## Everybody

Reads Our

## Advertisements!

Because we don't fill up the space with extravagant statements.

We state the facts and back them up with money, saving prices that appeal to the pocket-book.

We say we sell good honest Clothing cheaper than any retail firm in Washenaw Co., no matter what schemes others resort to, advertising to go out of business; advertising one-fourth off

from blind prices, because the weather ain't right, etc., when it comes to that all important factor, **price**, or how much cash for so many goods, then we're in the lead.

## New Arrivals:

Look at this Boy's Suit; strictly all-wool made well, fits well, and we sell it for \$2.00. All sizes from 8 to 15. Another lot much finer, in fact as fine as you can get elsewhere at \$5.00. Our price until all are sold is \$3.50. Sizes same as above.

We Sell:

Children's Cape Overcoats at \$2.00, \$2.25, \$3, and \$3.50. The \$3.50 grade is strictly all-wool, and handsomely trimmed. Boy's Irish Frieze Ulsters and Black Beaver Overcoats at \$4.50. Will fit boys from age 14 to 19. Men's Overcoats at \$4.50, \$6.50 and \$10, that are record breakers. Men's Ulsters at \$4.90, \$6.50, \$8.50 and \$10, that are trade winners. Men's all-wool Kersey Pants, \$1.39. Another lot of Men's all wool heavy Winter Suits at \$6.75. Ask to see them.

All the above lots of Clothing we have just received. New of course. No old truck, bought from the manufacturers—who are now closing out their winter clothing—at prices to suit us. We are satisfied with a small profit just the same, and the balance goes to our customers. Remember we cheerfully refund the purchase price on any article if not satisfactory.

## W. P. SCHENK & COMPANY.

## Underwear Sale

Our second purchase of Ladies' and Gent's High Colored All-wool Health Underwear has arrived, and we are enabled, while they last, to offer you—

### Doll-Lammers.

The prettiest autumn wedding of the season took place at St. Mary's Church, in Chelsea, last Tuesday, Nov. 15, 1898, when Mr. Edward Doll, one of Lyndon's most respected young men, and Miss Mary Lammers, a most estimable young lady of Sylvan, were united in the holy bonds of matrimony. The day was very pleasant, and St. Mary's Church was filled with relatives and friends of the happy couple. The altars were beautifully decorated with waxen tapers and clusters of chrysanthemums. Messrs. John and Alphonsus Hindelang, nephews of the bride, led the wedding party as they entered the church to the sweet strains of Mendelschon's march. The ladies of the Sodality, to which the bride belonged, followed, then the groom with Miss Magdalena Foster as bridesmaid, and the groomsmen, Mr. William Doll, escorting the bride.

The pastor, the Rev. Wm. P. Considine, officiated at the impressive ceremony, gave the touching and beautiful exhortations of the church, and then celebrated the nuptial high mass. The music was beautifully rendered, Mr. Louis Burg singing in exquisite taste an "Ave Maria" at the Offertory. An elegant and substantial wedding dinner was served at the home of Mr. and Mrs. Simon Weber, Jr., of Sylvan, brother-in-law and sister of the bride respectively. A large company of relatives and friends were present. Mr. and Mrs. Doll were the recipients of beautiful presents from hosts of friends. They left on the evening train for a brief wedding trip to Detroit and Buffalo, and on their return will take up their residence in a beautiful home north of Chelsea. The HERALD begs to tender the respected couple its heartiest congratulations.

### Thanksgiving Dinner.

The Thanksgiving dinner to be served by the ladies of St. Mary's Church, at the Opera house, on next Wednesday evening, will begin at 6 o'clock. These ladies have an enviable reputation for excellence in the gastronomic art. An excellent musical programme will be given after the supper. Little Midland Hart, five years of age, will sing some comic songs in costume. The Clark brothers, who are great favorites with Chelsea audiences, will render some beautiful selections on the guitar and mandolin. The Misses Katherine Staffan and May Clark, and Mrs. Geo. P. Staffan, will give some fine pieces on the piano. The Messrs. Burg, Kempf, Ward, Eisenman, Eisele, Conway, and the Misses Burg and Conway, will be heard in solos, duets, and choruses. The price of admission for supper and entertainment will be 25 cents for adults and 15 cents for children. A grand read organ will be disposed of the same evening. A cordial invitation is extended to all.

#### WAR NEWS.

Yellow fever is rapidly on the increase in Havana and is causing great anxiety among the American officials. Admiral Schley cabled the navy department that Capt. Snow had arrived at San Juan and that he had relieved the admiral of the command of the naval station there.

Western army surgeons and Col. Turner, of the First Illinois volunteers, told the war inquiry board in session in Chicago that incompetent camp discipline was largely responsible for unsanitary condition and a consequent heavy death rate.

Orders were issued by Gen. Young for the general movement of the Second corps from Camp Meade at Middletown, Pa., to new camps in the south. Spain's argument against the cession of the Philippines to the United States has had the result of making the officials in Washington all the more determined to take the islands.

Maj. Gen. Nelson A. Miles has completed and submitted to the war department his report covering the entire period of hostilities between the United States and Spain.

The transport Newport sailed from San Francisco for the Philippines with Gen. Miller and his staff on board.

London papers urge the American people to pronounce boldly in favor of retaining the Philippines, "for otherwise there will be a scramble for coal stations that will endanger the peace of the world."

The navy department received information that a ship ashore at Cat Island was probably the Maria Teresa, which was supposed to have foundered at sea.

The war department has decided that soldiers unable to be present at muster out of their commands could, on presentation of a surgeon's certificate, be granted additional furlough and paid to time of final muster out.

It is announced that Gen. Blanco will leave Havana November 20 for Spain.

Gen. Lawton has been selected to go to Cuba to investigate the feasibility of utilizing the Havana volunteers as a civil guard during and after the evacuation by the Spaniards.

The United States repair ship Vulcan left Newport News to search for the cruiser Infanta Maria Teresa, supposed to be ashore on Cat Island.

At the meeting in Paris of the peace commissioners the Americans declined to recede from the position taken concerning the Philippines.

Gen. Blanco ordered the arrest of two Spanish editors at Havana who wrote insulting articles against Americans.

A dispatch from Madrid says that the government has decided to maintain sovereignty over the Philippines, and that Senor Montero Rios, the president of the Spanish peace commission, recommends the abandonment of the negotiations.

The war department made public the annual report of Maj. Gen. Miles, commanding the army.

## DEADLY RACE RIOTS

Trouble in Wilmington, N. C., in Which Nine Negroes Are Killed.

Three White Men Are Wounded, One Seriously—The Trouble Begins by Wrecking of the Office of the Negro Press.

Wilmington, N. C., Nov. 11.—After a day of bloodshed and turbulence Wilmington has subsided into comparative peacefulness. Nine negroes were killed and three white men wounded during the day, one of them, William Mayo, seriously. The city is in the hands of a new municipal government and law and order is being established.

#### Cause of the Trouble.

The trouble in Wilmington commenced at 8:30 Thursday morning, when an armed body of men, numbering about 400 and led by ex-Representative Waddell, chairman of a committee of 25 appointed for the purpose, proceeded to the publishing house of a negro newspaper, the Record, to wreck it. The editor of this paper had published an article defamatory of white women, and a mass meeting of citizens on Wednesday ordered his expulsion from the city within 24 hours and the removal of his press. Fifteen leading negroes were called on by the committee of 25 Wednesday night and directed to notify the chairman by 7:30 Thursday morning whether they would agree to the removal of the press. They were informed that if no answer was returned the press would be demolished. No answer was received by the chairman Thursday morning, and after waiting an hour the citizens proceeded in a body and demolished the fixtures of the printing office.

#### Panic Among Negroes.

The burning of the printing office created a great commotion among the negroes of the town. The rumor spread that the whites were going to burn and murder in the negro quarter. This rumor reached the negro employees of a cotton compress numbering 300 or 400, who quit work and hung about the streets in manifest terror. Other parties congregated in the negro section and it was in one of these that the first tragedy was enacted. The men were standing on a corner and were ordered to disperse. They declined, and, it is claimed, fired into the whites.

#### The Battle Begins.

A fusillade was immediately opened upon them by the whites and three negroes were killed. Two whites were wounded slightly. One negro ran down the street and passing a residence fired a rifle at William Mayo (white) standing on the veranda, shooting him through the left lung. This negro was recognized, pursued and captured while hiding under a bed. It is said he confessed to the shooting. He was riddled with shot by his captors and killed.

#### Total of Nine Negroes Dead.

About one o'clock some negroes in a house fired upon a passing party of white men. The house was surrounded and four negroes captured and taken to the jail. One negro broke away and ran, but was shot down and killed before he had proceeded half a block. During the afternoon there were other affairs of this kind and eight negroes were killed during various times in the disturbed sections.

As the news of the riot spread through the neighboring state cities they offered to send help, and all such offers were declined, except in the case of Fayette, from which town came about 150 men. As nightfall came the town was completely patrolled and guarded. Very few negroes were on the streets and they were not allowed to congregate anywhere. The action of the citizens in organizing a new municipal government is expected to bring peace and order, and no more rioting is expected.

#### Bloodshed in South Carolina.

Washington, Nov. 11.—A special to the Post from Greenwood, S. C., says: Five negroes lay dead at Rehobeth all day along the roadside, another was killed Thursday and likely four others are dead and lost in the woods. One white man was buried, three others lie at the point of death and six more have been wounded. Four heads of families have left the country and armed troops of countrymen are scouring the country hunting other victims. All of this is the outcome of an election row at Phoenix.

Eight negroes have been lynched within two weeks' time in neighboring counties.

Ben Collins (colored) was killed Thursday night near Phoenix. He is said to have fired one pistol shot into the polling place and reached for another weapon.

#### Quiet at Wilmington.

Washington, Nov. 12.—A special to the Post from Wilmington, N. C., says: This city is remarkably quiet, the turmoil and terrible race conflict considered. The military are doing police duty at the request of the city authorities, although no martial law has been proclaimed. There are five companies on duty. They are the Fayetteville riflemen, the Clinton guards, the Kings-ton naval reserves, Wilmington light infantry and the Wilmington naval reserves. Col. Walker Taylor is in command.

## HARDSHIPS OF ARMY LIFE.

From the Press, Milroy, Ind.  
One of the first to offer their services for the country in the Civil War, was A. J. Sefton, of Milroy, Rush Co., Ind. He made a good record. The life of every soldier is a hard one, and Mr. Sefton's case was no exception. "We were in Tennessee, penned in on all sides. Our rations were very scarce, and he, "and we had begun to go on quarter allowance, and as the rain was not enough to replenish the wells or streams, our canteens went empty. We were hurried on, and the only way to quench our thirst was to go down on our hands and knees and drink from the hoof tracks made by the horses."

Our Canteens were Empty.

"Some of us were taken sick from the effects of this. I was laid up several weeks in a field hospital from fever. From that time I was always afflicted more or less. "About four years ago I became much worse. Our family doctor seemed puzzled over my case, and it began to look as if there was no hope for my recovery, and that the inevitable end was near. "Last November I was advised to try Dr. Williams' Pink Pills. The physicians said they were an excellent medicine, but would do no good in my case. But I tried them, and am glad I did for I became better at once. Eight boxes, taken according to directions, cured me. I used the last of the pills about a year ago, and have not been troubled with my ailments since."

The power of Dr. Williams' Pink Pills for Pale People in the vast number of diseases due to impure or poisoned blood, has been demonstrated in thousands of instances as remarkable as the one related above.

#### Mary was a Mineralogist.

A teacher in one of the local schools was instructing a class of small children in making the other day, endeavoring to make clear to their young minds what a mineral really is. Standing before them, she began in her clear voice: "A mineral is an inorganic, homogeneous substance of definite, or approximately definite, chemical composition found in nature. Do you understand me? Come now, you have all seen minerals. And your mothers and fathers have told you the names of them, haven't they? Of course, they have. Now, can any one of you tell me the names of three minerals?" There was no response, and she continued: "Have not some of you been out and seen minerals on exhibition?" One little girl raised her hand. "I thought so. Mary will name three minerals." Mary arose, and, putting her hands behind her, lisped: "Apollinaris, Vichy and seltzer."—Chicago Chronicle.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. Cheney & Co., Toledo, O. Sold by Druggists, 75c.

Hall's Family Pills are the best.

#### Couldn't Fool Her.

"We must lay in an extra supply of fuel this winter," said the credulous business man while talking to his practical wife the other evening. "The cornhusks are unusually thick, and that means a long, hard winter."

"Who told you?"  
"The man we always buy coal from."  
"I thought so. We will just give the usual order."—Detroit Free Press.

#### To California.

Attention is called to the excellent service of the North-Western Line to California and the favorable rates which have been made for single and round-trip tickets for this season's travel. Best accommodations in first-class or tourist sleeping cars, which run through every day in the year. Personally-conducted tourist car parties every week to California and Oregon. Choice of a large number of different routes without extra charge. Particulars cheerfully given upon application to agents Chicago & North-Western R'y, or connecting lines.

COMPARISONS in the September Summary of Commerce and Finance, issued by the treasury bureau of statistics, show that the exports of steel sheets and plates have increased from 4,873,119 pounds for the nine months ending September 30, 1897, to 45,043,967 pounds for the corresponding nine months in 1898.

HERR MEYER is so elated over the safe return from captivity of his son, Hans Meyer, the African explorer, that he wishes to show his thankfulness to providence in a practical manner. It is announced that Herr Meyer has presented 1,000,000 marks for the purpose of erecting 47 workingmen's dwellings in Leipzig-Lindenau.

In the center of the municipal square at Leipzig there were recently buried 23 wagon loads of human bones, the remains of French and Russian soldiers, who were killed at the battle of Leipzig, October 19, 1813. Eighty thousand marks have been raised by a municipal commission for the purpose of building a monument over the remains.

A TREATISE entitled "Is There a French Nobility?" written by the Vicomte A. de Royer, is a burning topic in the highest social circles at present. The Vicomte declares that out of 45,000 "noble" families only about 300 are able to substantiate a claim to ancient lineage. The writer asserts that on an average about forty nobilities are actually manufactured in the republic annually.

The last private house directly connected with the episode of the Boston tea party in the great struggle for liberty is being torn down to make room for a business block. The old Bradlee house, for as such it is known, has stood at the corner of Tremont and Hollis streets for 127 years, and the land, which when the building was built was a part of a pasture, is to-day worth \$100,000.

The total number of paupers in Ohio according to Secretary of State Kinney's report is 39,038. Of this number 10,325 males and 5,356 females were supported in infirmaries, at a cost during year ending the first Monday in September, of \$836,048. Paupers kept otherwise, to the number of 22,757, cost the state \$288,725. The number of paupers credited with a higher education is 268 males and 144 females.

DR. A. J. HARRISON, chairman of the Bristol and Clinton zoological society, in a recent reading, showed that snakes did not really have any fascinating or charming power over their prey. The doctor comes to this conclusion after a lengthy study of the matter. He cites the fact that rabbits, rats, ducks and hens, even after seeing their companions crushed or swallowed, showed no signs of alarm.

HERR NEUFELD, set free at Omdurman after 13 years' captivity, is almost like the prisoner of the Bastille, who asked to be taken back. He has found his way to Cairo, but only to poverty and neglect. The German consul has money in hand for him, but it is money given for his "rescue," and, as he no longer requires to be rescued, it is not available for his support. He is friendless, or thinks he is; he has almost forgotten his native tongue, and is in danger of losing his reason.

BUSHELS of pearls have been found during the past few years in the mounds built by the ancient Americans who occupied the Mississippi valley. Ohio has been the especially lucrative field for investigation concerning the mound builders. More than a gallon of pearls were found with two skeletons in the Effigy mound near Chillicothe. All of the pearls were perforated, probably done with a heated copper wire, and probably for the purpose of attaching the pearls to belts or clothing.

ACCORDING to the report of the general superintendent of the railway mail service, 8,974 clerks are employed in that department. Pieces of mail which could not be delivered, or which require special attention before delivery, because badly addressed, numbered 13,503,486, of which 7,655,585 pieces were sent to their destination or returned to the writer. The remaining number were sent to the dead letter office. The casualties numbered 597, the greatest number on record. Seven clerks were killed, 34 seriously injured, 146 slightly injured.

THE per capita consumption of wine in 1885 was .38 gallon in Great Britain, .33 gallon in the United States and 1.06 gallons in Germany. In 1896 the per capita consumption had decreased to .34 gallon in Great Britain and .23 gallon in the United States. The consumption of wine in France was enormous, 29.50 gallons per capita in 1896. Bavaria drinks proportionately more beer than any other nation, the per capita consumption there being annually no less than 50 gallons. Belgium follows with a per capita consumption of 43 gallons.

## THE DIVORCE AGITATION, AND THE TWO BISHOPS WHO LED IT.

Characteristics of Bishops Potter of New York and Doane of Albany—Extreme Types of High and Low Church.

COPYRIGHT, 1898

The Episcopal church has never clearly defined its position concerning divorce and the marrying of divorced people. Theoretically, at least, it does not recognize divorce except for one cause, and then only the innocent party to the separation may contract a second marriage with the sanction of the church. Measured by results, however, the stand of the church has been singularly efficacious. Very few Episcopalians carry their domestic difficulties into the courts, and perhaps the quietus that was put upon the question of a stricter marriage and divorce canon at the convention of last October was the expression of a conviction that it was an ill-advised step to tamper with something that had been prolific of good result in the past.

In an article that appeared some time since in one of the magazines Bishop Henry C. Potter, who has evidently been impressed with the church's apparent inconsistency in the matter, and who was directly responsible for the rejection of the marriage and divorce canon which Bishop Doane endorsed, had this to say on the subject:

"As divorce is necessarily a mere accident of marriage, and as divorce is impossible without a precedent marriage much practical difficulty might

sufficient, and that presupposes the guilt of one of the parties. The church does not say in what manner a minister is to satisfy himself as to either the grounds for a divorce or the innocence of one of the parties. He is not required to demand, nor does the church advise him how to obtain a copy of the record or decree of the court where the divorce was granted, and for the matter of that, the decree would not necessarily prove the innocence of one of the parties, though it might clearly show the guilt of the other.

To the lay mind, Bishop Doane's proposed canon defining the attitude of the church on the question of divorce would appear as vital in view of the existing contradictions. To the more liberal element in the church, however, it must have seemed as radical and startling—startling because less than six months ago the bishop of Albany had this to say on the subject:

"If the question is to be studied from the standpoint of the church, either in canons or in the opinions of theologians, my contention is that it is uncertain, variable and impossible to define. There is no uniformity of interpretation, tradition, legislation, which can be called the standpoint of the church. And this is the reason why, in my judgment,

BISHOP POTTER.

arise, and much difference of opinion does arise, from the fact that the Protestant Episcopal church has no where defined marriage."

He then goes on to show that "Negatively it is explicitly stated that matrimony is not to be counted for a sacrament of the Gospel," and his comment on this is, in effect, that it places marriage on the level with a civil contract.

The difference in the marriage laws of the various states is also provided for. The minister "is left to the direction of those laws in everything that regards the civil contract between the parties." Naturally, the laws directing what persons shall or shall not be capable of entering into the marriage relation, would seem to come under the head of "everything that regards the civil contract," and what the law allows the church, in view of what has been affirmed, would appear to be pledged to, but, this not being the case, brings about the involved state in which the church finds itself, and that Bishop Doane wished to reduce to order by a canon governing the action of the clergy in cases where they were called upon to deal with divorced persons. This was covered by the marriage and divorce canon that was laid low by his more liberal fellow deputies. It has been pushed along to the next convention three years hence, when it will possibly be settled or again postponed. In the meantime a committee of thirteen will labor tearfully with the problem.

As the matter rests now, the laws of most of the states permit divorced persons to make a second matrimonial venture if they desire to. No obstacle is placed in their way; it becomes merely a question of personal preference.

But the church takes a most decided position in the matter. No minister can officiate at the marriage of any man or woman whose divorced wife or husband is still living unless the person desiring to marry is the innocent party in the divorce. When such is the case the church permits the marriage.

This, however, effectually cuts off from a second marriage those persons who have made incompatibility of temper and similar minor differences an excuse for a divorce. Only the one cause for a separation is allowed as

ment, we ought not to attempt to commit the church to either of the two views of the relation of the mystery of marriage to divorce—either that the innocent party to a divorce, granted for the cause of adultery, may be married by the church, or that the innocent party to a divorce for the cause of adultery commits the sin of bigamy or the sin of adultery by marrying during the lifetime of the other party to the first marriage. It seems to me the part of wisdom to leave this whole business where it belongs—to the law courts—and meanwhile for the church to protect herself, by guarding any utterance that may be misconceived or misunderstood. Any action of ours is not only corrective and disciplinary, but educational; and there is a hope (faint as it may seem to be) of being able gradually to leaven the low standards of modern popular thought on this subject, if we maintain our position."

Bishop Doane, who had been opposed to the marriage and divorce canon, and 42 others, arrayed themselves in favor of the secret sittings. The question was referred to a special committee, which reported that it was "inexpedient to sit with open doors."

These two leaders, who practically controlled the convention, have much in common in the way of tradition, but here all similarity ends. They are singularly unlike in what may be termed their mental attitude.

The bishop of the diocese of New York is as low church as his brother of Albany is high church. The latter closely conforms to the most ultra English idea of what an ecclesiastic should be—in external matters at least. He affects knee breeches, silk stockings and silver buckles as a feature of his every day dress.

His love of the ceremonial side of religion may be a matter of inheritance from some Catholic ancestor, while Bishop Potter's low church tendencies may be attributed to his Quaker descent, for the founder of the Potter family here in America was a member of the Society of Friends.

It costs about \$1,000 to build an electric cab of the kind now in use in Paris.

## BATTLE OF THE BALLOTS.

Results of the Fall Elections in Several States of the Union.

### COL. ROOSEVELT WINS IN NEW YORK.

Is Elected Governor by a Plurality of Over 20,000—Republicans Generally Victorious in Illinois—Michigan Selects Plingree to Serve Another Term—In Other States.

New York, Nov. 10.—Corrected returns received up to midnight show: Roosevelt plurality, all outside of Greater New York, 107,736. Van Wyck's plurality in Albany, Chemung, Clinton, Erie, Rensselaer and Schoharie counties and Greater New York, 86,450. Roosevelt's plurality, 21,285.

The result on congressmen in this state seems to have surprised even the candidates themselves. Nineteen of their candidates were elected, the republicans getting but 15. In the present house the New York delegation stands 27 republicans to 6 democrats. In the Greater New York all the democratic candidates were elected.

Ohio. Columbus, O., Nov. 10.—Unofficial returns from all but one county make the plurality of Kinney (rep.) for secretary of state 59,600. The Third and Seventh congressional districts are still in doubt, but it is believed that the republicans elect Weaver in the Seventh and the democrats reelect Bremer in the Third, which leaves the Ohio list of congressmen 15 republicans to 6 democrats.

Illinois. Chicago, Nov. 10.—Returns almost completed show that the republicans have elected practically all their county ticket in Cook by pluralities ranging from 8,500 to 12,000. Whittemore, republican nominee for state treasurer, has been elected by a majority in the whole state, but loses Chicago by 4,000. The country towns give him 5,000 majority, so he carries Cook county by about 1,000. The congressional returns show the election of republican congressmen from the First, Second, Sixth, Seventh, Eighth, Ninth, Tenth, Eleventh, Twelfth, Thirteenth, Fourteenth, Fifteenth, Eighteenth, Twenty-first and the Twenty-second, while the democrats get the Third, Fourth, Fifth, Sixteenth, Seventeenth, Nineteenth and the Twentieth, a net gain of three and possibly six for the democrats.

Indiana. Indianapolis, Ind., Nov. 10.—The republicans have carried Indiana by a majority between 15,000 and 20,000. Chairman Martin, of the democratic state committee, figuring upon official and estimated returns from all but three of the 92 counties, conceded a republican plurality of 14,500. He stated upon the returns at hand that the democrats have made a net gain over the presidential vote of 1896 of 1,562. Later and authentic returns, however, may change the present indicated result from 2,000 to 5,000. The republicans claim the state by 20,000.

The returns received indicate that the legislature will be made up as follows: Republican holdover senators, 15; democratic holdover senators, 9; republican senators elected, 14; democratic senators elected, 12; total republican senators, 29; total democratic senators, 21; republican majority in the senate, 8; republican members of the house elected, 57; democratic members of the house elected, 43; republican majority in the house, 14; republican majority on joint ballot, 2.

Wisconsin. Milwaukee, Wis., Nov. 10.—The latest returns from the Second congressional district give Herman B. Dahle, republican, 1,000 majority over James H. Jones, democrat, thus insuring a solid republican congressional delegation from Wisconsin. Later state returns swell Gov. Scofield's plurality to 41,000.

Iowa. Des Moines, Ia., Nov. 10.—All Iowa republican candidates have been elected by big majorities, as follows: First district, Hedge, 2,000, estimated; Second, Lane, 4,438, actual count; Third, Henderson, 6,275, estimated; Fourth, Haughen, 7,274, estimated; Fifth, Cousins, 5,379, actual; Sixth, Lacey, 1,234, actual; Seventh, Hull, 7,584, actual; Eighth, Hepburn, 3,728, actual; Ninth, McCheser, 4,488, actual; Tenth, Doolittle, 8,624, actual; Eleventh, Thomas, 4,985, estimated. State plurality, 60,675, nearly equaling that of 1896.

Dubuque, Ia., Nov. 11.—Complete returns from the Third district give Henderson (rep.) for congress 1,156 majority.

Michigan. Detroit, Mich., Nov. 10.—According to more complete returns about 70,000. This will be a net increase over his plurality of \$3,400 of two years ago, the vote cast having been probably about a fourth smaller this year. The republicans have elected a solid representation of 12 congressmen in the First district to 11,000 for Sheldon in the Twelfth (upper peninsula) district. The democrats will have a dozen electors. The democrats' victory in the legislature and for republicans in the election of two houses, Senator Burrows' reelection now seems absolutely assured, notwithstanding Gov. Plingree's strong favoring of the standing Gov. Plingree. Gov. Plingree's railroad taxation measures are regarded as certain of enactment.

Minnesota. St. Paul, Minn., Nov. 10.—John Lind (silver rep.), with democratic and populist endorsement, who, a few years ago as a republican, represented a Minnesota district in the national congress, will have not less than 40,000 plurality in the state over Eustis (rep.), but Lind is the only fusion candidate to win. His plurality may go several thousand above the figure at present being shown 15,000 and 20,000, which was the claim made by him two days before the election. The balance of the republican ticket will be chosen by majorities even greater than those for Lind. All seven republican congressmen have been reelected. Charles A. Towne was defeated in the Sixth district by a close margin. The legislature will be republican, and there seems no question of the reelection of United States Senator Davis by this legislature.

Missouri. St. Louis, Nov. 10.—At midnight it is conceded by the republicans that John Dougherty (dem.) has been elected in the Third congressional district, James Cooley (dem.) in the Seventh congressional district and Edward S. Robb (dem.) in the Twelfth congressional district. There is still some doubt about the Fourteenth district. George M. Milley (rep.), in that district, does not concede his defeat by the election of W. D. Vandiver (dem.). The election of Vandiver is, however, a strong belief of the republicans is, however, that Vandiver is elected. This being true, the democrats have elected 12 congressmen and the republicans three.

Pennsylvania. Philadelphia, Nov. 10.—The delegation from Pennsylvania in the next congress will comprise 21 republicans and nine democrats, a democratic gain of six. The present delegation is composed of 27 republicans and three democrats. The districts gained by the democrats are the Eighth, Twelfth, Thirteenth, Seventeenth, Twentieth and Twenty-eighth.

In Other States. The legislatures of California and West Virginia will be republican, while the democrats will control those of Utah, Idaho, Montana, Virginia, Texas and Kentucky. North Dakota elects an entire republican legislature. In South Dakota the situation is the same.

## THE NEXT CONGRESS.

Latest Returns Indicate That Republicans Will Control the Lower House.

Washington, Nov. 11.—Thursday afternoon Chairman Babcock, of the republican congressional committee, practically completed a list of the representatives-elect. The latest authentic advices received by the republican committee indicate that two districts are in doubt yet, viz., the Second California and the Twelfth Texas. In both, however, Mr. Babcock concedes that the chances are favorable to the democrats. He claims neither of them. Mr. Babcock's figures show the election of 185 straight republicans, 163 democrats, six populists and one silver republican. These figures do not include the two doubtful districts mentioned. Conceding these two districts to the democrats, as a means of reaching definite results, Mr. Babcock claims a certain majority of 13 over all opposition.

Little information of a definite nature was received by the democratic congressional committee. Secretary Kerr maintained that the opposition to the republicans would organize and control the next house of representatives. His figures indicated that the opposition would have at least 180 votes and perhaps 181.

Washington, Nov. 11.—The following table shows the composition of the next house as indicated by the latest returns:

### WON'T BE MODIFIED.

The Philippine Terms Will Remain Unchanged—Reply to Claims of Spain Is Made.

Paris, Nov. 10.—Wednesday's session of the peace commission began at 2:15 p. m. and ended at three p. m. When the meeting opened the Americans presented to their Spanish colleagues the answer of the United States to the claims submitted on Friday last in behalf of Spain. The document in which the American answer was set forth consisted of nearly 50 sheets of typewritten matter. It was a refutation of the Spanish allegation that because the words "possession," "ownership," or "cession" do not occur in the protocol clause touching upon the Philippine islands, the peace commissions have no right to discuss them here, and that even if they did so it must be in the light of the alleged fact of an exterior agreement that Spain's sovereignty should not be impaired.

The Americans also answered Spain's claim for the restitution to her of public money and customs collections taken by United States officials since the capitulation of Manila and made reply to Spain's claim for an indemnity on account of the alleged imprisonment by United States authorities of Spanish troops of Manila and for their subsequent restraint from being of service to Spain in the suppression of the insurrection and the preservation of property.

The American commissioners held that there was justification, under the terms of the protocol, for the discussion of the future of the Philippine islands and they also claim that the occupation of Manila is a military occupation, which justifies the United States in collecting the revenues, administering the government and exercising all the functions of possession.

The joint session was short because Senator Montero Rios and Judge Day concurred in the services of the American rejoinder upon the Spanish commissioners without a formal reading of the paper, which would occupy many columns in an ordinary newspaper, and an adjournment was taken until Saturday.

### Whaleback Barge Sunk.

Cleveland, O., Nov. 12.—The big whaleback barge No. 104, owned by the American Barge company, parted her tow line in the harbor during the fierce gale of the night and at once drifted against the west breakwater. All attempts to get a line to her from the tugs were in vain, and after pounding against the breakwater for several hours, she finally went to the bottom early Friday. Six men composing the crew of the barge barely escaped with their lives, being rescued by the lifesaving crew only with the utmost difficulty and peril.

Thanksgiving next Thursday.

Winter is creeping in upon us.

Louis Doll is very ill with pneumonia.

The concert last Friday night was good.

And still the onion wagons are on the go.

Miss Tillie Girbach is clerking for L. T. Freeman.

Tramps are occupying the "cooler" these cold nights.

Thos. O'Connor, of Ann Arbor, was in town Monday.

The teachers' meeting last Saturday was well attended.

Stephen Chase, who has been quite ill, is slowly recovering.

Mrs. C. T. Fenn is the guest of her son, Truman, at Jackson, this week.

Election has come and gone but the world was on the same as before.

Can't the boys get up a foot-ball game at the fair grounds on Thanksgiving day?

Mr. Fred P. Budd, of Langsburg, is the guest of Mr. and Mrs. Abner Spencer.

An Ann Arbor paper says Billy Judson won \$1250 as a result of the recent election.

Don't forget to attend the entertainment at the opera house next Wednesday night.

V. D. Hindelang, of Albion, was called to Chelsea by his brother Ed.'s serious illness.

Mr. and Mrs. Walz, of Grass Lake, attended the Doll-Lammers wedding this week.

The Congregational society of Chelsea has extended a call to Rev. Carl S. Jones, of Pinckney.

The Forty Hours Devotion will open in St. Mary's Church, in Chelsea, on Sunday, Dec. 11, 1898.

Mrs. Francis Staffan was the guest of her daughter, Mrs. E. J. Foster, of Grass Lake, last Friday.

Drs. Shaw, of Ypsilanti, and Geo. Dock, of Ann Arbor, were in town Wednesday on professional business.

H. D. Francisco and wife, of Osceola county, was the guest of Mr. and Mrs. Rush Green, the past week.

Miss Agnes McKune left for Detroit last Wednesday to resume her position in the United States Pension office.

Supt. J. W. McKone, of Albion, gave the teachers some good sound advice at their November meeting, held here last Saturday.

There is an old relic on exhibition at the corner barber shop. It is a double barrel shot-gun, with flint lock, and is over 100 years old.

The streets are awful muddy, and the crosswalks impassable. Give us paved streets, and then keep them clean. Let us have all the modern improvements.

St. Mary's Church will celebrate Thanksgiving day by solemn services. High Mass will be celebrated at 9:30 a. m., followed by the recitation of the Litany of the Saints and the singing of the Te Deum or Holy God We Praise Thy Name. Special music will be rendered by the choir.

The shooting stars failed to shoot in this locality last Sunday night. Leo rose calmly from his lair in the eastern horizon, but no shower of meteorites attended his stalk through the jungles of the sky. A week from next Sunday night another shower is expected, apparently in the constellation Andromedes. These are the displays expected to be preliminary to the great meteoric show due next year at this time.

The institution of the new branch 410 of the Ladies Catholic Benevolent Association of St. Mary's parish, Chelsea, will take place at St. Mary's Rectory at 7:30 p. m., next Monday, Nov. 21st. Every member is earnestly requested to attend. Mrs. Tyrrel, of Jackson, is the deputy appointed for the institution. This new society starts out with twenty members, and success is assured. The election of permanent officers will take place at the institution of the branch.

The Union Sunday-school Rally, held at the Congregational Church, last Sunday evening, was well attended, the auditorium being seated to its full capacity. The papers and discussions of "the proper attitude of the parents, teachers and pupils toward the Sunday-school" were of a very high character, and brought out very clearly the attitude in our schools at the present time. We trust that parents, teachers and pupils will awaken to the sense of their responsibility, and will give their support to the Sunday-school work and especially by their attendance. We hope we may have another similar rally in the near future.

A startling incident of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at Glazier and Stimson's Drug store.

At the said place, on the said day, at one o'clock p. m., I will sell to the highest bidder the following real estate, viz.: 170 acres of land, situated 4 miles south and 2 miles east of Chelsea, and 1/2 mile south and 1 mile west of Jerusalem.

Terms of real estate sale will be made known on the day of sale, and the whole of the above described will be sold without reserve to the highest bidder, as I wish to close and settle the estate.

## School Notes.

Walter Reynolds entered the 2nd grade Tuesday.

The seventh grade are now learning the fageolet.

The 4th grade are preparing Thanksgiving exercises.

Rev C. S. Jones visited the high school last Monday morning.

The 7th grade are going to have exercises for Thanksgiving.

Willie Schwickerath entered the seventh grade during the last week.

The mothers are invited to attend the Thanksgiving exercises at 5th grade room.

Misses Veva Schwickerath and Nellie Dowling visited the high school, Friday afternoon last.

A very beautiful drawing of a large ship is now an ornament to the blackboard in the 6th grade room.

About twenty of the high school scholars from here attended the social at Dexter on Friday night last, and report a good time.

Some scholars won't miss a day, no matter how bad the weather is. They are bound to get a good education, which will be a benefit to them in years to come.

Those that visited the teachers' institute last Saturday were well pleased with the exercises. It is too bad that some fathers were not there, who swear at their children, to hear good sound advice in that respect alone.

The Geometry class know that the one who asks so many questions in the class makes as good a recitation as the scholar who has help before class. He asks these questions for the purpose of sticking him who gets help on lesson before class, in which he is quite successful. Which is the best to do, have some one work the "proposition" out for you before class and not ask questions, or work them out for yourself and ask questions for the purpose of sticking those who get help?

## WRECK ON LAKE ERIE

Reported Foundering of a Schooner Off Green Island.

Vessel Is Said to Have Gone to the Bottom in the Recent Storm—Seven Persons, One a Woman, Drowned.

Detroit, Mich., Nov. 14.—A Free Press special from Toledo says: A Cedar Point fisherman named Velliquet brings report here of the loss of a schooner and seven lives on Lake Erie. During the heavy blow of Thursday he was blown down the lake and landed on Green island. The keeper of the lighthouse there, Capt. Gibeau, told him of a wreck that occurred the day before. There was a heavy gale blowing with flurries of snow. He saw a two-masted schooner making heavy weather and later her mainmast was carried overboard. Signals of distress were flying. Capt. Gibeau tried to get out to the dismantled vessel, but he could not send his boat into the teeth of the gale and was obliged to give up the attempt at rescue. With marine glasses he was able to see seven figures on the vessel, one woman and the rest men, or one or two boys. The vessel was heavily laden or water-logged and looked as if she would go under the towering waves at every roll. Finally he saw a portion of the crew try to get away from the sinking craft in a small boat. A flurry of snow shut off his view and later he saw the life boat upset and drifting down the lake. The remaining spar had been carried away and no life was to be

## METEORS KILL CHILDREN.

An Ironlike Mass Crashes Through a Roof Near Perry, Oklahoma, Dealing Death to Two.

Wichita, Kan., Nov. 14.—A report was received in Wichita Sunday afternoon that two children in a family named Henderson were crushed and burned to death by falling meteors near Perry, O. T., Saturday night. Six big lumps of blazing iron went whizzing through the air towards the surface of the earth, and the heavens were as light as day. When the meteors struck the earth the jar was sufficient to break window lights in many homes. The two children killed were sleeping in the same bed. A mass of iron four feet in circumference fell through the roof and crushed them into the ground. Their bodies were buried and burned so as to be almost unrecognizable.

The whole roof of the house fell in on the family and buried them all for a short time. Another boy had his legs and arms broken by falling timber. The father and mother could not get out of the debris for an hour. Neighbors rushed to the aid of the family and got there in time to save the house from flames. The six meteors were discovered on the prairie within a radius of one mile. They were all composed of substance resembling iron, and some crumbled easily, while others did not.

## TROOPS IN REVOLT.

Blanco's Soldiers Refuse to Obey Orders—Serious Situation in Havana—Men Demand Pay.

Havana, Nov. 14.—The Havana militia has been in a state of anarchy and revolt since Wednesday night. The situation is the gravest yet seen here. While there has not been much bloodshed, still Spanish troops are dissatisfied and Gen. Blanco has no forces to rely on for keeping order. Meager accounts only are allowed to be sent out by direct cable. Owing to Gen. Blanco's strict orders to the press censor one cannot give an exact idea of the situation. Only one battalion of regulars, brought Saturday morning from Matanzas, remains entirely faithful, and that is guarding the captain general's palace. Blanco himself does not feel safe. More troops from Matanzas reinforced the garrison of the palace just before noon Saturday.

The regulars, commanded by Gen. Arolas, refused to obey an order to attack the orden publico and the civil guard, which were fortified in their barracks. Far from doing it, the regulars embraced the mutinous soldiers of the military police. Gen. Arolas had to strike a soldier with his saber. The soldier fell badly wounded. Another soldier then attacked the general with a machete. One of Arolas' aids interfered and stopped the blow with his right arm. The soldier is dying and Col. Gomez, the aid, is badly wounded. The only way to disarm the members of the orden publico was by offering them payment within 24 hours. Blanco and Arolas pledged their words of honor to keep this promise, but the example is bad for other troops. Several

## THE PHILIPPINE ISLANDS.

Prof. Worcester, of the University of Michigan, Resided There for Nearly One Year.

WILL GIVE HIS EXPERIENCE IN LECTURES

Had Exceptional Opportunities for Observation, Being Thrown Among All Classes, from the Highest Spanish Officials to the Wildest Savages—Other Notes of Interest.

[Special Correspondence.] Ann Arbor, Mich., Nov. 9.—Prof. Dean C. Worcester, of the department of biology, University of Michigan, who has leave of absence for the present year, will enter the lecture field this winter under the management of Maj. Pond. He will lecture upon the Philippine islands. Prof. Worcester is perhaps as well informed upon certain phases of this subject as any man now living. His acquaintance began in 1887 while he was still a student. In that year he accompanied Dr. J. B. Steere to the islands, and spent 11 months there. Three years later, having graduated at the university, he undertook a second trip in the interest of a wealthy citizen of Minneapolis, and made extensive collections.

Regarding with Suspicion. On the first visit the party was regarded with suspicion by the Spanish officials, and the plans of Dr. Steere and his co-workers were seriously interfered with on more than one occasion. Warned by this experience, Prof. Worcester applied through the department of state to the Spanish minister of the colonies for permission to carry on the work unmolested. The permission was given, and as a consequence he received upon his second visit the most courteous treatment at the hands of the Spanish officials, including Weyler, "the butcher," who was at that time governor general. Prof. Worcester thus had exceptional opportunities for observation. He was thrown among all classes from the highest Spanish officials to the wildest savages. He visited 19 of the islands, and remained long enough in each island to get a fairly representative collection of birds and mammals.

The Philippines and the Filipinos. The results of Prof. Worcester's two expeditions have been embodied by him in a big volume which has recently been published by the Macmillans. The book throws a flood of light upon the conditions, climatic, hygienic, social and anthropological of the country and the peoples which the United States seems on the point of annexing.

The climate, the author asserts, is especially severe in its effect on white women and children. He doubts if many successive generations of European or American children could be reared there. This fact, he thinks, would be a serious, though not necessarily unsurmountable, obstacle to the development of the islands. Of the natives he seems to have a better opinion than is held by some. To show that they are capable of improvement, he cites the case of a typical Filipino born of two Moro slaves who have spent 13 years in America. Prof. Worcester found him intelligent, quiet, sober, industrious, honest, true as steel, and absolutely fearless. In these respects he contrasted favorably with the Spanish inhabitants of the islands.

On Gen. Merritt's Staff. Prof. Worcester's companion on his trips was Dr. Frank S. Bourns, a graduate of the literary department of the university in the class of 1890. He is also an expert in matters pertaining to the Philippines. On account of his special knowledge of the islands he was recently assigned to duty on the staff of Gen. Merritt, and is now with the latter in Manila.

Good Government Club. Unusual interest is shown this year among both students and faculty in the organization known as the Good Government club. Two meetings were held during the past week. At the first the members of the club were addressed by Judge Donovan, of Detroit, who spoke upon the subject, "Opportunity." At the second meeting, held November 5, a lecture was delivered by Hon. William Dudley Foulke, widely known for his interest in civil service reform.

The School of Music. The attendance at the school of music is larger than ever before in its history. A number of applicants have been rejected for lack of accommodations. It is probable that the teaching force and other facilities of the school will be enlarged next year.

Fortunes in Copper. The Mohawk Mining company, with a capital of \$2,500,000, has filed articles of incorporation with the secretary of state. The company will operate a copper mine at Allouez. Lieut.-Gov. Dunstan, who recently incorporated the Adventure, said the other day that more fortunes would be made in the copper industry within the next ten years than in any other kind of enterprise in the country. He predicts a very prosperous era in the copper region.

## MICHIGAN STATE NEWS

Took His Own Life. Thomas E. Peck, 21 years old, of Grand Rapids, committed suicide at the Morrison hotel in Chicago by shooting himself in the head. He went to Chicago with his father to consult a specialist on nervous diseases. After supper the father left the son at the hotel and went to the home of a doctor who was to have made an examination of the young man. Upon his return to the hotel he found his son dead in the room to which they had been assigned.

Twelve Men Killed. The new five-story Wonderland theater in Detroit is in a hopeless mass of debris, and 12 workmen were killed by an accident. While 35 men were at work in various parts of the half-finished portion of the structure the roof fell in without a second's warning, and nearly every workman was carried down into the theater pit. Eleven dead bodies were recovered, and over a dozen other persons were injured, some probably fatally.

Health in Michigan. Reports to the state board of health from 65 observers in various portions of the state for the week ended on November 5 indicate that pleuritis and intermittent fever increased and typhoid fever decreased in area of prevalence. Consumption was reported at 187 places, measles at 4, typhoid fever at 72, scarlet fever at 32, diphtheria at 39 and whooping cough at 12 places, and smallpox at Ecorse.

For an Old Murder. John Hubbard and William Lamont, who are now serving time in the state house of correction in Ionia, confined to three fellow prisoners that a year ago last September they robbed and murdered Ludwig Herman, a veteran soldier. They will be tried for the crime, which has hitherto been a mystery. When visited by officers they denied having made such a confession.

Shingle Yard Burned. One of the worst fires that ever visited Lapeer occurred when the extensive shingle yard of Robert King was almost entirely destroyed, together with some lumber and several freight cars. The fire is laid to the Michigan Central engine that was pulling through the yard. The loss is estimated at from \$25,000 to \$40,000; insured for \$4,500.

Students in a Fight. The sophomores and freshmen at the Agricultural college in Lansing indulged in their annual fight and it was one of the fiercest contests engaged in for years. Three students were in the hospital suffering from serious injuries, while the faces of scores of others were battered and eyes blackened. About 300 students were engaged in the scrimmage.

Accidentally Killed. Word was received in Traverse City of the accidental death of Judge Roscoe L. Corbett, of the Thirteenth judicial district. His death was caused by an accidental discharge of a gun held by his son. Father and son were on a deer hunting expedition at Trout Lake.

seen on the helpless vessel. She was lost to view in the darkness and is supposed to have foundered. Velliquet says the boat was a small coaster and must have been a stone or coal carrier between Detroit and Cleveland or a Canadian craft that carried farm produce into American ports at this time of the year. No vessel is missing from this port.

## HANGED HIMSELF.

The Murderer of an Aged Wisconsin Couple Commits Suicide in Jail.

Milwaukee, Nov. 13.—A special to the Sentinel from Manitowoc, Wis., says: Ernst Messmann, who was arrested for the brutal murder of Mr. and Mrs. John Bahls, at Mishicot, near Two Rivers on November 8 and placed in jail at Manitowoc for safe keeping, was on Sunday found dead in his cell, having taken his own life by hanging. He used a long towel to commit the deed. Before taking his life Messmann made a full confession to the sheriff of the atrocious crime which tallied with the theory as given at the time of his arrest. He first killed Mr. Bahls in the barn with an ax, and then went to the house, where he murdered the old lady, killing her instantly with a large stone. The crime was committed for the purpose of robbery, but before Messmann secured any valuables, he became frightened and made his escape to the house of his brother, where he was arrested. It is believed that he committed suicide through fear of being lynched.

Everything Movable Taken from the Maria Teresa as She Lies on Shore of Cat Island.

Nassau, N. P., Nov. 14.—The tug Potomac, from Santiago de Cuba, which has been visiting the stranded cruiser Infanta Maria Teresa off Cat island, has arrived here in order to obtain a permit to work on the ship. She will return to Cat island. The cruiser is lying one mile off shore and is in two fathoms of water. The natives have destroyed the temporary deck and have carried away everything movable.

by a terrific fire on Saturday. Rowe & Co.'s large livery barn, with its contents, was burned to the ground. Charles Taylor, one of the proprietors, and family lived over the barn. Mrs. Taylor, her daughter, and an old man named Clark were buried beneath the fallen roof and burned to death. The building was so suddenly enveloped in flames that they could not escape. Mr. Taylor got out, but he was frightfully burned and cut. Dr. A. L. Compton, a veterinary surgeon, and a boy who slept in the office escaped. The cause of the fire is unknown. The bodies, when pulled out of the ruins, were burned beyond recognition. A dozen horses and carriages and a few cattle and some hay, grain, etc., were burned. The village had no water supply and nothing could be done to extinguish the flames. The property loss is about \$6,000; partly insured.

## LEAPED TO HER DEATH.

Insane Girl Jumps from a Railway Train in Michigan and Is Instantly Killed.

Detroit, Mich., Nov. 14.—Ida Arola, 23 years of age, early on Sunday threw herself through the window of the Houghton express on the Michigan Central railroad when the train was a short distance from Columbiaville and was instantly killed. She was an insane woman who was being deported to Finland in accordance with the immigration law, she having resided here less than a year. Immigration Inspector Williams and the matron of the Sault Ste. Marie custom house had the girl in charge. Williams stated that she had made no outbreak at any time during the journey from Marquette, where she had been detained in jail. The first her custodians knew of the sad affair was when they heard the breaking glass. Mr. Williams said the dead girl was suffering from extreme melancholia.

## Heavy Fall of Snow.

Larned, Kan., Nov. 14.—This section of the state was visited by the heaviest snow of the season Saturday night and Sunday. The ground was covered to a depth of three to four inches here, and it is said the snow was much heavier in the counties north and west of here. The snow was wet. The winter wheat will be benefited.

battalions of engineers and artillery and one of infantry sent word to Blanco that if not paid they would revolt.

Artillery soldiers at Cabanas also revolted, refusing to embark for Spain. The cause of the revolts is that the orden publico and the troops are paid in promissory notes, called abonares. When the soldiers themselves go to the cashiers the notes are not paid, but the soldiers say some speculators, who are in partnership with the generals, buy the notes at 50 per-cent. discount; then the whole amount is paid to the speculators, who divide the profits with the generals. Proclamations are distributed among the troops inciting them to revolt. They are signed by sergeants. One proclamation asserts that all officers have received pay in cash.

## BIG COMBINE.

Movement Backed by English Capitalists to Unite Sash, Door and Blind Interests of America.

New York, Nov. 14.—A movement is on foot looking to the consolidation of all the sash, door and blind interests of America. The new company will probably be known as the Consolidated Sash, Door and Blind company. The combination is backed by English capital.

It is said that there is at present invested in this country \$70,000,000 in the sash, door and blind business. In the factories operated by this capital there are 48,000 employees who are paid total yearly wages of \$30,000,000, while the value of the output of these factories is estimated at \$96,000,000 yearly.

## Death of Judge Montgomery.

Lansing, Mich., Nov. 14.—Judge Martin Van Buren Montgomery, who was appointed commissioner of patents in March, 1885, by President Cleveland, subsequently resigning to accept a seat on the supreme bench of the District of Columbia, died at his home here Saturday night. He resigned from the bench in October, 1892, and has since practiced law here. He was 58 years old.

## Many Horses Burned.

Sibley, Ia., Nov. 14.—At five o'clock Saturday morning Littlechild Brothers' livery barn and 19 horses burned. The fire reached Main street and burned 12 buildings, with merchandise. Loss, \$25,000; insurance, \$12,000.

### WILL WASTE NO MORE TIME.

Delay in Reaching Decision as to Philippines Must End—Spain Is Warned.

Washington, Nov. 14.—A final ultimatum to Spain was drafted at the special meeting of the cabinet Saturday night. In effect it declares that there shall be no more discussion by the peace commissioners of the right of America to the Philippines. The president and the cabinet have reached the decision that that issue admits of no further argument. The islands have become conquered territory of the United States, and the Spanish government no longer possess right or title to them. This being so, the discussion in Paris is to be strictly confined to the manner of the evacuation of the islands by Spain. This radical decision simplifies matters greatly for Judge Day and his conferees. They have become irritated over the dilatory tactics of Senor Rios and the other Spanish commissioners, and had begun to fear the negotiations would drag their weary length along until the beginning of the new year.

But the president's firm action stops all this. The matter now narrows down to surrender or no surrender, and the Spaniards know the result of refusal. There is no fear here that Sagasta will get European aid. Private advice to the government show that there will be no intervention. Other and graver concerns than the Philippines are keeping the nations watchful and suspicious of one another. None of them cares to blow on a flame that may cause a conflagration in Europe and in the far east. It is the desire of the president that the treaty shall be ratified by the time congress meets next month.

The president has received the views of every member of the commission. based upon the information they have received as to the policy the United States should pursue respecting the Philippines. There is apparently some personal difference of opinion, at least among the commissioners, as to the extent which the United States should go in taking territory in the far east. It was reported that Senator Gray was opposed to eastern expansion except for a coaling station, and that a serious difference had arisen between himself and the other commissioners. This, however, is absolutely untrue. The action of the president in calling for the views of the American representatives is considered highly significant, and the authorities were very much averse to discussing them in any way. But it was stated that the commission had been informed that the matter would be left to their judgment and to expedite the negotiations as rapidly as possible.

Washington, Nov. 14.—It is understood that assurances have been given by the German government that the visit of Emperor William of Germany to Spain is entirely devoid of official character or significance, that the official trip of the imperial party ended when they left Palestine and that the proposed stop at Cadiz and Cartagena is largely a health precaution in behalf of the empress, as the sea trip would be long and arduous if unbroken by these stops at the Spanish ports. The assurances appear to be voluntary on the part of the Berlin officials and to be in line with the care taken in that quarter of late to minimize and remove the bad impression caused by several incidents occurring during the recent war. The state department had not, so far as is known, taken cognizance of the emperor's movements, and certainly there was no purpose of inquiring as to the stop in Spain, although this action by the emperor was looked upon as rather inopportune, to say the least, when the peace negotiations with Spain are at a critical juncture, and when, technically, the war is still in progress. At the same time Germany has constantly reiterated her neutral and friendly attitude, and the emperor himself took occasion in his last address to the reichstag to give strong expression to the German purpose to maintain the strictest impartiality between this government and Spain. Still, the officials here and in Berlin have recognized that a strong public sentiment of animosity was being developed between the people of the two countries, and steps have been taken to offset this as far as possible.

The suggestion that the emperor may be asked by Spain to act as arbitrator between the United States and Spain in case the Philippine issue becomes acute is dismissed as absurd, on the ground that no such plan would be considered for a moment unless both countries joined in a request for it. The arrival of the emperor at Cadiz and Cartagena is awaited with considerable apprehension by the German authorities, as it may give rise to misconception in this country. With a view of avoiding such an affair the German charge d'affaires at Madrid has been instructed to notify the Spanish government of the strictly unofficial character of the emperor's visit.

Berlin, Nov. 14.—The National Zeitung, returning to the subject of Lord Salisbury's American allusions in his Guild hall speech, says: "It may be assumed that England persistently aims at the acquisition of the Philippines or a portion of them. The American attitude toward this British ambition will afford a fairly accurate test of the strength of the Anglo-American friendship."

"Sound," said the pedagogue, "is something that a person can hear, but can neither see nor feel." "Oh, I don't know!" exclaimed the boy at the foot of the class. "I think I can prove that you are off in your theory." "Very well, Thomas," retorted the man of learning, "go ahead and prove it, then." "Only yesterday you gave me a sound thrashing," said Thomas; "I suppose the other pupils saw it, and don't you ever think for a minute that I didn't feel it?"—Chicago Evening News.

## THREE HAPPY WOMEN.

Each Relieved of Periodic Pain and Backache. A Trio of Fervent Letters.

Before using Lydia E. Pinkham's Vegetable Compound, my health was gradually being undermined. I suffered untold agony from painful menstruation, backache, pain on top of my head and ovarian trouble. I concluded to try Mrs. Pinkham's Compound, and found that it was all any woman needs who suffers with painful monthly periods. It entirely cured me.—Mrs. GEORGE WASS, 923 Bank St., Cincinnati, O.

For years I had suffered with painful menstruation every month. At the beginning of it was impossible for me to stand up for five minutes, I felt so miserable. One day a of Mrs. Pinkham's was thrown into my I sat right down and read it. I then got E. Pinkham's Vegetable Compound and can heartily say that to-day I feel like my monthly suffering is a thing of the always praise the Vegetable Compound done for me.—Mrs. MARGARET ANDERSON Lewiston, Me.

Lydia E. Pinkham's Vegetable Compound has cured me of painful menstruation and backache. The pain in my back was dreadful, and the agony I suffered during menstruation nearly drove me wild.

Now this is all over, thanks to Mrs. Pinkham's medicine and advice.—Mrs. CARRIE V. WILLIAMS, South Mills, N. C.

The great volume of testimony proves conclusively that Lydia E. Pinkham's Vegetable Compound is a safe, sure and almost infallible remedy in cases of irregularity, suppressed, excessive or painful monthly periods.

"The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women during a single year."

Hon. Robt. Dollard  
of South Dakota

Ex-Attorney General of the State was cured of a most desperate case of Asthma by Dr. P. Harold Hayes, of Buffalo, N. Y., more than twelve years ago, and has never had a symptom of it since.

## ASTHMA

is too generally considered an incurable disease, but this widespread belief comes from the innumerable failures where mere symptom drugs are given and suppress the symptoms, leaving untouched the cause of the disease. Dr. Hayes employs natural alternatives and tonics, and cures to stay cured by removing the cause from the blood and nervous system.

### Michigan Crop Report.

Lansing, Nov. 10, 1898.

By the returns this month the area in growing wheat in the State is 8 per cent. larger than sowed in 1897. The percentages for the State and sections are as follows: State, 103; southern counties, 103; central, 102; northern, 104. A decreased acreage is reported from only three counties in the southern section, viz.: Ionia, Kent and Van Buren. The reduction in these is from one to two per cent.

The average condition is 103 in the State, 105 in the southern counties, 99 in the central, and 101 in the northern, comparison being with average years. The condition is below 100 in only three counties in the southern section, viz.: Ionia, St. Clair and Van Buren. The condition is higher than on Nov. 1st in any year since 1890. The average condition that year was one point higher than now in each of the three sections of the lower peninsula, and two higher in the State. The average condition one year ago was 83 in the State, 75 in the southern, 88 in the central, and 103 in the northern counties.

The weather since wheat was sowed has been remarkably favorable for continuous growth. September was a month of high temperature and fair amount of rainfall. The mean temperature of the State for the month was 63 degrees, which is 8 above the normal. The excess compared with the normal in each of the several sections of the State was practically the same as for the State. The temperature not only averaged high but it was uniformly high. The highest daily maximum at Lansing was 92, and the lowest 62; and the highest daily minimum was 73, and the lowest 38. The lowest temperature recorded at Lansing was six degrees above the freezing point.

The temperature in October ranged very high. There was no hard freezing weather. Rainfall was abundant all the month all over the State, and at many points it was excessive.

In their general remarks correspondents with rare exceptions report a large and healthy growth of wheat. The presence of insects is noted by many, but there seems to be no fear of extensive or severe injury.

The area of clover-seed harvested is estimated at about one half the area in average years, and the yield per acre at 1.65 bushels.

Potatoes are estimated to yield about three-fourths of an average crop. The figures for the several sections are: Southern counties, 78; central, 71; northern, 69, and upper peninsula, 87.

Live stock is in good condition. The percentages are 99 for horses, 97 for cattle, 98 for sheep, and 96 for swine, comparison being with stock in good, healthy and thrifty condition.

### Washington News.

Washington, D. C., November 11, 1898.  
—The result of the elections overshadowed everything else, this week, in Washington, although the Peace Commission, at Paris, held an important joint session. No class of politicians are entirely satisfied with the elections, although all of them manage to find something to rejoice over. And there are a few others besides the politicians who would have preferred that the Senate and House should not have been so close. An election as close as that was invariably leads to bickering and charges and countercharges, which engender hard feelings, and results in injuring the country abroad, if not at home. According to the best information obtainable at Washington, the Republicans will control the House, but it will be by a very small margin, and will not be conceded by their opponents until the official count in a number of close districts has been made.

The President and other prominent Republicans are much disappointed by the result of the Congressional elections, which the Democrats declare to be a rebuke to the War Department's management of the war with Spain; but they get consolation out of the majority they will have in the Senate, after next March. The silver Democrats express pleasure at the defeat of Tammany's candidate for Governor of New York by Col. Roosevelt, because they consider that it will lessen Tammany's influence in the next Democratic National Convention, and make it quite certain that the Chicago platform of '96 will be readopted. And everybody agrees that the results of the election will make no difference in the policy adopted by the administration in regard to the Philippines.

At this week's joint meeting of the Peace Commission, at Paris, the Spanish Commissioners were told in effect that this Government would not recognize the validity of the arguments put forward by them for not agreeing to our demand for possession of the entire Philippine group, and that we insisted upon possession of the Philippines upon the terms proposed—the payment of a certain sum of money, equal

to what Spain has spent for permanent public improvements on the islands; also that it would be wise for them to accept at once what was inevitable.

The International Commission charged with the duty of negotiating a treaty that will settle a number of matters that the United States and Canada have been disputing over for a long time, which adjourned in Quebec to meet in Washington, Nov. 10th, is now in session. Before proceeding to business its members paid their personal respects to President McKinley and Secretary Hay. It is hoped that the Commission will be able to complete its work in a few weeks; but, owing to its holding all its meetings behind closed doors, nothing more is known of the prospect of a successful ending of the task than the statements of individual commissioners, that progress was being made.

It has been officially announced by the Post-office Department, which has had the matter under consideration for some time, that the private mailing cards, authorized for domestic use by Congress last spring, will be admitted to the foreign mails, provided they conform in size to the official postal cards, at one cent postage for Canada and Mexico, and two cents each for all other countries that are in the Postal Union. Private mailing cards have been admitted to foreign mail by nearly all of European countries for some time.

There are rumors floating around alleging that some sensational testimony, which was purposely withheld until after the election, will shortly be given before the War Investigating Commission, and that it is likely to be followed by the disgrace of some officers.

### A Pretty Good World.

This world's a pretty good sort of world,  
Taking it altogether,  
In spite of the grief and sorrow we meet,  
In spite of the gloomy weather.  
There are friends to love and hopes to cheer.

And plenty of compensation,  
For every ache for those who make  
The best of the situation.

There are quiet nooks for lovers of books,  
With nature in happy union;  
There are cool retreats from the noontide heats,  
Where souls may have sweet communion;  
And if there's a spot where the sun shines not,

There's always a lamp to light it,  
And if there's a wrong we know ere long  
That the God above will right it.

So it is not for us to make a fuss  
Because of life's sad mischances,  
Nor to wear ourselves out to bring about  
A change in our circumstances.  
For this world's a pretty good sort of world,  
And He to whom we are debtor  
Appoints our place and supplies the grace  
To help us make it better.

### Odds and Ends.

A traveling man remarked, the other day, while in Chelsea, "that the streets were in a more demoralized condition than they were over in Jerusalem" (near here).

Our weekly weather report for Friday, cold and freezing in the early morning, but warmer through the day, the snow turning into mud. Saturday, cold and clear, but warmer through the day. Sunday, raining and snowing, but clear in the evening. Monday, cloudy, with snow turning to mud, and clearing and warmer in the afternoon; colder at night. Tuesday, cold in the morning, warmer through the day, and quite clear, freezing at night. Wednesday, clear and cold, but warmer through the day, and cloudy. Thursday, cloudy and cool.

Jackson Sunday Herald: "The chief occupation of the Michigan Smith family this year appears to be going to Congress.

There's Hank in the Second district, Bill in the Fifth, and Sam in the Sixth; and in Jackson county a Smith has been chosen for prosecutor. This is a step towards Congress. Reflecting on this subject how like smoke the Smiths have multiplied! There was a time when they were hard to find. That was when, as related in Chronicles, 'there was no Smith in all Israel.' Then there are the lock-smiths, black-smiths, copper-smiths, etc.

### Probate Order.

STATE OF MICHIGAN, County of Washtenaw, ss. At a session of the Probate Court for the County of Washtenaw, holden at the Probate Office, in the City of Ann Arbor, on Tuesday, the 25th day of October, in the year one thousand eight hundred and ninety-eight.  
Present, H. Wirt Newkirk, Judge of Probate.

In the matter of the estate of Adolph and Charlotte Walker, minors.

On reading and filing the petition, duly verified, of C. F. Stein, guardian, praying that he may be licensed to sell certain real estate belonging to said minors.

Thereupon it is ordered, that Saturday, the 19th day of November, next, at ten o'clock in the forenoon, be assigned for the hearing of said petition, and that the next of kin of said minors, and all other persons interested in said estate, are required to appear at a session of said court, then to be holden at the Probate Office, in the City of Ann Arbor, and show cause, if any there be, why the prayer of the petitioner should not be granted. And it is further ordered, that said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof, by causing a copy of this order to be published in the Chelsea Herald, a newspaper printed and circulating in said county, three successive weeks previous to said day of hearing.

### Mortgage Sale.

DEFAULT having been made in the conditions of a certain mortgage made by Otto Shipplack and Annie C. Shipplack, his wife, to Christian Mack and Frederick Schmid, comprising the firm of Mack & Schmid, bearing date the 5th day of November, 1894, and recorded in the office of the Register of Deeds, of Washtenaw county, Michigan, on the 7th day of November, 1894, at 4 o'clock p. m., in Liber 86 of Mortgages, on page 14, on which mortgage there is claimed to be due at the date of this notice the sum of (\$678.63) six hundred and seventy-eight dollars and sixty-three cents, and no suit at law or proceeding in equity having been instituted to recover the amount due on said mortgage or any part thereof, and the undersigned electing to consider the whole amount of said mortgage, due for the non-payment of interest and installments of principal.

Now, therefore, by virtue of the power of sale contained in said mortgage, and the statute in such case made and provided, notice is hereby given that on Monday, the 19th day of December, 1898, at the east front door of the Court House, in the City of Ann Arbor (that being the building in which the Circuit Court for said county is held), at ten o'clock in the forenoon of that day, there will be sold at public auction, to the highest bidder, the premises described in said mortgage, or so much thereof as may be necessary to pay the amount of said mortgage, and the costs of this foreclosure. The premises so to be sold are described as follows:

Commencing at a point 52 feet north of the south-east corner of land conveyed by Gustave Walter and wife to August Bruch, thence running north 63 feet, thence west to a lane leading north and south along the city line, thence south fifty-two (52) feet, thence east to the place of beginning, being part of lots 20 and 21, in Thompson, Spoor and Thompson's addition to said city of Ann Arbor.

Dated, September 19, 1898.
