Cavalotti is a great loss to the radical party.

The late Signor Felice Carlo Emanuele Cavalotti, who was a member of a family originally Venetian, was born at Milan, November 6, 1842. At the age of 18, having become already noted for his poetry breathing hatred for Austria, he threw himself with ardor, as writer and soldier, into the struggle for Italian independence, taking part in various expeditions and publishing in the newspapers of the day articles and verses whose revolutionary audacity attracted wide attention.

Often elected to the Italian parliament, his career in the chamber from time to time was signalized by no less agitation than the publication of his poetic efforts. More than once his interpellations and his speeches invoked the parliamentary tempests. He was a lifelong opponent of Signor Crispi, and was glad to be known as one of the Italian politicians who resisted with all their energies the tide which, under the auspices of Crispi, carried Italy toward Germany.

### WAS NOT SUICIDE.

Sad Death of John Armstrong, at Ishpeming, Mich., Was Accidental.

Ishpeming, Mich., March 7.—Through a private report sent to a number of daily papers on the 4th inst., a great wrong has been done the memory of the late John F. Armstrong, a mining man whose death occurred at Ishpeming, Mich., on the 3d inst. The report states that the deceased committed suicide while temporarily insane. No sane man lived than Mr. Armstrong, as his intimate friends can testify. He was engaged at the time in making a special examination of mining property in Marquette county, and it was while in pursuit of this work that the accident befell him causing his death. Mining men are liable to such accidents, especially at this time of year, when the mouths of shafts are covered with snow and ice. No warrant exists for such a sensational report.

### IT COST A LIFE.

Fire in a Pittsburgh Tenement Results in One Death.

Pittsburgh, Pa., March 7.—One of the most exciting fires the Pittsburgh department has ever been called upon to fight occurred at 614 Webster avenue Sunday, when one woman was suffocated and seven other persons so badly burned that three may die. Three families were penned in a ramshackle building, the stairs eaten away by flames while they slept. Mrs. Dominic Enriello, aged 30, wife of Dominic Enriello, fruit huckster, was separated from her husband in the smoke and suffocated while trying to raise a window. She died in the ambulance.

### FATAL SHOTS FOR TWO.

Charles W. Wood Kills Irene Breider and Himself.

Ottawa, Ill., March 7.—Charles W. Wood, of Chicago, shot and killed Irene Breider and then fatally wounded himself here just after Friday midnight in the woman's apartments. The assailant died an hour later at the Ryburn hospital. Jealousy probably caused the tragedy. A letter found in the woman's apartments indicates that the couple had agreed to die.

## BEETS AS LARGE AS YOUR ARM.

The editor of the "Brown City (Michigan) Banner" recently paid a visit to Western Canada, and speaking of a garden that he saw in the Edmonton district says:

"On August 23d we had the pleasure of visiting the model seven-acre garden at Edmonton owned and operated by Donald Ross, a typical Scotchman, and as whole-souled, good-natured old gentleman as you often meet. He gave the Yankees each a hearty handshake as we were introduced in succession by the Canadian Government Agent, who was our guide and pilot while at Edmonton, and to whom we are indebted for many courtesies conferred. Mr. Ross informed us that he cleared from \$800 to \$1,000 annually from the sale of roots, 'vegetables, flowers and plants. We here state that we never before saw such a growth of vegetables at that season of the year. He said that he raised 750 bushels of onions to the acre. Beets were growing as 'large as your arm, turnips the size of one's head, and cabbages as large as a patent pail. Following are the prices that Mr. Ross gave us as receiving for his produce: Beets 50 cents per bushel, carrots 40 cents, onions \$1.25; turnips \$5, cabbage 4 cents, each, green corn 25 cents per dozen, tomatoes \$1.50 per bushel, potatoes 35 to 30 cents, cauliflower \$1.00 per dozen, cucumbers 15 cents per dozen, strawberries 25 cents per box, squash 4 cents per pound, and other produce in proportion. He kept a hot-house 12x180 feet heated by a furnace by means of flues. One man beside himself attended this garden, except at time of gathering the crop."

Agents of the Canadian Government are now located at different points in the United States, and using their efforts towards securing settlers on the fertile lands of Western Canada, adjoining the gold belt.

Washington News.

WASHINGTON, D. C., Mar. 4, 1898.— Unless the Spanish do something to precipitate matters there is little probability of any material change in the situation during the next ten days. The report of the Naval Court of Inquiry is not expected earlier than the 15th of the month, and there is no certainty that it will be received as early. As an indication of the correctness of these statements it may be mentioned that a party consisting of Senators Thurston, Gallinger and Money, and representatives Amos J. Cummings and William Alden Smith left Washington this week for Havana, on board of a private yacht. They would not have left Washington had they supposed that the Maine matter would be brought up during their absence. Senator Thurston said of the trip, "It is not in any sense an official tour, but will naturally give us a better opportunity for investigation than we can possibly have from this distance."

Things are as quiet in Washington as if there were not the slightest danger of war and about the only significant happenings of the week in administration circles was the expression of the opinion by Secretary Long that the element of official Spanish participation in the explosion of the Maine had been practically eliminated by the official Spanish statement that there never had been any mines in Havana harbor—an opinion which has been very harshly criticised in private by Senators and Representatives—and the making of a contract by the War Department for \$1,000,000 worth of projectiles for the new high-power guns for our coast defenses in advance of an appropriation by Congress. This extraordinary contract was made up on the assurance of Senators and Representatives that the appropriation would be made as soon as there appeared to be any pressing necessity for it, and the contractors agreed to stop the work at any time and only to charge proportionately for what was done.

It is well that the disposition of members of the House to agree to any and all sorts of appropriations, regardless of their nature, if it can be done without taking a record vote, should occasionally be rebuked. The only possible reason why employees of the House, who are all well paid for the work they do, should receive a present of an extra month's pay at the close of the session, is that they are all either relatives or personal friends of members; but that did not prevent a majority of the House from voting, when the House was sitting as a committee of the whole, to put an amendment on the Sundry Civil bill appropriating the money to give all employees of the house an extra month's salary. The cowardice of many of the members was shown when Representative Cannon, who opposed the amendment, later demanded an aye and nay vote upon it. When they knew that their individual votes would go on record for the inspection of their constituents, only 63 members had the courage to vote for the amendment, while 152 voted against it.

If the Maine question was out of the way, but it isn't, and isn't likely to be for some time to come, a suggestion that has been made to President McKinley by Representative Beach, of Ohio, for the settlement of the Cuban question, would doubtless receive more attention than is now given to it. Mr. Beach proposes that the U. S. and all the other governments of America join in demanding that Cuba be placed in the hands of a receiver who shall have full authority to administer all of its affairs. There are precedents for instance, the powers of Europe placed Prince George, of Denmark, on the throne of Greece to save that country from utter destruction; similar action was taken in Crete; the Turkish provinces of Bosnia and Herzegovina were turned over to Australia for administration and military occupation, when there was danger of the population, which was in rebellion against Turkey, being exterminated, and the interference of Great Britain in Egypt, which it has practically governed ever since, to protect British commercial interests there. Mr. Beach says that President Diaz, of Mexico, would be just the man to be made receiver of Cuba, being of Spanish descent and thoroughly familiar with Spanish character, and having shown an administrative ability that is without precedent in Spanish American countries. The undesirable nature of the population of Cuba has always been and is now a bar to its acquisition by the United States.

Officials are not talking about the matter for publication, but since Secretary Alger announced the abandonment of the Klondike relief expedition authorized by Congress and asked for authority to sell the supplies which had been bought, including the reindeer, it has become known that the Secretary regards himself and Congress as having been victimized by a shrewd bunco game, arranged by those who figured upon getting the greater portion of the \$200,000 appropriated by Congress to carry relief to the Klondike miners.

Robbed the Grave.

A startling incident of which Mr. John Over, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at Glazier and Stinson's Drug store.

Wheat Market.

Chicago, Mar. 6, 1897.

Panics in the stock market have no effect on wheat, which not only holds up well to price but is evidently in the hands of people who are not anxious to sell it at present quotations.

All the options were firm to-day. May selling above 105, and it was significant that even at the top figures there was practically no short selling, about all the lots that were disposed of being the property of people who had bought the cereal much lower and were taking profits. It is recognized that if the present political differences between England and Russia should lead to hostilities the price of American bread stuffs would go up with a rush, and it is this possibility that makes the bulls feel so secure in their present position, current values being easily maintained by the law of supply and demand. Corn and oats continue to hold their own, and the latter is well thought of by holders, especially in view of the fact that England, which is the largest purchaser of oats, obtains much of its supply from Russia, which source, in the event of trouble between the two nations, would of course be instantly and completely cut off. In the provision market there is a feeling of hesitancy among buyers owing to our strained relations with Spain. Should war with that country follow the present controversy prices would probably be temporarily lowered, but ran e higher than ever in a short time. The price range to-day was as follows.

The Discovery of the Day.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for Consumption, Coughs and Colds. I cannot say enough for its merits." Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century, and to-day stands at the head. It never disappoints. Free trial bottles at Glazier & Stinson's drug store.

Probate Order.

STATE OF MICHIGAN, County of Washtenaw ss. At a session of the Probate Court for the County of Washtenaw, holden at the Probate Office in the City of Ann Arbor, on Saturday, the 5th day of March, in the year one thousand eight hundred and ninety-eight.

Present, H. Wirt Newkirk, Judge of Probate. In the matter of the estate of Louis Podewils Minors. On reading and filing the petition, duly verified, of Lena Podewils, praying that she may be licensed to mortgage the Real Estate whereof said deceased died seized, said lands being worth less than \$500.

Thereupon it is ordered that Friday, the 1st day of April next, at ten o'clock in the forenoon, be assigned for the hearing of said petition, and that the heirs-at-law of said deceased, and all other persons interested in said estate, are required to appear at a session of said Court, then to be holden at the Probate Office, in the City of Ann Arbor, and show cause, if any there be, why the prayer of the petitioner should not be granted. And it is further ordered, that said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof, by causing a copy of this Order to be published in the Chelsea Herald, a newspaper printed and circulating in said county, three successive weeks previous to said day of hearing.

H. WIRT NEWKIRK, Judge of Probate.

Mortgage Foreclosure.

DEFAULT having been made in the payment of a certain Mortgage made by Conrad Lehn and Katie Lehn, his wife, to the Ann Arbor Savings Bank, dated the Fifth day of January, 1896, and recorded in the Register's office of Washtenaw County, Michigan, on the 21st day of January, 1898, in Liber 64 of mortgages, page 562, at fifteen minutes past Two o'clock p. m. of that day, on which mortgage there is claimed to be due at the date of this notice, the sum of Sixteen Hundred and Twenty-three Dollars and Fifty-four Cents (\$1624.54) and no suit at law or in equity having been instituted for the collection of said amount or any part thereof.

Now Therefore by virtue of the power of sale contained in said mortgage and the Statute in such case made and provided, notice is hereby given that on Saturday, the 21st day of May, 1898, at ten o'clock in the forenoon, of that day there will be sold at public auction to the highest bidder, at the East front door of the Court House, in the City of Ann Arbor, (that being the building in which the said mortgage is recorded) the premises described in said mortgage, or so much thereof as may be necessary to satisfy the amount due on said mortgage, and the costs of this foreclosure including the attorney fee provided for in said mortgage. The premises are to be sold as described as follows: Lots two (2) three (3) and six (6) in Block forty-one, (41) in the Village of Manchester, Washtenaw County, Michigan, except a strip of land twelve (12) feet wide off from the south side of said lot six (6).

Dated February 18, 1898.  
THE ANN ARBOR SAVINGS BANK, Mortgagee.
