THE SCHOOL RALLY

At Ann Arbor, Saturday, Was Well Attended and Aroused Much Enthusiasm.

A representative gathering of the friends of education in Washtenaw county was the rally at the court house, Ann Arbor, last Saturday. Three hundred teachers, school officers and visitors were present. It was a profitable convention and Commissioner Lister is to be congratulated on the enthusiasm he has succeeded in arousing in both the teachers and school officers. President John K. Campbell, of Augusta, made the opening remarks in the course of which he brought forward these facts: That there is a crying need of bringing the teacher, the school officer and the patron of the school into close harmony, is undisputed. The patron who fails to give the teacher hearty support commits a fatal blunder. That education is best which best fits the average child for the life he is likely to live. Only a small per cent of our children go beyond the eighth grade. There is a movement toward teaching elementary agriculture in the schools. The hurrying business man gives too little attention to school affairs.

J. L. Hunter, of Ypsilanti, presented a paper upon "How can the teacher become more helpful to the school." He said that a kindly spirit was the first requisite for a successful teacher. An iceberg teacher has no place in a school room. The teacher who fails to greet her pupils kindly and cordially on the street is guilty of gross discourtesy. Teach the child the duties of citizenship. Teach him to be more eager to scatter reports of good acts than scandals.

The paper was discussed by Mr. Crittenden, of Pittsfield, J. L. Lowden, Prof. A. D. DeWitt, of Dexter, and Commissioner Lister.

In the afternoon Prof. C. O. Hoyt, of the State Normal College, gave an able address on "The influence of school surroundings."

Wants a Divorce and Damages.

Why J. Brownell, of Manchestre, who a year or more ago worked in Chelsea and was known to many here, has commenced two suits in the circuit court which develop some facts of a somewhat sensational nature. One of the suits is for a divorce from his wife Jennie Brownell, nee Bolster, and the other is for \$5,000 damages against Walter Holmes, a deputy sheriff, of Manchestre, for false imprisonment.

The story told in the two bills is that Brownell went to work for Robert C. Glenn last March. At that time he was engaged to be married to Henrietta Graham, of Manchestre, and while calling on her one day he met her cousin, Jennie Bolster. Miss Bolster wanted a place to work and Mr. Glenn wanted a domestic, so Brownell recommended her to his employer. She went to work for Mr. Glenn about April 1. Then Brownell says, she sought every opportunity when he was alone to hug and kiss him, and that this led to other actions of an improper nature. Some time after that, he says, Miss Bolster left and returned to the home of her cousin, and soon after he commenced to hear stories as to her condition, and that he was charged with responsibility in the matter.

Brownell says that as soon as he heard these stories he went to Manchestre to investigate, that while he was at the home of Miss Graham, Miss Bolster told her brother the situation. Then he says that her brother went after Deputy Sheriff Walter Holmes, who told him he was under arrest, and took him to a hotel, where he was obliged to take off his clothing, which was taken away from him until morning. Then, he says, Holmes and Miss Bolster's brother brought him and the young woman to Ann Arbor where he was confined in the American house for a time, and was then taken to the county clerk's office, where Holmes announced that they wanted a license. He says he was asked some questions, which he, supposing he was under arrest and had to, answered. Then he says that Holmes sent for Justice Doty, who married him to Miss Bolster.

He says that they thereupon separated and have never lived together; that he has since learned that she was not in the condition claimed and that some time previous she had made similar charges against another man.

Wanted, good, strong, young girl for general housework, two in family. \$3.00 per week. Address, Mrs. BRUNELL, 235 Michigan ave., Chicago, Ill.

ROUNDUP FARMERS' INSTITUTE.

The Program Has Been Mapped Out for the Big One at Ann Arbor.

Prof. Smith, of the M. A. C., Capt. Allen, of the state board of agriculture, and Wm. Campbell and F. E. Mills, president and secretary of the county association, met in Ann Arbor yesterday to outline the program for the farmers' roundup institute in that city, Feb. 27 to March 2. Prof. L. H. Bailey, of Cornell, will make three addresses. Secretary of Agriculture Wilson may not be present at the roundup, but will send a good substitute. The day sessions will be held in Newberry hall, and the evening in University hall. Tuesday afternoon the program will deal with the soil, its chemical properties, fertilizers, etc. Forage crops, cereals and sugar beets are Wednesday morning's subjects, and fruit will hold the hours for Wednesday afternoon. Dairy, including the silo is the subject for Thursday morning. Tuesday evening will be given to six short addresses, representing the University, State Normal college and Agricultural college.

WOULD BE APPRECIATED.

Convenient Little Stamp Books to Be Issued by Government.

A special dispatch from Washington declares that the government is likely to issue, in a very short time, convenient little books of postage stamps that can be carried in the pocket. Such a plan has been talked of for some 25 years, but governments move slowly in matters of this kind and even yet there is a slight mechanical hitch. But it looks as though the small luxury would come. Third Assistant Postmaster General Madden is making it his special hobby. It is his idea to have the stamps in sheets of six each, two or more sheets being bound into a little book with pasteboard covers, and sold for a mere nominal advance upon the price of the stamps themselves—a book of twelve two-cent stamps selling for 25 cents and so on. If this plan is adopted with regard to letter stamps, it is likely to be soon followed by the internal revenue bureau with the war tax stamps, and the annoyance of finding the stamps you carry in the waistcoat pocket folio of paraffine paper, or in a purse, stuck together, will at last be done away with by government action.

Western Washtenaw Farmers' Club.

This society met at the home of Mr. and Mrs. William Laird, in Sylvan, last Thursday. The meeting was largely attended and much enthusiasm was shown in the proceedings and discussions. An excellent dinner was served after which the program was opened with singing, followed with prayer by Rev. F. A. Stiles. The secretary's report was read and accepted. Instrumental music by Miss Lowry followed.

Mrs. R. P. Chase read a most excellent paper on "How shall the apple be divided between husband and wife." It was discussed by about 20 of the members. Then came recitations by Geo. E. Davis and Miss Sanders, report of State Farmers' Club meeting, at Lansing, by Geo. Boynton, and a select reading by O. C. Burkhardt. T. Baldwin next read a paper entitled "Is it advisable for farmers to keep an itemized account of everything they buy and sell on the farm." It was, however, too late to discuss it. The meeting closed with singing "America."

The next meeting will be held at the home of Mr. and Mrs. W. E. Stocking, in Lima, Thursday, Feb. 15.

Richard Harding Davis' New Story.

La Lettre d'Amour is one of the best love stories Richard Harding Davis has written. The scene is laid in London and the characters are a beautiful American girl, her mother, a wealthy young Harvard man, and a violinist of the Hungarian Orchestra. The illustrations are by Howard Chandler Christy. La Lettre d'Amour is the leading story in the Midwinter Fiction Number of The Saturday Evening Post, which will be on sale Jan. 25.

School Report.

Report of school in district No. 5, Lyndon, for the month ending Jan. 19: Standing 90, Millie Wallace, James and Anna Young; 85, Floyd and Calista Boyce; 80, Vincent Young. Belle McColl, Calista Boyce, Millie Wallace, James and Vincent Young, have not misspelled a word in written spelling during the month. Ethel Skidmore missing but one. Mrs. LUCY STEPHENS, Teacher.

THE WEEK'S NEWS

Happenings of the Past Seven Days in Brief.

ROUND ABOUT THE WORLD

Casualties and Fires, Personal and Political Notes, Business Failures and Resumptions, Weather Record.

INTELLIGENCE FROM ALL PARTS

CONGRESSIONAL.

In the senate on the 17th it was decided to vote on the financial bill on February 15. Treaties with Peru, Argentina and the Hague were favorably reported and Senator Hear's resolution calling for general information regarding the conduct of the insurrection in the Philippines was passed. In the house the pension appropriation bill was reported and the urgent deficiency bill was passed. Bills were introduced for the protection of game birds and for a commissioner to adjudicate claims of United States citizens growing out of deprivations in Cuba during the insurrection.

Senator Wellington (Md.) spoke in the senate on the 18th against permanent retention of the Philippines; also listened to a continuation by Senator Teller of his attack on the financial bill. Received a resolution from Senator Ross (Vt.) declaring in favor of creating a separate government department to take charge of all outlying dependencies. In the house the senate bill extending the power of the director of the census was passed. Mr. Ray (N. Y.) introduced a bill to provide that in the District of Columbia and the territories no absolute divorce shall be granted save for adultery.

In a speech in the senate on the 19th Senator Hale (Me.) declared that nine-tenths of the American people were in sympathy with the Boers in their war with Great Britain. A resolution inquiring of the president whether any representative of the Transvaal government had applied for recognition, and whether it had been granted or denied, was passed. Senator Morgan (Ala.) spoke in opposition to the financial bill. Adjourned until the 22d. In the house the pension appropriation bill, carrying \$145,245,250, was passed, and a bill was introduced to extend our tariff laws to Puerto Rico and create a customs district in the island.

The senate was not in session on the 20th. In the house Mr. White (N. C.) introduced a bill to protect citizens of the United States from mob violence. The special house committee appointed to investigate charges affecting the eligibility of Representative-elect Brigham H. Roberts, of Utah, reported in favor of his expulsion. William F. Aldrich (rep.), who contested the seat held by Gaston A. Robbins (dem.), for the Fourth congressional district of Alabama, was given the seat.

DOMESTIC.

Firemen, conductors and engineers all over the Baltimore & Ohio railroad system have had their wages increased.

President and Mrs. McKinley entertained the members of the diplomatic corps at a state dinner at the white house.

Gov. Tanner issued a permit for the opening of the Chicago drainage canal and the work was done at once.

Robbers forced an entrance into the Tygart Valley bank at Philippi, W. Va., and secured \$6,000.

The special committee of the house of representatives that investigated the case of Brigham H. Roberts, of Utah, decided that he should be expelled.

War department officials deny that Gen. Wheeler has resigned.

The house committee on election has agreed on a favorable report on a joint resolution for an amendment to the constitution for the election of United States senators by direct vote of the people.

A colossal bronze statue of Daniel Webster was unveiled in Washington in the presence of the president and his cabinet and other guests.

The Maryland legislature, though democratic, defeated a resolution asking Bryan to address that body.

A large number of claims for pensions are being received by the pension office in Washington as a result of the Spanish war.

A statement issued by the war department says the total customs receipts at the port of Havana for the year ended December 31, 1899, was \$14,072,114.79.

Ten persons were injured in a train collision on the Great Northern at Hillyard, Wash.

Helen Gould has contributed \$150,000 toward a new building for the Seamen's retreat in Brooklyn, N. Y.

Mrs. Josephine Barwick sent her husband to jail in New York for theft and then killed herself.

Edward Moore shot and killed his wife at their home in Hillsboro, Ill., mistaking her for a burglar.

Three men were killed and three fatally injured in the falling of an elevator in a warehouse in New York.

Since 1897 American stock of gold has increased \$323,000,000. Europe has not gained.

A proposal to unite all railroads in a big passenger pool is favorably considered by eastern lines.

Tidal waves along the Cuban coast did great damage to property.

The South Carolina legislature has repealed the state income tax law.

The Commercial bank at Silver Lake, Ind., was robbed by burglars of \$3,500. Burglars secured \$1,500 at the bank in Ellettsville, Ind.

Congress will be requested to assume control of the Chicago drainage canal and convert it into a deep waterway connection between the great lakes and the Gulf of Mexico.

The exchanges at the leading clearing houses in the United States during the week ended on the 19th aggregated \$1,718,116,804, against \$1,869,300,836 the previous week. The increase compared with the corresponding week of 1899 was 13.7.

There were 242 business failures in the United States in the seven days ended on the 19th, against 274 the week previous and 249 in the corresponding period of 1899.

The latest news received in London says there has been skirmishing between scattered Boer and British forces, but the main armies appear to be busily preparing defenses, and are doubtless about to begin a heavy battle. Gen. Buller is said to be within 12 miles of Ladysmith.

R. G. Dun & Co.'s weekly review of trade says that business throughout the country is 40 per cent. better than a year ago.

Brig. Gen. T. M. Anderson has been placed on the retired list and Brig. Gen. Wade succeeds him as commander of the department of the lakes.

A bold gang of counterfeiters who have operated profitably in the south for years were captured near Nashville, Tenn.

For one week after March 13 Rev. C. M. Sheldon, author of "In His Steps," will edit the Topeka (Kan.) Capital on "What Would Jesus Do?" lines.

A mob of 400 men in Fort Scott, Kan., lynched George and Ed Meeks, two Kansas City criminals, who were convicted of the murder of Leopold Edlinger, a young farmer.

Final estimates made by the department of agriculture give the wheat crop of 1899 at 527,303,846 bushels, value \$319,545,250; corn crop 2,078,143,933 bushels, value \$629,210,110.

Two daughters of Rev. C. N. Day were drowned in Cheat river, near Parsons, W. Va.

The sixteenth annual report of the United States civil service commission shows that during the past year 47,956 persons were examined for all branches of the service, an increase of 2,244 over last year; 35,682 passed and 12,274 failed.

Four of a family named Giordano were burned to death in a tenement house fire in New Orleans.

In a family quarrel in New York city Antonio Coletti and his brother Caspar and David Salvatore were killed.

Count Boni de Castellane and his wife, who was Miss Anna Gould, arrived in New York from Paris.

PERSONAL AND POLITICAL.

The Mississippi legislature has elected McLaurin United States senator for the long term and Sullivan for the short term.

The Iowa legislature in joint session reelected James H. Gear, of Burlington, to the United States senate. The vote stood: Gear (rep.), 111; White (dem.), 32.

Mrs. Catherine Ryan, aged 100 years, died in Milwaukee.

William G. McConnell, of Cleveland, O., a noted temperance lecturer, died in Philadelphia.

Mrs. Annie Ellsworth Smith, who sent the first telegraph message in this country, died in New York, aged 73 years.

Oregon democrats will hold their state convention in Portland April 12. James Pyle, the well-known soap manufacturer, died at his home in New York city, aged 77 years.

FOREIGN.

The dome of a church fell at Walowzensk, Russia, killing 30 persons.

War between Russia and Japan is looked for as inevitable by the naval officers of those countries.

A Manila dispatch says that Gens. Bates, Wheaton and Schwan have occupied the principal towns in the Cavite and Batangas provinces. A majority of the insurgents have returned to their homes and have secreted their guns. All the southern ports will be opened soon. Gen. MacArthur's troops are pursuing many small bands, killing numbers of the Filipinos and securing guns.

Lord Curzon says that the famine in India is increasing and that 3,250,000 people are in receipt of relief.

Advices received in London say that forces under Gen. Warren have moved two miles nearer Ladysmith. The Boers appeared, however, to hold the lines stubbornly. There had been continuous fighting for two days and the casualties were believed to have been many on both sides.

The German bark Marie, bound from Australia with flour for the South African republic, was seized by a British cruiser.

Gen. Otis reports the defeat of the insurgents in various engagements.

News was received in Cairo that Osman Digna, principal general of the late Khalifa Abdullah, had been captured. An earthquake killed seven people near Colima and wrecked buildings in many Mexican towns.

Richard D. Blackmore, the author of "Lorna Doone" and many other novels, died at Teddington, England, aged 75 years.

Mexican troops have nearly wiped out the tribe of Yaqui Indians.

John Ruskin, the famous author and poet, died at his home at Brantwood, England, aged 81 years.

A Manila dispatch says that a pack train escorted by 50 men under Lieut. Ralston, was ambushed by insurgents near Lipa, province of Laguna and two Americans were killed, four were wounded and nine were missing. In a skirmish at Taal 800 Filipinos were defeated and three cannons captured.

LATER.

The United States senate on the 22d listened to speeches by Senator Pritchard (N. C.) against the proposed negro disfranchising amendment to the North Carolina constitution, and by Senator Turner (Wash.) against the administration's policy in the Philippines. Senator Rawlins' (Utah) resolution for an investigation into polygamy in the United States or any of its possessions was adopted. The house was in session only 40 minutes and nothing of public importance was done.

Sixty thousand coal miners in Bohemia are on a strike.

Henry A. Haze, professor of meteorology and one of the chief forecasters of weather conditions in Washington, was fatally injured by a fall from his bicycle.

Alfred Watts, the inventor of crystal gold, used in dentistry, died in Brooklyn, N. Y., of old age.

Internal revenue receipts for the six months of the present fiscal year have been \$151,780,158, an increase of \$13,457,685 over the corresponding period last year.

Two negroes were shot to death and two white men fatally wounded in an attempt to arrest a negro at Macon, Ga.

John Potter Stockton, ex-United States senator and attorney general of New Jersey from 1877 to 1892, died in New York, aged 74 years.

Secretary Gage has sent to congress an estimate of \$7,872,000 as the cost of collecting the customs during the next fiscal year.

American troops defeated 800 Filipinos at Taal, province of Batangas, taking the town. Gen. Schwan has occupied Santa Cruz, on the south shore of Laguna de Bay, and the opposition of the rebels is now practically ended in Cavite and in part of Batangas province.

Two miners named Kratt and Sweet dropped nearly 2,000 feet in a mine at Houghton, Mich., and were instantly killed.

Thomas Lahey, aged 104 years, died on a farm near Jacksonville, Ill.

Definite advices of the results in Natal are lacking. It is believed the British are finding every step of the attempted advance to Ladysmith most desperately resisted by the Boers. Failure of Gen. Buller to advise the war office in London has caused some alarm lest his forces had met with a reverse. It has been learned from authentic sources that the Boers have between 85,000 and 90,000 men in the field.

MINOR NEWS ITEMS.

Admiral Dewey and wife will attend the mardigras in New Orleans in February.

Bigamists in Hungary are required by law to live with both wives in the same house.

The National Live Stock association recommends leasing of government grazing lands.

Alan Arthur, son of the late president, lives in Europe. He finds that his income goes further there.

Kansas City is to have another interurban electric railroad, to run to Olathe, Kan., 21 miles distant.

Rev. J. M. Atwater died in Cleveland, O., at the age of 62 years. He was at one time president of Hiram college.

Hundreds of physicians from Illinois, Wisconsin and Iowa are arranging to go to Paris on a special excursion.

Uniform prices are now assured in the glass tableware industry, as all of the factions have been harmonized.

Gov. Brady, of Alaska, now in Washington, says the rush to the gold fields will be greater than ever next spring.

Henry Hughes, a hero of the old navy, has been admitted into the county almshouse at Chester, Pa., at the age of 95 years.

Cannonading does not interfere with the sending of wireless telegraph messages. This has been tested in South Africa.

Andrew Carnegie told a Bible class in New York poverty is blessed and a boy should not be afraid to argue with his employer.

An Italian bishop has invented an apparatus to warn a railway engineer of a train approaching on the same track and indicate its distance.

During the last year 25,202,901 bushels of grain and 2,198,513 gallons of molasses were used for the manufacture of liquor in this country.

William L. Wallace, of Chicago, has been appointed special agent in the census bureau, in charge of the collection of lumber manufacture statistics.

Fort Bayard, N. M., has been discontinued as a garrison post and the buildings will be turned over to the surgeon general of the army for a sanitarium.

Jay B. Burrows, one of the principal organizers of the Farmers' alliance and the populist party in Nebraska, died suddenly at his home in Lincoln from lumbago.

WOMEN OF THE UNITED STATES

Regard Peruna as Their Shield Against Catarrh, Coughs, Colds, Grip and Catarrhal Diseases.

MRS. BELVA A. LOCKWOOD, LATE CANDIDATE FOR THE PRESIDENCY.

Mrs. Belva Lockwood, the eminent barrister, of Washington, D. C., is the only woman who has ever been a candidate for the Presidency of the United States. She is the best known woman in America. As the pioneer of her sex in the legal profession she has gathered fame and fortune. In a letter to The Peruna Medicine Company, she says:

"I have used your Peruna both for myself and my mother, Mrs. Hannah J. Bennett, now in her 88th year, and I find it an invaluable remedy for cold, catarrh, hay fever and kindred diseases; also a good tonic for feeble and old people, or those run down, and with nerves unstrung." Yours truly, Belva A. Lockwood.

Catarrh may attack any organ of the body. Women are especially liable to catarrh of the pelvic organs. There are one hundred cases of catarrh of the pelvic organs to one of catarrh of the head. Most people think, because they have no catarrh of the head, they have no catarrh at all. This is a great mistake, and is the cause of many cases of sickness and death. "Health and Beauty" sent free to women only, by The Peruna Medicine Co., Columbus, Ohio.

Florida, West Indies and Central America.

The facilities of the Louisville & Nashville Railroad for handling tourists and travelers destined for all points in Florida, Cuba, Porto Rico, Central America, or for Nassau, are unsurpassed. Double daily lines of sleeping cars are run from Cincinnati, Louisville, Chicago and St. Louis through Jacksonville to interior Florida points, and to Miami, Tampa and New Orleans, the ports of embarkation for the countries mentioned. For folders, etc., write J. K. Ridgely, N. W. P. A., Chicago, Ill.

Wealth in Northern Arkansas.

Is the title of an illustrated pamphlet giving detailed information relative to the mining region of Northern Arkansas, conceded by experts to be the richest zinc and lead mining district in the world. This district, practically undeveloped, offers investors the opportunity of a lifetime. The pamphlet will be mailed free. Address J. E. Lockwood, Kansas City, Mo.

To the Northwest.

Take Wisconsin Central Railway trains, leaving Chicago from Central Station, Park Row and 12th street, Lake Front, for St. Paul, Minneapolis, Ashland and Duluth. Nearest ticket agent can give you further information. Jas. C. Pond, G. P. A., Milwaukee, Wis.

The Old Man's Query.

"So you want to marry my daughter?" "Yes, sir." "Do you smoke?" "No, sir." "Take her! I've married off six daughters, and all the husbands have a particular fondness for my brand of cigars. You're a novelty."—Syracuse Herald.

Lane's Family Medicine.

Have you tested it—No other ink "just as good."

FISO'S CURE FOR CONSUMPTION

CURES WHERE ALL ELSE FAILS. Best Cough Syrup. Tastes Good. Use in time. Sold by druggists.

TES

FIGHTING CONTINUES.

Further Reports of the Battle Before Ladysmith.

The British Making Slow Progress Toward Relief of the City—No News of the Operations on Monday.

London, Jan. 23.—Gen. Buller has reported nothing of his operations on Monday, and official and press intelligence leaves the British bivouacked Sunday night on the ground they had won after two days' fighting. Military men assume that fighting must have taken place, and that it was probably more severe than on the two preceding days. Gen. Buller would not be likely to give the Boers leisure to add to the elaborate entrenchments, to arrange their artillery and to concentrate their forces.

The British military experts all share the hopes of their leaders and, as Spencer Wilkinson points out, they hesitate to say a word that might be interpreted as unfavorable. Mr. Wilkinson refers to the "cooler judgment of German and Austrian critics," which means that some of the best judges look upon Gen. Buller's enterprise as a forlorn hope, as merely a continual strain of fighting, which may prove too much for the physical energy of the troops engaged.

Lacks Confirmation.

Durban, Natal, Jan. 23.—The statement comes from an excellent source in Pietermaritzburg that Lord Dundonald has entered Ladysmith with 1,600 men. This is not confirmed from any other quarter, but it is known that Lord Dundonald's flying column has been acting well to the left of the line of advance.

Sunday's Casualties.

London, Jan. 23.—Just before midnight the war office issued the following dispatch from Gen. Buller:

"Spearman's Camp, Jan. 22.—The following casualties are reported in Gen. Buller's brigade as the result of yesterday's fighting: Killed—Capt. Ryall, Yorkshire regiment, and five men. Wounded—Second Lieut. Andrews, Border regiment; Capt. MacLaughlin, Inniskilling; Lieut. Barlow, Yorkshire regiment, and 75 men. Missing—eight men. Other casualties will be forwarded when received."

The foregoing was all the war office had issued up to midnight. Nothing, therefore, is known here as yet regarding Monday's operations.

Hot Fighting on Sunday.

London, Jan. 23.—The Daily Mail has the following, dated Sunday night, from Spearman's Camp:

"There has been hot fighting all day. At dawn our attack was resumed along the entire line, all the brigades taking part. We soon discovered that the Boers still occupied the range of hills in force, their position being very strong. The range is intersected by steep ravines and many approaches very difficult of access. To-day the Boers who were driven from their trenches yesterday took cover in dongas and behind the rocks with which the hills are strewn. The forces, therefore, commenced the task of driving them out, and set to work with good heart in the early morning. Much firing took place, and our progress was slow, but gradually British pickets told its tale, and the enemy fell back to another kopje. We swarmed on and occupied it, and then the attack recommenced with the utmost gallantry."

"The country simply abounds in hills favorable to guerrilla warfare, and our task is an arduous one. Nevertheless, it is being gradually accomplished. Whenever any of the enemy were observed taking up a fresh position our field batteries poured in showers of shrapnel, and the rapid movement of the guns, followed by accurate shooting, must have greatly distressed them. The enemy were on the defensive almost the entire day, save once, when they attempted to outflank our left and were signally checked. They retreated almost entirely on rifle fire. A few shells were fired from a heavy piece of ordnance, but these fell harmless."

"We now occupy the lower crest on the left, and are converging slowly but surely to the Boer center. The Boer loss is unknown, but must have been heavy. The killed and wounded are carried away to the rear rapidly. The strong rumors are in circulation that the Boers are retiring. The battle will be resumed to-morrow."

Making Slow Progress.

London, Jan. 23.—The Daily Chronicle has received the following, dated January 22, 4:15 p. m., from Spearman's Camp:

"The Boers admit 21 casualties during Gen. Lyttleton's skirmish on Saturday. Gen. Warren continues pushing, though he is necessarily making very slow progress, as the Boers are numerous and strongly entrenched. Our infantry are working over parallel ridges, with Lord Dundonald's cavalry lying well on the left flank and awaiting developments. The Boers continue every inch of the ground. This morning Gen. Warren's artillery reopened fire, but the Boers did not reply, and our fire became less hot. The naval guns in front here have been quiet. A Boer prisoner who was brought in boasted that it would take us three months to reach Ladysmith."

ANOTHER VICTORY.

Eight Hundred Filipinos Defeated and Town of Tual Captured by Americans.

Manila, Jan. 23.—Two companies of the Forty-sixth infantry, under Maj. Johnson, and three companies of the Thirty-eighth infantry, commanded by Maj. Muir, defeated 800 insurgents at Tual, province of Batangas, Saturday, taking the town. The United States gunboat Marietta also shelled the place. The insurgents had four cannon, two of which were captured. Two Americans were wounded and ten insurgent dead were found on the field.

MAKES AN ANGRY DENIAL.

Count Boni de Castellane Says Stories of Losses Through Speculation Are False.

New York, Jan. 23.—Count Boni de Castellane and Countess de Castellane, nee Gould, arrived in this country Monday, on the French line steamship La Bretagne, from Havre, France. They went to the Waldorf-Astoria hotel. The count was willing to talk about the stories of his losses by stock speculation, and gambling. He speaks very good English, with a slight accent. On the De Rodays matter he said:

"De Rodays? He is a well, what is De Rodays? De Rodays is a liar, he is a scoundrel—say anything you like about him. He is a—what is such a person? He is nothing. A nonentity. What should I care for him? Oh, he is a liar."

The count evidently did not like the stories that had been printed about him and his alleged losses. He was asked if he would challenge De Rodays.

"Challenge?" he said, with hauteur. "Certainly not. I shall not challenge such a man. He is not the kind of man to accept a challenge. No, I shall not challenge him, but when I go back I shall use my cane on him if he does not retract. See, monsieur, I have prepared a statement to send to him."

The count added that he would send a telegram to M. Meyer, editor of the Gaulois, saying:

"On my arrival here I am told of the calumnies printed in the Figaro. I have just sent the following to M. De Rodays: 'M. De Rodays, editor Le Figaro, Sir: There has been communicated to me on board the ship the calumny in the Parisian papers which emanated from the Figaro. You will at once print a formal denial. I reserve the right on my return to tell you what I think of your disloyal act.'"

"Le Figaro," continued the count, after he had translated his statement into English, "is a paper bought by the highest bidder. Why this man should have circulated such stories I don't know. I know of no reason why such things should be published, except that we are in opposing political parties. The editor thought he would have a chance while I was on the ocean to set some lies in circulation about me."

"I never gambled in my life," said Count de Castellane, warmly. "I never played cards for money or gambled in any other form. I did not lose money in speculation, and these stories are all falsifications and as false as they can be. There is no truth in them at all."

When the question of the relationship between himself and his wife was touched upon, Count de Castellane said:

"Our relations are perfectly harmonious." Then he smiled at his wife, as she stood by his side, and she smiled at him. There was seeming good-feeling in the smiles.

Paris, Jan. 23.—Count Boni de Castellane has sent a second cablegram to M. De Rodays:

"I have just learned of the infamous slander directed against me by you at the instigation of the Dreyfusards. My father has already denied it and has expressed his contempt, to which I join my own. I shall have recourse to the law courts and shall sue for 100,000 francs damages, of which the poor of Paris will get the benefit."

The Figaro publishes Count Boni de Castellane's cablegram, and says:

"We disdain his insults, which do not harm us. We shall be delighted to meet him in the law courts on condition that the trial be a serious one and that nothing be kept back which would throw the full light on the matter. But owing to the position of the stock market, there is only one means of clearly establishing the truth, and this means lies in the hands of De Castellane. Let him request the minister of finance to send an inspector to inquire of the stock brokers—the minister of finance can alone do this at De Castellane's request—and then we shall know positively if De Castellane has been slandered and if he never speculated on the bourse. This is the only course open to De Castellane. Everything else in his cablegram of threats is what the Americans call a 'bluff.'"

ALLOW BILL TO BE FILED.

Supreme Court Makes Summons in Drainage Canal Case Returnable April 2.

Washington, Jan. 23.—In the case of the state of Missouri vs. the state of Illinois involving the petition for an injunction against the Chicago drainage canal, the United States supreme court decided to permit the attorney general of Missouri to file his bill making the summons to the defendants returnable April 2.

In connection with this decision, Mr. B. Schnumacher, representing the state of Missouri, asked for a temporary restraining order against the Chicago drainage district, prohibiting the operation of the canal during the pendency of the proceedings in this court.

He said the canal had been opened since the proceeding had begun here, and with full knowledge of the proceeding.

In reply Chief Justice Fuller said that it was impossible for the supreme court to exercise original jurisdiction in a suit between states without giving notice; that 60 days were required for a return, and that nothing could be done before the date upon which the service was made returnable in the main proceeding, viz.: April 2.

Chicago, Jan. 23.—The drainage board has appointed ex-Congressman William M. Springer, of Washington, to take full charge of the legal side of the drainage canal for the sanitary district.

Will Cost \$500,000.

Washington, Jan. 23.—Half a million dollars is the estimated cost of repairing the Olympia, according to the reports to the board on naval construction. The work will be done at the Boston navy yard and will occupy about a year.

GOES TO NEW YORK.

Mr. Bryan Dines with O. H. P. Belmont —Will Discuss Silver, Trusts and Imperialism.

New York, Jan. 23.—William Jennings Bryan arrived in Jersey City from Washington at 6:42 o'clock Monday morning, and was met by James Oliver, sergeant-at-arms of the democratic national committee, and a number of newspaper reporters. Mr. Bryan was escorted to the Hoffman house, the headquarters of the state democracy, in which hotel a suite of rooms had been engaged for him. Mr. Bryan said to the reporters that he hoped his presence in New York would contribute to a general good feeling all around.

One of Mr. Bryan's callers asked him what he thought of O. H. P. Belmont as a vice presidential candidate. "I am not saying a word about candidates just now," he replied.

A reporter asked Mr. Bryan if there was any truth in a statement in a morning paper that he was gradually abandoning the silver issue.

"I am tired of denying those stories," Mr. Bryan answered. "I will keep right on in the same line I have followed all along. I adhere to my belief in the Chicago platform; but, of course, I don't object to throwing in some more issues for good measure."

Mr. Bryan when asked later if he had any plans for bringing back gold democrats to the party, replied:

"Yes, I have a plan. In the first place, many have already come back. In the second place, there are some who never will come back, and it is no use to work on them. In the third place, there are some who will return on one or two grounds; either that they now like the Chicago platform, although they did not in '96, or that they favor the democratic position on new questions that have arisen since then, and are willing to take the whole platform, while not agreeing with every part of it. The only way of keeping present democrats in the party and bringing gold democrats back, and inducing republicans to join us, is to advocate measures that are best for the people, and thus deserve their support. I believe that the Chicago platform, with the addition of new questions, including strong planks against trusts and imperialism, would give excuse to everybody to vote the democratic ticket in 1900."

Mr. Bryan was asked if he regarded any of the three issues as a dominant one, but he said he did not care to discuss their relative importance.

To an inquiry as to whether he intended to discuss only trusts and imperialism while in the east, to the exclusion of silver, Mr. Bryan said that he would discuss all three of them whether he was in the east or in the west. While here, he said, he was not going to meddle in local politics.

Mr. Bryan was the guest of honor at a dinner given by O. H. P. Belmont Monday night at his residence on Fifth avenue. The dinner was private, no reporters being admitted, and to a pencilled note Mr. Belmont made response: "There will be nothing at, during or after the dinner for publication. The dinner is a purely social affair, and of no public interest." Mr. Bryan was the only guest of national prominence, but big men in Tammany Hall were present.

Mr. Bryan will spend to-day in New York, and in the evening will be the guest of John W. Keller, president of the Democratic club, at the club. This dinner is understood to mean that Mr. Bryan and the Tammany organization are in complete harmony, whereas ten months ago Mr. Bryan and Perry Belmont, then president of the Democratic club, were exchanging bitter letters. Wednesday night Mr. Bryan is to address a meeting in Jersey City. Congressman Daly and Robert Davis, of New Jersey, have sought to induce Mr. Bryan to drop silver in the Jersey City speech, and it was thought they had made some impression on the Nebraskan, but he said: "I intend to discuss all three living issues of the day—money, trusts and imperialism—in my speeches. I am getting tired of having one particular topic suggested for my speeches by those who like one theme more than another."

POLICY REVERSED.

State Department Decides to Receive Diplomatic Representative of Transvaal Republic.

Washington, Jan. 23.—Montagu White, who arrived here Sunday from New York, will be received as the consular and diplomatic representative of the Transvaal republic. The state department has formally determined upon such action, and Mr. White has been given an intimation of this intention. Whenever properly executed credentials are received by Mr. White, which are expected within ten days, he will present them to Secretary Hay and enter upon his official career.

This action of the state department in receiving Mr. White is a reversal of the policy heretofore maintained. Gen. O'Brien, of New York, who was given proper credentials by President Kruger, was refused recognition on the ground that he was an American citizen. At the same time it was intimated that bona fide citizens of the Transvaal, then temporarily within the boundaries of the United States, would not be received in an official capacity. It has been announced that the state department until now that no representative of the Transvaal republic would receive formal recognition.

LITTLE ROSE CRAIG.

Ellen Terry Is Bringing Up Her Grandchild to Be the Actress of the Future.

Miss Ellen Terry, who is now playing in this country with Sir Henry Irving, is trying an interesting experiment. It is her theory that a girl can be so educated that she cannot fail to succeed as an actress; that if a parent will begin to teach his boy to act at the very moment when he first initiates him into the mysteries of the alphabet he cannot fail to win fame and fortune on the stage.

In other words, while she does not entirely disregard the old theory that men and women are born players, just as they are born poets, she is of the opinion that early training is even more important, and she is now engaged in making a practical application of her theory.

No one who has seen Miss Ellen Terry play the youthful Clarisse de Maulucon would ever imagine that she was a grandmother, and yet such is the fact. Moreover, unlike many actresses, Miss Terry is not ashamed of her age. She is proud of the fact that she has been able to defy the ravages of the years so well, and she openly boasts of the little grandchild who is to be the great actress to whom the world will pay its honors when she, the grandmother, shall have ceased to play her parts.

The name of the little child who is being educated up to this ideal is Rose Marie Craig, and she is the daughter of Miss Terry's son, Gordon. At present little Miss Craig is but four years of age, but in spite of this, her training has already commenced.

When she still lay in her cradle her charming young grandmother dedicated her life to the stage, and her father and mother are anxiously assisting Miss Terry in carrying out the experiment. They have full confidence in her theory. They believe that she can do what she says she will do, and that their little girl will yet be the greatest actress the world has ever seen.

To begin with, the child shall be so educated that she will have no self-consciousness. To Miss Terry's mind this is the gravest of all faults, and is fatal to the success of man or woman on the stage. Already she is learning to have confidence in herself, and on her seventh birthday she will make her bow to the public.

Miss Terry believes that the period of self-consciousness begins soon after

ROSE MARIE CRAIG. (Ellen Terry's Talented Young Granddaughter.)

a person has attained this age, and she proposes that her grandchild shall become used to seeing vast audiences before she has become old enough to be tainted with this one grave fault.

She herself appeared upon the stage when she was eight years of age, and that, she believes, is the reason why she has never realized that a crowd of people had their eyes fixed upon her. As it is, she never sees an audience, and the vast sea of faces that so terrifies many players has no effect upon her. Little Miss Craig is to be given the same advantage.

The next two years of the child's life will be spent in the theater. As often as possible she will be upon the stage during the progress of the plays. At first she will be given no lines, but she will have her place and she will be expected to fill it creditably. She will also be permitted to play about in the wings. She will become well acquainted with the uses of scenery and drops. She will learn all about wigs and paints. Costumes will become an old story to her.

During this time no one will be allowed to flatter her. Judicious praise may be given, but little of it, and she will be taught to believe that the only way to do a thing is to do it well. While she is undergoing this training, however, her physical training will not

be neglected. She will have plenty of fresh country air. She will play in the fields. She will wear loose clothing. Everything will be done to make her a perfect specimen of healthy womanhood. Whether she is at home or on the stage, she will be surrounded by the best of people only.

When little Miss Craig is nine years of age attention will be paid to her ordinary education. She will learn to read the best books. She will be taught to see the beauty in blank verse. She will study the dramatists. She will become familiar with the people and customs of all ages. She will learn to play upon musical instruments, to sing, but above all, she will be taught to observe people. When all this has been accomplished she will be ready to go back to the stage.—Chicago Democrat.

HEALTHFUL SLEEP.

It Cannot Be Secured Unless the Spring of the Bed Is Level and Properly Adjusted.

The most important element in solving the question of how shall we get the best and most refreshing sleep is that of the bed. If your bed or mattress it not right you will not get the best and most from your hours of repose. Every one knows that it is bad to sleep on your back, but it is even worse if the bed is such that your stomach is as high as your head and your feet are lower than both, as must be the case on too heavily wadded mattresses. On the other hand, if the spring is too yielding you will find that the heavy parts of the body make you lie in a kind of hollow, whether you sleep on your back or on your side. It is most unhealthful to have your feet so high as they are in this kind of bed, when you sleep on your back, and if you try to sleep on your side the spine is curved most uncomfortably and unhealthfully.

What then is to be done about it? The spring of the bed must either be

RIGHT AND WRONG POSITIONS.

made in several pieces, or be made up of spiral springs, so that all parts are independent of one another, and the springs at the center are stronger than those at the head and foot, because they have more weight to support. In this way it becomes possible for the tired man or woman to obtain the greatest possible amount of benefit from the hours devoted to sleep. If they will use a moderately hard mattress, of cotton or hair, never of feathers, and not too high a pillow, seeing that when they are in bed the body is not curled up in a knot by the poor springs and that the feet and back are in almost a straight line, the repose gained while lying either on the right or left side will prove refreshing and healthful.—Chicago Record.

THE LINEN COLLAR.

How to Transform a Soiled, Crumpled One Into a Fresh One in Five Minutes.

Rail against linen collars as one will they hold a place for trim morning or street toilets that has not yet been filled by any of the numerous styles of neck lingerie exhibited in the shops just now. To transform a soiled, crumpled collar into a fresh, clean one may be made the work of a few moments without so much as a visit to kitchen or laundry. A cheap little affair that fits on the gas fixture or large lamp will insure a hot iron, and with the aid of a bit of white castile soap and a little powdered French chalk, a nice finish may be given to the linen. The latter, however, must not be confused with the high polish no longer desirable.

When the linen has been washed and starched in the usual way ("elastic" or cold water starch does away with the need of boiling water), place the collar on the ironing board well stretched, and just before applying the hot iron rub first with a damp cloth rubbed over with the soap, then with another upon which the chalk has been sprinkled. This application and the ironing is all to be done on the right side. Do not attempt to dry thoroughly while ironing, as this turns linen yellow, but finish by drying in the sun if there is no heat convenient. The use at the last of white castile soap and French chalk gives a coating to the linen that helps much in the washing, as after a few minutes' soaking in tepid water the dirt slips off without having penetrated the whole. This hint will be found a very practical one, as it insures against the ingrained dust and grease which is so difficult to deal with in quick laundry work. This does not, however, do away with the need of thorough washing. Cincinnati Commercial.

Long-Lived Norwegians.

In Norway the average length of life is said to be greater than in any other country on the globe.

THE CHELSEA HERALD

T. W. MINGAY, Editor and Proprietor.

PUBLISHED EVERY THURSDAY
for \$1.00 per year strictly in advance.

Entered at the Post Office at Chelsea, Mich., as
second class matter.

THURSDAY, JANUARY 25, 1900.

Congressman Henry C. Smith has introduced a bill in congress to erect a \$100,000 government building in Ann Arbor, with possibilities of being successful in securing its passage. If he does succeed it should give him a strong hold on the good offices of the voters of the University city for a re-election to a second term as congressman.

Adrian Times: Already the congressional bee is beginning to buzz among the Democrats of the second district, and men who are willing to run against Congressman H. C. Smith are putting in an appearance. It is said that O. R. Pierce, the silver nominee in 1898, has no desire to try it again, and a boom has been started for Mayor M. G. Loennecker of Jackson.

The first gun of the fall campaign on the Republican side was fired at the Gridley Republican club banquet at Ionia Friday night and its keynote was repudiation of Pingreeism. Among the prominent Republican candidates for office who were present were Dexter M. Ferry, of Detroit, James O'Donnell, of Jackson, State Railroad Commissioner Charles S. Osborn, and Tax Commissioner Milo D. Campbell, all of whom have gubernatorial aspirations, Senator Blakeslee, of Galien, who would like to be lieutenant-governor. Auditor General Roscoe D. Dix was also there looking for a third term in that office, and C. P. Waldron, of St. Johns, was also on hand with an itching for the place. Fred M. Warner, of Owosso, was on hand with a desire to succeed Justus S. Stearns as secretary of state, and ex-Representative Wilkey, of Van Buren, was being pushed for land commissioner. Prof. Delos Fall, of Albion, was looking after his chances for the superintendency of public instruction. Frank H. Watson, of Owosso, was nursing his boomlet for attorney general, and James McCoy, of Grand Rapids, and ex-Senator Jupp, of Sanilac, were circling around for the nomination for state treasurer. There were candidates for every office. More than 500 people were present and it was decidedly an off day for Pingreeites that night.

NORMONS AT THE U. OF M.

Dr. B. L. McElroy, pastor of the First M. E. church, Ann Arbor, preached on Mormonism at his church Sunday morning. After discussing the proposition that the Mormons promised that no more polygamous marriages should occur if the state of Utah was admitted and showing that this promise was not being kept, he startled his audience by declaring that Mormon missionaries had regular services among the students of the University of Michigan, and that the doctrine of polygamy was being largely disseminated among the students and others by Mormons from Utah, who ostensibly come there as students but are really regularly constituted missionaries of the Mormon church. He related the instance of one lady, a member of the M. E. church who had been so persistently worked by plausible arguments, literature, etc., to become a convert to the Mormon faith, that she was in "a dangerous confusion." The young man who had so worked on the lady's credulity was a Mormon graduate of Harvard and a student in the U. of M. law department. He boarded in the same house she did and among other ideas he advanced to her was the assurance that "her only hope of entering heaven was by

means of a polygamous marriage."

That shows just how much Mormon protestations of giving up polygamy are worth and that it is time for the United States government to take a hand in the deal and crush out the hydra headed monster of polygamy that is a blot on the fair name of our country.

THE CHELSEA SAVINGS BANK

Elects Its Directors and Makes a Fine Showing of Its Last Year's Business.

The 48 stockholders, largely farmers, who own the Chelsea Savings Bank, re-elected at their recent meeting the following directors and managers of the bank: Herman M. Woods and James L. Babcock, of Ann Arbor, Victor D. Hindelang, of Albion, John R. Gates, Wm. P. Schenk, Dr. G. W. Palmer; Wm. J. Knapp, president; Thos. S. Sears, vice president; Geo. P. Glazier, cashier; Theodore E. Wood, assistant cashier; David W. Greenleaf, teller; A. K. Stimson, special accountant.

The Chelsea Savings Bank is the oldest, largest and strongest bank in Western Washtenaw county and is quite likely to remain so if it continues to earn, as it has for the past eighteen months, after deducting interest paid to its depositors and all other expenses, remarkable profits and large dividends to its stockholders. The bank will continue to pay three per cent interest on money deposited in it, under the rules, and to loan on approved paper at the lowest consistent rates.

For safety, profit and a convenient place to do your banking this bank is all that can be desired. If you are not already keeping a bank account give the Chelsea Savings Bank a trial. In many ways a bank account is a source of great advantage which only those who keep such an account realize, by preserving a history of their business transactions in a methodical manner, and preventing losses and waste to a degree unsuspected by those who have never kept such an account.

Auction Sale.

I will sell at public auction for Henry Schieferstein, 2 1/2 miles north-west of Dexter, on the Pinckney road, Wednesday, Feb. 7, 1900, the whole of his personal property, consisting of a fine lot of horses, cattle, hogs, sheep, hay and grain, a full line of farming tools, including one 10-horse Birdsall engine, a Scientific feed grinder, 8 harnesses, 3 buglies, 1 survey, plows, drags, binders, mowers, etc. A rare chance for farmers to stock up for spring. Matinee begins at 9:30 a. m. Banquet at 12 m. Don't forget the date. Reserved seats free. Terms—one year's time, bankable paper, six per cent interest. Geo. E. Davis, Conductor.

George E. Davis will sell at administrator's sale on the farm of Ann Welburn, deceased, in the township of Lyndon, on Thursday, Feb. 1, at 1 o'clock p. m., all the personal property and household goods of the deceased. There is 150 bushels of corn in the ear, 3 tons of hay, etc., and a hundred articles used by deceased in her home. No reserve. Seven months' time on sums over \$5 on good notes.

A GREAT COMBINATION.

Here is the Greatest Bargain We Ever Offered Our Readers.

The Chelsea Herald, Twice-a-Week Detroit Free Press, and the Free Press Annual Year Book and Encyclopedia for 1900, a valuable book of over 550 pages that tells you all you want to know. Over 40,000 of the 1899 edition were sold at 25 cents each. It is the most popular book of the kind ever published. All these for only \$1.75.

Letter List.

Following are the letters remaining unclaimed in the post office at Chelsea, Jan. 20, 1900:

Mrs. Cary Turner.
Persons calling for any of the above please say "advertised."

W. F. RIEMENSCHNEIDER, P. M.

"Thou changest not—yet, I am always changing," said the substitute to Rocky Mountain Tea. Made by the Madison Medicine Co. 35c. Ask your druggist.

Beans, per bushel \$1.80

WANTED—SEVERAL BRIGHT AND HONEST persons to represent us as Managers in this and close by counties. Salary \$900 a year and expenses. Straight, bona-fide, no more, no less salary. Position permanent. Our references, any bank in any town. It is mainly office work conducted at home. Reference. Enclose self-addressed stamped envelope. THE DOMINION COMPANY, Dept. 3, Chicago.

LOCAL ITEMS.

The Sunday schools of Ann Arbor are preparing to hold an institute in that city Feb. 9.

The Pinckney Dispatch issues a word of caution to widow pensioners in that vicinity to "beware of the man that will try and make you think he can get your pension increased. All he wishes is the \$5.00 for preliminary examinations."

Mr. Alfred Gilbert and Miss Josephine Knoll were married at the home of the bride's parents, Mr. and Mrs. John Knoll, at Sylvan Center, Thursday evening, by Rev. George B. Marsh. A large number of the relatives and friends of the couple were present and they received many useful and pretty presents.

The law department of the U. of M. is endeavoring to secure Senator Chauncey M. Depew to speak at the annual Washington's Birthday celebration, Feb. 22. It is nearly four years since Mr. Depew delivered his famous political speech at University hall as the opening number in the Student's Lecture course of 1896.

Ann Arbor business men are figuring on starting a mutual fire insurance company in that city for the insurance of residence property. If the plan succeeds it is intended to broaden its scope until a general fire insurance company shall have been organized. It is estimated that Ann Arbor citizens pay out over \$75,000 yearly in fire insurance premiums.

James Geddes, sr., was cutting wood on the McGuire farm, near Four Mile lake, this morning, when a log fell on his leg, breaking both bones just above the ankle, also tearing the ligaments of the joint. Drs. G. W. Palmer and S. G. Bush attended to his injuries, which, on account of Mr. Geddes' advanced age, 77 years, are of quite a serious nature.

Ann Arbor Times: Contracts were closed Friday for quite an amount of the right of way for the new electric railway from this city to Jackson. The company will run its own line, not on the highway, and is buying right of way from farmers direct. The line runs nearly straight west instead of varying to the north, as the M. C. does, and leaves Dexter and Chelsea some distance away.

H. H. Warner, formerly well known in connection with Safe Kidney Cure, a patent cure-all medicine, has filed a petition in bankruptcy in New York state, with liabilities of \$2,319,027, and assets nothing. Warner was a member of the hardware firm of Wilder & Warner, hardware merchants, of Ann Arbor, just after the war, and the firm became so heavily involved that it had to be sold out. Warner went to Chicago right after the fire and coined money making safes, and again coined money selling his safe cures, but where it went no one knows.

It dulls the scythe of Father Time, drives away wrinkles of approaching old age—the elixir of life, that puts hope in the human heart—Rocky Mountain Tea. Ask your druggist.

Saskatchewan Robes.

Just received at C. Steinbach's a fine lot of Saskatchewan, or imitation of Buffalo robes; the finest and most durable robe made. Call and see them.

PERSONALS.

Prof. W. W. Gifford was in Ann Arbor on Sunday.

James I. Gilbert was in Ann Arbor on business Monday.

Joseph Wess, of Jackson, was the guest of John Webber, of Sylvan, the past week.

Miss Mary E. Bell, of Ann Arbor, visited Miss Mary Haab and other Chelsea friends on Monday.

Mr. Edward Bates and bride, of New Haven, were guests of Mrs. M. J. Noyes and family Sunday.

Mr. and Mrs. E. A. Williams and family spent Sunday in Three Rivers with his brother whom he had not seen in five years.

B. Parker went to Detroit yesterday afternoon to attend a meeting of the agents of the Northwestern Mutual Life Assurance Co.

Ann Arbor Times, Jan. 23: The Misses Clara Snyder and Cora Noyes, of Chelsea, are the guests of Mr. and Mrs. Prettyman, of N. University ave.

M. J. Noyes has returned from a week's business trip to Mt Pleasant, Alma and other points looking for horses. He says the animals are too rich for his blood this spring.

This Rooster Wore a Scarfpin.

The crack chicken story of the year comes from the kitchen of the Golden Eagle Hotel at Reading. It concerns an energetic young rooster that crowed and grew fat while carrying in its gizzard a stickpin nearly two inches in length, the sharp point of which had worked through the muscular second stomach of the fowl and protruded a quarter of an inch on the outside.

The second cook at the Golden Eagle was engaged in cleaning a lot of fowls preparatory to cooking them for the Sunday dinner. While handling a particularly fine fat young rooster, something pricked his hand. He made an investigation and found a sharp-pointed instrument protruding through the gizzard. He cut open the organ and was surprised to find a stickpin therein. The pin was mounted with a diamond-shaped piece of pearl on which was a gold letter W.

The young rooster had probably observed the piece of pearl, and believing it to be an extra fine pebble with which to digest its food had made the mistake of his life in swallowing it.—Reading Searchlight.

A number of New York men have purchased a tract of land embracing over 2,500 acres in the vicinity of Tolland, Mass., with the purpose of making a game and forest preserve.

LOCAL ITEMS.

The Rural Telephone Co.'s line is to be extended from Stockbridge to Danaville.

The special meetings at the Congregational church were closed Friday evening, after having been kept up for three weeks.

The C. E. society of the Congregational church will have charge of the evening service at that church on Endeavor Day, Sunday, Feb. 4.

Conrad Schantz has purchased a hydraulic cider press to be run by a gasoline engine which he will use the coming fall in the manufacture of cider.

Henry H. Fenn has bought the vacant lot on South Main street, next to August Neuburger's house, and will build a house on it for his own use in the spring.

The supper given by the Ladies' Aid Society of the Baptist church in W. J. Knapp's vacant store last Saturday evening was well attended and a great success.

Frank Leach has bought the Paloe property on West Middle street, consisting of a house and five acres of land, and will occupy it as his home. The price paid was \$1,100.

Do you know that the place to get neat up-to-date job printing is at the Herald office. New type, good stock, and the job done in tasty manner and promptly. Give us your work.

Mrs. A. Greening lost a long, old fashioned furboa between her home and Chelsea last Thursday. The finder would confer a favor on her and receive a reward by leaving it at the Herald office.

Chancellor Burwash, of Toronto, Ont., who was to have spoken before a large congregation at the M. E. church, Ann Arbor, Sunday evening, had to stop after he had been preaching only a few minutes through an attack of heart trouble.

George Ortbring died at his home in Sylvan, Friday, of pneumonia, after one week's illness. He was 36 years of age and leaves a wife and two children. The funeral was held Monday and the remains were buried in Salem cemetery near Francisco.

According to figures prepared from reports submitted to Labor Commissioner Cox, out of the 296 incorporated villages of the state 173 own halls valued at \$10,300. Last year 255 villages made public improvements worth \$572,548, and 155 villages have an indebtedness aggregating \$1,732,174.

James W. Merritt and Frank W. Hill, of Homer, have been appointed by the Glazier Stove Co. as its Pacific coast agents, and they will leave for California next month. Mr. Merritt has been superintendent of the Electric oil stove works, in Homer, and Mr. Hill was a clothing merchant of the same place.

Mrs. Augusta Mensing, wife of Henry J. Mensing, died Tuesday of erysipelas, aged 49 years. Her husband, who has been in a critical condition from the same complaint, and three children survive her. The funeral services were held this morning and the remains were interred in the Salem cemetery near Francisco.

At a meeting of the Business Men's Class of the Congregational church, held at the residence of E. G. Hoag, Monday evening, the coming social of the class to be given Wednesday, Feb. 21, was discussed and committees to make arrangements were appointed. The affair will be a "Penny Social," and as it is a new feature in Chelsea it should be the means of causing lots of amusement. The social will be solely in charge of the men of the class, who will make all the arrangements, wait on the tables, furnish the program, etc. It is proposed to make it one of the most enjoyable socials ever held here.

The Herald has received a copy of "The Empire of the South," issued by the Southern Railroad company. It is a large and beautiful work dealing with the southern states and their wonderful progress and development, the whole enriched with numerous exceedingly artistic illustrations of the life and scenes in the states described. As a comprehensive history of modern southern development and conditions in the southern states, it is especially valuable, while its treatment of southern material interests is the best ever published and makes plain the changes which have come about in the new and growing south.

The Glazier Stove Co. has been making many improvements in its facilities for handling the large volume of business that will be done by it during the coming year. Among others is the equipment of the building on the northeast corner of Main and North streets for the storage of ovens. An additional floor space of 6,600 square feet has been secured in this building. From the railroad side track to the upper story of the building a narrow gauge tressel work railway has been constructed which will greatly facilitate the loading or unloading of cars. The company expects to turn out at least 25,000 ovens this season.

L. C. Goodrich, of Ann Arbor, has been re-elected grand lecturer of the grand chapter R. A. M. of Michigan.

As soon as the necessary funds are on hand St. Mary's Catholic church, at Jackson, is to be enlarged so that it will seat 200 more worshippers.

Grass Lake postoffice is now a presidential office. Postmaster Preston has received his commission from the president and will receive a salary of \$1,000 a year.

Will Lehman and Sam Mohrlock have gone into the horse clipping business, and have purchased a new Chicago horse clipping apparatus with which to do the work.

The skimming station to be located here by the Towar Creamery Co., of Detroit, mention of which was made a couple of weeks ago in these columns will be established in the near future.

There is a farmer in Ingham county who takes 19 different papers and magazines regularly, besides taking a daily paper home nearly every time, he goes to town. And he or some member of his family finds time to read them all. That's a record hard to beat.

The Stockbridge fair association recently elected the following officers: President, B. W. Sweet; secretary, C. Cain; treasurer, F. E. Ives. Under the new management it is expected that the twenty-fifth annual fair, which will be held next fall, will be filled with new features.

The Woman's Guild of the Congregational church will give a social on Wednesday afternoon and evening, Jan. 31, in the church parlor. Supper will be served from 5 to 8 o'clock. A very cordial invitation is extended to everybody to be present and have a good time.

Asst. Inspector General Fred W. Green, of Ypsilanti, is strongly spoken of as the coming inspector general of the Michigan National Guard. State Oil Inspector Judson is a staunch backer of Lieut. Col. Green for the position, and that is about equivalent to a clinch on the job.

Jacob Bollinger, a former resident of Roger's Corners, died at the home of Adam Bohnet, in Dexter town on Monday, aged 43 years. He had suffered from Bright's disease for over two years. He was buried in Zion church cemetery. Freedom, yesterday, the funeral services being conducted by Rev. L. master.

The aggregate authorized capital stock of the 726 new corporations that filed articles of incorporation in the secretary of state's office during 1899, and of the 76 corporations which filed amended articles increasing their capital stock, was \$332,219,000. The franchise fees collected from them amounted to \$171,000.

Two meetings for the purpose of advertising the Farmers' Co-operative Beet Sugar Co., of Dundee, to secure acreage for the growth of beets, and to explain the proper mode of cultivating them are being held in Lima township today. The first was held at 2 p. m. at the Taylor schoolhouse, and the second is to be held at 7 p. m. at the town hall.

Henry H. Faber died at his home on South Main street, Friday, after three weeks' illness, of cerebral meningitis, aged 37 years. He was a hard working man, a laborer on the Michigan Central, and he leaves a wife and two children in poor circumstances. The funeral services were conducted by Rev. J. I. Nickerson. His remains were interred in Oak Grove cemetery.

The M. E. society had a crowded congregation at the first service in the basement of their new church on Sunday morning. They had been without a home for a year and a week. The old church was burned Sunday night, Jan. 8, 1899. The joy that was felt at getting back seemed to pervade everybody and all parts of the service. Rev. J. I. Nickerson's sermon was an able effort, and was greatly appreciated.

The next entertainment in the People's Popular Course, under the auspices of the Epworth League, will be a lecture by Rev. Fr. Francis Clement Kelley, chaplain of the 32nd Mich. Infantry, subject "The Yankee Volunteer." The other numbers in the course yet to come are: "The Uncle Josh Picture Co.," Feb. 23; Detroit Grand Concert Co., March 21; DeWitt Miller, "The Uses of Ugliness," April 3; The Park Sisters, assisted by C. Edmund Neil, April 13.

The members of Olive Chapter, O. E. S., will give a weighing social at Masonic hall tomorrow, Friday, evening. Each lady is requested to furnish two ribbon bows alike. She will wear one, the other will be put in an envelope, for a gentleman. The gentleman finding the mate to the bow he receives will pay the difference in their weight, at the rate of 1 cent per pound; where it exceeds 50 pounds 3/4 cent per pound. A good supper will be served. All Masons and their families are most cordially invited. Come and have a good time. It is for a good cause, so come and help.

MICHIGAN STUDENTS WIN.

Carry Off the Honors in the Intercollegiate Debate with University of Chicago.

MUNICIPAL OWNERSHIP THE SUBJECT.

Work of the Teacher Discussed in Lectures—Mummy of a Child from Arizona—Plans for the New Science Building—Meeting of Regents—Other Notes of Interest.

[Special Correspondence.]

University of Michigan, Jan. 22.—In the intercollegiate debate between the universities of Chicago and Michigan in the Central Debating league held in Ann Arbor Friday evening, January 12, the team representing the University of Michigan won. The question debated was the "Municipal ownership and operation of street railways as compared with ownership and operation by private corporations." Michigan sustained private ownership and operation. The winners in these two contests will meet in Chicago April 6 to decide the championship of the league. The question to be discussed on this occasion is "Whether the economic advantages of trusts are sufficient to justify their existence under the law." Michigan will maintain the affirmative.

A Good Record.

The University of Michigan debaters have won seven out of the ten intercollegiate debates in which the university has taken part. These debates were with the teams representing the universities of Wisconsin, Pennsylvania, Chicago and Northwestern university. The Michigan representatives won in succession the last five debates in which the university participated. In these five, 14 of the 15 judges cast their ballots for the University of Michigan teams.

Work of Teachers.

The second lecture in the course arranged by the appointment committee on subjects relating to the work of the teacher, was given January 17 by Prof. B. A. Hinsdale, of the university. The subject was "Pedagogical principles involved in preparing to teach." The other numbers in the course are: "The legal status of the teacher," Prof. F. R. Mechem; "School sanitation," Dr. Victor C. Vaughan; "Teaching history," Prof. Andrew C. McLaughlin; "The biological sciences," Prof. Jacob Reighard. These lectures will be given in February, March, April and May respectively.

A Child Mummy.

The mummy of a child from the cliff dwellings of Arizona has been contributed to the museum of the University of Michigan by Dr. J. C. Leonard, of Idaho. The little mummy is only about two feet long and weighs only a few pounds. It is still wrapped in the original cloth. Some fragments of the woven basket in which it was placed are preserved. The face and head are the only parts uncovered, and traces of the hair and eyebrows can be seen. Curator Sergeant says:

"Of course this is not really a mummy. It has not undergone the process of mummification such as was used by the Egyptians, but the peculiar air of Arizona will not entirely decompose expired remains and textures until ages have passed. Again this 'mummy' was found to be covered with the dirt of Arizona, which gave further protection. The dirt of Arizona is as peculiar as the air, and I have known raw meat to be placed on the ground and kept there without decomposition for many days."

New Science Building.

The plans of Spehr & Rohns, architects of Detroit, for the new science building in the university were adopted at the January meeting of the board of regents. The estimated cost of this building is \$200,000. It will be built in three sections. The first of these will be started the present year. The hall will be located on the north side of the campus, where the buildings occupied by the dental and homeopathic departments now stand.

Numerous Changes.

At the meeting of the board of regents changes in standing committees were made, and for the coming year they will be as follows:

Executive Committee—President Angell, Regents Butterfield, Lawton and Cocker. Finance Committee—Regents Cocker, Kiefer, Farr and Dean. Literary Department and Athletics—Regents Butterfield, Cocker and Lawton. Engineering Department—Regents Fletcher, Lawton and Kiefer. Medical, Dental and Pharmaceutical Departments—Regents Kiefer, Farr and Lawton. Law Department—Regents Farr, Butterfield and Cocker. Homeopathic College—Regents Fletcher, Dean and Sutton. Library and Museum—Regents Sutton, Dean and Butterfield. Buildings and Grounds—Regents Fletcher, Cocker and Sutton.

A Fine Gift.

Regent Lawton reported another splendid gift from Frederick K. Stearns, of Detroit. It consists of a collection of the musical scores and compositions of old and modern masters of music. There are in all 1,551 compositions, and the set is practically complete. The collection is valued at \$3,000, and added to that of the musical instruments makes the university Mr. Stearns' debtor for a

large amount. The board gave the donor a vote of thanks.

Fees Reduced.

The regents have reduced the fees of the summer school to \$15 and this will probably mean a large increase in attendance. Formerly the tuition was from five to fifteen dollars a course or \$30 per full course. To conform with the regulations of the auditor general's office the salaries of the faculty members were ordered to be paid quarterly.

Wireless Telegraphy.

Prof. George W. Patterson, of the physics department, has recently been in conference with Henry W. Ashley, general manager of the Ann Arbor railroad, with regard to the feasibility of using wireless telegraphy for communication across the northern part of Lake Michigan and between the car ferries and the shore.

Work on New Map.

Prof. I. C. Russell, of the department of geology, has addressed a letter to the superintendent of the United States coast survey requesting that work upon the new topographical map of Michigan be begun at Ann Arbor. The board of regents indorsed this request at their recent meeting.

R. H. E.

CAN SAVE SOMETHING.

Interesting Statistics Furnished by Commissioner Cox Concerning Employees in Michigan.

The general condition of the wage-earners of Michigan is shown by the canvass of Labor Commissioner Cox, which has just been completed. Special canvassers were employed, who interviewed 5,399 male wage-earners outside of the regular factory inspection canvass. The work was done in 61 villages and cities of the state. The report says:

The average age of the 5,399 canvassed was 33.4 years. Fifty-five per cent. were native born; 45 per cent. foreign born; 60 per cent. were married. Only men having employment were canvassed, and of the total number 1,477 or 27 per cent. owned their homes. The homes of 94 were free from incumbrance. About 55 per cent. of the men canvassed reported that they can save something from their earnings. Eighty per cent. reported that times were evidently improving.

The employments canvassed were artists, superintendents, foremen, bookkeepers, office clerks, compositors, salesmen, telegraph operators, electricians, engineers, firemen, millers, molders, factory hands, teamsters, day laborers, etc. The average daily wages received was \$1.78 each, the amount being considerably in excess of the wages shown by a similar canvass in 1899.

A canvass of female labor was also made, 2,102 persons being interviewed. Of this number 2,095 were supplied with employment at the time of the canvass, and 700 reported that they were able to save something from their earnings. The average age of the persons canvassed was 24.7 years. The number of foreign born was 636; native born, 1,466; married, 276; single, 1,750; widowed, 76. The average daily wages paid was 84 cents.

MARRIED SEVENTY YEARS.

Michigan's Oldest Couple Celebrate Their Wedding Anniversary at Their Home Near Battle Creek.

A rather unusual event was celebrated by Mr. and Mrs. Abraham Weed at their home near Battle Creek, the occasion being their seventieth wedding anniversary. Mr. Weed is over 94 years old. His wife is 89, and they are the oldest married couple in Michigan. Both were born in Connecticut—the husband at Darien, and the wife at Sharon, at which latter place they were married in 1830. They removed to Michigan at the close of the civil war and have lived alone ever since.

Until a year ago Mr. Weed attended to business regularly, while his wife did her own housework. She sews and does fancy work, and boasts of making up over 90 yards of muslin a short time ago, without using a sewing machine. Neither uses spectacles, and Mr. Weed possesses all but four of his teeth. He has never had a tooth filled.

FARMERS ORGANIZE.

Grangers of Bay and Adjoining Counties Form a Sugar Beet Growers' Association.

The farmers of Bay and adjoining counties met in Bay City and organized the Michigan Sugar Beet Growers' association. The objects of the association are to acquire and disseminate among its members knowledge relating to the culture and growth of sugar beets; to discuss and take action on all questions appertaining to the interests of its members and for their mutual protection; to use all lawful means to further and build up the sugar industry in the state of Michigan. Any farmer or person engaged in the business of raising sugar beets may become a member by signing the constitution or by signing a contract to raise beets for factory or sugar purposes on one of the blank forms furnished by the association duly stamped or signed by its officers.

Business Men Organize.

A public meeting of the business men was held at the council rooms in Marshall upon call of Mayor Townsend to make an attempt in booming the city by securing more manufacturing companies to locate there. A company to be known as the Marshall Improvement association was organized for that purpose.

MICHIGAN STATE NEWS.

Health in Michigan.

Reports to the state board of health from 65 observers in various portions of the state for the week ended January 13 indicate that measles and scarlet fever increased and inflammation of the kidneys decreased in area of prevalence. Consumption was reported at 190 places, measles at 78, typhoid fever at 46, scarlet fever at 94, diphtheria at 32, whooping cough at 22, cerebro-spinal meningitis at 2 places, and smallpox at Watervliet and Masonville.

Died of Fright.

Mrs. Laura Shye was taken to Grace hospital, in Detroit, suffering with an abscess. She was placed on the operating table and made ready for the work of the surgeons who gathered around her. Her husband, Joseph Shye, was present and although every assurance was given her the woman began to struggle and scream. It was a case of pure fright at the idea of a surgical operation, and before the knife was applied the woman died in the arms of the doctors.

End of a Useful Life.

Hon. A. L. Millard, president of the Lenawee County Bar association, died in Adrian at the age of 84. Mr. Millard was admitted to the bar in Ann Arbor January 17, 1837, went to Adrian four years later, and has been an active practitioner ever since. He has been one of the leading lawyers of the state, and several times his friends have pressed his name for the nomination for supreme judge. For 50 years he has been an elder of the Presbyterian church.

Died on Wedding Tour.

News was received in Flint that Rupert Hurley had died suddenly at Grand Rapids. Deceased was formerly Miss Ruperta Berridge, daughter of Mr. and Mrs. Walter Berridge, of Flint. She was united in marriage to William Hurley, a traveling salesman of Detroit. The happy couple had left upon a brief wedding trip when death came and called the bride of less than a week away.

Took His Own Life.

Austin K. Wheeler, of the wholesale grocery firm of Lemon & Wheeler, committed suicide in Grand Rapids by shooting himself. He was 44 years old, had been in business in Grand Rapids ten years and was in easy circumstances. The suicide is ascribed to ill health and despondency. A wife and one daughter survive.

Heavy Loss by Fire.

Fire destroyed the foundry, office, pattern shop and one warehouse of the Portage Lake machine works, at Ripley, causing a loss of \$85,000; insurance, \$40,000. The machine shop, with the work on hand therein, was saved. Eighty men are thrown out of employment. The works will be rebuilt on a larger scale.

News Items Briefly Told.

The crop report issued by Secretary of State Stearns says that with favoring conditions Michigan may have a fair wheat crop this year.

Work on the Gull Lake branch of the Battle Creek-Kalamazoo electric railroad has been suspended until spring.

The entire official board of the Methodist church at Novi is composed of women.

The Marquette County Agricultural society has decided to give another fair in Marquette in 1900, selecting the last week in September, the same dates it had in 1899.

The Featherbone Co., at Three Oaks, has advanced the wages of its employees ten per cent.

Cass county's new courthouse in Cassopolis, was dedicated by a session of the farmers' institute.

The Northville state savings bank has paid a seven per cent. dividend for 1899.

Joseph Hodges, a miner, aged 26, was caught by a hanging rock at Tamarack mine, in Calumet, and fatally injured.

Mrs. Harriet Frost, one of the oldest pioneers in Genesee county, and resident of Pine Run, died of old age, aged 98.

Frank Tenny, a farmer living near Fenton, was drowned while skating on Long lake.

Mrs. Albert Chandler, wife of Albert Chandler, a resident of Coldwater since 1835, died at the age of 81 years.

Ira M. Camp, for 20 years a deputy sheriff, died in Flint, aged 68 years.

Frederick Kimball Stearns, of Detroit, has presented to the University of Michigan a valuable musical library containing about 1,600 titles.

Gov. Pingree has appointed Loren C. Madison county agent for Charlevoix county.

Cass city business men have decided to discontinue on March 1 all gift and premium schemes to draw custom.

George W. Weber, a farmer living near Detroit, was robbed by footpads in Chicago of \$265.

There was manufactured on Saginaw river last year 224,660,135 feet of lumber, the smallest output since 1865.

Charles A. Golden, for 21 years city attorney, has tendered his resignation to the Monroe council.

NEVER SPEAK.

Brothers on Beaver Island Work Together Sixteen Years Without Talking to Each Other.

John and George O'Brien, of Beaver Island, quarreled more than 16 years ago and swore they would never speak to each other again. They kept the compact until George moved to Chicago two years ago.

During the long reign of silence the brothers slept in the same bed, ate at the same table, and worked at the same bench in their cooper shop, where they made quintals for fishermen. They went into the woods together to saw logs and worked all day without breaking the silence with a spoken word.

On one occasion John broke through the ice on the bay and called for help. George requested a friend to respond, saying: "You go, Jim. He wouldn't take my hand if I reached it out to him."

BATTLE WITH A BURGLAR.

Negro Detected in Act of Robbing a House Captured Only After a Desperate Struggle.

Albert Hodge, a colored burglar, had a desperate fight with Sheriff Snow and two deputies at the residence of Mrs. Nathan Coleman in Texas township, Kalamazoo county. The thief was discovered by a neighbor, and the house was soon surrounded. The negro made a dash out, firing at Deputy Clark as he fled. Clark's face was burned and his scalp grazed. In the fight which followed 14 shots were fired before Hodge was captured. Hodge was hit twice and seriously, though not fatally, wounded. Deputy Clark saved himself by dodging behind a tree, in which five bullets from Hodge's weapon were imbedded. Hodge is 67 years of age and a civil war veteran. He has served time for burglary.

REFUSED A PARDON.

William Repeke, One of the Mollitor Murderers, Had a Habit of Telling Too Many Stories.

The state board of pardons at its meeting in Jackson denied the application for pardon in the case of William Repeke, one of the Mollitor murderers. Repeke was known as "the informer." On the trial of the case he testified that four other men participated in the murder of Mollitor at Alpena 25 years ago. The four men were convicted, but were afterward pardoned upon the strength of a confession by Repeke that they were not present at the murder. Repeke now claims that the four pardoned men assisted in the murder, but that he himself had nothing whatever to do with it. The pardon board was of the opinion that Repeke has told too many stories.

A TEST CASE.

Authorities to Bring Suit Against a Chicago Man for Not Complying with a State Law.

State Dairy and Food Commissioner E. O. Grosvenor has filed a complaint in Jackson against Rollin G. Phelps, agent for the territory for Armour & Co., of Chicago, for selling what is known as "process butter" without complying with the state law in the matter of labeling the packages.

The Michigan food department is bringing this prosecution as a test, and has taken a lot of pains to prepare the case well before springing it. If it succeeds there will be plenty of other cases brought in other parts of the state against Chicago houses. The law says that all packages of process butter must be plainly marked as such.

MADE TWICE GLAD.

Rev. Axtell, the Fighting Parson, Sustained by Young People and Expects an Inheritance.

Rev. Mr. Axtell, the pugilistic parson, has been made twice glad. The young people of his congregation in Royal Oak passed a resolution rebuking their church trustees for asking him to resign and pledging him \$15 a week salary. He also received a letter from the Christian World, London, England, inquiring about his pedigree. Axtell says he believes the Christian World has taken a first step to secure his rights in the estates of his ancestors at Berthamstead, England. He is descended from Thomas Axtell, who fled from England in Cromwell's time and settled in Sudbury, Mass.

Grocers Combined. Pontiac grocersmen have formed an association for common benefit to its members. Out of 16 grocery firms, 14 joined the association. The object will be to maintain better business relations, stop selling goods below actual cost and to further the interests of the grocery men in every way.

To Train Missionaries. The Training School Publishing association, limited, of Battle Creek, has filed articles of association. Its object is the printing and publishing of special educational literature and the training of students in the same so that they may become missionaries.

A MINNESOTA FARMER DOES WELL IN CANADA.

Virde, Manitoba, 18th Nov., 1899. Hon. Clifford Sifton, Minister of the Interior, Ottawa, Canada.

Sir—Thinking that my experience in Manitoba might be both useful and interesting to my fellow-countrymen in the United States who may be looking to Manitoba and the North-West with the intention of settling there, I have much pleasure in stating that through information received from Mr. W. F. McCreary, Immigration Commissioner at Winnipeg, I was induced to visit Manitoba in February, 1898. When I called upon Mr. McCreary he spared no pains to give me all the information, &c., in his possession, the result of which was that I came here with a letter of introduction from him to the Secretary of the Virde Board of Trade. That gentleman provided me with a competent land guide and altho' there was considerable snow on the ground, I had no difficulty in selecting three homesteads for myself and sons. Having made the necessary homestead entries at the Land Office in Brandon, I returned to my home in Lyon County, Minnesota, and came back here in May following accompanied by one of my boys, bringing with us two teams of horses, implements, &c. Our first work was to erect a temporary shanty and stable, after which we broke and levelled 75 acres and put up 30 tons of hay. I went back to Minnesota about 20th July, leaving my son here. I returned in October bringing my family with me. I found that the land we had acquired was of good quality being a strong clay loam with clay subsoil. Last Spring I sowed 100 acres in wheat, 50 acres in oats & barley (75 acres of this grain was sowed on "goback" plowed last Spring.) My crop was threshed in October, the result being over 2700 bu. of grain in all. Wheat averaged 13 bu. p. ac. and graded No. 1 hard but that which was sown on land other than sod ("goback") went 24½ bu. p. ac.

To say that I am well pleased with the result of my first year's farming operations in Manitoba does not adequately express my feelings, and I have no hesitation in advising those who are living in districts where land is high in price to come out here, if they are willing to do a fair amount of work. I am 10 miles from Virde, which is a good market town, and 9 miles from Hargrave where there are two elevators. This summer I erected a dwelling house of native stone and bought a half-section of land adjoining our homesteads for which I paid a very moderate price. There are still some homesteads in this district, and land of fine quality can be purchased from the Canadian Pacific Ry. Co. at \$3.50 p. ac. on liberal terms. Good water is generally found at a depth of from 15 to 20 ft. I have 175 ac. ready for crop next year.

The cost of living here is about the same as in Southern Minnesota. Some commodities are higher and others lower in price, but the average is about the same.

I remain,
Your obt. servant,
(Signed) Jacob Reichert.

English as She Is Spoke.

Mrs. Brown—Our language is full of misnomers. For instance, I met a man once who was a perfect bear, and they called him a civil engineer.

Mrs. Smith—Yes, but that is not so ridiculous as the man they call a "teller" in a bank. He won't tell you anything. I asked one the other day how much money Mr. Jones had on deposit, and he just laughed at me.—Collier's Weekly.

Coughing Leads to Consumption.

Kemp's Balsam will stop the Cough at once. Go to your druggist to-day and get a sample bottle free. Large bottles 25 and 50 cents. Go at once, delays are dangerous.

A Meddlesome Amateur.

"Uncle Bill, what is a political love feast?" "Well, it is when a big lot of politicians get together and pledge themselves to keep outsiders from getting on to their scraps."—Indianapolis Journal.

THE VELVET BEAN.

As a Renovating Crop It Has Some Advantages Over the Cowpeas, Which It Resembles.

A bulletin of the Alabama experiment station says: The velvet bean (*Mucuna utilis*) is a plant which, in general appearance of leaves and stems, is nearly similar to the running varieties of cowpeas. The vines attain great lengths, a growth of 30 feet being usually made and much greater lengths being sometimes attained. The beans are larger than cow-

THE VELVET BEAN.

peas and usually three or four are found in each pod. The pods are short and stout, nearly black in color and covered with a coat of velvety hairs. The velvet bean belongs to the same family as the cowpea. It is a legume or leguminous plant, and, like the cowpea, the velvet bean is a renovating plant, having the power to enrich the land on which it grows.

In any comparison of velvet beans with cowpeas as a renovating crop, there is one point in which velvet beans are conspicuously superior. When frost comes the vines and leaves settle down together in such a way that the force of falling rain is broken and the network of vines is so complete that the leaves, the most valuable portion, cannot be blown or washed away. With cowpeas the case is somewhat different, the bare stems standing erect and affording no means of retaining the leaves in place. On the other hand, better implements are required to turn under vines of the velvet beans than to plow under cowpea vines. It is not advisable to attempt to grow this bean in the north.

EGGS FOR HATCHING.

How to Keep Them So That the Germ Is Not Killed and the Egg Thus Made Useless.

As to keeping eggs for hatching, the incubator people remind us that the yolk is specifically lighter than the albumen, and is buoyed up by it, and the germ, which always lies at the top, is only kept from pressing against the shell by the weight of the denser albumen forming the chalazas, this having a tendency to drag the yolk down and steady it. If the eggs are kept at too high a temperature, the albumen will get somewhat fluid and the yolks will be pressed upward against the shell, and, if allowed to remain so, will become fixed to it. Any length of time and temperature that would result in this would have killed the germ and thus rendered the egg useless. The more handling the egg has the quicker this derangement will be effected. Place eggs for hatching in a basket or box with regard to position, cover with a cloth to prevent undue evaporation by direct exposure to the air, and leave them undisturbed until wanted. They will be better than if handled and turned. Any cloth will give sufficient ventilation to keep the air around the eggs sweet if the apartment is pure.—Plowboy and Country Farmer.

The Potato Crop of 1899.

The potato crop is estimated at 242,000,000 bushels, with a yield of 181 bushels per acre. The average price may be placed at 50 cents a bushel, which is a considerable addition to the income of the farmers in certain sections. While the value of \$90 per acre is not equal to that of many crops which are grown by gardeners near large cities, it is a fairly remunerative one, and has the great advantage to many people that it does not need to be taken to market every day, like strawberries, nor at just the moment it is fit for use, like many garden crops, but it can be stored and sold when the owner is ready to attend to it after his harvest of other crops. A very small potato crop is reported in Europe generally, and we may have to supply them before the season is over.

Bees, when not gathering honey, soon settle down to a quiet condition, during which time there is little wear and tear on the system.

It is generally those farmers who need the education the least who attend the farmers' institutes in the largest numbers.

COLOR VERSUS QUALITY.

Why the Matter of Mere Beauty Should Be a Secondary Consideration to Bee-Keepers.

There has been quite a rage for yellow bees, and breeders in this country have catered to the general demand to such an extent that bees of the Italian race are produced much yellower than those found in Italy. But the tide seems now turning, and the demand is rather for bees that give a large surplus than for handsome bees. E. R. Root, editor of *Gleanings*, says:

"I hope the race for color has had its day; and while there have been several specimens of bees that have been good workers, as well as beautiful, the majority of those we have tested have had some bad traits, either in temper, swarming propensity or a lack of hardiness for wintering. Let the matter of color be only a secondary consideration. Put first, ability to get honey; second, wintering qualities; third, disinclination to swarm; temper next, and color last of all. But other things being equal, I should very much prefer gentle bees if at the same time they can have the other three desirable qualities. Color really amounts to nothing.

"Of color or markings it may be said that, of whatever blood the queen may be, she must be pure, whether Carniolan, black or Italian. A hybrid queen with an ancestry of hybrids back ten years might be able to reproduce her kind without sporting toward either the blacks or Italians. Dr. Miller has such a queen. Her bees, outstripped everything else in the apiary last season, and he is going to use her for a breeder.

"Hybrids are apt to be more or less cross. It has been observed, I believe, that the cross or 'snappy' kind are the ones that produce results in honey. Did you ever notice that it is often the 'snappy' kind of people who can get out a big day's work, even though they are not, perhaps, the most popular among their fellows?"

ARE BEAUTIFUL BIRDS.

Buff Turkeys Are Not as Popular in the Western States as They Deserve to Be.

Buff turkeys probably resulted from selected crosses of the bronze and white breeds. In size and general qualities they resemble the White Holland, but

PURE-BRED BUFF TURKEY.

with pure buff plumage. The full color is hard to get and every hatch includes birds with black or white in the plumage. This difficulty is perhaps the chief cause of lack of popularity. Buff turkeys are seldom kept on farms, although they are considered equal to the other small breeds for general purposes.—Orange Judd Farmer.

NOTES FOR BEEKEEPERS.

Keep bees to make your honey, but begin with only a few hives.

Bees are profitable because they gather up and store what would otherwise be lost.

To avoid in and out breeding it is well to introduce new blood from time to time.

The point in favor of the Italian bee is that it is the most prolific and is gentle and energetic.

Dry and warm is the rule in keeping honey if you want to retain its flavor, richness and color.

In rendering beeswax a tin, brass or copper vessel should be used. An iron vessel will darken it.

Comb honey will last for years if always kept dry and uniformly at about 80 degrees. Under these conditions it will improve.—St. Louis Republic.

Over Twenty Uses for Corn.

The Indian corn propaganda at the Paris exposition and the conventions recently held in the west in the interest of corn producers have brought out the fact that over 20 important products are now manufactured from corn. One of the most important products is distilled spirits, the demand for which has increased greatly since the invention of smokeless powder, in the manufacture of which the spirits are largely used. Among the other products made from corn are mixing glucose, crystal glucose, grape sugar, anhydrous grape sugar, special sugar, pearl starch, powdered starch, refined grits, flourine, dextrine, British gum, granulated gum, corn paste, corn oil, corn oil cake, rubber substitute, gluten feed, chop feed, gluten meal and corn germ. With the present economical methods of manufacture not a particle of corn is wasted. There is no refuse.—California Vineyardist.

The Craving for Stimulants.

This question has lately attracted a great deal of attention from the medical profession. The use of stimulants seems to be increasing. This clearly shows an exhausted condition of the nerves and blood, which may be remedied only by strengthening the stomach. Hostetter's Stomach Bitters will do this for you. It brings all the energy of a stimulant with no injurious effect. It cures dyspepsia, constipation and nervousness.

Just Like a Razor.

The other day a man walked up to the cashier's desk in a large stockbroking concern and asked for a pen to indorse a note. To his disgust, the pen sputtered, blotting his signature, and he threw it aside with the popular exclamation: "Hair on it."

"No wonder," one of the bystanders remarked, "when it is shaving notes all day."—Chicago Chronicle.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. Cheney & Co., Toledo, O. Sold by Druggists and Testimonials. Hall's Family Pills are the best.

Alcoholic or Not.

Customer—My room is full of rats, and—Drug Clerk—Yes, sir. Do you want bromo or strychnine?—Philadelphia Press.

Try Grain-O! Try Grain-O!

Ask your grocer to-day to show you a package of GRAIN-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it like it. GRAIN-O has that rich seal brown of Mocha or Java, but it is made from pure grains, and the most delicate stomachs receive it without distress. 14 the price of coffee. 15 cts. and 25 cts. per package. Sold by all grocers.

Something for Mothers to Think About.

EVERY CHILD born into the world with an inherited or early developed tendency to distressing, disfiguring humors of the skin, scalp, and blood, becomes an object of the most tender solicitude, not only because of its suffering but because of the dreadful fear that the disfiguration is to be lifelong and mar its future happiness and prosperity. Hence it becomes the duty of mothers of such afflicted children to acquaint themselves with the best, the purest, and most effective treatment available.

That the Cuticura remedies are all that could be desired for the alleviation of the suffering of skin-tortured infants and children and the comfort of worn-out worried mothers has been demonstrated in countless homes in every land. Their absolute safety, purity, and sweetness, instantaneous and grateful relief, speedy cure, and great economy leave nothing more to be desired by anxious parents. Evidence is found in the mass of letters received from grateful parents, testifying to the incalculable benefits they have derived from the use of these preparations in the treatment of infantile skin and scalp disorders. There is a ring of truth and sincerity about the testimonials here submitted that stamps them genuine, and when a mother writes, as does Mrs. E. Butler of 1289 Third Avenue, Brooklyn, N. Y., in simple, grateful language, of the good Cuticura has accomplished in her home, parents everywhere must regard these remedies as household necessities. Mrs. Butler says:—

"My oldest boy, age nine years, was troubled with sores on different parts of the body, especially on the leg, about twenty-four in all. They were about the size of a five-cent piece, and would fester very much and eject a pus. They were very painful. After my former experience with the cure of my little girl with CUTICURA remedies, I did not bother with the doctor in this case, but gave him the CUTICURA treatment which completely cured him in four weeks. As a rule, my four children are very robust and healthy, these two, the baby and the eldest boy, being the only ones ever troubled with anything like this I mentioned, but thanks to CUTICURA remedies they are all now in perfect health."

What can be more convincing to a mother than the following graphic letter from Mrs. J. C. Freese of 300 South First Street, Brooklyn, N. Y.:—

"My baby was about four weeks old when he began to suffer from that terrible disease, eczema. I tried every remedy I thought would do him good. I even called in the doctor, but I used his medicine to no account. I did not know what to do with him. He cried all the time and his face was equal to a raw piece of meat. It was horrible, and looked as if there never was any skin on it. I had to carry him around on a pillow. I was fairly discouraged. I was then recommended to use CUTICURA remedies. The first time I used them I could see the change. I used about half a box of CUTICURA Ointment, and not one half cake of CUTICURA SOAP, and at the end of one short week my baby was entirely cured. There has never been a trace of it since. To-day his skin is as smooth and soft as a piece of silk."

Another remarkable instance of the effectiveness of the Cuticura remedies is found in the terrible experience of the baby daughter of Mr. R. A. Lapham, 111 1/2 West Side Square, Springfield, Ill. Mr. Lapham writes as follows:—

"Our little daughter was troubled from her birth with eczema. Her face, arms, hands, and neck would break out with red pimples which would swell and become terribly inflamed, water would ooze out like great beads of perspiration, finally this would dry up and the skin would crack and peel off. She suffered terribly. Had to wear soft mittens on her hands to keep her from scratching. We gave two of our leading physicians a good trial, but neither of them helped her in the least. I purchased CUTICURA SOAP, CUTICURA Ointment, and CUTICURA RESOLVENT. She improved at once and is now never troubled, although we used less than one bottle of RESOLVENT, three boxes of CUTICURA, and CUTICURA SOAP."

In a few forceful words, Mrs. C. Brand of Conesville, N. Y., vividly portrays an experience common to many mothers, and her letter, which follows, is full of comfort and encouragement for anxious parents:—

"Two years ago this winter my boy began to break out with a scaly rash. It nearly covered his back and calves of legs. I heard glowing reports of CUTICURA remedies and thought to try them. Three cakes of CUTICURA SOAP, two boxes of CUTICURA Ointment, one bottle of CUTICURA RESOLVENT cured him. I think them wonderful remedies."

The economy of the Cuticura treatment is shown by the letter of Mr. W. M. Nichell, of Lexington, Okl., who spent one thousand dollars with doctors, specialists, and medical colleges in a vain attempt to find relief for his little son. A friend recommended the use of the Cuticura remedies, and he gives the following account of the cure:—

"My son, when he was six weeks old, had a breaking out on the top of his head. It spread all over his head, and then his arms broke out from shoulder to wrist. Around his body and around his legs from his knees to his ankles, was a solid scab. My family doctor treated him for eighteen months, but no good was accomplished. I tried four more, and then a medical college in St. Louis six months. No good yet. Spent not less than a thousand dollars in money and time. Old Mr. Barney Clap insisted on my trying CUTICURA remedies, telling me he had a spell like my child's himself. By the time my wife had used the CUTICURA Ointment up, he began to improve and got so he could sleep short naps, and gave me and my wife some rest. Thank the Lord, he is now well, fat, hearty, and stout as any boy, after six long years of itching, crying, and worrying. CUTICURA remedies cured him."

Three children in one household suffering simultaneously from eczema. Such was the distressing condition of Mrs. Annie Ring of 515 East Thirteenth Street, New York City, who tells her experience in these words:—

"My second child got eczema when seven months old. Three months later my first child got it, and following him the last one, two years old, fell a victim. For twenty months they suffered fearful agony. Their whole bodies, especially their faces, were so sore and raw that the little ones were blind half the time. No words can describe the suffering of my second child, whose whole body was one bloody mass. He was constantly crying, could get no sleep, and he actually did not look human. I tried doctor after doctor, but none afforded the slightest relief. I decided to try CUTICURA. The first application brought relief in each case, and after fourteen days' treatment with CUTICURA SOAP and CUTICURA Ointment, the worst case was cured, and the whole neighborhood is surprised at the wonderful effect of CUTICURA."

One of the most wonderful of cures is that of the little daughter of Mrs. G. A. Conrad of Lisbon, N. H., whose sufferings from eczema were so intense that her hands had to be tied to keep her from tearing her flesh. The mother writes:—

"When my little girl was six months old, she had eczema. We had used cold creams and all kinds of remedies, but nothing did her any good; in fact, she kept getting worse. I used to wrap her hands up, and when I would dress her, I had to put her on the table, for I could not hold her. She would kick and scream, and when she could, she would tear her face and arms almost to pieces. I used four boxes of CUTICURA Ointment, two cakes of CUTICURA SOAP, and the CUTICURA RESOLVENT, and she was cured, and I see no traces of the humor left. I can truthfully say that they have saved her life."

It will afford us pleasure to have parents whose little ones are afflicted with any form of skin, scalp, or blood humor, write to any one of the above addresses for corroboration of the facts given, and we have no doubt that such an appeal will elicit still stronger testimony regarding the wonderful curative properties of the CUTICURA remedies. The full set, for complete external and internal treatment, costs but \$1.25, and consists of CUTICURA SOAP (25c.), to cleanse the skin of crusts and scales and soften the thickened cuticle; CUTICURA Ointment (50c.), to instantly allay itching, irritation, and inflammation, and soothe and heal, and CUTICURA RESOLVENT (50c.), to cool and cleanse the blood. A single set is often sufficient to cure the most torturing, disfiguring skin, scalp, and blood humors, rashes, itches, and irritations, with loss of hair, when the best physicians, and all other remedies fail.

BRITISH MEDICAL INSTITUTE
303 E. Main St., JACKSON, MICH.
TREATS ALL DISEASES OF MEN AND WOMEN.

WEAK MEN restored to vigor and vitality. Organs of the body which have been weakened through disease, overwork, excess or indiscretions, restored to full power, strength and vigor by our new and original system of treatment.

COUNTY NEWS.

A new furnace has been placed in the U. B. church at Waterloo.

An independent military company is being organized in Saline. It already has 50 members.

Dexter farmers are marketing considerable choice hickory and elm which is being shipped to Jackson.

Will Mathews, of Bridgewater, lost two fingers of his right hand by getting them caught in a toddler shredder on Wednesday of last week.

The Ann Arbor Chicory Co. is making contracts with farmers to raise chicory roots again this year and offers \$1.00 a ton more for the product this year than last.

John Heeschelwerdt, of Sharon, had his shoulder dislocated Monday of last week by being thrown out of his buggy which came uncoupled as he was driving along.

The Anti-Saloon League, of Ann Arbor, will observe next Sunday as Anti Saloon Sunday, and will furnish speakers who will occupy the pulpits of the various churches on that day.

The new science building of the U. of M. at Ann Arbor, is to be located on the campus, facing North University avenue. Spiers & Rohm, of Detroit, will be the architects, and it will cost \$250,000.

At the recent meeting of the Washtenaw County Dental society the following officers for the ensuing year were elected: Dr. John Welling, of Ypsilanti, president, Dr. W. H. Jackson, of Ann Arbor, vice-president, and Dr. R. B. Howell, of Ann Arbor, secretary and treasurer.

The Phi Delta Phi frat house in Ann Arbor was damaged \$2,500 worth by fire Wednesday evening of last week. The house is owned by Mrs. John V. Sheehan. The students who occupy the house tried for 10 minutes to extinguish the fire with a garden hose and it had 20 minutes start before the fire department got there.

Mrs. Mary Hall's barn in Manchester was burned Jan. 13. A cow, about 500 bushels of corn and 500 bushels of wheat, a quantity of hay, 18 loads of corn stalks and a straw stack were burned, entailing a loss of about \$1,500, with an insurance in the Southwestern Farmers' Mutual, which company adjusted the loss at \$775. There was no insurance on the wheat.

Christian Klueger, of Scio, was felling trees in his woods, Wednesday of last week and losing his head as the tree he was cutting commenced to fall, ran with the tree instead of away from it. As a result Mr. Klueger had his nose broken, his left shoulder dislocated, his left ankle sprained and his side badly injured by the tree falling on him.

If fortune disregard thy claim
Don't hang thy head in fear and shame
But marry the girl you love best
Rocky Mountain Tea will do the rest.
Ask your druggist.

CULLING.

This is Generally Done Throughout the Summer.

Culling is something for which there is no regular time, but it is generally done throughout the summer. When a chicken is killed for the table it is usually first examined by the housewife, and if it has too many disqualifying points, or any, for that matter it does not rate for the pot. Culling is not always carried on in this manner on the farm, for so many young birds do not develop in feather until they have gone through the molt, and when feathers are regarded as a point of merit it is necessary to have them show up well before a decision can be made as to what to cull.

In reality all birds that are not desired for breeding purposes should now be taken from those intended for that purpose and pushed for market or sale. If they are to be sold for breeders all well and good, they may be treated accordingly.

We know of some people who cull in another manner. They raise all the birds they can, sell the best ones whenever a purchaser comes around, and what is left, after several buyers have had a selection, are the ones used for next year's breeding. This is culling with vengeance, and culling that will eventually produce nothing but culls. This is illustrated in the manner in which Bantams are produced. Late and small chickens are taken year by year as breeders, and instead of grading up it is grading down, and it will have the same effect on stock intended for the upgrade. Improvement cannot come from stock that is selected in a careless manner. It can only be produced by selecting those having the desired characteristics. Let the culling process go on, and do not try to carry anything through the winter that will lose its owner money.

WANTED—SEVERAL BRIGHT AND HONEST persons to represent us as Managers in this and close by counties. Salary \$300 a year and expenses. Straight, bona-fide, no more, no less salary. Position permanent. Our references, any bank in any town. It is mainly office work conducted at home. References. Enclose self-addressed stamped envelope. THE DOMINION COMPANY, Dept. 31, Chicago.

Mrs. Ballington Booth, of the Volunteers of America, will speak in Ann Arbor Saturday evening, Feb. 8.

Probate Order.

STATE OF MICHIGAN, County of Washtenaw, ss. At a session of the Probate Court for the County of Washtenaw, holden at the Probate Office in the City of Ann Arbor, on Friday, the 18th day of January, in the year one thousand eight hundred and ninety nine.

Present, H. Wirt Newkirk, Judge of Probate.

In the matter of the Estate of Maria E. Furgeson, deceased.

Frank Joslyn, executor of the last will and testament of said deceased, comes into court and represents that he is now prepared to render his final account as such executor.

Thereupon it is ordered that Wednesday, the 14th day of February, next, at ten o'clock in the forenoon, be assigned for examining and allowing such account, and that the devisees, legatees and heirs at law of said deceased, and all other persons interested in said estate, are required to appear at a session of said Court, then to be holden at the Probate Office, in the City of Ann Arbor, in said County, and show cause, if any there be, why the said account should not be allowed. And it is further ordered, that said executor give notice to the persons interested in said estate, of the pendency of said account and the hearing thereof, by causing a copy of this order to be published in the Chelsea Herald, a newspaper printed and circulating in said county, three successive weeks previous to said day of hearing.

H. WIRT NEWKIRK,
Judge of Probate.

F. J. LEHMAN, Probate Register.

Mortgage Sale.

OCTOBER 10th, 1898, Mary Ann Harris made and executed a mortgage to Helen McAndrew, which mortgage was recorded in the office of the Register of Deeds for Washtenaw county, Michigan, October 11th, 1898, in Liber 71 of mortgages, on page 591.

October 7th, 1899, Mary Ann Taylor (formerly Harris) made and executed a mortgage to Helen McAndrew, which mortgage was recorded in the office of the Register of Deeds for Washtenaw county, Michigan, October 8th, 1899, in Liber 80 of mortgages, on page 326.

Said mortgages were upon the following described parcel of land, situate in the city of Ypsilanti, county of Washtenaw, and state of Michigan, to wit: The west half of lot number thirty-three (33) in H. W. Larzere's addition to the city of Ypsilanti. These mortgages were, on the 24th day of January, 1899, duly assigned, by said Helen McAndrew, to William Perrel, which assignment was, on the 18th day of March, 1899, recorded in said Register's office, in Liber 12 of mortgages on page 138.

The amount claimed to be due on said mortgages is Three Hundred and Sixteen and 06/100 dollars, principal and interest; Thirty dollars attorney fees, as provided by law, and Twenty-nine and 80/100 dollars taxes on said premises, paid by said assignee.

Default having been made in the conditions of said mortgages, and no suit or proceedings at law having been instituted to recover the debt thereby secured, Notice is hereby given that said mortgages will be foreclosed by a sale of said mortgaged premises, at public vendue, to the highest bidder, on Monday, the 23rd day of April, 1900, at 10 o'clock in the forenoon (Standard time), at the south door of the court house in the city of Ann Arbor, county and state aforesaid.

Dated, January 32, 1900.
WILLIAM PERREL,
Assignee of Mortgages.
FRANK JOSLYN,
Attorney for Assignee,
Ypsilanti, Mich.

Probate Order.

STATE OF MICHIGAN, County of Washtenaw, ss. At a session of the Probate Court for the County of Washtenaw, holden at the Probate Office in the City of Ann Arbor, on Friday, the 18th day of January, in the year one thousand eight hundred and ninety nine.

Present, H. Wirt Newkirk, Judge of Probate.

In the matter of the Estate of George Michael Stapish, deceased.

Charles E. Stapish, executor of the last will and testament of said deceased, comes into court and represents that he is now prepared to render his final account as such executor.

Thereupon it is ordered that Monday, the 20th day of January, next, at 10 o'clock in the forenoon, be assigned for examining and allowing such account, and that the devisees, legatees and heirs at law of said deceased, and all other persons interested in said estate, are required to appear at a session of said Court, then to be holden at the Probate Office, in the City of Ann Arbor, in said County, and show cause, if any there be, why the said account should not be allowed. And it is further ordered, that said executor give notice to the persons interested in said estate, of the pendency of said account and the hearing thereof, by causing a copy of this order to be published in the Chelsea Herald, a newspaper printed and circulating in said county, three successive weeks previous to said day of hearing.
