THE SPRING ELECTIONS.

Make the Board of Supervisors Republican by Three.

KINNE RE-ELECTED JUDGE.

LISTER SUCCEEDS HIMSELF AS SCHOOL COMMISSIONER—THE STATE REPUBLICAN TICKET HAS GOOD MAJORITIES.—MUCH CUTTING WAS DONE.

The vote at Monday's election in most precincts of the county was light. It was, however, full of surprises. For instance, Lyndon returned a Republican supervisor, clerk, treasurer and highway commissioner, the first time such a thing has ever happened in its history. Ann Arbor returned Gottlob Luick, Democrat, for mayor by 432 majority. Walter L. Seabolt for president of the council by 136 majority, and William G. Doty for justice by 171. Then turning around James E. Harkins, Republican, was elected clerk by 383 majority, and Edward L. Saylor, assessor, by 418. It also elected six Republican supervisors and one Democratic, and five Republican aldermen as against two Democratic. Ypsilanti elected Capt. E. P. Allen, Republican, mayor, one Republican and one Democratic supervisor, two Republican and three Democratic aldermen. The result of this is that with William Bacon, Republican, elected in Sylvan, the board of supervisors is Republican by three majority this year. It is composed as follows:

Ann Arbor city—Wm. K. Childs, R. Emanuel Schneider D, John J. Fischer R, Herman Krapf R, John Stadford R, Wm. Biggs R, G. Frank Allmendinger R. Ann Arbor town—Charles Braun D. Augusta—S. S. Bibbins R. Bridgewater—George L. Walter D. Dexter—John D. Clark D. Freedom—Dresslhouse D. Lodi—Daniel Seyler D. Lyndon—William Collins R. Manchester—William Burtless R. Northfield—Fred Prochnow D. Pittsfield—Morton F. Case R. Salem—C. Kingsley R. Saline—Willis Fowler R. Scio—Byron C. Whittaker D. Sharon—William F. Hall D. Superior—Walter H. Voorheis D. Sylvan—William Bacon R. Webster—Bert Kenny R. York—A. H. McIntyre D. Ypsilanti—John L. Hunter R. Ypsilanti City—Sumner Damon R, and Eimer McAllough D.

Judge Kinne carried Washtenaw by the handsome majority of 1,187 votes, and according to one report he carries Monroe county by 9. Taking into consideration the extreme popularity of Judge Kinne, Mr. Cavanaugh has no cause to be ashamed of his defeat.

Claudius B. Grant for supreme court justice has 300 majority in the county, and fully 30,000 in the state.

Dean and Sutton for regents of the university polled 3,255 and 2,898 votes respectively in this county so far as heard from, as against their opponents 1,854 and 1,931 votes.

William N. Lister is re-elected school commissioner by 626 majority. His opponent, Mr. Hoppe, made a gallant run, and in Sylvan, his old home, got 94 majority.

Below is given the full vote for Sylvan township:

Wants a Title After 20 Years.

People who own marsh lands in southern Michigan are just beginning to realize that they may turn out to be of value as marl beds, even though they had no particular value heretofore. In proof of this an application was made in the probate court Thursday, by Michael McGuire, of Lima, to be appointed administrator of the estate of Mrs. Alice McGuire, who died in Dexter, Feb. 13, 1879—20 years ago.

Fire in the business district of Fair Haven, Vt., destroyed property valued at \$100,000. Gov. Gen. Brooke practically made up his mind to send the \$3,000,000 back to the United States if the Cuban assembly did not give up the army rolls. Tommy White, of Chicago, got the decision over Jack Jempsey, of Pueblo, in a 20-round fight in Denver, Col. Additional reinforcements for the American troops in the Philippines are to be sent from New York at once. Later reports concerning the sinking of the steamer Rowena Lee off Tyler, Mo., say that only three lives were lost, instead of 60, as first reported. In a train wreck at Haynes, Ill., Dr. E. W. Porter, of Jerseyville, Ill., was killed and a baggage man fatally injured. James Reed, aged 22 (colored), was hanged in Kansas City, Mo., for the murder of Mrs. Susie Blakesley. E. Bates Soper, who killed his wife and two children at Archie, also his father, and a child in Oregon, was hanged at Harrisonville, Mo. The heaviest snow fall ever known at this season of the year occurred in Kansas, Missouri, Iowa, Indiana and Illinois. Seven persons were injured by the derailing of a passenger train near Parkerville, Mo. The city hall and opera house at Columbus, S. C., was totally destroyed by fire. There were 194 business failures in the United States in the seven days ended on the 31st ult., against 200 the week previous and 251 in the corresponding period of 1898. The exchanges at the leading clearing houses in the United States during the week ended on the 31st ult. aggregated \$1,900,982,184, against \$1,884,504,791 the previous week. The increase compared with the corresponding week in 1898 was 68.5. United States officials arrested in Wilkesbarre, Pa., Charles Moss, the leader of a large gang of counterfeiters. The treasury receipts for March were over \$57,000,000 and the disbursements amounted to \$42,998,571, leaving a surplus for the month of \$14,031,653. A joint high commission to settle the entire Samoa trouble has been practically agreed upon by the United States, British and German governments. Henry Lappin and his wife, aged 45 and 42 years, respectively, were burned to death in their home in Philadelphia. Richard Hale and Thomas Johnson, white men, and Sam Rives (colored) were hanged at Troy, Ala., for the murder of Mrs. Ira Meyers and her daughter-in-law, Mrs. Meyers. Gov. Gage has signed the bill which legalizes prize fighting contests in California up to 20 rounds. The transport steamer Charles Nelson sailed from San Francisco for Manila with 900 tons of supplies for our troops. Secretary Hay informed the delegates of the Cuban assembly that the United States government would not increase the amount to pay the Cuban army above the \$3,000,000 already sent to Cuba. Leading citizens of Porto Rico have organized a political party to be known as the republican party and have declared in favor of a gold standard, separation of church and state and free trade between the islands and the United States. During the month of March 34 corporations were organized in New Jersey with capital stock aggregating \$1,117,750,000.

Baptist, Presbyterian, Methodist and Congregational societies have made arrangements for interdenominational missionary work in Porto Rico and other islands. The total dead of the Windsor hotel fire in New York now number 41. Of these 30 are unidentified bodies. The number of missing is 43. Six masked burglars tortured aged Mr. and Mrs. Thomas Crocker at Dennison, O., and secured \$97. Elisha Swan, a 19-year-old negro, was hanged in Bastrop, Tex., for murder. The public debt statement issued on the 1st shows that the debt decreased \$8,398,828 during the month of March. The cash balance in the treasury was \$919,562,087. The total debt, less the cash balance in the treasury, amounts to \$1,149,505,563. The government of Cuba, as administered by the United States military authorities, has yielded for the first quarter \$3,500,000 as customs receipts. Rear Admiral C. C. Carpenter, retired, aged 65, committed suicide in a sanitarium in Boston. He had a brilliant record. The Detroit (Mich.) common council adopted a resolution providing for a commission of three to buy and operate the city rail roads. Mary Wilson, of Augusta, Kan., took morphine and died because her lover, Alva Dix, had been killed in the Philippines. While en route from Texarkana, Ark., Mrs. W. D. Owen, wife of the secretary of state of Indiana, dropped dead in the isle of the car. The total coinage at the mints during March was \$14,572,072, of which \$12,176,715 was silver, \$2,346,556 gold and \$48,801 minor coins. John Collins and Mary Ann Ingersoll, the kidnapers of Gerald Lapiner, arrived in Chicago from Painesville, O., and were placed in jail. The total circulation of national bank notes in the United States on March 31, 1899, was \$243,052,317, an increase for the year of \$18,654,298. John Sullivan, one of the best-known men in Puxico, Mo., was shot and killed by white caps. Sixteen gold hunters from Kentucky were killed by Indians in Alaska, the motive being robbery.

PERSONAL AND POLITICAL. Brig. Gen. Flagler, chief of ordnance, United States army, died at the Hygeia hotel in Old Point Comfort, Va. Prof. Andrew J. Rickoff, for 15 years superintendent of public schools in Cleveland, and a widely-known educator, died in San Francisco. George E. Pinney, for seven years a member of the Wisconsin supreme court, died in Madison, aged 66 years. Mrs. Hannah Dailey died at the county home at Oil City, Pa., at the age of 102 years. John H. Reed celebrated his one hundredth birthday at his home in Seymour, Ind. Noah Raby, an Indian, celebrated in the poorhouse at Piscataway, N. J., his one hundred and twenty-seventh birthday. Rev. James Needham (Methodist) died at his home near Pilot Mountain, N. C. He would have been 100 years old on May 2 next.

FOREIGN. Sophia Gray died at Chatham, England, aged 105 years. Maj. Gen. MacArthur entered Malolos, the seat of the so-called insurgent government at half-past nine on the morning of the 30th. After three hours of desperate fighting the natives, realizing that further effort was hopeless, set fire to the city and fled in disorder. The American loss was comparatively small, considering the severe nature of the combat. Aguinaldo managed to elude the Americans and escaped in safety. Pursuit of the rebels will be continued. The Carlists in Spain claim that as soon as the signal is given they will be able to overthrow the Alfonsist dynasty. The stars and stripes have been hoisted over the city of Malolos and the stronghold of the Filipinos is now in the possession of the American forces. The troops were resting and were of the opinion that the war was ended, save for such guerrilla tactics that may be employed by the remnants of Aguinaldo's army that have sought refuge in the mountain fastnesses. The loss to the American army thus far has been 58 killed and 392 wounded. A man named Ozouf attempted to kill President Loubet in the streets of Paris, but instead killed a wealthy gentleman named Tourret. James La Blanche, a young French Canadian, killed his sweetheart, an Indian girl named Olga Postemie, and then killed himself at Point Pelee, Ont. Gen. MacArthur's troops were still resting at Malolos on the 2d. All efforts to locate the main body of the insurgents thus far had been unavailing. Many natives were returning from the north to Malolos without arms. The Filipino capital is now at San Fernando, and Chinese who have been at the latter place report that Aguinaldo has only 1,400 men left with him. It was evident that the native forces were scattered, with but little hope of reorganization.

The passenger steamer Stella, with 70 to 120 of her passengers and crew, was lost off the island of Alderney while en route from Southampton to the Channel Islands. Twenty-nine farmers were massacred by aborigines at Byorsetsu, Japan. Baroness Hirsch, widow of Baron Hirsch, the Hebrew philanthropist, died in Paris. She leaves several millions pounds sterling, chiefly bequeathed to charities. LATER. Gen. Otis reports to the war department that the insurgent government is in a perilous condition and its army defeated, discouraged and scattered, and that thousands of Filipinos who had been carried away by the retreat of Aguinaldo's army are now returning to their homes and wish only to live in peace. Mrs. E. A. Hedges and Miss Florence Cruzen committed suicide at Creston, Ia. Dispatches from many towns in Illinois, Iowa, Missouri and Kansas report heavy snowstorms, covering a wide extent of territory. D. A. Waterman, treasurer of the Michigan Central road, died in Yonkers, N. Y., aged 60 years. The work of searching the fire ruins of the Windsor hotel in New York has ended. The total known dead numbers 46, and several persons are still missing. In a fire at Kingsley, Mich., Mrs. Sarah Shubert and Mrs. Beyers were burned to death. The president has ordered that on the day of the burial in Arlington cemetery of the soldiers who lost their lives in the Spanish war the national flag be displayed at half-staff on all public buildings, forts, camps, and public vessels of the United States. Samuel Jones—"Golden Rule" Jones—was re-elected mayor of Toledo, O., by a large majority. An increase in wages in the cotton mills of New England has gone into effect, the restoration benefiting 140,000 operatives. Five men working in a narrow trench in Joplin, Mo., lost their lives by a cave-in. Iowa democrats will hold their state convention in Des Moines August 16. The republicans will meet August 2. Bob Brown was hanged at Glasgow, Ky., for the murder of his father-in-law, Lewis McClelland. The American commission in the Philippines has issued a proclamation to the residents of the island calling upon them to lay down their arms and follow peaceful avocations. John H. Farley (dem.) was elected mayor of Cleveland, O., the republicans electing the balance of the ticket. At the Michigan state election Judge C. B. Grant (rep.) was reelected justice of the supreme court by an estimated plurality of 30,000. Judges in 36 judicial circuits were elected, the indications pointing to republican success in most cases.

MINOR NEWS ITEMS. Five prisoners were taken from the jail at Carlisle, Ky., to be baptized at the Christian church. Dear Doctor—I suppose everyone is confined to their desk and not getting the required amount of exercise, with sooner or later, suffer with catarrh of the stomach and indigestion. I know by experience that Pe-ru-na is a most excellent remedy for these complaints. It has relieved me, and several of my friends have used it with the same satisfactory results. Yours very respectfully, Lucinda B. Chandler.

LABASTINE is the original and only durable wall coating entirely different from all kalsomines. Ready for use in white or twelve beautiful tints by adding cold water. ADIES naturally prefer ALABASTINE for walls and ceilings, because it is pure, clean, durable. Put up in dry powdered form, in five-pound packages, with full directions. LL kalsomines are cheap, temporary preparations made from whiting, chalks, clays, etc., and stuck on walls with a caving animal glue. ALABASTINE is not a kalsomine. EWARE of the dealer who says he can sell you the "same thing" as ALABASTINE. "Something just as good." It is either not posted or is trying to deceive you. ND IN OFFERING something he has bought cheap and tried to sell on ALABASTINE'S demands, he may not realize the damage you will suffer by kalsomine on your walls. ENSIBLE dealers will not be a lawsuit. Dealers risk one selling and consumers by using infringement. Alabastine Co. own right to make wall coating to mix with cold water. HE INTERIOR WALLS of every schoolhouse should be coated only with pure, durable ALABASTINE. It safeguards health. Hundreds of tons are used annually for this work. N BUYING ALABASTINE, be that packages are properly labeled. Beware of large boxes. Beware of packages light as mine. Ask customers for a five-pound package. UISANCE of wall paper is obviated by ALABASTINE. It can be used on plastered walls, wood ceilings, brick or canvas. A child can brush it on. It does not rub or scale off. ESTABLISHED in favor. Shun all imitations. Ask paint dealers or druggists for tint cards. Write for "Alabastine Free," free, to ALABASTINE CO., Grand Rapids, Michigan.

CHAPTER VI.—CONTINUED.

From the depths under our feet we could hear McPherson and the captain in earnest conversation, broken now and then by a dull tapping, as of a hammer on hollow or fractured steel.

He smiled reassuringly as he reached the grating where we stood, but looked thoughtful. As soon as he stepped out on deck the passengers crowded about with anxious questions; and he told them, briefly, that there had been an accident to the shaft, how serious a one it was impossible to say at present, but that the ship was in no immediate danger, and that they had better go below for lunch.

When we reached the saloon every one was talking excitedly about the accident and speculating as to whether the steamer would be obliged to lay up for repairs at Yap. The pulsation of the screw was noticeably slower; and the second mate, after hastily finishing his meal, hurried on deck to re-see Diaz, so that he might consult with the captain.

Late in the afternoon, Halstead came down from his room, followed by the mate, and told those on deck that, owing to the accident, he had decided to head for the island of Guajan

in the Ladronez, where he hoped to obtain spare machinery which would enable the steamer to make the remainder of the voyage in safety. Then he asked the senorita, Padre Sebastiano and me if we would like to go down into the engine-room and see the damaged shaft. I fancy the padre would have preferred remaining on deck, but, as it was against his principles to miss anything, we went, holding bunches of cotton waste as a protection against grease on the hand-rails and machinery. The captain naturally went first, and the senorita followed, blushing like a peony at the revelations for which the steepness of the iron ladder was responsible.

With that ominous fracture before us, the wisdom of his decision seemed undeniable, and the whole affair had been managed in so realistic a manner that I thought the engineer had done his work a little too well. Having seen all there was to see, we made our

"NINE OR TEN OF THE HOURS! SANTISIMA!"

way back to the engine-room, where Halstead scared Gracia nearly out of her wits by placing her hand upon the throttle-lever and telling her to push it down, slowly, the answering plunge of the great connecting rods making her think that something was about to explode. Then we climbed to the deck, the senorita insisting that Sebastiano should go first with me, and accepting Halstead's support in order to keep him on a level with herself.

During the remainder of the afternoon, Sebastiano appeared to be in a brown study, planking a secluded corner of the deck with Cura Juan. At dinner he started a discussion concerning the change of route by joking the cura upon the unexpected length of his voyage, and hoping that it would not inconvenience the other passengers; adding that as far as he personally was concerned the accident had been a fortunate one, inasmuch as it would enable him to reach his destination at least two weeks sooner than he expected. I noticed that he was questioning Diaz during their coming on deck together, or when they approached Halstead and myself as we were enjoying our after-dinner cigars on the bridge. Diaz merely touched his cap and retired to port, but the padre, remaining upon the ladder until he should receive permission to invade the official precincts, said that he'd like to have a little chat about the voyage.

Halstead sent one of the quarter-masters below for another stool, and courteously offered him a cigar. When we were settled comfortably, the padre said: "Senor Capitan, this my first voyage is to the Ladronez; but much of the interest I have for them, and the intention have to un gran descripcion write while among las Islas I do remain. You the knowledge have that I go to Saipan, I believe. Yes? And Saipan is how far from Agana?" "M—well, let me see. I presume you'll stop at Garapang, that's Tanapa harbor. About a hundred and twenty-five miles, padre."

the—the proas, the native boats; and that very wet they sometimes are—my descomodo."

"Well, they are rather cramped for room, and, I guess, when there's much of a wind, rather sloppy. Still, they are very fast; if you have a good wind you can make the run in nine or ten hours, I should say."

"Nine or ten of the hours! Santisima! In the one position! What does one not do por la servicio piol! He is not the voyage dangerous, is he, capitano?"

"Dangerous? Oh, I don't think so, at this time of year. You might strike a hurricane in July or August, but you could put in at one of the islands if the weather looked threatening; they're none of them very far apart. You're familiar with the general position of the archipelago, are you not, padre?"

"Si, senor; I have seen them upon the atlas. Like the string of little pin-points."

"Shucks! You can't tell anything about them from an atlas; the scale's too small, and they're miles out of the true position. Haven't you ever seen a chart of the Ladronez? Would you like to look at one?"

"No—si—he mucho interes por las islas. I fear it will you incomodar."

"Not at all, padre; not at all. If you and Mr. Stevens will come below, I'd be pleased to show it to you. I'm obliged to refer to the charts constantly, you know."

The Murray chart of the western Pacific was still upon the table in our quarters, and Halstead took from the locker another, on a larger scale, of the archipelago itself, showing the exact shape and bearing of each island. From the absorbed way in which the padre bent over them and listened to the captain's remarks, it was easy to see that his education had been a broad one, comprehending readily, as he did, marks and measurements that would have puzzled most landsmen. Halstead had carefully erased our pencilings from the larger chart, leaving only the course as actually sailed up to noon of that day; and at Sebastiano's request he drew a line to indicate the direction in which we were then sailing—east, half north—in order to make Point Orote, on Guajan. When he removed the ruler, Sebastiano said:

"I was told, capitan, that el Guajan the most southerly island was; but here I do one more see—la Isla Santa Rosa, with five little crosses marked in its circle. All entiendo; he is una isla de coral—una laguna. Is it not so?"

"Well, it may have been a good while ago, padre; but it's all under water now, and has been for several hundred years. We call it a reef in English—'una roca sumergida,' I guess you'd say. There's no doubt but that it was there once—several of the old navigators mention it—but, you see, these islands are volcanic, and it has probably sunk, because no captain has found it since 1740."

"Ah! entiendo. Each of the capitanos who do sail near it do make the sounding, and when find they do not, behold, it no longer must there be. I suppose many the examination must have made, that los geografos so sure are that it is now gone?"

"Well, not very many. The Challenger didn't get as far east as the Ladronez, and the American cruiser Alert is the only one that really made much of a search. You see, the supply boat only comes out here four times a year, and the place is not in the track of any other ships."

"And the capitanos de los vapores de la Compania—yourself also—have been unsuccessful?"

"Why, personally, I've never looked for it. You see, there's plenty of sea room to keep clear of the place, and I don't see the use of risking my ship by fooling around where a shoal certainly existed at some time or other. As for the other capitanos who run out here, I doubt if they would bother about it, either."

"But would not you much honra gain, and una gran recompensa from la sociedad geografica, if the correct report of su posicion you did send them?"

"Oh, the Royal society is always glad to get anything of the kind, and they like to have every captain send in what information he can; still, a merchant skipper wouldn't be expected to go out of his course for such a search. The warships are supposed to do most of the surveying, you know, padre."

"Ah, si, that I do know, of course. But, as you say, they come not often to the Ladronez. Well, perhaps while I la gran narracion de las Islas am writing, I may be able to make an examinacion with those native proas you did speak of. If so, the true position of every roca y isla in the archipelago I will send to you. Then los capitanos the name of el Padre Sebastiano will bless; is it not so?"

"Why, padre, if you're really going to write a book on the group, I've no objection to helping you out all I can. Bound as we are for Guajan, it wouldn't take us more than a few hours out of our way to pass the position of that reef and take a sounding or two, if you think it would be worth while. But you'd have to make it right with my primero, Mr. Diaz. He feels pretty sore about having to overhaul his cargo on account of our shifting about; you see, Guajan has

always been our last stop, and the Agana stuff is in the lower hold. But if you can persuade him that there's a chance of glory and thanks in it, he may feel in better humor. You go talk to Diaz and Moreno; say that it'll give them five or six hours more to get their stuff up, and work it in as a favor to the church. Then if they come to me and say they'd like to take a whack at Santa Rosa, I'll head her a quarter further east in the morning."

"Ah, capitan, I have the fear you are un hereje; you do make the joke upon the padres. But you are un benevolo so I you forgive. El primero I will see and him absolve. Buenas noches."

When Padre Sebastiano was out of hearing Halstead and I looked at each other. His expression must have been a reflection of my own, for it said, as plainly as words:

"Well, what do you think of that? I shook my head. It was a little too much for me. We smoked in silence for several minutes. Then the captain sauntered out on deck, to be sure there was no one near, and carefully closed the door when he returned.

"What I am trying to figure out," he said, "is whether that oily old duck is convinced that we are interested in the reef, or whether his suspicions have been so completely lulled by the accident that he thinks it safe to meddle with it on his own account."

"Your impression is, then, that his book on the islands is nothing but a fake?"

"M—blessed if I know what my impression is. If he were really planning such a work, nothing would be more natural than the questions he asked, or his anxiety to obtain all possible information. These islands have never been written up; there isn't even a cyclopedia that devotes more than a thousand words to them, mostly relating to their discovery and nothing else; and it would be a natural explanation of such a trip undertaken by a man of his position and learning. On the other hand, every word and action might easily be construed as indications of a secret purpose connected with that reef. I guess the only safe thing is to accept the last supposition and keep him from making anything out of it. We fooled him on the accident, anyhow."

"H'm—fooled ourselves a little, too, didn't we? You didn't count upon an actual crack in that shaft, did you?"

"What! Do you mean to say that, knowing all about it, you— Well, I'm—I that's a compliment to Mac. Why, man alive, he made that scratch with a Cape chisel while she was making 90 turns, then filled it with lamp-black and oil. He took the screws out of the tank brackets and fixed them with wooden plugs, so's it would fall straight when she rolled to leeward, and the hammer he used—that made it sound so hollow—had a wooden head blackened with plumbago. The shaft is as sound as a new dollar, but we'll have to put a few of those clamps on it to carry out the deception."

"Well, you fooled me completely. For an impromptu accident, it was a howling success. Old Palacios won't move six feet from a life-preserver for the rest of the voyage. But how about those soundings? Are you really going to take them?"

"Well, I rather guess I am, as a particular favor to my friend el Padre Sebastiano. And, being quite interested in his forthcoming book, I shall use every endeavor, within the time that I can spare, to make a thorough search for it. But I'm very much afraid—very—that he'll be no wiser than he was before. Why, Harry, I'd have steered straight for the place myself, if I'd dared. But further irregularities so soon after the accident wouldn't do. Now I'm obliging the padre; and, by thunder, I've got him just where I want him."

Frugality of a Naturalist.

Agassiz, when a young man, paid a visit to the great German naturalist, Prof. Lorenz Oken. The professor received his guest with warm enthusiasm but apparent embarrassment. He showed his visitor the laboratory and the students at work, also his cabinet, and lastly his splendid library of books, a collection well deserving the glow of pride which the owner manifested as he expatiated on its excellence. The dinner hour came, and then the embarrassment of the great German reached its maximum point. "M. Agassiz," he said, with perturbation, "to gather and keep up this library exacts the utmost husbandry of my pecuniary means. To accomplish this I allow myself no luxury whatever. Hence my table is restricted to the plainest fare. Thrice a week our table boasts of meat; the other days we have only potatoes and salt. I very much regret that your visit has occurred upon a potato day." And so the splendid Switzer and the great German, with his students, dined together on potatoes and salt.—San Francisco Argonaut.

Potato Patch Farming Pays. The average yield from potato-patch farming in Philadelphia this year was \$240 an acre. For each dollar expended from \$4.50 to \$5 worth of produce was realized.

ELECT NEW OFFICERS.

McKisson Defeated for Mayor in Cleveland—Returns from Michigan.

Cincinnati, April 4.—The elections in Ohio Monday were general for municipal and township officers. While local issues usually control these spring elections, yet there were other influences in some places Monday. At Cleveland there was a decisive democratic victory on the head of the ticket only, but it was not due alone to the local opposition to Mayor McKisson for a third term. McKisson last year was the candidate of the bolting republicans, and the democrats in the legislature against Senator Hanna. At Columbus, a republican mayor was elected for the first time in 12 years. At Cincinnati the republicans have a plurality of 7,000, and the present democratic mayor was elected two years ago by almost as large a plurality. At Dayton the democrats made municipal gains, but the republicans gained in the township, which seems to be the case throughout the state. While the greatest change was at Cleveland, where the republicans have controlled the city for years with Robert McKisson as mayor, yet what is known as the Western Reserve maintains its usual republican majorities, with some gains over those of former April elections, notably at Youngstown, Warren, Cadiz, Delaware and other cities in northeastern Ohio. In the smaller cities, as well as in the rural districts, the republicans claim gains, notably at Chillicothe, where there was a change, Mayor Brown being defeated for reelection by James Wood, by 300. At Defiance the democrats lost two councilmen and a member of the board of education. At Hamilton the democrats maintained their majorities, also at Lima, Newark, Circleville, Upper Sandusky, Wapakoneta, Millersburg and Van Wert. At Zanesville and Marysville the republicans were successful, and they made gains at Napoleon. As a rule the vote was light. At Canton, the home of McKinley, James Robertson, republican, was elected mayor by 13 plurality, a change from the present democratic administration.

At Toledo the big fight of the day was won by the independents, with Samuel M. Jones as the candidate for mayor. His plurality is not less than 6,000, and it may be higher. Corp. Patrick Henahan, the democratic candidate for city attorney, has probably been elected. He is with the Sixth Ohio, in Cuba, and his returned soldier friends of the Tenth Ohio turned out irrespective of party and pushed him through. With the exception of police commissioner, the remainder of the regular republican ticket has been elected. With the return of Mayor Jones to his place, the question of the city purchasing an electric lighting plant and other public utilities will come before the council, and the people will be given an opportunity of voting on the same, and they will no doubt sanction the purchase. The city council, while republican, is in favor of the municipal ownership idea, many candidates being forced to adopt the idea in order to get the Jones support.

Detroit, Mich., April 4.—Monday's elections in Michigan did not show any marked change in the general political complexion of the state, which is nominally republican, but the result shows quite heavy democratic gains in some of the larger cities, notably so in Detroit, Grand Rapids, Saginaw, Jackson and Kalamazoo. On a generally light vote, the republicans held their own in the smaller cities and throughout the rural districts. Circuit judges were elected in 36 judicial districts. Of these about two-thirds of the new judges, who are elected for six-year terms, are republicans. The republicans reelect Judge Claudius B. Grant, as justice of the supreme court, by a majority of at least 20,000. They also elect Henry S. Dean and Eli R. Sutton regents of Michigan university by somewhat greater majorities. Thomas E. Borkworth, democratic candidate for justice, ran nearly 6,000 ahead of Judge Grant in Wayne county (Detroit), and Grant received only a thousand plurality in Kent county (Grand Rapids), which, in recent years, has shown much heavier republican majorities. Local and personal issues played the usual conspicuous part in the spring elections throughout the state, but the republicans were generally successful in the townships and smaller cities, in several cases by increased majorities on a light vote.

At Grand Rapids the democrats elected R. L. Nowham judge of the superior court, but the remainder of the ticket is still in doubt at midnight. The democrats elected seven out of twelve aldermen, making the new council stand: Democrats, 17; republicans, 7.

At Ludington full city returns give Carter (rep.) 137 majority for mayor. The democrats elect a majority of the city council, making the municipal offices stand the same politically as last year.

Clearwater elects the entire republican ticket, excepting marshal. Clayton Johnson is elected mayor by 572 majority. The state ticket receives a republican majority. No change in the city politically from last year except in increased majorities.

At Jackson Mayor Loennecker (dem.) is reelected by about 1,000 majority. Last year he had 254.

The republicans carried Battle Creek by the election of all officers excepting one alderman. Supreme Judge Grant and Circuit Judge Smith received large majorities. Every constitutional amendment was carried.

At Bay City the entire republican city ticket is elected by about 300 majority. Meager returns from the county indicate republican successes, although the circuit judgeship is still in doubt. In West Bay City the republicans elected controller and three aldermen, the democrats the other officers.

At Kalamazoo the democrats elected mayor and three aldermen, the republicans city treasurer and two aldermen. The entire democratic state ticket is elected by over 300 majority.

TRAGEDY IN MINNEAPOLIS.

A Love-Sick Miller Kills the Object of His Affection, and Shoots Himself.

Minneapolis, Minn., April 4.—John McGraw, a miller, shot and instantly killed Mrs. Stacey Miller Monday afternoon, and then shot himself. Mrs. Miller kept a boarding house, and McGraw has been living there three years. He was in love with the woman, who, for a long time, returned his affection, but lately she had treated him coldly, and Monday morning, it is said, requested him to leave the house. After dinner he went out and procured a revolver, and, returning, called Mrs. Miller into the parlor, where, after a few words had passed, the tragedy occurred. The couple were about 30 years of age, and were connected with families well known throughout the state.

THURSDAY, APRIL 6, 1899

The whole state Republican ticket was elected.

Only two offices escaped the Republicans in Sylvan, the town clerk and one constable.

Detroit Journal: Justice Grant ran against Gen. Apathy, Unreasoning Prejudice and Col. Barkworth, and yet he won a splendid victory.

Hon. E. D. Kinne has again demonstrated his extreme popularity as a fair minded judge, and was elected by the handsome majority of about 1,200.

Of the \$55,000,000 special war taxes collected under the act of June 13, 1898, up to January 1, 1899, over \$23,000,000 came from documentary and proprietary stamps.

The state of Michigan still has 276,176 acres of land subject to homestead entry, and with the passage of a law to protect the homesteaders thousands of acres will be taken up.

During the year 1898 gifts to public institutions amounting to the princely sum of \$11,000,000 were made by 23 persons. The largest of these gifts was \$3,500,000 by Cora J. Flood to the University of Chicago, and the smallest \$200,000. Times were not hard with the donors of these gifts.

Speaking of the sparrow bounty law which is such an expense to the taxpayers of Michigan, Prof. W. B. Barrows, of the state agricultural college, declares that it is unnecessary and injudicious. He says the sparrows will not increase rapidly in this cold climate and if killing is necessary a little poison would be more humane and less expensive. The only objection to the poison is, it might be the death of birds we have no desire to get rid of.

Acting Assisting Attorney General Harrison J. Barrett, for the U. S. postal department, on Friday rendered two decisions regarding the government's policy towards the chain letter schemes that have been so vigorously worked during the past few years. He holds that in certain cases where prizes are offered they are distinct violations of the lottery law. Promoters of these schemes had better make sure of the ground they tread on before entering into one of them in future.

WHY CHILDREN LIE.

Brooklyn ladies are trying to find out why children are liars. They are going into the matter with scientific probes, and they propose to lay bare the roots of the prevaricating habit and apply remedies. So far they have found that girls are bigger liars than boys, and that both sexes like Satan. After long psychological research and astute scientific investigation they will probably fail after all to discover that the real cause is to be found in the deceptiveness of parents, which they inherit. Children lie because their fathers and mothers do. People may not like the sour philosopher Carlyle, but if they have eyes they must regret with him the sham and deception that exists in the world today. There is an infinite amount of humbuggery, and it is to be found on every side, and it is as natural as breathing that children should take to it. The mother who greets her visitor with effusive welcome and then begins to discuss that "horrid woman" before her children as soon as she is gone, can scarcely expect to have truthful children.—Grand Rapids Herald.

Michigan is still a Republican state. For particulars see the list of majorities at Monday's election.

For the first time in 20 years the Republicans have a majority on the board of supervisors.

During the calendar year just ended the exportation of domestic products from the United States exceeded those of the United Kingdom of Great Britain and Ireland. This is a very notable fact as may be judged from the following figures: Ten years ago the exports of Great Britain were more than double ours, and France and Germany also overtopped us. In 1897 we had passed both these countries and were only 26 per cent behind Great Britain. And now American push, invention and mechanical skill has been the means of our passing the erstwhile greatest commercial nation in the world.

MESSAGE.

Chelsea, Mich., March 23, 1899.

Gentlemen of the Council:

In assuming the duties of President of this village, and by virtue of that position as your presiding officer, I would ask your kind co-operation and forbearance in the discharge of my duties.

At this, our first regular meeting, I deem it proper to make a few suggestions as to my position, and your action, upon questions most concerning the welfare and prosperity of our village.

First. I believe that a committee of three should be appointed to make a careful inventory of all the village property, and compare same with any former inventory; also to make a full and complete statement of the financial condition of the village, and report same to this council as soon as conveniently possible.

Second. I would recommend the most rigid economy in the management of the affairs of the village, and the immediate discharge of all unnecessary or inefficient officers.

Third. I would recommend that the management of the electric light and water works plant be placed in the hands of a committee of three composed of members of this council, this committee to act without compensation.

Fourth. I would recommend that the liquor law be enforced to its full spirit and intent.

I would suggest that we conduct the affairs of this village in a thorough and business like manner, each committee cheerfully and diligently doing the work assigned to it, dropping all differences, if any, and working in unison and harmony

with each other, so that at the end of our term, it can be said that this village has had a good, practical, economical, honorable and impartial government.

In conclusion would say, let us proceed with justice, honesty and integrity as our motto. Yours very respectfully,

GEO. P. STAFFAN, President.

Moved by McKune and seconded by Avery, and resolved, that the President and two Trustees to be appointed by the President, shall constitute the Electric Light and Water Works Committee for the ensuing year, without compensation; that said committee are hereby constituted the managers of said water works and electric light plant with full power to oversee, employ and direct the electrician, engineers, secretary, and other laborers needed, and to supervise and direct the purchasing of all supplies, and material needed in the running of said plant, making reports of their doings from time to time, as the council may require. All bills to be audited by the council.

Yeas—Schenk, Vogel, McKune, Avery, Twamley and Bachman.

The following treatment is recommended by Prof. L. R. Taft, of the Michigan Agricultural College experiment station, for curl leaf on peach trees: Spray with a solution of copper sulphate, (one pound in 20 or 25 gallons of water) as early in the spring as possible. While this spray will suffice in seasons when the weather becomes warm and dry after the trees bloom, it will be desirable to give the trees an application of Bordeaux mixture as soon as the fruit has set. Paris green can be added at this time for the destruction of curculio and other insects.

The Maccabees gave a social in their hall Tuesday evening which was attended by about 200 people. A pleasant evening was spent, during which J. J. Raftrey entertained the gathering with his graphophone.

Our old friend, Wm. F. Hall, supervisor of Sharon, was so absent minded that he failed to call at the county clerk's office to get the election supplies for his township, and County Clerk Schuh had to swear in a special messenger to deliver the package to him.

Dr. R. S. Armstrong's son, Arthur, underwent another operation for the removal of pus from his lungs yesterday. About three pints was taken away. The little sufferer withstood the shock well. A drainage tube has now been inserted to draw off the matter.

Titus F. Hutzler, of Ann Arbor, has made the discovery of a deed which entitles him and the other heirs of his father, August Hutzler, to a parcel of land in Manchester village, adjoining to the school building, which is now used as a play ground by the school children.

Governor Pingree has issued a proclamation naming Friday, April 28, as Arbor Day, and recommends that the state school boards, faculties, teachers and students of the public schools, colleges, normal schools and other educational institutions observe the day by suitable exercises and by planting of trees, shrubs, vines and flowers.

A tramp harnessmaker who gave his name as Meyers called on C. Steinbach one day last week asking for work. Friday last he was in Ann Arbor and asked Mr. Steinbach's uncle, Jacob Volland, for some work. He was told to come round the next morning. After he had left Mr. Volland's shop some tools were found to be missing. Sheriff Gillen was informed and the fellow was arrested in Ypsilanti. He gave his name as Michael Miller and is now in jail awaiting trial.

Two damage suits against the Michigan Central in which Chelsea parties were interested were settled and discontinued by attorney A. J. Sawyer yesterday. Wm. G. Lewick asked for \$10,000 for injuries received while working with the telephone construction gang at Francisco. The amount paid by the company is said to be between \$1,200 and \$1,300. The other was that of Mason Whipple, administrator of the estate of Arla Leach, who died from injuries received by being thrown from a train at Essex Centre, Ont. The basis of this settlement is not stated.

The barn on North street, the property of Thomas McNamara, an insane person confined in the Pontiac asylum, either caught or was set on fire Monday night about 10 o'clock. It was a mass of flames before the fire department could get any water on it, and it was left to burn itself out. In the barn were the vehicles and farming tools belonging to Mr. McNamara, also part of his household goods which had been stored there for the past six years or more. A first glance after the alarm sounded made many think it was the Glazier stove works that were on fire. It is the general belief that the barn was set on fire purposely.

Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and, to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed at Glazier & Stinson's Bank Drug Store.

HELPING TO MAKE LAWS.

The University of Michigan Is Well Represented in the Legislature of the State.

TWENTY FORMER STUDENTS MEMBERS.

Six Are in the Senate and the Remaining Fourteen in the House—Brief Sketch of the Gentlemen Who Have Been Honored Politically and Otherwise.

[Special Correspondence.]

Ann Arbor, Mich., March 29.—Twenty of the members of the present Michigan state legislature have been students at the University of Michigan. Six of the 20 are in the senate, 14 in the house.

In 1875 Theron W. Atwood, of Caro, who is now senator from the Twenty-first district, was graduated from the law department of the university.

Eight years later Addison M. Brown received the degree of A. B., he completing the work required for the classical degree with the first semester of the college year of 1882-83. He entered the university after graduating from the Schoolcraft high school. During his freshman year in college he filled the office of class treasurer. In his senior year the honor of class seer was bestowed upon him. He was a member of the Psi Upsilon fraternity. Mr. Brown's home is Schoolcraft and he represents the Ninth district.

E. A. Blakeslee, who represents the Seventh district, attended the university for three years. Two of these were spent in the literary department and one in the law. His home address is Galien, where he was born and where he received his elementary schooling.

During the year 1880-81 Ira T. Sayre was a student in the law department of the university. He is now senator for the Thirteenth district. His home is at Flushing.

The degree of bachelor of law was conferred on A. G. Smith, now of Lake City, in 1890. His elementary schooling was secured in Ionia county and in the Portland (Mich.) high school. Mr. Smith represents the Twenty-eighth district.

William W. Potter, the senator from the Fifteenth district, received the degree of LL.B. from the university in 1895. His home is at Hastings, Mich.

The oldest university alumni in the house of representatives is Henry M. Cheever, of the First district of Wayne county. He completed the classical course in 1853 and received the degree of bachelor of arts. Three years later he was given the degree of master of arts. For the last 40 years he has been a lawyer in Detroit.

The representative for the Second district of Kalamazoo county, James M. Davis, studied law for one year at the university. Before entering the University of Michigan he was a student at Asbury college, now De Pauw university.

W. J. Duff, of St. Clair county, was graduated in 1885 as a doctor of medicine. Previous to entering the medical department of the university he attended the high school at Port Huron. After being graduated from the Traverse City high school in 1885 and being principal of the schools of Somnauk, Ill., William H. Foster entered the university. In 1890 he was graduated from the law department. Mr. Foster now represents the Grand Traverse district.

L. A. Goodrich had the honor of being treasurer of his class during his senior year at the University of Michigan. He was graduated from the school of pharmacy in 1882. He represents Hillsdale county in the house.

The degrees of bachelor of arts, bachelor of law and master of arts have been conferred on Humphrey S. Gray, of Ludington, by the university. The first was received in 1893, the second in 1894 and the third in 1896. Mr. Gray put himself through college by working on the docks, tallying during the summer season and studying hard winters. Since leaving the university he has filled the office of prosecuting attorney of Mason county and city attorney of Ludington.

The representative of the Alpena district, Henry K. Gustin, is a graduate of the literary department of the university. He has also been a student in the law department.

After attending Stratford college Sherm T. Handy entered the law department of the University of Michigan, from which he was graduated in 1891. He now represents Dickinson district, with his home at Crystal Falls.

Burton L. Hart, who is from the Second district of Lenawee county, attended the University of Michigan during the years 1890-91 and 1894-95. In the last mentioned year he was graduated with the degree of bachelor of law.

David E. Heineman is a graduate from the literary department of the university. In 1887 the degree of Ph. B. was conferred on him. Mr. Heineman is the representative for the First district of Wayne county.

The degree of doctor of medicine was given to George Howell in 1863, after completing the work of the medical

department of the university. His home is at Tecumseh and he is looking out for the interests of the First district of Lenawee county in the present legislature.

Way back in 1867-68 George S. Wheeler, of Salem, was a student in the law department of the university. Since leaving the university he has filled many important places of trust. At present he represents the First district of Washtenaw county.

Angus W. Kerr, of Calumet, the representative of the First district of Houghton county, studied at the university during the year of 1891-92. He was a member of the law department.

Only last June George P. McCallum completed his university course and took the degree of bachelor of law. During his senior year in the institution he was president of the Republican club and president of the Masonic club. He also took an active interest in college affairs. When in college he expected to locate at Deadwood, S. D., but subsequently changed his mind and now is the representative for the Delta district.

DECLARED ILLEGAL.

Michigan Insurance Commissioner Says He Will Not Allow Special Board Agency Life Contracts.

Insurance Commissioner Campbell has declared war upon special board agency life contracts in Michigan. He has no means of knowing how many life insurance companies have adopted this system, but its adoption is believed to be quite extensive. The plan has never met with the commissioner's approval and has only been allowed because of the representation that it was simply a method adopted to compensate agents. The commissioner says:

"After one year of trial it has been found that the plan is not for the purpose of compensating agents, but as conducted is, in the opinion of this department, clearly a violation of act No. 171 of the laws of 1889, known as the anti-rebate laws. It discriminates between policy holders, and its object is not that which is claimed. In view of this fact I have decided to, and do hereby request, all companies operating under any such plan in this state to at once desist from the further use of the same."

The commissioner has sent the above notice to all life companies with the statement that a continuance of the plan will subject them to the penalties provided by the law.

MICHIGAN MARL LANDS.

An Examination Shows Remarkably Favorable Conditions in Southern Portions of the State.

Prof. I. C. Russell, of the geological department of the University of Michigan, has recently made an examination of marl lands in the southern part of the state, and found remarkably favorable conditions. The marl, mixed with ordinary clay, is used in the manufacture of Portland cement, and Michigan will evidently take a leading place in this industry. The marl occurs as a highly calcareous or limy mud or ooze in the bottom of the lakes and in marshes. It usually contains shells and appears light colored or nearly white on drying, but is sometimes darkened by organic matter. The swamp lands where the marl occurs are usually considered as of little value, but they are really worth more per acre than the best of agricultural land, and at the present time are in demand.

University Faculty.

The total number of persons in the faculty of the University of Michigan at Ann Arbor the present year is 222. Of this number 61 are professors, 7 junior professors, 11 assistant professors, 1 lecturer, 62 instructors, 46 demonstrators and assistants in instruction, 11 nonresident lecturers, and 22 librarians and other officers of administration or assistants not giving instruction. Six of the 222 are absent from college pursuing special studies.

Saved by a Button.

Charles Mitchell, a young farmer in New Haven township, Shiawassee county, attempted to commit suicide because his lady love would not consent to marry him. He had been paying her attentions a long time, but she would not consent as she considered they were yet too young to be married. Charles drew a revolver and thought he had killed himself. A steel vest button caused the bullet to glance aside, lodging in his clothing.

Traveling Libraries.

Miss Somerville, president of the local Traveling Library association, has been notified by the state librarian, Mrs. Spencer, that five traveling libraries will be furnished for Menominee county, one each for Stephenson, Mellen, Spalding, Nadeau and Cedarville townships. There will be 50 volumes of classified literature in each library.

Double Wedding.

Misses Flora and Anna Asher, two sisters, prominent in Jewish society, were married in Chicago to two men from Michigan. Miss Flora became the bride of Joseph Marienthal, of Midland, and Miss Anna wedded Jacob Barrett, of Mancelona. Rabbi Moses pronounced the double ceremony.

The triple funeral of Henry Grills, C. K. Clemens and T. Bennett, volunteers who lost their lives in the Santiago campaign, was held in Ironwood.

MICHIGAN STATE NEWS.

Killed by a Blow.

Leon Cram, aged 18, killed Falma Nelson, a comrade, by a blow with his fist. Both boys were employees of the Welch folding bed factory in Sparta. In his anger Cram struck Nelson on the point of the jaw, causing, it is believed, concussion of the brain, resulting in Nelson's instant death. Cram surrendered to the authorities. The coroner's jury in their verdict attached no blame to Cram as it developed that he was a butt for all the rude jokes in the factory, and that Nelson had tantalized him until he was goaded into striking him. It also appeared that Nelson struck the first blow.

Arbor Day.

Gov. Pingree has issued a proclamation naming April 28 as Arbor day. He says:

"I hereby call to the attention of the people of the state the importance of planting on that day trees for ornament and shade, and I recommend that the state school boards, faculties, teachers and students of the public schools, colleges, normal schools and other educational institutions, observe the day by suitable exercises and by planting of trees, shrubs, vines and flowers."

Health in Michigan.

Reports to the state board of health from 64 observers in various portions of the state for the week ended March 25 indicate that measles and neuralgia increased and scarlet fever decreased in area of prevalence. Consumption was reported at 126 places, measles at 39, typhoid fever at 29, scarlet fever at 50, diphtheria at 22, whooping cough at 12 places and smallpox at five places.

Overlooked One Child.

Silas White, living two miles east of Clio, awoke in the night and found his house on fire. He hurriedly awoke his family and they escaped through a window just as the roof fell in. All were in their night clothes and went to the barn for shelter, where it was found one child, four years old, had been left in the house and had perished in the flames.

Was a Philanthropist.

Mrs. Hussey, widow of Erastus Hussey, famous as an abolitionist, died at Battle Creek, aged 91 years. She assisted her husband in the publication of the Liberty Press and in operating the system of freeing slaves by the "underground railway," by which over 1,000 were rescued from slavery. Mrs. Hussey was a Quaker philanthropist.

Took Carbolic Acid.

Standing in the presence of his family in Lansing Charles G. Lauzun swallowed a fatal dose of carbolic acid after saying "Good-by to everybody." One year ago Lauzun's son was murdered, his head being beaten with a gas pipe. The mystery surrounding the murder has never been solved and the father's action is attributed to this fact.

Suspected of Murder.

Alex Marr, aged 64, who lived alone on the old Moore farm five miles east of Clio, and was supposed to be a miser, was found dead on the floor by John Boyer. A man named William Spears was suspected of being the criminal and he was arrested at Birch Run and taken to the county jail at Flint.

News Items Briefly Told.

Clara Thayer, of Mason, was convicted of forgery and sentenced to five years' imprisonment in the house of correction at Detroit.

The population of Hillsdale county is increasing rapidly. In the past 60 days five pairs of twins have been born within six miles of Camden.

The state G. A. R. encampment will be held at Petoskey June 21-22 next, and promises to be one of the best held in many years.

The international convention of the Young Men's Christian association will be held in Grand Rapids May 25 to 28, inclusive.

The Smith family is a great institution in Michigan. Three of the state's 12 representatives in congress belong to it, and four of the 36 circuit judges sign their names that way.

The vote for village treasurer in Tekonsha stood a tie and the matter was determined by lot, De Casy being the lucky candidate.

Marshall is to have a new opera house, costing \$20,000.

The people of Lake Linden decided that they didn't want to spend \$30,000 for a modern system of sewerage for the village.

There has been born to Mr. and Mrs. Dan Ross, of Deckerville, a pair of twins weighing only one pound and three-quarters of a pound, respectively.

Clay suitable for manufacturing fire brick has been found near Minden City. A smooth-talking fellow passed two \$15 forged checks at Saginaw recently. Sand Beach has voted to bond for \$10,000 to rebuild the high school building burned some months ago.

The old church at Leoni, formerly the chapel of the Wesleyans, is being torn down. The civil war killed the Wesleyan college there, so many of the students departed, and now the last relic is gone.

Nels Bloomquist, aged 62, and his wife, aged 65 years, died within seven hours of each other in Rodney and were buried together in one grave.

THE NEW METHOD OF BLOOD PURIFYING.

What the New Discovery in Medical Science Has Accomplished.

The Prompt Way to Cure Yourself When Symptoms Show That Your Blood is Out of Order.

THE EMINENT SPECIALIST'S FREE OFFER TO ALL READERS OF THIS PAPER.

For a great many years it has been the custom for sick people to say: "My blood is out of order. It needs purifying. I feel all used up. My skin needs clearing. My brain feels tired."

They are right, but do they act right? They generally go and get a laxative (bowel cleaner) to purify their blood. Does their blood run through their bowels?

Science has to-day furnished proofs that all the purifying that your blood needs, in fact, all that can be done, must be done by your kidneys.

All the blood in your body passes through your kidneys every three minutes.

The kidneys strain or filter out the impurities of the blood—that is their work. Purifying your blood is not a question of taking a laxative or physic.

Does your blood run through your bowels?

What the bowel-cleaner does is to throw out the poisons confined in your bowels ready for absorption into your blood, but the poisons which are already in your blood, causing your present sickness it leaves there.

There is no other way of purifying your blood except by means of your kidneys.

That is why bowel-cleaners fail to do their work—they fail to help the kidneys.

When you are sick, then, no matter what you think the name of your disease is, the first thing you should do is to afford aid to your kidneys by using Dr. Kilmer's Swamp-Root the great Kidney Remedy.

In taking Swamp-Root you afford natural help to nature, for Swamp-Root is the most perfect healer and gentle

aid to the kidneys that is known to medical science.

Dr. Kilmer, the eminent physician and specialist, has attained a far-famed reputation through the discovery and marvelous success of Swamp-Root in purifying the blood, and thereby curing chronic and dangerous diseases, caused by sick kidneys, of which some of the symptoms are given below.

Pain or dull ache in the back or head, rheumatism, neuralgia, nervousness, dizziness, irregular heart, sleeplessness, sallow complexion, pimples, blotches, skin troubles, dropsy, irritability, loss of ambition, obliged to pass water often during the day, and to get up many times at night, and all forms of kidney, bladder and uric acid troubles.

Swamp-Root is sold by all dealers, in fifty-cent or one dollar bottles. Make a note of the name, SWAMP-ROOT, Dr. Kilmer's Swamp-Root, and remember it is prepared only by Dr. Kilmer & Co., Binghamton, N. Y.

The great discovery Swamp-Root has been tested in so many ways, in hospital work, in private practice among the helpless too poor to purchase relief, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent absolutely free by mail, post-paid. Also a book telling more about Swamp-Root and containing some of the thousands upon thousands of testimonial letters received from men and women who owe their good health, in fact, their very lives, to the wonderful curative properties of Swamp-Root. Be sure and mention this paper when sending your address to Dr. Kilmer & Co., Binghamton, N. Y.

PREPARE for the turn of life. It is a critical period.

As indications of the change appear be sure your physical condition is good. The experience is a wonderful one and under some circumstances full of menace Mrs. Pinkham, of Lynn, Mass., will give you her advice without charge.

TALKS WITH WOMEN OF MIDDLE AGE

She has done so much for women, surely you can trust her. Read this letter from Mrs. M. C. GRIFING, of Georgeville, Mo.:

"DEAR MRS. PINKHAM:—The doctor called my trouble ulceration of womb and change of life. I was troubled with profuse flow-

ing and became very weak. When I wrote to you I was down in bed, had not sat up for six months; was under a doctor's treatment all the time, but it did me no good. I had almost given up in despair, but your Vegetable Compound has made me feel like a new woman. I cannot thank you enough. I would advise any woman who is afflicted as I have been to write to Mrs. Pinkham, at Lynn, Mass., and get her advice and be cured as I have been."

Mrs. F. H. ALLEN, 419 Nebraska Ave., Toledo, Ohio, writes:

"DEAR MRS. PINKHAM:—Change of life was working on me. My kidneys and bladder were affected. I had been confined to the house all summer, not able to stand on my feet for any length of time. Terrible pains when urinating and an itching that nearly drove me wild. I had tried many remedies. I told my husband I had great faith in yours and he got me a bottle; am now on my fourth bottle. I feel that I am entirely cured. I can work all day. I can hardly realize that such a wonderful cure is possible. Lydia E. Pinkham's Vegetable Compound is the best medicine for women."

Don't wait until you are prostrated with the mysterious condition known as "Change of Life." Get Mrs. Pinkham's advice and learn how other women got through.

THINKS WAR IS OVER.

Gen. Otis Regards Filipino Rebellion as Crushed.

Perilous Condition of Aguinaldo's Government - Dewey Sends Congratulations - Proclamation of American Commission.

Washington, April 4. - The following cablegram was received at the war department early Monday morning: "Manila, April 3, 1899. - Adjutant General, Washington: Present indications denote insurgent government in perilous condition: its army defeated, discouraged and scattered. Insurgents returning to their homes in cities and villages between here and points north of Malolos which our reconnoitering parties have reached and desire protection of Americans. News from Visayan island more encouraging every day."

(Signed) "OTIS." War department officials were pleased by the cheering dispatch from Gen. Otis. It contains a great deal of encouragement to them, and those who know Gen. Otis well say he is not a man to take a roscate view of the situation unless there is reason for it. It is argued at the department that the Filipinos have never been used to the kind of warfare that the Americans have given them, and for that reason they are now aware that it will be impossible for them to accomplish anything by fighting. While there is disappointment because the movement for the capture of a large force of the Filipinos was not successful, it is believed the pressing of the insurgents steadily toward the north, capturing their capital and driving them from place to place has had a very discouraging effect upon the natives who have been following Aguinaldo.

It is evident by the reference which Gen. Otis makes to reconnoitering parties that he is having the country thoroughly covered, and that the information which they are giving him is the basis of the dispatch. It is believed that desertions will soon deplete the army of Aguinaldo to little or nothing. That portion of the dispatch relating to the Visayans, refers to the operations of which Iloilo is the base. The group includes Panay, Bohol, Cebu, Negros and others of less importance. The rebellion against the United States authority was not very serious in these islands, being stirred up by emissaries of Aguinaldo at Iloilo. The constant defeat of Aguinaldo's forces north of Manila has, no doubt, had a depressing effect upon other insurrectionists.

Proclamation to Filipinos. Manila, April 4. - The Philippines commission, which is composed of Col. Charles Denby, Prof. J. G. Schurman of Cornell university and Prof. Dean C. Worcester, has issued a proclamation to the residents of the island calling upon them to lay down their arms and follow peaceful avocations. An extract from the proclamation is as follows:

"In the meantime the attention of the Philippine people is invited to certain regulative principles by which the United States will be guided in its relations with them. The following are deemed of cardinal importance:

"1. The supremacy of the United States must and will be enforced throughout every part of the archipelago, and those who resist it can accomplish no end other than their own ruin.

"2. The most ample liberty of self-government will be granted to the Philippine people which is reconcilable with the maintenance of wise, just, stable, effective and economical administration of public affairs and compatible with the sovereign and international rights and obligations of the United States.

"3. The civil rights of the Philippine people will be guaranteed and protected to the fullest extent, religious freedom assured, and all persons shall have an equal standing before the law.

"4. Honor, justice and friendship forbid the use of the Philippine people or islands as an object or means of exploitation. The purpose of the American government is the welfare and advancement of the Philippine people."

TO EXCHANGE TREATIES.

The Last Act in the War with Spain to Be Consummated This Week.

Washington, April 4. - Before the end of this week President McKinley will issue a formal proclamation announcing that war with Spain has ended. The Spanish copy of the Paris treaty, signed by the queen, is on its way to Washington.

It is addressed to M. Cambon, the French minister here, and will be presented by him to the president. M. Cambon, as the representative of Spain, will receive a copy of the treaty signed by the president and approved by the senate, and will forward it to Madrid. As soon as the formalities of exchange have been completed the president will issue the peace proclamation.

Don't Want to Pay Taxes.

New York, April 4. - William Waldorf Astor, who recently arrived from England, accompanied by his counsel, Charles Peabody, Jr., appeared before the tax commissioners Monday and filed an application for the taking off of his personal taxes, estimated at \$2,000,000, on the ground that he is a non-resident. Mr. Astor is proprietor of the Pall Mall Gazette in London. President Feitner, of the tax board, asked Mr. Astor if he had given up his citizenship. Mr. Astor answered that he had not, but he declared that he is a non-resident. President Feitner said the matter would have to be referred to the full board.

A SENSIBLE LETTER.

A Western Canadian Settler Writes to an Illinois Friend.

In writing to Mr. T. Hawkyard, of Rockford, Ill., Mr. G. Simpkins, of Leduc, Alberta, Western Canada, (and to which points especially low rates are being quoted over all lines of railway), says:

Dear Sir - Rec'd your letter the 14th inst. We have had no snow till after Christmas, and the cattle have been able to live out, and are all in good condition. It is snowing now. That is what we want - have, about 6 inches now. The old settlers say when we have lots of snow it means a good crop the coming season. It never drifts here. The weather is calm and bright. We do not have to dress any heavier than in Illinois, and the horses never shiver with the cold when we take them from the warm stable, as they do in Illinois. It has not frozen in the stable this winter.

The most of the stock runs out, but there is no need of it, for timber is plentiful and there is no expense to build good stables and houses. We have good log houses and they are very warm. Two men can put up a house 16x24 in two days. There are good rails for fences. We live ten miles from the coal district, the price being 50 cents up to \$2.00. The land is a very rich, loamy soil, from 6 inches to several feet in depth; the hills have the deepest. It is a rolling country, and excellent for stock of all kinds. Sheep do well, and there are plenty of small lakes where the cattle can get good water. The cattle got out of grass last year, about the middle of April, and run at large; unless in charge of a herdsman, we have to fence against them. Wheat goes from 35 to 60 bushels per acre, oats 80 and 90, very often a hundred. As to potatoes, a neighbor planted 7 bushels and dug 225 bushels, and no bugs. Roots of all kinds do well. There are lots of strawberries and lots of red raspberries, black and red currants, and gooseberries, where the fire has not burnt them. Cattle are scarce. I have been trying to buy some for 8 months and have got only three two-year-old, and paid \$30 each.

Hogs are scarce, but can be got. They sell for 6 cents dressed, and cost more for stockers. Wheat, 50 cents per bushel; oats, 25 cents; eggs, 30 cents a dozen; butter, 15 and 20 cents; poultry was 10 and 11 cents dressed. Sheep are scarce. If you come, bring your farm tools, but bring no seeders; we use drills. Bring cows, but do not bring horses unless you are an experienced hand in shipping them, for so many of them are hurt in shipping. There will be plenty of work for a binder. Two good horses will break, but three lighter are better. The horses you get here can work without grain, but are better with it. It will be hard to tell what prices horses will be, for the immigration will be very large the coming spring. They could not be had last spring at one time. They claim the best time to break is June, but my experience is to break in the spring and work it. You can break till the middle of July.

An Evidence of Prosperity.

It is generally conceded by economists, who study the commercial situation of the country, that the great arteries of railway travel are a sure indication of its condition. A depression in commercial lines means abandoned business trips and the cancellation of pleasure travel, while a healthy condition of affairs means business trips and an increase of passengers on pleasure bent.

A good evidence that a business revival has gone broadcast over this country is the "Lake Shore Limited," the star train of the Vanderbilt system, between New York and Chicago, which is daily comfortably filled. With a view to taking the best possible care of its patrons, the New York Central has arranged to increase the equipment of this train by placing an additional standard sleeper on the trains leaving New York and Chicago Tuesdays, Thursdays and Saturdays. To the regular traveler the appointments and comforts of this train are well known, but if you have never made a trip on it, you owe it to yourself to see and enjoy the advance made in comfort and luxury in modern railway travel. Remember the fare is no higher on this train, except between New York and Chicago, while the accommodations and service place this particular train conspicuously at the head of the list, when compared with other lines. - Albany Journal.

AN EXCELLENT COMBINATION

THE pleasant method and beneficial effects of the well-known remedy, SYRUP OF FIGS, manufactured by the California Fig Syrup Company, illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative,

CLEANSING THE SYSTEM EFFECTUALLY, DISPELLING COLDS AND HEADACHES, PREVENTING FEVERS, OVERCOMING HABITUAL CONSTIPATION PERMANENTLY.

Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, gently yet promptly, without weakening or irritating them, make it the ideal laxative. In the process of manufacturing figs are used, as they are pleasant to the taste, but

THE MEDICINAL QUALITIES ARE OBTAINED FROM SENNA AND OTHER AROMATIC PLANTS,

by a method known to the California Fig Syrup Company only. In order to get its beneficial effects, and to avoid imitations, please remember the full name of the Company printed on the front of every package.

Consumers of the choicest products of modern commerce purchase at about the same price that others pay for cheap and worthless imitations. To come into universal demand and to be everywhere considered the best of its class, an article must be capable of satisfying the wants and tastes of the best informed purchasers. The California Fig Syrup Company having met with the highest success in the manufacture and sale of its excellent liquid laxative remedy, SYRUP OF FIGS, it has become important to all to have a knowledge of the Company and its product. The California Fig Syrup Company was organized more than fifteen years ago, for the special purpose of manufacturing and selling a laxative remedy which would be more pleasant to the taste and more beneficial in effect than any other known. The great value of the remedy, as a medicinal agent and of the Company's efforts, is attested by the sale of millions of bottles annually, and by the high approval of most eminent physicians. As the true and genuine remedy named SYRUP OF FIGS is manufactured by the California Fig Syrup Company only, the knowledge of that fact will assist in avoiding the worthless imitations manufactured by other parties.
