## MEET MARCH 22

Special Session of Legislature has Been Called by Gov. Pingree.

## THE TAXATION OF CORPORATIONS

Railroad, Telegraph and Telephone Companies to be Looked After.

Gov. Pingree Tuesday afternoon issued a proclamation convening the legislature in special session Tuesday, March 22, for the consideration of the question of railroad, telephone and telegraph taxation. This action on the part of the governor has been expected for some time, but he himself has been the most reticent man on the hemisphere on the subject, and even after the call was signed he had nothing to say about it.

To All Whom It May Concern, Greeting: By section 6 of article 5 of the Constitution of the State of Michigan it is provided that the governor shall take care that the laws be faithfully executed.

By section 5 of the same article he is given the power to convene the legislature on extraordinary occasions.

By section 11 of article 11 it is made the duty of the legislature to provide a uniform rule of taxation.

By section 12 of the same article "all assessments hereafter authorized shall be on property at its cash value."

These provisions have been a part of the fundamental law of the state since 1850.

In violation of the spirit, if not the letter, of these provisions of the constitution, laws have been passed from time to time by which railroad companies, express companies, telegraph and telephone companies now owning, according to their sworn returns, at least one third of the property of this state are required to pay only about one-twenty-sixth of the taxes levied for state, county and municipal purposes, leaving their just proportion of supporting our schools, asylums and other public institutions, and defraying the public expenses, to fall upon the farmers, laborers, manufacturers and other property owners of the state.

Taxation has, in many parts of the state, become in the nature of confiscation, the amount levied being greater than the property taxed can be made to produce.

I regard the situation as extraordinary, and one that demands an immediate remedy, which can only be given by the legislature.

It is the duty of the governor, under his oath of office, to see that the constitution of the state is obeyed and the laws faithfully executed, and to submit to the legislature, from time to time, his views upon existing mischiefs so that a remedy can be provided.

In obedience to this duty I hereby call the legislature of the state to meet in extraordinary session on Tuesday, the 22d day of March, 1898, at noon on that day, to consider the question of the taxation of railroad companies, express companies, telegraph companies, and such other matter as shall be submitted by special message.

Given under my hand and the great seal of the state of Michigan, at the capitol, in Lansing, this 8th day of March, in the year of our Lord one thousand eight hundred and ninety-eight, and of the Independence of the United States the one hundred and twenty-second.

HARVEY S. PINGREE.

WORKINGMEN'S TICKET.

MUNICIPAL OWNERSHIP PLANS OF OUR VILLAGE.

There seems to be considerable difference of opinion as to whether the people of Chelsea are in favor of owning and operating their own water works and electric light plants.

The only way to settle this matter is to submit the question to a vote of the people.

If the Workingmen's Ticket is elected, we pledge ourselves, should the citizens of Chelsea desire it, to submit this question of Municipal Ownership at a special election, to be held for that purpose, and before doing so, to obtain and give the public all possible information on the subject.

We furthermore promise to use our utmost efforts to transact all municipal business of whatever nature, in a friendly and honest way, believing that the best and most satisfactory results, either in public or private business, can be obtained only when conducted in that manner.

We are against all law suits at public expense, when instigated for the purpose of gratifying the personal vindictiveness of a few, and compelling all taxpayers, by public taxation, to help pay such unwarranted and outrageous expenses. Let the few who wish to reveal in such expensive luxuries as law suits pay their own lawyers and not impose a public tax upon the people (most of them peaceably inclined) for such purpose.

If you are for peace and harmony, and the growth and prosperity of Chelsea, vote the Workingmen's Ticket next Monday.

Respectfully,  
Committee Workingmen's Ticket.

At a social gathering of ladies yesterday afternoon it was decided by all those present not to wear hats trimmed with birds' feathers.
