**W. P. SCHENK & COMPANY.**

The New

## Palace Bakery.

THOSE MAMMOTH LOAVES OF

Home-made Bread.

At Palace Bakery, were made from flour ground at the Chelsea Mill since the late improvements.

Try our Cream Puffs every Saturday.

All kinds of Bread reduced to 4c per loaf.

**J. N. MERCHANT.**

## IF WE CAN'T GET THE BEST

We want none. That's our principle in buying. We deal only with firms who produce the best. We order only the choicest of the best. Isn't an article in either of our store that won't please you. And we've everything you could wish in

**Groceries.**

Compare our prices with any. You'll find they're lowest here, for the best.

**FARRELL'S, Pure Food Store.**

I will not be undersold.

## For SAFETY and to DRAW INTEREST,

Deposit your Money in the  
**Chelsea Savings Bank.**

Spar Bank.

Its Money is protected from fire and burglars by the best screw door, electric alarm, burglar proof vault-safe made.

W. J. Knapp, Pres. Thos. S. Sears, Vice-Pres. Geo. P. Glazier, Cashier.

**We Offer BARGAINS This Month**

In Farm Wagons both thimble skein and steel tubular axle, wide and narrow tire.

Furniture at Special Low Prices.

Buy your tinware of us and save money by doing it. It is all our own make of the best American Tin.

**W. J. KNAPP.**

### Village Election.

The Village Election last Monday resulted in a sweeping victory for the Workingmen's ticket. The whole number of votes cast was 472, which is 32 more than was last year. The Workingmen's ticket received 239 straight ballots, and the Citizens' 145. The number of votes each candidate received is given below:

PRESIDENT.	
Frank P. Glazier, w	296-124
William Bacon, c	173
CLERK.	
Henry Heselschwerdt, w	282-95
William Arnold, c	187
TRUSTEES.	
J. Edward McKune, w	288
Israel Vogel, w	276
John W. Schenk, w	298
Fred Kantlehner, c	176
John G. Hoover, c	185
Warren K. Guerin, c	168

TREASURER.	
John B. Cole, w	287-104
Alva J. Steger, c	183

ASSESSOR.	
James P. Wood, w	289-109
J. Wibur Van Riper, c	180

### State Arbor Day.

Gov. Pingree has issued a proclamation making March 29 Arbor Day. He recommends that this day be devoted by the trustees of public institutions, by the faculties and students of colleges and normal schools, by the teachers, pupils and school boards of public schools, and the people of the state generally, to plant trees, shrubs and vines about state and school buildings, by the highways and around the homes.

The occasion should be made one of study of the subject of planting, care and culture of trees and of the great good that may come therefrom.

### Dairy and Food Bulletin.

In the February Bulletin of the Dairy and Food Department just issued, the Commissioner in speaking of the oleomargarine cases says that he deems it best not to start many new prosecutions and to withhold action on the violations of those of which he has proof until the supreme court decides the questions raised by the oleomargarine manufacturers concerning the validity of the law, but will still continue securing samples and perfecting proofs of the new violations so that no guilty dealer will escape.

The Commissioner says there is so much being said about baking powders that he has concluded to obtain samples of all baking powders being sold in the state, have them analyzed and publish the result in the Bulletin. He is inclined to believe many of the cheaper powders that are selling from five to ten cents a pound are very injurious to health or either a fraud and a deception.

The attention of the proprietors of cheese factories, creameries or butter factories is called to the fact that they must register their factories each year with the Dairy Commissioner on or before April 1st. Cheese factories using the "Michigan full cream cheese" brand must re-register each year before April 1st or discontinue the use of such brand.

Dealers are warned from accepting vinegar from the Alden Vinegar Co. when shipped without orders. Samples of their make of vinegar taken and analyzed by the Department have never been found in compliance with the laws of the state.

Dairymen and consumers of milk should not fail to read the extracts published in this Bulletin, taken from Prof. McClatchie's article on "Bacteria in Milk."

The report of Dairy Inspector Barron shows that fifty-eight dairies have been visited during the month in and near Saginaw. Cows were found generally unclean; stables generally clean; ventilation generally good, and sanitary conditions generally poor. Water supply good. Two were reeking garbage and refuse; eleven were feeding beer malt.

### Bucklen's Arnica Salve.

The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Feyer Sores, Tetter, Chapped Hands, Chillsblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. ## THE WEEK'S NEWS

Happenings of the Past Seven Days in Brief.

### ROUND ABOUT THE WORLD

Casualties and Fires, Personal and Political Notes, Business Failures and Resumptions, Weather Record.

### INTELLIGENCE FROM ALL PARTS

#### CONGRESSIONAL.

#### Proceedings of First Regular Session.

The session of the senate on the 7th was devoted to consideration of the District of Columbia appropriation bill. Senator Allen (Neb.) presented a petition of 18,000 railway men of Pennsylvania in favor of legislation to prevent the abuse of the writ of injunction. In the house the bill providing for two additional regiments of artillery was passed. Mr. Cannon (Ill.) introduced a resolution appropriating \$50,000,000 for the national defense, and Mr. Norton (O.) introduced a resolution for the consideration of a joint resolution to recognize the independence of the republic of Cuba.

In the senate on the 8th the bill for the relief of the Methodist Episcopal church south of Tennessee, appropriating \$288,000, was passed. A message was received from the house conveying the bill appropriating \$50,000,000 for national defense, and it was referred to the appropriations committee. The house, by unanimous vote, passed the bill appropriating \$50,000,000 to be used at the discretion of the president in national defenses.

By a unanimous vote the senate on the 9th passed the \$50,000,000 defense bill without debate. Hawaiian annexation was considered in executive session. In the house a bill was introduced appropriating \$100,000 for the return of the bodies of the Maine victims to the United States and their burial at public expense at such places as the relatives of the deceased might designate. The committee on rivers and harbors voted not to report a river and harbor appropriation bill at this session.

A bill to revive the grade of lieutenant general in the army was reported favorably in the senate on the 10th from the committee on military affairs. The nomination of William J. Calhoun, of Illinois, to be interstate commerce commissioner, was confirmed. Adjourned to the 14th. In the house the time was spent on the Indian appropriation bill. The senate amendments were nonconcurrent in and the bill sent to conference.

#### DOMESTIC.

Fire in the Brownell & Field company's wholesale coffee and spice house in Providence, R. I., caused a loss of \$150,000.

In a fire panic in Germania hall in Hartford, Conn., nine persons were seriously injured.

Joseph Cature, William Sutton and William Maffit were arrested at De Soto, Mo., on a charge of making and circulating counterfeit money.

Andrew Holly, mayor of Jacksonville, Ill., was found dead in bed at a hotel in Springfield. Heart disease was the cause.

Commander Brownson, of the navy, sailed from New York for Europe with authority to buy warships in Europe for this government.

Charles Catten, night agent of the Adams-Express at Orrville, O., and a package containing \$10,000 are missing.

About 400 persons are affected by a strike at the Beckman woolen mills in Cleveland, O., for an increase of ten per cent. in wages. The company had agreed to grant the increase April 1.

Gov. Pingree has issued a call convening the Michigan legislature in special session on Tuesday, March 22, to consider the taxation question.

President McKinley has appointed William J. Calhoun, of Illinois, interstate commerce commissioner.

In Chicago Henry Leveson lifted two ten-pound dumbbells above his head 4,500 times in two hours and 49 minutes, breaking the record, which was three hours.

Rev. Frank Bristol, of Evanston, Ill., has accepted a call to the pastorate of the Metropolitan Methodist Episcopal church in Washington, D. C.

The United States cruiser Montgomery sailed from Key West for Havana to take the place of the Maine.

President McKinley has signed the bill providing for two additional regiments of artillery to man the coast defenses.

The Union Pacific railway has subscribed \$25,000 in aid of the trans-Mississippi exposition at Omaha.

Three children of William Comer were fatally burned at their home in St. Louis during the absence of their parents.

The bill passed by congress appropriating \$50,000,000 for national defenses has been signed by the president and is now a law.

Harry Van Arsde, a machinist, killed Mary Harris in St. Louis and then killed himself. Jealousy was the cause.

Roy Gehrig shot and fatally wounded Will B. Davis at Millersville, Pa., and then killed himself. The boys were pupils at a business college, and jealousy over a girl was the cause.

Kid McCoy, of Indiana, has announced himself champion heavy weight pugilist of the world.

The jury at Wilkesbarre, Pa., in the case of Sheriff Martin and his deputies, charged with the killing of strikers at Lattimer on September 10 last, returned a verdict of not guilty.

A hotel at Taiya, Alaska, was burned, and five of the inmates were cremated. It is rumored that President McKinley has completed the draft of a special message to congress in which he recommends the recognition of Cuban independence, and that it is his intention to send the message to congress within two weeks.

Col. M. M. Parker, of Washington, who visited Cuba with the senatorial party, said in an interview at Key West that the famine, suffering and awful destitution among the reconcentrados was indescribable; that every American in Cuba was watched as though he were a criminal; that the Spaniards hate us and do not hesitate to say so, and that everyone in Havana knows that the Maine was intentionally blown up.

Annie Litze was shot and killed in Allegheny, Pa., by Philip Smith, her lover, who immediately afterward killed himself. Jealousy was the cause.

Sir Julian Pauncefote, the British ambassador, has informed the Canadian ministry officially that by an arrangement with the United States the Alaskan boundary dispute has been settled.

The agricultural department crop report shows wheat in farmers' hands, 121,000,000 bushels, equivalent to 22.9 per cent. of last year's crop; corn, 783,000,000 bushels, or 41.1 per cent. of last year's crop.

John L. Driscoll, a teacher of shorthand in Nashville, Tenn., compelled his wife to take morphine and then killed himself with the same drug. Poverty was the cause.

Rose Miller and her daughter, Winnie Adington, were fatally shot at Empire, O., by David McCoy, a rejected suitor of Mrs. Miller.

For the past eight months the increase over the exports of domestic products for the same period last year has been \$63,842,000.

A dispatch from Washington says that orders have been issued for the immediate manning of hitherto ungarrisoned forts from Boston down the Atlantic coast and along the gulf to Galveston.

A gale swept the bay of San Francisco, wrecking many vessels and causing a loss of \$200,000.

#### PERSONAL AND POLITICAL.

Kansas republicans will hold their state convention at Hutchinson on June 8.

Prince Albert Leopold Clement Maria Mainrod, heir apparent to the throne of Belgium, arrived in New York.

John Wanamaker will be the candidate of the Business Men's Republican league for governor of Pennsylvania.

Mrs. Ellen Duquette died at Gouverneur, N. Y., aged 103 years.

Senor Luis Polo de Bernabe, Spanish minister to the United States, who was sent here to succeed Senor Dupuy de Lome, has arrived.

Dr. W. O. Rodgers, head physician of Woodmen of the World, died in Omaha, Neb.

The people's party of the Second congressional district of Indiana has nominated Rev. William J. Trout for congress.

Jason B. Brown, who was a member of the Fifty-first, Fifty-second and Fifty-third congresses, died at his home in Seymour, Ind., aged 59 years.

#### FOREIGN.

The naval court of inquiry in Havana continued its examination of divers and gave considerable time to close personal inspection of portions of the wreck of the Maine.

Spaniards seized the American schooner Esther on the southern coast of Cuba, but she was soon released.

The United States cruiser Montgomery arrived at Havana to replace the Maine and was received by salutes of welcome.

It is announced that the court of inquiry into the Maine disaster has closed its sessions at Havana and will be ready to submit its report very soon. The members of the court left Havana on the dispatch boat Fern, bound for Key West.

The naval board of inquiry into the Maine explosion is said to have completed its investigation. Everything now is in the nature of cumulative testimony, strengthening the evidence that the Maine was blown up by an external explosion.

The Hawaiian legislature has adopted a joint resolution extending sympathy to the United States in the great loss of life sustained by the destruction of the cruiser Maine.

It is said that France, Great Britain, Germany and Russia have advised Spain to accept the inevitable and abandon Cuba.

The Spanish government is said to have changed its policy toward Cuba and proposes pushing the campaign against the insurgents.

#### LATER.

The United States senate was not in session on the 11th. In the house the bill to pay the Bowman act claims, aggregating \$1,200,000, for stores and supplies furnished the union army during the war, was discussed. The bill for the cession of all arid lands to the states in which they are located was reported favorably, as was also a joint resolution amending the constitution providing for the election of members of the house of representatives for terms of four years. Adjourned to the 14th.

Prince Albert of Belgium was given a dinner by the president at the executive mansion.

Gen. Greely, chief signal officer, has been ordered to establish rapid telegraph connections between the sea coast fortifications.

At Monticello, Ky., a bank, the courthouse, post office and many other places were destroyed by fire.

There were 248 business failures in the United States in the seven days ended on the 11th, against 251 the week previous and 256 in the corresponding period of 1897.

Arrangements have been completed for the mobilization of the army on the Atlantic coast.

In a street fight at Higginsport, O., Mayor Charles Halfill, John Donald and the latter's son were fatally shot. The duel was the outcome of an old quarrel.

Gen. W. S. Rosecrans died at his home near Redondo, Cal., of senile exhaustion, aged 79 years.

Adolf Kraus, Dudley Winston and Hempstead Washburne, indicted in Chicago for violating the civil service law, were found not guilty.

The post office department has commenced to issue five-cent stamps of dark blue, instead of brown, which has been the color of these stamps.

Continued activity in nearly all lines of trade is reported throughout the country.

Senor Polo, the new Spanish minister, said in Washington that he felt sure that neither the United States nor Spain wanted war, and that his government would do everything honorable to avert hostilities.

Nineteen steamers, carrying 4,000 men, sailed from St. Johns, N. F., for the ice field in quest of seals.

The court of inquiry at Havana took no new evidence, but spent the usual time in executive session, discussing their forthcoming report, studying structural plans, diagrams, photographs, drawings and reports already made by divers.

The war department has promulgated its order creating the departments of the gulf and of the lakes and abolishing the departments of the Missouri and of Texas. Gen. Miles has matured plans for the massing of all available troops, both infantry and cavalry, at stations along the Atlantic seaboard.

Eleven men lost their lives in a fire which swept through the Bowers mission house in New York.

Fifty tons of relief supplies have been landed at Matanzas, Cuba, by the United States government vessel Fern and the New York steamer Bergen.

William E. Spencer, journal clerk of the United States senate, died in Washington.

An earthquake destroyed the town of Amboina, capital of Amboina island, one of the Malucca group, and hundreds of natives were killed.

Immense orders for heavy guns and ammunition have been placed with Connecticut concerns by the government.

Members of the cabinet say that Spain must promptly yield to whatever demands may be made upon her by the United States or the independence of Cuba will be recognized.

A block of warehouses at Toronto, Ont., was gutted by fire, the total loss being \$135,000.

Thomas Robb, aged 19 years, shot and killed Mrs. Rosa Read at Robbtown, Ky., and then killed himself. No cause is known for the crime.

Four men were drowned in the bay at Monterey, Cal., while trying to harpoon a shark.

Senor Polo Bernabe, the new Spanish minister, who succeeds Dupuy de Lome as the representative of Spain, was formally presented to President McKinley.

Isaiah Thomas (colored) was hanged at Sparta, Ga., for outraging a negro girl.

The court of inquiry in Havana examined Ensign Powelson and such divers of the wrecking company as have been investigating the wreck.

The Kansas Methodist conference in Lawrence declared for lay representation by a vote of 89 to 23.

Domestic troubles between Andrew Schuller, a stock broker in San Francisco, and his wife, ended in the fatal shooting of the woman and his suicide.

Counterfeit silver dollars, dated 1888, and having a small "O" under the eagle, were discovered at the mint in Denver, and it is estimated that there are fully \$3,000,000 worth of these spurious coins in circulation in the country.

# HE BROUGHT IT FROM THE WORLD'S FAIR.

And kept it two years.

## How he lost it at last.

The great World's Fair, at Chicago, in 1893, while it gave pleasure to many, gave pain to not a few as an indirect result of their visit to the White City. People were lured along the miles of wonderful exhibits by the new marvels that met the gaze at every step, and did not realize their exhaustion until they dropped into a chair in some breezy corner by the lake, and "cooled off." That's what began the trouble, in many cases. Of one such case, Mrs. L. W. Stevens, Fort Fairfield, Me., writes:

"My husband took a severe cold and cough two years ago last October—time of the World's Fair, which we attended. This cough lasted over two years, was accompanied by spitting of blood, and nothing could be found to help him, although various remedies were tried. Several doctors were consulted, but their prescriptions afforded no relief. Finally, I saw an advertisement of Dr. Ayer's Cherry Pectoral in my paper and prevailed upon my husband to get a bottle and try it. The very first dose helped him and he was completely cured in a short time. We feel

very grateful for what Dr. Ayer's Cherry Pectoral has done for us, and shall keep it constantly on hand in the house."—Mrs. L. W. Stevens, Fort Fairfield, Me.

Two years of doctoring for a cough, two years of "remedies" that gave no help, of prescriptions that profited only the men who wrote them, and then a trial of Dr. Ayer's Cherry Pectoral, which helped from the very first dose and effected a complete cure in a short time. The difference between Dr. Ayer's Cherry Pectoral and all other cough medicines could not be better stated than in this comparison of results. It has cured the most stubborn and obstinate cases of chronic bronchitis and asthma. It is a specific for croup and whooping cough. It cures all coughs and colds and all affections of the throat and lungs promptly and effectively. In response to numerous demands Dr. Ayer's Cherry Pectoral is put up in half size bottles—sold at half price—50 cents. More about cures effected by Pectoral in Dr. Ayer's Cure-book. Sent free, on request, by the J. C. Ayer Co., Lowell, Mass.

#### \$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. Cheney & Co., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

#### Selfish.

Brown—You owe as much as that! I don't understand how you can get so far behind. Now as for me, it is always a pleasure to pay off a debt.

Black—Sort of selfish in you to give way to such indulgence, isn't it? I can truly say that I never felt that way.—Boston Transcript.

Dr. P. Harold Hayes, of Buffalo, N. Y., announces that Asthma can be cured so that it stays cured, and says: "If a patient is loyal to the conditions of a cure, then there is no uncertainty as to the result. In all the world there is not an Asthmatic, free from Heart Disease, Bright's Disease, Tuberculosis in the Lungs, or other organic complications, who cannot be cured of Asthma and to stay cured." Dr. Hayes has now treated more than forty thousand cases of Asthma and Hay-Fever, and sends to all applicants such testimony and proofs as cannot be gainsaid or doubted. Among his patients are many who have not had a particle of Asthma for more than ten years and some of them have now stayed cured for nearly twenty years. No charge is made for consultation by mail and all sufferers are invited to write about their own cases.

#### None in Stock.

Lady (to dog fancier)—What kinds of dogs have you for sale?

D. F.—Scottish terriers, Chinese pugs, French poodles and English setters. "Have you any of these ocean greyhounds that I have read about?"—Detroit Free Press.

#### To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund money if it fails to cure. 25c. Empty wagons rattle most.—Washington (La.) Democrat.

We have not been without Piso's Cure for Consumption for 20 years.—Lizzie Ferrel, Camp St., Harrisburg, Pa., May 4, '94.

#### None in Stock.

### WORKING WOMEN WHO SUFFER.

Should Get Mrs. Pinkham's Advice—The Whole Truth can be Told to her Because she is a Woman.

The suffering and pain endured by some working women is almost past belief. Here is a letter from one of the multitude of women who have been restored to health and usefulness by Mrs. Pinkham's advice and medicine:

DEAR MRS. PINKHAM:—I feel as though your advice had lifted me from the grave. I must have been very near it. I suffered terribly at time of menstruation, was constantly troubled with cold hands and feet, was extremely nervous, could not sleep well, was troubled with frightened dreams, had heart trouble and a feeling as though my breath was going to stop, also had leucorrhoea. I tried to get help but all remedies failed, until I wrote to you. I cannot thank you enough for your kind advice, and I wish to tell every one the great good your remedies have done me.—TAMMA C. HOOVER, Wolfsville, Md.

Lydia E. Pinkham's Vegetable Compound for a quarter of a century has been helping women to be strong and well. The following statement from Miss H. PATTERSON, of 2331 Lawrence St., Philadelphia, Pa., should interest all working women who are troubled with female complaints:

"DEAR MRS. PINKHAM:—I must write and tell what your medicine has done for me. I am a working girl and have to stay at my work all day. I suffered greatly with bearing-down pains and backache. I was advised by a friend to try your Vegetable Compound. I did so and can say positively I am cured. I have recommended your medicine to all my lady friends, and would advise any of my sex suffering from female weakness to give Lydia E. Pinkham's Compound a trial, for I know it will cure."

Mrs. Pinkham invites all women troubled about their health to write to her at Lynn, Mass., and secure her advice free of all charge. All such letters are seen and answered by women only.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

DESPITE the fact that we have few ships on the high seas we managed to maintain our supremacy in Hawaiian shipping last year. Ships carrying the American flag entered at Hawaiian ports numbered 286, while the ships of all the other nationalities numbered only 141.

INPRISONED miners can be supplied with food and air by a newly patented conduit system, consisting of a series of pipes, to be laid through the mine shafts, with branch pipes running around each section to be used if the main pipe should be crushed by a cave-in, flexible conveyors being run through the pipes to carry the food.

In the royal family of England the order of precedence among men is thus: The sovereign, the prince of Wales, the other sons of the sovereign in the order of their age, the sovereign's grandsons, the brothers or sisters of the sovereign, the sovereign's uncle, and finally the sons of the brothers or sisters of the sovereign.

It is asserted that the reason why Spain favors war is that if Cuba is permitted to depart in peace Spain will be compelled to foot the entire Cuban debt of \$600,000,000, but if Cuba should be wrested from Spain in a war with the United States that obligation could not be held against Spain. In other words, Spain would make money by being whipped.

Boston is getting rid of its professional beggars by turning them over to the tender mercies of some special policemen appointed for this service. The beggars are given the choice of disappearing from the streets or going to jail. A majority chose the first alternative, and are working other cities which have not adopted the Boston plan, and the others are in jail, where they will be required to stay until they have served out their full sentences.

Dr. S. J. ALLEN, of White River Junction, Vt., has a relic of the closing days of the rebellion, a testament in which a minie ball is imbedded. It was taken from the left breast pocket of a rebel soldier who was killed at Sailor's Creek, Va., April 8, 1865, and who was brought to the hospital of the Second division of the Sixth corps that day. The ball was flattened upon either side and stopped on the seventh verse of the eighth chapter of Corinthians.

An ingenious machine for making sandwiches is used by many of the ocean line steamships. It cuts and butters 60 slices of bread a minute. One movement of the hand cuts and butters the bread, and the machine can be arranged so that the bread need not be buttered if the operator does not want it to be so. In making 1,000 sandwiches three hams and 11 pounds of butter are saved, it is said, on account of the accuracy with which both are cut.

MEMBERS of the New York police department are to be fitted out with new uniforms. New buttons form part of the equipment. What does this change mean? Including commissioned officers there are about 7,500 men on the force. It requires 78 buttons to fit out the two uniforms and overcoats. This means a total of 585,000 buttons. For one suit and overcoat the buttons weigh 18 ounces avoirdupois, so that the total weight will be \$437½ pounds, or 437½ pounds more than four tons.

PRESIDENT KRUGER will shortly have the opportunity of unveiling at Pretoria a monument to himself. As a result of the national subscription raised for the purpose a native artist, Van Boven by name, was commissioned nearly two years ago to execute the work, and has been exclusively engaged upon it at Rome ever since. The monument is designed to glorify the majesty of the Transvaal republic, and the statue of Oom Paul, in heroic size, crowns the structure, in itself some fifty feet high.

As a result of Hubner's latest investigations, the population of the world is placed at 1,335,000,000, or 23,400,000 more than in 1896. Of this increase Europe is credited with 5,700,000; Asia, 6,200,000; Africa, 7,500,000; Americas, 3,200,000, and the United States 2,800,000. Europe, which in area is about as large as the United States, is credited with about one-fourth of the population of the world, or 378,600,000. The United States has 72,300,000 or 53 per cent of the combined population of North and South America.

A COMPARATIVELY small number of handkerchiefs are manufactured in this country, and those that are made are mostly of the cotton and inferior silk variety. The finest silk goods are imported principally from Japan, which country sends us annually between 17,000,000 and 18,000,000 Japanese pongees. The best cambric article comes from France and Belgium, and linen handkerchiefs come from the north of Ireland and also from St. Gall, Switzerland. Japanese silk handkerchiefs are worth from \$3 to \$40 per dozen.

## UNIVERSITY WORK SHOPS

One of the Finest Buildings on the Campus at Ann Arbor Devoted to This Purpose.

### STUDENTS LEARN PRACTICAL BUSINESS

First-Class Work Done in All Departments—Good Work Done by the Christian Association—Debating Society for Women—Investigating the Sugar Beet Industry.

[Special Correspondence.]  
Ann Arbor, Mich., March 9.—One of the finest buildings on the campus of the University of Michigan is that which is occupied by the machine shops, the work in which rivals that of Worcester polytechnic, Cornell, Massachusetts institute of technology and Purdue.

The object of these shops is to teach the students the various branches of manufacturing and to train them in practical business. At present there are four branches of the mechanic arts taught at Ann Arbor—pattern making, forging, foundry and machine shop work. It is hoped before long that there will be more diversity in the arts, especially in the line of textile manufacturing. But nothing can be done in that direction until the income of the university is increased.

As a general rule the workings of the shops are like those of a manufacturing plant. If it is desirable to make a new piece of equipment for the shops or to manufacture something for the university the material for the patterns is given out and the various portions of the desired articles are made in wood, care being taken to make the patterns larger than the metal is to be by one-eighth of an inch to the foot, for iron shrinks that much in cooling. When the patterns and covers are completed they are sent down to the foundry, and such parts as are necessary are molded in sand by the students, under supervision of the foundry foreman. Those portions of the work which are to be beaten into shape from iron or steel are made in the forge room under the direct supervision of a practical expert. Then the castings and forgings are sent to the machine shop, there to be turned and planed, cut and polished to mathematical exactness.

First-class work is done in all the departments, and as the students in them possess more intelligence than the men who ordinarily do the rough work of manufacturing they learn very rapidly to become mechanics with a deal of manual skill and no small acquaintance with the theory of things.

There is plenty of manual labor to be done in the shops, and much of it is hard enough to satisfy anyone. But many hands make light work, and when a man needs help with something extra heavy he can always obtain it from his fellow students. Sledging in the forge, using a heavy maul to break iron for the furnace in the foundry and carrying parts of the machine around in the machine shop are perhaps the hardest tasks done.

Every year this large building is a hum of activity while college is open. From it are turned out all the seats of the university, the grate bars for the boiler house and many other articles of use on the campus or in the buildings. Michigan ranks among the foremost colleges in respect to her shops. In a few years, with push and determination and a little more liberal appropriations on the part of the legislature, she will no doubt take the lead.

#### Students' Christian Association.

In 1857 there was in existence at Michigan university an organization established to encourage foreign missions and to give information concerning their work. Its name was "The Society of Religious Inquiry." It afterwards modified its character and became the nucleus of the present thrifty Students' Christian association. Among the leaders in those early days were Charles Kendall Adams, now president of Wisconsin university; Mr. Adam K. Spence, Mr. Henry Humphrey, Mr. Daniel Kloss, Mr. Fayette Hurd and Prof. Martin L. D'Ooge, now professor of Greek in the university, and Mr. Byron M. Cutcheon, afterwards a regent of the university.

The organization of this association was largely due to the powerful Christian influence of the class of 1861. It was not only an unusually large class at the time, but it contained an unusually large, earnest and influential religious element.

The good work accomplished by this organization is almost beyond the power of words to describe, and its influence is steadily on the gain. It conducts meetings in the hospitals, has services at the county house and holds temperance meetings, while under its auspices all religious work in the university is carried on, such as prayer meetings, Bible institutes, preaching and missionary services. It has no test of membership except such as is required of all Christian associations, and it affiliates with all Evangelical churches on equal terms. It has a library of religious books and all the modern magazines and papers, which is open to all the students.

The association has a beautiful build-

ing opposite the main building of the university. On the main floor are reception rooms, the library, a room for prayer meetings and one for larger services. All these rooms can be thrown open to form one continuous suite of apartments, admirably adapted to their social gatherings. The second floor is mainly devoted to an audience room, which has a seating capacity for 600. Leading out of this auditorium are two small rooms for the use of committees. The building, while nowhere showing extravagant outlay, is a handsome structure.

On March 4, 5 and 6 the association celebrated its fortieth anniversary at Newberry hall. On Friday evening was a reception given by the board of trustees to the citizens of Ann Arbor, the members of the faculty and the alumni; on Saturday evening a meeting devoted to addresses of a historical and reminiscent character, at which a number of prominent alumni spoke; Sunday evening Rev. John H. Barrows, of Chicago, delivered in university hall an address upon "Triumphs of Christianity in the Orient."

#### Debating Society for Women.

One of the new organizations of the year at the university is a debating society for the women students. This society has been named the Philologia, and it starts out with a membership of about 30. Its purpose is to give the young women of the university an opportunity to practice public speaking, and meetings will be held Saturday mornings in the Barbour gymnasium, and will be open to all college women. "Co-eds" in the past have sometimes joined the literary debating societies already in existence, but the need for one of their own has brought about the new organization.

#### Investigating the Sugar Beet.

Some good work has been done this year in the chemical laboratory at the university by those interested in the investigation of the paying qualities of the Michigan sugar beet. Several of the graduates in pharmacy will spend their summer this year in Germany, studying the methods employed in the sugar beet industry there.

#### The May Festival.

The annual May festival will take place this year on May 13-15, and Wagner's "The Flying Dutchman" will be the principal attraction and will be sung by leading professional singers.

#### THEY KNOW MORE NOW.

Another Scheme for Getting the Best of the Farmer.

A farmer residing near Niles was swindled recently by a new scheme which has just been put into practice. A couple of men drove on his premises and presented papers purporting to give state authority for examination of wells and cisterns under the pure food law. They inspected the water through a microscope, and found all kinds of microbes, bacteria, cholera germs and typhoid fever bugs. They permitted the farmer and his other half to look through the microscope they carried. Of course they saw a menagerie that always was and always will be contained in a drop of water. The thoroughly frightened farm folks were advised to apply certain remedies, which the fakirs sold to them at a high figure, and then went on their swindling way. An analysis of the remedy proved to be plain soda, and nothing more.

#### THE OLDEST TWINS.

Claim of Aaron Peabody of Michigan and His Ohio Brother.

Aaron Peabody, of Charlotte, O., and David Peabody, of Oberlin, O., claim to be the oldest living twins in this country. They were born of Yankee parents at Londonderry, N. H., in 1812, and came from stock noted for their longevity, their father having lived to the age of 89.

In 1843 the twins came west, locating at Oberlin. Later Aaron moved to Monroe, and afterward, in 1860, to Charlotte, which has since been his home. His first vote was for Andrew Jackson for president. When the republican party was organized he accepted its principles as the proper political doctrine, and has never wavered in his fealty thereto. He has five children living, the baby in his family being 55 years old. Like his twin brother, he is still hale and hearty.

#### Calls an Extra Session.

Gov. Pingree has designated March 22 as the date for a special session of the legislature to consider the question of taxation of railroad, express, telegraph and telephone companies. The proclamation refers to constitutional requirements that there shall be a uniform rule of taxation and that all property shall be assessed at its full cash value, and says:

"In violation of the spirit, if not the letter of these provisions of the constitution, laws have been passed from time to time by which railroad companies, express companies, telegraph and telephone companies, now owning, according to their sworn returns, at least one-third of the property of this state, are required to pay only about one-twenty-sixth of the taxes levied for state, county and municipal purposes, leaving their just proportion of supporting our schools, asylums and other public institutions and defraying the public expenses, to fall upon the farmers, laborers and manufacturers and other property owners of the state."

David Seeley, who pleaded guilty in Kalamazoo to the charge of bigamy and had three wives after him at once and was known to have ten, was sentenced to Jackson prison for four years and six months.

## MICHIGAN STATE NEWS

### Never Lived Together.

The bill of Eveline Dunham versus Oliver Jones for a decree to have their marriage declared void was heard in the circuit court in Lansing. The pair were married at Ovid. Eveline became disgusted with Oliver the same afternoon and never lived with him. She alleges that he has been the husband of four women, and that one of them is still living in Ohio. He is said to be the father of 22 children. They had been acquainted but a short time when they were married.

### A Village Nearly Burned.

Fire started in Main street in Watersmeet in the building formerly occupied by F. C. Payne & Co., destroying the Commercial house, M. Kelly's store building, which was occupied as a dwelling; John Kelly's dry goods store; Ted Kelly's saloon and Kelly's barber shop. The Krom building, occupied by F. C. Payne & Co., was the only building in Main street that was saved. This is nearly the whole business portion of Watersmeet.

### Money in an Old Trunk.

Christopher H. Sternhagen, a wealthy junk dealer in Saginaw, while cleaning out an old closet in an unused portion of his house, found \$5,000 in coin and bills stored away in an old trunk. From time to time during the past 20 years Mr. Sternhagen has missed sums from his business, and it now appears that his wife, who is demented, is responsible for the strange accumulation.

### Guilty of Manslaughter.

The jury in the McArron murder trial in Port Huron agreed that Owen McArron struck the blow that killed Kilmourne Seeback on July 25 last, and brought in a verdict of manslaughter. There was no claim made that McArron had intended to kill the Seeback boy, and the prosecution did not ask for a conviction of any crime greater than manslaughter.

### Wheat in Good Condition.

The Michigan crop report for March says:

Wheat throughout the state has been well covered with snow during the last month and has not been injured. The amount of last year's crop thus far marketed is 11,339,400 bushels, or 4,481,957 bushels more than was marketed at this time last year. It is estimated that the farmers still have 5,165,000 bushels for the market. This year's acreage is estimated at 1,600,000 acres.

### Boy Commits Suicide.

Cornelius Rutherford, alias Francis, a young man about 16 years of age, committed suicide at his home in the township of Goodland by hanging. A coroner's jury was impaneled and returned a verdict of death by his own hand for reasons unknown.

### News Items Briefly Told.

Potatoes are bringing 58 cents a bushel at Hart, and are being marketed at the rate of 150,000 bushels per month.

Three hundred miners employed in the Monitor and Bay county mines struck for an eight-hour work day, pay for mine run and abolition of the one-inch screen.

The post office at Watervale, Benzie county, has been discontinued. Mail will be sent to South Frankfort.

Eleven Italian miners left Calumet for Alaska. They have 20 large trained dogs.

Henry Aldrich, a prominent resident of Tekonsha, committed suicide by shooting himself with a shotgun. Despondency was the cause.

George W. Knapp, assistant cashier of the Tecumseh state savings bank, left for the gold fields of Alaska.

William Haldane, founder of the Grand Rapids furniture industry, died in Grand Rapids, aged 91 years.

George C. Fitch, ex-alderman and ex-member of the board of education, died in Grand Rapids. He was a pioneer in the wagon making industry.

A post office has been established at Millersburg, Presque Isle county, with John D. Walker as postmaster.

William H. Hitchcock and wife left Clare for Fairport, N. Y., to take possession of \$65,000 left by Mr. Hitchcock's grandfather.

Mabel Whipple, a teacher in Clarks-ton, chastised Mrs. Nuernburg's children, and the mother blacked her eyes. Mrs. Nuernburg was fined \$20.

Manager McVittie, of the Detroit Dry Dock company, says that a dry dock of sufficient size to accommodate the largest ships on the great lakes is to be built near Detroit.

G. W. Bentley, of Marshall, celebrated his eighty-ninth birthday. He came to Michigan when it was a wilderness and by hard work earned a competence. He helped build the first house in Marshall.

Deposits of gypsum, lime, coal, marl, etc., have been found near Omer and mines will be opened.

The commissioner of schools of Arenac county has organized the Teachers' Improvement society and a normal school will be held for ten weeks this summer, beginning June 10.

The Sunday schools of Eaton county held their annual convention at Charlotte.

Alba Heywood, the actor who was fatally injured in a row at Longview, Tex., is a Niles boy. He is 38 years old.

Richard Schuler, a deaf mute, was run down by a light engine at Port Huron and fatally injured.

## SPAIN'S PLAN OF WAR.

Intimates That She Will Carry on a Privateering Campaign Against Our Commerce.

Madrid, March 14.—The view held in official circles is that Spain will not provoke a war, because, if she did, she would find herself isolated, but if America gives the provocation Spain will not be alone in the struggle. The general opinion is that in the event of war Spain will not need to attack American territory. It will suffice her to pursue a war of privateering. As America's commerce is sevenfold greater than Spain's, American interests would suffer most. War would be madness, benefiting neither nation, and good sense, therefore, counsels peace.

El Imparcial says: "The government is momentarily expecting to receive the report of the Spanish commission, which, it is understood, will maintain that the Maine explosion was internal. Although the American commission may give another explanation, the government will energetically uphold the Spanish report."

Madrid, March 14.—Gen. Weyler in an interview says the United States shall not have Cuba if it takes the dearest sons of all the Spanish mothers to prevent it.

Paris, March 14.—The Temps says: Spain does not deceive herself when she counts upon the sympathies, at least latent, of European governments, but it would be a mistake for her to expect any effectual support from either Great Britain or the triple alliance. Before all she must rely upon herself.

London, March 14.—The Paris correspondent of the Daily Mail declares French support of Spain "would not exceed platonic sympathy," and that there is no likelihood that the friendliness of Austria or Germany would extend further.

London, March 14.—The Daily Graphic editorially suggests that there is time still remaining that can be utilized to negotiate an agreement to refer the Maine matter to arbitration to ascertain the "true facts," and to decide as to the nature of the indemnity, if any be due to the United States. "England," says the Daily Graphic, "would sympathize with a war for the liberation of Cuba, but if the United States goes to war it must be in a just cause and after every effort to secure an honorable peace has been exhausted."

London, March 14.—The Madrid correspondent of the Morning Post says:

"I am able to assert on the best authority that United States Minister Woodford originally intimated that the United States hoped and expected that Spain would re-establish peace in Cuba before March 1 of this year. Recently, in response to Spanish representations, the United States extended the time to May 1. Both governments refuse to describe this intimation as an ultimatum to Spain. It has been given entirely irrespective of the Maine affair or of any other complications which may arise in the meantime. There was no suggestion as to what action the United States would take on May 1, should, as is certain to be the case, the rebellion be still unsupported."

London, March 14.—The Sunday Special publishes from its Berlin correspondent an interview with United States Ambassador White. Ambassador White, according to this dispatch, declared the statement that the United States had entered into an alliance with England and Japan absolutely without foundation. "The United States," Mr. White is reported to have said, "will never bind herself by such an alliance. President McKinley's administration cannot act against the tradition which forbids all such complications in America's international relations. Least of all will it do so for the sake of American interests in the far east."

Washington, March 14.—The attitude of Europe on the Spanish question, according to a diplomat in this city, is one of neutrality unless the United States should accept the reported proffer of an alliance with Great Britain, in which event it is said Spain would find powerful support which otherwise she would not get.

Berlin, March 14.—The Berlin foreign office has instructed the inspired press to deny emphatically that Germany will aid Spain in case of war with the United States, and has instructed these newspapers to point out that the United States is an excellent customer of Germany and that Spain since the Carolinas squabble has repeatedly shown unfriendliness to Germany.

Madrid, March 14.—The Liberal publishes a tabulated list of the Spanish fleet, showing that it consists of 17 protected ships, 20 unprotected, 80 gunboats, 14 torpedo-boat destroyers, 14 torpedo boats and 25 transports.

## AWARDED A BIG SUM.

Arkansas Jury Gives a Widow \$50,000 Damages for Killing of Her Husband by a Locomotive.

Little Rock, Ark., March 14.—A jury in the Saline county circuit court at Benton on Saturday brought in a verdict of \$50,000 damages against the St. Louis, Iron Mountain & Southern railway in favor of Mrs. Arthur Tomlinson, of Washington, widow of Lieut. Arthur Tomlinson, of the famous military organization, the National Fencibles. Lieut. Tomlinson was run over and killed by an Iron Mountain locomotive at Little Rock on July 8, 1894, at the conclusion of an interstate drill. Suit was brought for damages and the case tried at Benton on a change of venue.

## FREEMAN'S.

### J. J. Raftrey, The Tailor.

To close out a lot of short ends for odd vests and knee pants, we shall offer them so you can make them yourself and save half the price and get better values.

Also a large line of heavy overcoats, suits and pants to be closed out to make room for new Spring goods that will arrive this month. Come early and get the bargains. A little money get a big bargain.

**J. J. RAFTREY, The Tailor.**  
Chelsea, Michigan.

### CALL

At the new  
Repair Shop and get prices on  
new handmade Road Carts,  
Road Wagons, Lum-  
ber Wagons and Bug-  
gies. If every article we  
make does not prove to be as  
bargained for, money will be  
refunded upon return. Discount given for cash.

**A. G. FAIST.**

## H. L. WOOD & CO.

Having purchased the grocery stock of Geo. Fuller, I shall continue the business at the same stand, and solicit a share of your patronage.

**You Like to Deal**

At a grocery house where things look neat and clean; where clerks are polite and obliging; where deliveries are made on time; above all where you know you are getting the best in the market at the fairest of prices. That's the sort of house we keep. Call and be sure of it.

**Garden and Field Seeds.**

That will grow. We sell them. Baled Hay and Straw. Feed and Oil Meal always on hand.

## H. L. WOOD & CO.

### What You Should Eat

Is the question that is agitating the minds  
of our great physicians.

### We Can Tell You!

Eat some of those nice fresh Steaks from our market. We will deliver them for you. We can give you meats for boiling, frying, roasts, etc., that will make your mouth water.

We are always supplied with Hams and Bacon for which our market is famous. They are cured by our own process and have no superior.

**TERMS—CASH.**

**ADAM EPPLER.**

ed Free.

### Echoes of the Week.

Pithy Pickings Pointedly Put for  
Quick Reading.

Through the Condenser This Grist  
Has Gone, and Is Served Up  
for Herald Readers in  
Succulent Style.

St. Patrick's Day.

Leo Staffan was in town last Friday.

J. J. Raftrey, the tailor, solicits a call.

Christian Fritz, of Lima, will remove to  
Dexter.

Judge Newkirk, of Ann Arbor was in  
town Monday.

Miss Christina Bauer is spending a few  
days in Webster.

Overcoats from \$10.00 to any old price  
at J. J. Raftrey's.

J. V. N. Gregory, of Dexter, was a  
Chelsea visitor Tuesday.

Mrs. Kathryn Walsh, of Detroit left for  
home last Wednesday.

H. L. Wood and Co., are headquarters  
for field and garden seeds.

John Schaufele now occupies his dwell-  
ing, corner East and Park streets.

M. A. Lowry will build a dwelling  
house this summer on his lot, on Jeffer-  
son street.

Street corner loafers have come out of  
their winter quarters in large numbers the  
past few days.

Chas. Nunneman and daughter, or Mar-  
shall, attended the Messner-Schmidt wed-  
ding last Thursday.

J. J. Raftrey, the tailor, has received  
the largest invoice of goods ever received  
in Washtenaw county.

Messrs. Thomas and Herbert Clark spent  
the past week visiting friends and relatives  
in Ann Arbor and Toledo.

March has thus far been as gentle as  
the proverbial lamb. Robins have been  
seen and it really looks like spring.

Miss Elizabeth Walsh, of St. Joseph's  
Academy, Adrian, was called home for a  
few days by the death of her sister.

Messrs. John and Conrad Heselshwerdt  
went to Buffalo last week with two car-  
loads of live stock, of their own feeding.

The L. O. T. M. are arranging for a  
"contest." It is desired that all members  
be present at our next meeting. March  
22nd.

The Y. P. S. C. E., of the Congrega-  
tional church will hold an ice cream social  
at the home of Miss Mary Smith, Wednes-  
day evening, March 23, 1898. Cordial in-  
vitation extended to all.

Mr. and Mrs. John Walsh of Lyndon,  
have the sympathy of their friends in the  
death of their infant daughter, Alice  
Irene, who died Friday, March 11, 1898.  
The funeral was held from St. Mary's  
church, Sylvan, Friday, March 13, and  
the burial was in St. Mary's cemetery.

Mrs. Maggie Isbell, of Stockbridge,  
died Saturday, March 5th. She had been  
married only about four months, and was  
ill but 4 days. She and her husband,  
Vernel Isbell, were exactly of the same  
age, 19 years. She was born, married and  
died in the same room.

A pretty wedding occurred Thursday  
evening, March 10, 1898, at the home of  
Mr. and Mrs. John Schmidt, when their  
daughter, Kate E., and Henry Messner  
were united in marriage, the Rev. L. Koel-  
bing officiating. The ceremony was wit-  
nessed by a large number of relatives and  
friends of the contracting parties.

Married, at the home of the bride's pa-  
rents on Orchard street, Wednesday even-  
ing, March 16, 1898, by Rev. Thomas  
Holmes, D. D., Miss Mabel Fletcher and  
Mr. Ralph Pierce. This happy event has  
taken the people of Chelsea a little by sur-  
prise, but the congratulations of their  
numerous friends are none the less sincere  
and hearty.

Enlalia Genevieve, the infant daughter  
of Mr. and Mrs. John Breitenbach, died  
Wednesday, March 9, 1898, and was bur-  
ied from St. Mary's church, Chelsea, on  
Friday March 11, the Rev. Father Con-  
sidine officiating. The interment was in  
Mt. Olivet cemetery. Mr. and Mrs. Breit-  
enbach have the sympathy of many  
friends in their loss.

Don't forget the grand dramatic and  
musical program at the Opera House  
tonight. "From Sumter to Appomattox,"  
will be given by a fine cast of characters.  
Professor Van Reybroeck, Mr. Louis Burg,  
Miss Mary Dunn and Messrs. Thomas and  
Herbert Clark in vocal and instrumental  
music. The cast includes Messrs. Ralph  
Thatcher, Henry Mullen, John Hinde-  
lang, Fred Johnson, Don McColl, Frank  
Penn and the Misses Linna Lighthall and  
Edith Noyes. The music for the play will  
be rendered by Mr. William H. Freer,  
violinist, and Miss Kathrine Staffan, pian-  
ist. Admission 25 and 15 cts. Reserved  
seats at John Farrell's without extra  
charge.

### Michigan Crop Report.

Lansing, Mar. 8, 1898.

Just previous to the middle of February  
the ground in Southern Michigan was  
bare of snow, or nearly so, for a few days,  
but the weather was not severe and the  
wheat plant suffered little if any injury.  
During the balance of the month the  
fields throughout the state were well pro-  
tected by a more or less heavy covering of  
snow, and wheat has not yet been mater-  
ially damaged.

In answer to the question, "Has wheat  
during February suffered injury from any  
cause?" 68 correspondents in the state  
answer yes and 638 no. In the southern  
counties 44 answer yes, and 411 no, in the  
central 13 answer yes and 144 no, and in  
the northern 6 answer yes and 78 no.

In answer to the question, "Has the  
ground been well covered with snow dur-  
ing February?" 285 correspondents in the  
southern counties answer yes and 158 no,  
and in the central counties 119 answer  
yes and 43 no.

The average depth of snow in the south-  
ern counties February 15 was 3.50 inches,  
and at the end of the month, 8.50 inches.  
In the central counties the average depth  
February 15 was more than eight, and at  
the end of the month, nearly 13 inches.  
In the northern counties there was about  
15 inches of snow February 15, and nearly  
18 inches at the end of the month.

Snow has covered the ground fairly well  
to the present date in March, but during  
the past few days it has slowly melted  
away, and by to-morrow, (March 9), the  
fields in southern Michigan will be practi-  
cally bare. The weather forecast for to-  
morrow is for higher temperature with  
rain.

The total number of bushels of wheat  
reported marketed in February is 1,095,536  
and in the seven months, August-Febru-  
ary, 11,350,400. This is 4,481,957 bushels  
more than reported marketed in the same  
months last year.

The amount of wheat in farmer's hands  
March 1, that may yet be placed on the  
market, was probably about 5,165,000 bu.  
This total is arrived at in the following  
manner:

The crop of 1897, as estimated by this  
department last October was 24,925,000  
bushels. The amount used for seed was  
approximately 2,400,000 bushels; amount  
held by farmers to supply their own fami-  
lies for one year, 6,000,000 bushels;  
amount reported marketed to March 1,  
11,359,400 bushels, making a total of  
19,759,400 bushels disposed of, and leav-  
ing 5,165,600 bushels yet to be disposed of.

It will, of course, be understood that  
this year's acreage is not yet definitely  
known, but the best data available indi-  
cates about 1,600,000 acres. The farming  
population is assumed to include the en-  
tire population outside of cities and incor-  
porated villages, which, in 1894, the date  
of the last census, numbered nearly 1,200,-  
000. A year's supplies for the population  
is not far from 6,000,000 bushels.

Correspondents, with a very few excep-  
tions report that no damage to apple and  
peach buds is yet apparent.

Live stock is in good condition. The  
figures for the state are, 96 for horses, cat-  
tle and hogs, and 97 for sheep.

WASHINGTON GARDNER  
Secretary of State.

### The Water Lily.

Almost everybody has observed the  
strange characteristic of the water lily  
bud opening its petals at sunrise and  
closing them again at sunset. It was for  
this reason, mainly, that the ancients held  
the water lily sacred to the sun. Pliny  
says: "It is reported that in the Euphrates  
the flower of the lotus plunges into the  
water at night, remaining there until mid-  
night, and to such a depth that it cannot  
be reached with the hand. After mid-  
night it begins gradually to rise; and as  
the sun rises above the horizon the flower  
also rises above the water, expands and  
raises itself some distance above the ele-  
ment in which it grows." It was also  
through this peculiarity that Hancarville  
proved that the Egyptians considered the  
lily an emblem of the world as it rose  
from the waters of the deep.—Pittsburg  
Dispatch.

### The Coming Woman.

Who goes to the club while her husband  
attends the baby, as well as the good old-  
fashioned woman who looks after her  
home, will both at times get run down in  
health. They will be troubled with loss  
of appetite, headaches, sleeplessness,  
fainting or dizzy spells. The most won-  
derful remedy for these women is Electric  
Bitters. Thousands of sufferers from  
Lame Back and Weak Kidneys rise up  
and call it blessed. It is the medicine for  
women. Female complaints and Nervous  
troubles of all kinds are soon relieved by  
the use of Electric Bitters. Delicate  
women should keep this remedy on hand  
to build up the system. Only 50c. per  
bottle. For sale by Glazier and Stimson.

## STAND SQUARELY

No. 37 will stop at Chelsea for passen-  
gers getting on at Detroit or east of  
Detroit.

E. A. WILLIAMS, Agent, Chelsea.  
O. W. RUGGLES, General Passenger  
and Ticket Agent, Chicago.

We always do as we advertise; oftentimes more  
We shall offer every week this season  
some special bargains, sales or  
drives, that will surely bring  
us a record-breaking  
trade for 1898.

One case 50 cent fancy, new Broadhead dress goods, now 39 cents.  
One case assorted 30 to 35 cent dress goods, some all wool, 25 cents.  
New fancy denims, satine tickings and silkolines just opened—these are  
just the thing for pillow covers and cushions—price 10 to 30 cents.  
Ladies', Misses', Childrens' and Babies' Hose Supporters, lisle thread  
elastic, best fastners, quality guaranteed the very best, any size price 10c.  
You ought to see the new percales for waists or dresses light or dark  
a new quality entirely. No one else has these. At the price of the ordin-  
ary percale, 12½c  
20 pounds Best H & E Granulated Sugar for \$1.00, with 1 pound of  
our best Royal Satsuma Tea at 50 cents. We will sell Half quantities of  
each of the above.  
10 pound pail Fine Family White Fish 40c.  
5 pounds fresh good crackers for 25 cents.  
Good Coffee at 10, 12 and 16 cents, Try our coffees, we beat 'em all.

**H. S. HOLMES MERCANTILE CO.**  
Butterick Patterns for March now on Sale.

## Spot Cash Grocery.

On Monday, March 14, we decided to do a strictly cash business, and  
at the same time we discontinued the plan of calling from house to house  
for orders. Yet all goods bought of us we will deliver free.  
In order to bring about this revolution from a credit system to spot  
cash, we have made great reduction on the price of all goods, and every-  
one will find it to their advantage to give us a call.  
Butter and eggs taken same as cash, and at highest market price.

**Corned Beef and Salt Pork.**  
Choice line of fresh meats. Also sausages.

**HINES & AUGUSTUS.**  
Terms—Cash. Klein Building, Opposite Postoffice.

**Best Papers the Best Mediums.**

There is much good solid sense for every advertiser in  
the following paragraph from a thoughtful eastern advertiser:  
The daily paper is by far the safest and most certain method  
of reaching the public. It should not be difficult for any in-  
telligent man who has lived for any time in a community  
to know just what papers will serve him as advertising me-  
diums. It isn't at all necessary to examine the books in the  
newspaper's counting room or to get their affidavits of cir-  
culation. A paper that you read yourself and that your neigh-  
bors read and respect and that you know to be widely read  
and respected, you can safely rely on as a satisfactory me-  
dium for reaching people of your own kind.

For sale, two village lots, centrally  
located. Inquire at this office.

### Here and There.

The acreage under cultivation for wheat  
in Michigan this year is estimated by the  
state department at 1,600,000 acres.  
Rev. Dr. Holmes' subject at Sylvan  
Center, next Sunday morning, will be  
"Why was a tree of forbidden fruit placed  
in the garden of Eden?"  
Call and see J. J. Raftery's \$15.00 suits.  
A meeting of the stockholders of the  
Waterloo Burial Association, which was  
held at the school house in that village  
recently George Runciman was elected  
president, Geo. W. Emmons, secretary;  
A. B. Runciman, treasurer and C. A. Bar-  
ber sexton. It was also voted to raise  
money by an assessment of one dollar on  
each burial lot, for the purpose of build-  
ing a fence on south west and north sides  
of the yard.  
Go to H. L. Wood & Co., for your field  
and garden seeds.  
Report of school in Lyndon, District  
No. 5, for the month ending March 5.  
Attending every day. James Madge and  
Vincent Young, Alta Skidmore, Calista  
and Floyd Boyde, Verne Beckwith,  
Madge Young and Grace Collins have not  
misspelled a word in written spelling dur-  
ing the month, Calista Boyce missing but  
one. Promoted from second to third  
grade. Earnest Pickell, Verne Beckwith  
and Vincent Young. Mrs. L. A. Steph-  
ens, teacher.

Odd pants from \$3.00 to \$10.00 at  
Raftery's.  
No staple crop shows as great a  
price advance the past year as potatoes.  
No crop, universal with the farmer, the  
market gardner and the village artisan  
who has a truck patch, will receive more  
general consideration the coming season.  
This week's potato department in  
Orange Judd's farmer is timely; so is the  
caution not to overdo the matter. A  
bumper crop like those of two and three  
years ago will almost surely bring a sharp  
reaction in prices.

At a social gathering of ladies yesterday  
afternoon it was decided by all those pres-  
ent not to wear hats trimmed with birds  
feathers. The women concluded that  
they would not gratify a heedless vanity  
by sacrificing innocent life. During the  
year 1897, 5,000,000 birds were slaughtered  
in the United States for the purpose of  
trimming women's hats. All the women  
societies in Michigan ought to imitate the  
good example set by their Ann Arbor  
sisters and lift their voices against the aw-  
ful devastation of life and song.—A. A.  
Times.

Professor James E. Keeler, of the Al-  
leghany observatory, in a lecture declared  
that he did not believe that any of the  
sun's satellites, except the earth, are in-  
habited, although there is a remote possi-  
bility in the cases of Venus and Mars.  
He said: "Nothing can be seen on the sur-  
face of Mercury and only vague markings  
on the surface of Venus. Of Venus we  
know nothing, except that it has a dense  
atmosphere. In the case of Mars the evi-  
dence is not yet sufficient. We may sup-  
pose that in time the larger planets will  
be fitted for supporting life as the earth is  
now."

The going out of use of mess pork and  
the substitution of vegetable products for  
lard, have led to the demand for bacon in-  
stead of a pork and lard hog. In Ireland  
where they have no corn with which to  
feed hogs, they produce a very superior  
quality of meat. A piece of American  
bacon big as you first put in a pot comes  
out half the size, with the top of the water  
covered with grease and oil, while a  
piece of Irish bacon the same size comes  
out of the pot twice the size it was when  
out. The farmers in the Pacific coast  
region, where corn is not the whole thing  
expect to make a great success of grow-  
ing the kind of bacon hog that would cap-  
ture the markets of the world.

"As painful and annoying as dyspepsia  
is, it may be easily and quickly cured if  
the sufferer will only be careful in his  
daily diet," writes Mrs. S. T. Rorer in the  
March Ladies' Home Journal. "Abstain  
for a given time from all solid foods.  
Live for at least one week on milk, one-  
quarter barley water, or koumyss. Then  
as the stomach grows stronger, take pure  
milk, sipping it and swallowing it slowly.  
You may take also the raw white of an  
egg shaken with a cup of milk, Barthe-  
low's food, plum porridge, a little scraped  
beef broiled, and finally broiled beef,  
boiled rice and pulled bread. A glass of  
cool, not iced water should be taken the  
first thing in the morning. A cup of  
warm, not hot, water half an hour before  
breakfast. For breakfast, three ounces of  
milk mixed with one ounce of barley  
water. This schedule should be followed  
every three hours throughout the entire  
day for one week, taking the last glass of  
milk half an hour before bedtime. Kou-  
myss may be substituted for the milk or  
used alternately."

### S. S. Convention.

The Dexter township Sunday School  
Association will meet in convention at  
North Lake M. E. church, Wednesday,  
March 23, 1898. The following is the pro-  
gram:  
**AFTERNOON.**  
Song Service, led by Miss Bernice  
Allyn.  
Scripture reading and prayer by Rev.  
W. J. Thistle.  
Address of Welcome, W. H. Glenn.  
Response, by Henry Neeb.  
A Model S. S., Mrs. R. Whalian.  
How may S. S. work be improved in  
our Township, Mrs. Henry Neeb.  
Testimonies: How have I been benefited  
by the Sunday School.  
Address, by Rev. C. Ross.  
**EVENING.**  
Song Service, Miss Bernice Allyn.  
Scripture Reading and Prayer, by Rev.  
C. Ross.  
Mission of the Sunday School, by Miss  
Mattie Glenn.  
Sunday school literature, John Schau-  
fele.  
Intermediate Work, Bertha Noah.  
Primary Work, by J. G. Fisher.  
Collection.  
Address, Rev. W. Thistle.  
Mrs. F. A. Glenn, solo.  
Benediction.

### Wheat Market.

Chicago, Mar. 15, 1897.  
Wheat prices hold their own with a per-  
tinacity that is discouraging to the bears.  
May sold to day at 105, and the further  
options were proportionately strong. That  
the people who have for months been car-  
rying a big line of cash wheat which they  
decline to sell at current prices have every  
confidence in the strength of their posi-  
tion is shown by the fact that they have  
never stopped buying the May option,  
gradually forcing its price above the dollar  
mark, and of late their operations have al-  
so extended to July, which rapidly ap-  
preciated in price. It should, however,  
be noted that of late the bear contingent  
has been much more active than usual,  
and Schwartz, Dupee & Co. say this inter-  
est is now perhaps more formidable than  
ever before. It is composed of operators  
who have the courage of their convictions  
and are not to be easily driven from any  
position taken after mature consideration  
of the situation and for this reason it is  
expected that the outcome of the present  
situation, when the May contracts mature,  
will be an interesting one.  
Corn and oats continue firm, although  
not particularly active, but provisions  
seem to have lost their snap. The cash  
trade in meats is good, but war talk and  
the belief that yellow fever will break out  
in the south with the approach of warm  
weather, combine to make operators on  
the bull side cautious. Lard is strong on  
light stocks and the fact that the use of  
pure lard is far more prevalent than was  
the case a year ago.

The price range was as follows:

	High.	Low.	Close
Wheat			
May	105	104	104
July	88	85½	85½
Corp.			
May	80¼	29½	29½
July	81½	31½	31½
Oats.			
May	26½	26½	26½
July	24½	24½	24½
Pork.			
May	10.00	9.80	9.80
July	10.05	9.85	9.85
Lard—Per 100 lbs.			
May	5.12	5.05	5.05
July	5.17	5.15	5.15
Ribs.			
May	5.07	5.00	5.02
July	5.15	5.07	5.07

### Free of Charge to Sufferers.

Cut this out and take it to your drug  
gist and get a sample bottle free of Dr.  
King's New Discovery, for Consumption,  
Coughs and Colds. They do not ask you  
to buy before trying. This will show you  
the great merits of this truly wonderful  
remedy, and show you what can be  
accomplished by the regular size bottle.  
This is no experiment, and would be disas-  
trous to the proprietors, did they not  
know it would invariably cure. Many of  
the best physicians are now using it in  
their practice with great results, and are  
relying on it in most severe cases. It is  
guaranteed. Trial bottles free at Glazier  
& Stinson's Drug Store.

If the tea steeper contains any cold tea  
and soaked leaves, no matter how small  
the amount, do not throw away, but pour  
every few days into the cut glass water  
bottles, shake the bottles well and thor-  
oughly rinse in clear water. Treated in  
this manner, the inside of the bottles will  
remain bright and clear.

### Alba Heywood Explains.

I wish to make a statement to my friends  
regarding the shooting affair between Mr.  
P. T. Pegues, manager of the Longview  
Texas, opera house and myself at said  
theatre on the night of Feb. 24.  
In the settlement we found that he had  
issued eight passes more than the limit of  
his contract allowed. I asked him to set-  
tle for them. He replied that they were  
for his family. Knowing him to be a  
young man I of course knew they were  
not for his immediate family. I also  
knew from my treasurer that two of the  
passes were for two young ladies brought  
there by Mr. Pegue's brother. I contend-  
ed that as the contract limited him to 16  
that I was rightfully entitled to my share  
of the price of the eight tickets. He con-  
tended it was customary to pass in the  
manager's family free. I assured him I  
never objected to a manager passing his  
wife, but "his sisters, his cousins and his  
aunts," I considered it too much, and es-  
pecially did I claim pay for the two  
young ladies his brother brought. He re-  
plied he never heard of such a thing before  
that it would be just as reasonable for him  
to charge admission for the members of  
my com. any. I replied that he was mis-  
taken, it was not a parallel case, that the  
members of my company together with  
himself and the attaches of his house were  
all participants in and contributed to the  
giving of the performance, but that those  
he had passed in, I was in no way inter-  
ested in as they were there purely and  
simply to enjoy the performance.  
Mr. Pegues insisted that it was the first  
time he had ever heard of such a thing, to  
which I replied that there were several fea-  
tures of the engagement that were new to me.  
At this point he replied with some feeling  
that if it had not been for him I would  
not have played to a fifty dollar house.  
I said I could not understand how that  
could be. He replied because he had in-  
troduced my advance agent to Mr. ———,  
the president of a society organized in  
Longview for the purpose of bringing good  
attractions to the town, and but for that  
I would not have played to a fifty dollar  
house. I replied, yes, you introduced my  
agent to this gentleman who was in no  
way financially interested in the affair but  
who went out with my agent, hustled the  
business, listed the town and gave you and  
me this elegant house doing the work you  
should have done and putting these dollars  
into your pocket and mine and now you  
claim the credit of it simply because you  
introduced them. The fact is, that after  
this disinterested party had done all this  
for you and me, you were not even gentle-  
man enough to offer him a complimentary  
ticket or even thank him.  
At this he became very angry, jumped  
off the stool on which he sat in the box  
office, at the same time quickly drawing  
his revolver and with it striking me a ter-  
rific blow on the left side of my nose with  
the muzzle of the gun lacerating it terribly  
saying: "you say I am not a gentleman,  
you ——— and I will kill you on  
the spot." I thought I was shot in the  
head but the wound indicates that the  
ball did not touch me. He struck at me  
again but I warded off the blow by raising  
my arm so he only inflicted a scalp wound.  
At the same time I pressed my revolver  
against him and fired. He ran out into  
the auditorium and I fired two more shots  
at him. He fell facing the stage. I  
walked out of the opera house turning up  
town to give myself up.  
When I had gone about a rod I heard a  
shot and turning saw him in the doorway.  
The shot had missed me. He fired again  
the ball penetrating my chest a little to  
the right of the center between the nipple  
making its exit about midway between  
my spinal column and my side. I em-  
ptied my revolver at him and from the num-  
ber of shots he fired I judge he reloaded.  
I put one new cartridge in my revolver  
snapped it twice but it did not respond.  
He was hit four times, in the head, in  
the left side, in the hip and in the breast.  
The last wound being similar to mine.  
He then started up the road calling for  
help. After going a short distance he fell  
and was taken into a house near by.  
I started for Main street and walked  
about two blocks where I met four men  
who carried me to my hotel.  
I wish to correct the statement that the  
press have made that I lay unconscious  
for twelve hours. The fact is I walked up  
stairs to my room and assisted in undress-  
ing myself. I have not fainted nor have I  
taken any anesthetics since the shooting.  
I do not care to pose as a hero as com-  
edically is my line, but when cast in heroic  
parts I do the best I can. I simply fought  
for my life. A mouse or a canary bird  
would have done the same if cornered.  
There were no witnesses to the affair.  
ALBA HEYWOOD.  
The inventor of the modern kitchen  
table was interested in the house-keeper's  
comfort, for, besides supplying the table  
with the usual two broad drawers, he put  
in underneath these one large drawer in  
the form of a half circle, the deep part  
measuring about 16 inches, thus giving a  
convenient receptacle for many larger arti-  
cles that are always needed.—E. X.

## PATRIOTIC PROMPTITUDE

National Defense Bill Carrying \$50,000,000 Now a Law.

Passes the House and Senate Without Any Unnecessary Delay and Is Rushed to the President for His Signature.

Washington, March 10.—The national defense bill, appropriating \$183,000 for deficiencies and \$50,000,000 for immediate use in perfecting the defense of the country, passed the senate Wednesday afternoon, 12 minutes after it was reported favorably by the committee on appropriations. This was the bill introduced in the house by Representative Cannon (rep., Ill.) on Monday and passed by that body on Tuesday by a unanimous vote.

At 1:15 o'clock Wednesday a messenger came clattering up to the capitol with the printed bill. Mr. Hager, of Iowa, chairman of the committee on enrolled bills, hurriedly compared the printed copy with the bill as it passed the two houses.

Mr. McKinney, the enrolling clerk of the house, in anticipating the pas-

## NOW IN HAVANA HARBOR.

United States Cruiser Montgomery Takes Place of the Maine.

Havana, March 10.—The United States cruiser Montgomery arrived here at 9:35 Wednesday morning.

The arrival here of the Montgomery was very quiet, it being generally understood that she comes to replace the coast survey steamer Fern as quarters for Capt. Sigsbee and others. Commander Converse, of the Montgomery, is a high authority on explosives and his advice will be useful to the court of inquiry into the loss of the Maine. After firing the usual salute and being saluted in return the Montgomery was moored in the municipal harbor near the wreck of the Maine and in the center of a circle of Spanish ships.

Washington, March 10.—The administration has definite information from a source which is regarded as beyond question to the effect that Spain has not purchased the two Brazilian cruisers Barboso and Amazonas.

The statement is made at the navy department that the report of the Maine court of inquiry probably will come to the department some time next week. It does not appear, however, that this statement is founded upon any di-

## WHAT HE SAW IN CUBA.

Senator Proctor Tells of His Trip—Many Sad Sights Witnessed.

Havana, via Tampa, Fla., March 11 (Delayed in transmission).—Senator Proctor, before leaving for Key West by the Olivette, after what he calls "a most profitable two weeks in Cuba," said:

"I have not had an easy time. I have seen all from the highest general and the richest merchant to the neediest reconcentrado and the humblest pacifico, bankers, officers, officials and others. I have visited the military prison, hospitals, relief depots, asylums, guardhouses, trochas, farms, offices and homes. I have been in four provinces, Havana, Pinar del Rio, Matanzas and Santa Clara, and in the principal cities of each. I am of an observant turn of mind, and I kept my eyes open. I have learned without a personal visit, while I have not to my knowledge antagonized a single person on the island. My trips with Miss Barton have been of great service, because when the minds of people are melted by gratitude their hearts speak out the truth. As a business man, I wish to say that Miss Barton's methods of receiving, caring for and distributing the supplies are most admirable. I am surprised at her ability and delighted at the results attained. The American people may be fully confident that all money or supplies sent will be conscientiously applied. Could they see, as I have seen, the suffering, starvation and death, they would,

## SETTLED AT LAST.

Agreement Reached in the Alaskan Boundary Dispute.

New York, March 11.—A dispatch to the press from Ottawa says: Sir Julian Pauncefote, the British ambassador, has informed the Canadian ministry officially that he has arranged a convention with the United States whereby the Alaskan boundary dispute has been settled. Under the terms of the convention the British government has conceded the claim of the United States that the three marine leagues should be measured from the shore of the mainland, and should proceed along the shores of the inlets, which are thus recognized as arms of the ocean, and not as rivers.

The contention of the British and of the Canadian governments was that the three-league limit should begin on the ocean side of the island and the delimiting line should be run across the inlets, and not follow their shores. These inlets are numerous and extend into the mainland a great distance, and the decision, therefore, is of much importance to the United States. The United States has agreed to the British retaining the boundary on the limit of the Chilkat pass and the White pass, be-

## THE PROPOSED FLYING SQUADRON AND ITS COMMANDER.

The proposed flying squadron which in case of necessity, will be used to harry the Spaniards on land and sea, will be made up of the Minneapolis, the Brooklyn, the Columbia, the St. Paul, the Paris and the St. Louis. This squadron would be used to follow the Spanish fleet and harry Spain's men-of-war. It would also be used to blockade Spanish ports and to destroy Spain's commerce. These ships would make a strong and efficient squadron, and at the same time, the fleetest afloat. The six ships named can outsteam anything on the water. The American line is now practically in the hands of the government, and its entire fleet will be used as an auxiliary of the navy. Commander Winfield Scott Schley, who is mentioned as the probable commander of the squadron, is an old sailor who has seen some fighting. He has been in the navy ever since he was a lad, and since the war he has served in numerous important and responsible posts. The squadron as proposed above would be able to make a very hard fight against an enemy, even if that enemy were the heavier, President Grison, of the American line, is in Washington, and a naval officer will be presently assigned to each of the four ships of the line.

sage of the bill by the senate, had the bill printed on parchment Tuesday, ready for formal enrollment, but it was not anticipated that the bill would be passed by the senate without debate. The parchment copy therefore was still at the government printing office when the bill passed the senate and was returned to the house. Mr. McKinney as soon as he learned of the action of the senate telephoned the government printing office to hurry the bill to the house by special messenger.

At 1:40 p. m. the speaker of the house announced his signature to the bill. The vice president put his name to the measure at three o'clock, and it was hurried to the white house by special messenger.

Although the vice president signed the bill after the senate had adjourned, it is said his action is not without precedent, although it is unusual.

The president at 3:40 p. m. set his hand and seal upon the bill and thus was closed one of the most remarkable instances of prompt and patriotic action on the part of the legislative and executive branches of the government ever before recorded.

Washington, March 10.—Much conjecture has been indulged in touching the visit paid the white house by the British ambassador. The Washington Post this (Thursday) morning says that Sir Julian Pauncefote conveyed to President McKinley informally the queen's personal satisfaction at his conservative course and an expression of her sympathy with the efforts to relieve starvation in Cuba, and of her hope that the amelioration of the condition of Cuba would be achieved without war.

**Dined by the President.**  
Washington, March 12.—Prince Albert of Belgium was given a dinner by the president at the executive mansion Friday night in honor of his visit to the capital. The dinner began at eight o'clock and was served in the main corridor, the state dining-room being too small to accommodate those who were invited to meet the heir presumptive to the Belgian throne.

**Agreed on a Scale.**  
Columbus, O., March 11.—The miners' and operators' committees have agreed upon the prices for day labor in mining. The scale is \$1.75 per day for drivers and other inside laborers, \$1.90 for trackmen and \$1.75 for assistant trackmen. The agreement affects all the states controlled by the Chicago agreement.

**Rumored Triple Alliance.**  
London, March 11.—The New York correspondent of the Daily Telegraph says: "I have it on the highest authority that a triple alliance between Great Britain, the United States and Japan is pending."

rect report from the court, but is rather an estimate based upon the progress so far made as revealed by the change of methods on the part of the court. It is not expected that Lieutenant Commander Marix, the judge advocate of the court, will leave the court until it has completed its labors, as it is the custom for the judge advocate to assist in the preparations of the final report of the court.

**Goes After Warships.**  
New York, March 10.—Commander W. H. Brownson, United States navy, sailed for Southampton on the American line steamship St. Paul Wednesday. He said to a reporter:

"I am going to England under orders direct from the navy department, not from the president. My mission is to prepare for the exigencies of the situation, and to see what can be had and what can be done, in case of war, the possibilities of which I think are very remote. The vote of \$50,000,000 shows our readiness to enter upon vigorous preparations, and that in itself will have the effect of making war unlikely. I may be absent a month and perhaps longer. I expect to be two weeks in London, but I cannot tell where I shall go after reaching England."

Commander Brownson was asked whether he intended visiting the yards of Yarrow, the big British torpedo boat builder. He did not answer directly, but gave the impression that he would look at everything in the line of purchasable war craft.

**To Modify Civil Service Rules.**  
Washington, March 11.—The president summoned the members of the civil service commission to the white house Thursday afternoon for a final consultation over the form of the executive order which had been decided on for the modification of the famous Cleveland order putting the blanket of governmental protection over everything in sight. The modifying order will, it is understood, take 20,000 employees out of the classified service.

**Bernabe Reaches New York.**  
New York, March 10.—On board the North German Lloyd steamer Kaiser Wilhelm II., which arrived Wednesday from Gibraltar, was Senor Luis Polo de Bernabe, Spanish minister to the United States, who was sent here to succeed Senor Dupuy De Lome. Senor Bernabe, when seen at quarantine, answered questions pleasantly, saying that he had been ten days without news, and was ready to receive rather than impart information.

**Raised Over \$6,000.**  
Philadelphia, March 12.—Over \$6,000 was realized for the fund for the wounded survivors and the families of those killed on the battleship Maine by a monster theatrical matinee given Friday afternoon at the Academy of Music.

as Whittier says, pour forth wine and oil."

## CONFIRMED.

Senate Agrees to Mr. Calhoun as Interstate Commerce Commissioner.

Washington, March 11.—The senate Thursday confirmed the nomination of

W. J. CALHOUN.

William J. Calhoun, of Illinois, to be interstate commerce commissioner.

## Powderly Turned Down.

Washington, March 12.—The senate committee on immigration has reported adversely upon the nomination of T. V. Powderly to be commissioner of immigration. The nomination has been held up in committee for several weeks on account of the absence of Senator Chandler. He having returned to Washington, the matter was brought up and the vote taken. President McKinley received a large number of protests against Mr. Powderly's appointment from representative labor organizations in all parts of the United States. Ever since congress has been in session these protests have continued to come to the members of the committee on immigration.

## Believe War Is Inevitable.

London, March 11.—Despite the momentary abatement of the tensions between the United States and Spain, official circles in London take the gravest view of the situation and the belief is prevalent, as gathered from inquiries at the highest sources on both sides, that unless a solution of the Cuban difficulty is arrived at within six weeks at the latest, war is inevitable. It is not expected that Spain will effect a settlement with the insurgents, and the only alternative is the absolute surrender of the Madrid government, which the Spanish public will resist to the last moment.

## Great Britain Protests.

Peking, March 12.—The British minister, Sir Claude M. MacDonald, visited the Chinese foreign office on Tuesday and lodged a strong protest against the cession of Port Arthur to Russia, saying it would destroy the balance of power in China. The Chinese officials, however, declared their inability to withstand the Russian demands. M. Pavloff, the Russian charge d'affaires, wished the cession to take place within five days, in order to forestall the arrival of his successor, M. Speyer, but China required a longer time to consider the matter and, therefore, the negotiations were transferred to St. Petersburg. Russia is still exerting pressure to bring about the dismissal of the British railroad engineers. The Tsung-Li-Tamen referred the matter to the director of railroads, who declared their services to be indispensable regardless of the nationality.

## Spain Shows Alarm.

Madrid, March 11.—Political and financial circles here now fully realize that Spain is facing a grave problem. In view of the attitude of the United States, it is understood the Spanish government has completely changed its policy toward Cuba, and is now courting the cooperation of the Cuban constitutional party, urging the maintenance of the volunteers, and the pushing of the campaign against the insurgents, thus giving the military policy predominance over diplomacy. This change is due to the fear that if the radical autonomists insisted upon the disarmament of the volunteers or incited the constitutionalists to disaffection a conflict would supervene, "affording the United States an opportunity for an armed intervention."

## Populists Defy Supreme Court.

Topeka, Kan., March 11.—The populist administration of the state of Kansas gave out a startling public address Thursday, one bristling with severe criticism of the recent decision of the United States supreme court in the Nebraska maximum freight rate case. The address is particularly significant in that Gov. Leedy has already taken steps preliminary to the calling of the state legislature in special session, with the especial purpose of enacting a maximum freight rate law. While the address is given out over the signature of Gov. Leedy, it had first been approved by Chief Justice Doster, of the state supreme court, and other prominent populists.

## BAKER'S CHOCOLATE

Celebrated for more than a century as a delicious, nutritious, and flesh-forming beverage. Has our well-known

MEAD CYCLE CO., CHICAGO.

TO DEFEND THE COAST

Army Officials Make Disposition of Our Land Forces.

New Military Departments Are Formed—Senator Proctor Returns and Is Interviewed—Quiet Sunday in Washington.

Washington, March 14.—The war department Saturday promulgated its order creating the departments of the gulf and of the lakes and abolishing the departments of the Missouri and of Texas. The department of the east will embrace the states on the Atlantic coast to and including North Carolina; the department of the lakes will include Wisconsin, Michigan, Illinois, Indiana, Ohio, Kentucky and Tennessee, with headquarters at Chicago, and the department of the gulf will comprise the states of South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana and Texas, with headquarters at Atlanta. Maj. Gen. John R. Brooke will command the department of the lakes and Brig. Gen. William Graham the department of the gulf.

Defense of Pacific Coast.

Washington, March 14.—In making preparations for the possibilities of the future, the navy department has by no means overlooked the strategic defense of the Pacific coast. To guard properly this important seaboard it has been found necessary to send an advanced guard some distance down the Southern Pacific ocean. The battleship Oregon, the sister of the Indiana, and one of the most powerful vessels in the navy, has been selected for this work. Secretary Long Saturday telegraphed orders to her commander through the commandant of the Mare Island navy yard, to leave San Francisco and cruise down the southern coast.

Massing War Forces.

Gen. Miles has matured plans for the massing of all available troops, both infantry and cavalry, at stations along the Atlantic seaboard. His order to this effect has already been sent to Secretary Alger.

Advices have been sent to commanding officers at interior ports to hold themselves in readiness to move at a moment's notice. It is expected that within a few days the line of defense will be complete along the entire coast. Private concerns engaged in doing government work in the line of furnishing guns or ammunition have been ordered to finish contracts with all possible dispatch.

Preparing to Move Troops.

Washington, March 14.—The government is perfecting its plans to make the movements of troops to the coast defenses, orders for which were issued by the war department on Friday and published at that time. A conference was held here Sunday by representatives of the following railroads, to arrange for the transportation of light artillerymen and their accoutrements: The Atlantic Coast line, the Southern railroad, the Seaboard Air Line, and the Chesapeake & Ohio. It was stated that companies of artillerymen, consisting of about 60 men each would be transferred from Fortress Monroe, to the following points: Fort Caswell, on the Cape Fear river, Ga.; to Tybee, near Savannah; to Fort Morgan, near Mobile, and to Sheridan's Point on the Potomac. It was stated also that a company would be moved from Fort McHenry, Baltimore, to some point on the Delaware river near Philadelphia.

Quiet at the Capital.

Washington, March 14.—Sunday was comparatively quiet. There was no information bearing on the doings of the court of inquiry into the Maine explosion received during the day or any other dispatches calculated to cause conferences between the heads of the various departments. There were a number of the experts of the war department ordinance office at their desks for a short time during the morning to attend to some pressing matters, while at the navy department the board on auxiliary cruisers held a final meeting preparatory to the departure of the special board to New York. Secretary Long was at the navy department for a short while. He stated late in the afternoon that there was no news of any nature for the press, and added in response to a specific inquiry that nothing had been received from the court of inquiry.

Senator Proctor Returns.

Washington, March 14.—Senator Proctor, of Vermont, and his companion, Col. Myron M. Parker, who have been spending some time in Cuba, returned to Washington Sunday night at 10:35. Senator Proctor was met at the station by friends and was driven at once to his residence. Senator Proctor said that he did not desire to discuss his trip at present and that further than to commend the good work Miss Clara Barton was doing in Cuba, he had said nothing in the way of an interview.

The Post claims to have had an interview with Senator Proctor, in which the latter said: "Concerning the cause of the Maine disaster, I feel free to say that such information as I have obtained indicates that the explosion was from the outside. It does not show that the Spanish government or any of its officials in Havana were participants in the crime. In the first place, I do not think there were any mines in the harbor. I have not the slightest knowledge of what the decision of the naval court of inquiry will be, or when it will reach Washington. Such information as I have is entirely of an unofficial character."

JUST MARRIED.

How "Hubby" Orders His Supplies Through the Telephone.

When a young man marries and opens up a home one of his chief anxieties is to appear master of the situation and as much like a veteran as possible. Blueton, who would be widely known by his real name, is a new bridegroom and just settled. Here is a sample selected from his almost continuous conversation at the telephone:

"Send me up a pound of carpet tacks. Number? I don't know anything about the number of tacks in a pound. All you've got to do is to fill my order. And, say, send me half a peck of nails. Tenpennys? I'm not asking the price, am I? Yes, half a peck; that's what I said. Now I want a saw. Don't you know your business? This is a private residence—Mr. Blueton's residence. It's no lumber mill. I don't want any buzz saw or gang saw, just a regular house saw. Throw in a hammer and a hatchet and a stepladder. And say, I want a good strong stove leg. We broke one in moving. None of your business who made the stove. All you've got to do is to send up the leg."

After swearing for a few minutes Blueton was rattling away at the grocery: "Three pounds of steak. What kind? Beefsteak, of course. We're not eating horsesteak or sheep steak at our house. Three yards of sausage. Never mind, now, how other people buy it. I always buy by the yard. A gallon of coffee, two dozen frying onions, half a bushel of oranges—yes, half a bushel. Now, whose make of canned goods do you handle? All right, send us a couple of cases of selected, a quarter of a section of cheese, half a bale of lettuce, two of those cigar-shaped loaves of bread, a pair of butter and a sack of sugar. Yes, just a regulation sack, you know. And, hold on, put in a basket of eggs. Good-by."—Detroit Free Press.

A Sharp Answer.

Mose—Ef I sho'd escort anuddah lady toe de ball nex' week would yo' feel much cutup? Clarina—Nopey; yo' would.—Judge.

WOMAN'S FATE.

From the Record, Bushnell, Ill. No woman is better able to speak to others regarding "woman's fate" than Mrs. Jacob Weaver, of Bushnell, Ill., wife of ex-City Marshal Weaver. She had entirely recovered from the illness which kept her bedfast much of the time for five or six years past, and says her recovery is due to that well-known remedy Dr. Williams' Pink Pills.

Mrs. Weaver is fifty-six years old, and has lived in Bushnell nearly thirty years. She is of unquestioned veracity and unblemished reputation. The story of her recovery is interesting. She says: "I suffered for five or six years with the trouble that comes to women at this time of my life. I was much weakened, was unable much of the time to do my own work, and suffered beyond my power to describe. I was downhearted and melancholy."

"I took many different medicines, in fact I took medicine all the time, but nothing seemed to do me any good."

"I read about Dr. Williams' Pink Pills for Pale People, and some of my friends recommended them highly. I made up my mind to try them. I bought the first box in March, 1897, and was benefited from the start."

"A box and a half cured me completely, and I am now strong and healthy. I have not been bothered with my troubles since I began taking the pills."

"I have recommended the pills to many women who are suffering as I suffered. They are the only thing that helped me in the trial that comes to so many women at my age."

MRS. J. H. WEAVER. Subscribed and sworn to before me this 23d day of October, A. D. 1897. O. C. HICKS, Notary Public.

When woman is passing beyond the age of motherhood, it is a crisis in her life. Then, if ever, proper attention to hygiene should be exercised. The attendant sufferings will disappear and buoyant health will follow if Dr. Williams' Pink Pills are used.

These pills exert a powerful influence in restoring the system to its proper condition. They contain in a condensed form all the elements necessary to give new life and richness to the blood.

\$400 For New Names!

The Salzer Seed Co. want suitable names for their 17-inch long corn and White Oat prodigy. You can win this \$400 easily. Catalogue tells all about it. Seed potatoes only \$1.50 a barrel. \$500 in prizes! SEND THIS NOTICE AND 10 CTS. IN STAMPS TO JOHN A. SALZER SEED CO., LA CROSSE, WIS., and get free their great seed catalogue and 11 new farm seeds, including above corn and oats, positively worth \$10, to get a start. K 1

America's Greatest Medicine

The following is a characteristic Hood's Sarsaparilla testimonial. Facts like these have made Hood's Sarsaparilla America's Greatest Medicine and endeared it to thousands of homes scattered all over this broad land.

"We like to tell what Hood's Sarsaparilla has done for us. Our four children had diphtheria. From the very first our little boy Ralph, then seven years old,

was very sick and for several days it seemed as if he would never be any better. After awhile he began to improve and in a few weeks was able to go out, although weak and miserable. Then, gradually

All Strength in His Limbs gave out. The physicians told us it was paralysis, which sometimes follows an attack of diphtheria. We did everything for him, but he grew worse until he was in a pitiful condition. He suffered terribly at night and complained continually of his head, and in what little sleep he was able to get, moaned unceasingly. He lost all control of the muscles of his body and limbs. He had no appetite and complained of feeling sick at his stomach all the time. After we had tried many different remedies and had about given up all hope we commenced giving him Hood's Sarsaparilla. In a short time he ceased to complain, his appetite improved and at the end of three months he was able to attend school a part of the time. Now he is well and quite a strong and rugged boy.

You are at liberty to use this testimonial if you desire, as we feel we cannot say too much in praise of Hood's Sarsaparilla as a blood purifier and building up medicine." Mrs. R. E. ANDERSON, Cumberland, Maine.

Economy is also a characteristic of Hood's Sarsaparilla. Every bottle contains 100 Doses, and hence there is a solid fact concisely stated in the familiar line, 100 Doses One Dollar.

Hood's Sarsaparilla

Is America's Greatest Medicine because it accomplishes wonderful cures when all other medicines fail. Sold by all druggists. \$1. six for \$5. Prepared only by C. I. Hood & Co., Apothecaries, Lowell, Mass.

PAINT YOUR OWN WALLS & CEILINGS. MURALO WATER COLOR PAINTS

FOR DECORATING WALLS AND CEILINGS Purchase a package of your grocer or paint dealer and do your own MURALO from decorating. This material is a HARD FINISH to be applied with a brush and becomes as hard as Cement. Milled in twenty-four tints and works equally as well with cold or hot water. Send for sample color cards and if you cannot purchase this material from your local dealers let us know and we will put you in the way of obtaining it. THE MURALO CO., NEW BRIGHTON, S. I., NEW YORK.

"Take it back —go to some grocer who will give you Pearlina." That's the only way to do when they send you an imitation. The popularity of Pearlina begets the habit of calling anything that's washing-powder, "Pearlina." Those who notice the difference in name, think perhaps "it's about the same thing." It isn't. Nothing else equals Pearlina, the original and standard washing compound.

# Taxes of 1898.

See that your lands are not sold for taxes. The sale of lands delinquent for taxes of 1895 and prior years will be held at the offices of the county treasurer, beginning May 3d, 1898. Attention is called to this sale so that you may assure yourself that you have not neglected to pay the tax of 1895. If you have not already done so, you should obtain a copy of the published list from the newspaper in your county publishing the same, or in the county where your lands are located, carefully examine it for description of your own lands.

A little spare time spent now may save you a great deal of annoyance after your lands are sold.

Moscon D. Dix, Auditor General.

## Washington News.

WASHINGTON, D. C., Mar. 31, 1898.—This has been a history-making week in Washington, and its effects will be visible in years to come, in the increased deference with which the U. S. is likely to be treated by all foreign nations. It has been proclaimed to all the world that Congress to a man is behind the President, and that the people—a people able to place ten millions of fighting men in the field upon short notice—to a man are behind both President and Congress. It has been a week to rouse one's latent patriotism to the highest pitch, and to make one feel that after all the world contains no prouder title than that of American citizen. From the moment it was announced that the President had refused the request of Spain to recall Consul General Lee, partisan politics disappeared like dew in the sunshine—there were no democrats, republicans or populists, only Americans—and Congress and the administration have acted as one man. The \$50,000,000 which was appropriated by the unanimous vote of both branches of Congress, to be used at the discretion of the President—an act without precedent in the history of Congress—will be made \$500,000,000, if it is needed to maintain National honor.

With plenty of money at its disposal, the administration is making preparations for war in every direction, although its members are still expressing the hope that war will be avoided. It is all right to hope that there will be no war, but it is doubtful if there is a single responsible official of the government who does not believe that war with Spain is bound to come, there is only one way that war could be avoided, and those who know the situation in which the present Spanish Ministry is, regard that as an impossibility. The only way to make sure of peace would be for Spain to at once grant the independence of Cuba, and to meet whatever demands this government may make as a result of the Maine Court of Inquiry, and there is little likelihood that the present Spanish Ministry, or any other, will do either, unless compelled by force of arms.

Although the newspaper dispatches insist that Spain has purchased warships of England, official advices to this government say that no such purchases have been or will be made. The administration feels amply able to whip Spain's navy without buying any ships, but it has sent an officer to Europe with authority to purchase any vessels that would make really desirable additions to our navy, and it is possible that he may buy some. As he will pay cash for what he buys, he will have the pick of everything in that line that can be sold. A number of vessels have been offered for sale by parties in Europe that he would not have for gifts. The greater portion of the money appropriated by Congress will be spent at home, putting the available vessels in fighting trim and strengthening our coast and harbor defenses, which are already probably strong enough to successfully resist anything that Spain can send against them. As the war will be fought almost entirely on water or on Spanish ground, only those who enter it are likely to see any of its hardships, and it is likely to be very short. Spain has neither the money or the men to make a long fight, even if we were disposed to allow her to do so, which we are not.

President Gompers, of the American Federation of Labor, and Secretary Ross of the National Mule Spinner's Association, appeared before the House Judiciary committee, this week, in advocacy of the proposed amendment to the Constitution, giving Congress the authority to fix the hours of labor in the entire country. They called especial attention to the long hours required of southern mill workers and compared them to the shorter working day in New England mills, and declared the longer hours to be unfair and detrimental to labor.

The House committee on Interstate and Foreign Commerce has favorably reported a bill providing for the laying of a cable from San Francisco to Japan, via Hawaii, and granting a government annuity of \$100,000 for twenty years, in consideration of which all the U. S. government

messages are to be transmitted free, and the government to have control of the cable in case of war or other emergency.

What must surprise the Spaniards, as well as citizens of other countries, about the placing of fifty millions of dollars in the hands of the President by Congress, is that it could be done without selling a bond or in the slightest manner inconveniencing the U. S. government. It was merely taken out of the supply of surplus cash that Uncle Sam had on hand. What will add to the surprise of the Spaniards is the knowledge that Uncle Sam can, if necessary, plank down another fifty millions of dollars without an issue of bonds, while Spain has failed to negotiate a loan upon any terms, although it has been upon its knees to every banker in Europe who commands money enough to handle a loan. Many shrewd men believe that the appropriation of this money under the circumstances, will do more to convince the Spanish people of the inability of their government to cope with the United States than anything that could possibly have done.

## Letter List.

Following are the letters remaining unclaimed in the postoffice at Chelsea, Mar. 14, 1898:

Miss Toasey.  
Miss C. LeWick.  
A sealed package for Miss Fanne Cooper.

Persons calling for any of the above please say "advertised."

GEO. S. LAIRD P. M.

## List of Patents

Granted to Michigan inventors this week, reported by C. A. Snow & Co., solicitors of American and foreign patents, opposite United States patent office, Washington, D. C.:

Arthur S. Bullock Pomona, potato digger. Homer A. Burt, Detroit, wheelbarrow. W. J. Drew, Grand Rapids, carpet sweeper. Isaac F. Holmes, Manton, churn dasher. Cyrus Moore, Perry, automatic friction governor. Walter C. Pratt, Lansing, wire and slat weaving machine. Oscar F. Reeves, Saginaw, spring saddle post. Alfred Seymour, Detroit, combined awning and boat cover. Jno. A. Rose, Grand Rapids, mantle.

For copy of any patent send 6 cents in postage stamps with date of this paper to C. A. Snow & Co., Washington.

PIERCE CASSIDY,

GEO. E. Davis, salesman.

Do not forget that the earlier the new strawberry bed can be made the better. If good growth is made before the summer comes the plants will be better able to endure dry weather. In selecting plants be careful to have abundant roots, and spread the roots of each plant when applying earth.

# Dana's Sarsaparilla

"The Kind that Cures,"

will give you pure blood; make your stomach digest readily; your liver and kidneys active; your nerves strong. That's only assertion, but we back it up with this—YOUR MONEY BACK IF IT DOES NOT. This is an offer honest like the medicine. EVERY bottle of DANA'S is guaranteed to benefit or you get your money back.

All Druggists Keep It.

# Real Estate For Sale.

STATE OF MICHIGAN, County of Washtenaw. Notice is hereby given that in pursuance of an order granted to the undersigned by the Hon. Judge of Probate for the County of Washtenaw, on the 6th day of November A. D. 1897, there will be sold at Public Vendue, to the highest bidder, at the east front door of the Court House in the City of Ann Arbor in the County of Washtenaw in said State, on Saturday, the 19th day of April, A. D. 1898, at 11 o'clock in the forenoon of that day (subject to all equities, branches by mortgage or otherwise existing at the time of the death of said deceased) the following described Real Estate, to-wit:

Beginning at the mill dam on the Huron river on section 11 in the Township of Seio, County of Washtenaw, Michigan, thence up the river to the south bank thereof south 47 degrees and 15 minutes west 5 chains and 25 links, thence north 75 degrees and 30 minutes, east 11 chains and 32 links in the line between section 11 and 12 at a point 11 chains and 3 links south of the quarter post between said sections, and containing the same course 77 chains and 56 links a burr-oak tree 18 inches in diameter standing two feet inside the garden fence and continuing the same course west 25 chains and 10 links Huron river thence up stream along the bank of the river to the place of beginning containing 60 and 66-100 acres of land including flowing mill thereon and the water power and rights of flowage contained therein. Also beginning on the north bank of Huron river on section 11 in the Township of Seio, County of Washtenaw, Michigan, thence up the river to the south bank thereof south 47 degrees and 15 minutes west 5 chains and 25 links, thence north 75 degrees and 30 minutes, east 11 chains and 32 links in the line between section 11 and 12 at a point 11 chains and 3 links south of the quarter post between said sections, and containing the same course 77 chains and 56 links a burr-oak tree 18 inches in diameter standing two feet inside the garden fence and continuing the same course west 25 chains and 10 links Huron river thence up stream along the bank of the river to the place of beginning containing 60 and 66-100 acres of land including flowing mill thereon and the water power and rights of flowage contained therein. Also beginning on the north bank of Huron river on section 11 in the Township of Seio, County of Washtenaw, Michigan, thence up the river to the south bank thereof south 47 degrees and 15 minutes west 5 chains and 25 links, thence north 75 degrees and 30 minutes, east 11 chains and 32 links in the line between section 11 and 12 at a point 11 chains and 3 links south of the quarter post between said sections, and containing the same course 77 chains and 56 links a burr-oak tree 18 inches in diameter standing two feet inside the garden fence and continuing the same course west 25 chains and 10 links Huron river thence up stream along the bank of the river to the place of beginning containing 60 and 66-100 acres of land including flowing mill thereon and the water power and rights of flowage contained therein.

Dated, February 19, 1898.

MARIA LA RUE, Administratrix of the Estate of Henry Osborn.

## Probate Order.

STATE OF MICHIGAN, County of Washtenaw. ss. At a session of the Probate Court for the County of Washtenaw, holden at the Probate Office in the City of Ann Arbor, on Saturday, the 5th day of March, in the year one thousand eight hundred and ninety-eight. Present, H. Wirt Newkirk, Judge of Probate. In the matter of the estate of Louis Podewils Minors. On reading and filing the petition duly verified, of Lena Podewils praying that she may be licensed to sell the Real Estate whereof said deceased died seized, said lands being worth less than \$500.

Thereupon it is ordered that Friday, the 1st day of April next, at ten o'clock in the forenoon, be assigned for the hearing of said petition, and that the heirs-at-law of said deceased, and all other persons interested in said estate, are required to appear at a session of said Court, then to be holden at the Probate Office, in the City of Ann Arbor, and show cause, if any there be, why the prayer of the petitioner should not be granted. And it is further ordered, that said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof, by causing a copy of this Order to be published in the Chelsea Herald, a newspaper printed and circulating in said county, three successive weeks previous to said day of hearing.

H. WIRT NEWKIRK, Judge of Probate.

[A true copy.] P. J. LEHMAN, Probate Register.

## Mortgage Foreclosure.

DEFAULT having been made in the payment of a certain Mortgage, by Count Lehn and Katie Lehn, his wife, to the Ann Arbor Savings Bank, dated the Fifth day of January, 1898, and recorded in the Register's office of Washtenaw County, Michigan, on the 12th day of January, 1898, in Liber 44 of mortgages, on page 582, at fifteen minutes past two o'clock p. m. of that day, on which mortgage there is claimed to be due at the date of this notice, the sum of Sixteen Hundred and Twenty-three Dollars and Eighty-four Cents, (1623 3/4) and no suit at law or in equity having been instituted for the collection of said amount any part thereof.

Now Therefore by virtue of the power of sale contained in said mortgage and the Statute in such case made and provided, notice is hereby given that on Saturday, the 21st day of May, 1898, at ten o'clock in the forenoon, at the Court House, in the City of Ann Arbor, (that being the building in which the Circuit Court for said County is held,) the premises described in said mortgage, or so much thereof as may be necessary to satisfy the amount due on said mortgage, and the costs of this foreclosure including the attorney fee provided for in said mortgage, shall be sold to the highest bidder, as described as follows: Lots two, (2) three, (3) and six, (6) in Block forty-one (41) in the Village of Manchester, Washtenaw County, Michigan, except a strip of land twelve (12) feet wide off from the south side of said lot six (6).

Dated February 16th, 1898.

THE ANN ARBOR SAVINGS BANK, Mortgagee.

W. D. HARRIMAN, Attorney.

## Probate Order

STATE OF MICHIGAN, County of Washtenaw. ss. At a session of the Probate Court for the County of Washtenaw, holden at the Probate Office in the City of Ann Arbor, on Saturday, the 5th day of March in the year one thousand eight hundred and ninety-eight. Present, H. Wirt Newkirk, Judge of Probate. In the matter of the estate of Louis Podewils Minors.

On reading and filing the petition duly verified, of Lena Podewils, praying that she may be licensed to mortgage the Real Estate whereof said deceased died seized, said lands being worth less than \$500. Thereupon it is ordered, that Friday, the 1st day of April next, at ten o'clock in the forenoon, be assigned for the hearing of said petition, and that the heirs-at-law of said deceased, and all other persons interested in said estate, are required to appear at a session of said Court, then to be holden at the Probate Office, in the City of Ann Arbor, and show cause, if any there be, why the prayer of the petitioner should not be granted. And it is further ordered, that said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof, by causing a copy of this Order to be published in the Chelsea Herald, a newspaper printed and circulating in said county, three successive weeks previous to said day of hearing.
