Michigan's Industrial Condition.

A better industrial condition has not existed in Michigan for several years than at the present time, as indicated by the many reliable sources of information and comparison at our command. To still farther strengthen this statement, we fail to see anything that threatens to check the steady growing improvement that is being enjoyed and appreciated by all.

From no source are we receiving com. plaints of unemployed, which is in strong contrast with the blanks returned one year ago, while from many communities a short. age of help is reported.

There has been a most decided improvement of the wages of the more common laborers, which, as strange as it may seem, are among the first to reap the benefit of better times.

There has been a great and growing demand for female domestic help that could of labor has been felt in every community ing the most. The cause is not so easily discerned.

The labor canvass shows a decided improvement in every feature of the statistics gathered, including number employed, wages, homes and social conditions. This canvass is about two thirds completed.

The special canvass of the 80 counties in the State is now about completed-four more counties alone to hear from. The tabulations of this work shows that the number of morigages and the total amount of mortgages upon tarm property has been reduced thousands in number and millions in dollars as compared with 1896, while the rate of interest in a great majority of cases has been materially reduced.

The number and amount of mortgages upon town and city property has been in- Notice our Prices on creased, showing conclusively that property owners, merchants and manufacturers are feeling safer and stand ready to increase their risks and liabilities in extending their business or in making new ventures.

The crops of Michigan for 1898 were excellent in many countries and above the fair for all products of the farm, garden and orchard, and there has been a great activity in all kinds of stock, poultry and dairy raising The crops were all harvested early and a very large acreage of winter grain has been sown, according to reports from the agricultural department.

One of the most noteworthy increases has been in the flocks of sheep and pounds of wool, which have marketed good prices.

While the war scare in March and April brought matters to a temporary standstill for a few days in many quarters, the declation of war and the activities that soon followed, with the hurried movement of troops, started everything at a lively pace and greatly improved many lines of trade.

J. L. Cox. Commissioner of Labor. JOHN HOLBROOK, Chief Deputy.

An Editor's Daughter's Dolls.

The editor of Harper's Magazine, Mr Henry M. Alden, has a daughter who has made a collection of over one hundred dolls, each doll representing a different nation and being made in that country. The pollection is considered to be the most unique and finest of its kind in existence. Miss Alden is now to show the world her dolls, and explain them, and in the next issue of The Ladies' Home Journal she will show pictures of the first twenty. In following issues she will show the others.

The Coming Woman.

Who goes to the club while her husband attends the baby, as well as the good oldfashioned woman who looks after her home, will both at times get run down in health. They will be troubled with loss of appetite, headaches, sleeplessness, fainting or dizzy spells. The most wonderful remedy for these women is Electric Bitters. Thousands of sufferers from Lame Back and Weak Kidneys rise up and call it blessed. It is the medicine for women. Female complaints and Nervous troubles of all kinds are soon relieved by the use of Electric Bitters. Delicate women should keep this remedy on hand

INTELLIGENCE FROM ALL PARTS

WAR NEWS.

The war department has decided to send more troops to Puerto Rico at

Maj. Gen. Merritt, who commanded the American troops at Manila, arrived in Paris to appear before the peace commissioners.

Gen. Otis reports the number of deaths among American troops in the Philippines since July 1 at four officers and 83 privates.

The warships Baltimore and Petrel have been ordered to China to safeguard American interests and protect the life and property of American citizens in the event of an outbreak in the interior.

Twelve hundred Spanish troops sailed for Spain from San Juan and two transports were being loaded with men as rapidly as possible.

Gen. Wood proposes to inaugurate a system of municipal taxation in Santiago de Cuba.

Gen. Joseph Wheeler testified before the war investigating committee in Washington that there was no shortage of food or medicines for soldiers, and declared many reports to the contrary were false.

Spanish troops continue evacuating territory in Puerto Rico and the American troops take possession of it as soon as evacuated.

It is stated on authority that the various stories published relating to the work of the peace commission now In Paris are purely speculative.

The Spanish government has sanctioned the sale, to South American republics, of the Spanish gunboats lying in Cuban waters.

It is announced from Madrid that Admiral Cervera will be appointed a life senator.

Secretary Long has named the four new monitors contracted for as follows: The Connecticut, the Florida, the Arkansas and the Wyoming.

Maj. Gen. Fitzhugh Lee will go to Havana the latter part of this month to assume command of the United States military forces in the Cuban capital.

Admiral Howell has been relieved from the command of the North Atlantic squadron and his flagship, the San Francisco, has been ordered out of commission.

The transport Port Victor sailed from New York for Puerto Rico with a large quantity of commissary and quartermaster's stores.

Orders were received at Jacksonville, Pla., for the Seventh corps to prepare at once to go to Savannah, where it will be embarked for Cuba.

Before the war investigating committee Gen. Lee detailed the conditions prevailing at the camp at Jacksonville. He said the site was a good one, the supplies were plentiful, the men well taken care of, and he had no complaint to make of the war department's treatment of his command.

Gen. Calixto Garcia left Santiago de Cuba for the interior on his mission of disbanding the Cuban insurgents.

DOMESTIC.

United States Senator Quay and his son gave bail in Philadelphia on a charge of conspiracy to rob the state.

Over 1,000 persons, mostly farmers, have lost all their possessions in the forest fires in northern Wisconsin.

Later reports say that at least 100 lives were lost by the storm which devastated parts of the Georgia and Florida coasts and \$1,000,000 in financial loss was entailed.

Lloyd and Joseph Henderson and Frank Dorst were buried in a sandbank at Rockport, Mo., and were dead

when taken out. Rains have quenched the forest fires

around Cumberland, Wis. The schooner Sarah E. Palmer was

lost off Stone inlet, near Charleston, S. C., and her crew of eight was drowned.

The battleship Illinois was launched at Newport News, Va., in the presence of 30,000 people, and was christened by Miss Nancy Leiter, of Chicago.

William Ballard, Burt Puvis and John Gatlin were suffocated by gas in a well at Somerset, Kan.

With \$2,000,000 due to depositors the Tradesmen's national bank closed its doors in New York city.

It is announced that Hawaii will become a territory of the United States and will be allowed one representative in congress,

The unusual warm weather and abundant rains have started a second growth of almost everything in the berry line in southwestern Michigan. Samuel H. Diekerson shot and killed Mrs. Blanche Winship and killed himself in Cleveland, O. Jealousy was the cause.

The battleship Wisconsin is to be launched from the Union iron works in San Francisco on November 26.

Wright Smith (colored), whe attempted to assault the wife of Capt. James Morrison, was taken from jail at Jones Station, Md., by a mob and shot to death.

The triennial council of the Protestant Episcopal Church of the United States opened in Washington.

The vault of Molson's bank in Winnipeg, Man., was robbed by unknown parties of \$60,000. Damage exceeding \$500,000 was

caused by a fire which started in the Grange tobacco warehouse in Clarksville, Tenn. In a pacing mile race in St. Louis be-

tween Joe Patchen and John R. Gentry, Patchen won in two straight heats, the best time being 2:07. The trouble that has been brewing

between the Indians and United States officials culminated in a fight at Bog-Ah-Me-Ge-Shirk's point, 30 miles from Walker, Minn., in which four soldiers were killed and nine seriously wound-

Dr. W. F. McLean, aged 65, a prominent physician and mason, fell dead in the masonic lodgeroom in Elyria, O.

It is reported that the cotton crop in Georgia has been damaged to the extent of \$5,000,000 by the recent storm. An estimate of the amount of provisions on the Yukon river indicates

that there will be no need of a government relief expedition this winter. Mayor Jones, of Kansas City, Mo. has declared that the pawnbrokers

must go. The utmost demoralization prevails throughout Mississippi on account of the rapid spread of yellow fever.

N. L. Weatherby, commodore of the Troy Yacht club; Stephen W. Mallory, Mrs. Nellie Breslin and Miss Lizzie Savage were drowned in the Hudson river at Troy, N. Y., by the capsizing of a yacht.

Trains collided at Indianola, Neb., and Sol Brace, engineer; E. J. Walters, fireman, and William McCarl, brakeman, were killed.

Essie Jackson, aged 10 years, was stoned to death by boys at Shelbyville, Ind.

Maj. Wilkinson, six privates, one Indian policeman and 30 Indians were killed in the fight with the Indians at Bear island, Minn. Fighting was still in progress, and Gov. Clough telegraphed Secretary Alger asking him to authorize the use of the volunteer regiments just about to be disbanded for the protection of the frontier.

The Bankers' & Merchants' Mutual Fire Insurance company at Liberty, Mo., has assigned.

Senator John T. Morgan, of Alabama, called on the president to inform him of the success of the Hawaiian commission.

The Rock River Methodist conference in session in Chicago declared for equal lay representation by a vote of 200 to 6. The liabilities of the Tradesman's bank in New York, that failed recent-

ly, are now placed at \$3,800,000. In session in Grand Rapids, Mich., the American board of foreign missions, for the first time in the 90 years of its history, elected a woman, Margaret J. Evans, of Minnesota, as a member.

PERSONAL AND POLITICAL.

James L. High, one of the leading members of the Chicago bar and a lawyer of national reputation, died in Chicago, aged 54 years.

Henry George has declined to accept the nomination for governor of New York on the Chicago platform democrats' ticket and Henry McDonald has been named in his place.

Mrs. Sobrina Shoemaker celebrated her one hundred and third birthday at her home near Covington, Ind.

The Massachusetts democratic state convention at Worcester nominated a ticket headed by Alexander B. Bruce, of that city, for governor.

The democrats in the Fourth district of Wisconsin have nominated Joseph G. Donnelly, of Milwaukee, for congress.

The Colorado middle-of-the-road populists nominated Simon Guggen-

heim, of Denver, for governor. In the Georgia election Allen D. Candler (dem.) was elected governor over Hogan (pop.) by not less than 70,-

000 majority. The Texas prohibitionists have nominated D. P. Bailey, of Houston, for governor.

Mrs. Phoebe Clark Crilly, 102 years old, was buried in New York. Her

Ex-Judge Sidney Smith, an old-time member of the Cook county bar, and prominent on the bench and in politics, died suddenly in Chicago, aged 69 years.

In convention in Boston the Massachusetts republicans renominated Roger Wolcott for governor.

FOREIGN.

Xavier Lauxon was lynched by a mob at Lake Teslin, B. C., for murder. The insane wife of Joseph Clothier, a farmer at St. Severin, Quebec, killed her four children by cutting their

The Chinese legation in London officially contradicts the report of the emperor's death.

Queen Victoria and her daughter, the ex-Empress Frederick of Germany, had a narrow escape from death in a runaway at Balmoral, Scotland.

In a fire that nearly destroyed Hankow, China, 1,000 lives were probably

While urging disarmament of the nations and universal peace Russia is actively preparing for any possible war.

LATER.

George D. Saxton, the only brother of Mrs. William McKinley, was murdered in the street in Canton, O., and Mrs. Anna George, an intimate friend of the dead man, was under arrest, charged with having fired the fatal shots.

The sultan will withdraw the Turkish troops from Crete in accordance with the demands of the powers.

Oakey Hall, who was mayor of New York from 1868 to 1872, the closing vears of the Tweed regime, died suddenly in that city, aged 72 years.

Sherman Hoar, ex-congressman and United States district attorney, died in Concord, Mass., of typhoid fever.

There were 169 business failures in the United States in the seven days ended on the 7th, against 195 the week previous and 212 in the corresponding period of 1897.

John Burns, Michael Brennan and two unknown men met death in a burning freight car at Northampton, Mass. Gen. Greene, Col. Lee and Maj. Hersey testified before the war investigating committee in Washington that the vast

majority of complaints were exaggerated, if not without foundation. The late Thomas F. Bayard, of Delaware, left an estate valued at \$75,000. President McKinley notified the United States military commission at Puerto Rico that the island must be

evacuated by the Spanish forces on or before October 18. A flood in the Hoosac valley, New York, caused damage to buildings and railway tracks estimated at \$100,000. The volume of business throughout

the country continues very heavy. The government has informed Spain that the evacuation of Cuba by the Spanish army must be completed by December 1.

Admiral Sampson was reported to be extremely ill in Havana. Alfred C. Williams was hanged at

Salem, Mass., for the murder of John Gallo, an Italian farmer. The government has decided to make

Camp Wikoff a winter hospital camp, and will erect there the largest and best equipped hospital in the world. Large numbers of counterfeit \$100 silver certificates ere discovered in

San Francisco. Reports received by the officials of the war department in Washington from the Indian outbreak in Minnesota were of a reassuring character and

they now feel that the uprising may be regarded as over. Twenty buildings on the beach front in Atlantic City, N. J., occupied by 50 business establishments, were burned, the loss being \$200,000.

The American evacuation commissioners gave a banquet in Havana in honor of the Spanish commissioners.

Lord Salisbury sent an ultimatum to Paris giving France 24 hours to order Maj. Marchand out of Fashoda, in the Nile valley.

Joseph Simon (rep.), of Portland, was elected United States senator by the Oregon legislature.

Howard Clark and Mattie Mahoney were shot to death near Rockport, Ind., by officers from Owensboro, Ky., while resisting arrest for murder.

President and Mrs. McKinley arrived in Canton, O., to attend the funeral of George D. Saxton, who was murdered.

James J. Corbett issued a challenge to any man in the world to meet him in a contest of limited rounds or to a fin-

Emil and Frank Daniels and Joe Junkle were burned to death in a barn near Green Bay, Wis.

Trains colided in Omaha, Neb., and Harry Jones, of Chicago, was killed and ten other persons were seriously injured.

The Hotel Grand at Leeds, Ia., was destroyed by fire and two men were burned to death.

Yellow fever has nearly depopulated Jackson, Miss., and persons who remain there are on the varge of starvation. An official statement shows that in

the war with Spain 17 persons in the navy were killed and 67 wounded. Gen. Lawton, military commander of the department of Santiago, sailed

for New York on the transport Michigan. Gen. Wood will succeed him. The Sixth United States (immunes) mind was clear up to the time of her and the Forty-seventh New York sailed from New York for San Juan, Puerto Rico.

Admiral Miller, who raised the United States flag over Hawaii, returned to San Francisco on his flagship, the Philadel-

Jessie Chaney shot and killed his divorced wife at Garrett, Ind., and then took his own life.

The percentages of the baseball clubs in the National league for the week ended on the 9th were: Boston, .688; Baltimore, .650; Cincinnati, .611; Chicago, .564; Cleveland, .552; Philadelphia, .521; New York, .507; Pittsburgh, .486; Louisville, .452; Brooklyn, .370; Washington, .340; St. Louis, .262.

Mr. De Science-The officers of the Smithsonian institution are having the chatter of monkeys photographed, in the hope that in time their language may be understood, and it may be possible to converse with

Mrs. De Science—Isn't that grand? I hope they'll ask the monkeys, the very first thing, whether we are descended from them or not .- N. Y. Weekly.

One Man's Theory.

She-So you don't think women will ever receed as railway engineers? He—Of course not. "And why, pray?"
"They would lose too much time holding up their trains at crossings."—Chicago Evening News.

The Cost of Freeing Cuba.

The United States are certainly entitled to retain possession of the Philippine islands if the peace commissioners so decide, for the cost of the war runs far into the millions, and the end is not yet. The money paid out reaches an astonishing total. To free the stomach, liver, bowels and blood of disease, however, is not an expensive undertaking. A few dollars invested in Hostetter's Stomach Bitters will accomplish the task easily. The poor as well as the rich can afford it.

Not at All Afraid.

"They say," he suggested, just to see how she would take it, "that disease may be communicated by kisses.

I'm an immune," she replied, promptly. Of course her fearlessness was rewarded. -Chicago Post.

Dear Editor:-If you know of a solicitor or canvasser in your city or elsewhere, especially a man who has solicited for subscrip tions, insurance, nursery stock, books or tail oring, or a man who can sell goods, you will confer a favor by telling him to correspond with us; or if you will insert this notice in your paper and such parties will cut this noice out and mail to us, we may be able to furnish them a good position in their own and adjoining counties. Address
AMERICAN WOOLEN MILLS Co., Chicago.

Something Like That. The Comedian—I've just signed a contract and I've got a fresh supply of jokes.

The Tragedian—Ah! Then you're bound and gagged, eh?—Hiustrated American.

Many People Cannot Drink coffee at night. It spoils their sleep. You can drink Grain-O when you please and sleep like a top. For Grain-O does not stimulate; it nourishes, cheers and feeds. Yet it looks and tastes like the best coffee. For nervous persons, young people and children Grain-O is the perfect drink. Made from pure grains. Get a package from your grocer to-day. Try it in place of coffee. 15 and 25c.

"Did you enjoy the cathedrals abroad, Miss Shutter?" "No; the horrid things were too big for my camera."—Chicago Daily Record.

You Can Get Allen's Foot-Ease FREE. Write to-day to Allen S. Olmsted, Box 852, Le Roy, N. Y., for a FREE sample of Allen's Foot-Ease, a powder to shake into your shoes. It cures swollen, aching, tired feet. The greatest comfort discovery of the age. An instant relief for Corns and Bunions. All and shoe stores sell it. 25 cents.

ENGLAND has now reinstated nearly all the culprite in the Jameson raid. at Omdurman while acting as correspondent for the London Times, has been restored to his former position in the army, and Sir Graham Bowers, who, as colonial secretary at the Cape, came out badly from the investigation, has received an equally lucrative post at Mauritius.

It is interesting to recall the extraordinary longevity of the three founders of the German empire. William L was 91, Moltke was also 91 and Bismarck was 83. But, indeed, all the most illustrious Germans of the latter half of the century have been long lived. Ranke was 91, Curtius was 72, Mommsen was 81. The poet Glebel was 70, Wagner was 70, Liszt 75, and the present chancellor is 77.

A DEPARTMENT store bill passed by Denver aldermen will abolish these places. A store selling dry goods, clothing, furniture, crockery, millinery, shoes, athletic goods, books and pictures, very few departments for one of the big Denver stores, would have to pay a license of \$23,601 per annum, and each department added, no matter how insignificant, would be just \$5,000 added to the license amount of the

THE reports of the asylum at Cairo. Egypt, as to the native patients there exhibiting the nature of the mental disturbance associated with the excessive use of hasheesh are said to show some remarkable facts, it appearing that in 41 per cent. of all the male patients hasheesh alone, or in combination with alcohol, caused the mental symptoms, while this was the case with only seven per cent. of the fe-

GOLD is now extracted by mixing the ore with common salt and sulphuric acid, then adding a solution of permanganate of potash. Hydrochloric acid is formed, and chlorine is liberated to combine with the gold-forming chloride of gold. This new method as employed at Mt. Morgan, Queensland, and is said to have advantages over the amalgamation and cyánide processes. It is more searching than mercury, and can be applied to ores containing copper.

THE ex-queen of Servia lost some valuable diamonds while staying at Biarritz not long ago, and at once advertised in the local papers that if the gems were returned to her she would sell them and give the money to the poor. Within a few days the diamonds were returned, wrapped in a sheet of paper, across which was inscribed: "I wonder if the queen will keep her word." The queen did keep her word and the jewels were put into a lottery for the benefit of the poor.

THE word "ship" is masculine in French, Italian, Spanish and Portuguese, and possesses no sex in Teutonic and Scandinavian. Perhaps it would not be an error to trace the custom back to the Greeks, who called all ships by feminine names, probably out of deference to Athene, gooddess of the sea. But the sailor assigns no such reason. The ship is to him a veritable sweetheart. She possesses a waist, collars, stays, laces, bonnet, ties, ribbon, chains, watches and dozens of other feminine valuables.

SIGNOR ALESSIO CORADINA, an Italian pianist, is said to have invented a system of arranging piano chords so that they can not lose the tension imparted to them or get out of tune on account of the weather. The invention affects all the chords alike, and preserves their harmonic distances from each other in such a way that, though it may be possible for the whole pitch of a pianoforte to rise or to fall, it is impossible for any single note to get out of tune. The apparatus is simple, and is said to be applicable to all kinds of

A WELL-KNOWN American woman was doing the cathedral cities of England this summer. Throughout her tour she wore a tiny American flag pinned to the waist of her traveling dresses. A good many of the English people whom she met did not understand or pretended not to understand what the flag stood for: "You belong to some secret society, I perceive," said an English woman to whom she was introduced, pointing to the diminutive Starry Banner. "Yes," responded the American woman amiably, "there are 70,000,000 of us."

THE costliest metals are: Calcium, which is worth \$1,800 a pound. Cirium is a shade higher; its cost is \$160 an ounce, or \$1,920 per pound. These begin to look like fabulous prices, but they do not reach the highest point, chromium being \$200. Cobalt falls to about half the price of silver, while didymium, the metal isolated by Masander, is the same price as calcium. Then comes gallium, which, is worth \$3,250 an ounce. With this metal the highest price is reached, and it may Well be called the rarest and most precious of metals

Manney Ma The Bowsers' Troubles.

An Argument Not Sustained by Facts.

By M. QUAD.

The other night, after the Bowsers had come up from dinner, Mr. Bowser reached down into his coat-tail pocket and drew out a little book and sat down and began turning over the leaves. He, of course, wanted Mrs. Bowser to ask questions, and though she had a woman's curiosity, it was ten minutes before she carelessly queried:

"Been buying another book on cattle and their diseases?"

He looked up at her, but did not re-

"If it is work on poultry you already have half a dozen in the house."

This time he did not even look up. "Perhaps you've gone into golf?" she

said, after another pause. "You would probably call it golf, or cattle disease, or poultry," he finally replied.

"If it isn't any of these then what is it?"

"This book, Mrs. Bowser, is probably beyond your comprehension-away beyond it. You wouldn't understand it

"Oh! I wouldn't? You can understand a deep work and I can't?"

"Naturally. A man has the stronger, deeper mind, of course. The title of this work is: 'Nature's Diseases and Remedies-Control of the Body by the Mind.' Only a philosophical, analytical mind can grasp its contents."

"That's all nonsense," exclaimed Mrs.

"What! What's that!" he demanded. "You are too old to waste time on such bosh, Mr. Bowser."

"Nonsense, is it? Why, it's the plainest principles of philosophy in the

He looked up at her with a glint of pounded glass in his eyes, and was about to reply in kind, when the jumper jumped in on him, and he seized his jaw and yelled:

"Great Scotts to scatteration, but can't stand this! Get me some cam-

She got him some and after a time the pain eased up and he went to bed. He expected her to say something about "Control of the Body by the Mind," but she was waiting. She knew that he wouldn't be let off so easily, and could afford to give him a little time. She was just falling asleep when Mr. Bowser suddenly lifted his feet high in the air and uttered a whoop which set a neighbor's dog to barking, followed by the exclamation:

"Thunder and lightning, but I can't stand this!" "Mr. Bowser, are you asleep?" she

asked. "Asleep! No! I'm dead. Say, this infernal thing has come back on me!

Where's the camphor?" "On the bureau, dear; but it won't do you any good, you know."

"Oh-h-h-h! Jewhittaker! My stars and soul, but she's jumping my jaw live ten minutes!"

"Pshaw, Mr. Bowser-have some grit about you. What is a little tooth-

"Grit! Grit!" he shouted, as he jumped out of bed and danced around on one leg. "I've got more grit than seven families like yours rolled toyou going to lie there and see me drop dead?"

"You can stop it if you will. Just lie down and put your mind to work. Think of something else. Think of being out in the woods at a May festival -beautiful flowers-happy childrengreen-"

"Green nonsense-shut up!" he yelled. "Haven't we got any paregoric in the house?"

"Yes, but it's downstairs in the medi-

"DANCED AROUND ON ONE LEG.

world. The human body is but clay-, cine box. Why don't you experiment a control the body. I told you it was beyond your comprehension. What does | not in pain-" a woman know about philosophy?"

"Just as much as a man."

the mind can control the body?" "In some cases, perhaps," she slowly

"In all cases, Mrs. Bowser-in all cases. For instance, you stub your toe. It hurts like blazes. You let your mind turn to something else and the pain gradually ceases. That is mind over matter. I have experienced it a hundred different times."

"I don't believe it." the ignorant-ridicule and deny what they can't argue and discuss in a sensible manner. I have often wondered if

you really had a soul." "Don't worry yourself, Mr. Bowser! If I haven't got any soul I've got com-

mon sense." "Very well. It's no use to talk to a person brought up in a log house on the edge of a huckleberry marsh. I know that the mind can control the body. You deny it. I hope to furnish

you with proofs within a week." He was to furnish them that night. Two hours later, when they were about ready to go upstairs and he had been out bareheaded and in his slippers to see if the gate was shut, he suddenly gave a start and cried out:

"Gee-mi-me to Johnson!" "What's the matter?" asked Mrs.

clean out of my head. Whew! Yi! Hang it all!"

He sat down to hold his jaw and weave to and fro, and she said:

"Your tooth jumps. It hurts you. thing else and the pain ceases."

the soul immortal. The soul is the little, Mr. Bowser? If there is anything mind. The mind ought to be able to in your theory now is a good time totry it. If you can imagine that you are

"Paregoric-peppermint - laudanum -hot ashes-hot salt-cotton-batting!" "She can't. She wasn't born that he howled, as he pranced around and way. For instance, do you believe that | finally disappeared downstairs. He was gone about five minutes, and then came back on the jump with the box under his arm. He filled his mouth with pain killer, tried mustard, flew to peppermint, and after exhausting all the remedies he jumped up and down in the middle of the room and yelled: "Po-

Mrs. Bowser had to get up and go downstairs, and stir up the fire to make a warm poultice for his jaw, and fuss

"That's it! That's the usual way of around for an hour. Finally he grew easier. Then she said to him:

"Mr. Bowser, you brought home a book last night." "Never!"

"You brought home a book about control of the body by the mind."

"No, I didn't!" "In your argument you declared that the soul was the mind. and that the mind had control of the body. You said that if any one stubbed-"

"Get into bed and keep still!" "No, sir. You stub your toe. It hurts. You let your mind turn to

some-" "I never said it."

"Mr. Bowser, what has eased your toothache-faith, imagination, or a hot

poultice?" "Who's talking about toothache, Mrs. Bowser? You get into bed and go to sleep, and in the morning I'll have a "That old hollow tooth tried to jump long talk with you. We don't seem to be suited to each other, and the matter can probably be arranged to our mutual

satisfaction and without publicity." Next morning he hurried downstairs and got hold of the book first, and she You just let your mind turn to some- afterwards found some of the leaves scattered in the back yard.

MICHIGAN STATE NEWS.

Industrial Conditions Good. Labor Commissioner Cox, in a report based on trustworthy advices, says:

"Industrial conditions in Michigan are vastly improved. Men are employed and wages have been increased. In a numher of communities a shortage of hands is reported. A canvass of the 82 counties re-veals the fact that thousands of farm mortgages have been canceled. However, mortgages upon town and city property have increased, indicating that merchants and manufacturers are ready to increase their risks to extend business or make new ventures. State factory inspectors report a large increase in the amounts invested in manufacturing businesses. There has also been an improvement in all lines of transportation, but a reduction in the forces of express and railroad companies. Express companies have consolidated and the railroad companies have added improved labor-saving devices to their systems. New discoveries in copper and iron in the upper peninsula have resulted in a scarcity of labor there."

Polsons Her Children.

Mrs. S. L. Williams poisoned two of her children and cut her own throat in Morrice. A neighbor found the woman's two-year-old boy on the floor, crying, and her sixright out of its socket! I've got to months' baby dying. Mrs. Williams have something done for me or I won't | declared she had given them both poison, and that the children would soon be in Heaven. The neighbor went for help. When she returned Mrs. Williams was in the cellar and had cut her own throat. The jugular vein was not severed, and her life may be saved. The baby died; the older child's condition is precarious. The woman has gether, but this is awful-awful! Are lately been carried away by religious enthusiasm.

Hypnotism Wrecks a Mind.

John Kuranon, aged nine years, of Hancock, was placed in the county jail hepelessly insane. A neighbor's boy, twice young Kuranon's age, repeatedly hypnotized the lad, who lost his mind in consequence, and is now subject to violent dementia. Physicians view the case with great interest, not only because of the hypnotism causing insanity, but by reason of the tender years of the victim.

Health in Michigan.

Reports to the state board of health from 74 observers in various portions of the state for the week ended on October 1 indicate that cholera infantum and inflammation of the kidneys increased in area of prevalence. Consumption was reported at 181 places, measles at 7, typhoid fever at 102, scarlet fever at 29, diphtheria at 22, and whooping cough at 11 places.

Fell 450 Feet.

Andrew Kulberg, while helping take placed near the surface of No. 2 shaft at the Brotherton mine in Wakefield, lost his balance and fell to the seventh level, a distance of 450 feet. His body was badly mangled. Kulberg leaves a wife and nine children, the oldest only 15 years of age.

State Fair a Success.

The forty-ninth annual state fair, financially and otherwise. President Ball says it was the finest-fair, in point of display, which the association has ever given. Every department was crowded, and the display of live stock, poultry and farm implements was larger than ever before.

Aequitted of Murder.

Jacob Schwenk, a saloon keeper in New Buffalo, on trial for the murder of Henry Devinne, was found not guilty. Devinne, while under the influence of liquor, was forcibly ejected from Schwenk's place of business, and in the scuffle received a scalp wound which resulted in his death.

News Items Briefly Told.

The state law compelling boys and girls under 16 years of age to go to school is being generally enforced.

Gov. Pingree has appointed R. D. Bailey, of Gaylord, county agent of the state board of corrections and charities for Otsego county.

The bridge soon to be built across Sturgeon river at Iron Mountain by the Wisconsin & Michigan Railway company will cost \$30,000.

City Treasurer Harry Lardner has begun suit against 80 property owners at Niles for failure to pay for sidewalks constructed by the city.

The Blair statue commission and the board of state auditors met in Lansing and arranged a programme for the un-

veiling of the monument October 12. The Saginaw and Howell street fairs were a great success.

Unusual warm weather and abundant rains started a second growth of almost everything in the berry line in

southwestern Michigan. S. H. Oaks, of Hudson, was trampled upon by a pair of vicious horses and died of his injuries.

The dismembered body of a man found on the Lake Shore tracks near Whiting, Ind., was identified as Charles Feige, aged 56, of Saginaw.

A reliable estimate places the returns each week from Benton Harbor and St. Joseph ports at not less than \$80,000 from peaches alone.

Fred Clearwater, proprietor of the Lake mills at Mosherville, shot an American eagle in his park which measured five feet three inches from tip to tip of wings. This is the first bird of the kind ever seen there.

Why let your neighbors thow it? And why give them a chance to guess you are even five or ten years more?

Better give them good reasons for guessing the other way. It is very easy; for nothing tells of age so quickly as gray hair.

is a youth-renewer. It hides the age under a luxuriant growth of hair the

color of youth.

It never fails to restore color to gray hair. It will stop the hair from coming out also.

It feeds the hair bulbs. Thin hair becomes thick hair, and short hair becomes long It cleanses the scalp; re-

moves all dandruff, and prevents its formation. We have a book on the Hair which we will gladly

send you.

If you do not obtain all the benefits you expected from the use of the Vigor. write the doctor about it. Probably there is some difficulty with your general system which may be easily removed. Address.

Dr. J. C. Ayer, Lowell, Mass.

Write and tell some measurements for timber to be placed near the surface of No. 2 shaft afford to pay The forty-ninth annual state fair, held in Grand Rapids, was a success for an Organ. We'll attend to the rest.

Michigan Crop Report.

Lansing, Oct. 8, 1898.

The number of acres of growing wheat in the State last Spring as returned by supeople hustle in shipping late fruit and pervisors in the Farm Statistics was 1.730, vegetables, as fall is passing away fast and 224; the average yield per acre, as found by threshing, is 19.12 bushels; and the total yield in the State 83.083,261 bushels. The total yield is found by multiplying the number of acres in each county by the average per acre in the same county and foot ing the products. The average per acre in the southern counties is 19.86 bushels; in the central, 19 60 bushels, and in the nor la ern, 15.02 bushels. These averages are based upon a return of 164,183 acres, threshed in the southern counties; more than 28,000 in the central counties, and more than 10,000 in the northern counties. The average per acre in the State is 0.52 bushels, and in the southern counties 0 55 bushels less than the September estimates

It should perhaps be pointed out that the returns that will be made by supervisors next spring may show that the acreage ac-Quite a few papers-daily and weekly- tually harvested this year was less the above stated. The number of "acres harvested," as reported by supervisors the next spring after the harvest, is nearly always less than the "acres on the ground's reported in the Spring preceding the har-

No further estimate of the wheat crop of the present year will be made by this de-

The total number of bushels of wheat reported marketed by farmers since the September report was published is 2,154,-884, and in the two months-August and September-8,867,281. This is 232,249 bushels more than reported marketed in the same months last year.

Oats are estimated to yield \$1.75 bushels. per acre, barley 21.79 bushels, and corn 58 bushels of ears. The estimate for oats is from threshers' records. The estimates indicate that these are all full average crops. Corn was very generally harvested without damage by frost.

Potatoes are estimated to yield 68 per crops. The estimate for potatoes indicates Diseases, Insomnia, Nervousness, which unfits a very general belief that the crop has been badly damaged by drouth.

The percentages for winter apples are: Southern counties, 47; central, 77; northern, 72, and State, 56. One year ago winter apples were estimated at 11 per cent. in the southern counties, and 18 per cent. in the State.

The percentages for late peaches are :-Southern counties 82, central 78, northern 92, and State 81. One year ago the figures for southern counties were 8, and Sfate 12.

Gen. Bacon Thinks the Trouble Is Now Ended.

General Outbreak la Not Feared-Complete List of Wednesday's Fatalities-Origin of the Indian Troubles.

Washington, Oct. 8 .- Reports received by the officials of the war and interior departments from the In-dian outbreak are of a reassuring character and they now feel that the uprising may be regarded as over. Gen. Bacon, who has charge of affairs in the department of which he is in command, will remain at Walker for the present and this, it is hoped, will have a quieting effect on the citizens of the that they were in danger from the redskins. Steps will be taken to have an investigation made with a view to fixing the responsibility among the In- mostly by negroes. dians for their stand against the government. The following is Gen. Bacon's latest dispatch:

Walker, Minn., via Brainerd, Oct. 7 .-Arrived here at noon with my detachment in good condition, the killed and badly wounded having been shipped to Fort Snelling this morning. The Indians have been badly whipped and left the country adjacent to the fight. En route here other Chippewa bands displayed white flags along the lake shore. Much talk here of general Indian outbreak. Will ascertain facts and report later. Find Col. Harbach at this place with 200 men. Third infantry. Will remain myself and keep troops here awaiting developments. Regret exaggerated rumors published resulting from my inability to communicate. Have been in no danger of massacre and need no re-

General Outbreak Not Feared.

The following reassuring dispatch was received Friday by Indian Commissioner Jones from Gus H. Beaulieu, a well-known Chippewa Indian, who has transacted considerable business for that band in Washington. "Walker, Minn., Oct. 7 .- Not more than

25 or 30 Indians engaged in the outbreak.

THE LIST GROWING.

Later Reports from the Storm-Strick en Districts of Georgia Increase the Fatalities.

Savannah, Ga., Oct. 6 .- News from the storm stricken district along the coast is coming in gradually, and it is probable that a hundred lives have been lost. News by way of a boat which has just arrived is that 50 people were drowned at Fernandina.

From Campbell island, inhabited by about 40 colored people, it is reported that all but three were drowned. At Brunswick four people lost their lives, and at Jesup, 100 miles from the coast, one man was killed in a building blown down by the storm.

Savannah, Ga., Oct. 6 .- The Morning News' correspondent at Brunswick wires this bare statement: "Martin Anderson, master of the steamer surrounding country who have felt Hesse, from Darien, Ga., reports that 80 bodies have been found on Butler's island. This runs up the total deaths to 100." Butler's island was populated

> Atlanta, Ga., Oct. 6 .- Reports from various points of Georgia indicate that the storm of Sunday, Monday and Tuesday was disastrous to the cotton crop, and the damage sustained is believed to have reached \$5,000,000. The continued wind and the driving rain beat out the open cotton and ruined it.

Savannah, Ga., Oct. 6 .- The Morning News correspondent at Hinesville, the capital of Liberty county, says that an unconfirmed report has reached Riceboro, near there, that Saint Catharine island was swept by Sunday's storm and that Superintendent F. M. Wetherington and family were lost. The report, the correspondent says, is unconfirmed but fairly reliable. It reached Riceboro by a negro who claims to have been the only person on the island who escaped with his life. He climbed a tree and waited for the tide to recede. Telegraph and telephone systems are still prostrated and connections with coast towns are still cut off. Information is only obtainGOVERNOR GETS MAD.

Minnesota Executive Sends a Tart Message to Gen. Corbin.

He Declares the Government May Keep Its Soldiers and He Will Protect Settlers from the Indians with the Militia.

Minneapolis, Minn., Oct. 10 .- The government has notified Gov. Clough that it has revoked the order putting the companies of the Fourteenth Minnesota volunteers at Duluth and at St. Paul under his orders. He had all preparations made to send the Duluth companies to the front at once to protect the settlers, and was arranging to mobilize the remaining companies at St. Paul. He supposes that the revocation is due to Gen. Bacon's message saying that the trouble was over and that there was no more danger. He added:

"I shall pay no more attention to the war department. If necessary I will issue a call for volunteers, arm them with such guns as I can pick up and let the government go to the devil. I am tired of doing business with Washington. There is too much red tar about it. Orders are issued one minute and revoked the next. I am not an alarmist, but it is the safe thing to be prepared. It will reassure the settlers and perhaps prevent an outbreak."

W. F. Street wires the governor from Bemidji, west of Cass Lake:

"While I do not regard the situation here as alarming, our people are much disturbed. If you could send village authorities 200 stands of arms they would be gratefully received. Red Lake Indians reported irritable."

Gov. Clough's Dispatch. St. Paul, Minn., Oct. 10. - The fol-

lowing telegram was sent by Gov. Clough Saturday:

"H. C. Corbin, Adjutant General, Washington: No one claims that reenforcements were needed at Walker. I have not been asked for assistance from that quarter, though I do not think that Gen. Bacon has won the victory he claims. The people generally say so. The Indians claim that they have won, and that is my opinion. The people all along the Fosston branch of the Great Northern railroad are very much alarmed and are asking for assistance for the protection asked of the war department. The soldiers are here and are willing and ready to go, but as you have revoked your order of yesterday, you can do what you like with your soldiers. The state of Minnesota will try and get along without any assistance from the department in the future.

"M. CLOUGH, Governor." National Guard Sent.

Minneapolis, Minn., Oct. 10 .- Batteries A and B, Minnesota national guard, left at eight o'clock in the morning for Deer river and Cass lake via Duluth. They are in command of Maj. E. C. Libbey. One battery is from this city and one from St. Paul. They are all that is left of the state militia, the infantry companies having all been mustered into the volunteer service. They are equipped with a Gatling and a field gun for each battery, and each man carries a saber and revol-

Government Troops to Be Used. St. Paul, Minn., Oct. 10.-Gen. Bacon's orders for the movement of more troops to the vicinity of Leech lake took 90 men from Fort Snelling on a special train Saturday night. Two companies of the Fourteenth Minnesota volunteers are held at Duluth ready to start for points along the Fosston line of the Great Northern, where the two batteries of militia artillerymen have preceded them, and another company of the Fournteenth, made up of 50 men from company F, of Merriam Park, and 50 from the guard stationed in charge of Camp Van Duzee, where the Fourtion is gone, and all the inmates are | teenth is to be mustered out, has been ordered to take the nine o'clock train this morning for points along that slept for the night in the barn. One same road. These last will take with of the boys was awakened by the heat them the equipment of the two Duluth companies, which was left at Camp Van Duzee when the men were furloughed. Settlers Seek Shelter.

St. Paul, Minn., Oct. 10 .- A Pioneer Press special from Ferris, Minn., a small town north of Leech Lake, says: A report reached here late Sunday evening of the killing of a white man suffering and discontent, but all said near Bear island during the day. Setthat the vast majority of complaints | tlers living near the Indian reservation were exaggerated, if not without are seeking shelter in towns along the foundation. They agreed in saying railroad. A large band of Indians of that no army was ever so abundantly about 150 are reported camped within two miles north of this town. Armed citizens are guarding the town expecting an attack. Indians professing to be friendly were at Graeland, 11/2 miles west of here, Sunday evening, trying to purchase ammunition.

Plans of the Redskins.

Minneapolis, Minn., Oct. 10 .- A correspondent of the Tribune at Walker says he was told by a man who says his informant is a hostile Pillager Indian, one who was in Wednesday's battle and who sat in all the councils of the Pillagers, that the Indians have sworn to an agreement to accomplish, if possibie, the following: They will attempt in a few days to drive from the reservation all of the troops already there. They will, if they are sucessful in the above, not allow any United States authorities or United States troops thereafter to land upon the reservation. If troops land upon a point hot inhabited by the hostile Indians an attempt will be made to drive them off as soon as possible. The man who gave this information is believed to be thoroughly reliable. As soon as the correspondent had spoken with him he asked that he speak with Gen. Bacon, which he did, and for some time he and the general were in conference.

LOSSES OF THE NAVY.

During the Late War Seventeen Sailors Were Killed and Sixty-Seven Wounded.

Washington, Oct. 10 .- Seventeen sailors killed and 67 wounded was the total loss suffered by the United States navy during the war. The figures have just been compiled at the navy department. In Dewey's great fight in Ma-nila bay not a man was killed and every one of the nine men wounded returned to duty. In the battle of July 3 off Santiago, one man was killed and there were 11 wounded, all returning to duty. In the attack upon the forts at the entrance to Santiago, June 22, one sailor was killed and 11 wounded. of whom only seven were able to return to duty. The heaviest loss of the navy was at Guantanamo. There were 22 casualties in that 100-hour fight and first-class, 73 per cent. as good or medium, of the list six marines were killed. Of while only 24 per cent. are considered bad or worthless, showing in the compiler worthless. the wounded nine returned to duty.

In the battle with the forts and gunboats off Cienfuegos the list aggregated 11 wounded and two killed. One man continues under treatment. The fierce battle between the torpedo boat Winslow and revenue cutter Hudson with the Spanish land batteries and artillery forces at Cardenas resulted in five deaths. The wounded afterwards returned to duty. In the bombardment of San Juan the casualties numbered eight with one man killed. One of the wounded men was invalided home, while six returned to duty.

There were four other casualties occurring iu as many separate engagements, and that completes the list of This Method of Fighting Their For naval losses. Of the 67 men wounded in the war, 54 were returned to duty, one died of wounds, six were invalided from the service and six continue under treatment. Considering results obtained, this list is said to be the most remarkable in the naval history of the intest Newallia

INDIAN SCHOOLS

Commissioner Jones Tells of the Beneficent Effect of Education on a Race of Savages.

Washington, Oct. 10.—The annual report of Commissioner of Indian Affairs William A. Jones shows a general steady advance of Condition o ment in the condition of the "nation" wards." Education, the greatest factor in solving the status of the Indians, is being pushed forward in the service and now there are 147 well-equipped boarding schools, and an equal number of daschools engaged in the education of n 952 pupils. The average attendance and enrollment has steadily increased for past 21 years. Vigorous inquiries made commissioners during the year show significantly that 89 per cent. of these pupils who have gone through the schools and returned to their homes are reported to h n good physical condition, contrary to the frequent suggestion that the change might break a naturally strong and vigorous constitution. Of the pupils attending school three per cent. are reported as excellent or er worthless, showing in the commission er's judgment, the value of a system, which can in a generation develop from savages 76 per cent. of good average men and women, Agents are now being urged to greater exertions to fill the schools to the limit of their capacity by placing therein every child of school age on the reservation whose physical condition will warrant school confinement, and future develop-ments, Mr. Jones predicts, will undoubted. ly emphasize that a regulation enforcing compulsory attendance upon the schools must be enacted. The placing of Indian children in the public schools of ...e country for the purpose of coeducation of the races does not appear to meet with much success, but a fuller test of its value and practicability is to be made this year.

PASSING OF THE BOYCOTT.

Will Be Abandoned by the Laboring Men.

Chicago, Oct. 10.—Trades unionistsin Chicago and other large cities have inaugurated an active agitation in favor of devising some more effective method of fighting labor crushers than the boycott. Members of the local Federation of Labor and other central organizations say that the matter will be carefully considered and a change advocated at the annual convention of the American Federation of Labor in De-Green Bay, Wis., Oct. 10 .- Three boys, cember at Denver. Many local leaders

WHILE HIS HAND IS IN.

U. S.—Now, I've got to give you a dressing down, have I!

this city. The Junkle boy was visiting particular product or establishment, with his two cousins, and four boys of the fire and jumped from a window, thus saving his life, but the portion of the barn where the others were sleeping was then in flames and they could not be rescued.

Their charred remains were recovered from the ruins Saturday morning. The origin of the fire is unknown. Three horses and a large amount of farm product and implements were also lost.

SPAIN YIELDS.

Secretary Ojeda Says She Accepts Every Proposition Made by the American Envoys.

Paris, Oct. 10.-Secretary Ojeda, of the Spanish peace commission, said Saturday:

"Spain has accepted—as she could not help doing-all the propositions which have come from the American side so far. But the commission is still discussing terms N question or proposition in regard to the Philippines has yet been received by us. The proposals and the replies of both countries have been exchanged with smoothness up to this time. The American propositions have contained nothing that surprised us or gave the least pretext for a

In Memory of Parnell.

Dublin, Oct. 10.-Most of the citizens of Dublin wore the ivy leaf Sunday, it being the anniversary of the death of Charles Stewart Parnell. Thousands participated in the ceremonies at Glasnevin cemetery, the lord mayor and corporation and delegates from the municipality and all the chief towns of Ireland, in full regalia, taking part in the procession. This was headed by a floral car, bearing a bust of Parnell, almost buried in wreaths and garlands for the grave. The ceremony of depositing the wreaths upon the grave was highly impressive, though simple.

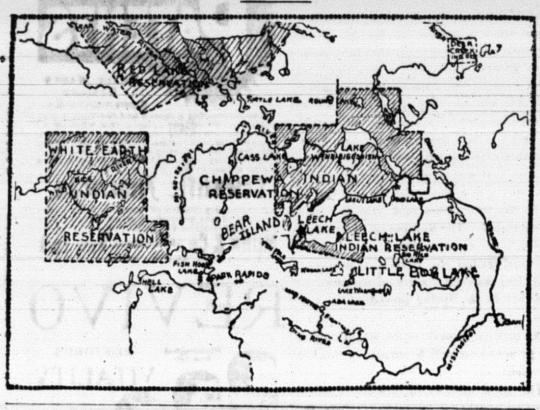

they say, it is observed strictly only by men whose unions are directly affected and by the more ardent unionists of other crafts. In addition, they say, the public looks on the boycott with disfavor, and as it depends for its success wholly on unselfishness in labor's ranks, it has no bright future. Officials of local and state bodies deglare the union label is a far more effective means of propagating the use of union products. Many of the leaders predict that the beginning of next year will see every boycott in the United States declared off and a struggle of more pacific kind commenced to spread the sale of union-made goods.

Troops Ordered to Paris. Paris, Oct. 10 .- The government has issued special orders to the garrisons of numerous towns near the capital to send immediately to Paris 500 infantry each. The Journal Des Debats declares that these reenforcements will amount to 10,000 men. The paper expresses the hope that the country is not on the eve of a revolution. All the troops will be supplied with two days' rations and 60 rounds of ball cartridges.

lowa Campaign Opened. Des Moines, Ia., Oct. 10 .- The republican campaign was opened in Iowa Saturday by large meetings at various points addressed by the leading speak ers of the party. Senator Allison spoke at Emmettsburg. Senator Allison talked on the money question, taking an unequivocal stand for the gold standard, and all the speakers discussed national issues from much the same standpoint.

Drummond Plant Sold. St. Louis, Oct. 10 .- The much-rumored sale of the Drummond Tobacco company's plant to the American Tobacco company was consummated at six o'clock Saturday evening. The cash price was \$3,457,500.

SCENE OF THE INDIAN TROUBLES IN MINNESOTA.

Chief Caywuche Waybinung and Macheguhbow, both of Bear island, and Wahbununnee, of Leech Lake village, doing all in their power to suppress the outbreak. Chief Flatmouth arrived at Leech Lake village to-day with a large number of followers and is strongly opposing the outbreak. Indians coming into Leech Lake rapidly and registering their names in overseer's office with the intention of remaining at the village untl trouble has subsided. White Earth, Red Lake and Mille Lac Indians not affected. Think there will be no general uprising."

List of Fatalities.

A complete list of those killed and wounded in Wednesday's battle is as follows: KILLED-Maj. Milville Wilkinson, Sergt. William Butler, Privates Lowe, Olmstead, Wallenstocker, Zebell.

WOUNDED-E. E. Antonello, shot in leg Levy Ayers, sergeant, shot in neck; Richard Boucher, shot through the shoulder; Edward Brown, shot in face; John Daily, shot in thigh; Charles Francis; Private Godfrey, shot through the shoulder: Charles Jelsen, Albert Schuyler; Charles Turner, shot through the shoulder; George Wicker, shot in leg; Edward Harris, city marshal of Walker; Joseph Oscar, pilot of steamer Jennie; T. J. Sheehan, deputy United States marshal; Tinker, Indian inspector; Henry Walters, engineer of tug

How Maj. Wilkinson Was Killed. Maj Wilkinson was killed Wednesday afternoon. He received a flesh wound in the leg and retired to have it dressed by Dr. Harris, the surgeon with the party. He then reported to Gen. Bacon on the firing line as ready for duty, and while talking with Gen. Bacon an Indian sharpshooter picked him out. Maj. Wilkinson was shot through the body from side to side and died almost instantly.

[The trouble with the Bear Island Indians, who, to distinguish them from the Chippewas, are called "Pillagers," dates from early last spring. Since the end of the logging season in March these red men have been nursing their discontent over the workings of the "dead and down" timber bill of 1897. The discontent came to a head when two mixed-blood deputy marshals, unpopular because they had managed last winter to get a lion's share of the "dead and timber, tried to exercise their authority in making arrests. On September 17 a band of 20 Pillagers took away two prisoners from Deputy Marshal Morrison by force. These men are all now wanted on bench warrants for contempt of court, and it is these men whom the Indians refuse to surrender.]

Heavy Snowstorm.

able by messengers, who can hardly

pass the country roads.

Macon, Ga., Oct. 5 .- Reports from all around Brunswick are that from 30 to 100 lives were lost by Sunday's storm, which devastated parts of the Georgia and Florida coasts, and at least \$1,000,000 in financial loss was sustained. The national quarantine stathought to be lost.

The War Investigation. Washington, Oct. 8 .-- Three wit-

nesses were before the war investigating commission Friday, Gen. Greene, who participated in the battle at Manila; Col. Lee, chief quartermaster at Camp Thomas, and Maj. Hersey, who was for a time in command of the Rooseveltrough riders. Each admitted the possibility of individual cases of and luxuriously supplied as was the American army in the Spanish war.

Liabilities of \$3,800,000.

New York, Oct. 7 .- National Bank Examiner Kimball had not finished his investigation of the affairs of the Trade'smen's bank Thursday, but he had gone far enough into the books of the concern to show him that the liabilities would not be less than \$3,800,-000, and that they would probably reach \$4,000,000. This is more than five times the amount of the bank's capital-\$750,000-on which it is estimated that President James Mac-Naughton and those associated with him were doing a business of at least \$300,000 a day.

Discredited at Washington.

[Special Correspondence.]

Ann Arbor, Mich., Oct 5 .- Work at the University of Michigan for the scademic year of '98-99 began in all departments except the law last week. Lectures and recitations in that department began Monday.

The first few days were lively ones about the campus. The new students who did not know "the ropes" were running around in all directions and for all imaginable purposes. One of the greenest of the freshman inquired in which building was the campus. Another burried over to the library building at 7:30 in the morning to see the president ring the chimes.

"Freshies' " Experience.

In the medical department "freshie" was made to furnish considerable amusement. Not knowing that the front and best seats in the amphitheater belonged by tradition to the senjors he in several cases got into them. The fun began, when, after the room was well crowded, "freshie" was lifted into the air, and before he had had time to realize what was going on, was passed up the row of students and dropped over the back of the last seat. The "Rush" Postponed.

The usual freshman-sophomore rush which is generally held at the close of the first week of school was prevented by the heavy rains. Probably an adjourned rush will be held some time next week.

A Time of Trial.

The opening of school is a time of trial for the good housewives of Ann Arbor as well as the freshmen. For over a week now they have had to spend a large portion of their time answering the doorbell and informing students that their rooms rent for two dollars or four dollars as the case may be, a week; that the house is and contains a bathroom.

Harvest for Draymen.

The drayman and hack drivers are another class that have had but little leisure for the last week and a half. Their teams have been hurrying up and down the streets trying to deliver a dozen or so of trunks within five minstudents, this is their time of harvest, and they generally make the most of it.

Outlandish Questions.

great importance.

The Future Is Bright.

But despite the blunders, the annoyaces and the trials of the first week, ery little permanent damage is done nd these very verdant freshman, in a w years will be sent out from the niversity and become distinguished wyers, doctors, business men, misonaries and statesmen.

Extensive Improvements.

Over \$110,000 is the cost of the rmanent improvements being made the university this year. The sevralitems which make up this amount re: Reconstruction of the law buildg. \$65,000; addition to bookroom of brary, \$20,000; new roof and dome on niversity hall, \$12,000; new laboraories in the chemical building, \$3,000; dition to mechanical laboratory, ,500; sun rooms at the hospital, \$1,-0; laundry and sterilizer for hospital, 400; additions to steam heating lant, \$1,500; general repairs, \$4,000.

R. H. ELLSWORTH. For the Needy.

Mrs, C. Larned Williams, secretary the Detroit branch of the Needleork Guild, reports a collection of ,000 new garments by the society aring the past eight months for the edy Cubans and the soldiers and illors of the United States army and avy. This was an "emergency collecon," and must not be confounded ith the annual one.

A New Man.

The monthly meeting of the state oard of agriculture was held at Grand apids, and the committee on experient station was directed to appoint ccessor to Hon. T. T. Lyon, who and ill health.

THOUSANDS ARE STARVING.

People in the Yellow Fever Districts of the South in a Sorry Plight.

Jackson, Miss., Oct. 10.-With every hour the panic in Mississippi continues and all who can are fleeing from the dread yellow fever. Nine carloads of fugitives passed through the city Saturday night, and every train for the east or north is crowded with those who have means sufficient to warrant such a step. With the great majority of citizens, however, flight is impossible, and among these thousands are already in the direst need. Mercantile houses are closed, manufacturing gun. plants shut down and all business abandoned, throwing employes out of work. which means in most cases actual starvation. Few of the wage-earning classes are thrifty, and the loss of salaries leaves them dependent upon publie charity for food. It is estimated that over 6,000 are suffering for the necessaries of life, and this number does not include thousands within reach of private charities.

The area of the fever has so enlarged that infection may be said to be general throughout the state, as there is not a section that has not been visited. Three interstate railroads have practically suspended business, and several short lines are on the verge of a temporary shutdown, due to the lack of trade. Twenty thousand or more people have hurriedly left the state and are in northern cities. If anything further is needed to show the general destitution or helpless condition of the laboring classes an appeal, sent out by the state board of health, is sufficient to set all doubts at rest. This document is official.

For several days efforts have been made to reach the governor in order to get his approval for this appeal. He has been absent in the pine country. Saturday morning he appeared in Brandon, having been readmitted by the authorities. Secretary Power, of the Howard Relief association, got intocommunication with him and the governor telephoned his signature.

Dr. J. W. Lee, of St. Louis, wired Bishop Galloway that the orphan children from the infected asylum would not be received there. He stated that the health authorities did not include among refugees people who had been exposed to fever, and would not allow such to enter the city.

At present there are 17 infected towns in the state, including Ridgeland, Madison county, reported t a heated by a furnace, has electric lights late hour, where there are a number of northern people. These people came here from Illinois and established a colony. They have been advertising and booming the town, raising vegetables and fruit for shipment north, and this visitation is a heavy blow to them.

Jackson, Miss., Oct. 10.-An unknown white man, stricken with yellow fever, ntes after the arrival of the train; or who had taken refuge in a negro get each of six students to his des- church, was burned alive Saturday tination first. Although compelled to near Philips, a small country town in put up with abuse from important | Leflore county, Miss., within 200 miles of the state capital. The man has been turned away from different towns by quarantine guards. He was found by Still another class to whom the first negroes who had gone to the church week of school is a grind is the instruc- to make it ready for Sunday's Divine ors. They have to answer all sorts of services. Being sick the negroes fled outlandinsh questions, and unswer from him and reported the case to Dr. them by the hour. Some students want T. B. Harrison, health officer of the beleet the entire course the first year; county. Harrison reported that the thers would like to have the running man was dying. He had some sympchedule of the university changed so toms of yellow fever, but whether he hat they can sleep until 8:30 a. m. If had the disease in reality or not will hese are not exactly their wants, they never be known. Soon after his first re of a very similar character and of visit the doctor returned with medicine for the sick man, and was horrified to find the church in ashes and to find only the charred bones of the patient. Nothing could be learned as to the identity of the parties who perpetrated the deed, and it will never be known whether the poor fellow was dead or alive when the flames reached his body.

Selma, Ala., Oct. 10 .- The board of censors, or the committee on public health of Dallas county, has established a quarantine against the states of Mississippi and Louisiana.

ELECTED TO THE SENATE.

Dendlock in the Oregon Legislative Session Is Broken-Joseph Simon, of Portland, Is Chosen.

Salem, Ore., Oct. 10 .- In the joint session of the Oregon legislature Saturday Joseph Simon, of Portland, was chosen United States senator. He received the full republican vote, as follows: Simon, 64; Kincaid, 23; Dennett, 2; absent, 1. The deadlock was broken by the withdrawal of H. W. Corbett and the centralization of re-

publican votes on Simon. [Joseph Simon was born in Germany of Hebrew parentage and is 47 years of age. He came to New York with his parents when one year old and in 1857 arrived in Portland. He was admitted to the bar in 1872. He has been a member of the senate of the Oregon legislature continuously since 1880, with the exception of two years. He has been three times chosen president of the senate. Simon is a pronounced advocate of the gold standard.]

Lives Lost in a Hotel Fire.

Sioux City, 1a., Oct. 10.-The Hotel Grand and the Leeds creamery plant at Leeds, an outlying suburb, burned at two o'clock Sunday morning. Two men died in the hotel. They registered for some time past had charge of late Saturday night. No one noticed subexperiment station at South their names and all other means of en. Mr. Lyon retires on account of identifying them were obliterated by the Bre.

THOROUGHLY EXPERIENCED.

He Had Moved His Wife's House Plants and Was Fit for a Hazardous Undertaking.

The grimy captain of the mountain bat-tery hurried forward to meet the infantry colonel.

"Colonel!" he shouted, with a hasty sa-lute, "I want you to detail a man from your ranks to help us work the guns. That last charge thinned us out."

"Certainly, sir," cried the colonel, "what sort of a man do you want?"

"I want a man who is strong in the arms," the captain replied; "one who is regularly accustomed to carrying heavy and awkward weights. I want him to handle the ammunition for gun No. 4. He must carry the shells and solid shot from the caisson to the gun."

The colonel turned to his command and in a ringing voice stated the artilleryman's desire. Then he called for a volunteer.

Instantly a little man with a pale -face and a somewhat bent back stepped briskly from the ranks and saluted.

The colonel looked him over.

"He wants a man who is strong in the

arms," he repeated.
"Yes, colonel," said the little man.
"But you—where did you acquire the necessary strength?"

The little man smiled and again saluted.
"Well, colonel," he said, with an air of conscious triumph, "I reckon I'm as fit as any man in the regiment. I moved my wife's house plants more than 400 times during the spring months!

"He'll do!" roared the artilleryman, and the two hastily climbed the hill.—Cleveland Plain Dealer.

His Happiest Moment.

"John," she asked, cuddling up to him, for it was the seventh anniversary of their

marriage, "what was the happiest moment of your life?"

"Ah, dear," he replied, "I remember it well. I shall never forget it. If I live to be a hundred years old that moment will always stand out as plainly as it does to-

She sighed and nestled a little closer, looking longingly up into his honest blue eyes. After a moment's silence she urged: "Yes, but John, dearest, you haven't told me when it was" me when it was.'

"Oh," he answered, "I thought you had guessed it. Surely it ought to be easy enough for you to do so. It was when you came to me last fall, if you remember, and told me that you had decided to trim over one of your old hats so as to make it do for the winter." for the winter."

Then the celebration of the seventh anniversary of their marriage became formal and uninteresting.-Cleveland Leader.

A DOMESTIC INCIDENT.

From the Observer, Flushing, Mich.
"Early in November, 1894," says Frank
Long, who lives near Lennon, Mich., "on
starting to get up from the dinner table, I
was taken with a pain in my back. The
pain increased, and I was obliged to take to my bed. The physician who was summoned pronounced my case muscular rheumatism accompanied by lumbago. He gave me remedies and injected morphine into my arm to

"My disease gradually became worse until lease from my sufferings. Besides my regu-lar physician I also consulted another but he gave me no encouragement.

On Getting Up from the Table.

"I was finally induced through reading some accounts in the newspapers regarding the wonderful cures wrought by Dr. Williams' Pink Pills for Pale People, to try them. I took the pills according to directions and soon began to notice an improve-ment in my condition. Before the first box was used I could get about the house, and

after using five boxes, was entirely cured.
"Since that time I have felt no return of the rheumatic pains. I am confident that Dr. Williams' Pink Pills saved my life and I try to induce my friends who are sick to try the same remedy. I will gladly answer inquiries concerning my sickness and won-derful cure, provided stamp is enclosed for reply. "FRANK LONG." Sworn to before me at Venice, Mich., this 15th day of April, 1898. G. B. GOLDSMITH, Justice of the Peace.

MRS. PINKHAM TALKS TO THE FUTURE WOMAN.

Beautiful or Less So? Miss Jessie Ebner's Experience. A pleasing face and graceful figure! These are equipments that widen the sphere of woman's usefulness. How can a woman have grace of movement when she is suffering from some disorder that gives her those awful bearing-down sensations? How can she retain her beautiful face when she is nervous and racked with pain? Young women, think of your future and provide against ill health. Mothers, think of your growing daughter, and prevent in her as well as in yourself irregularity or suspension of nature's duties.

NUMBER OF THE PARTY OF THE PART

Will the New Generation of Women be More

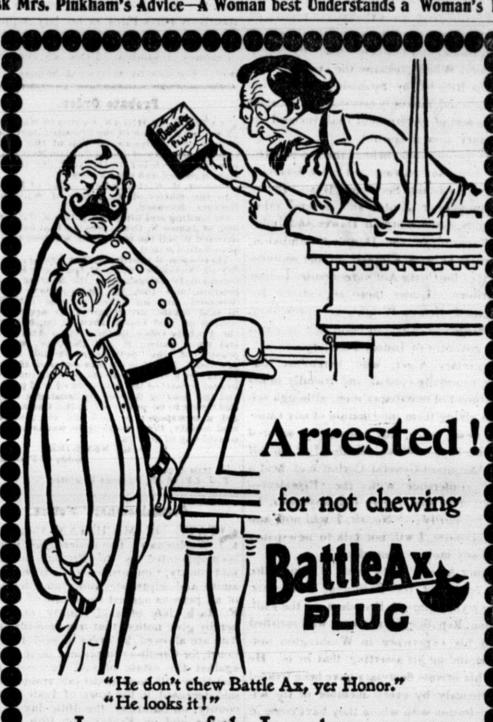

If puzzled, don't trust your own judgment. Mrs. Pinkham will charge you nothing for her advice; write to her at Lynn, Mass., and she will tell you how to make yourself healthy and strong.

Lydia E. Pinkham's Vegetable Compound strengthens the female organs and regulates the menses as nothing else will. Following is a letter from Miss JESSIE EBNER, 1712 West Jefferson St., Sandusky, Ohio.

"DEAR MRS. PINKHAM:-I feel it my duty to let you know of the great benefit your remedies have been to me. I suffered for over a year with inflammation of the ovaries. I had doctored, but no medicine did me any good. Was at a sanatarium for two weeks. The doctor thought an operation necessary, but I made up my mind to give your medicine a trial before submitting to that. I was also troubled with leucorrhœa, painful menstruation, diz-

ziness, nervousness, and was so weak that I was unable to stand or walk. I have taken in all several bottles of Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and am

now in good health. I will always give your medicine the highest praise." Ask Mrs. Pinkham's Advice—A Woman best Understands a Woman's Ills

Ignorance of the Law is no excuse, but ignorance of BATTLE AX is your misfortune—not a crime—and the only penalty is your loss in quantity as well as quality when you buy any other kind of Chewing Tobacco.

Washington News.

Washington, D. C., October 7, 1898 .-The official news from our Military Commissioners who are in Havana trying to solicitors of American and foreign patents, arrange for the Spanish evacuation of Cuba opposite United States patent office, is not satisfactory to the administration, and Major-General Wade, who is one of the Commissioners, and who will be in ism for clothes-wringers; A. O. Dillman, command of that division of our army which will have its headquarters at Ha vana, has been instructed to take such steps as he may see fit towards taking early possession of Havana, regardless of what the Spanish Commissioners may do. That knitting machine; E. McCoy, Detroit, lubusiness was meant by those instructions was shown by the burrying off of the board of officers who have been ordered to Cuba to choose suitable camps for our troops.

The testimony so far taken by the Commission which is investigating the war has been decidedly favorable to the manage. ment of the administration, and the words this paper to C. A. Snow & Co., Washingof such men as Generals Joe Wheeler, H. V. Boynton, and Fitzhugh Lee, two of them political opponents of the administration, will carry much weight with the people.

Ever since it became certain that Porto Rico and a portion, if not all, of the Philippine Islands would become our property there has been more or less talk in Wash ington about the desirability of a new member of the oabinet, to be known as Secretary of the Colonies. The existence of such an official would relieve the Presi dent of much hard work and prevent the slighting, if not actual neglect, of important matters

The President has fully realized this since he began to consider what sort of government he should recommend, in his message to Congress, for Porto Rico, and it will not be surprising should a Secretary of Colonies be one of the Presidential recommendations to Congress. Meanwhile the President is compelled to put in some time studying an exhaustive report on Porto Rico conditions-political, social, educational and business-made by Major-General Wilson, because the evacuation of Porto Rico by the Spanish, now fully accomplished, makes it necessary to consider what sort of government shall succeed the military, now in control.

At a conference held at the Interior Department, and participated in by Secretary Bliss, Assistant Secretary Ryan, Indian Commissioner Jones, and several other officials, and Chairman Dawes and Judge McKennon, of the Dawes Commission, regulations were adopted for the enforce-

and Adjutant-General Corbin had held a long conference with the Presidentwhether he would give out any news, he replied curtly: "No, sir, I will not; and furthermore, I will not talk to newspaper men any more. I am done."

Senor Agoncillo, the agent of Aguinaldo, the leader of the Philippine insurgents, who styles himself President of the Philippine Republic, is not very well satisfied with his experience in Washington, notwithstanding his asserting that he is. He and his orivate Secretary have been treated courteously by every member of the administration with whom they have come in scounty, on Saturday, the 10th day of December, but it has been the same courtesy cember, and on Friday, the 10th day of contact, but it has been the same courtesy that it extended to all private citizens of foreign countries who visit the officials at the National Capital, and not that which is given to official representatives of foreign governments. They have had a private conversation with the President, and Assistant Secretary of State, and with Secretary Hay, but no recognition or promise has been given them. Senor Agoncillo still says that he is going to Paris to try to get some sort of recognition from the Peace Commision; but that recognition having been denied him at Washington, there is no probability of his getting it at Paris. While there is more or less sympathy with the Philippine insurgents, the general opin-ion is that Mr. McKinley's treatment of their representative is the wisest that could have been adopted under existing circumstances. Recognition of the insurgents at this time would unnecessarily complicate the administration of said estate may be matters that are already difficult enough to

It has been semi-officially stated that Mr. Day, who is at the head of the American Peace Commissioners, has full authority to dissolve the Peace Commission the moment he becomes convinced that the Spanish Commissioners do not intend to agree to our demands, or that they are needlessly prolonging the negotiations; also that the be holden at the Probate Office, in the City cause will be followed by a naval demonstration that will convince Spain that any resumption of hostilities with be entirely on Spanish soil and in Spanish waters.

The position of the American Peace Complete that said petition, and the hearing ency of said petition. dissolution of the Commission for either of Ann Arbor, and show cause, if any there propositions, but must choose between accepting those made by this government and resuming the fighting. Members of the administration express absolute confidence in the acceptance of our propositions by the Spanish Commissioners.
