On a suit. Look and judge for yourself.

Ice Cream Freezers, Fireworks, Screen Doors and Windows, Glassare and Crockery, at bottom prices.

Climate and Grop Buletin.

The following bulletin based on the reports of the Directors of the several Climate and Crop Sections, is furnished for the public:

Temperature-The week ending July 25th was warmer than usual in all districts east of the Rocky mountains with the exception of the upper Missouri and Red river of the North valleys, and along the New England coast, where it was slightly cooler than usual. In Florida and over the central Gulf States there was a general but slight excess. The week was cooler than usual over the northern Rocky moun tain districts, and generally throughout the Pacific coast States.

Precipitation-The rains of the week have been very irregularly distributed. The areas receiving more than the average are numerous though not extensive, the greater part of the country east of the Rocky mountains receiving less than the usual amount. Very heavy rains occurred in Louisiana, and over northern portions of the east Gulf States.

Summary of Crop Conditions - The drouth conditions of the previous week in the States of the Central valleys and Lake region have been relieved in sections only, and at the close of the week ending July 25th rain is needed over the greater part of the Lake region, Ohio, Mississippi and the Missouri valleys, in portions of New England and the middle Atlantic States, and the greater part of Texas, while portions of the east Gulf and south Atlantic States have suffered from excessive rains. Com paratively few local storms of sufficient severity to damage crops have been reported. Light frost occurred in North Dakota and north Minnesota, hn the 20th, but caused no serious injury.

Michigan-Showers on Tuesday were beneficial, but insufficient and poorly distributed. More rain needed, especially for 25 boxes matches for 25c. corn, potatoes and pastures. Corn is rolling and pastures drying up. Oats harvest 5 h well advanced, but yields are light. Fall plowing has began. Ohio-Showers very beneficial in some places, but generally corn, grass, gardens and potatoes need more rain. There are good crops of hay, and wheat threshing is fair to good. Rust and drouth hurt oats, and both straw and heads are short. Harvest still continues. Corn is earing, but the crop is best on bottoms. Tobacco is fair growth, and some is topped. There are several complaints of shrunken wheat grains, chinch bugs on corn, and tobacco worms.

Capt. Gen. Blanco has issued a procshelter from a storm under a tree near importance, and that the Spanish army

BLANCO'S PROCLAMATION.

What the Spanish General Thinks of the Santiago Affair-His Army Sure of Victory.

Havana, July 23 .- Capt. Gen. Blanco has issued the following proclamation announcing the capitulation of Santiago. It is dated Havana, July 17:

"After three months' heroic defense and many bloody combats, owing to a scarcity of ammunition and victuals, the garrison of Santiago de Cuba has been forced to capitulate under honorable conditions and with all the honors of war. This occurred on the day of July 16, when it was recog-nized by the brave Spanish general of division who was acting commander of the place, that resistance was useless and that he could no longer hold the place. Notwithstanding that reenforcements had been possible, and that although he should receive such from Manzanillo, and although he should still cover further losses and bloody combats, and although he might put the city in a better condition of de fense, he was still face to face with the fact that reenforcements would only make further inroads upon the already greatly consumed and nearly exhausted store of provisions of the Spanish garrison. The city was thus placed in a very lamentable condition. The situation was anticipated, but it caused great depression to the Spanish forces.

"The occupation of the city of Santiago by the military forces of the Americans is lacking in strategic importance, owing to the fact that the city had previously been closely blockaded for a long time by the American ships and will have little or no effect on the development of the Spanish campaign which is to decide Spain's fate. The Spanish army is intact and eager for glory. It is willing to measure arms with the Americans, and in this army the king of Spain, the Spanish government and the whole country place the trust of defense at any cost of the integrity of Spanish territory and the honor of Spain's immaculate flag.

"This army is sure to be triumphant and victorious at the last in spite of so many dangers and impediments,"and that it will show once more the indomitable Spanish bravery and well-known military talents of our people is the hope and expectation of your general-in-chief, "BLANCO."

"(Signed) Enlistments Under Second Call.

Washington, July 20. - Fairly good progress has been made with the recruitment for the volunteer army under the president's second call for 75,000 volunteers. The plan adopted by the war department was to recruit all the volunteer organizations in the army up to their maximum enlisted strength before entering upon the recruitment of additional troops. The total number of men required to fill out existing regiments was 37,566 and, according to the latest returns, the total enlistments under this plan are 27,519 men. Of these 2,331 have en-Four men were struck by lightning lamation announcing the capitulation listed in Illinois; 1,334 in Indiana; and instantly killed while seeking of Santiago, but he says it is of little 1,549 in Iowa; 878 in Michigan; 3,162 in Ohio; 924 in Wisconsin. Indiana, Minnesota, Missouri, New Jersey, Rhode Island, West Virginia and Wisconsin have exceeded their quota, but all the others are behind in the supply of troops. The worst delinquent is North Carolina, which has furnished only 55 soldiers to meet its quota of 783. The total enlisted strength of the regular army to date is about 44,000 men, being about 18,000 short of its legal complement. The volunteer army consists of 183,000 men and is only 17,-000 short of its maximum authorized strength under the two calls issued by the president. The total strength of the army, regular and volunteer, is 227,000 as now organized. They Want to Smoke. London, July 23 .- The Daily Telegraph publishes a dispatch from St. Petersburg which says the ladies of the Russian court are greatly upset at the fact that the czarina has forbidden cigarette smoking in her presence. The dispatch adds that the ladies have petitioned her majesty to withdraw the prohibitory ukase, pointing out that ladies smoke cigarettes at all the courts of Europe and that there are smokers among the crowned heads and the princesses of royal blood, including the dowager czarine, the empress of Austria, the queen of Roumania, the queen regent of Spain and the queen of Portugal, while, they allege, the greatest devotee of all is Princess Henry of Prussia, the sister of the czarina.

Gen. Shafter says that the roster of prisoners handed in by Gen. Toral gives a total of 22,789 men.

Gen. Paareja, the Spanish commander at Guantanamo, declined to be included in Toral's order of surrender. His force is equal to that given up by the commander at Santiago.

The contract for sending home the Spanish prisoners of war who surrendered at Santiago has been awarded to the Spanish Transatlantic company.

Gen. Garcia's death was reported in Kingston, Jamaica, but confirmation of the report could not be obtained.

A semiofficial note published at Madrid says Gen. Toral's surrender was not directed by his government, but was made on his own responsibility.

It was stated with authority in Washington that no peace negotiations were under way.

Reports from Santiago are that the Spanish and American soldiers are fraternizing, and that the people are glad to be freed from Spanish misgovernment. Transports are landing supplies and the distress is being relieved.

Members of the Cuban junta in Washington declare there is no doubt that Cubans will submit to the will of the United States government.,

The invasion of Puerto Rico has been further delayed. Gen. Miles complains that the navy is moving too slowly, but Washington authorities are said to advise moderation.

The administration decides that the ships surrendered in Santiago harbor belong to the government and are not prizes for either army or navy.

It is said that Gen. Leonard Wood has been appointed military governor of Santiago, succeeding Gen. McKibben, who has resumed command of his brigade.

It is announced by Secretary Long that the expedition to Spain has not been abandoned, but has been deferred until the Puerto Rico campaign permits the withdrawal of the ships.

Gen. Garcia has announced that he will no longer serve as an ally of the United States' army owing to alleged mistreatment by Gen. Shafter. The Cuban general says he will fight independently.

Madrid advices say there is no indication of peace proposals. The government continues inactive, while the people are demanding peace at any price.

The story comes from Madrid that Weyler is to succeed Sagasta and push the war to the limit.

The British steamer Newfoundland, with a rich cargo, was captured by the Mayflower while trying to enter the harbor of Cienfuegos.

Seven of our little gunboats entered the harbor at Manzanillo and destroyed three Spanish transports, an ammunition ship and five gunboats. Not one of our vessels was injured,

Boonton, N. J. The town of New Holland, O., was nearly wiped out by fire.

The Commercial state bank in Marshalltown, Ia., closed its doors.

veterans was held in Atlanta, Ga., with points in the island and it is expected 25,000 persons in attendance.

Fire which started in Cieland's general store in Coopersville, Mich., wiped out the business portion of the town. Crazed by Christian science teachings, Mrs. William Jones, a young married woman living near Chillicothe, Mo., killed her six-month-old babe and cut her own throat.

As a result of excessive taxation the Northern bank of Lexington, Ky., has gone out of business.

While bathing in the river at Morton. Minn., Barbara and Rachael Galle, Martha Lorenz and Alvina Reis-all under 20-were drowned.

The German savings bank at Doon. Ia., failed with liabilities of \$59,474. John Harvey Myers, secretary of the Home Building and Loan association in Milwaukee, was said to be \$30,000 short in his accounts.

PERSONAL AND POLITICAL.

Myron H. Rooker, editor of the Press and Knickerbocker, died in Albany, N. Y., aged 75 years.

The republicans of the Eighth congressional district of Missouri nominated J. W. Vosholl for congress.

Joseph B. Cheadle has been renominated for congress by the Ninth district democrats of Indiana.

The republicans of the First Missouri district nominated Frederick W. Blees for congress.

In convention at Burlington the Vermont democrats nominated Thomas W. Maloney for governor.

The North Dakota republicans met in Fargo and nominated Fred B. Fancher, of Stutsman, for governor, and B. F. Spaulding, of Cass, for congressman.

Joseph A. Roy, of Quincy, was nominated for congress by the democrats of the Fifteenth Illinois district.

Edwin Storey Smith, the most prominent paper manufacturer in New England, died in Boston, aged 48 years. The Second district republicans in

Michigan nominated Henry C. Smith, of Adrian, for congress.

FOREIGN.

Twenty-four persons were killed by a cage accident at the Paulus colliery. near Morgenrot, Prussia.

Messrs. Zola and Perreux were found in the river while fishing. guilty of libel and each sentenced in Paris to a year's imprisonment and to 3,000 franc's fine.

Half of the business houses in Sunderland, England, were destroyed or damaged by fire, the less being \$2,000, 000.

In Japan 26 sulphur miners left on an island by their employer starved to death

is anxious to win glory.

Premier Sagasta admitted in Madrid that the preliminary steps had been taken towards obtaining peace.

The plan of the Puerto Rico cam-The annual reunion of confederate paign involves landings at various that San Juan will be quickly surrounded. It is definitely asserted that Puerto Rico is to be permanently annexed to the United States.

> Gen. Miles and the advance detachment of the Puerto Rican army of invasion are supposed to have reached the point of disembarkation near Fajardo.

> The car barn of the Consolidated Traction company in Pittsburgh, Pa., was burned, the loss being \$175,000.

> Admiral Sampson's report on the raval battle at Santiago which ended in the destruction of Cervera's fleet has been received in Washington.

The Beach hotel, a well-known summer and winter resort, was burned at Galveston, Tex., the loss being \$200,000. Emperor William has assured President McKinley of his friendship and says he has no intention to interfere with American affairs in the Philippine islands.

Two distinct earthquake shocks passed over East Tennessee, Southwest Virginia and Eastern Kentucky. No damage resulted.

Cubans have addressed a letter to President McKinley in which they ask that the conquered section of the island be turned over to their management.

A Spanish correspondent in Havana reports that the city's fortifications have been greatly strengthened.

Gen. Shafter reported that the garrison at Guantanamo had accepted the terms of surrender.

The Spaniards at St. Juan, Puerto Rico, are making extensive preparations to resist an anticipated attack. An army of 150,000 men, led by Gen. Miles, will attack Havana in the fall. In the meantime Shafter's forces will

return home for recuperation. The Tawas savings bank of Tawas City, Mich., having a capital stock of \$25,000 and a local deposit of \$15,000, has suspended.

At the national butchers' contest in Indianapolis, Ind., Charles Gardner broke the world's record for dressing sheep, killing and dressing ten in 39 minutes and 30 seconds.

John F. Taylor, George Wilson and Ed Sticker, all well-known citizens of Wabash township, Ill., were drowned

Gen. Shafter reports that he will have 24,000 prisoners to return to Spain.

President McKinley has informed the European powers unofficially of his intentions regarding an invasion of Spain. The president hopes to end the war without such a move, but if Spain continues to fight there may be necessity for such action.

The Confederate Veterans.

Atlanta, Ga., July 23 .- The city was decorated with endless miles of bunting for the confederate parade Friday. Mrs. Stonewall Jackson, Miss Winnie Davis, Mrs. John B. Gordon and Mrs. Cabbelle Currie, president of the Daughters of the Confederacy, occupied carriages, as did also Gen. and Mrs. Longstreet, Gen. and Mrs. Hooker and Gen. Wade Hampton. Gen. Gordon, at the Auditorium meeting, introduced Miss Winnie Davis, the veterans giving her a great ovation. A resolution was passed to substitute for "the war of the rebellion," the expression "the civil war between the states." Charles-ton, S. C., was selected as the place for the encampment next July. Adjourned sine die.

vices brought from Hong-Kong by steamer Empress of India, it is reported there that a Spanish regiment near Manila met a force led by Aguinaldo and the Spanish captain challenged Aguinaldo to mortal combat before the battle begun. The offer was accepted and the duel resulted in the fatal wounding of the Spanish officer.

Second Expedition Armyes.

Hong-Kong, July 21,-The second exedition for the Philippines arrived in Manila on July 17. The American flag was raised over Wake island on July 4 The expedition comprises 3,450 men.

Clovers, etc., with Farm Seed Catalogue for 4 cents postage. JOHN A. SALZER SEED CO., La Crosse, Wis.

PERIODS OF PAIN.

Menstruation, the balance wheel of woman's life, is also the bane of existence to many because it means a time of great suffering.

While no woman is entirely free from periodical pain, it does not seem to have

ence. It relieves the condition that produces so much discomfort and robsmenstruation of its terrors. Here is proof: DEAR MRS. PINKHAM:-How can 1 thank you enough for what you have done for me? When I wrote to you I was suffering untold pain at time of menstruation; was nervous, had headache all the time, no appetite, that tired feeling, and did not care for anything. I have taken three bottles of Lydia E Pinkham's Vegetable Compound, one of Blood Purifier, two boxes of Liver Pills, and to-day I am a well person. I would like to have those who suffer know that I am one of the many who have been cured of female complaints by your wonderful medicine and advice. MISS JENNIE R. MILES, Leon, Wis

If you are suffering in this way, write as Miss Miles did to Mrs. Pinkham at Lynn, Mass., for the advice which she offers free of charge to all women.

New ORLEANS has a blind bootblack: but then hardly any bootblack is able to see that your boots are not in need of a shine.

BEN JORDAN, the prize fighter, who recently whipped George Dixon, America's champion featherweight, is the on of a London clergyman and has been disowned by his family because of his taking up with pugilism.

THE contract for printing United States postage stamps next year includes 2,726,769,525 two-cent stamps. 1,344,526,650 one-cent stamps. and The smallest number of any one variety will be 4,420 \$50 stamps. These are used for postage upon newspapers mailed in bulk.

Now that Hawaii has been annexed. the Queen Dowager Kapiolani is suing her two nephews for property in Honolulu, worth hundreds of thousands of dollars, which she had previously deeded to them, while another report is to the effect that the exmeen is going back to the islands to live.

AFTER all our laughing at Spanish war news the most truthful item from any origin since the conflict began is the Madrid dispatch published about the time of our first landing in Cuba which said: "Adm. Cervera, it is rumored in political circles, will immediately undertake a step the probable result of which will be favorable to peace.

THERE is much satisfaction in the reports of the rapid healing of wounds in the ship hospitals of the Cuban feet. Under the modern system of anti-septic dressing there is no formation of pus and no fever, so that the wounds heal very rapidly and a much better record is made than during the civil war. Of course, there is a great reduction of suffering as well as an increased saving of life.

It is said that the last direct descendant of Amerigo Vespucci, who is living in Florence, Italy, is the Countess America Talon. Her husband, Viscount Talon, was a Frenchman, who fought in the Crimea, and was mortally wounded at Solferino. They were once rich, but the widow has litle left to live upon except a small

GYPSYING.

When you and I go gypsying we'll laugh the whole day long; We'll stop at every cottage gate thrill our hearts with song; and

We'll live the joy of summer skies when hopes are well begun-When you and I go gypsying we'll travel

We'll use the old, old magic that shall never cease to be; The charm of love whose mystic spell is

over you and me; Our hearts will know a rapture fine that

Time can ne'er outrun-When you and I go gypsying we'll travel toward the sun.

With some far eastern splendor strange, with some unbought delight,

We'll fill our eager vision as it looks beyond the night; And still, to feed the fire that burns with

in our heart-as one, When you and I go gypsying we'll travel

toward the sun. We'll leave behind us every care and set our way afar.

Beyond the low horizon's verge to some love-lighted star; We'll dream the dreams of earth no more,

a happier dream begun-When you and I go gypsying we'll travel

toward the sun -Lewis Worthington Smith, in N. Y. Independent.

-----THE SHERIFF'S VICTORY

I champion of the Philistines, and David, the shepherd boy who constronger contrast in stature and bulk | raft. than my father's two occasional visitors, Mr. Bristol, the grain merchant, and little Capt. Darby, the shy, quiet but genial gentleman of leisure.

I was on intimate terms with the

Coming out from our gymnasium body strained and aching from the ly in the face:

but I knew that in a fair fight I could | be out of my jurisdiction. Don't you toss him over my head, and unconsciously I felt contempt for him.

"'That's the question, sheriff,' said Mr. Hunt. 'I propose that-' "'There's the raft. See her! just

rounding the bend!' exclaimed one of the men at the tavern; which anfor action had arrived.

'Follow!' said the sheriff.

"And running down the river bank, he was fortunate enough to find a boat lying there.

"On no consideration, however, could he get any of the men to agree to row him out to the raft, knowing, as they did, the desperate nature of those watermen.

"A law of Pennsylvania gives an officer the right to press into his service, when necessary, anyone whom he may please. They refused at the peril of arrest. Thus the sheriff was compelled to order two men to the oars, saying, as he did so:

"'All I want of you is to put me on that raft. I will manage the rest alone.'

"Meantime Mr. Hunt, noticing my broad shoulders, secretly offered me ten dollars if I would go along 'to back up the sheriff' if he needed help, and I consented.

"The boat pushed off, and when near the raft we saw but one man upon it. When within speaking distance of him we were greeted with the salutation:

"The sheriff made no reply, merely

asking us to be silent, and commandquered him, could have presented no ing us to head the boat toward the

"We shot forward under the oarsmen's masterly strokes; and the sheriff was about to spring on board, when the raftsman, stooping, caught the bow of our skiff, and with a powerful push sent us back about ten feet. Then he said, savagely:

"'I'll break your head if you dare to touch here again!' raising, as he spoke, a stout hickory club with which to enforce his threat.

"I tell you, Mark, I wished I was safely at home then.

"'Men,' coolly ordered the sheriff, put me up to that raft again.' Then, turning to the raftsman, he said: Look here, sir! I am sheriff of Dauphin county, and as such am authorized to take from you the shingles in your possession. I am going to do it. too.'

"His reply was a flourish of the club. By this time the boat had again

see that I have taken possession of this raft and all on it? I might take you to Philadelphia, and still have you in my power, so you may as well abandon. that little trick. Jones, don't pull quite so hard! There! that's it. Now we'll run of to Conewago island and see nouncement prevented Mr. Hunt from | what we can do about those shingles." explaining his purpose, for the time Then, going over to the pilot, he said: 'Bill, when we get to the island, I'll leave you to see about the unloading. "Not another word did he speak until the island was reached, which was

but a short distance ahead. "Calling to some men who were at work upon it, he had, under Bill's direction, the shingles taken off and

piled up neatly under the trees, amid the disapproving mutterings of the crew; but they never raised a finger. 'When all was done, he said:

" 'Now, men, I've got what I came for -the shingles and not you, so you can go your way, and next time I see you, Bill, we'll have a friendly settlement. Good-by!'

"And leaping into the skiff, we rowed the little sheriff back to the White House.

"Quite a crowd had collected along the shore as we returned, and you never heard heartier cheers than greeted us.

"Headed by Mr. Hunt, they carried the sheriff into the tavern upon their shoulders, and, a few years after, when some of those very raftsmen were wanting a gallant leader to take them through the war, who do you think they chose?"

"The brave little sheriff, sir," I replied.

"That's so. The little sheriff then, and now your father's and my friend-Capt. Darby."

"No, Mr. Bristol! That quiet man? It is not possible!"

"The very same, Mark. Muscle is a good thing in its place, but muscle without moral courage to direct it makes but a poor show at the best."-Golden Days.

OUR WOMEN AT PARIS.

They Should Not Be Permitted to Repeat Their World's Fair Mistake in 1900.

American women are arranging to make another exhibition of themselves at the Paris exposition in 1900. proportionately similar to the painful 'Woman's building" at the world's fair in Chicago in 1893. It was not that the women who projected the "henhouse" touched the raft, and the sheriff in an (at the world's fair), as it was irreverinstant leaped aboard her and ap- ently called by many, were altogether to blame, nor was its failure due to lack of energy. The failure was in the idea itself. It was unwise, and intelligent women on all sides did not hesitate to express their opinions. They objected, and rightly so, to be classed apart, and have their handiwork shown as that of a set of freaks. If their work was good, they asked, why should it be separated from the main exhibits simply because it was the work of women? What did their sex matter if the work was of merit? There is no sense, however, in making this mistake for the second time, particularly within the boundaries of another country and for another people to laugh at. The idea at Chicago itself was wrong, and the idea for "'Who ordered you to interfere, Paris is equally wrong. It is signifiyoung man?' said the sheriff, looking | cant that the women who were foremost in the Chicago experiment refuse turn to that boat immediately. When to have anything to do with the Paris you are needed I will let you know. project. This should speak volumes to the women who are persisting in making this second mistake. If so direct a hint does not suffice, however, the United States government, with a full knowledge of the result of the Woman's building at the world's fair in mind, should, and doubtless will, refuse to allow American womanhood to be held up again to ridicule. The and was employed to guide the raft American woman's ingenuity can have adequate expression in the general American exhibit at the Paris exposition in 1900. But her handiwork must be shown with the handiwork of men, and not apart from it. The lesson mean to obey him. He's never known must be enforced upon continental Europe that in America merit is recog-"'Good for you, Bill!' exclaimed the nized irrespective of sex .-- Edward W.

MICHIGAN STATE NEWS.

Murder and Suicide.

Edward McKindre. a farmer living six miles east of Owosso, shot his wife, fatally wounding her, and then fired three shots into his own breast. Mc-Kindre was arrested on the charge of nonsupport in June, but was acquitted. and he then swore revenge on his wife. He called where she was working, and after engaging in a heated discussion he drew a revolver and fired two shots, both of which took effect in the woman's breast. He then shot himself. Me-Kindre was 24 and his wife 20 years of age.

Corn Crop Damaged.

The state authorities have received advices to the effect that the corn crop in most of the counties of the lower peninsular north of Grand Rapids was badly damaged by a recent frost. In Wexford, Grand Traverse, Osceola, Missaukee, Kalkaska and neighboring counties entire fields were ruined, and the loss is estimated at hundreds of thousands of dollars. Potatoes and garden truck were also badly damaged.

Died from Consumption.

Mary Pierce, the girl who some three years ago figured in the most sensational murder case in the history of Ottawa county, died in Berlin. She had recently been released from the Adrian reformatory. In the summer of 1895 she and her nephew, George Cheesbrough, murdered Mary's mother at the latter's farm home in Talmadge. Both confessed but claimed self-defense. Consumption caused her death.

Health in Michigan.

Reports to the state board of health from 79 observers in various portions of the state for the week ended July 16 indicate that cholera morbus, cholera infantum and erysipelas increased and remittent fever and measles decreased in area of prevalence. Consumption was reported at 177 places, measles at 35, typhoid fever at 18, scarlet fever at 14, diphtheria at 17, and whooping cough at 14 places.

Big Lumber Deal.

The sale is announced of the Spalding Lumber company's Cedar river sawmill and everything appertaining thereto, which includes store and all other buildings, river and bay shore improvements, also 53,000 acres of hemlock, cedar, hardwood and farming land in Menominee and Delta counties, to Samuel Crawford & Sons, of Pigeon, Pa., for a cash consideration of \$160,-

By BRUCE ELDER. OLIATH, of Gath, the renowned

former, boy though I was, for I almost worshiped muscle and brawn, and to possess some day Mr. Bristol's magnificent strength was the height of my ambition.

Capt. Darby, on the contrary, was so "insignificant" in size and undemonstrative in manner that I never wasted a thought upon him.

one day, with every muscle in my training which I had just been receiving, I met Mr. Bristol and together we sauntered down Kearney street. He called me a "youthful Samson,' bantered me about my trapeze feats and at length said, looking me square-

"What do you expect to gain by you

"'What d'ye want out here?'

pension accorded her by Spain in memory of her great ancestor.

NAVAL Cadet Hiroaki Tamura, who is at Annapolis through the courtesy of this government, is a very much dicappointed young man because the Japanese legation at Washington will not permit him to aid Uncle Sam in whipping the Spaniards. Tamura is in this country under the supervision of his own government and to let him enter the United States service would be a violation of the neutrality laws on the part of Japan.

CANOVAS DEL CASTILLO'S widow has received a magnificent present from admirers of her husband in the Philippines. It is a large map in relief of the Philippines, made of beaten gold, the towns marked by rubies, the names written in sapphires and the dedication in diamonds. The map is set in a frame of gold and jewels, with agold bust of Canovas on top, and this is inclosed in a box of precious wood artistically carved. The gift it valued at \$30,000.

PROF. CHARLES E. MUNROE, a noted chemist and dean of the Columbia uni versity, has been experimenting with jorite, a new explosive, and predicts it will take the place of gun cotton on the Vesuvius. Jovite is the invention of a Swiss named Blomen and is a mixture of certain coal-tar products and a metallic nitrate. It can not be exploded by concussion, but it has an energy equal to dynamite. Shells filled with jovite have been fired through 14 inches of nickel steel armor without bursting until after coming out at the far side.

A RESIDENT of West Gouldsboro, Me., as in his possession a curious stone, the size of which is constantly increasag. It was found 30 years ago on the shore of a cove by the brother of the present owner, who carried it home because of its remarkable resemblance to a large egg. Afterward it was noliced that the stone had increased in size; and in ten years it had doubled its weight. Originally the rock tipped the scales at about ten pounds, and now, at the end of 30 years, it weighs 5 pounds. Large sums have been of-fered for the curiosity:

ADM. CAMARA is English on his mothersside, for his father, who was a marine captain, married a Miss Livernore, in Liverpool. He, like his comrade, Adm. Cervera, graduated from he naval academy at San Fernando, which he entered in the very year that the latter was leaving (1851). He saw did not gain his captaincy until 1871. In private life Adm. Camara is somewhat of a moody recluse. He is an andent monarchist, and was one of those who advocated the giving of the crown of Spain to Alfonso XIL

skill in that direction, Mark?" "Nothing that I now know of, sir;

but 'might is right,' and when I'm as strong as you I'll defy any fellow to make me his football." Just then Capt. Darby, passing, sa-

luted us, and disappeared in a drug store.

"I know Capt. Darby is a gentleman, in his way," I continued, "but I would despise myself if I was made on so small a scale, and yet was expected to do a man's part in life."

"So! so! Is that your gauge of manhood, my boy? Well, I thought so, too, once, until a sheriff taught me better. My early home was near Harrisburg; the capital of Pennsylvania. The Susquehanna flows directly past the city. This beautiful river, though a mile wide, is not navigable except in the spring of the year, when the early rains and melting snows swell it considerably.

"As soon as the stream is high enough the watermen float their timber, in the form of rafts, down from the forests at the head of the river, in New York, to the market at its mouth or along shore.

"One day in 1859 news was brought to town that a party of watermen had seized a cargo of shingles, under a disputed ownership, and having placed them on a raft, were steering down the river, and were now quite near.

"It happened that the legal owner of the shingles, Mr. Hunt, was in Harrisburg at that time, and, going to the sheriff, he ordered that a writ of replevin should be served upon the lumbermen.

'The sheriff, jumping into his buggy with Mr. Hunt, rapidly drove to a little village below the city, which was the nearest port of entry. Here they left their horse and buggy, and walked up the river again one mile to a tavern close to the shore, called 'The White House,' which was a favorite resort of the lumbermen.

"I had come in from my father's farm to have our team of sorrels shod at the farrier's, near the tavern, and was lounging about the porch when the two strangers came up. One was a large, the other a small man. The large man soon explained the situation of affairs to the loafers seated around, and they became at once much excited. It was going to require pluck and determination to arrest a party of Susquehanna lumbermen.

"'Think you can do it, sheriff?' said the host.

"He addressed the small man. I was ervice in the Morocco expedition, and in county, holding such a responsible perienced guidance, to pass them. position! Ridiculous!

height and certainly did not weigh enced to read his character in his face, getting me over to the falls that you will by accident in coal mines last year.

proached his antagonist, saying:

"'Sir, you may as well submit peaceably; for do you think a small man like I am came here to fight you-a big, blustering idiot? For such you are if you think you can escape with this lumber when I have the whole of Pennsylvania at my back.'

"As the sheriff spoke, his slight figure expressed so much dignity and fearlessness, and his voice rang out in such manly tones, that, fired by his grit, I, too, stepped on the raft, and reaching around him, tried to seize the raftsman's club.

"At this moment 11 big men sprang from their concealment behind the shingles.

"'Now we are in for it!' thought I. at me with eyes as stern as fate. 'Re-This is not a free fight.'

"I obeyed, feeling small enough. "'Now, men, go back to your places,'

said the sheriff, addressing the crew. 'Don't be foolhardy, and get yourselves in a worse scrape.'

"'Hello, Bill! What yer doin'?' inquired one of them of the pilot, who had come on board a few miles back, down the river.

"'Well, I'll tell yer. I'm puttin' on my coat, 'cause I'm not goin' to git in the same box with you fellers. That little man there is our sheriff, an' I to back down.'

sheriff, recognizing him. 'You're the Bok, in Ladies' Home Journal. right sort. Now just take that oar again under my directions."

"'All right, sir,' he replied.

"And back he went.

"That little rascal will have his own way, anyhow,' remarked the man who had first repelled the sheriff, 'so boys, we may as well give up to him.'

"One by one they returned to their posts, and so far the victory seemed | would fish on Sunday." secured.

"The sheriff, meanwhile, picked up a stick, began whittling it in the coolest danglin' a pole in the rain, and when way possible; but, nevertheless, he kept a close watch over the men, and, my bike all day."-Cleveland Leader. after awhile, noticed that something was brewing.

"Carelessly sauntering up to the pilot he inquired:

"'What is it, Bill?'

" 'They're tryin' to git ye over to the falls, sir.

Queen Regent's Ancestor.

The most dramatic feature of the fall of Spain is that her present queen regent, under whose sway the last colonies are being lost, is a direct descendant of that William the Silent who struck one of the first and deadliest blows at Spain when she was at the height of her power.

Population of New Zealand.

New Zealand contains at present 42,-000 natives (Maoris) and 626,000 whites.

Coal Mine Accidents.

Orchards Ruined.

000.

A destructive cyclone struck the vicinity of Benton Harbor, and as the result a section of the country one mile long and 80 rods wide is a barren waste. Apple orchards were torn up by the roots, peach, pear and cherry, trees were broken down and wheat in stacks was scattred to the neighbors' farms and buildings were removed from their foundations.

Drowned While Bathing.

Fred Sudderby, a locomotive engineer on the Soo line; William Mc-Carthy, an engineer's helper at the roundhouse, and Joseph Estabaugh, ex-city marshal, were drowned while bathing at Gladstone. The bodies of Sudderby and Estabaugh were found in ten feet of water.

News Items Briefly Told.

Silas H. Corwin, city treasurer since 1990, dropped dead in Battle Creek.

A bank is to be established at Linden, Genesee county, which village is at present without banking facilities.

Judge Person at Lansing threw out of court the case commenced by the Central Michigan Agricultural society to regain possession of the state fair grounds in Lansing.

There is no truth in the announcement that Clara L. Ward, formerly of Detroit, the divorced wife of Prince. Joseph of Chimay and Caraman, is dead.

The Three Rivers village council raised the price of day labor done for the village from \$1.25 to \$1.50 per day.

Saginaw county expended \$25,814 last year in aid of the poor.

Private E. E. Prall, of Bay City, has the honor of being the only Michigan man in the United States volunteer signal corps.

Joseph Scovera, a well-known Bohemian of Crystal Falls, was killed by a fall of ground in the Hemlock mine.

Adair Van Stein, aged 15 years, living two miles south of Charlotte, was accidentally shot and killed by his father. August 16 and 17 are the dates for the annual encampment of the Calhoun County Soldiers' and Sailors' association at Albion.

The supreme court has granted a writ of assistance whereby J. Everett Ball, of Marquette, will become possessed of the mines and other property, of the Ridge Copper company.

During the month of June the state analyst in the office of the dairy and food commissioner examined 112 articles of food, 36 of which were food pure and 76 adulterated.

The American and United States express offices in Menominee have been combined, the business of the latter being transferred to the former.

The Bay of Nipe lies on the north coast of Cuba, almost directly across the island from Santiago. It is purposed to establish a base there which will save at least two days' time in getting supplies into Cuba, as compared with the Santiago route. It will also form a good point of operations against Holguin, not far distant, and if it should develop unfortunately that a restraining hand must be laid upon the Cubans themselves Nipe, in connection day: with Santiago, would be an effective means of doing this. The following is the message received at the navy department:

0

"Santiago. July 22.-Adjt. Gen. Corbin, Washington: Sent two troops of cavalry with Spanish officers and Lieut. Miley to receive surrender of Spanish troops at San Luis and Palmas. They had not heard of loss of Cervera's fleet or of Toral's surrender. They declined to surrender unless they could come in and see for themselves. A detachment of officers and men oame in last night and returned this morning, apparently satisfied.

"SHAFTER." The Spanish Prisoners.

The Madrid government officially has recognized the proposed return by the United States of the Santiago prisoners to Spain. This recognition came Friday in the form of a letter to Gen. Shafter from Gen. Toral, commander of the Spanish troops at Santiago. The fact of the receipt of the letter was communicated to the war department in a dispatch from Gen. Shafter. In the letter Gen. Toral says that the Spanish secretary of war desires the troops landed at Vigo Coruna on the Atlantic, and at Santander in the Bay of Biscay. The request of the Spanish government will be complied with unless something unforeseen should prevent.

Work of a Mob.

St. Louis, July 21 .- A special to the Republic from Natchez, Miss., says: A telegram received here announced that an infuriated mob had stormed the Simpson county jail at Westville, killing W. T. Patterson, who was confined therein under the charge of murdering Lawrence Brinson, and the jail was fired and the building and the body of the prisoner were burned. The body of the unfortunate man was literally riddled with bullets. Patterson killed Brinson in April, 1897, as the result of a quarrel. He had had four trials, but always escaped sentence on some technicality, and the mob intervened, wearied by the law's delay.

Town Nearly Wiped Out.

Chillicothe, O., July 21.-The town of New Holland, ten miles northwest from here, was nearly wiped out by fire at an early hour Wednesday morning. All the business houses on the principal street and a hotel were entirely destroyed. The only fire protection was a chemical engine which became disabled when put to use. It is esti-mated that the loss will reach \$75,000.

under way, some of them with two or three days' start of Gen. Miles, so that the delay should not be very great.

Will Keep Puerto Rico.

Washington, July 22 .- The authoritative declaration was made Thursday that the island of Puerto Rico is to be held as a permanent possession of this country as the price of the war. The subjoined practically official statement was made to the press Thurs-

"Puerto Rico will be kept by the United States. That is settled and has been the plan from the first. Once taken it will never be released. It will

ments of the war that the United States government should enter inte a friendly contract with a company, many of whose vessels are auxiliaries to the Spanish navy and some of which have been captured or destroyed by the navy of the United States.

Communication Cut Off.

Washington, July 21 .-- Two days ago Gen. A. W. Greely, chief signal officer, cabled instructions to his officers in Santiago to seal up and place a guard over the three cable lines connecting Santiago with Cienfuegos, whence by a land line communication is established with Havana. Wednesday Gen.

pass forever into the hands of the United States and there never has had been carried into effect. The closbeen any other thought. Its possession will go toward making up the heavy expense of war to the United States. Our flag, once run up there, will float over the island permanent-

Each Wants to Be Ruler. London, July 22.- The Manila correepondent of the Daily Mail, under date of July 16, commenting on the "state of anarchy among the rebels," says: Each local chief desires to become the supreme ruler of his island. It is pitiful to think that a nation like the Spanish has been beaten by such mis-

erable specimens of humanity. American inactivity is telling on the natives in the rebel districts. Food is plentiful, but there is no money to purchase it, and no way to distribute it.

Will Send a Big Force. San Francisco, July 22 .- An afternoon paper asserts on the authority of an unnamed army officer that 40,000 troops will be sent to the Philippines from this city. The assertion is based on the surmise that the insurgents will give the United States trouble and that it will require at least 40,000 United States soldiers to preserve order in the Philippines. Preparations are being made to rush the available transports and nearly 4,000 soldiers will be dispatched in two weeks.

Greely was informed that his orders ing of the Cienfuegos cables absolutely isolates Havana and Gen. Blanco of communicating with the Madrid government is by the Key West cable, which is under the strictest censorship by the government of the United States.

Should Continue the War.

Madrid, July 20.-El Imparcial learns from several members of the cabinet that in their opinion for Spain to sue now for peace would be an avowal that she is vanquished. Moreover, they believe that the United States, flattered by the triumph at Santiago, would only consent to peace on unequal terms, and that therefore it is preferable to continue the war in the hope of reconquering a portion of the lost territory.

Soldier Kills Himself.

New York, July 22.-Sergt. Neal Molloy, of battery I, Seventh United States artillery, killed himself at Fort Slocum Thursday. No reason is known for his act. After roll call he went to his quarters and packed up his be-longings. He then went to the quarters of the noncommissioned officers and bade them good-by, saying he had received a furlough and would not see them for some time.

gunboat Wilmington, in his report to Admiral Sampson:

"At seven o'clock on the morning of July 18 the vessels on blockade duty in this vicinity, the Wilmington, Helena, Scorpion, Hist, Hornet, Wampatuck and Osceola, approached the harbor of Manzanillo from the westward. At half-past seven the Wilmington and Helena entered the northern channel toward the city, the Scorpion and Osceola the mid-channel and the Hist, Hornet and Wampatuck the south channel, the movements of the vessels being so timed as to bring them within effective range of the shipping at about the same moment. At 7:50 fire was opened on the shipping, and after a deliberate fire lasting about 2% hours three Spanish transports, El Gloria, Jose Garcia and La Purciana Concepcion, were burned and destroyed. The pontoon which was the harbor guard and storeship probably for ammunition was burned and blown up. Three gunboats were destroyed. One other was driven ashore and sunk and a third was driven ashore and is believed to have been disabled. The aring was maintained at a range which is believed to be beyond the range of the shore artillery. It was continued until after a gradual closing in the shore batteries opened fire at a comparatively short range, when the ships were recalled, the object of the expedition having been accomplished and the ideas of the commander in chief carried out as I understood them-that is, to destroy the enemy's shipping, but not to engage the field batteries of forts. No casualties occurred on board any of our vessels. Great care was taken in directing the fire that as little damage as possible should be done to the city itself, and so far as could be observed little, if any, was done."

The Spanish loss is believed to have been in the neighborhood of 100 killed. The gunboats destroyed or driven ashore were the Delgado, Guantanamo, Ostralia, Continola and Guardian.

Our Troops Close to Manila.

Manila, July 19, via Hong-Kong, July 23.-The disembarkation of the Amerfrom Madrid. Blanco's only means lican troops, comopsing the second expedition, is being pushed with the utmost energy. The Colorado regiment is already in the field near Paranajo, and other regiments will be transferred without any loss of time from the transports to the camp in native boats. The United States cruiser Boston has been detailed to cover the landing parties. She now occupies a position almost within range of the guns of Fort Malato, which is only a short distance from Manila proper. The brigade commanded by Gen. Anderson is still at Cavite, but his troops are ready to move. The arrival here of the United States monitor Monterey is anxiously expected.

Accepts Shafter's Programme. Washington, July 21. - The open statement from the Cuban legation here, made to the war department of ficials, that they were prepared to accept as proper the programme laid down by Gen. Shafter for the government of affairs at Santiago, is but a prelude, it is hoped, to instructions from that body to the Cuban generals in the field, Garcia, Gomez and others, that will tend to prevent a repetition of the conduct that has jeopardized the relations between the American and Cuban soldiers.

withdraw his forces to the hills. The receipt of this information would seem to indicate that the report of Gen. Garcia's death was untrue.

Among the things of which Gen. Garcia complains is the failure of the American commander to officially notify him of the surrender of the Spanish force under Gen. Toral, and he is also incensed at the alleged fact that he was not invited to be present at the ceremony attending the formal capitulation of Santiago.

Another grievance is the retention of the Spanish civil authorities in the administration of their functions in Santiago.

Confederate Veterans Meet.

Atlanta, Ga., July 21 .- Ten thousand confederate veterans and their friends completely filled the vast auditorium at Piedmont park Wednesday and cheered to the echo speeches which eulogized confederacy, extolled "one nation," and cast glowing tributes upon the records and achievements of the soldiers of the south in the war with Spain. Gen. Gordon, surprisingly strong in voice, delivered a splendid speech, which thrilled the hearts of his auditors and sent the famous rebel yell echoing into the rafters. The oration of the day was delivered by Gen. Charles E. Hooker, of Mississippi, and addresses were made by Gov. Adkinson, Hon. W. A. Hemphill, Mayor Charles Collier and Representative Felder. Fully 40,000 veterans and visitors are in the city.

May Court-Martial Toral. Madrid, July 20 .- The papers announce that the cabinet council Monday was occupied with the capitula-

tion of Santiago de Cuba. Ministers expressed surprise that Gen. Toral had included the whole military division of the province in the surrender, and Capt. Gen. Blanco has been asked to send details. When these have been received the question of court-martial of Gen. Toral will be submitted.

Garcia Attacks Captives.

Santiago, July 21, via Kingston, Jamaica, July 23 .- It is reported that 5,000 Spaniards included in Toral's capitulation while marching to Santiago to surrender to Shafter were ambushed by 4,000 Cubans under Garcia, but put the latter to rout after hot fighting. During the battle Garcia was told his opponents were prisoners of war of the American army, but he scorned the notification.

Said to Have Been Killed. New York, July 21.- A Kingston (Jamaica) special to the Evening Postsays: Cubans arriving from Siboney bring in reports of the death of Gen. Garcia. They make a mystery of it, saying that it should not be known in Cuba yet or in the United States, for reasons of state, and give no particulars except that he was shot.

ident McKinley Informs the Pow-The Unofficially of His In-

Washington, July 25.-President Me-kinley has taken pains to inform the European powers unofficially of his intentions regarding an invasion of spain. The president hopes to end the spain war without such a move, but if Spain continues to fight there may be necessity for such action. The information given is outlined in the following statement, obtained from a high source:

"From the time that it was announced "From the time that it was announced that an American squadron was to cross the Atlantic there have been evidences of uneasiness on the part of the European powers. No definite statement was made by the administration as to the purposes that it was to checkmate any movement of Spain's reserve navy under Admiral Camara. of this naval demonstration, further than

Camara. "An assumption that crossing the ocean meant bombardment of Spanish cities has obtained wide circulation. This, however, has never been sustained by any official tatement of the government. It was ac-cepted as possibly true by European pow-ers and added to the feeling of disquietude. Quite recently the president has-received munications upon the subject of Comdore Watson's plan of campaign from the ambassadors of this country at European capitals. These letters show that the isapprobation over the supposed prospect of the war being carried to the coast of spain has not reached the point of formal expression and that there is presented an opportunity, if one is wanted, to relieve the growing tension by information as to the real intentions of this country.

"The opportunity has been improved. The president has not waited to be asked by the powers what the instructions of Commodore Watson will be. He has not given any excuse for a concert of action and possibly a declaration of a Monroe doctrine in Europe. The uneasiness has not been allowed to attain that degree of development. But in a purely voluntary manner, and as if according to European powers, the same unwritten principle which is invoked for this hemisphere under the guise of the Monroe doctrine, the resident has conveyed the information of his purposes, which it was known they desired, but for which they have not yet asked.

"Through diplomatic channels the administration has scored a strong point in keeping with the admirable handling which international affairs have had under this administration. The powers now fully understand that the United States has no intention to invade Spain. If Commodore Watson's fleet goes to the other side, as it will be obliged to go unless Spain sues for peace when the United States has accomplished the objects of the war on this side, the object will be to further cripple and destroy Spain's naval power.

"The powers have been informed in an indirect and in an unofficial but wholly effective way that the United States will much prefer not to carry hostilities to European waters, and that the administration will not do so if means can be found to end the war without it. But, if after the war has been fought out on this side s nothing to s isphere, that government shall still insist on maintaining a hostile attitude, there will be nothing left for the United States to do but to cross the ocean and render the enemy totally harmless by completely destroying what remains of the naval resources. The propriety and necessity of such action must be admitted by the owers. This is what the preparation and the holding of Commodore Watson's quadron means."

A P'lippine Heroine.

One of the rhilippine Heroine. One of the rhilippine insurgent leaders is a beautiful woman whose life seems to be charmed. She has often rushed bravely into the very teeth of death from guns and can-non, but has never been wounded. Fre-quently we see people in this country who live so long that their lives seem charmed also, but the only charm about it is that they keep up their strength and vitalize their blood with that celebrated remedy, Hostetter's Stomach Bitters.

Market Fluctuations.

"She told me ber heart and hand were priceless." "What did you say?" "I told her I would go off somewhere and wait until she sent me word that they were marked down."-Indianapolis Jour-

Try Allen's Foot-Ease.

A powder to be shaken into the shoes. At this season your feet feel swollen, nervous and hot, and get tired easily. If you have smarting feet or tight shoes, try Allen's Foot-Ease. Fifteen Years of Suffering.

SKILL OF DOCTORS TESTED.

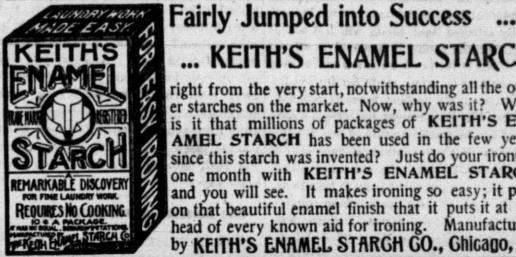

"I thought I should surely die."

When the stomach begins to fail in its duties, other organs speedily become affected in sympathy, and life is simply a burden almost unbearable. Indigestion and dyspepsia are so common that only the sufferer from these diseases knows the possibilities of misery that inhere in them. A typical example of the sufferings of the victim of indigestion is furnished in the case of John C. Pritchard. He went on for fifteen years, from bad to worse. In spite of doctors he grew constantly weaker, and thought he would die. He got well, however, and thus relates his experience: experience:

"For fifteen years I was a great sufferer from indigestion in its worst forms. I tested the skill of many doctors, but grew worse and worse, until I became so weak I could not walk fifty yards without having to sit down and rest. My stomach, liver, and heart became affected, and I thought I would surely die. I tried Dr. J. C. Ayer's Pills and they helped me right away. I continued their use and am now entirely well. I don't know of anything that will so quickly relieve and cure the terrible sufferings of dyspepsia as Dr. Ayer's Pills."-Jonn C. PRITCHARD, Brodie, War-ren Co., N. C.

"I formerly suffered from indigestion and weakness of the stomach, but since I began the use of Dr. J. C. Ayer's Pills, I have the appetite of the farmer's boy. I am 46 years of age, and recommend all who wish to be free from dyspepsia to take one of Dr. Ayer's Pills after dinner, till their digestive organs are in good order."-WM. STEINKE, Grant, Neb.

Dr. Ayer's Pills offer the surest and swiftest relief from constipation and all its attendant ills. They cure dizziness, nausea, heartburn, palpitation, bad breath, coated tongue, nervousness, sleeplessness, billousness, and a score of other affections well. I don't know of anything that will bufferings of dyspepsia as Dr. Ayer's Pills."-JOHN C. PRITCHARD, Brodic, War-ten Co., N. C. This case is not extraordinary, either in

MISS SCHLEY'S MISSION.

Relative of the Famous Commodore **Reaches Madrid to Try Her Hand** at Procuring Peace.

Madrid, July 25 .- Miss Jessie Schley, delegate from the Peace society of Paris, has arrived at Madrid with the Intention, it is asserted, of interviewing members of the cabinet with a humanitarian object.

[Miss Jessie Schley, referred to in the foregoing dispatch, is the daughter of Charles Schley, of Milwaukee, who is a cousin of Commodore Schley. She is a member of the Daughters of the Revolution. It was announced from Paris last week that she was about to start for Madrid to see the queen regent and Senor Sagasta, with a view to bringing about peace, and then to proceed to Washing-ton to visit President McKinley, in the same interest. Last Friday the Milwaukee Sentinel announced that Miss Schley's father, on learning of his daughter's intention, had instructed her to return home immediately, disapproving her course and excusing it as the result of a warm, sympathetic nature and a special enthusiasm for philanthropic and peace movements.]

WILL TALK IT OVER.

ican Representatives.

Ottawa, Ont., July 25 .- The dominion government has not yet given out officially the questions which will be discussed at the coming conference at Quepec, but they are unofficially stated as follows:

Fur seals in Behring sea and the North Pacific ocean.

Atlantic and Pacific coast fisheries and fisheries in inland waters contiguous to the frontier.

Delimitation of the Alaska-Canadian boundary. Allen labor laws.

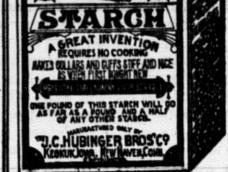

Transportation of merchandise in bond through the United States and Canada. Naval vessels on the lakes. Mining rights of one country within the

territory of the other. Reciprocity of trade.

The conveyance of persons in custody of officers of one country through the terri-tory of the other.

A Fatal Blow.

Randolph, Wis., July 25 .- During a friendly bout with gloves Sunday Paul Seigman struck his brother Julius a blow in the side. The latter staggered and fell, dying almost instantly, whether from the blow or heart disease the coroner's jury was unable to determine. The dead man was 28 years old and leaves a wife and

FREE for a few months to all users of the celebrated ELASTIC STARCH, (Flat Iron Brand). To induce you to try this brand of starch, so that you may find out for yourself that all claims for its superiority and economy are true, the makers have had prepared, at great expense, a series of four

PLAOUES GAME

exact reproductions of the \$10,000 originals by Muville, which will be given you ABSOLUTELY FREE by your grocer on conditions named below. These Plaques are 40 inches in circumference, are free of any suggestion of advertising whatever, and will ornament the most elegant apartment. No manufacturing concern ever before gave away such valuable presents to its customers. They are not for sale at any price, and can be obtained only in the manner specified. The subjects are:

American Wild Ducks, American Pheasant, English Snipe. English Quail, The birds are handsomely embossed and stand out natural as life. Each Plaque is bordered with a band of gold.

ELASTIC STARCH How To Get Them: has been the standard for 25 years.

TWENTY-TWO MILLION packages of this brand were sold last year. That's how good it is. ASK YOUR DEALER

to show you the plaques and tell you about Elastic Starch. Accept no substitute.

All purchasers of three 10 cent or six 5 cent packages of Elastic Starch (Flat Iron Brand), are entitled to re-ceive from their grocer one of these beautiful Game Plaques free. The plaques will not be sent by mail. They can be obtained only from your grocer. Every Grocer Keeps Elastic Starch. Do not delay. This offer is for a short time only.

OLD SORES CURED

A Talk With Mrs. Pinkham About the Cause of Anemia.

Everybody comes into this world with a predisposition to disease of some particular tissue; in other words, everybody has a weak spot. In ninety-nine cases out of a hundred the weak spot in women is somewhere in the uterine system. The uterine organ's have less re-

> sistance to disease than the vital organs; that's why they give out the soonest.

Not more than one woman in a hundred-nay. in five hundred-has perfectly healthy organs of

generation. This points to the stern necessity of helping one's self just as soon as the life powers seem to be on the wane. Excessive menstruation is a sign of physical weakness and want of tone in the uterine organs. It saps the strength away and produces anemia (blood turns to water).

If you become anemic, there is no knowing what will happen. If your gums and the inside of your lips and inside your eyelids look pale in color, you are in a dangerous way and must stop that drain on your powers. Why not build up on a generous, uplifting tonic, like Lydia E. Pinkham's Vegetable Compound?

Mrs. EDWIN EHRIG, 413 Church St., Bethlehem, Pa., says: "I feel it my duty to write and tell you that I am better than I have been for four years. I used Lydia E. Pinkham's Vegetable Compound, one package of Sanative Wash, one box of Liver Pills, and can say that I am perfectly cured. Doctors did not help meany. I should have been in my grave by this time if it had not been for your medicine. It was a godsend to me. I was troubled with excessive menstruation, which caused womb trouble, and I was obliged to remain in bed for six weeks. Mrs. Pinkham's medicine was recommended to me, and after using it a

short time, was troubled no more with flooding. I also had severe pain in my kidneys. This, also, I have no more. I shall always recommend the Compound, for it has cured me, and it will cure others. I would like to have you publish this letter." (In such cases the dry form of Compound should be used.)

Washington News.

Washington, D. C., July 22, 1898. More fighting, and lots of it, is on the ad ministration programme. It is to be started in Porto Rico next week. General Miles and Admiral Sampson are now on their way there in command respectively of the army and navy expeditions, which are to act in concert for the capture of the island. Spain occupies a conspicuous place on the programme. It is to be visited by Commodore Watson's fleet, and the unusual activity in the moving of the troops other than those which are to go to Porto Rico has caused many to believe that the programme actually includes an invasion of Spain itself by our troops. This belief was increased by the presence in Washington of Gen. Stewart L. Wood-Spain, although he ceased to perform the functions of that position at the breaking out of the war. That he was sent for by the President is known, and it is believed could be utilized in the movement against Spain, whether that movement be confined to Commodore Watson's fleet or shall include an army of invasion.

Although peace talk continues to be cabled from Europe there is nothing but fighting in administration circles, the President and his cabinet having become fully satisfied that Spain will not accept peace on the terms that would be offered until she is further humiliated and having determined to bring about her further humiliation at the earliest moment possible.

The War Department has closed a contract for the transportation of the Spanish soldiers that surrendered at Santiago to you get just a little gloomy or despondent Spain, and they will be sent as quick as the ships can get to Santiago to take them.

The rush to enlist has not been equal in the States. Seven States-Indiana, Minnesota, Missouri, New York, Rhode Island' Virginia and Wisconsin-have furnished more men than their quota, but all the rest are short, a majority at least one-third, and North Carolina has only sent 55 men to meet its quota of 783 under the President's second call.

Gen. Shafter seems to have had the law on his side when he declined, after the Spaniards had surrendered to him, to allow Admiral Sampson to take possession of the Spanish merchant ships that were in the harbor at Santiago, and put prize crews in charge of them. Several decisions by the United States Supreme Court have a direct bearing upon this matter. In one of them, the opinion by Justice Field, it was stated the eternal summer's cooking to some burthat no prize money could be allowed for captures or for the destruction of vessels by the navy, where the army had aided, even by its operations several miles distant. It is claimed by some that the above decision will bar the payment of headmoney to the officers and crews of the vessels which destroyed Cervera's fleet, because it was the operations of the army which virtually drove the fleet out of Santiago harbor; but what seems to be draw ing it rather fine, and the wrong way at that, while the natural presumption is that if there is any stretching to be done it will be in favor of, and not against, the gallant fellows who destroyed Cervera's fleet General Shafter was right in claiming that the navy had nothing to do with the ships that had surrendered to him, but he would not be right in claiming, and nobody who have assisted in destroying Cervera's fleet. According to an official report to the War Department, the Russians are experimenting with aluminium horse-shoes for their cavalry, and have found that the latter metal is better than iron and the shoe can be made now for about the same cost, with the probability of considerably lessening it when facilities for making them in large quantities are available. The farmer a profit from the fowls while waitaluminium horse-shoe weighs 21 ounces ing for his young trees to come into bearless than the iron shoe, and being less af ing .- Ex. fected by moisture outwears it. United States Consul Skinner, at Marseilles, France, has reported to the Department of State the completion of a movable bridge at the entrance of the canal between the Mediterranean Sea and Bizerte Lake that reflects no little credit upon French engineering skill. Two stell towers, 213 feet in height, have been erected on opposite sides of the canal, and by an arrangement of steel cables the bridge is easily elevated to the top of these towers in forty seconds upon the approach of a vessel, allowing the vessel to pass under. A six-horse power engine furnishes all the power required. While no one in Washington supposes that the disgruntlement of the Cuban insurgents because they were not given charge of Santiago to loot and do as they pleased with will go to the extent of an octave or tenth ; the bark of a dog to a open repture with our army, not a few of fourth or fifth ; the neighing of a horse is those who have contended from the begin- a descent on the chromatic scale ; while ning that the insurgents were as a whole a the donkey brays in a perfect octave. Yet bad lot, are saying "I-told-you-so." The it is thought that the quality of the donkopinion is growing that the United States ey's voice might be improved ! Possibly will have more trouble with the insurgents the timbre of the violin might be repre. both in Cuba and in the Philippines, than sented by the sequeal of the pig; but a with the Spaniards.

The Rome Paper.

A contemporary rolts up his sleeves and nails the following facts on the appreciation of the home paper:

"When a man discontinues his home bome paper. We have but little trouble in this respect, but for fear we shall (because we are no exception) we hope our readers I have pursued ths method for years " will consider the home paper is the lowest in price of any that comes into your home. It is true the city papers, many of them, are only one dollar a year and contain twice as much reading matter as your particular church ? Do they allow you become. the free use of their columns to set out a bill of fare for a church social, occupying many times a quarter of a column? Do you read of accidents or sickness that is

occuring almost daily in your neighborhood ? Do you find these things, and many hundred more, if we had space to refer to them ? You don't find one of them in your foreign paper. And yet you will roll up your dollar each year and send it away from your town, away from your neighborhood, away from your home, and away from your church. And then when you rush into the office and stop your home paper."

The Blessing of a Summer Stove.

No housekeeper who has once used one will never tolerate coal or wood fires in her kitchen in hot weather, though she sacrifices a dozen other important " wants " in order to secure immunity from their torturing heat. Gas-stoves are always a pos sibility in cities, but in small towns and in the country those for gasoline or oil only are available. Both kinds have been brought to such a state of perfection that there is little or nothing left to be desired in their ute. Oil-stoyes require frequent cleaning and trimming to keep odorless, so preterence lies with gasoline. Every farmhouse in the land should possess one, and

Simple Cure for Orchard Worms.

An exchange says that a farmer who has had experience writes : " Every year

I hear of caterpillars destroying whole orchards, and there is nothing to dispose paper bis excuse invariably is, I am taking of more easily. I bore a hole in the trunk too many papers. Why not discontinue of a tree deep enough to reach the sap, fill some of the foreign ones ? This would it with sulphur and then plug it up. The lessen the number and still give them the sap takes up the sulphur to every branch and twig and the caterpillar dies. I have never known a tree to be injured by it and

To Make Cold Cream.

To make cold cream take of oil of a monds two ounces, spermaceti half an home paper, but do they ever speak of ounce, white wax a dram. Melt together your home interest? Do they speak of and while cooling add two ounces of roseford, who is still United States Minister to your town. your neighborhood, or the water, stirring until cold. Cold cream members of your family ? Paimer at the time of e, situated in the Third Ward of t Ann Arbor, boun d as fo by Main street, on the northerly by the i load so called, on the westerly by the i ray of the Ann Arbor Railroad, and or outherly by the lands of Daniel Hierock Dated, June 17th, 1898.

SUSAN A. PALMER, Administratriz

Mortgage Foreclosure.

THEREAS, default has been made in the conditions of a certain mortgage made by Henry Osborn and Catherine, his wife, dated the 20th day of September, 1886, to the Ann Arbay Savings Bank, of thn City of Ann Arbor, Michigan, and recorded in the office of the Register of deeds of Washtenaw County, Michigan, on the 23rd day of September, 1886, at 9 o'clock and 5 minutes a. m., in Liber 72 of mortgages, page 62, on which mortgage there is claimed to be due at the date of this notice, the sum of Three Thousand and Forty-five Dollars, and no proceedings at law or in equity having been instituted recover the money secured by said mort. gage or any part thereof.

Now therefore by virtue of the power of sale contained in said mortgage. notice is hereby given that on Saturday, the 24th day of September, 1898, at 10 o'clock in the forenoon. at the east front door of the Court house in the City of Ann Arbor, that being the building in which the Circuit Court for said County is held) there will be sold at public auction to the highest bidder the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage, and the costs of this foreclosure including the attorney fee provided for therein. The premises so to be sold are described as follows:

Beginning at the mill dam on the Huron river on Section 11, in the Township of Washtenaw County, Michigan; Scio. thence up the river on the south bank south 47 degrees and 15 minutes west, 5 chains and 25 links; thence south 15 minutes east, 15 chains and 50 links; thence north 74 degrees and 30 minutes east, 11 chains and 32 links to, the line chains and 8 links south of the quarter Section post between and continuing same course 17 chains and 50 links; thence in It is stated by experts that it will take the same course 20 chains to the river; thence up the river to the place of beginning.

Also beginning on the north bank of outh of th 11; thence north 66 links; thence 72 degrees and 30 minutes west 4 chains and 52 links; thence south 50 degrees west \$ chains and 3 links to the railroad fence, and continuing the same course 8 chains and 69 links; thence south 36 degrees west 10 chains and 50 links; thence south 81 degrees and 50 minutes west, 13 chains and 76 links to the bank of the Huron river 1 chain and 8 links above the north end of the mill dam, thence easterly down stream to the place of beginning. All on Sections 11 and 12 in said Townshipof Scio, Washtenaw County, Michigan. Dated, June 20 1898

dened woman simply could not be measured. They bo not "explode," as popu larly supposed, and as investigation will prove, every accident is directly traceable to some act of gross earelessness which, otherwise directed, would render dangerous many things in common use in the household .- Woman's Home Companion.

Fowls in the Orchard.

The orchard is never injured by fowls, but, on the contrary, excellent work is done by poultry in destroying insects. Everyone who has an orchard and does not keep a flock is losing a profit that is more easily secured than in any other manner with poultry, as there is no additional interest on land to add to the cost. The free range of the orchard, with the knows him believe that he will claim, to trees for shade, will assist in greater egg. production, and when the hens have broods

of chicks there is no better location than to make each hen comfortable in a little run under a tree, where the chicks can be permitted to have their freedom. It is not well to have the grass too high in an orchard, if fowls are to use the ground. A well-kept orchard is the one to use, and a up so early. combination of poultry and fruit gives the

Household Gods.

The ancient Greeks believed that the Penates were the gods who attended the welfare and prosperity of the family. They were worshipped as household gods in every home. The household god of today is Dr. King's New Discovery. For consumption, coughs, colds and for all affection of Throat, Chest and Lung it is invaluable. It has been tried for a quarter of a century and is guaranteed to cure, or money returned. No household should be without this good angel. It is pleasant to take and a safe and sure remedy for old

and young. Free trial bottles at Glazier & Stimson's Drug Store.

According to a musical authority, the mooing of a cow is set to a perfect fifth, fine car detects a difference.

Ironical Ifs.

If a man does you an ill turn he will never forgive you for it.

If a man re-leases a piece of property he takes a fresh grip on it.

If people didn't have hobbies the world would soon cease to revolve.

If a man is able to keep his mouth shut he will never have to eat any crow.

If a man once uses porous plasters he is apt to become much attached to them.

If it is necessary to write to any one you don't care 2 cents for to use a postal card, If you want to know the defects of a

ailway consult the man who travels on a Dass.

If Hope assumes the guise of an Easter bonnet it springs eternal in the female breast.

If you would know what the wild waves are saying study the handkerchief flirtation code.

If the sun had nothing to do but shine on the truly good it wouldn't have to get

thought it is useless to waste any time contemplating matrimony.

It people wouldn't bite until they find out whether it is bread or stone there would be fewer dental parlors.

If a man marries a woman because sh has more sense than he has, he is never allowed to lose sight of the fact.

If you ask a girl to name the prettiest of her sex present at a social gathering she will invariably look embarrassed.

never amount to anything in the world it patronage. doesn't matter how soon he begins to part his hair in the middle and smoke cigarettes.

t accurate accounts. It is plain, therefore, that if one cow yields 3,000 quarts of milk in a year, and another 2,000 quarts, the one yielding the larger quantity will produce twice as much profit as the other, although she gives one-third more. This is due to the fact that the first cost of support of the cow must be met without regard to the yield. It is well known that some cows will yield more milk on the same quantity of food than others, and a slight increase of milk may change a small profit into one that is large.

More than one day of this year will henceforth be commemorated in recurring anniversaries. And more than one long established commemoration will, because of this year's doings, henceforth have a significance it never has had before. The decoration day recently past marked the transformation of that observance from a day of sectional memories of inter-fraterual strife to one of national honor to the nation's heroes on both sides of the now obliterated line. The last Fourth of July marked the ending of that day's centuryold traditions of bitterness against our kin beyond the sea, and an increase of joy, among them as well as among us, in the If two souls find they have but a single vast good for the development of the race that has sprung from the blunderings of a stubborn king. War made these anniversaries. War will now change them for the better, and forever.
