compared with 182 in the preceding month. Thus the characteristic feature of the month is seen to be the increased mortality of infants and children, premonitory of the excessive death rate of this portion of the population in August and September. Now is the time when parents, physicians and health officers should take unusual pains to prevent the great source of infant mortality, "cholera infantum" and infantile enteritis.

Only 102 deaths occurred from consumption. This is the smallest number reported from this disease since the beginning of registration, and, except for the month of October, 1897, is the first marked fall from the average of about 200 deaths per month. Typhoid fever caused 21 deaths, which was decidedly below the average. Diphtheria and croup caused 19 deaths; scarlet fever, 4; measles 11; whooping cough, 40; pneumonia, 77; diarrheal diseases of children, 207; and cerebrospinal meningitis, 31. Whooping cough and diarrheal diseases of children showed the largest amount of increase for the month.

WEDEMEYER MENTIONED.

His Name Suggested as Pingree Leader in the House.

Some of the Pingree men are talking of W. W. Wedemeyer, deputy railroad commissioner, as a possible successor to Col. John Atkinson as the Pingree spokesman on the floor of the next house. Wedemeyer had been talked of as a possible candidate for the state senate, but there is now some doubt whether he could get the Republican nomination for the senate in his district. When the fight for the congressional nomination in the second district was on candidate Townsend of Jackson county, proposed that if Wedemeyer would throw his Washtenaw county strength to Townsend, Jackson county would reciprocate by giving Wedemeyer her vote for the state senate. This offer was refused, and it is now taken for granted that Jackson, which has the greater number of votes in the senatorial convention, would down Wedemeyer in case he wanted the nomination. It is therefore possible that an effort will be made to secure Wedemeyer's election to the house. Wedemeyer's ambition is to be in some position where he can use his oratorical gift, and he might be willing to give up his position as deputy railroad commissioner, if he could be named the Pingree leader in the house. Detroit Free Press.

Ringling Bros' Excursions.

Arrangements have been completed by which all those who wish to attend the performances of Ringling Bros' World's Greatest Shows in Ann Arbor Saturday, August 27, can secure special rates on all lines of travel. This will be the only point in this vicinity where the great show will exhibit during the present season, and those who fail to see it will miss the grandest amusement event of the year. Since last season Ringling Bros' famous exhibition has been doubled in size and is now beyond all question or doubt the largest and best combined circus, menagerie and hippodrome in the United States. The performance is given by over three hundred high-salaried specialists, in three rings, on two stages, in mid-air, and upon a huge quarter-mile hippodrome track. The grand free street parade which takes place at 10 o'clock on the morning of the exhibition is the most magnificent display ever seen. Don't miss it.

The true story of those 278 days of suffering by Greely's heroic little band of explorers in the Arctic region has been told by General Greely himself, for the first time, for the October Ladies' Home Journal. For years General Greely has kept an unbroken silence about his fearful experience and that of his companions, as they dropped dead one by one at his side, and it was only after the greatest persuasion that the famous explorer was induced to write the story.

Our scribe, while at the farm of Geo. Q. Peterhaus, was shown a curiosity in the shape of a corn stalk growing from the trunk of an apple tree.—Plymouth Mail.

John Green of near Gregory was severely kicked in the forehead by a horse last week and his skull crushed in. He is doing quite well at present.

Tracy Towner engaged Frank Glanfield to fix up his chicken coop and had a cat that was put in for windows, which was taken from the Presbyterian church. Justice Childs says that the colored windows will have the effects of making the chickens lay eggs. Washtenaw Times.

About 3,000 peach trees in this city have been ordered to be destroyed on account of the yellows this year. The yellows have been more prevalent in the orchards in or about the city than in other parts of the county, but a hard fight has been made to exterminate them. The yellows commissioners have been doing their full duty and the owners of the trees have usually shown a commendable zeal in assisting them in their efforts.—Ann Arbor Argus.

A beagle hound belonging to the Miles boys thought to try conclusions Tuesday with a passenger car. He ran between the two wheels of the car and coach and found it the worse for him. He was killed on hand, and in passing over him he proved to possess sufficiently solid texture of body to raise the big coach from the tracks. As the beagle was a kitchen dog forger he enjoyed but a limited popularity with the resident public.—Grass Lake News.

Workmen engaged in excavating at the Presbyterian church last week uncovered a live toad in the footing of the foundation of the old building. Superintendent Webster took the fellow home and thinks it will live to become the ancestors of a long posterity. The toad was nearly all head, its body and legs being shrunken. Mr. Webster says that as near as he can find out, the little fellow has spent more than 25 years in his narrow prison.—Ypsilanti Sentinel.

Claude Munlock, the thirteen-year-old boy, who went to Cuba from Camp Eaton with Col. Duffield's regiment, came home last week. He killed a sharpshooter in the battle of Santiago, for which Gen. Shafter personally rewarded him with several presents among which were shoes, a pair of trousers bearing the corporal stripes, a blanket and other useful articles. Claude was wounded in the forehead by a piece of shell and afterwards had a run of typhoid fever, but he is better now. Belleville is justly proud of her young hero.—Belleville correspondent.

An Ypsilanti lady has just received one of the "chain letters" sent out by a woman at Babylon, L. I., soliciting a contribution of ten cents from herself and the copying of the letter and sending to four of the recipient's friends asking the same favor. If running numbers to 100, the limit set, are sent out and responded to in each case, the lady informs us that the enormous sum of \$120,230,625,882,479,453,632,773,780,044,234,046,821,594,919,474,420,288,450,437.60 will be raised. Why? We understand the postoffice at Babylon has been swamped by the letters received and that the amount of contributions is already enormous. The chain letter is fit for one place only—the fire.—Ypsilanti Sentinel.

Ypsilanti is growing. Within a short time the Michigan Manufacturing Co. will employ from 15 to 50 more men, as they now are manufacturing gasoline engines. The Schaff Tag, Label & Box Co. is making a rimmed tag and has purchased \$4,000 worth of machinery. This means the employment of about 20 people more. The other manufacturing concern which will increase its working force by about a dozen mechanics is Samson's bicycle factory. He has built a large frame building and will manufacture wheels. The street car line has brought about a dozen men into the city who make their homes there. The Balling road, which will be built soon, will bring some more people to the city, and perhaps if a few more enterprises strike the town, Ypsilanti will outgrow its cow sheds.—Washtenaw Times.

B. Parker has a house and lot (good location) to exchange for a small farm of 80 acres.

F. Kapfhammer having discontinued doing business on credit will sell to the highest bidder all accounts remaining unpaid on Thursday, Sept. 1, 1898.

Fifteen school districts in the county during the month of July voted on the question of "Free text books" and "Uniform text books" for their schools and everyone of them voted down both propositions.

Elj Smith's hop yard south of this village is flourishing all right with promise of a good crop, but unless there is an improvement in present market prices Mr. Smith may omit gathering his hops this year.—Grass Lake News.

Marshal Niele made complaint against Jake Miller for keeping his saloon open on Sunday. Justice Kelly suspended sentence, this being the first complaint, and Miller paid costs. We understand that the marshal has orders to look after those who keep their places open after hours or on Sundays.

Prof. M. E. Cooley of the U. of M. now chief engineer of the Yosemite, may decide to remain in the navy. He holds the highest rank in his class and is assured of good pay with a good salary for life after retirement. He has regretted ever leaving the navy before and probably will not return to civil life.

Contractor Chapoton received a severe "calling down" at the hands of President Starkweather on Monday last for furnishing liquor to his men who were at work on the power house. Chapoton admitted that he had furnished about \$14 worth of liquor to his employees and Mr. Starkweather told him it was a disgrace to the community and that he would be punished if he persisted in it.—Plymouth Mail.

We get the following statement from H. B. Knowles, foreman of the census, her depot at Brooklyn. There are about one hundred acres planted. Farmers have commenced to deliver although not in large quantity. The average yield is estimated at one hundred bushels per acre. The quality is medium.

The prices for this local produce are: Potatoes 10 cents a bushel. A bushel being 54 pounds.—Brooklyn Exponent.

The details of the matter. The amount that the important steps of the minute will take place comes from a source which is usually reliable, is a serious effort to have the ratio of from 10 to 1 to 22 to 1, and it is that a willingness to assent to a proposition has been advanced by both the States and France. The establishment of a ratio of 22 to 1 would have the effect of increasing the present price, but it would, on the other hand, prevent forever the reformation ratio of 10 to 1. There is some reason to doubt the accuracy of the statement, but this doubt appears to largely from the fact that it is un-

MARVELOUS RESULTS.

WHAT A WELL KNOWN CITIZEN OF LANSING, MICH., SAYS OF DRAKE'S DYSPEPSIA CURE AND NERVE RESTORER.

"I have had dyspepsia for eighteen years. My troubles were indigestion, sour stomach, acid fermentation, palpitation of the heart, sleeplessness and terrible sick headache, which at times would not let me rest for business. I have had special treatment by seven physicians, and it seems as though I have tried nearly every known or supposed remedy, with some little relief, but would soon relapse to the old condition. I commenced using Drake's Dyspepsia Cure and Nerve Restorer a few weeks ago, have used about two and one-half boxes which have done me more real good than all the treatment and so called remedies I have ever taken. I would advise any person afflicted with stomach troubles, dyspepsia or nerve troubles, to try this treatment.

Respectfully,

March 22, 1898.

Drake's Dyspepsia Cure and Nerve Restorer is not prepared up by artificial means, but is a natural product of the earth, and it is a powerful purifier of the blood, cures pimples, blotches and boils, and gives a good complexion. Every bottle guaranteed. Sold at Glaxo and Stimson's drug store, 50 cents per bottle.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver is inactive, you have a bilious look; if your stomach is disordered, you have a dyspeptic look; if your kidneys are affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good Alternative and Tonic. Acts directly on the stomach, liver and kidneys, purifies the blood, cures pimples, blotches and boils, and gives a good complexion. Every bottle guaranteed. Sold at Glaxo and Stimson's drug store, 50 cents per bottle.

Music and Health.

Music, if we are to believe ancient historians, has produced some very extraordinary effects. The fierceness of Achilles was allayed by playing on the harp; Damon, with the same instrument, quieted wild and drunken youths; and Asclepiades, in a similar manner, brought back seditions multitudes to temper and reason. The Cypriotes and effeminate priests of Cybele were incited by music to eat their own flesh. Pindar addressed his harp thus: "Thou quencherest the raging thirst." Music is also reported to have been efficacious in removing dangerous diseases. Mirandula observes, in explanation of its being appropriated to such an end, that music moves the spirits to act upon the soul as medicine does the soul by the body. Theophrastus, in his essay on "Enthusiasm," reports many cures upon this principle. The Thebans used the pipe for the cure of many disorders, and Zenostrates is said to have cured several madmen. The bite of the tarantula is said to have been cured by music, and the Phrygian pipe was recommended by many of the ancient fathers as an antidote to scelerity. We could enumerate many other instances of the estimation, amounting as it would seem to palpable superstition, in which music was held among the ancients, but the above may be considered sufficient.

GREAT WHEAT YIELD

LARGEST HARVEST IN NATION'S HISTORY PROMISED.

Spring Output, It Is Stated, Will be 3,000,000,000 Bushels—Recent Rains Have Helped Corn—Capital of North Dakota Destroyed by Fire.

To Rejoice "Bumper Crop."

According to reports, the largest wheat crop in the history of the United States will be harvested within a fortnight. The winter wheat yield, which aggregates from 375,000,000 to 400,000,000 bushels, will be increased to the extent of nearly 300,000,000 bushels from the spring wheat region. The "bumper crop" of 1901 will be collected this year by 100,000,000 bushels from present indications. Railroad officials who have made extended trips through the spring wheat and corn growing States make optimistic reports. State crop reports received from Kansas and Michigan say: "A bumper crop is here." The corn crop is slightly below the average because of the wet June and dry July weather in the corn region. But the great bulk of wheat which this country will have for home consumption and export is regarded as more than sufficient to make up for the corn shortage. Furthermore, the large stock of corn on hand is thought to be more than enough to make up for the lack of production. Another feature of the general crop situation is the threatened reduction of the surplus of wheat exported from Russia, which will compel European markets to call for probably more than the average annual supply of 150,000,000 bushels from this country.

A comparison of the wheat yields in this country since 1890, with the yield of the present year, the spring wheat crop being estimated, is as follows:

The Kansas State crop report for August shows that the yield there will be the second largest on record, or 60,000,000 bushels. The Michigan crop report also received, says the wheat yield of the State will be the largest since 1892. The average yield will be the largest since 1892. The average yield per acre in Michigan is reported as 17.06 bushels, and the estimated yield is 10,500,000 bushels.

An organization, consisting of leading
wheelmen from every part of the state
has been perfected, whose object is to
construct a bicycle path from the south
Michigan line to the Straits of Mackinac.
The path as now proposed will run
through Houghton, Lansing, St. John,
Ithaca, Mt. Pleasant, then on a north-
westerly direction to Grand Traverse
Bay, and follow the shore of the lake to
the terminus, thereby striking the famous
summer resorts of northern Michigan
and giving wheelmen an elegant route
for summer outings.

"Well, my son," said a father to his son
who was on a wheel, "you'll find one in
the front end of the wheelbarrow, and
there is a big pile of coal ashes back of
the house that will have to be removed.
The handle bars are of white ash and are
adjustable so you can get any kind of a
hump on that, if you're fancy. It is reg-
ulated largely by the load you put on.
The bigger the load the more you have
to hump yourself. Be careful and don't
mar the enamel on the frame and keep
the ball bearings well oiled so they won't
put into the conch's back."

British Navy Salutes.
A salute in the British navy between
two ships of equal rank is made by fir-
ing an equal number of guns. If the
vessels are of unequal rank, the superior
fires the fewer rounds. A royal salute
consists of (1) in firing 21 great guns;
(2) in the officers lowering their sword
points and (3) in dipping the colors.

Phillips Brooks once said that "the
shortness of life is bound up with its
fullness. It is to him who is most ac-
tive, always thinking, feeling, working,
caring for people, that life seems short.
Strip a life empty and it will seem long
enough."

The finest complexion in the world
are said to be in the Bermudas. This is
accounted for by the fact that the in-
habitants live chiefly on onions.

JAPANESE MUSIC.
There's Art in It That Cannot Be Ap-
preciated by Occidentals.

To one who never heard it it is impos-
sible to give a definite idea of Japanese
music, and to one who hears it for the
first time it must either repel or strange-
ly attract, for its fantastic intervals and
fractional tones demand a totally new
sense of musical appreciation and call
into being a new set of musical sensa-
tions. It is as if a hitherto closed door
between soul and spirit had been sud-
denly thrown open. One feels that if
reincarnation be true, one might through
this door alone remember and recon-
struct those vanished existences. Only
in the tones of their own anguish, a
bird which has but three notes, have I
heard anything so occult.

Japanese music is like Japanese art,
which, with its unperceived spirit,
sense and symbolism, its strange method
of brush handling, might seem merely
grotesque at first, but which gradually
reveals to the initiated eye mysterious
within mysteries of artistic form and
perception, until presently one finds
oneself encompassed by a new art
world, where technique is subordinated
to feeling and whose finest effects are
obtained through the art of omission.

As, for instance, in the greatest paint-
ings of Fujiyama, the sacred mountain
itself is discovered to be the bare,
white, unadorned silk, as if color and
line could be—but the boundaries and
outer confines of pure isolated ideas. So
in Japanese music, its methods are not
ours, its climaxes come in crashes of sil-
ence, its sustained and soundless pauses,
the notes subordinated to a silent some-
thing, an inner sense, which, while re-
straining or even repressing sound, is
the very ecstasy of musical sensation.

In vain we attempted to analyze this
subtle effect, to reduce it to the terms
of our musical consciousness. It defied
and eluded us as spirit must always defy
and elude, sense, and we perforce con-
tented ourselves with following the
strange, rounded, isolated notes, sus-
taining ourselves breathlessly on its
wonderful pauses and yielding to the
irregular cadenced charm of the singer,
whose face, at first so unremarkable,
seemed to glow of a shining effulgence
as she thus interpreted to us an un-
known world.—Washington Star.

IN LEAGUE WITH MAGIC.

**Some Healers Who Did Good Missionary
Work at a Pump.**

Cobongula, the late king of the Mata-
bele of South Africa, was afraid of Rev.
B. Carnegie, an English missionary at
Hops Fountain, several miles from Bu-
lawaya. The Matabele warriors, on the
other hand, looked with suspicion on
the missionary and all his works, but
they knew better than to molest the
friend of their king.

Time after time in passing the mis-
sionary house they noticed a force pump at
work, supplying water for the family
and for irrigating the garden. Not un-
derstanding what it was for, their un-
tutored minds concluded it was some
sort of magic. It was "Intagati," or
bewitched, and they watched to see
how it was managed that they might
turn the white man's magic against
himself.

One moonlight night a party of picked
warriors repaired to the bank of the
stream where the pump was. On try-
ing it they were jubilant to find that
two men at either handle could do the
trick. Turn and turn about they kept
the pump going for two hours, deter-
mined that the missionary should have
all the magic he wanted and a balance
in hand.

Then, exhausted, they went home-
ward, ignorant of the fact that they
had filled the missionary's tank to over-
flowing. His good wife hoped that a
similar supply of "magic" might be
furnished every week.—New York
Mail and Express.

Artificial Cream.
A cooking teacher tells of a manufac-
tured cream that is worth knowing
about in emergencies, when the real
article is not to be had. It is made from
the whites of two eggs, beaten stiff,
with a tablespoonful of sugar and a tea-
spoonful of cornstarch. Half a cup of
cold milk is added by degrees and all
beaten together very stiff. A cup of
milk is heated over the fire, with a
small butter ball melted in it. This is
allowed to come just to the boiling
point, when it is removed to a cooler
part of the stove and the beaten egg
mixture added. When it has all thick-
ened very thickly to about the consist-
ency of thick cream, it is taken out and
strained and cooled. This may be used
as cream for serving with fruit or pre-
served fruits, but it is needless to add
it will not whip.—New York Post.

venge," "The Story of a Damaged
Love," "Risen or Back as From the
Dead," "New York Commercial, Ad-

What if Not Miracles?

The great Four-C Remedy is doing work wherever introduced as nearly miracu-

My aim is to convince the public of my sincerity and of the true merits of this remedy.

BENEFACTORS OF THE RACE.
Office of "KING'S BROTHERS' TRADING"
Kingsboro, Oke, Dec. 12, 1897.

GENTLEMEN:—I believe it my duty to write you
a line in regard to the beneficial effect of Phelps'
"Four C Remedy," so far as I am personally con-
cerned. A week ago last Thursday, I was seized
with a severe attack of grippe and in a short
time became so hoarse I could not speak above a
whisper. The night previous I had coughed
nearly through the night, just before retiring I took
a teaspoonful and slept the entire night as sweetly
as ever I did in my life, not coughing once. I was
entirely relieved before taking one bottle. Phelps'
Cough, Cold and Croup Cure should be in every
household in the land. I send you this wholly
unbiased and true testimony. I am a benefactor of
my race in giving it this absolute for some of the
worst ailments in the world.

Very Truly Yours,
C. J. NEASBY, Editor.

A MIRACLE.
Kansas City, Kansas, Dec. 24, '91.
Last Friday, Dec. 19, my attending physician
stated unless I was better by morning he could
do nothing for my relief. That night I com-
menced taking Phelps' "Four C" remedy, stopped
all other medicines. The first dose stopped my
cough; slept and rested well; a few more doses
removed all soreness from my lungs; the second
day was up and the third day I was out on the
road and today was up and purchasing holiday
goods.

condition when I commenced taking Phelps' "Four C"
remedy. The first dose relieved me of the worst of
my trouble, giving me the first night's rest I
had in weeks. Half the bottle cured me. I have
been without this wonderful remedy since. It
is a miracle. I am a benefactor of my race in
